

INCIDENT ACTION PLAN

MODOC JULY COMPLEX

CA-MDF-000671 P5K7YC (0509)

NIGHT SHIFT OPERATIONAL PERIOD

SUNDAY - MONDAY
AUGUST 6 - 7, 2017
1800-0600 HOURS

MAPS

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name:	2. Operational Period: NIGHT		
MODOC JULY COMPLEX	Date/Time From: 08/06/2017 1800	SUN	Date/Time To: 08/07/2017 0600
MON			
3. Objective(s):			
<ul style="list-style-type: none"> • Provide for the safety of all responders by utilizing national Risk Management Standards and the implementation of appropriate mitigations. • Share critical information affecting public safety so timely decisions and actions can be implemented. • Reduce firefighter exposure by only engaging fire assignments with the highest probability of success. • Provide initial attack response within the area identified by the Delegation of Authority. • Engage cooperators and stakeholders to jointly provide for the defense of communities, infrastructure and economic interests. • Utilize local resource specialists to identify & protect sensitive sites and cultural resource values by minimizing impacts from suppression operations. • Maintain and enhance Community, County, State, National Forest and Stakeholder relationships through accurate and timely dissemination of information. • Identify, assess and implement suppression repair needs, where appropriate in coordination with the Resource Advisor following agency policy. • Manage incident costs effectively for the values at risk through regular and ongoing cost analysis. 			
4. Operational Period Command Emphasis:			
<u>Primary:</u> Using a full suppression strategy, minimize the size of the fires through the use of direct attack where safe to do so.			
<u>Alternate:</u> When not feasible or safe to go direct use indirect attack to minimize fire size.			
<u>Contingency:</u> Use indirect attack tactics at major roads and natural barriers to suppress fire & minimize firefighter exposure to extreme fire behavior.			
<u>Emergency:</u> Withdraw fire personnel to safety zones or ICP, ensure accountability for all personnel & reevaluate how to safely advance to suppress the fire.			
General Situational Awareness:			
<ul style="list-style-type: none"> • Red Flag Warning. • Heads up for possible dry lightning and increased fire behavior. • Monitor cumulus activity due to the chance of erratic winds and down drafts. • Keep your situational awareness current. 			
5. Site Safety Plan Required? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>			
Approved Site Safety Plan(s) Located at:

Modoc July Complex Fire Weather Forecast

FORECAST NO: 21
PREDICTION FOR: 1800-0600 night shift
SHIFT DATE: 8/6-8/7

NAME OF FIRE: Modoc July Complex

UNIT: CA-MDF

SIGNED:

Incident Meteorologist Trainee: Jimmy Taeger

TIME AND DATE
FORECAST ISSUED: 1200 noon on 8/6

**...Red Flag Warning through Sunday Evening for Abundant Lightning...
...Red Flag Warning Monday for Abundant Lightning...**

WEATHER DISCUSSION: Scattered thunderstorms will continue across the area through 2200, with the Red Flag Warning in effect through 2300 for abundant lightning. Frequent lightning and gusty, erratic winds are expected near storms. Nearly stationary storms could produce 0.25-0.50 inches of rain. Skies overnight will become partly cloudy, with lows in the mid-50s to lower 60s around dawn, and moderate overnight RH recovery to around 60%. Additional scattered thunderstorms are expected again Monday evening across the area, with another Red Flag Warning in effect for abundant lightning from 1100 to 2300 Monday.

*****Thunderstorms imply the possibility of gusty and erratic winds*****

WEATHER FORECAST FOR TONIGHT:

WEATHER: 50% chance of thunderstorms this evening. Otherwise, partly cloudy skies.

LOW TEMPERATURES: 70s through 2200, then 56-61 by 0600. Little change.

HUMIDITY: Away from storms, poor recovery of 25-35% through 0100. Otherwise, moderate recovery of 40-60% by 0600. Little change.

20 FT WINDS:

RIDGE TOPS – West-northwest 4-8 mph, with gusts to 12 mph in the evening, becoming light overnight.

SLOPE/VALLEY – Upslope 2-5 mph with gusts to 8 mph in the evening, becoming downslope/valley 3-6 mph overnight.

HAINES INDEX: 3

LAL: 4 in the evening, lowering to 1 overnight.

STABILITY/INVERSION: Strong night time inversions developing over the Cove Fire.

OUTLOOK FOR MONDAY: Scattered thunderstorms and frequent lightning possible, with a Red Flag Warning in effect from 1100 to 2300 for abundant lightning. Be aware of outflow wind potential and any new starts from lightning in your Division or for initial attack activity. Highs will be in the mid to upper 80s, with minimum relative humidity around 20%. Haines 3 and LAL 4 expected. Northwest wind gusts to 12 mph possible in the afternoon and evening.

EXTENDED OUTLOOK: Isolated storms will continue Tuesday through Thursday. Downdrafts will have the potential to send strong outflow boundaries across any of the fire scars on the July Complex, and lightning will continue to be a threat. Temperatures will slowly increase back into the 90s and relative humidity will slightly decrease into the teens by Thursday.

SAFETY INFORMATION: Seek shelter from lightning if a storm approaches. If you feel the hair on your arms or head "stand up," there is a high probability of a strike in the vicinity. Crouch or sit on a pack with your legs together. Take shelter in vehicles if possible.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 023

TYPE OF FIRE: Wildfire Full Suppression

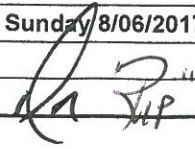

FIRE NAME: Modoc July Complex

OPERATIONAL PERIOD: Night Shift Sunday 8/06/2017

DATE ISSUED: 08/06/2017

TIME ISSUED: 1200

UNIT: CA-MDF-000671 P5K7YC

SIGNED: Diondray Wiley (FBAN) (T) 

INPUTS

WEATHER SUMMARY: "RED FLAG WARNING TODAY FOR ABUNDANT LIGHTNING"

***** WIND SCHEDULE *****

WEST 4-8 MPH WITH GUST TO 12 MPH THIS EVENING DIMINISHING AT 2000 TO A DIURNAL WIND FLOW

Note: Outflow winds from passing thunder Cells could come from any direction any time cells are present. Beware of the alignment of East West drainages!

(See weather forecast)

OUTPUTS

FIRE BEHAVIOR

GENERAL: Extremely dry fuels will be receptive to the forecasted lightning strikes that may occur tonight. Following an initial ignition, outflow winds could promote rapid rates of spread associated with the light fuels. Forecasted Probability of ignition (PIG) for tonight is **30%**. Even with higher RH's the ignition threat continues to be applicable due to very low fuel moistures.

LOCAL THRESHOLDS – WATCH OUT

Combinations of any of these factors can greatly increase fire behavior

Thresholds: **20' winds** over 5 mph **RH** less than 20% **Temp** over 90° **ERC** over 64 **BI** over 51

Forecasted: **20' winds**, 4-8mph **RH** 40-60% **Temp** 56-63° **ERC** 76-78 **BI** 53

Probability of Ignition: Tonight is 30%

SPECIFIC:

North Zone & South Zone: Expect any new starts or slop-overs to be wind driven fires accompanied by rapid rates of spread associated with lighter fuels. Heavier fuels have promoted spotting. Expect short range spotting distances due to light transport winds. All Divisions, Be mindful of erratic winds associated with passing thunderstorms.

AIR OPERATIONS:

****No night aircraft available****

THUNDERSTORM SAFETY

Observe the 30/30 rule: If you see lightning and hear the thunderclaps follow in less than 30 seconds, take the storm precautions identified on Page 21 of the IRPG. Do not resume work in exposed areas until 30 minutes after storm activity has passed.

Modoc July Complex – Safety Message

INCIDENT #CA-MDF-000671

DATE:8/6-8/7/17 TIME: 1800-0600 Night

Firefighter Fatigue/Driver Safety

With continued physically demanding operational periods, expect and predict fatigue of all crew members working in and around your division. Take the following steps to limit and address fatigue and driver safety:

1. Follow work/rest guidelines.
2. Take breaks as needed.
3. Rotate qualified drivers/operators.
4. Supervisors assess the fatigue levels of your crews during operational periods.
5. Ask/tell if you are physically unable to complete a task or assignment.
6. Front seat passengers should remain awake and maintain situational awareness while driving.

Heat Related Illness

Heat Stroke- A condition that occurs when the body becomes unable to control its temperature, and can cause death or permanent disability. Description of signs and symptoms include:

- Confusion, loss of coordination.
- Throbbing headaches.
- High body temperature.
- Seizures, coma.

Heat Exhaustion- The body's response to an excessive loss of water and salt, usually through sweating.

- Heavy sweating, extreme weakness or fatigue.
- Dizziness, nausea, vomiting, irritability.
- Fast, shallow breathing.
- Trouble concentrating, loss in coordination.

Heat Cramps- Affects workers who sweat a lot during strenuous activity. Sweating depletes the body's salt and moisture levels.

- Muscle cramps, pain, or spasms in the abdomen, arms or legs.

Personal Hygiene and Illness Prevention

With shared utilities such as sleeping quarters, restrooms and the chow hall, the chance of spreading illness and infection is a concern. Take the following steps to limit your exposure to illness or infection:

- Use handwashing stations routinely.
- Stay hydrated and well nourished.
- Get your rest, use hand sanitizer.
- Avoid contact with social surfaces (handrails, doorknobs) without washing hands after.

Know It Before You Need It

17.TERRAIN AND FUELS MAKE ESCAPE TO SAFETY ZONES DIFFICULT

DIV	HAZARDOUS ACTIONS / CONDITIONS	MITIGATIONS / WARNINGS / REMEDIES
ALL	FIRE WEATHER	<ul style="list-style-type: none"> • Winds increasing or changing direction. • Weather becoming hotter and drier. • Unstable atmosphere can promote rapid fire growth.
ALL	THUNDERSTORMS	<ul style="list-style-type: none"> • Refer to IRPG page 21, Thunderstorm guidelines. • Heads up for erratic winds and possible downdrafts. • Follow the 30/30 rule.
ALL	SPOT FIRES	<ul style="list-style-type: none"> • Size up prior to engagement. • Watch for multiple spots. • Ensure LCES is in place. • Maintain Situational Awareness at all times.
ALL	DANGER TREES	<ul style="list-style-type: none"> • Follow "Hazard Tree Safety" guidelines, IRPG pages 22. • Post lookouts, or use a spotter in mop-up areas with personnel. • Don't park vehicles or take breaks in high concentrations of hazard trees. • Establish trigger points for disengagement during high wind events".
ALL	HEAT RELATED ILLNESS (HRI) & DEHYDRATION	<ul style="list-style-type: none"> • Drink 2 to 1 ratio of water to sports drinks. • Take frequent breaks, minimum of 10 minutes every hour. • Recognize symptoms of HEAT RELATED ILLNESS which include; Lack of energy, headaches, dizziness, lack of rest, no hunger, poor eating habits, hot skin, and lack of sweating.
ALL	FIREFIGHTER FATIGUE	<ul style="list-style-type: none"> • Follow work rest guidelines. • Take breaks as needed. • Stay hydrated and well nourished. • Supervisors assess the fatigue levels of your crew members.
ALL	MOP UP	<ul style="list-style-type: none"> • Conduct thorough briefing for all personnel (inside rear cover IRPG). • Use all required PPE, including eye protection. • Maintain proper spacing and overhead clearance. • Be alert for stump holes and root cavities. • Minimize exposure to smoke, and rotate personnel into clean air when practical. • Evaluate unburned islands/Increase situational awareness.
ALL	AIR OPERATIONS	<ul style="list-style-type: none"> • Follow Aviation" Watch-Out Situations" on page 44, IRPG. • Don't plan on air resources for medical transport or resupply. • Refer to page 57, IRPG for directing bucket drops. • Ensure positive communications with all air resources.
ALL	HEAVY EQUIPMENT OPERATIONS	<ul style="list-style-type: none"> • Ensure communications are established with operators. • Use hand signals if other communications are unavailable. • Maintain a 50'-100' exclusion area around equipment. • Use a spotter when backing.
ALL	TRAFFIC AND DRIVING	<ul style="list-style-type: none"> • Practice "Defensive Driving" techniques. • Use spotters when backing, always use headlights. • Use warning lights when working on roads or traveling in smoke. • Reduce speed when dusty, maintain adequate spacing with other vehicles. • Some roads are dead end with poor turn around, scout roads first. • Watch for livestock.

8. MEDICAL EMERGENCY PROCEDURES

LINE MEDICAL EMERGENCY:

Crew Supervisor contact Division Supervisor/Operations with patient complaint, condition and location.

Division Supervisor/Operations contacts Communication:

- Division Supervisor/Operations to use "injury or incident communication protocol" on next page
- Division Supervisor/Operations will run medical emergency on command channel
- Communications will contact the Medical Unit Leader on Command channel.
- Medical Unit Leader will:
 1. Have communications dispatch ground/air transport resources
 2. Notify receiving hospital of injury status.
 3. Develop primary and contingency transport plan
 4. Notify Incident Commander, Safety, Logistics and Operations

CAMP MEDICAL EMERGENCY:

Contact Communications with patient complaint/condition and location, via LOGs Net

- Medical Unit contacts:
 - Safety
 - Logistics
 - Operations
- Medical Unit Leader will:
 1. Contact Communications to dispatch ground/air transport resources
 2. Notify receiving hospital of injury status
 3. Develop primary and contingency transport plan

Air Transportation Triage

	<i>Ground or Air Ambulance to Hosp.</i>	<i>Transport to Med Unit</i>
<i>Mechanism</i>	<i>Hit by a falling tree or large branch Fall of 10' or more Insect bite with shortness of breath Signs of heat stroke (hot, dry, disoriented) Burn Injury greater than 1% body area</i>	<i>Minor dehydration Cut or laceration with bleeding controlled Minor bites and Stings Minor burns</i>
<i>Area Injured</i>	<i>Significant Blunt or Penetrating Trauma to Head, Neck, Chest, Abdomen or pelvis Any Arm or Leg fracture above the Joint</i>	<i>Minor blunt trauma Minor penetrating trauma Extremity sprains and strains Simple fracture below elbow or knee</i>
<i>Symptoms</i>	<i>Disoriented Chest Pain <u>or</u> Shortness of Breath Weak or absent radial pulse Pale, cold and sweating</i>	<i>Alert and oriented No shortness of breath Good pulses</i>

If air or ground ambulance is DELAYED:

Package and transport patient to rendezvous with ambulance. Re-route EMS helicopter to rendezvous point as appropriate.

If Declaring an "Incident within the Incident"

The closest DIVS will respond to manage the incident. They are responsible for giving an accurate size up, ensuring scene safety, setting priorities and initiating an appropriate response.
The closest Safety Officer and Line EMS will respond to the scene to assist the Branch Director or DIVS. Secure site and begin initial investigation when situation is stabilized.

STANDARD OPERATING PROCEDURES—FINANCE SECTION
16 HOURS IS NOT A GUARANTEE – IT IS HOURS WORKED!!

WORK REST CYCLE

IT IS NATIONAL DIRECTION TO MEET 2 TO 1 WORK/REST RATIO (1 hour of sleep/rest for every 2 hours of work). Every effort shall be made to manage work hours so you don't exceed the maximum of 16 hrs. Work hours exceeding 16 hours shall be approved by your supervisor in advance, and a justification/mitigation form completed for review by Section Chief & approved by IC. It is each person's responsibility to comply with this direction to manage for fatigue and safety.

OPERATIONAL SHIFTS

Pay status for assigned overhead and crews on the fireline will not start prior to the posted briefing time and will terminate on arrival back in camp (except for debriefing—additional hours may be accrued by those required to attend debriefing). Supervisors will be allowed ½ hour prior to briefing and after return to camp to ready crew and equipment.

DUTY STATUS

Division/Group supervisors and Unit Leaders are responsible for establishing on and off duty status. The objective is a 2 to 1 work/rest ratio. Personnel will normally work, travel, and/or be placed on ORDERED standby 8 to 16 hours per day and be off duty 8 hours or more (breaks count towards 8 hrs). Off duty time will be in a non-pay status. Each federal employee is guaranteed **at least 8 hours** of pay status each 24-hour period (midnight to midnight) unless it is the first or last day of an assignment or stated otherwise in a contract or agreement.

PERSONNEL/EQUIPMENT TIME REPORTING

Personnel time will be reported to the Time Unit and daily once they are signed by the next level supervisor. OES resources will be monitored by OES Agency Rep (if assigned) for 2/1 Work Rest compliance. Situations entitling you to HAZARD PAY are to be noted in remarks (ie. HP=Uncontrolled Fireline, hovering hookups, low level flights, etc.)

Private Contracted Equipment time must be tracked on a Shift Ticket daily and hours on shift noted even if it is a daily rate. When swapping out operators you need to notify Finance as well as changing from single to double shift and vice versa.

Supervisor's - If you are responsible for daily tracking of equipment or personnel, please ensure you understand the agreement, and follow the rules provided in this document. Do not sign documents for resources you did not manage unless you have knowledge of their assignment hours.

MEAL AND OTHER WORK BREAKS

Compensable meal periods are the exception, not the rule (5 CFR 551.411 © and 29 CFR 785.19(a)). Until the fire is controlled, personnel on the fireline MAY BE compensated for meal periods if all of the following conditions are met: 1) The fire is not controlled and 2) The Operations Section Chief makes a decision that it is critical to the effort of controlling the fire that personnel remain at their post of duty and continue to work as they eat, and 3) The compensable meal break is approved by the supervisor at the next level and documented on CTR. For personnel in support positions, and fireline personnel after control of a fire, a meal period of at least 30 minutes must be ordered and taken for each work shift of eight hours or more. In those situations where personnel cannot be relieved from work and must remain at a post of duty, a meal period may be counted as time worked, which will be compensable. **If breaks are NOT able to be taken, CTR should have a statement in remarks explaining the situation. Kitchen closes at 2200 so show dinner break unless you went off clock by 2130.**

STRESS REMINDERS

- **Take action, don't ignore your stress**
- **Stay in touch with team members and communicate**
- **Talk and share feelings**
- **Replenish, rest, get some down time**

Stress is normal and everyone has it

**PRACTICE RANDOM ACTS OF KINDNESS!
IT WILL MAKE ANOTHER PERSON'S DAY!
IT WILL MAKE YOUR DAY!**

TRAINING SPECIALIST MESSAGE

BEAT THE RUSH!!

Trainer / Evaluators:

If as much work as possible has been
Completed in the position task book,
You are encouraged to take
Advantage of your down time in Camp and conduct
The training close-out with the
Training Specialist....

If you're on the verge of timing out,
Or if you have been released from the incident,
You must close out your training documentation
Prior to Demob....

Bring the following documents with you:
A completed and signed ICS 225 Performance Evaluation
Your Position Task Book, and
The Trainee Exit Interview Document!

Thank you!

Tom Reaves

SPECIAL NOTES					

FIRE REPLACEMENT PROCEDURES

Submit requests for all incident replacements on a 213, General Message:

- Separate cache from non-cache items on separate 213's!
- Include explanation for lost or damaged items.
- Include DIVS signature on the 213 to verify the item(s) has/have been lost or damaged and support the circumstances surrounding it.
- For stolen items, contact your supervisor and Security Manager as soon as practical.

FOR CACHE ITEMS

Requesting Resource is NOT Being Demobed and Requested Items ARE Available in Supply:

- R&D shall fill request and note on the 213.

Requesting Resource is NOT Being Demobed and Requested Items are NOT Available in Supply.

- The Supply Unit will place an order for the requested items through the regular cache order process on the incident. The order will be shipped to the incident and replacement will take place at the Supply Unit and noted on the 213.

Requesting Resource IS Being Demobed and Requested CACHE Items are NOT in Stock in Supply:

- Along with the 213, complete an *OF-315, Incident Replacement Requisition* for cache items only and take to SPUL for review and approval. Include the requesting resources' email on the form so the Resource Order can be emailed to the Requesting Resource.
- The SPUL will issue S#'s pending receipt and verification of proper documentation for cache items.

NON-CACHE Items – This is the Important Part!!!

Non-Cache items include any item not available through the National Cache System.

Lost, damage, or destroyed government non-cache property shall be reported to the appropriate DIVS or higher-level overhead within 24 hours of occurrence. Stolen property shall be reported to the Security Manager. The requesting resource shall complete a 213 and *OF-289, Property Loss and Damage Report – Fire Suppression*, and include the following:

- All witnesses shall document the facts and circumstances of the loss or damage on the OF-289. Use additional paper if needed. Explanations shall be detailed and thorough.
- The requesting resource will take the 213 and OF-289 to the Comp/Claims Unit Leader (COMP) for review. The COMP will make a determination based up on the documentation presented and other information provided by the requesting resource.
- Approval for replacement is the responsibility of the incident agency and may be delegated to the Incident Management Team.
- If the replacement request is approved, the replacement cost will be limited to cache equivalent value. This value will be reflected on the Resource Order.
- Items that do not have a like-item in the cache will be reviewed and approved at the discretion of the FSC or Incident Business Advisor, as delegated by the Agency Administrator.

USDA Forest Service Pacific Southwest Region

Outreach Notice Modoc National Forest

2017 Fall Centralized Fire Hire Numerous Fire Positions

The Modoc National Forest will soon be filling Numerous Fire Positions (listed in the table below), with duty locations of Alturas, Adin, Canby, Cedarville and Tulelake, California. This notification is being circulated to inform prospective and interested applicants of this upcoming opportunity. Please see the following information on the positions and the Modoc National Forest.

Announcements for these positions will open on August 11, 2017

To apply for any of these positions:

- 1) Go to USAJOBS (must set up and have a USAJOBS profile) <https://www.usajobs.gov/>
 - a. Search/locate the announcement number;
 - b. Select position(s) and location(s) you are interested in and begin the application process.
- 2) Complete and submit your application prior to 8:59 Pacific Time or 11:59 p.m. Eastern Time **August 25, 2017 at 20:59 Pacific Standard Time**
- 3) All announcements flown under Merit authority will **also** be advertised using the Land Management Workforce Flexibility Act (LMWFA) for eligible applicants. So along with Forest Service-wide applicants already in career or career-conditional appointments, temporary employees who meet the LMWFA eligibility requirements may also apply to the merit announcement. Additional information and requirements on LMWFA can be found by going to the HRM LMWFA website at <http://fsweb.asc.fs.fed.us/HRM/employment/LMWFA.php>

Candidates are encouraged to read the announcement thoroughly to ensure you are applying to the correct announcement, as some position titles appear similar. Applicants will need to attach any required supporting documents (IQCS Master Record, DD-214, etc.)

The following positions are the known vacancies:

Position	REGIONAL GROUP ANNOUNCEMENT NUMBERS G will be for Merit & DP will be for Demo positions.	Duty Location
Engineering Equipment Operator/Fire Dozer	17-FIREFALL-EQOPTR-10G & DP	Adin
