

# INCIDENT ACTION PLAN

## Stone Fire

CA-MDF-001193

P5L3GU (0509)

Friday

**NIGHT SHIFT**

**8/24/2018 1800**

**to**

**8/25/2018 0600**

Fire Information (530) 710-8620

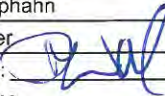

## INCIDENT OBJECTIVES (ICS 202)

<b>1. Incident Name:</b> <p style="text-align: center;">Stone Fire</p>	<b>2. Operational Period:</b> Date From: 8/24/2018    Date To: 8/25/2018 Time From: 1800    Time To: 0600																					
<b>3. Objective(s):</b> <u>Management Objectives</u> <ul style="list-style-type: none"> <li>- Provide for Firefighter and public safety by utilizing appropriate risk management standards and mitigations.</li> <li>- Ensure strategies and tactics commit responders to operations with a high probability of success and minimizes exposure through the application of sound risk management principles.</li> <li>- Minimize the threat to communities, infrastructure, private timber lands, natural resources and other economic concerns.</li> <li>- Establish and strengthen cooperater, partner and stakeholder relationships, utilize partner input to identify strateigc opportunities and risk.</li> <li>- Work closely with assigned resource advisors to minimize suppression impacts to sensitive cultural and natural sites.</li> <li>- Share critical information affecting the public through accurate and timely dissemination of information.</li> <li>- Identify, assess and implement suppression repair needs, where appropriate, in coordination with Resource Advisors following agency policy.</li> </ul> <u>Control Objectives</u> <ul style="list-style-type: none"> <li>- Keep the fire east of Crank Mountain, 42N36 Rd.</li> <li>- Keep the fire South of National Forest Road 42N60.</li> <li>- Keep the fire North of County Road 85.</li> <li>- Keep the fire West of State Highway 139 and State Highway 299.</li> </ul>																						
<u>General situational awareness</u>          																						
<b>5. Site Safety Plan Required?</b> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>																						
<b>Approved Site Safety Plan(s) Located at:</b>

# Fire Weather Forecast

**FORECAST NO:** 14  
**PREDICTION FOR:** Friday Night  
**SHIFT DATE:** Aug 24, 2018  
**ISSUED:** 1100, Aug 24 2018

**NAME OF FIRE:**  
**UNIT:**  
**Incident Meteorologist:**

**Stone**  
**Modoc N.F.**  
**Tom Wright**

**DISCUSSION:** Gusty west-northwest winds will continue into the early evening hours (through around 2000), then become light and variable most locations overnight. Winds in exposed areas will be a little steadier and while they may also be variable, they will tend to be from the northeast. Expect another cool night with good humidity recoveries.

---

## FRIDAY NIGHT:

- **WEATHER:** Clear and cool. Good RH recoveries.
- **WIND (20 FT): Ridges and exposed areas:** West 5-10 mph with gusts to 17 mph possible through 2000, then becoming variable (tending northeast) 3-6 mph. **Sheltered areas:** Variable 3-6 mph 2000, then becoming downslope 1-3 mph.
- **MIN TEMPERATURES:** 40-45 valley bottoms, 50-55 mid-slope and above.
- **MAX RH:** 65-70% valley bottoms, 50-55% mid-slope and above.
- **CHANCE RAIN:** 0%
- **INVERSION:** Moderate developing around mid-slope.

---

## SATURDAY:

- **WEATHER:** Mostly sunny, dry and breezy.
- **WIND (20 FT): Ridges, exposed areas, and wind-aligned drainages:** Variable 3-6 mph through 1200 then becoming west and increasing to 8-13 mph with gusts to 20 mph. **Sheltered areas:** Downslope 1-3 mph through 0900, then upslope 2-5 mph. Occasional west 5 mph with gusts to 10 mph mixing down after 1400.
- **MAX TEMPERATURES:** 80-85
- **MIN RH:** 12-15%
- **CHANCE RAIN:** 0%
- **HAINES:** 4
- **MIXING HEIGHT:** 500 ft AGL or less, increasing to 6,000 ft AGL around 1200, then increasing to 12,000 ft AGL.
- **MIXING WINDS:** West 10-15 mph.

---

## SATURDAY NIGHT:

- **WEATHER:** Mostly clear.
- **WIND (20 FT): Ridges and exposed areas:** West 8-13 mph with gusts to 20 mph possible through 2000, then becoming variable (tending northwest) 3-6 mph. **Sheltered areas:** West 3-6 mph 2000, then becoming downslope 1-3 mph.
- **MIN TEMPERATURES:** 42-47 valley bottoms, 52-57 mid-slope and above.
- **MAX RH:** 55-60% valley bottoms, 40-45% mid-slope and above.
- **CHANCE RAIN:** 0%
- **INVERSION:** Moderate developing around mid-slope.

---

## 3-5 DAY OUTLOOK

**Sunday:** Partly cloudy, dry and **VERY WINDY**. Highs 78-83. Min RH: 12-17%. Winds W 15-25 mph with gusts to 30 mph. **Monday and Tuesday:** Partly cloudy. Highs 75-80. Min RH 15-20%. Winds W-NW 5-10 mph with gusts to 15 mph.

## FIRE BEHAVIOR FORECAST

<b>FORECAST NUMBER:</b> 016	<b>TYPE OF FIRE:</b> Wildfire Full Suppression
<b>FIRE NAME:</b> Stone	<b>OPERATIONAL PERIOD:</b> 8-24-18 Night Shift
<b>DATE ISSUED:</b> 8-24-18	<b>TIME ISSUED:</b> 1300
<b>UNIT:</b> CA-MDF	<b>SIGNED:</b> <u>    Matt Brown    </u> <b>Typed/printed:</b> Matt Brown FBAN(t)

### INPUTS

**WEATHER SUMMARY:** Light wind with good humidity recoveries is expected. East winds on the ridge tops are expected to develop late.

Temp: 40-55 RH: Max 50-70% Wind: Early in the shift W 5-10 mph with gusts to 17 through 2000 hrs then reducing to 3-6 mph light and variable, but mostly East. Sheltered areas downslope 1-3 mph. Inversion may not be established until after 2300 hours. The tops of ridges may experience moderate to poor recovery.

Both ERC and 1000 hr Fuel Moistures set records today. Live fuels recorded on 8-15-18 in Sage were 89% and 71% at locations closest to the fire. This is considered close to or just below average.

### OUTPUTS

#### FIRE BEHAVIOR

##### GENERAL:

The W winds will check fire spread back into the black; however, doglegs and ridges oriented North/South will experience adverse winds. Later on in the operational period, an inversion will become established and shelter most of the fire area from the wind down in the drainages. Good overnight RH recovery will stop fire spread in the grass type fuel. Moderate fire activity with single tree torching will turn to minimal and creeping after the inversion is established in the drainages. Heavy dead component will continue to burn through the night.

##### SPECIFIC:

Early overnight burning conditions should produce ROS of 25-35 ch/hr and flame lengths 3-7 ft. in the grass shrub mix, just until the winds begin to calm and the inversion sets up. In areas with high loading of timber litter expect ROS 10-15 ch/hr and flame lengths 5-10 ft. All flanking and backing fire will have FL less than 3 ft. After 2300 hrs, the inversion in drainages should bring the FDFM up to 11% and reduce consumption as grass/shrub type fuels near the moisture of extinction.

**Divisions A/Z** will experience favorable wind conditions except for the slop over in Z, near HY 299. Until mop up is complete, torching trees interior could spot over HY 299. Areas in the drainages will have lighter winds and higher RH recovery. Areas of heat near the A/E break may torch out early in the shift.

**Divisions E/G/J** will experience some wind tests on pieces of line and doglegs that are oriented to the North/South. Firing operations should experience good consumption until 2300 in the grass shrub mix. Expect a few more hours of burning to be available in the heavy timber litter areas.

**Division M** will experience variable winds but mostly adverse until late evening. W winds will challenge containment on ridge tops above the 84 Road and above 4500 ft elevation where mop up has not been completed. Winds will be light and favorable in the drainages and ridge tops after the East wind begins. Inversions will become established later on in the shift, reducing the effects of wind, and close the burn window in the drainages.

##### AIR OPERATIONS:

Smoke may obscure air operation opportunities early in the operational period in divisions downwind from the fire. As the fire moves into areas covered with more grass and less conifer, expect increased effectiveness with retardant application. At sunrise expect smoke inversions to be prevalent in the deep drainages.

### SAFETY

Prepare for shifting winds and reduced RH especially on ridge tops. Wind direction at night will most likely experience several changes due to a new weather pattern and diurnal influences. Expect wind shifts to be as much as 180 degrees tonight, especially on ridge tops. Fire weakened trees will be impacted with this new wind direction. Use caution during mop up.

## ASSIGNMENT LIST (ICS 204)

## SAFETY MESSAGE

### COMMON TACTICAL HAZARDS

#### POSITION

- Building fireline downhill.
- Building underslung or mid-slope fireline.
- Building indirect fireline or unburned fuel remains between you and the fire.
- Attempting frontal assault on the fire or you are delivered by aircraft to the top of the fire.
- Depending on escape routes that are uphill or difficult to travel.

#### SITUATION

- Poor communication
- Suppression resources are fatigued or inadequate.
- Assignment or escape route depends on aircraft.
- Nighttime operations.
- Wildland urban interface operations.

#### *MAJOR HAZARDS AND RISKS*

STEEP TERRAIN FATIGUE SPOT FIRES	ROLLING MATERIAL DEHYDRATION BUCKET DROPS	HEAVY EQUIPMENT HAZARD TREES COMPLACENCY
--	---	--

*Be sure all elements of your safety plan are in place prior to engagement*

#### Mop Up Hazards

Wear proper PPE including eye protection.

Watch for stump holes and spray nozzle ash.

Don't forget to look up while work around trees.

Stay focused, do not be complacent.

#### Cumulative Fatigue

Maintaining peak performance requires that you take good care of your body.

Get the appropriate amount of rest. Manage your off time to get as much sleep as possible.

Proper Nutrition and hydration is critical to managing fatigue.

# TRAINING SPECIALIST MESSAGE

## Trainer / Mentors:

If in the event

You are leaving the incident before your assigned trainee

Or

Your trainee is reassigned

You must complete a performance evaluation and Task Book work for the period the trainee was assigned to you

## TRAINEES:

You must register with the TNSP in order to validate and receive incident credit for your assignment. If you have not yet registered, use the QR Code below to register online. Then bring your Red Card and Task Book by Training to complete the registration process

Trainee Registration Form

In order to receive documented credit for your training assignment – you must close out with the Training Specialist before you Demob!!

Bring the following to the closeout:

- ✓ A completed and signed ICS 225 or 226 Performance Evaluation
  - ✓ Position Task Book (with work completed for this incident)
- Forms are available at the Training Desk*

**Brad Smith**  
**Frank Davis**

Training Specialists – 209-770-4809

## **Human Resource Message**

**HELLO!!!**

**The role of a Human Resource Specialist (HRSP) assigned to an incident is to help facilitate and maintain a positive work environment for everyone; which for us HRSPs, starts with a “hello!” A simple greeting, even if it is a “hey or hi,” goes a long way toward establishing our human connection and how we relate to others. When we remain silent among strangers, we unwittingly reinforce the feeling of differences, which in turn builds walls that make it harder to recognize our similarities. This could have a negative impact in our work environment.**

**Another role of a HRSP, is to be a focal point for informal resolution of issues and concerns. You may come to me with a question or concern about any aspect of your work environment while assigned to the incident. I am particularly committed to being proactive by handling issues when they are small instead of waiting for the issue to boil over.**

**Feel free to call/text or come by if you have questions, concerns, or just want to chat. My office is located on the eastside of the airstrip.**

**Ryan Voelkl – HRSP: 530-457-7276**

# STONE FIRE INFORMATION

## **CAL FIRE SOCIAL MEDIA POLICY (Social Media 0691)**

Social Media is increasingly being used by public agencies and the media as well as the public. This form of communication continues to grow rapidly in order to supply the public's desire for instant information gratification. All personnel assigned to a CAL FIRE incident will adhere to the CAL FIRE Social Media Policy. Further information about the CAL FIRE Social Media Policy can be obtained from the Information Officer. If you are uncertain, please ask. **Do not post:**

- Inappropriate information, pictures or videos
- Opinions regarding the incident or policy
- Endorsements of any kind

## **FEDERAL FIRE SOCIAL MEDIA POLICY**

Social media posts can reflect on the professionalism of your crew, your agency and Wildland Firefighting Community. The U.S. Forest Service has enjoyed a reputation as the world leader in wildland firefighting for over 100 years. Protect our legacy with good conduct on the fireline and online. When assigned to a federal fire you are considered a federal employee under the delegation of authority. Even if you are a contractor, AD or from a partner agency we recommend you follow these ethics guidelines which apply to federal employees all the time.

### **Think before you post:**

- On official time, do official duties; if using government equipment, do government business.
- Don't use your official position/title for private gain.
- Do share government information that is publically available (such as links to Inciweb, weather reports, feature stories, official evacuation notices etc...) Do not disclose (via any medium) non-public information to further private interests or the private interests of others.
- Do not share information outside official channels that could be associated with a crime or a claim, (for instance do not post on social media about serious accidents, deaths or destroyed property).
- Do not accept compensation for statements made over social media that relate to official duties.
- Never use your official title while engaging in "political activity" (activity directed toward the success or failure of a political party, partisan candidate or partisan political group).
- Federal employees may express their opinions concerning partisan political candidates and political parties on social media when they are off duty and away from the federal workplace.
- If you have questions about content you'd like to post on social media, contact a PIO, they can help you.

## **PICTURES AND VIDEO OF INCIDENT**

We are in a new era of media. Media no longer means the news/broadcast industry but now refers to anyone that has the capability to shoot video and or photographs and post them onto social media in a matter of minutes. Unfortunately we have seen some instances of video or photographs that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could have unwanted effects. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera can't be looking up, down and all around.

For approval to post Photo and Video you have taken of the fire, please send to the PIO's incident email at: [mdffireinfo@gmail.com](mailto:mdffireinfo@gmail.com)

23	Fuel Drip Torch (5 gal cans)				
24	Fuel Diesel (5 gal cans)				
25	2 Cycle oil (Pints)				
26	Bar Oil (Qts)				
27	Drip Torch (ea)				

SPECIAL NOTES:

# MEDICAL PLAN (ICS 206 WF)

## Medical Incident Report

**FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.**

**FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.**

**Use the following items to communicate situation to communications/dispatch.**

**1. CONTACT COMMUNICATIONS / DISPATCH** (Verify correct frequency prior to starting report)

*Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."*

**2. INCIDENT STATUS:** Provide incident summary (including number of patients) and command structure.

*Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."*

Severity of Emergency / Transport Priority	<input type="checkbox"/> <b>RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE</b> <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> <b>YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary.</b> <i>Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> <b>GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport</b> <i>Ex: Sprains, strains, minor heat-related illness.</i>	
Nature of Injury or Illness & Mechanism of Injury		Brief Summary of Injury or Illness <i>(Ex: Unconscious, Struck by Falling Tree)</i>
Transport Request		Air Ambulance / Short Haul/Hoist Ground Ambulance / Other
Patient Location		Descriptive Location & Lat. / Long. (WGS84)
Incident Name		Geographic Name + "Medical" <i>(Ex: Trout Meadow Medical)</i>
On-Scene Incident Commander		Name of on-scene IC of Incident within an Incident <i>(Ex: TFLD Jones)</i>
Patient Care		Name of Care Provider <i>(Ex: EMT Smith)</i>

**3. INITIAL PATIENT ASSESSMENT:** Complete this section for each patient as applicable (start with the most severe patient)

Patient Assessment: See IRPG PAGE 106

Treatment:

**4. TRANSPORT PLAN:**

Evacuation Location (if different): (Descriptive Location (drop point, intersection, etc.) or Lat. / Long.) Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards:

**5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:**

*Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication*

**6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable**

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

**7. CONTINGENCY: Considerations:** If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.

**8. ADDITIONAL INFORMATION:** Updates/Changes, etc.

**REMEMBER:** Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.
