INCIDENT ACTION PLAN

DELTA FIRE

CA-SHF-001444 / P5L4L8 (0514)

HIRZ FIRE

CA-SHF-001223 / P5L2ZM (0514)

Monday

OPERATIONAL PERIOD

MONDAY SEPTEMBER 10, 2018

0600-1800 HOURS

Monday

DELTA

HIRZ

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name:		2. Operational Period: DAY	
HIRZ / DELTA	Date/Time From: 09/10/2018 0600	Date/Time To: 09/10/2018 1800	MON
3. Objective(s): Leader's Intent A full suppression strategy will be implemented for both the Hirz and Delta fires through a combination of direct and indirect tactics. Efforts will be made to minimize impacts to residences, critical infrastructure and private timberlands through the application of well-planned tactical responses.			
Management Objectives <ul style="list-style-type: none"> • Ensure that strategies and tactics provide for firefighter and public safety through the application of sound risk management principles. • Minimize the threat to private property, critical infrastructure, and commercial timberlands. • Establish and strengthen cooperators, partner, and stakeholder relationships. • All suppression repair work will be conducted in close coordination with assigned READs. 			
Control Objectives Keep the Delta Fire: <ul style="list-style-type: none"> • North of the line that runs from Delta to Mosquito Creek Ridge to minimize impacts to I-5 and protect the communities of Pollock, Lakehead, and Lakeshore. • South of Middle Ridge (west side of I-5) to protect private timberlands. • South of Hazel Creek Road (east side of I-5) to minimize threat to communities and residences along I-5 corridor. • East of the East Fork of the Trinity River to minimize impacts to Highway 3 and protect recreational sites. • West of Crane Mountain to halt eastern spread. Hirz Fire: <ul style="list-style-type: none"> • Continue to mop-up and patrol as needed to ensure that fire stays within existing containment lines. 			
4. Operational Period Command Emphasis: Adaptability <u>Priorities:</u> <ul style="list-style-type: none"> - Divisions TT, WW, Shotgun Ridge - Division YY, Hazel Creek - Divisions ZZ, AA, Fender's Ferry Road - Divisions GG, Fool's Gulch 			
General Situational Awareness: Ensure that every mission has a purpose and that the potential gains of all tactical operations are commensurate with the risks involved.			
5. Site Safety Plan Required? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>			
Approved Site Safety Plan(s) Located at:

FIRE WEATHER FORECAST

FORECAST NO. 33

NAME OF FIRE: Hirz & Delta Fires

UNIT: Shasta Trinity National Forest

TIME AND DATE

FORECAST ISSUED: 1930 Sunday 09/09/18

PREDICTION FOR: Monday September 10th, 2018

SIGNED: Gary Zell
Gary Zell / Incident/Meteorologist

WEATHER DISCUSSION: Winds will stay with the typical pattern today, with north-northeast ridgetop winds at the start of the operational period, switching around to the south-southwest after 1100, before switching back to the north-northeast after 2100. During this same time period, terrain driven winds will exist with downslope winds until 1100, before switching upslope through 2100, and then back to downslope for the remainder of the night. Temperatures will be a degree or two cooler today, although daytime and nighttime humidities will be similar to last couple of days. Smoke will continue to be an issue through the period with reduced visibilities at times and impacts to air operations. A storm system will move into the Pacific Northwest Tuesday, resulting in cooler temperatures across the area.

TODAY...

Sky/weather.....Partly cloudy. Areas of smoke. Inversion breaks around 1100.
Max temperature.....76-81 ridgetops and 90-95 lower drainages.
Min humidity.....16-21 percent ridges and 13-18 percent lower drainages.
Wind (20 ft).....
Slope/valley.....Downslope/Downvalley 2-6 mph until 1100, then
upslope/upvalley 3-7 mph.
Ridgetop.....North-Northeast 3-8 mph until 1100, then becoming
South-Southwest 5-10 mph with gusts to 17 mph.
Mixing height.....8,000 to 10,000 ft AGL.
Transport winds.....Northeast 7 mph until 1100, then Southwest 10 mph.
CWR.....0 percent.
LAL.....1.

TONIGHT...

Sky/weather.....Partly cloudy. Areas of smoke. Inversion develops after 2200.
Min temperature.....56-61 ridgetops, 53-58 lower drainages.
Max humidity.....43-48 percent ridges and 59-64 percent lower drainages.
Wind (20 ft).....
Slope/valley.....Upslope 3-7 mph becoming downslope 2-6 mph after 2100.
Ridgetop.....South-Southwest 5 to 10 mph with gusts to 17 mph until 2100,
then North-Northeast 4 to 9 mph.
Mixing height.....Lowering to around 2000 ft AGL.
Transport winds.....Southwest 8 mph until 2100, then North-Northeast 7 mph.
CWR.....0 percent.
LAL.....1.

TUESDAY...

Sky/weather.....Partly cloudy. Areas of smoke. Inversion breaks around 1100.
Max temperature.....71-76 ridgetops and 84-89 lower drainages.
Min humidity.....17-22 percent ridges and 14-19 percent lower drainages.
Wind (20 ft).....
Slope/valley.....Downslope/Downvalley 3-6 mph until 1100, then
upslope/upvalley 3-7 mph.
Ridgetop.....North-Northeast 3-8 mph until 1100, then becoming
South-Southwest 7-12 mph with gusts to 18 mph.
Mixing height.....6,000 to 8,000 ft AGL.
Transport winds.....Northeast 7 mph until 1100, then Southwest 10 mph.
CWR.....0 percent.
LAL.....1.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 46	TYPE OF FIRE: Wildfire
FIRE NAME: Hirz/Delta	OPERATIONAL PERIOD: September 10, 2018 Day
DATE ISSUED: September 9, 2018	TIME ISSUED: 2030
UNIT: Shasta-Trinity NF, McCloud RD	SIGNED: <i>Rob Scott</i> Robert Scott, FBAN 530.990.4048

INPUTS

WEATHER SUMMARY

**** See Fire Weather Forecast ****

Weather: Partly cloudy. Areas of smoke. Inversion breaks around 1100.
Max Temps: 76-81 ridgetops and 90-95 lower drainages.
Min RH: 16-21 percent ridges and 13-18 percent lower drainages.
20 FOOT WINDS: Ridges: North-Northeast 3-8 mph until 1100, then becoming South-Southwest 5-10 mph with gusts to 16 mph
 Slope/valley: Downslope/Downvalley 2-6 mph until 1100, then upslope/upvalley 3-7 mph

FIRE BEHAVIOR

INPUTS:

- **Fuels:** Low fine dead fuel moistures, even under the inversion, will promote fire growth today.
- **Topography:** Ridge top locations in clear air will experience the greatest amounts of spread today. Fire has transitioned from surface to group torching when slope promotes fire spread.

FIRE BEHAVIOR: Under the inversion, fire movement will primarily be terrain driven today; backing, flanking, and short slope runs will characterize behavior. The inversion will be present over the fire for most of the burn period, minimizing solar exposure on fuels - activity is expected to be low until smoke/inversion is pushed to the Northeast by forecast winds around 1400. Southern aspects with active fire have exhibited moderate fire behavior until sundown.

Probability of Ignition: 90% in clear air.

DIV ZZ: Fire backing into Campbell Creek will need to cross to the South in order to find slope alignment. Rollout is possible, but the division will remain under the inversion for all but the final hours of the burn period.

DIV AA: Continued backing and flanking into Dog Creek today. Western portions of the division near Damnation Peak could see clearing in the afternoon. Forecast wind will push back against possible slope runs out of the head waters of the North Fork of Dog Creek.

DIV BB: Clear air conditions will return. While movement West into Blodgett and Clear Creek will be slowed by forecast winds, expect steady spread through timber fuels through flanking and backing.

DIV CC: Fire in clear air will actively back into Fools Gulch and the East Fork of the Trinity River. Slope runs on Southern aspects should be expected around 1600 as fuel temperature reaches its highest level for the day.

DIV DD: Dissected land forms and variable fuel treatments characterize this area. Fire moving up Slate Creek will be presented with multiple opportunities to transition from surface fire to group torching or crown runs in brush fuels. Monitor the transition from surface to isolated torching to anticipate moderate to high intensity fire runs. Any break in the inversion will accelerate the transition.

DIV JJ: Inversion should remain in place throughout the day. Slope runs out of the South Fork of Shotgun Creek may be possible if the fire finds heavier fuels.

Hirz Fire: Threat of spread from the fires edge remains low. Inversion along with mostly ridgetop line locations would result in backing fire under moderate burning conditions.

AIR OPERATIONS

Air operations will be hampered by inversion throughout the day. North and East portion may not see clearing.

SAFETY

** Slope reversals will produce rapid changes in fire behavior, Backing fire can transition to group torching and slope driven crown runs. **

Hirz/Delta – Safety Message

INCIDENT Hirz CA-SHF-001223
Delta CA-SHF-001444

DATE:09-10-2018 TIME: 0600-1800 Day

Incident Management Team Transition

- Sometimes called the 19th Watch Out Situation.
- Take the time to understand the plan. Ensure all resources completely understand the assignment, the Communications Plan, and the Medical Plan.
- Briefings: Required every shift, for all personnel, for new assignments, and for changing conditions.

Hazard Trees

- All trees need to be considered hazardous until they are evaluated.
- Even large healthy looking trees can be dangerous due to forest health issues.
- Use the look up, down, and all around process when working around or under trees.
- Minimize the number of personnel exposed, and the exposure time.
- Avoid unnecessary exposure around suspect trees during windy periods.
- Mitigate or close areas around hazardous trees in work areas.

Driving

- When driving keep the speed at or below the posted speed limit and turn your headlights on. Is the posted speed limit a safe speed under the current conditions and traffic?
- Use caution on unimproved roads as some have soft shoulders. Some roads are also only one lane with pullouts!
- Road surfaces are variable with washboard conditions and thick dust that can compromise turning and braking.
- Watch for and anticipate stock and wildlife.
- Always fasten your seat belt before the vehicle is set into motion. Use backlers.
- Don't tail gate, especially in dusty conditions.
- Slow down, slow down, and slow down!

Personal Safety

- Make yourself visible to vehicle traffic while working on, or near roads. Use your headlamp or glow sticks.

Understand your mission, ask questions!

6. INSTRUCTIONS AND ASSIGNMENTS NOT CLEAR

HAZARD RISK ANALYSIS

(ICS 215a) Day Shift

DIV	HAZARDOUS ACTIONS / CONDITIONS	MITIGATIONS / WARNINGS / REMEDIES
ALL	TRAFFIC HAZARDS AND DRIVING	<ul style="list-style-type: none"> Practice "Defensive Driving" techniques. Traffic volume is high. Use spotters when backing. Always use headlights. Use warning lights when working on roads or traveling in smoke. Observe posted speed limits. Use chock blocks, turn wheels into hill. Many roads are narrow and mid slope, use caution.
ALL	FIRING OPERATIONS	<ul style="list-style-type: none"> Only personnel trained in the use of each device will be authorized to use firing equipment. Ensure all personnel are aware of firing operation that may affect them. Wear appropriate PPE. Ensure aerial/ground ignition plans have been adequately developed and personnel are briefed.
ALL	AVIATION OPERATIONS	<ul style="list-style-type: none"> Conduct thorough mission assessments before starting work. Follow the guidelines in the IHOG and other aviation guidelines and reference materials. Ensure coordination and communication are in place and understood by all involved resources in a mission. Ensure close coordination between Air Attack, the helibase, air tankers, helicopters, and ground resources.
ALL	HAZARD / DANGER TREES	<ul style="list-style-type: none"> Follow Hazard Tree Safety Guidelines (IRPG p.22-23). Limit number of personnel around snags and their exposure time; fallers must be qualified for the trees being felled. Be especially alert around snags during wind events. Large green trees can also be dangerous.
ALL	FATIGUE / COMPLACENCY	<ul style="list-style-type: none"> Be alert for signs of fatigue and take breaks as necessary. Maintain 2:1 work/rest ratio. Monitor ALL resources for level of fatigue. Recognize the symptoms of fatigue and take action as necessary to provide rest and recovery. Repeated assignments in the same area can lead to complacency making personnel more vulnerable to accidents. Take steps (switching of assignments, training opportunities during slow periods, etc.) to maintain situational awareness for the duration of the incident
ALL	Powerlines/ Utilities	<ul style="list-style-type: none"> Notify all personnel of down electrical lines. IRPG Page 24 – Take time to do a Tailgate Safety Briefing Always treat downed wires as energized. Avoid parking under any type of overhead lines. Identify all gas lines in and around structures. Report damaged service lines.
ALL	COMMUNICATIONS	<ul style="list-style-type: none"> Share your Situational Awareness (hazards, changes, etc.) to those who also have a need. Radio Communications may be poor in some areas: use human repeaters as needed. Ensure all personnel are familiar with the incident and IA communications plans. Make sure all resources have radios cloned appropriately. Ensure that non-agency resources understand radio use and procedures.
ALL	HEAVY EQUIPMENT OPERATIONS	<ul style="list-style-type: none"> Ensure communications are established with operators. Ensure ground personnel have safety illumination, with light-sticks being the minimum. Maintain a 50'-100' exclusion area around equipment. In timber increase safety distance to 2 ½ times canopy height.
ALL	Steep Terrain & Rolling Material	<ul style="list-style-type: none"> Avoid working below crews and equipment. Concentrate on your footing placement; take your time. Ensure adequate spacing between crewmembers so they can react to dislodged debris. Post lookouts to warn of rolling debris. SHOUT out to warn others. Look Up, Down and Around Frequently.
ALL	FIRE BEHAVIOR	<ul style="list-style-type: none"> Conduct thorough assessments before starting work. Ensure LCES is in place. Provide additional briefing on drought related fire behavior and areas of high concentration of hazard trees. Increase the level of SA. Provide additional briefing for new resources and maintain communications.
ALL	Smoke	<ul style="list-style-type: none"> Periodically rotate crews out of smoky conditions on line when possible. Locate spike camps above inversion if possible. Monitor crew's health. Get medical care for early signs of respiratory illness. Provide rest breaks; have crews get as much sleep as possible; hydrate!

INCIDENT NAME:

Delta Fire

Operational Period: 0600-1900

**September 10,
2018**

DATE AND PREPARED:

-33-

September 9, 2018 1700 hours

Medical Incident Report

FOR A **NON-EMERGENCY INCIDENT**: WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A **MEDICAL EMERGENCY**: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM COMMUNICATIONS

Use the following items to communicate situation to communications/dispatch.

- 1. CONTACT COMMUNICATIONS / DISPATCH** (Verify correct frequency prior to starting report)
Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."
- 2. INCIDENT STATUS:** Provide incident summary (including number of patients) and command structure.
Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical Incident, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency AND Transport Priority (priority 1, 2, 3)	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° - 3° burns more than 4 palm sizes, heat stroke, disoriented.</i>	
	<input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2° - 3° burns not more than 1-3 palm sizes.</i>	
<input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>		
Nature of Injury or Illness & Mechanism of Injury		Brief Summary of Injury or Illness (<i>Ex: Unconscious, Struck by Falling Tree</i>)
Transport Request		Air Ambulance / Short Haul/Hoist Ground Ambulance / Other
Patient Location		Descriptive Location & Lat. / Long. (WGS84)
Incident Name		Geographic Name + "Medical" (<i>Ex: Trout Meadow Medical</i>)
On-Scene Incident Commander		Name of on-scene IC of Incident within an Incident (<i>Ex: TFLD Jones</i>)
Crew Patient Care		Name of Care Provider (<i>Ex: EMT Smith</i>)

3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)

Patient Assessment: (IRPG PAGE 106)	Age:	Weight:	Chief Complaint:
Skin Signs: (color/moisture/temp)	Level of Consciousness:	BP:	HR: Respirations:
Treatment:			

4. TRANSPORT PLAN:

Evacuation Location (drop point, intersection, helispot, Lat. / Long, hazards)	Patient's ETA to Location:
--	----------------------------

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:
 Paramedic / EMT - Crews - Immobilization Devices - AED - Oxygen - Trauma Bag - IV/Fluid(s) - Splints - Rope rescue - Wheeled litter - HAZMAT - Extrication

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method?
 Be thinking ahead.

8. ADDITIONAL INFORMATION: Updates/Changes, etc.

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training
 Be Alert - Keep Calm - Think Clearly - Act Decisively

*** Follow up with MEDL upon return to ICP ***

HIRZ FIRE	
Incident Start Date: August 9, 2018	Incident Start Time: 1:55 AM
Incident Type: Wildfire	Cause: Human, under investigation

DELTA FIRE	
Incident Start Date: September 5, 2018	Incident Start Time: 12:51 PM
Incident Type: Wildfire	Cause: Human, under investigation

PHOTOGRAPHS AND VIDEOS— *Information needs photos and videos!* Please share the amazing fire photos and videos you are taking in the field – fire behavior, air ops, ground crews, fire landscapes, suppression repair..... Ensure all fire personnel in photos/videos are in full PPE as appropriate to the task or setting. Photos/videos may be emailed directly from your phone to DeltaFireSHF@gmail.com or come by the Information trailer near the entrance of the ICP and we will assist. Include photographer's name (so we can give photo credit) and approximate location (road, mountain, DIV, DP.....) Photos and videos will be reviewed and possibly used on our social media sites.

MEDIA—California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does *not* include crime scenes and private property, and it does *not* imply that the news media may interfere with incident operations while they are in the areas of concern.

LOST AND FOUND—The Information Section manages lost-and-found items for the incident. If you have lost an item, leave your contact information and item description with an information officer. If you have found an item, please bring it to the Information trailer with information about where you found it.

MAIL SERVICE—

For USPS mail, use the following address:
Hirz/Delta Fire
Your name, Resource Order #
General Delivery
McCloud, CA 96057

For UPS or FedEx packages, use the following address:
Hirz/Delta Fire
Your name, Resource Order #
909 Mill Road
McCloud, CA 96057

Incoming mail and packages may be picked up at the Information trailer.

Human Resource Message

Please remember that all are expected to follow camp rules and behave like professionals.

And remember what Bruce Lee said:

“A quick temper will make a fool of you soon enough”

Michelle Hale HRSP(T) 619-813-4202
