# INCIDENT OBJECTIVES (ICS 202)

<b>1. Incident Name:</b> <p style="text-align: center;">Stone Fire</p>	<b>2. Operational Period:</b>	Date From: 8/24/2018	Date To: 8/24/2018
		Time From: 0600	Time To: 1800

**3. Objective(s):**

Management Objectives

- Provide for Firefighter and public safety by utilizing appropriate risk management standards and mitigations.
- Ensure strategies and tactics commit responders to operations with a high probability of success and minimizes exposure through the application of sound risk management principles.
- Minimize the threat to communities, infrastructure, private timber lands, natural resources and other economic concerns.
- Establish and strengthen cooperator, partner and stakeholder relationships, utilize partner input to identify strategic opportunities and risk.
- Work closely with assigned resource advisors to minimize suppression impacts to sensitive cultural and natural sites.
- Share critical information affecting the public through accurate and timely dissemination of information.
- Identify, assess and implement suppression repair needs, where appropriate, in coordination with Resource Advisors following agency policy.

Control Objectives

- Keep the fire east of Crank Mountain, 42N36 Rd.
- Keep the fire South of National Forest Road 42N60.
- Keep the fire North of County Road 85.
- Keep the fire West of State Highway 139 and State Highway 299.

# Fire Weather Forecast

## FRIDAY AUG 24, 2018

**FORECAST NO:** 13  
**PREDICTION FOR:** Friday  
**SHIFT DATE:** Aug 24, 2018  
**ISSUED:** 2000, Aug 23, 2018

**NAME OF FIRE:**  
**UNIT:**  
**Incident Meteorologist:**

**Stone**  
**Modoc N.F.**  
**Tom Wright**

\*\*\* GUSTY AFTERNOON WEST WINDS \*\*\*

**DISCUSSION:** A weak, dry cold front is moving through the area this morning, and this will result in cooler temperatures and higher humidities than previous mornings. West-northwest winds will develop behind the front this afternoon, and they will be gusty, but not as strong as yesterday. This afternoon will also be cooler than previous days with slightly less dry conditions, but hardly noticeable. A Haines of 4 will not promote plume growth but it will also not hinder it should other factors align.

---

### FRIDAY:

- **WEATHER:** Mostly sunny. Gusty afternoon winds.
- **WIND (20 FT): Ridges, exposed areas, and wind-aligned drainages:** West-southwest 5-10 mph through 1200 then becoming west-northwest and increasing to 6-12 mph with gusts to 17 mph. **Sheltered areas:** Downslope 1-3 mph through 0900, then upslope 2-5 mph. Locally west 3-6 mph.
- **MAX TEMPERATURES:** 78-83
- **MIN RH:** 12-17%
- **CHANCE RAIN:** 0%
- **HAINES:** 4
- **MIXING HEIGHT:** 500 ft AGL or less, increasing to 5,000 ft AGL around 1200, then increasing to 10,000 ft AGL.
- **MIXING WINDS:** West 10-15 mph.

---

### FRIDAY NIGHT:

- **WEATHER:** Clear and cooler. Good recoveries.
- **WIND (20 FT): Ridges and exposed areas:** West 5-10 mph with gusts to 17 mph possible through 2000, then becoming variable 3-6 mph. **Sheltered areas:** Variable 3-6 mph 2000, then becoming downslope 1-3 mph.
- **MIN TEMPERATURES:** 40-45 valley bottoms, 50-55 mid-slope and above.
- **MAX RH:** 65-70% valley bottoms, 45-50% mid-slope and above.
- **CHANCE RAIN:** 0%
- **INVERSION:** Moderate developing around mid-slope.

---

### SATURDAY:

- **WEATHER:** Mostly sunny, dry and breezy.
- **WIND (20 FT): Ridges, exposed areas, and wind-aligned drainages:** Variable 3-6 mph through 1200 then becoming west and increasing to 8-13 mph with gusts to 20 mph. **Sheltered areas:** Downslope 1-3 mph through 0900, then upslope 2-5 mph. Occasional west 5 mph with gusts to 10 mph mixing down after 1400.
- **MAX TEMPERATURES:** 80-85
- **MIN RH:** 12-15%
- **CHANCE RAIN:** 0%
- **HAINES:** 4
- **MIXING HEIGHT:** 500 ft AGL or less, increasing to 6,000 ft AGL around 1200, then increasing to 12,000 ft AGL.
- **MIXING WINDS:** West 10-15 mph.

---

### 3-5 DAY OUTLOOK

**Sunday:** Partly cloudy, dry and **VERY WINDY**. Highs 78-83. Min RH: 12-17%. Winds W 15-25 mph with gusts to 30 mph. **Monday and Tuesday:** Partly cloudy. Highs 75-80. Min RH 15-20%. Winds W-NW 5-10 mph with gusts to 15 mph.

# FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 015

FIRE NAME: Stone

DATE ISSUED: 8-23-18

UNIT: CA-MDF

TYPE OF FIRE: Wildfire Full Suppression

OPERATIONAL PERIOD: 8-24-18 Day Shift

TIME ISSUED: 2100

SIGNED: Matt Brown

Typed/printed: Matt Brown FBAN(t)

## INPUTS

**WEATHER SUMMARY:** \*\*Gusty Afternoon Winds\*\*

Warm and dry with low double-digit humidity and gusty WNW winds; primarily terrain driven at eye level early then WNW in the afternoon.

Temp: 78-83F RH: Min 12-17% Wind: Light and Variable turning WNW 6-12 with gusts to 17 mph at the 20ft. level. Inversion to mix out at 1200 hrs.

Both ERC and 1000 hr Fuel Moistures are in the 97<sup>th</sup> percentile. Live fuels recorded on 8-5-18 in sage were 89% and 71% at locations closest to the fire. Fine Dead should be 4% on a West Aspect in the afternoon with a PI of 80%.

## OUTPUTS

### FIRE BEHAVIOR

#### GENERAL:

In the morning expect minimal fire activity until the inversion breaks around 1200 hrs. The moderate RH recovery will allow the fire to spread through the night on the slopes and ridges in the timber. Burning conditions will be active in the heavier dead fuels. The low RH values are keeping light fuels receptive to brands and providing complete consumption of the dead component. WNW winds will test containment in Eastern parts of the fire. Expect increased risk of spotting across HY 299 where green islands torch out or where mop-up has not been completed along the 299 corridor.

#### SPECIFIC:

Limited direct attack opportunities will be present in all divisions with light fuel loading in the early parts of the shift. Low ROS and flame length during the early part of operational period will be favorable and provide opportunities to secure containment along HY 299 and other areas critical to meet strategic objectives. Normal burning conditions after 1200 hrs. should produce ROS of 25-35 ch/hr and flame lengths 4-8 ft. in the grass shrub mix. In the heavy timber litter/understory expect ROS of 10-20 ch/hr and flame lengths of 6-12 ft. Expect group torching in aligned drainages, with spot distances of up to 1/3 mile.

**Divisions J/M** may receive an early wind test as NW winds impact the fire. This includes small doglegs that may have developed during firing ops. Good mop-up depth will be critical to holding any of these parts of fireline especially on Sunday when they will receive a strong wind test.

**Divisions A/Z** will experience adverse wind conditions. Any fire activity that can result in torching trees will increase spotting risk across HY 299 or southern containment lines. Mop-up may need to include interior green islands, where safe to do so.

**Division E/G** will experience favorable winds. Firing plans will need to include extensive mop up plans, especially for segments of line that are oriented adversely for the upcoming strong SW wind event Sunday.

#### AIR OPERATIONS:

Smoke may obscure air operation opportunities early in the operational period. As the fire moves into areas covered with more grass and less conifer, expect increased effectiveness with retardant application.

## SAFETY

Fresh firing operations may contain many snags. Watch for overhead hazards when working around fire weakened trees. If involved in IA, develop a plan of attack that accounts for both slow foot travel, sudden wind shifts and rapid rates of spread. Surface fires consuming large amounts of heavy dead component may pre-condition conifer canopy and increase probability of a re-burn though the crowns on steeper windward slopes.

**General Remarks, Safety Notes, Hazards, Air Operations Special Equipment, etc.**  
Track all dipsites and water taken from them.

**All GPS DATA TO BE COLLECTED IN DEGREES, MINUTES, DECIMAL MINUTES FORMAT.**

*AVOID Aerial Application of Retardant / Foam / Agent within 300' of Waterways, Bodies of Water, etc.  
 If Retardant / Foam / Agent is Dropped Within These Areas Immediately Notify the AOB and Provide the Following Information: Lat / Long, Estimated Number of Gallons and a Map Detailing The Area.*

**Be aware of possible cables and small distribution lines around dip sites. Take time to identify and avoid hazards before descending. Communicate hazards so they can be made known to fellow pilots.**

## SAFETY MESSAGE

### COMMON TACTICAL HAZARDS

#### POSITION

- Building fireline downhill.
- Building underslung or mid-slope fireline.
- Building indirect fireline or unburned fuel remains between you and the fire.
- Attempting frontal assault on the fire or you are delivered by aircraft to the top of the fire.
- Depending on escape routes that are uphill or difficult to travel.

#### SITUATION

- Poor communication.
- Suppression resources are fatigued or inadequate.
- Assignment or escape route depends on aircraft.
- Nighttime operations.
- Wildland urban interface operations.

#### *MAJOR HAZARDS AND RISKS*

STEEP TERRAIN FATIGUE SPOT FIRES	ROLLING MATERIAL DEHYDRATION BUCKET DROPS	HEAVY EQUIPMENT HAZARD TREES COMPLACENCY
--	---	--

*Be sure all elements of your safety plan are in place prior to engagement*

#### Aircraft Safety

Keep personnel out of the drop zone

Use air to ground frequency to communicate with aircraft

Use the clock position of the aircraft to help coordinate target location

Use clear concise statement when communicating with the aircraft

Provide feedback on drop accuracy

#### Cumulative Fatigue

Maintaining peak performance requires that you take good care of your body.

Get the appropriate amount of rest. Manage your off time to get as much sleep as possible.

Proper Nutrition and hydration is critical to managing fatigue.

## Human Resource Message

HELLO!!!

The role of a Human Resource Specialist (HRSP) assigned to an incident is to help facilitate and maintain a positive work environment for everyone; which for us HRSPs, starts with a "hello!" A simple greeting, even if it is a "hey or hi," goes a long way toward establishing our human connection and how we relate to others. When we remain silent among strangers, we unwittingly reinforce the feeling of differences, which in turn builds walls that make it harder to recognize our similarities. This could have a negative impact in our work environment.

Another role of a HRSP, is to be a focal point for informal resolution of issues and concerns. You may come to me with a question or concern about any aspect of your work environment while assigned to the incident. I am particularly committed to being proactive by handling issues when they are small instead of waiting for the issue to boil over.

Feel free to call/text or come by if you have questions, concerns, or just want to chat. My office is located on the eastside of the airstrip.

Ryan Voelkl – HRSP: 530-457-7276

# STONE FIRE INFORMATION

## **CAL FIRE SOCIAL MEDIA POLICY (Social Media 0691)**

Social Media is increasingly being used by public agencies and the media as well as the public. This form of communication continues to grow rapidly in order to supply the public's desire for instant information gratification. All personnel assigned to a CAL FIRE incident will adhere to the CAL FIRE Social Media Policy. Further information about the CAL FIRE Social Media Policy can be obtained from the Information Officer. If you are uncertain, please ask. **Do not post:**

- Inappropriate information, pictures or videos
- Opinions regarding the incident or policy
- Endorsements of any kind

## **FEDERAL FIRE SOCIAL MEDIA POLICY**

Social media posts can reflect on the professionalism of your crew, your agency and Wildland Firefighting Community. The U.S. Forest Service has enjoyed a reputation as the world leader in wildland firefighting for over 100 years. Protect our legacy with good conduct on the fireline and online. When assigned to a federal fire you are considered a federal employee under the delegation of authority. Even if you are a contractor, AD or from a partner agency we recommend you follow these ethics guidelines which apply to federal employees all the time.

### **Think before you post:**

- On official time, do official duties; if using government equipment, do government business.
- Don't use your official position/title for private gain.
- Do share government information that is publically available (such as links to Inciweb, weather reports, feature stories, official evacuation notices etc...) Do not disclose (via any medium) non-public information to further private interests or the private interests of others.
- Do not share information outside official channels that could be associated with a crime or a claim, (for instance do not post on social media about serious accidents, deaths or destroyed property).
- Do not accept compensation for statements made over social media that relate to official duties.
- Never use your official title while engaging in "political activity" (activity directed toward the success or failure of a political party, partisan candidate or partisan political group).
- Federal employees may express their opinions concerning partisan political candidates and political parties on social media when they are off duty and away from the federal workplace.
- If you have questions about content you'd like to post on social media, contact a PIO, they can help you.

## **PICTURES AND VIDEO OF INCIDENT**

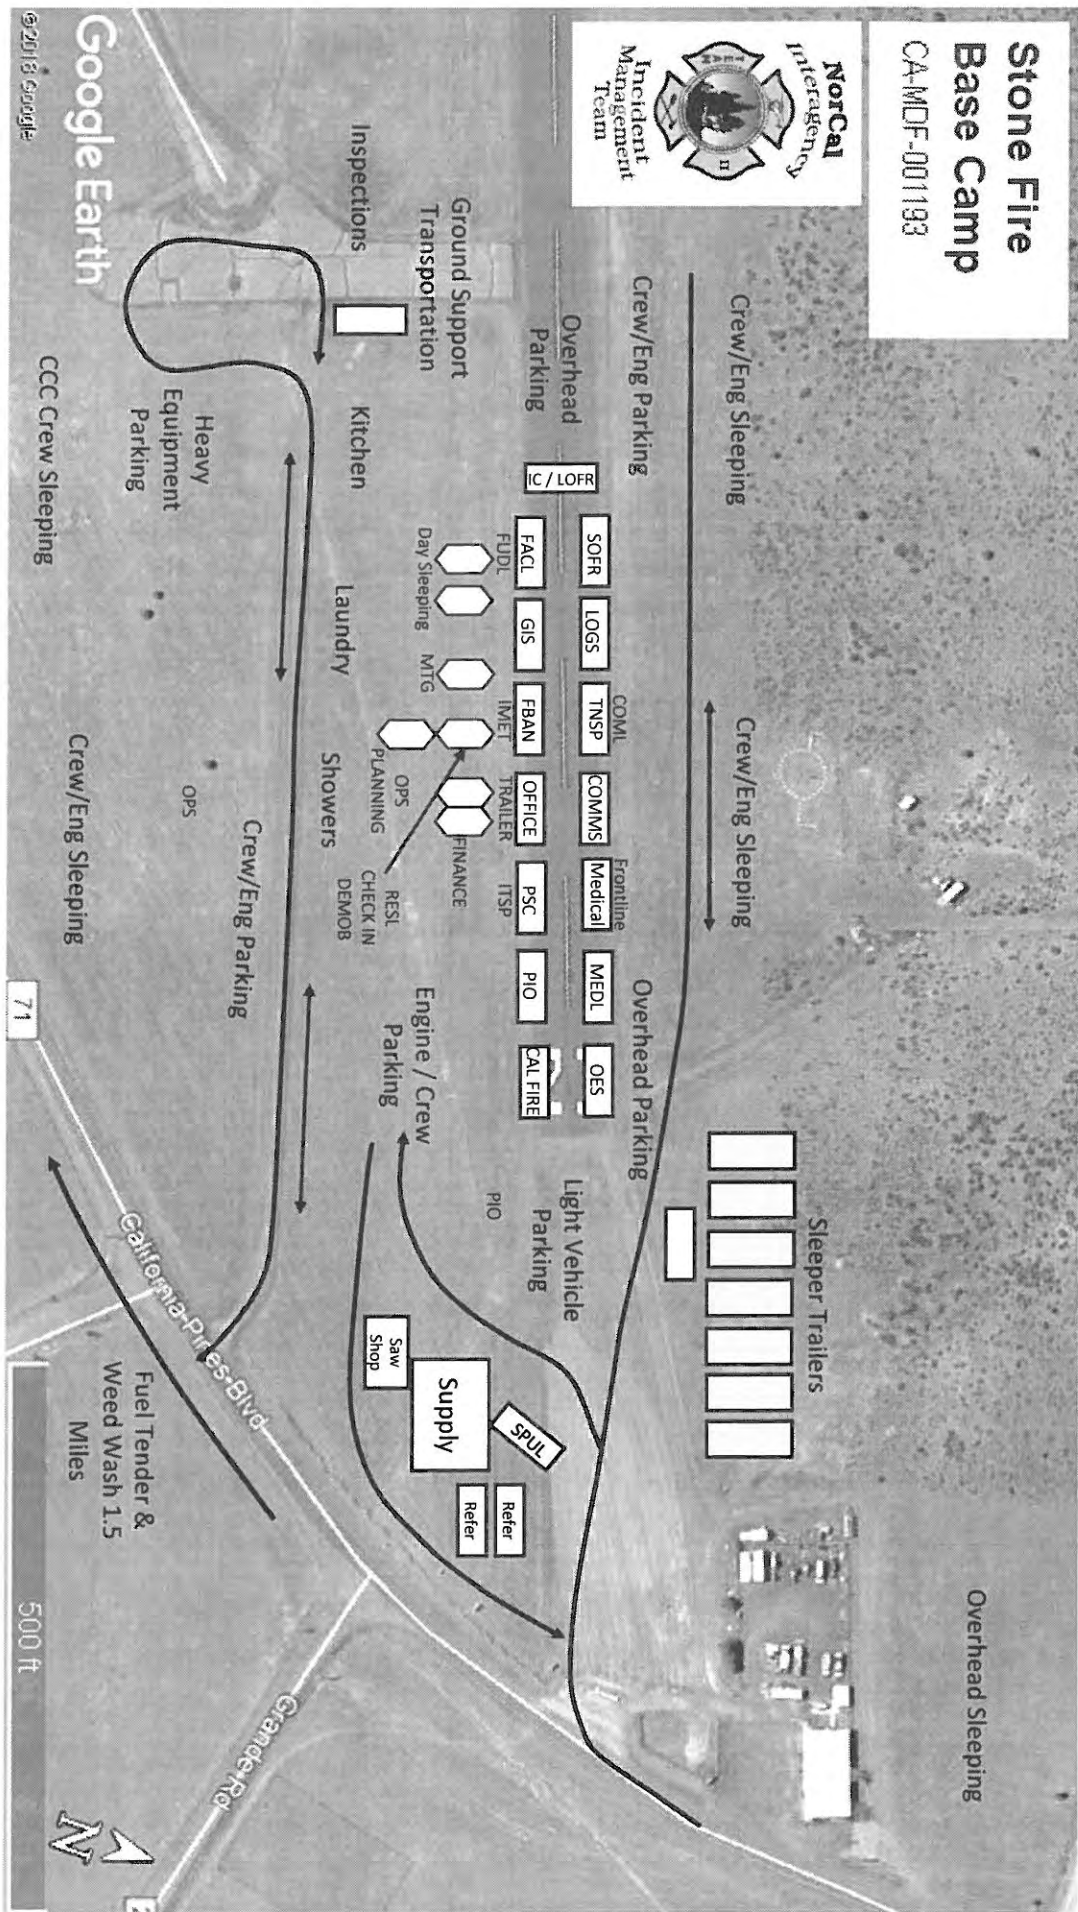

We are in a new era of media. Media no longer means the news/broadcast industry but now refers to anyone that has the capability to shoot video and or photographs and post them onto social media in a matter of minutes. Unfortunately we have seen some instances of video or photographs that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could have unwanted effects. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera can't be looking up, down and all around.

For approval to post Photo and Video you have taken of the fire, please send to the PIO's incident email at: [mdffireinfo@gmail.com](mailto:mdffireinfo@gmail.com)
