# FIRE BEHAVIOR FORECAST TYPE OF FIRE: Wildland Fire

FIRE NAME: Gasquet Complex OPERATIONAL PERIOD: August 07, 2015

DATE ISSUED: August 06, 2015

UNIT: Smith River NRA, Six Rivers NF

SIGNED: Brunk / Ambril

Typed/printed:/s/ Byron R. Kimball FBAN

### **INPUTS**

**WEATHER SUMMARY:** LOW PRESSURE MOVING TO THE EAST ACROSS CENTRAL CALIFORNIA WILL MAINTAIN EASTERLY FLOW OVER THE GASQUET COMPLEX

INTO FRIDAY. RECOVERIES OVERNIGHT WILL BE MODEST DUE TO THE OFFSHORE FLOW.

MAX TEMPERATURE.....73-81.

FORECAST NUMBER: #4

MIN HUMIDITY......33-40 PERCENT.

EYE LEVEL WINDS.....EAST WINDS 7 MPH WITH GUSTS TO 11 MPH BECOMING

NORTH IN THE AFTERNOON.

For more specific information, please see the Spot Weather forecast

### **OUTPUTS**

### FIRE BEHAVIOR

### GENERAL:

Lower temps and increasing RH will lead to less fire activity this burning period. West and South edges present some concerns due to the winds. Have now had continuous presence of fire in timber fuels for 4+ days. STAY AWARE. Continue to monitor for spots and rollout.

# SPECIFIC:

Timber Understory: Fire behavior in the Understory models should decrease. ROS and Flame Length will be more modest and have a reduced intensity.

ROS: 5 to 10 ch/hr.

FL: 6 to 8 ft.

Timber Litter: Timber Litter fire behavior is also decreasing. Dirty burns and incomplete consumption could lead to less distinct fire edges.

ROS: 3 to 6 ch/hr.

FL: 2 to 3 ft.

Rollout of heavier fuels continues to present a concern as the fires work into the drainages. Be prepared for a slope reversal run if fire establishes with sufficient heat.

### AIR OPERATIONS:

Marine Layer comes back into play as the Low Pressure pulls moist air into the fire area. Clearing by late morning back to the coast.

### SAFETY

Be heads up for unstable trees and snags due to instability in the root structures from the consumption of securing material. Increased wind may be just enough to knock over.

# **Spot Forecast for Gasquet Complex Fire**

National Weather Service Eureka 422 PM PDT Thu Aug 6 2015

IF CONDITIONS BECOME UNREPRESENTATIVE, CONTACT THE NATIONAL WEATHER SERVICE. SPOT FORECAST FOR GASQUET COMPLEX...USFS NATIONAL WEATHER SERVICE EUREKA CA 422 PM PDT THU AUG 6 2015

FORECAST IS BASED ON REQUEST TIME OF 1550 PDT ON AUGUST 06. IF CONDITIONS BECOME UNREPRESENTATIVE...CONTACT THE NATIONAL WEATHER SERVICE

DISCUSSION...LOW PRESSURE MOVING TO THE EAST ACROSS CENTRAL CALIFORNIA WILL MAINTAIN EASTERLY FLOW OVER THE GASQUET COMPLEX INTO FRIDAY. RECOVERIES OVERNIGHT WILL BE MODEST DUE TO THE OFFSHORE FLOW...BUT WILL BENEFIT FROM A DEEPER MARINE LAYER AROUND THIS LOW. IN THE WAKE OF THE LOW...ONSHORE FLOW WILL BRING A SLIGHT COOLING TREND WITH A MORE PRONOUNCED INCREASE IN RECOVERIES. THUNDERSTORMS ARE FORECAST TO REMAIN WELL EAST OF THE COMPLEX FRIDAY.

### FRIDAY...

SKY/WEATHER.....PARTLY CLOUDY. MAX TEMPERATURE.....73-81. MIN HUMIDITY......33-40 PERCENT. EYE LEVEL WINDS.....EAST WINDS 7 MPH WITH GUSTS TO 11 MPH BECOMING NORTH IN THE AFTERNOON. SURROUNDING RIDGE...EAST WINDS 10 MPH WITH GUSTS TO 20 MPH BECOMING NORTH IN THE AFTERNOON. MIXING HEIGHT.....500 FT AGL INCREASING TO 3400 FT AGL LATE IN THE MORNING...THEN DECREASING TO 300 FT AGL LATE IN THE AFTERNOON. MIXING WINDS......NORTHEAST 15 MPH. WIND (20 FT).....EAST WINDS 7 TO 11 MPH WITH GUSTS UP TO 20 MPH THEN BECOMING NORTH 8 MPH WITH GUSTS TO 14 MPH IN THE AFTERNOON. LAL....1. CWR..... PERCENT. FRIDAY NIGHT... SKY/WEATHER.....PARTLY CLOUDY. MIN TEMPERATURE....53-61. MAX HUMIDITY......85-95 PERCENT. EYE LEVEL WINDS.....NORTH WINDS BECOMING EAST 8 MPH WITH GUSTS TO 15 MPH OVERNIGHT. SURROUNDING RIDGE...NORTH WINDS BECOMING EAST 12 MPH WITH GUSTS TO 25 MPH OVERNIGHT. MIXING HEIGHT.....300 FT AGL. MIXING WINDS......NORTH 15 MPH. WIND (20 FT).....NORTH WINDS BECOMING EAST 10 MPH WITH GUSTS TO 20 MPH OVERNIGHT. LAL....1. CWR..... PERCENT.

# Incident within an Incident Action Plan

# **Position Assignment Supportive Actions**

## **Division Supervisor**

- See items 1-6 on page one
- If unable to access accident/incident location, delegate command to a closer qualified resource

## **Medical Unit Leader**

- Respond to Comm Unit as soon as possible
- Coordinate with Division Supervisor to ensure proper resources are rapidly ordered
- Assign a MEDL to the scene and other positions to support the response as needed
- Monitor condition updates of patient(s) and coordinate response with Operations

### **Communications Unit Leader**

- Maintain clear radio traffic and monitor communications to support response
- Recommend appropriate security and investigative process
- Assess the need for critical Incident Stress Response

### Safety Officer

- Provide for Safety personnel on scene as needed
- Recommend appropriate security and investigative process
- Assess the need for critical Incident Stress Response

### Air Attack Supervisor

- Obtain coordinates of the emergency location
- Coordinate air-medical response
- Assist and support the designated Point of Contact with communications and coordination of the emergency response as necessary

# IC, Command & General Staff

- Manage the emergency and direct specific responsibilities to individual positions to provide an appropriate response
- Notify the host unit and host dispatch center of the size-up information
- Constantly monitor and assess the appropriate response and adapt direction as needed
- Submit all documentation pertaining to the emergency to the Plans Chief

# Incident within an Incident Action Plan

# When the scope or complexity of the emergency exceeds division resource needs

This plan is designed to identify the <u>initial</u> actions that should be taken by the first arriving personnel on a serious accident. This person may be a single resource, engine boss, or a crew boss. Accidents or incidents within an incident happen rapidly and require sound, calm initial decisions to handle the problem, while still focusing on the main incident. The following checklist provides some key thoughts and actions.

The first arriving person to any accident should notify their Division Supervisor, or the Div Sup assigned to that location.

# Advise of the critical information needed:

- Accident scene safety assessment and advise incoming personnel
- · Number of injuries and their severity
- Special equipment needs (extrication, low/high angle rescue, fire protection or suppression)
- Assist the injured as necessary without endangering yourself or other personnel
- Do not move trauma victims unless their safety is in jeopardy
- Utilize PINK pages of the Incident Response Pocket Guide (IRPG) for patient assessment/medical procedures

# Remain aware of surroundings and delegate personnel to monitor the main fire

The <u>Division Supervisor</u> will assume command of the accident/incident scene upon arrival. The following list outlines the general duties and tasks that should be completed on most accidents/incidents.

- 1. Delegate division oversight to another Division Supervisor or other qualified person.
- 2. Request a clear frequency from Comm and consider switching to designated Emergency Tactical (Incident Comm will notify the MEDL who will initiate the medical plan for injuries)
- 3. Order/delegate resources appropriate for the accident/incident (crew EMT's, Line EMT's or Line Medics, rescue equipment, patient transport needs, manpower)
- 4. Notify Operations Section Chief and Safety Officer on all accidents/incidents.
- 5. Begin to document the event accurately and completely. Use ICS form 201 if the event is large or complex.
- 6. Protect the scene for Investigators

# Health & Safety Message

 Incident: Gasquet Complex
 Date/Op Period: 8/7-8/2015

 CA-SRF-001488
 0600-0600

# Hazards & Risks

### Hazards:

Hazards on the fire line and roadways continue to be a topic and difficult to deal with. <u>Unfamiliar Topographer, Steep Terrain, Debris on the road ways, and poor footing</u> are a big concern on the divisions.

<u>Hazard trees</u> are also a concern on all divisions. Refer to **IRPG pg.22** for hazard tree common risks that may be encountered.

<u>Heavy equipment</u>, Now that the incident is growing, you will start seeing heavy equipment showing up on some divisions. Refer to **IRPG pg. 80** for information needed when working around heavy equipment.

### **Dehydration = Heat related injuries:**

Heat illness continues to be a big concern continuous hydration could contribute to a yourself and your crews to ensure they are

this year. The lack of loss of energy. Monitor hydrating all day.

### **Escape Routes and Safety Zones:**

Do you have your escape route and safety zones identified? In the areas we're working, it could be difficult to identify them. Take the extra minute out of your day to identify those safety zone, and more importantly make them known to all.

### Driving:

When driving to and from your divisions and through the community, follow the posted speed limits. We are all visitors in this community, being respectful and friendly will ensure the forest continues their great relationship with the community.

Narrow roadways in the fire area could be a situation that shouts watch out. Driving defensively, with head lights on, and watch your speeds while rounding tight corners.

<u>Emergencies on the divisions:</u> Refer to Team 2, Incident With-In an Incident in the IAP. During your tail board briefings, discuss this with your crews.

All	Injury & Medical Emergency	~ Assist injured employee appropriate medical care ~ Use EMT's on Division for initial care ~ Follow medical protocol as outlined in ICS-206

# Human Resource Message

- SoCal IMT2 Human Resource Specialist has arrived on the Gasquet Complex -

# My role is to:

- promote mutual respect and communication
- be a focal point for informal resolution of issues and concerns involving discrimination or harassment
- serve as an open and empathetic channel through which individuals assigned to this fire can raise questions, discuss concerns, and get answers about an aspect of their work environment—be it practices, policies, operating procedures, facilities, or work conditions.

If you need to talk about a concern, please contact me at the HRSP office or call me at 909-731-1771.

Kathy Kreyns HSRP

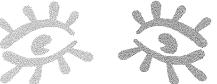

**Good News!!** Over 25 Trainees are checked in with the Training Specialist – helps to document their training and provide more support. Let's be sure all trainees have a good and safe assignment.

# **Training Specialist, Ann Hutchinson**

Desk – Next to Check In / DMOB 623-293-8628
