South Complex Fire Weather Forecast

FORECAST NO: 35 NAME OF FIRE: South Complex

PREDICTION FOR: Thursday Day Shift UNIT: Shasta-Trinity National Forest

SHIFT DATE: Aug 20, 2015 SIGNED: David J. Shallenberger Incident Meteorologist

FORECAST ISSUED: Aug 19, 2015 @ 1900 PDT

WEATHER DISCUSSION:

A very weak cool front will move through the area with slightly cooler temperatures and higher RH's expected. Northwest winds aloft will also develop over the area. There is a potential for the inversion to partially break late in the afternoon at higher elevations. However, the lack of instability with this trough and potential smoke from surrounding fires will prevent any significant clearing.

Weather Forecast for Thursday:

Weather: Smoke and haze, dense at times.

High Temperature ... 83°-90°

Min RH (Ridgetops).....15-20% **Min RH (Valleys).....**25-30%

20-FOOT WINDS:

Ridgetop......... Northwest at 4 to 8 mph early, becoming 6 to 10 mph after noon.

Slope/Valley..... Light and variable, becoming upslope and up-valley at 4 to 8 mph after noon.

Weather Forecast for Thursday Night:

Weather: Smoke, dense at times.

Low Temperature (Ridgetops).....51°-56° Low Temperature (Valleys).......59°-66°

Max RH (Midslopes/Ridgetops)......35-45% Max RH (Valleys)......84-92%

20-FOOT WINDS:

Ridgetop...... Northwest at 6-10 mph.

Slope/Valley..... Downslope/downvalley 2-4 mph after 2000.

Weather Forecast for Friday:

Weather: Smoke and haze in the morning with brief partial clearing late.

High Temperature ... 82°-88°

Min RH (Ridgetops)......20-25% Min RH (Valleys)......25-35%

20-FOOT WINDS:

Ridgetop...... Northwest at 4 to 8 mph early, becoming 8 to 13 mph after noon.

Slope/Valley..... Light and variable, becoming upslope and up-valley at 6 to 10 mph after noon.

EXTENDED OUTLOOK for Saturday and Sunday

Another ridge begins to build in for late Saturday and into Sunday with a return to warmer temperatures and strengthening inversion and smokey conditions.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 35	TYPE OF FIRE: Wildland Fire
FIRE NAME: South Complex	OPERATIONAL PERIOD: 0600 – 1800, August 20, 2015
DATE ISSUED: AUGUST 19, 2015	TIME ISSUED: 2030
UNIT: Shasta-Trinity NF	SIGNED: /s/ Ken Larson, FBAN

INPUTS

WEATHER SUMMARY:

See attached Fire Weather Forecast

Discussion: A weak cold front moving through the area will bring slightly cooler temperatures and higher humidity. There is a potential the inversion may partially break late afternoon at higher elevations but don't expect any significant clearing.

Weather: Smoke and haze, dense at times.

Max Temp: 83-90°

Min RH: 25 - 30% valleys, 15-20% ridgetops

Winds (20 foot): Ridgetop: Northwest 4-8 mph early, becoming 6-10 mph after noon

Slope/Valley: Light and variable, becoming upslope/up-valley 6-10 mph with some gusts to 12 mph.

FIRE BEHAVIOR

GENERAL

Expect the fire behavior to become more active in the afternoon, primarily upslope/up valley with some flanking. Expect occasional upslope runs. Backing fire and roll-out will contribute to spread. Moderate fire behavior should be anticipated if the inversion lifts. Hayfork ERC for August 19 was 54.

SPECIFIC FIRE BEHAVIOR

Brush/previous burn areas: potential worst-case surface fire spread will be 10-20 chains/hour with flame length 4-6 feet. Backing fire rate of spread to 2 chains/hour. Potential for short duration crown runs in brush and live oak. Maximum spotting distance up to ¼ mile. Probability of ignition at the peak of the burning period will be 70-80%.

Timber fuel types: potential worst-case surface fire spread will be 4-6 chains/hour with flame length 3 to 5 feet. Backing fire to 2 chains/hour. Individual and group-tree torching and short-duration crown runs should be expected. Spotting distance to ¼ mile. Probability of ignition will be 70-80%.

Areas of Concern:

- Divisions L, M: fire will keep actively backing on the east side of South Fork Trinity River with occasional torching and short runs. Spotting over the river is the primary concern for these Divisions.
- Divisions Y, Z: Fire has already become established at the top of Olsen Creek drainage and could move North toward Division Z or South toward the 3N05 Road if backing continues. Upslope movement with torching and short duration crown runs is possible.

AIR OPERATIONS

Air operations may be limited due to poor visibility caused by smoke.

Sunrise: 06:28 Sunset: 20:04

SAFETY

Torching and short duration crown runs are still possible under the inversion due to continued low humidity and warm temperatures. Pay attention to changing weather conditions as increasing winds could help break down the inversion.

DIV	HAZARDOUS ACTIONS /		S 215A) Day
	CONDITIONS	MITIGATIONS / WARNINGS / REME	
ALL	DANGER TREES	 Follow "Hazard Tree Safety" guidelines, IRPG page Post lookouts, or use a spotter in mop-up areas with Don't park vehicles or take breaks in high concentrate Establish trigger points for disengagement during him 	n personnel. ations of hazard trees.
ALL	TRAFFIC & DRIVING	 Practice "Defensive Driving" techniques. Use spotters when backing. Always use headlights. Use warning lights when working on roads or traveli Observe posted speed limits. Use chock blocks, turn wheels into hill. Many roads are narrow and mid slope, use caution. 	2.0
ALL	STRUCTURE PROTECTION	 Review Structure Protection; IRPG pages 12-16. Do not commit to stay on a structure unless the area represents an adequate safety zone. Set trigger points to disengage and allow adequate and secondary safety zones. 	
ALL	STEEP TERRAIN & ROLLING DEBRIS	 Maintain 8'-10' spacing when working & walking. Don't work above any personnel. Evaluate necessity to send personnel in areas with l 	imited access
ALL	ENVIRONMENTAL HAZARDS	 Keep alert for wildlife, rattlesnakes, insects, and plar placement around rocks. Personal hygiene is #1 when it comes to Poison 	nts. Watch footing and hand Oak Prevention.
ALL	AIR OPERATIONS	 Follow " Aviation Watch-Out Situations" on page 44, IRP Refer to page 57, IRPG for directing bucket drops. Ensure positive communication with all air resources. 	G
ALL	HEAT RELATED ILLNESS (HRI) & DEHYDRATION	 Drink 2 to 1 water to sports drinks. Take Frequent breaks, minimum of 10 minutes every Recognize symptoms of HEAT RELATED ILLNESS Lack of energy, Headaches, dizziness, lack eating habits, hot skin, and lack of sweating 	which include of rest, no hunger, poor
ALL	MOP UP	 Use all required PPE, including eye protection. Maintain proper spacing and overhead clearance. Be alert for stump holes and root cavities. Minimize exposure to smoke, and rotate personnel ir Evaluate unburned islands/Increase situational awar 	nto clean air when practical.
DIV M, S, Y Z	FIRING OPERATIONS	 Conduct thorough briefing for all personnel (inside re Qualified personnel for all assignments. Trainees to Establish LCES prior to implementing burning operat Assign an over-all Firing Boss to coordinate ignitions burning operations are planned for multiple locations 	ar cover IRPG). have qualified trainer. ions (IRPG p. 7). when simultaneous
DIV M,O,Q S,T,Y, Z Struct.	HEAVY EQUIPMENT OPERATIONS	 Ensure communications are established with operator Use hand signals if other communications are unavar Maintain a 50'-100' exclusion area around equipment Use a spotter when backing. Maintain 200' clearance around masticator operation 	ors. ilable. t.
DIV T, Y	INDIRECT LINE CONSTRUCTION	 Establish and maintain LCES. Locate line in favorable location, lighter fuels and ger possible. Utilize natural or existing barriers. If possible burn out or backfire as line construction presented. 	ntler topography when
ALL	MARIJUANA PLANTATIONS	 Be aware of evidence that cultivation has occurred in If you stumble upon an area with probable cultivation exit on the same route you arrived and notify supervi 	the area. be extremely cautious, sor immediately.
DIV L,M,S, Z	HIGH VOLTAGE POWER LINES	 Smoke can conduct electricity; stay 150' clear of lines Do not operate heavy equipment under power lines Watch for fallen power lines, stay 200' away, notify yo Follow power line safety guide in the IRPG page 24 	s / towers in heavy smoke.
INCIDENT	NAME: South Complex	DATE PREPARED: August 19, 2015 TIME PREPARED: 1700 HOURS	OPERATIONAL PERIOD Day Shift 08/20/15 0600-1800 Prepared by S. Davis T. OConnell

Lookouts Communications Escape Routes Safety Zones

South Complex

Operation Period: 08/20/2015 Day Shift

SAFETY MESSAGE

WHAT IS THE PROBABILITY OF SUCCESS?

- When you are developing your tactical plan honestly weigh the probability of successfully completing your objectives.
- Do you have the time, resources, logistical support, and supervision needed for the assignment?
- Do you have all elements of your safety plan in place?
- Are the risks associated with the assignment worth the gain?
- When your probability of success falls below 75% it should be a red flag to consider an alternative plan.

MAJOR HAZARDS AND RISKS

STEEP TERRAIN	ROLLING MATERIAL	HEAVY EQUIPMENT
FATIGUE	DEHYDRATION	HAZARD TREES
SPOT FIRES	DRIVING	COMPLACENCY

Be sure all elements of your safety plan are in place prior to engagement

Look Up, Look Down, Look Around During Mop Up

- *Look Up: Check the sky for any weather changes such as building or approaching thunderstorms, wind shifts or increasing in speed. Watch for air operations and water drops. Look for snags and the potential for rolling material.
- *Look Down: Watch your footing. Keep an eye out for snakes, bee's nests, Stump holes, and ash pits.
- * Look Around Check for flagging identifying hazards in the area, and general terrain features. Keep an eye on fellow firefighters for signs of heat stress and fatigue.

Driving Rules

- Keep your seat belt on!
- Keep your eyes on the road!
- Keep your speed down!
- 20 MPH on the pavement
- 15 MPH maximum off pavement
- Uphill traffic yields to downhill traffic
- Reduce speed on the narrow sections of the road and on turns with poor sight lines
- Park well off of the road

FINAL

TRAINING SPECIALIST MESSAGE

If you are demobing and finishing your training assignment, you must close out with the South Complex Training Specialists <u>no later</u> than 20:00, tonight, 8/20.

-After That-

All South Complex training records will be moved to the TNSP Desk at ICP in Hayfork and all "open" training assignments will be closed out there.

Plan Ahead!

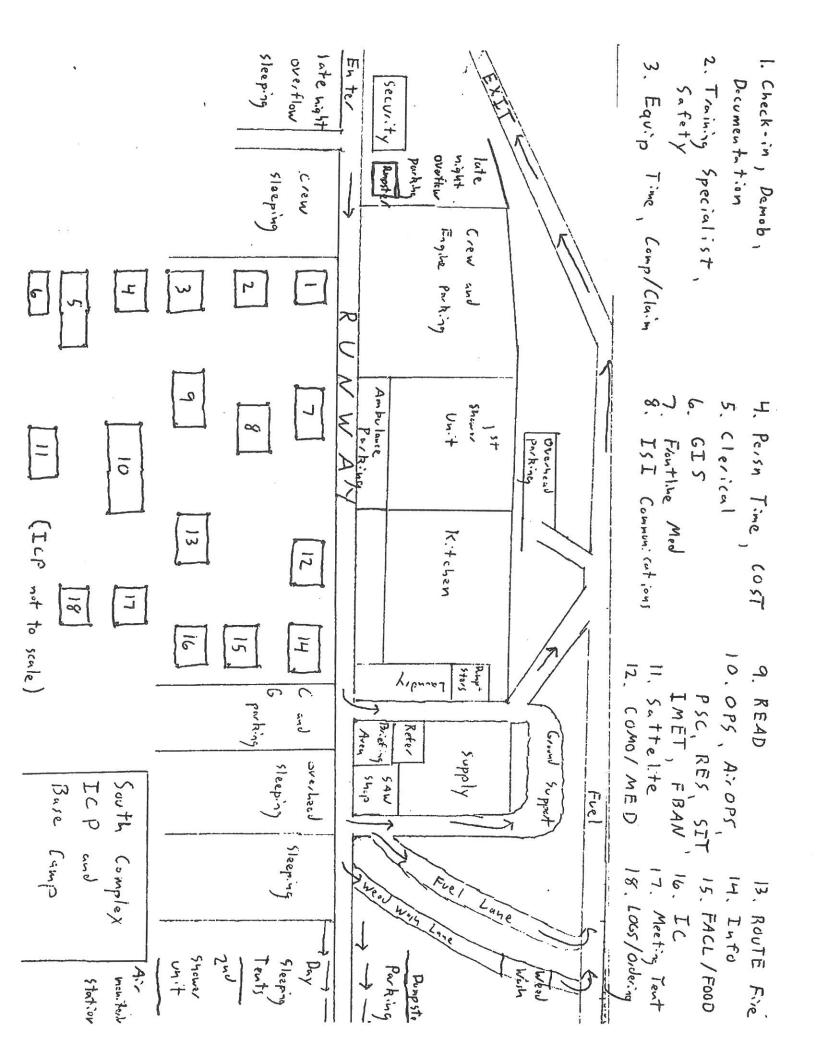

Brad Smith - TNSP Sean Wolf - TNSP(t)

INCIDENT TRAINEE REGISTRATION FORM

Complete $\underline{\textit{ALL}}$ fields and return to Training Specialist or DROP BOX for entry into database.

Remember to close out training packets with the Training Specialist before DEMOB.
