

INCIDENT ACTION PLAN

Stone Fire

CA-MDF-001193

P5L3GU (0509)

NIGHT SHIFT

8/20/2018 1800

to

8/21/2018 0600

Fire Information (530) 710-8620

Monday

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: <p style="text-align: center;">Stone Fire</p>	2. Operational Period:	Date From: 8/20/2018 Time From: 1800	Date To: 8/21/2018 Time To: 0600
---	-------------------------------	---	-------------------------------------

3. Objective(s):
Management Objectives

- Ensure strategies and tactics commit responders to operations with a high probability of success and minimizes exposure through the application of sound risk management principles.
- Minimize the threat to communities, infrastructure and natural resources.
- Establish and strengthen cooperator, partner and stakeholder relationships.
- Work closely with assigned resource advisors to minimize suppression impacts to sensitive cultural and natural sites.

Control Objectives

- Keep the fire east of County Road 91.
- Keep the fire South of National Forest Road 42N60.
- Keep the fire North of County Road 85 to NF 41N10 to 42N10.
- Keep the fire West of State Highway 139 and State Highway 299.

General situational awareness

Fire Weather Forecast

MONDAY NIGHT AUG 20, 2018

FORECAST NO: 6
PREDICTION FOR: Monday Night
SHIFT DATE: Aug 20, 2018
ISSUED: 1100, Aug 20 2018

NAME OF FIRE:
UNIT:
Incident Meteorologist:

Stone
Modoc N.F.
Tom Wright

*** UNSTABLE WITH HAINES 5 THROUGH THE EVENING ***

DISCUSSION: Expect unstable conditions to continue until around sunset with Haines 5 promoting plume growth. Winds will be lighter than yesterday but still gusty from the northwest through sunset. After sunset, expect a moderate inversion to develop around mid-slope with light east-northeast winds and poorer humidity recoveries above and light, slope-driven winds and better recoveries below.

MONDAY NIGHT:

- WEATHER: Mostly clear.
- WIND (20 FT): Ridges, exposed areas, and wind-aligned drainages: Northwest 5-10 mph with gusts to 15 mph through 2000 then becoming east-northeast 5-10 mph. Sheltered areas: variable 2-4 mph through 2000 then downslope 1-3 mph.
- MIN TEMPERATURES: 50-55 valley bottoms, 60-65 mid-slope and above.
- MAX RH: 40-45% valley bottoms, 25-30% mid-slope and above.
- CHANCE RAIN: 0%
- INVERSION: Moderate developing around mid-slope.

TUESDAY:

- WEATHER: Sunny through 1200, then cumulus buildups. Slight chance of a thunderstorm after 1400.
- WIND (20 FT): Sheltered areas: Downslope 1-3 mph through 0900, the upslope 2-5 mph. Ridges, exposed areas, and wind-aligned drainages: East-northeast 5-10 mph through 1200 then southeast 5-10 mph. **Gusty and erratic winds possible near thunderstorms.**
- MAX TEMPERATURES: 85-90
- MIN RH: 10-15%
- CHANCE RAIN: 15% (Little if any actual rain)
- HAINES: 4
- MIXING HEIGHT: 500 ft AGL or less, increasing to 8,000 ft AGL around 1100, then increasing to 12,000 ft AGL.
- MIXING WINDS: East-southeast 5-10 mph.

TUESDAY NIGHT:

- WEATHER: Mostly clear.
- WIND (20 FT): Becoming east-northeast around 5 mph ridges and exposed areas, otherwise, downslope 1-3 mph.
- MIN TEMPERATURES: 50-55 valley bottoms, 60-65 mid-slope and above.
- MAX RH: 40-45% valley bottoms, 25-30% mid-slope and above.
- CHANCE RAIN: 0%
- INVERSION: Weak developing around mid-slope.

3-5 DAY OUTLOOK

Wednesday: Mostly sunny. Breezy to windy. Highs 83-88. Min RH: 10-15%. Winds W-SW 10-15 mph with gusts to 25 mph. Thursday and Friday: Mostly sunny and breezy. Highs 85-90. Min RH: 8-13%. Winds W-SW 7-12 mph with gusts to 18 mph.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 008	TYPE OF FIRE: Wildfire Full Suppression
FIRE NAME: Stone	OPERATIONAL PERIOD: 8-20-18 Night Shift
DATE ISSUED: 8-20-18	TIME ISSUED: 1300
UNIT: CA-MDF	SIGNED: <u> Matt Brown </u> Typed/printed: Matt Brown FBAN(t)

INPUTS

WEATHER SUMMARY: **Unstable with Haines of 5**

Temp: 50-65 RH: Max 25-45% Wind: Gusty and variable, NW 5-10 with gust to 15 mph then shifting NE around 2000 hrs. Weak inversion may not be established until after 2300 hours.

Both ERC and 1000 hr Fuel Moistures are in the 97th percentile. Live fuels recorded on 8-5-18 in Sage were 100% and 122% at locations closest to the fire.

OUTPUTS

FIRE BEHAVIOR

GENERAL:

The NW and N winds will impact the area early in operational period. Later on in the operational period an inversion will become established and shelter most of the fire area from the wind. Although a late night NE wind is expected, sheltering from both terrain and the inversion will minimize its effect on the fire except on the tops of ridges. Overnight RH recovery continues to be poor on ridges. Moderate fire activity with single tree torching will turn to minimal and creeping after the inversion is established. Spotting potential will be the highest early on if an established pyrocumulus collapses after sunset.

SPECIFIC:

Expect spotting up to 1/2 mile early on; however, a PIG of 30% should reduce spotting potential after 2300 hrs. Normal burning conditions should produce ROS of 2-5 ch/hr and flame lengths 1-5 ft. in the grass shrub mix. When the fire transitions into the decadent shrub understory, expect ROS of 45-55 ch/hr and flame lengths of >12 ft. In areas with high loading of timber litter ROS 2-6 ch/hr and flame lengths 1-5 ft. All flanking and backing fire will have FL less than 4 ft. After 2300 hrs, the inversion in drainages should bring the FDFM up to 10% and reduce consumption as grass type fuels near the moisture of extinction.

Expect increased spot distance, ROS and flame lengths with pyrocumulus outflow winds early in the operational period, until after sunset.

Divisions E/G/J will experience variable wind conditions until any pyrocumulus dissipates shortly after sunset, then expect mostly favorable conditions with respect to winds and a moderate RH recovery. Firing operations should have good consumption prior to 2300.

Division A/Z/M will experience variable winds until any pyrocumulus dissipates. NNW winds will be adverse and challenge containment on ridge tops. Inversions will become established later on in the shift and reduce the effects of wind and close the burn window in drainages. Firing operations may continue later than 2300 on ridges and slopes due to the dry Eastern component of the wind. It is expected that consumption from firing will be reduced in drainages after 2300.

AIR OPERATIONS:

Smoke may obscure air operation opportunities early in the operational period in divisions downwind from the fire. As the fire moves into areas covered with more grass and less conifer, expect increased effectiveness with retardant application. At sunrise expect thicker than average smoke inversions to be prevalent in the deep drainages.

SAFETY

Expect shifts in fire behavior due to outflow winds from pyrocumulus development. Many times an outflow wind will immediately follow a period of sudden calm. Make sure your LCES is based upon the effect of outflow winds and reduce exposure to situations of unburned fuel between you and the fire when visual indicators of instability are present. Prepare for shifting winds.

ASSIGNMENT LIST (ICS 204)

1. Incident Name: Stone Fire		2. Operational Period: Date From: 08/20/18 Date To: 08/21/18 Time From: 1800 Time To: 0600				3. Branch: Div/Group: A / E Alpha

DIV	HAZARDOUS ACTIONS / CONDITIONS	MITIGATIONS / WARNINGS / REMEDIES
ALL	DANGER TREES	<ul style="list-style-type: none"> Follow "Hazard Tree Safety" guidelines, IRPG. Post lookouts, or use a spotter in mop-up areas with personnel. Don't park vehicles or take breaks in high concentrations of hazard trees. Establish trigger points for disengagement during "high wind events".
ALL	DRY FUEL CONDITIONS	<ul style="list-style-type: none"> Establish and maintain LCES. Heavy grass crop, fuel moistures at critical levels. Anticipate intense burning and rapid rates of spread. Watch for spot fires. Allow for adequate time to escape routes and safety zones.
ALL	TRAFFIC & DRIVING	<ul style="list-style-type: none"> Practice "Defensive Driving" techniques. Use spotters when backing. Always use headlights. Some roads are dead end with poor turn around, scout roads first. Watch for livestock.
ALL	POINT PROTECTION	<ul style="list-style-type: none"> Set trigger points to disengage and allow adequate time to relocate to primary and secondary safety zones. Look for propane tanks and other hazardous materials.
ALL	SPOT FIRES	<ul style="list-style-type: none"> Size up prior to engagement. Watch for multiple spots. Ensure LCES is in place. Maintain Situational Awareness at all times.
ALL	FIRE WEATHER	<ul style="list-style-type: none"> Winds increasing or changing direction. Weather becoming hotter and drier. Unstable atmosphere can promote rapid fire growth.
ALL	FIRING OPERATIONS	<ul style="list-style-type: none"> A written guideline shall be prepared and approved for major burning operations. Conduct thorough briefing for all personnel (inside rear cover IRPG). Qualified personnel for all assignments. Trainees to have qualified trainers. Required PPE to be worn by all personnel involved. Establish LCES prior to implementing burning operations.
ALL	STEEP TERRAIN & ROLLING DEBRIS	<ul style="list-style-type: none"> Maintain 8'-10' spacing when working & walking. Don't work above any personnel. Evaluate necessity to send personnel in areas with limited access.
ALL	FATIGUE	<ul style="list-style-type: none"> Be alert for signs of fatigue and take breaks as necessary. Maintain 2:1 work/rest ratio. Monitor incoming resources for level of fatigue.
ALL	HEAT RELATED ILLNESS (HRI) & DEHYDRATION	<ul style="list-style-type: none"> Drink 2 to 1 water to sports drinks. Take frequent breaks, minimum of 10 minutes every hour. Recognize symptoms of HEAT RELATED ILLNESS, which include; Lack of energy, headaches, dizziness, lack of rest, no hunger, poor eating habits, hot skin, and lack of sweating.
ALL	HEAVY EQUIPMENT OPERATIONS	<ul style="list-style-type: none"> Ensure communications are established with operators. Use hand signals if other communications are unavailable. Maintain a 50'-100' exclusion area around equipment. Use a spotter when backing.

Night Shift

SAFETY MESSAGE

Ask yourself "What Can Go Wrong"

- Identify the critical elements of your plan, and ask "what if" a loss of one of these elements occurs.
- Develop a plan to deal with the problem before it occurs.
- Communicate the plan to all of your personnel.
- Validate the new plan to ensure it matches the current situation.

MAJOR HAZARDS AND RISKS

STEEP TERRAIN FATIGUE SPOT FIRES	ROLLING MATERIAL DEHYDRATION BUCKET DROPS	HEAVY EQUIPMENT SNAGS COMPLACENCY
--	---	---

Be sure all elements of your safety plan are in place prior to engagement

Planning for Safety

Have multiple plans and make them know

P – Primary Plan (Offense)

Focused on firefighter safety and mission objectives

A – Alternate Plan (Offense)

A fall back plan that closely supports the primary

C- Contingency Plan (Defense)

Entirely focused on firefighter safety

E – Emergency Plan (Defense)

Entirely focused on individual firefighter survival

Escape Route/Safety Zone Checklist

Escape Routes:

- *Designate primary and back-up escape routes
- *Scouted – soils, vegetation, slope
- *Timed – slowest person, fatigue, dozer speed
- *Marked – flagged for day and night use

Safety Zones:

- *Survivable without a shelter
- *Natural – clean burn, water, bare soil/rock
- *Man-made – constructed sites, roads, etc.
- *Scouted for size and hazards
- *Close enough considering escape time needed

Remember and Follow:

- *The 10 Standard Fire Orders
- *The Common Denominators of Fire Behavior tragedy fires

TRAINING SPECIALIST MESSAGE

All federal, state, and local government agency trainees working on position task books will need to register with the Incident Training Specialist in order to receive proper incident credit for your assignment.

Scan the QR Code below to access and complete the Trainee Registration Form. Then stop by the Training Desk with your Task Book and Red Card to complete the Registration Process.

Hardcopy Registration Forms are also available at the TNSP Desk at ICP for those w/o QR scanning capability.

Contact the TNSP at 209-770-4809 for training related questions.

Brad Smith - TNSP
Frank Davis TNSP(t)

STONE FIRE INFORMATION

CAL FIRE SOCIAL MEDIA POLICY (Social Media 0691)

Social Media is increasingly being used by public agencies and the media as well as the public. This form of communication continues to grow rapidly in order to supply the public's desire for instant information gratification. All personnel assigned to a CAL FIRE incident will adhere to the CAL FIRE Social Media Policy. Further information about the CAL FIRE Social Media Policy can be obtained from the Information Officer. If you are uncertain, please ask. **Do not post:**

- Inappropriate information, pictures or videos
- Opinions regarding the incident or policy
- Endorsements of any kind

FEDERAL FIRE SOCIAL MEDIA POLICY

Social media posts can reflect on the professionalism of your crew, your agency and Wildland Firefighting Community. The U.S. Forest Service has enjoyed a reputation as the world leader in wildland firefighting for over 100 years. Protect our legacy with good conduct on the fireline and online. When assigned to a federal fire you are considered a federal employee under the delegation of authority. Even if you are a contractor, AD or from a partner agency we recommend you follow these ethics guidelines which apply to federal employees all the time.

Think before you post:

- On official time, do official duties; if using government equipment, do government business.
- Don't use your official position/title for private gain.
- Do share government information that is publically available (such as links to Inciweb, weather reports, feature stories, official evacuation notices etc...) Do not disclose (via any medium) non-public information to further private interests or the private interests of others.
- Do not share information outside official channels that could be associated with a crime or a claim, (for instance do not post on social media about serious accidents, deaths or destroyed property).
- Do not accept compensation for statements made over social media that relate to official duties.
- Never use your official title while engaging in "political activity" (activity directed toward the success or failure of a political party, partisan candidate or partisan political group).
- Federal employees may express their opinions concerning partisan political candidates and political parties on social media when they are off duty and away from the federal workplace.
- If you have questions about content you'd like to post on social media, contact a PIO, they can help you.

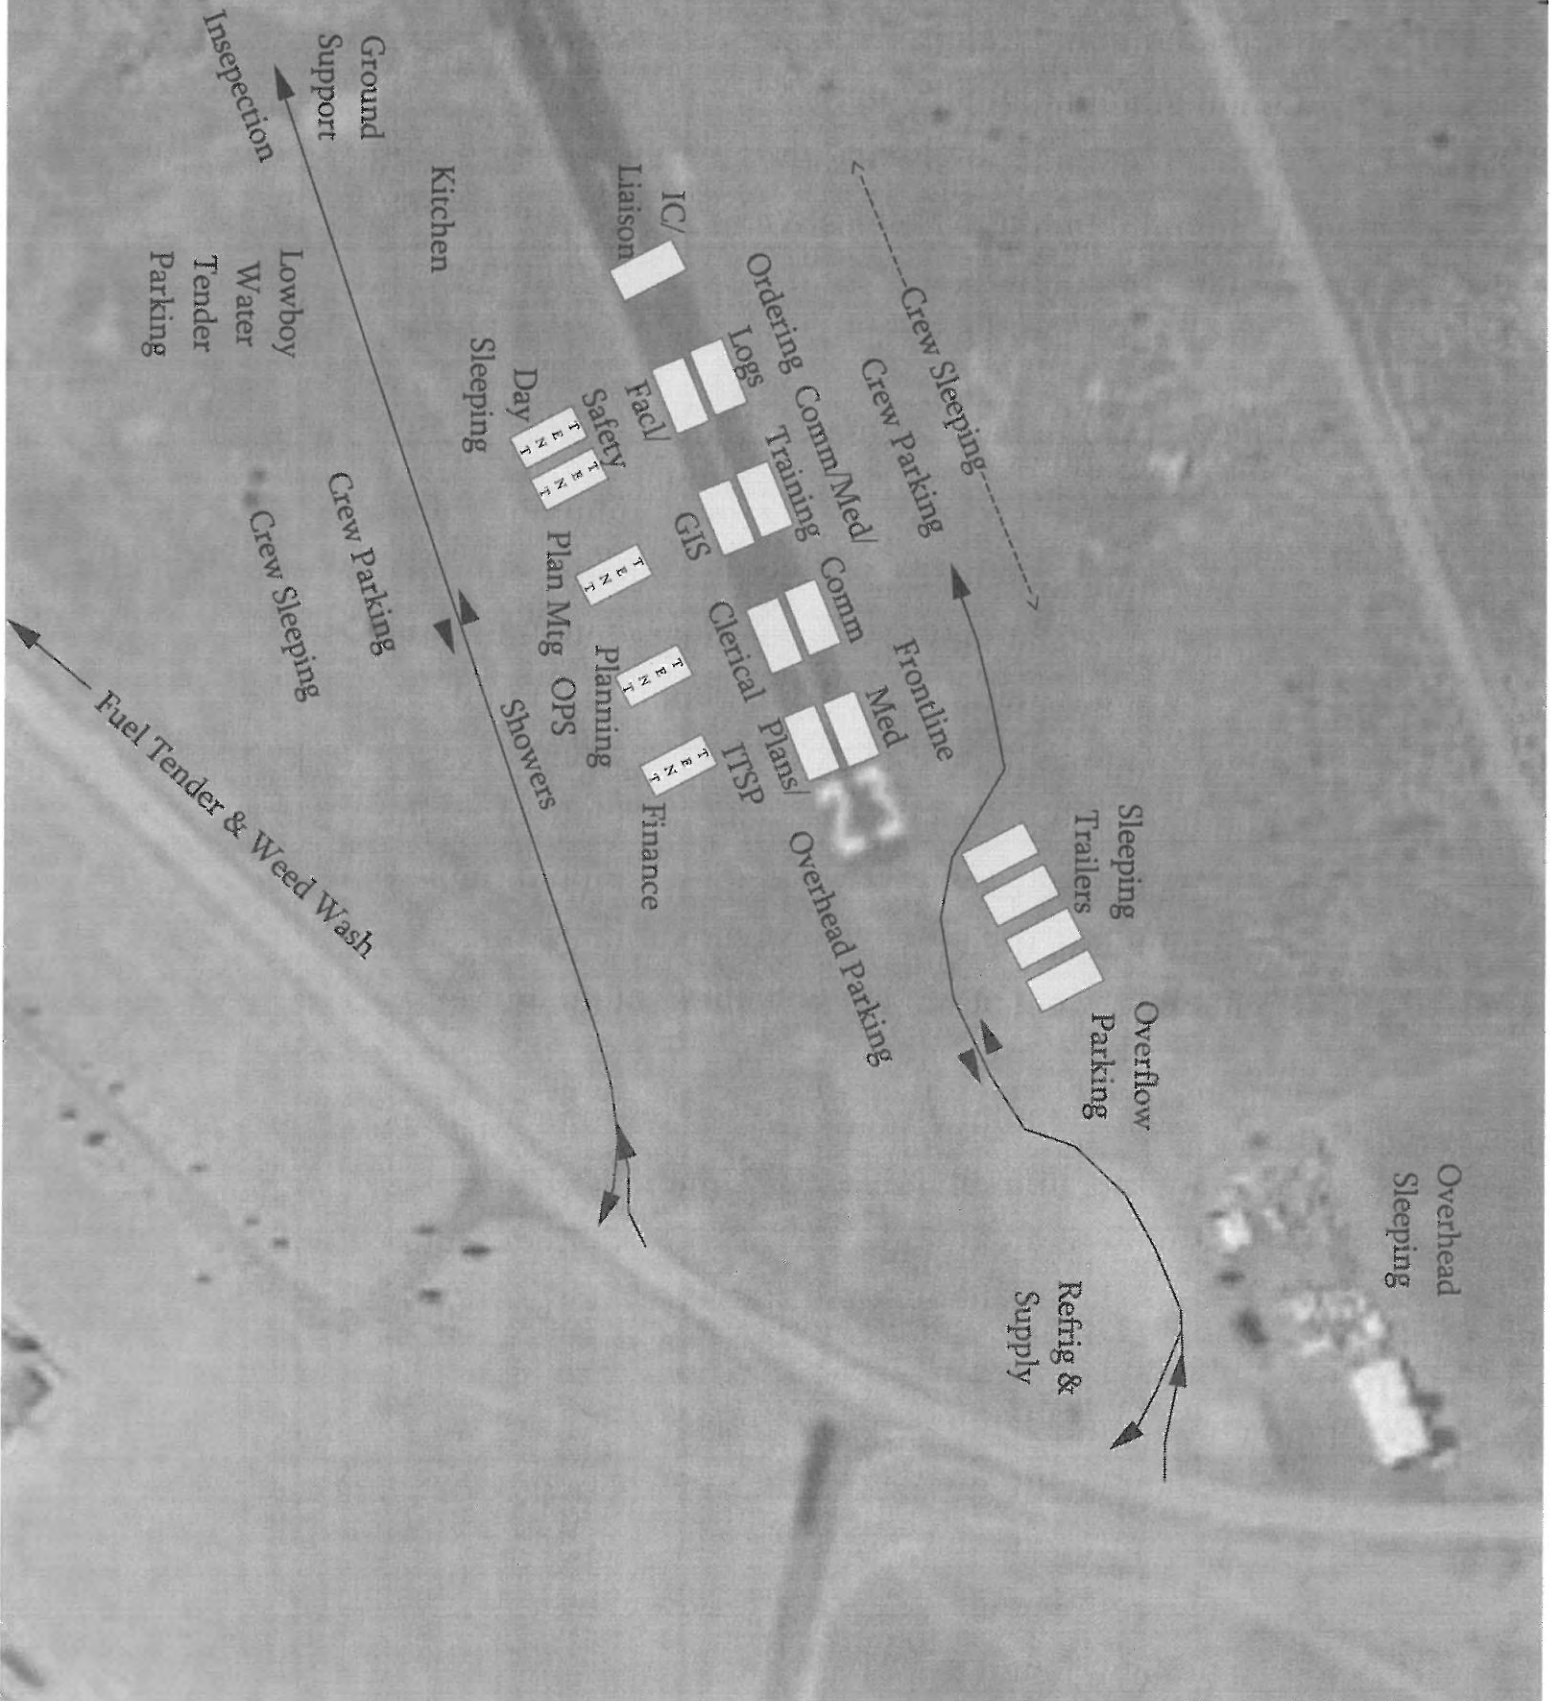

PICTURES AND VIDEO OF INCIDENT

We are in a new era of media. Media no longer means the news/broadcast industry but now refers to anyone that has the capability to shoot video and or photographs and post them onto social media in a matter of minutes. Unfortunately we have seen some instances of video or photographs that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could have unwanted effects. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera can't be looking up, down and all around.

For approval to post Photo and Video you have taken of the fire, please send to the PIO's incident email at: mdffireinfo@gmail.com

INCIDENT MANAGEMENT TEAM

WATER USAGE LOG

DATE: _____

Division / Group: _____

AGENCY ID / VENDOR: _____

I.e., Strike Team 1110C, Acme Water Tenders

REQUEST # _____

TURN INTO FINANCE DAILY

WATER SOURCE LOCATION	Hydrant	Open source i.e. pond	Tank	Gallons Used	Property Owner / Contact Number if known **

****Please note if you made contact with property owner and their contact.
(Use reverse side if needed.)**
Information: _____

The intent of this document is intended to track, record and validated the amount of water used on an incident. It's not intended to review the performance of equipment using the water on an incident.

MEDICAL PLAN (ICS 206 WF)

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency / Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>	
Nature of Injury or Illness & Mechanism of Injury		Brief Summary of Injury or Illness <i>(Ex: Unconscious, Struck by Falling Tree)</i>
Transport Request		Air Ambulance / Short Haul/Hoist Ground Ambulance / Other
Patient Location		Descriptive Location & Lat. / Long. <i>(WGS84)</i>
Incident Name		Geographic Name + "Medical" <i>(Ex: Trout Meadow Medical)</i>
On-Scene Incident Commander		Name of on-scene IC of Incident within an Incident <i>(Ex: TFLD Jones)</i>
Patient Care		Name of Care Provider <i>(Ex: EMT Smith)</i>

3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)

Patient Assessment: See IRPG PAGE 106

Treatment:

4. TRANSPORT PLAN:

Evacuation Location (if different): *(Descriptive Location (drop point, intersection, etc.) or Lat. / Long.)* Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards:

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.

8. ADDITIONAL INFORMATION: Updates/Changes, etc.

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.

UNIT LOG (ICS 214)
