

Orleans Complex

Incident Action Plan

Wednesday September 13, 2017
Day Shift 0600 – 2000

✓ Communications

- If one Command Repeater is not working try the other Command Repeater
- Utilize Human Repeaters in remote locations.
- The 3 C's of Communications: Clear, Concise, and Complete

✓ Hazard Trees

- Look Up, Look Down, Look Around
- Numerous reports of green trees falling
- Scout work areas before engaging in operations

**KEEP A HIGH LEVEL OF
SITUATIONAL AWARENESS**

Orleans Complex: CA-SRF-000741
(0510) P5K73417, Six Rivers N.F.

INCIDENT OBJECTIVES	1. Incident Name Orleans Complex	2. Date 09/12/2017	3. Time 1930
4. Operational Period From: 09/13/2017 0600 - 2000			
<p>CONTROL OBJECTIVES</p> <p>1. Keep the Ukonom Fire:</p> <ul style="list-style-type: none"> • North of Division A dozer line to protect private property and cultural resources. • East of the Klamath River to protect private property, infrastructure (Hwy 96), and cultural resources. • South of Ukonom Creek to minimize impacts to aquatic species, spotted owl habitat and bald eagle habitat. • East of Division Z to protect private property and cultural resources. <p>2. Keep the Haypress Fire:</p> <ul style="list-style-type: none"> • East of private property inholdings and Hwy 96. • North of Salmon River Road to protect private property, infrastructure and cultural resources. <p>MANAGEMENT OBJECTIVES</p> <p>1) Ensure that strategies and tactics provide for firefighter and public safety through the application of sound risk management principles.</p> <p>2) Prepare strategies that offer the highest probability of success with available resources.</p> <p>3) Establish and strengthen cooperator, partner, and stakeholder relationships.</p> <p>4) Conduct incident activities in close coordination with Designated Tribal Representatives and READs.</p>			
6. Weather Forecast for Period			
<ul style="list-style-type: none"> • See attached weather forecast. 			
7. General Safety Message			
<ul style="list-style-type: none"> • See attached safety messages.

INCIDENT Weather Forecast

FORECAST NO: 57
 PREDICTION FOR: 0600 – 2000 Wednesday
 SHIFT DATE: 9/13/17
 FORECAST ISSUED: 1930 PDT, Sep 12, 2017

NAME OF FIRE: Orleans Complex
 † UNIT: SRF
 Incident Meteorologist: Jeff Tonkin

WEATHER DISCUSSION

A little warmer and drier today as we won't have the benefit of cloud cover and light rain to cool things down like yesterday. Wind patterns will remain generally onshore, terrain driven and light today. The gusty northeast ridgetop winds return Thursday Night into Friday morning...and to a lesser extent on Saturday morning.

WEATHER FORECAST FOR TODAY (WEDNESDAY):

WEATHER: Partly Cloudy.
 MAX TEMPERATURES: Lower Slopes / Drainages: 83-89.
 Upper Slopes/Ridges: 78-83.
 MIN HUMIDITY: Above 3000 feet: 35-39%.
 Below 3000 feet: 28-34%.
 20 FOOT WINDS:

LOWER SLOPE/VALLEY – Northeast or downslope 1 to 4 mph until 1200 PDT then becoming upvalley or West 4 to 7 mph.

UPPER SLOPE / RIDGETOP - Northeast to east 2-5 mph with gusts 12 mph through 1200 PDT Then becoming west 3 to 6 mph...gusts to 10 mph.

LAL: 1
 CWR: 0%.

WEATHER FORECAST FOR THURSDAY:

WEATHER: Partly cloudy and much cooler...breezy.
 MAX TEMPERATURES: Lower Slopes/Drainages: 74-80.
 Upper Slopes/Ridges: 67-73.
 MIN HUMIDITY: Above 3000 feet: 27-32%.
 Below 3000 feet: 22-26%.
 20-FOOT WINDS:

SLOPE/VALLEY - Downslope or Northeast 1-4 MPH until 1100 PDT then becoming upvalley or west 4-6 MPH...Gusts 12 during the afternoon along HWY 96 corridor.

RIDGETOP - Northeast to east 2-4 MPH until 1100 PDT...then becoming West 5-10 MPH Gust 15 MPH.

LAL: 1
 CWR: 0%

EXTENDED OUTLOOK (FRI-SUN):

A return of nocturnal and early morning NE winds Thursday night into early Friday morning at ridge top level and slightly less stronger Saturday morning. Long term forecast models still indicating the first Pacific storm of late summer / early fall may reach the north coast on Monday. This feature could provide widespread south winds ahead of a cold front and a fair amount of rainfall to the fire area should the models be correct.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: #57	TYPE OF FIRE: Wildfire
FIRE NAME: Orleans Complex	OPERATIONAL PERIOD: September 13 – 0600 to 2000
DATE ISSUED: September 12, 2017	TIME ISSUED: 2000 hrs
UNIT: Six Rivers NF	SIGNED:  Mike Beasley FBAN

INPUTS

WEATHER SUMMARY

(Refer to Weather Forecast for details) DAY: Partly cloudy. Max Temp: 78-89. Min RH: 28-39%.
Slope/Valley – Northeast or downslope 1-4 mph, becoming upvalley or west 4-7 mph in the afternoon.
Ridges – Northeast to east 2-5 mph, gusts 12. West 3-6 w/ gusts to 10 mph in the afternoon.

FIRE BEHAVIOR GENERAL

The Ukonom Fire has shown no spread for more than a week. The Ukonom Fire will remain parked at Lick Creek w/ no chance of spread for the foreseeable future.

The Haypress Fire was becoming more active, after ¼" rain five days ago. For the next two days, however, fire behavior should be reduced after yesterday's cooler weather and scattered showers. Sheltered timber fuels will remain the most active fuels with several pockets around the fire perimeter still spreading through mostly smoldering fire behavior. Rollout, as a mechanism of spread, can be expected to continue on all steep slopes, though many portions of the perimeter have self-extinguished. All significant drainages should check fire spread.

Minimum fine fuel moisture: 6-7%, 1000 hour FMC: 6-7%, Live fuel moisture: 75-90%.

OUTPUTS - FIRE BEHAVIOR

➤ Forecasted Indices (Dutch-Indie) ERC: 57 (Down 2) BI: 60 (Down 7)

GENERAL: Continued minimal fire behavior through Wednesday under a cooling, relatively moist airmass.

Today will see a bit more creeping with open flames than yesterday (in sheltered timber litter), since clear skies will aide in drying fuels. No torching or spotting today. Heavy fuels will continue to consume in pockets. Rollout will continue on steep slopes, but even wind and slope in alignment today will not provoke a running fire.

DIV A (Zone 5) – No fire threat at all.

DIV M/O – Haypress Fire will continue to be checked by Wooley Creek to the south and Bridge Creek to the east.

DIV R (Zone 1) – Mostly smoldering, except above Wooley Creek near Deer Lick Creek, where a hot pocket remains. Low in the drainage is the only remaining point where the fire might cross Wooley Ck. No chance of a slope reversal moving quickly up toward the 15N17 Rd. There doesn't seem to be enough heat in the bottom of Merrill Creek.

DIV T (Zone 2) – Mostly smoldering and creeping where crews are working to pick up the slopover the 15N17 Rd. where fire is backing into the head of Rodgers Creek north of DP-210.

DIV W (Zone 3) – Smoldering and creeping. Irving Creek will check fire spread to the south. There continues to be a pocket of heat just north of DP-19 near the corrals, that will require more work. The Marble Fire and constructed fireline will continue to check western spread of the Haypress Fire

DIV Z (Zone 4) – The south end of the Ukonom Fire near Ukonom Lookout will remain quiet. Spread remains checked on Lick Creek.

Typical Rate of Spread: < 1.5 chains/hour **Flame Length:** < 1 ft. (smoldering and creeping).

Maximum Fire Behavior (head fire upslope): Flame lengths to 4.8 ft and ROS to 7 ch/hr **Spotting distance:** < 1/4 mi. **Probability of Ignition:** 55-60%

AIR OPERATIONS

Visibility and weather should be good for aircraft over the Ukonom & Haypress Fires the entire day.
September 13th Sunrise 6:55am Sunset 7:30pm

SAFETY

- Snags, both fire- and snow-weakened continue to fall, some still with interior heat. Stay heads up!
- "Any fact facing us is not as important as our attitude toward it, for that determines our success or failure." - Norman Vincent Peale

MEDICAL PLAN (ICS 206 WF)

Medical Incident Report

Use items one through nine to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS DECLARE: "MEDICAL EMERGENCY" OR "NON-EMERGENCY MEDICAL TRANSPORT"
 Ex: "Communications, Div. Alpha. Stand-by for a medical emergency on Div. Alpha" (If life threatening request designated frequency be cleared for emergency traffic.)

2. INCIDENT STATUS: Provide incident summary and command structure.

- **Nature of Injury/Illness** Describe the injury (Ex: Broken leg with bleeding) _____
- **Incident Name** Geographic Name + "Medical" (Ex: Trout Meadow Medical) _____
- **Incident Commander (Division Sup. or designee)** Name of IC _____
- **Patient Care** Name of Care Provider (Ex: EMT Smith) _____

3. INITIAL PATIENT ASSESSMENT: Complete this section for each pt. This is only a brief, initial assessment. Provide additional pt. info after completing this report.

- **Number of Patients:** _____ - **Male / Female:** _____ - **Age:** _____ - **Weight:** _____
- **Conscious?** YES NO = MEDEVAC! - **Breathing?** YES NO = MEDEVAC!
- **Mechanism of Injury** What caused the injury? _____
- **Location, Lat/Long** (Datum WGS84) Ex: N 40° 42.45' x W 123° 03.24' _____

4. SEVERITY OF EMERGENCY, TRANSPORT PRIORITY

SEVERITY	TRANSPORT PRIORITY
<input type="checkbox"/> URGENT-RED Life threatening injury or illness. Ex: Unconscious, difficulty breathing, bleeding severely, 2° - 3° burns more than 4 palm sizes, heat stroke, disoriented.	Ambulance or MEDEVAC helicopter. Evacuation need is IMMEDIATE.
<input type="checkbox"/> PRIORITY-YELLOW Serious Injury or illness. Ex: Significant trauma, not able to walk, 2° - 3° burns not more than 1-2 palm sizes.	Ambulance or consider air transport if at remote location. Evacuation may be DELAYED.
<input type="checkbox"/> ROUTINE-GREEN Not a life threatening injury or illness. Ex: Sprains, strains, minor heat-related illness.	Non-Emergency. Evacuation considered Route of Convenience.

5. TRANSPORT PLAN:

Air Transport: (Agency Aircraft Preferred)

Helispot Short-haul/Hoist Life Flight Other

Ground Transport:

Self-Extract Carry-Out Ambulance Other

6. ADDITIONAL RESOURCE/EQUIPMENT NEEDS:

Paramedic/EMT(s) SKED/Backboard/C-Collar Crew(s) Burn Supplies Oxygen
 Trauma Bag Medication(s) IV/Fluid(s) Cardiac Monitor/AED
 Other (i.e. splints, rope rescue, wheeled litter)

7. COMMUNICATIONS:

- Run Medical Emergency on Command - Coordinate with air ambulance on CALCORD tone 6

8. EVACUATION LOCATION:

- **Lat/Long** (Datum WGS84) EX: N 40 42.45' x W 123 03.24' _____
- **Patient's ETA to Evacuation Location:** _____
- **Helispot/Extraction Size and Hazards:** _____

9. CONTINGENCY: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead...

REMEMBER:

- Confirm ETA's of resources ordered
- Act according to your level of training
- If air or ground ambulance is **DELAYED:** Package and transport patient to rendezvous with incoming Ambulance. Re-route EMS helicopter to rendezvous point as appropriate.

Orleans Complex - Incident Risk Analysis (215a)

Div.	LCES Analysis of Tactical Applications (Hazardous Actions or Conditions)	LCES Mitigations/Warnings/Remedies
All	Communications	Use human repeaters for areas with poor reception. Ensure transmissions are complete. Follow the order model: hail receiver, receiver acknowledges, message sent, message confirmed
All	Steep Terrain & Rolling Material	Ensure secure footing. Keep appropriate work spacing so crewmembers can react to dislodged debris. Post lookouts to warn of rolling debris. Concentrate on foot placement to limit slips, trips and falls.
All	SMOKE & Terrain making it difficult to provide for emergency medical needs	Do NOT assume air resources will be able to assist. Pre-plan the "What ifs". Review Med Plan before the need arises. Limit high risk activities. Have a backup plan or two. Discuss different scenarios AND Practice the "What if" scenarios
All	Traffic and Driving	Use CAUTION on wet road surfaces, both pavement and dirt/gravel. Some roads within fire travel routes are "out sloped". Use caution when descending. Do not use too much compression....could cause loss of traction. Practice Defensive Driving. Wear seatbelt at all times, even for going short distances. Use spotters when backing. Always use headlights. Narrow and mid slope roads, use caution. School is in session, go below posted speed limit, and watch for children. Keep speeds down on Highway 96, road is rough from winter damage
All	Danger Trees within Fire Area & Routes to work areas	Fire Weakened Trees, Loosened wet soils weakening tree root structure. Assess the need to work in areas that haven't been recently assessed for hazards. Watch out when traveling/working during windy conditions. Limit exposure. Mitigate if safe. Use qualified fallers.
All	Bees, Wasps & Hornets	Known areas? Flag off and Communicate to affected resources. Pre-Identify those resources with known allergies. Pre-plan your response (Epi-Pen's, Benadryl supply, Medical personnel etc).
All	Personal Protective Equipment	ALL Personnel are reminded to wear PPE when in route to and from the fire and within the fires perimeter. Insure PPE is compatible with hazards and risks
All	Rocks & Debris on Roadways	Expect rocks and debris on roadways, especially loosened from recent rains. Assess the need to use the interior fire roads. Mitigate hazards after utilizing the Risk Management Process
All	Working with Heavy Equipment	Stay at least 100' in front and 50' behind the equipment (300'+ feet with masticators). In Timber, distances should be increased to 2½ times the tallest tree height. Avoid working below equipment. Make eye contact with operator: blade down, idle down, before approaching.
All	Poison Oak Exposure	Know what it looks like. "Leaves of three, let it be" Change or launder Nomex frequently. Ensure proper Personal Hygiene. Seek medical attention as needed.
All	Hygiene	Wash Hands prior to eating and after using the toilet facilities. Clean out ice chests with soap, bleach & water.

Date & Time Prepared: September 12th, 2017 @ 2000
Prepared By: Michele Tanzi - SOF1, Robert Hilfer- SOF2(t)

Operational Period: September 13, 2017 from 0600 - 2000

Northern California Incident Management Team 1

REFUSING RISK

Operational Engagement Category

Every firefighter has the right and obligation to report safety problems and contribute ideas regarding their safety. Supervisors are expected to give these concerns and ideas serious consideration. When an individual feels an assignment is unsafe, they also have the obligation to identify, to the degree possible, safe alternatives for completing that assignment. Turning down an assignment is one possible outcome of managing risk.

- A turn down is a situation where an individual has determined an assignment cannot be undertaken as given, and they are unable to negotiate an alternative solution.
- A turn down must be based on an assessment of risks and the ability of an individual or organization to control those risks.
- A situation may be a candidate for a turndown if:
 - There is a violation of safe work practices.
 - Environmental conditions make the work unsafe.
 - The forces lack the necessary qualifications or experience.
 - Defective equipment is being used.
- The following steps will be used when turning down an assignment:
 - The individual will directly inform their supervisor that they are turning down the assignment as given. (Document using criteria outlined in the risk management process.)
 - Supervisor will notify the Safety Officer immediately upon being informed. In the absence of a Safety Officer, the appropriate Section Chief or Incident Commander will be notified. This step provides accountability for decisions and initiates communication of safety concerns.
 - If the supervisor requests another resource to perform the assignment, he/she is responsible for informing that resource that the assignment has previously been refused and the reason(s) why.
 - The safety hazard should be documented by the submission of a SAFENET or SAFECOM.
- These actions do not stop an operation from being carried out. This protocol is integral to the effective management of risk as it provides timely identification of hazards to the chain of command, raises risk awareness for both leaders and subordinates, and promotes accountability.

Trainee/Trainer Data Form Incident Trainee Data Form

Training Specialist: Kristin Winter -

- All Incident trainees, including those on Firefighting Modules, at your earliest opportunity complete this form and see the Training Specialist.
- To close your training package at the end of your assignment, bring the following:
 - 1) A performance rating from your trainer. (ICS 225)
 - 2) Your position task book that has as many entries as possible by your Trainer.

Trainee Data

Trainee Name: _____ ICS Trainee Position: _____

Request Number (O, C, E): _____ Agency Designator (Example: CA-ANF): _____

Cell # While on Incident: _____ Date Assigned: _____

Who should we email or mail you completed training package to: (Fire Chief, Training Officer)

Name: _____ Title _____

Name of Agency/Unit: _____

Email address (if known): _____

“Or”

Agency/Unit Address: _____

City: _____ State: _____ Zip Code: _____ Phone: _____

Trainee Prerequisites

1. Possess a valid Red Card or agency certification card? _____ Yes _____ No

2. Trainee has current position task book issued by home unit? _____ Yes _____ No

Trainer/Evaluator Data

Trainer / Evaluator Name: _____ ICS position on fire: _____

Home Unit: _____

City: _____ State: _____ Cell # While on Incident: _____

What do you need/want to accomplish on this incident:

INCIDENT PERSONNEL CODE OF CONDUCT

Each individual on this incident is responsible for:

- **Being prepared and able to perform their assigned duties effectively.**
- **Conducting themselves in a manner that treats others with dignity, equality, and respect.**
- **Abiding by agency ethics and conduct regulations.**
- **Reporting any harassment and other inappropriate behavior.**

Each individual on this incident has the right to:

- **Work in an environment that provides the appropriate risk management and safety measures.**
- **Work in a fair and harassment free work environment.**
- **Say NO to unwelcome advances or requests for favors.**
- **Report complaints or grievances in a timely manner through the appropriate channels.**

There is ZERO tolerance for inappropriate behavior while assigned to this incident, that includes:

- **Illegal drug use.**
- **Intoxication or alcohol use in fire camp.**
- **Unsafe work practices and activities.**
- **Discrimination.**
- **Sexual harassment.**
- **Fighting, threatening or abusive behavior.**
- **Other violations of USDA or Forest Service Standards of Conduct and Anti-Harassment Policy.**

Failure to adhere to this Code of Conduct or the Anti-Harassment policy may result in dismissal from the incident and notification to your home unit.

Thank you for your attention to these simple measures that contribute to a positive work environment and support our professionalism and dedication to public service.
