FIRE BEHAVIOR

GENERAL

The Haypress Fire is currently the most active within the Complex. Expect it to continue backing toward Wooley Creek, spread westerly toward indirect containment lines, and spread northerly and easterly into and within the Marble Mountain Wilderness.

The Ukonom Fire is also active at the easterly edge near Ukonom Creek and Lick Creek and continues to burn with a slow rate of spread. It will continue to back toward Lick Creek and Ukonom Creek and burn up drainage to the west toward Ukonom Lookout and southerly toward indirect containment lines. There is a potential to cross Ukonom and/or Lick Creek drainages.

SPECIFIC FIRE BEHAVIOR

Daytime

Expect the fire behavior to be moderate until early afternoon. Fire spread will be primarily backing and flanking with some upslope movement during the early portion of the operational period.

Timber fuel types (generally no recent fire history or stringers in burn areas): potential worst-case surface fire spread will be 8-12 chains/hour with flame length 4 to 6 feet. Occasional torching trees should be expected, with the possibility of short-duration crown runs. Spotting distance will be up to 2/10 - 4/10 of a mile. Probability of ignition will be 60-80%.

Recent Fire Scar areas (Haypress, Panther footprints): potential worst-case surface fire spread will be 4-8 chains/hour with flame length 3-5 feet. Most fire spread will be through heavy dead down fuels but may involve brush which will increase intensities. Anticipate spotting distances up to 2/10 – 4/10 of a mile. Probability of ignition at the peak of the burning period will be 60-80%.

Nighttime

Expect the fire behavior to moderate after midnight with head fire spread rates significantly reduced with primary spread through backing and flanking. Spotting will be less than 2/10 mile, Probability of ignition 30-50%.

AIR OPERATIONS

Air operations will be limited during portions of the day due to poor visibility caused by smoke.

8/30 Sunrise: 06:38 Sunset: 19:49 8/31 Sunrise: 06:39

SAFETY

Yesterday the Haypress Fire had a run to the north travelling more than a mile. This occurred after the smoke cleared out and most spread occurred through profuse spotting. Keep up your situational awareness for changing conditions.

Don't park vehicles or take breaks in high concentrations of hazard trees. Establish trigger points for disengagement during "high wind events".
ALL	TRAFFIC & DRIVING	<ul style="list-style-type: none"> Practice "Defensive Driving" techniques. Use spotters when backing. Always use headlights. Use warning lights when working on roads or traveling in smoke. Many roads are narrow and mid slope, use caution. School is back in session. Observe posted speed limits. Watch for Children. Keep speeds down on Hwy 96, road is rough in spots.

SAFETY MESSAGE

Fire Order Number 3

“Base all actions on current and expected behavior of the fire”

- Observe current fire behavior factoring in current weather, topographic, and fuels conditions.
- Determine predicted or probable changes to conditions and how they will influence the fire behavior.
- Use available fire behavior forecasts to enhance your predictive skills.
- Develop a plan based on current and expected fire behavior. Re-evaluate the plan as conditions change.

MAJOR HAZARDS AND RISKS

STEEP TERRAIN FATIGUE SPOT FIRES	ROLLING MATERIAL DEHYDRATION BUCKET DROPS	HEAVY EQUIPMENT HAZARD TREES COMPLACENCY
--	---	--

Be sure all elements of your safety plan are in place prior to engagement

COMMUNICATIONS RESPONSIBILITIES

All firefighters have five communication responsibilities.

- Brief others as needed.
- Debrief your actions.
- Communicate hazards to others.
- Acknowledge messages.
- Ask if you don't know or are unclear.

In addition, all leaders of firefighters have the responsibility to provide complete briefings that include a clearly stated “Leader’s Intent.”

- Task = What is to be done
- Purpose = Why it is to be done
- End State = How it should look when done

Complacency

Don't let boredom lead to complacency.

Remain focused on the task at hand and alert at all times for changing conditions.

It is easy to fall into a routine and lose sight of all that is around us.
