NIGHT SHIFT

8/26/2018 1800

to

8/27/2018 0600

Fire Information (530) 710-8620

Sunday

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: Stone Fire	2. Operational Period:	Date From: 8/26/2018	Date To: 8/27/2018	
		Time From: 1800	Time To: 0600	

3. Objective(s):

- Management Objectives
- Provide for Firefighter and public safety by utilizing appropriate risk management standards and mitigations.
 - Minimize the threat to communities, infrastructure, private timber lands, natural resources and other economic concerns.
 - Work closely with assigned resource advisors to minimize suppression impacts to sensitive cultural and natural sites.
 - Share critical information affecting the public through accurate and timely dissemination of information.
 - Identify, assess and implement suppression repair needs, where appropriate, in coordination with Resource Advisors following agency policy.
-
- Control Objectives
- Keep the fire east of Crank Mountain, 42N36 Rd.
 - Keep the fire South of National Forest Road 42N60.
 - Keep the fire North of County Road 85.
 - Keep the fire West of State Highway 139 and State Highway 299.

Fire Weather Forecast

SUNDAY NIGHT AUG 26, 2018

FORECAST NO: 18
PREDICTION FOR: Sunday Night
SHIFT DATE: Aug 26, 2018
ISSUED: 1100, Aug 26 2018

NAME OF FIRE:
UNIT:
Incident Meteorologist:

Stone
Modoc N.F.
Tom Wright

*** WINDY AND DRY THROUGH SUNSET ***

DISCUSSION: Strong and gusty west winds will continue through 2000, then winds gradually diminish and become more northerly through the night. Given the strength of winds today, it may take a little longer for the inversion to develop and winds to completely diminish than normal – probably after 2300. Once things stabilize, humidity recoveries should be good.

SUNDAY NIGHT: *** WINDY AND DRY THROUGH SUNSET ***

- **WEATHER:** Mostly clear.
- **WIND (20 FT): Ridges and exposed areas:** West 18-23 mph with gusts to 30 mph possible through 2000, then becoming northwest 5-10 mph through 2300, then north-northwest 3-6 mph. **Sheltered areas:** West 4-8 mph with gusts 12 mph through 2000, then becoming downslope 1-3 mph. Local northwest winds 2-4 mph.
- **MIN TEMPERATURES:** 42-47 valley bottoms, 48-53 mid-slope and above.
- **MAX RH:** 75-80% valley bottoms, 50-55% mid-slope and above.
- **CHANCE RAIN:** 0%
- **INVERSION:** Weak developing around mid-slope.

MONDAY:

- **WEATHER:** Partly cloudy.
- **WIND (20 FT): Ridges, exposed areas, and wind-aligned drainages:** North 3-6 mph through 1200, then becoming north-northeast 5-10 mph. **Sheltered areas:** Variable (downslope) 1-3 mph through 0900, then upslope 2-5 mph. Locally northeast 3-6 mph in the afternoon.
- **MAX TEMPERATURES:** 76-81
- **MIN RH:** 18-23%
- **CHANCE RAIN:** 0%
- **HAINES:** 4
- **MIXING HEIGHT:** 500 ft AGL or less, increasing to 3,000 ft AGL around 1200, then increasing to 6,000 ft AGL.
- **MIXING WINDS:** North-northeast 5-10 mph.

MONDAY NIGHT:

- **WEATHER:** Mostly clear. Colder in valleys.
- **WIND (20 FT): Ridges and exposed areas:** North-northeast 5-10 mph through 1900, then becoming east 3-6 mph. **Sheltered areas:** Variable (tending north) 2-4 mph through 1900, then downslope 1-3 mph.
- **MIN TEMPERATURES:** 36-40 valley bottoms, 50-55 mid-slope and above.
- **MAX RH:** 75-80% valley bottoms, 40-45% mid-slope and above.
- **CHANCE RAIN:** 0%
- **INVERSION:** Moderate to strong and shallow developing around mid- to lower-slope.

3-5 DAY OUTLOOK

Tuesday: Mostly sunny. High 80-85. Min RH 15-20%. Winds SE 5-10 mph. **Wednesday and Thursday:** Mostly sunny and breezy. Highs 80-85. Min RH 15-20%. Winds WSW 8-13 mph with gusts to 20 mph.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 020	TYPE OF FIRE: Wildfire Full Suppression
FIRE NAME: Stone	OPERATIONAL PERIOD: 8-26-18 Night Shift
DATE ISSUED: 8-26-18	TIME ISSUED: 1300
UNIT: CA-MDF	SIGNED: __Matt Brown_____ Typed/printed: Matt Brown FBAN(t)

INPUTS

WEATHER SUMMARY: ****Breezy and Dry Through Sunset****

Light wind with moderate humidity recoveries is expected. WSW and variable winds expected to develop late.

Temp: 42-53 RH: Max 50-80% Wind: Early in the shift W 18-23 mph with gusts to 30 mph through 2000 hrs then reducing to 5-10 mph, but mostly NW until 2300. Sheltered areas downslope 1-3 mph after 2000. Inversion may not be established until after 0000 hours. The tops of ridges may experience moderate to poor recovery.

Both ERC and 1000 hr Fuel Moistures continue to be close to record levels. Live fuels recorded on 8-15-18 in Sage were 89% and 71% at locations closest to the fire. This is considered close to or just below average.

OUTPUTS

FIRE BEHAVIOR

GENERAL:

The prevailing West winds will check fire spread but test the NW corner early in the shift. Later on in the operational period, an inversion will become established and shelter most of the fire area within the drainages from the wind. Good overnight RH recovery will stop fire spread in the grass type fuel. Moderate fire activity with single tree torching will turn to minimal and creeping after the inversion is established in the drainages. Heavy dead component will continue to burn through the night and experience good consumption under the influence of a lighter prevailing NNW wind later on.

SPECIFIC:

Early shift burning conditions should produce ROS of 140-180 ch/hr and flame lengths 10-15 ft. in the grass shrub mix, just until the winds begin to calm and the inversion sets up. In areas with high loading of timber litter expect ROS 50-60 ch/hr and flame lengths 15-17 ft. In short, expect **Extreme Burning Conditions Early**. After 0000 hrs, the inversion in drainages should bring the FDFM up to 10% and reduce consumption as grass/shrub type fuels near the moisture of extinction.

Divisions A/Z will experience mostly adverse wind conditions on exposed ridges. Until mop up is complete, torching trees interior could spot over HY 299. Areas in the drainages will have lighter winds and higher RH recovery.

Divisions E/G/J will be wind tested in in the NW corner early on. Later in the shift, the division will experience some favorable wind and provide good opportunity to burn out any remaining heavies. Firing operations should experience good consumption until 0000 in the grass shrub mix. Expect a few more hours of burning to be available in the heavy timber litter areas.

Division M will experience variable winds but mostly adverse until late evening. Burn down of heavy fuels are nearly complete; however torching trees present a slight risk to HY299. Winds will be light in the drainages, but mostly adverse on the ridge tops after the NNW wind begins. Inversions will become established later on in the shift, reducing the effects of wind, and close the burn window in the drainages.

AIR OPERATIONS:

Smoke may obscure air operation opportunities early in the operational period in divisions downwind from the fire. At sunrise expect smoke inversions to be prevalent in the deep drainages.

SAFETY

Prepare for shifting winds and reduced RH especially on ridge tops. Wind direction at night will most likely experience several changes due to a new weather pattern and diurnal influences. Fire weakened trees will be impacted with higher winds speeds this evening. Use caution during mop up.

ASSIGNMENT LIST (ICS 204)

INCIDENT RISK ANALYSIS (ICS 215A)

STONE FIRE

Night SHIFT

DIV	HAZARDOUS ACTIONS / CONDITIONS	MITIGATIONS / WARNINGS / REMEDIES
ALL	DANGER TREES	<ul style="list-style-type: none"> • Follow "Hazard Tree Safety" guidelines, IRPG. • Post lookouts, or use a spotter in mop-up areas with personnel. • Don't park vehicles or take breaks in high concentrations of hazard trees. • Establish trigger points for disengagement during "high wind events".
ALL	DRY FUEL CONDITIONS	<ul style="list-style-type: none"> • Establish and maintain LCES. • Heavy grass crop, fuel moistures at critical levels. • Anticipate intense burning and rapid rates of spread. • Watch for spot fires. • Allow for adequate time to escape routes and safety zones.
ALL	TRAFFIC & DRIVING	<ul style="list-style-type: none"> • Practice "Defensive Driving" techniques. • Use spotters when backing. • Always use headlights. • Some roads are dead end with poor turn around, scout roads first. • Watch for livestock.
ALL	SPOT FIRES	<ul style="list-style-type: none"> • Size up prior to engagement. • Watch for multiple spots. • Ensure LCES is in place. • Maintain Situational Awareness at all times.
ALL	FIRE WEATHER	<ul style="list-style-type: none"> • Winds increasing or changing direction. • Weather becoming hotter and drier. • Unstable atmosphere can promote rapid fire growth.
ALL	FIRING OPERATIONS	<ul style="list-style-type: none"> • A written guideline shall be prepared and approved for major burning operations. • Conduct thorough briefing for all personnel (inside rear cover IRPG). • Qualified personnel for all assignments. Trainees to have qualified trainers. • Required PPE to be worn by all personnel involved. • Establish LCES prior to implementing burning operations.
ALL	FATIGUE	<ul style="list-style-type: none"> • Be alert for signs of fatigue and take breaks as necessary. • Maintain 2:1 work/rest ratio. • Monitor incoming resources for level of fatigue.
ALL	MOP-UP	<ul style="list-style-type: none"> • Conduct thorough briefing for all personnel (inside rear cover IRPG). • Use all required PPE, including eye protection. • Maintain proper spacing and overhead clearance. • Be alert for hazard trees, stump holes, and ash pits. • Minimize exposure to smoke, and rotate personnel into clean air when practical. • Evaluate unburned islands/Increase situational awareness.
ALL	HEAVY EQUIPMENT OPERATIONS	<ul style="list-style-type: none"> • Ensure communications are established with operators. • Use hand signals if other communications are unavailable. • Maintain a 50'-100' exclusion area around equipment. • Use a spotter when backing.

SAFETY MESSAGE

Mental Exhaustion

Mental exhaustion is a common occurrence and is the result of brain over activity. It does not necessarily occur in one fell swoop, but instead, it slowly accumulates over time. Being overwhelmed, having too many responsibilities, or simply having too much going on can cause you to reach an eventual boiling point, where your mind and body cannot cope anymore. Signs of mental exhaustion can include:

- You are aware that there is too much going on at once.
- You forget little, but important, things.
- You have a total mental block.
- When people ask you questions while under stress, you provide an irrational response.

MAJOR HAZARDS AND RISKS

STEEP TERRAIN FATIGUE SPOT FIRES	ROLLING MATERIAL DEHYDRATION BUCKET DROPS	HEAVY EQUIPMENT HAZARD TREES COMPLACENCY
--	---	--

Be sure all elements of your safety plan are in place prior to engagement

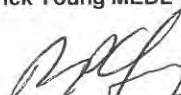

Risk Management

- Only attempt an operation your comfortable doing.
- Scouting out work areas should be the first thing you do
- Communicating the hazards to others will help them reduce their exposure.
- If something doesn't seem or sound right ask.

Fire Environment

- Recognize each factor of the fire environment to spot potential problems.
- A bad situation can get worse if you ignore the signs of trouble.
- If you are unsure ask a veteran firefighter about the pieces of the puzzle that drive the fire environment.
- Developing a habit of continuing checking your environment is one of the best ways to stay safe.

TRAINING SPECIALIST MESSAGE

Trainer / Mentors:

If in the event

You are leaving the incident before your assigned trainee

Or

Your trainee is reassigned

You must complete a performance evaluation and Task Book work for the period the trainee was assigned to you

TRAINEES:

You must register and close out with the TNSP in order to validate and receive incident credit for your assignment. If you have not yet registered, use the QR Code below to register online. Then bring your Red Card and Task Book by Training to complete the registration process

Trainee Registration Form

Beat The Rush!

**When as much work (as possible) has been completed in your PTB for this incident –
Conduct the “close-out” process w the TNSP to
save you time at DMOB !!**

Bring the following to the closeout:

- ✓ A completed and signed ICS 225 or 226 Performance Evaluation
- ✓ Position Task Book (with work completed for this incident)
Forms are available at the Training Desk

**Brad Smith
Frank Davis**

Training Specialists – 209-770-4809

Human Resource Message

Rights and Responsibilities

Rights:

- To work in a harassment-free environment where people treat one another with dignity, equity, courtesy and respect.
- To say no to unwelcome advances.
- To file complaints or grievances through appropriate avenues.

Responsibilities:

- To behave in a manner that treats people with dignity, equity, courtesy and respect.
- To abide by Forest Service and the Incident's rules and regulations including zero tolerance for drugs and alcohol on the incident.
- To report any harassment or other inappropriate behavior you observe or experience.

Feel free to call/text or come by any time if you have questions, concerns, or just want to chat.

Ryan Voelkl – HRSP: 530-457-7276

STONE FIRE INFORMATION

CAL FIRE SOCIAL MEDIA POLICY (Social Media 0691)

Social Media is increasingly being used by public agencies and the media as well as the public. This form of communication continues to grow rapidly in order to supply the public's desire for instant information gratification. All personnel assigned to a CAL FIRE incident will adhere to the CAL FIRE Social Media Policy. Further information about the CAL FIRE Social Media Policy can be obtained from the Information Officer. If you are uncertain, please ask. **Do not post:**

- Inappropriate information, pictures or videos
- Opinions regarding the incident or policy
- Endorsements of any kind

FEDERAL FIRE SOCIAL MEDIA POLICY

Social media posts can reflect on the professionalism of your crew, your agency and Wildland Firefighting Community. The U.S. Forest Service has enjoyed a reputation as the world leader in wildland firefighting for over 100 years. Protect our legacy with good conduct on the fireline and online. When assigned to a federal fire you are considered a federal employee under the delegation of authority. Even if you are a contractor, AD or from a partner agency we recommend you follow these ethics guidelines which apply to federal employees all the time.

Think before you post:

- On official time, do official duties; if using government equipment, do government business.
- Don't use your official position/title for private gain.
- Do share government information that is publically available (such as links to Inciweb, weather reports, feature stories, official evacuation notices etc...) Do not disclose (via any medium) non-public information to further private interests or the private interests of others.
- Do not share information outside official channels that could be associated with a crime or a claim, (for instance do not post on social media about serious accidents, deaths or destroyed property).
- Do not accept compensation for statements made over social media that relate to official duties.
- Never use your official title while engaging in "political activity" (activity directed toward the success or failure of a political party, partisan candidate or partisan political group).
- Federal employees may express their opinions concerning partisan political candidates and political parties on social media when they are off duty and away from the federal workplace.
- If you have questions about content you'd like to post on social media, contact a PIO, they can help you.

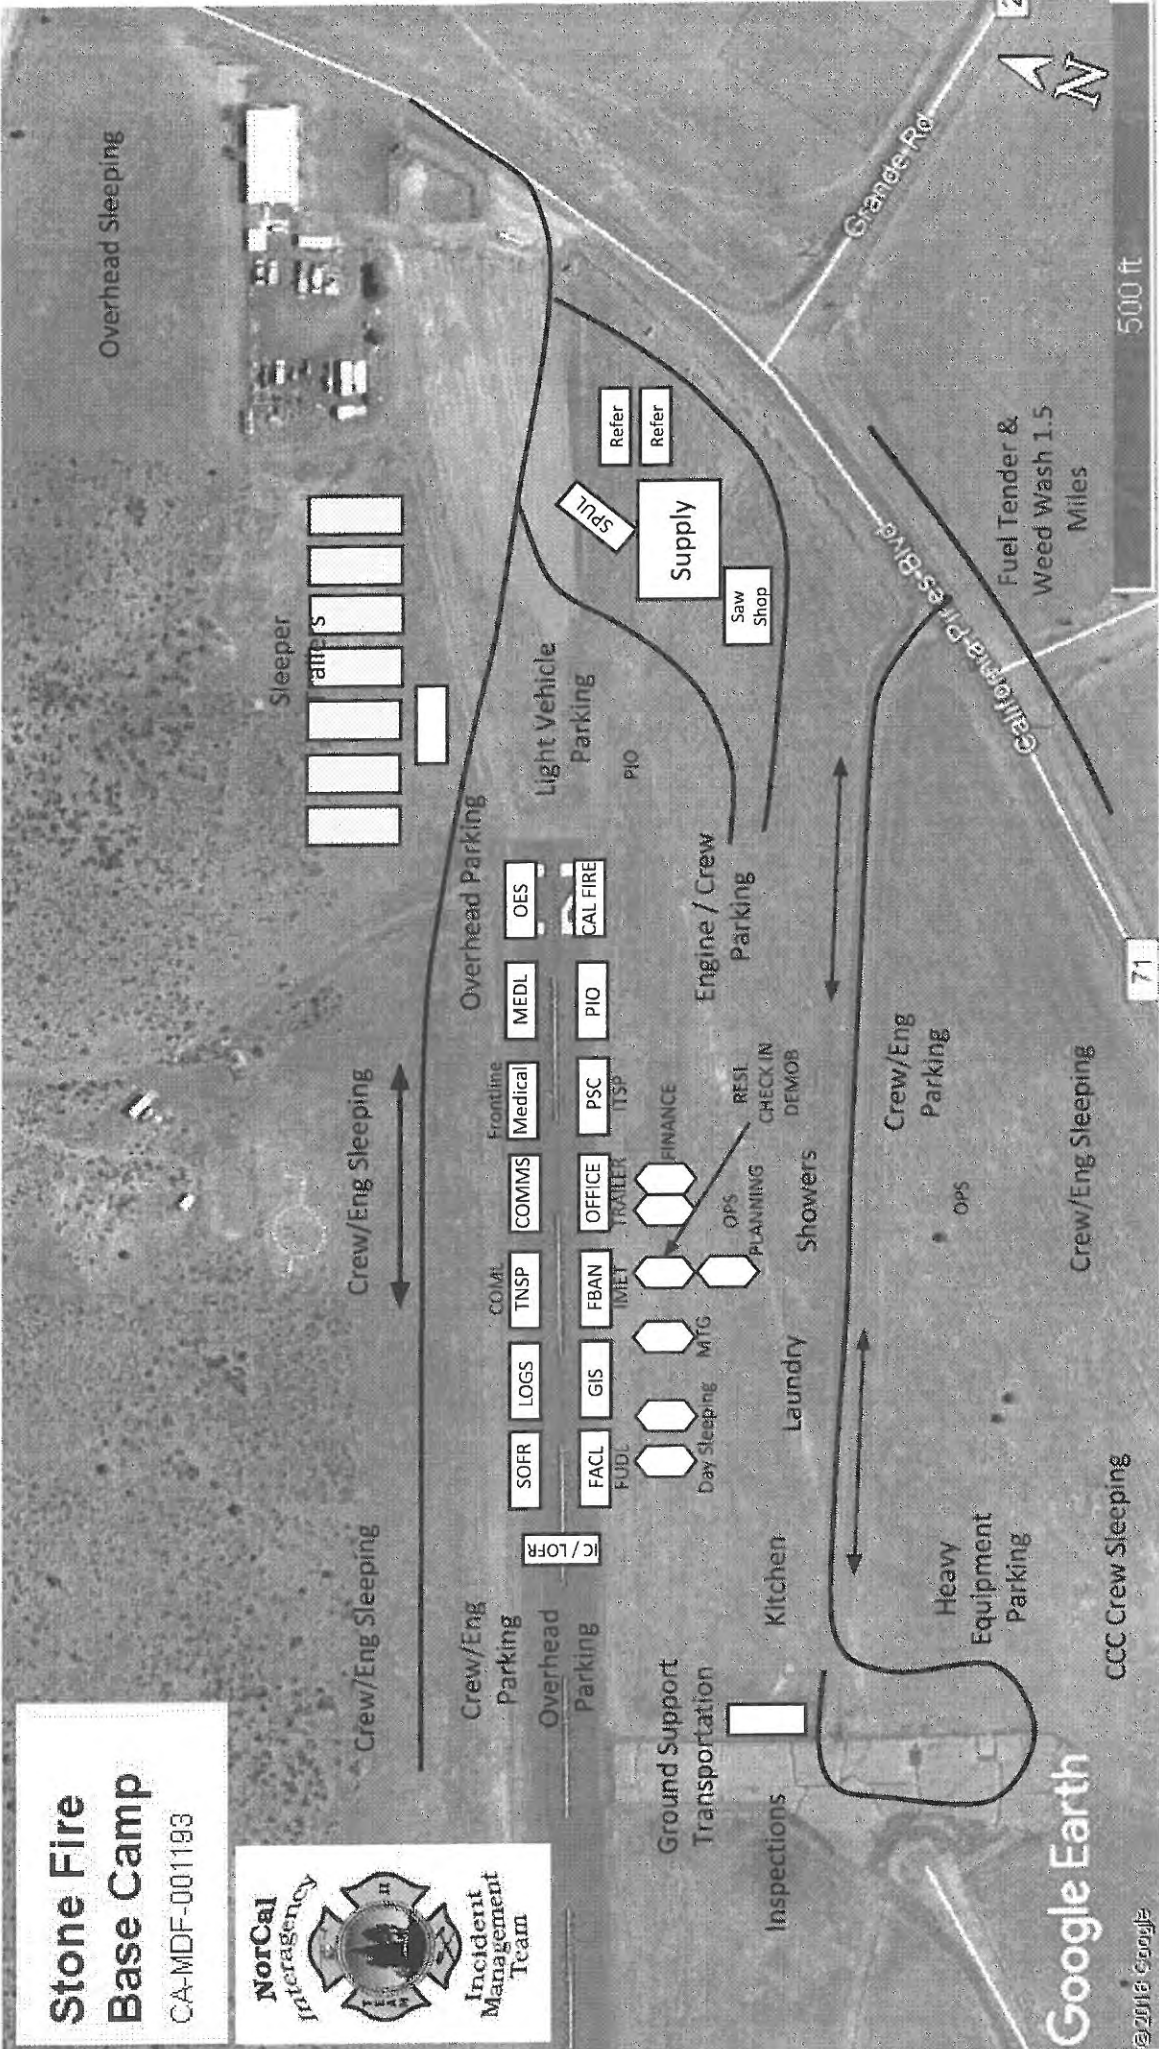

PICTURES AND VIDEO OF INCIDENT

We are in a new era of media. Media no longer means the news/broadcast industry but now refers to anyone that has the capability to shoot video and or photographs and post them onto social media in a matter of minutes. Unfortunately we have seen some instances of video or photographs that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could have unwanted effects. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera can't be looking up, down and all around.

For approval to post Photo and Video you have taken of the fire, please send to the PIO's incident email at: mdffireinfo@gmail.com

NorCal 2 Division Fireline Order Form

Date & Time Order was placed	Order # (DIVS + #)	MODE OF DELIVERY	LOCATION OF Delivery
Current Date and Time:		GROUND SUPPORT	DIV, DP, LZ Lat Long
DATE NEEDED:		PICK UP IN SUPPLY	
TIME NEEDED:		HELO	
Order received in COMMUNICATIONS by:	Name:	Time:	
Order Received in SUPPLY by:	Name:	Time:	
Order shipped by Transportation or PU in Suppl	Name:	Time:	

PLEASE ORDER BY ITEM NUMBER

#	Item 1 - IS the following: (i.e. if you need 3000' of hose & appliances, = 3 Hose Kit A's" or 3 item # 1's				
1	'1,000 Foot Hose Lay' and includes: 10ro 1½" Hose; 10ro 1" Hose; 10ea 1½" Gated Wyes; 10ea 1½" to 1" reducers; 10ea 1" nozzles				
#	Item	Amount	#	Item	Amount
1	Hose Kit A				
2	Hose (100'), 1½"		28	Fuses (Boxes or Cases?)	
3	Hose (100'), 1"		29	Batteries "AA" PKGs (24/PKG)/BX	
4	Hose (50') garden, ¾"		30	Ribbon, Flagging (Specify Color)	
5	Nozzle, KK Type, 1½"		31	Shovel	
6	Nozzle, KK Type, 1"		32	Pulaski	
7	Nozzle, Forester, 1"		33	Combi Tool	
8	Nozzle, Garden, ¾"		34	McCloud	
9	Wye, Gated, 1½"		35	Washcloth, waterless, cleansing	
10	Wye, Gated, 1"		36	Sprinkler Kit	
11	Wye, Gated, ¾"		37	Mop-Up Kit, 3-Wand	
12	Inline-Tee, (1½" x 1")		38	Chainsaw Kit / {accountability #}	
13	Reducer, 1½" x 1"		39	Water, Cubies	
14	Reducer, 1" x ¾"		40	Water, Bottled, Cases	
15	Shut Off ¾"		41	Gatorade, Cases	
16	Foam 5 gal		42	MRE's (12/BX)	
17	Backpack Pump			ANYTHING NOT LISTED ABOVE:	
18	Pumpkin 1500 / 3000 / 6000 gal order size				
19	Folding-Tank 1000 / 1500 gal order size				
	<u>PUMP KITS</u>				
20	Lightweight / {accountability #}				
21	Mark III / {accountability #}				
22	Fuel Unleaded (5 Gal cans)			ACCOUNTABILITY PROPERTY #'S HERE:	
23	Fuel Drip Torch (5 gal cans)				
24	Fuel Diesel (5 gal cans)				
25	2 Cycle oil (Pints)				
26	Bar Oil (Qts)				
27	Drip Torch (ea)				

SPECIAL NOTES:

MEDICAL PLAN (ICS 206 WF)

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency / Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>	
Nature of Injury or Illness & Mechanism of Injury		Brief Summary of Injury or Illness <i>(Ex: Unconscious, Struck by Falling Tree)</i>
Transport Request		Air Ambulance / Short Haul/Hoist Ground Ambulance / Other
Patient Location		Descriptive Location & Lat. / Long. <i>(WGS84)</i>
Incident Name		Geographic Name + "Medical" <i>(Ex: Trout Meadow Medical)</i>
On-Scene Incident Commander		Name of on-scene IC of Incident within an Incident <i>(Ex: TFLD Jones)</i>
Patient Care		Name of Care Provider <i>(Ex: EMT Smith)</i>

3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)

Patient Assessment: See IRPG PAGE 106

Treatment:

4. TRANSPORT PLAN:

Evacuation Location *(if different): (Descriptive Location (drop point, intersection, etc.) or Lat. / Long.)* Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards:

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrinsication

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.

8. ADDITIONAL INFORMATION: Updates/Changes, etc.

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.
