Thursday

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: <p style="text-align: center;">Stone Fire</p>	2. Operational Period:	Date From: 8/23/2018 Time From: 1800	Date To: 8/24/2018 Time To: 0600
3. Objective(s):			
<u>Management Objectives</u> <ul style="list-style-type: none"> - Ensure strategies and tactics commit responders to operations with a high probability of success and minimizes exposure through the application of sound risk management principles. - Minimize the threat to communities, infrastructure, private timber lands, natural resources and other economic concerns. - Establish and strengthen cooperator, partner and stakeholder relationships, utilize partner input to identify strategic opportunities and risk. - Work closely with assigned resource advisors to minimize suppression impacts to sensitive cultural and natural sites. - Share critical information affecting the public through accurate and timely dissemination of information. 			
<u>Control Objectives</u> <ul style="list-style-type: none"> - Keep the fire east of Crank Mountain, 42N36 Rd. - Keep the fire South of National Forest Road 42N60. - Keep the fire North of County Road 85. - Keep the fire West of State Highway 139 and State Highway 299. 			
<u>General situational awareness</u>

Tom Wright

*** RED FLAG WARNING FOR GUSTY SW WINDS AND LOW HUMIDITY THROUGH 2000 ***

DISCUSSION: Strong, gusty west-southwest winds and dry conditions will continue until around 2000. After sunset, winds gradually decrease but remain west-southwest in exposed areas, and sheltered areas will become slope driven. Expect clear skies tonight with a moderate inversion developing around mid-slope after midnight. Tonight will be cooler with better recoveries than recent nights.

THURSDAY NIGHT: *** WINDY AND DRY UNTIL 2000 HRS ***

- **WEATHER:** Clear. Cooler with better recoveries.
- **WIND (20 FT): Ridges and exposed areas:** West-southwest 12-18 mph with gusts to 25 mph possible through 2000, then diminishing to 5-10 mph. **Sheltered areas:** West 5 mph with gusts to 10 mph through 2000, then downslope 1-3 mph.
- **MIN TEMPERATURES:** 45-50 valley bottoms, 55-60 mid-slope and above.
- **MAX RH:** 55-60% valley bottoms, 35-40% mid-slope and above.
- **CHANCE RAIN:** 0%
- **INVERSION:** Moderate developing around mid-slope.

FRIDAY:

- **WEATHER:** Mostly sunny and breezy.
- **WIND (20 FT): Ridges, exposed areas, and wind-aligned drainages:** Southwest 5-10 mph through 1200 then becoming southwest and increasing to 8-13 mph with gusts to 20 mph. **Sheltered areas:** Downslope 1-3 mph through 0900, then upslope 2-5 mph. Occasional west gusts to 10 mph mixing down after 1400.
- **MAX TEMPERATURES:** 78-83
- **MIN RH:** 12-17%
- **CHANCE RAIN:** 0%
- **HAINES:** 4
- **MIXING HEIGHT:** 500 ft AGL or less, increasing to 5,000 ft AGL around 1200, then increasing to 10,000 ft AGL.
- **MIXING WINDS:** West 10-15 mph.

FRIDAY NIGHT:

- **WEATHER:** Clear and cooler. Good recoveries.
- **WIND (20 FT): Ridges and exposed areas:** West-southwest 8-13 mph with gusts to 20 mph possible through 2000, then becoming variable 3-6 mph. **Sheltered areas:** West 5 mph 2000, then becoming downslope 1-3 mph.
- **MIN TEMPERATURES:** 40-45 valley bottoms, 50-55 mid-slope and above.
- **MAX RH:** 65-70% valley bottoms, 45-50% mid-slope and above.
- **CHANCE RAIN:** 0%
- **INVERSION:** Moderate developing around mid-slope.

3-5 DAY OUTLOOK

Saturday: Mostly sunny, dry and breezy. Highs 80-85. Min RH: 12-17%. Winds WSW 10-15 mph with gusts to 20 mph. **Sunday:** Mostly sunny, dry and very windy. Highs 78-83. Min RH: 12-17%. Winds WSW 15-25 mph with gusts to 30 mph. **Monday:** Partly cloudy. Highs 75-80. Min RH 15-20%. Winds W 5-10 mph with gusts to 15 mph.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 014

TYPE OF FIRE: Wildfire Full Suppression

FIRE NAME: Stone

OPERATIONAL PERIOD: 8-23-18 Night Shift

DATE ISSUED: 8-23-18

TIME ISSUED: 1300

UNIT: CA-MDF

SIGNED: Matt Brown

Typed/printed: Matt Brown FBAN(t)

INPUTS

WEATHER SUMMARY: **Red Flag until 2000 hrs for High Winds and Low Humidity**

Temp: 45-60 RH: Max 35-60% Wind: Gusty and variable, WSW 12-18 mph with gusts to 25 through 2000 hrs then reducing to 5-10 mph. Sheltered areas downslope 1-3 mph. Inversion may not be established until after 0100 hours, later on ridges if at all.

Both ERC and 1000 hr Fuel Moistures continue to be in the 97th percentile. Live fuels recorded on 8-15-18 in Sage were 89% and 71% at locations closest to the fire. This is considered close to or just below average.

OUTPUTS

FIRE BEHAVIOR

GENERAL:

The SSW winds will continue to spread the fire on the ridges and slopes. Later on in the operational period an inversion will become established and shelter most of the fire area from the wind down in the drainages. Overnight RH recovery increases a little more tonight on ridges and slopes, but overall, remains moderate. Moderate fire activity with single tree torching will turn to minimal and creeping after the inversion is established in the drainages. Spotting potential will continue to challenge containment with any strong ridge top winds.

SPECIFIC:

Early overnight burning conditions should produce ROS of 40-55 ch/hr and flame lengths 2-6 ft. in the grass shrub mix, just until the winds begin to calm and the inversion sets up. In areas with high loading of timber litter expect ROS 10-15 ch/hr and flame lengths 1-5 ft. All flanking and backing fire will have FL less than 3 ft. After 0100 hrs, the inversion in drainages should bring the FDFM up to 10% and reduce consumption as grass/shrub type fuels near the moisture of extinction.

Divisions A/Z will experience favorable wind conditions except for the slop over in Z, near HY 299. Until mop up is complete, torching trees interior could spot over HY 299. Areas in the drainages will have lighter winds and higher RH recovery. Firing operations should have good consumption prior to 0100 in drainages and a slightly extended burn window in the higher elevations.

Divisions E/G/J will experience some wind tests on pieces of line that are oriented to the East or West. Firing operations should experience good consumption until 0100 in the grass shrub mix. Expect a few more hours of burning to be available in the heavy timber litter areas.

Division M will experience variable winds but mostly adverse. SW winds will challenge containment on ridge tops above the 84 Road and above 4500 ft elevation where mop up has not been completed. Winds will be light and favorable in the drainages. Inversions will become established later on in the shift, reducing the effects of wind, and close the burn window in the drainages.

AIR OPERATIONS:

Smoke may obscure air operation opportunities early in the operational period in divisions downwind from the fire. As the fire moves into areas covered with more grass and less conifer, expect increased effectiveness with retardant application. At sunrise expect smoke inversions to be prevalent in the deep drainages.

SAFETY

Prepare for shifting winds and reduced RH especially on ridge tops. Upper level winds should keep the pyrocumulus column sheered off; however, as winds calm around sunset a pyrocumulus may form and create outflow winds. Wind direction at night will most likely experience several changes due to a new weather pattern and diurnal influences.

ASSIGNMENT LIST (ICS 204)

DIV	HAZARDOUS ACTIONS / CONDITIONS	MITIGATIONS / WARNINGS / REMEDIES
ALL	DANGER TREES	<ul style="list-style-type: none"> Follow "Hazard Tree Safety" guidelines, IRPG. Post lookouts, or use a spotter in mop-up areas with personnel. Don't park vehicles or take breaks in high concentrations of hazard trees. Establish trigger points for disengagement during "high wind events".
ALL	DRY FUEL CONDITIONS	<ul style="list-style-type: none"> Establish and maintain LCES. Heavy grass crop, fuel moistures at critical levels. Anticipate intense burning and rapid rates of spread. Watch for spot fires. Allow for adequate time to escape routes and safety zones.
ALL	TRAFFIC & DRIVING	<ul style="list-style-type: none"> Practice "Defensive Driving" techniques. Use spotters when backing. Always use headlights. Some roads are dead end with poor turn around, scout roads first. Watch for livestock.
ALL	POINT PROTECTION	<ul style="list-style-type: none"> Do not commit to stay in areas without adequate safety zones. Set trigger points to disengage and allow adequate time to relocate to primary and secondary safety zones. Look for propane tanks and other hazardous materials.
ALL	SPOT FIRES	<ul style="list-style-type: none"> Size up prior to engagement. Watch for multiple spots. Ensure LCES is in place. Maintain Situational Awareness at all times.
ALL	FIRE WEATHER	<ul style="list-style-type: none"> Winds increasing or changing direction. Weather becoming hotter and drier. Unstable atmosphere can promote rapid fire growth.
ALL	FIRING OPERATIONS	<ul style="list-style-type: none"> A written guideline shall be prepared and approved for major burning operations. Conduct thorough briefing for all personnel (inside rear cover IRPG). Qualified personnel for all assignments. Trainees to have qualified trainers. Required PPE to be worn by all personnel involved. Establish LCES prior to implementing burning operations.
ALL	FATIGUE	<ul style="list-style-type: none"> Be alert for signs of fatigue and take breaks as necessary. Maintain 2:1 work/rest ratio. Monitor incoming resources for level of fatigue.
DIV M, Z	MOP-UP	<ul style="list-style-type: none"> Conduct thorough briefing for all personnel (inside rear cover IRPG). Use all required PPE, including eye protection. Maintain proper spacing and overhead clearance. Be alert for hazard trees, stump holes, and ash pits. Minimize exposure to smoke, and rotate personnel into clean air when practical. Evaluate unburned islands/Increase situational awareness.
ALL	HEAVY EQUIPMENT OPERATIONS	<ul style="list-style-type: none"> Ensure communications are established with operators. Use hand signals if other communications are unavailable. Maintain a 50'-100' exclusion area around equipment. Use a spotter when backing.

SAFETY MESSAGE

COMPLACENCY

- Defined= A feeling of being satisfied and not wanting to make it better.
- Your goal is to **NEVER** be satisfied with your safety.
- **Keep your edge by asking these 3 questions;**
 1. What could go wrong?
 2. What more can I do to ensure our safety?
 3. What may I be unaware of that could compromise our safety?
- Look up, Look down, and Look all around to maintain your awareness.

MAJOR HAZARDS AND RISKS

STEEP TERRAIN FATIGUE SPOT FIRES	ROLLING MATERIAL DEHYDRATION BUCKET DROPS	HEAVY EQUIPMENT HAZARD TREES COMPLACENCY
--	---	--

Be sure all elements of your safety plan are in place prior to engagement

Decision Points

Establish Decision Point(s) when potential exists for your fire situation to degrade.

Insure that your situation awareness includes monitoring factors that relate to the Decision Point(s) you set.

Have a planned response in place.

Do not ignore a Decision Point that has been hit!

COMMUNICATIONS RESPONSIBILITIES

All firefighters have five communication responsibilities:

- Brief others as needed.
- Debrief your actions.
- Communicate hazards to others.
- Acknowledge messages.
- Ask if you don't know or are unclear.

In addition, all leaders of firefighters have the responsibility to provide complete briefings that include a clearly stated "Leader's Intent."

- Task = What is to be done
- Purpose = Why it is to be done
- End State = How it should look when done

Nor Cal Team 2 Safety Officers T. O'Connell, F. Pingiczer, S. Davis SOF2

TRAINING SPECIALIST MESSAGE

Incident Trainees who have not done so, should register their assignment with the Incident Training Specialist at the earliest opportunity

It is to your advantage to complete the (quick) registration process sooner than later. Avoid Delays At DEMOB.

Scan the QR Code below to access and complete the Trainee Registration Form. Then stop by the Training Desk with your Task Book and Red Card to complete the Registration Process.

The TNSP may be contacted at 209-770-4809 for training related questions.

STONE FIRE INFORMATION

CAL FIRE SOCIAL MEDIA POLICY (Social Media 0691)

Social Media is increasingly being used by public agencies and the media as well as the public. This form of communication continues to grow rapidly in order to supply the public's desire for instant information gratification. All personnel assigned to a CAL FIRE incident will adhere to the CAL FIRE Social Media Policy. Further information about the CAL FIRE Social Media Policy can be obtained from the Information Officer. If you are uncertain, please ask. **Do not post:**

- Inappropriate information, pictures or videos
- Opinions regarding the incident or policy
- Endorsements of any kind

FEDERAL FIRE SOCIAL MEDIA POLICY

Social media posts can reflect on the professionalism of your crew, your agency and Wildland Firefighting Community. The U.S. Forest Service has enjoyed a reputation as the world leader in wildland firefighting for over 100 years. Protect our legacy with good conduct on the fireline and online. When assigned to a federal fire you are considered a federal employee under the delegation of authority. Even if you are a contractor, AD or from a partner agency we recommend you follow these ethics guidelines which apply to federal employees all the time.

Think before you post:

- On official time, do official duties; if using government equipment, do government business.
- Don't use your official position/title for private gain.
- Do share government information that is publically available (such as links to Inciweb, weather reports, feature stories, official evacuation notices etc...) Do not disclose (via any medium) non-public information to further private interests or the private interests of others.
- Do not share information outside official channels that could be associated with a crime or a claim, (for instance do not post on social media about serious accidents, deaths or destroyed property).
- Do not accept compensation for statements made over social media that relate to official duties.
- Never use your official title while engaging in "political activity" (activity directed toward the success or failure of a political party, partisan candidate or partisan political group).
- Federal employees may express their opinions concerning partisan political candidates and political parties on social media when they are off duty and away from the federal workplace.
- If you have questions about content you'd like to post on social media, contact a PIO, they can help you.

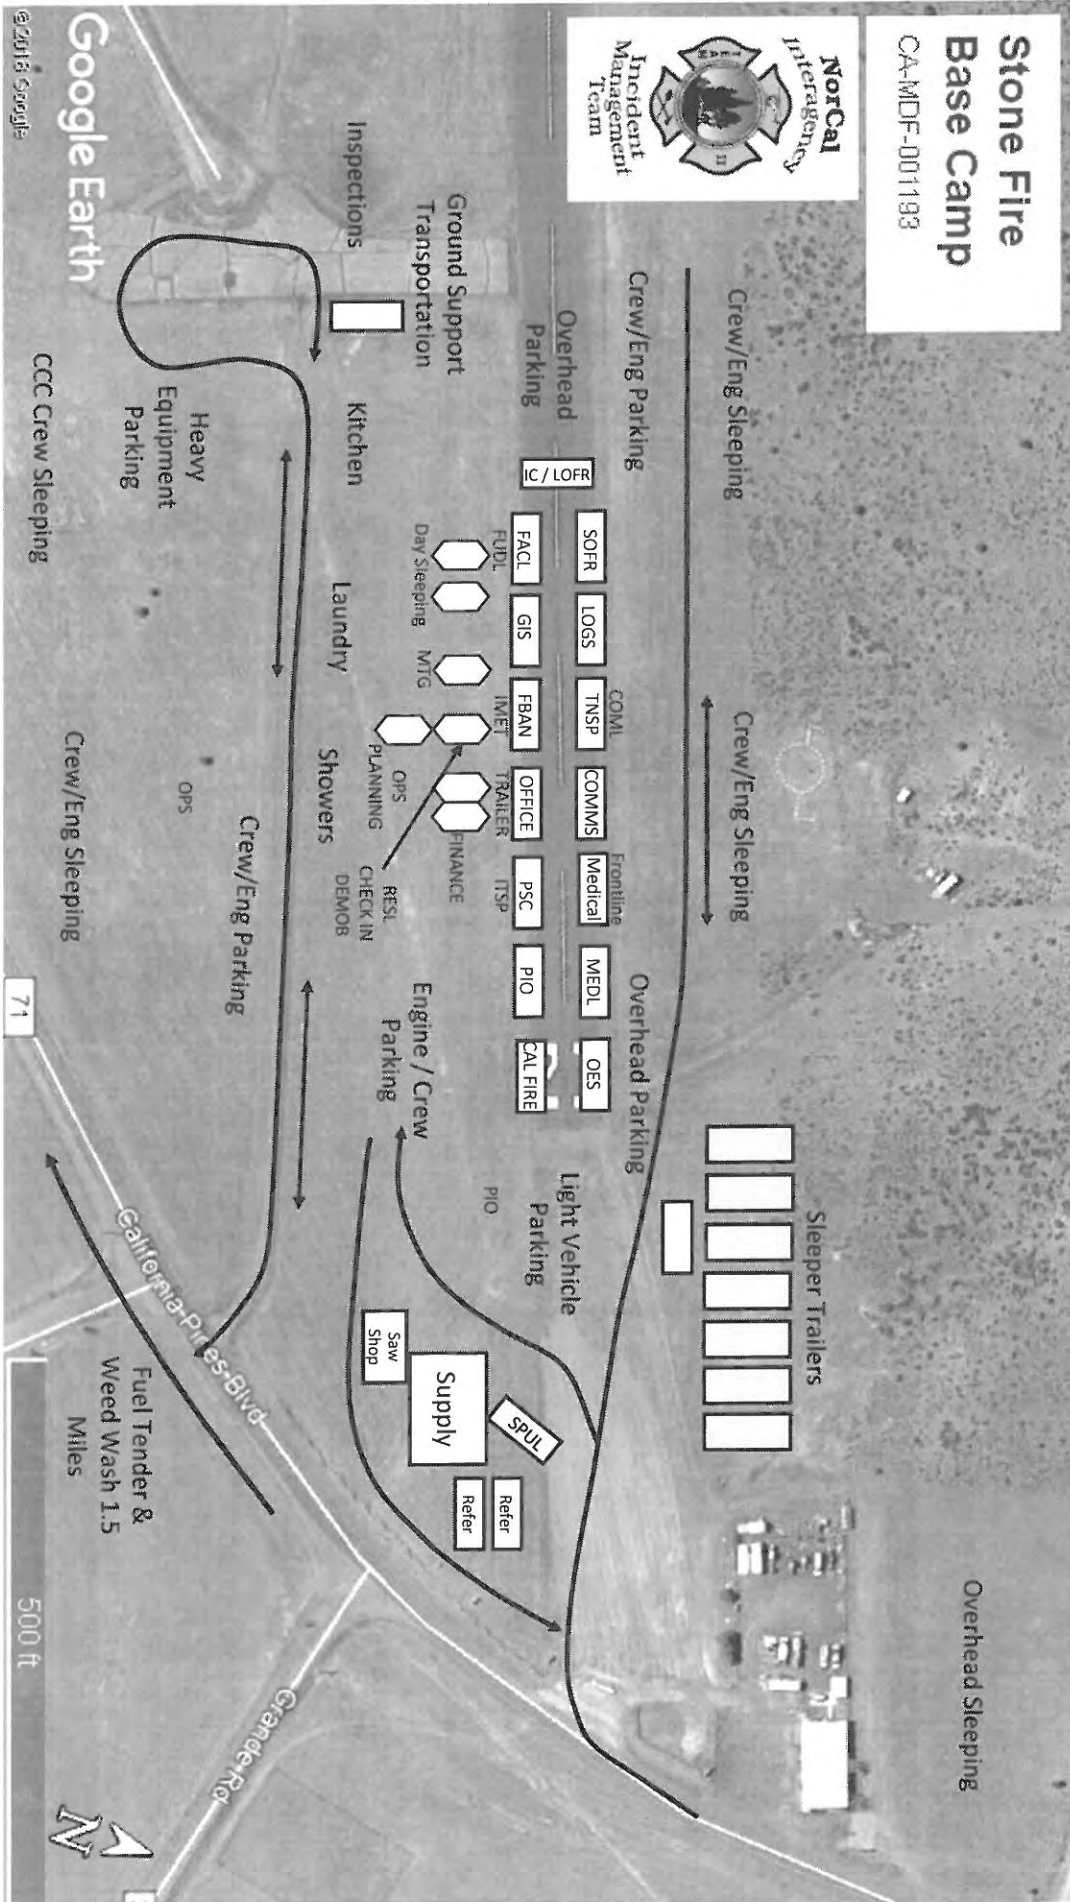

PICTURES AND VIDEO OF INCIDENT

We are in a new era of media. Media no longer means the news/broadcast industry but now refers to anyone that has the capability to shoot video and or photographs and post them onto social media in a matter of minutes. Unfortunately we have seen some instances of video or photographs that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could have unwanted effects. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera can't be looking up, down and all around.

For approval to post Photo and Video you have taken of the fire, please send to the PIO's incident email at: mdffireinfo@gmail.com

12	Inline-Tee, (1½" x 1")		38	Chainsaw Kit / {accountability #}	
13	Reducer, 1½"x 1"		39	Water, Cubies	
14	Reducer, 1"x ¾"		40	Water, Bottled, Cases	
15	Shut Off ¾"		41	Gatorade, Cases	
16	Foam 5 gal		42	MRE's (12/BX)	
17	Backpack Pump			ANYTHING NOT LISTED ABOVE:	
18	Pumpkin 1500 / 3000 / 6000 gal order size				
19	Folding-Tank 1000 / 1500 gal order size				
	PUMP KITS				
20	Lightweight / {accountability #}				
21	Mark III / {accountability #}				
22	Fuel Unleaded (5 Gal cans)			ACCOUNTABILITY PROPERTY #'S HERE:	
23	Fuel Drip Torch (5 gal cans)				
24	Fuel Diesel (5 gal cans)				
25	2 Cycle oil (Pints)				
26	Bar Oil (Qts)				
27	Drip Torch (ea)				

SPECIAL NOTES:

MEDICAL PLAN (ICS 206 WF)

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency / Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>	
Nature of Injury or Illness & Mechanism of Injury		Brief Summary of Injury or Illness <i>(Ex: Unconscious, Struck by Falling Tree)</i>
Transport Request		Air Ambulance / Short Haul/Hoist Ground Ambulance / Other
Patient Location		Descriptive Location & Lat. / Long. <i>(WGS84)</i>
Incident Name		Geographic Name + "Medical" <i>(Ex: Trout Meadow Medical)</i>
On-Scene Incident Commander		Name of on-scene IC of Incident within an Incident <i>(Ex: TFLD Jones)</i>
Patient Care		Name of Care Provider <i>(Ex: EMT Smith)</i>

3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)

Patient Assessment: See IRPG PAGE 106

Treatment:

4. TRANSPORT PLAN:

Evacuation Location *(if different): (Descriptive Location (drop point, intersection, etc.) or Lat. / Long.)* Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards:

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.

8. ADDITIONAL INFORMATION: Updates/Changes, etc.

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.
