HIRZ

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name:		2. Operational Period: NIGHT	
HIRZ / DELTA	Date/Time From: 09/12/2018 1800	Date/Time To: 09/13/2018 0600	WED THU
3. Objective(s):			
Leader's Intent A full suppression strategy will be implemented for both the Hirz and Delta fires through a combination of direct and indirect tactics. Efforts will be made to minimize impacts to residences, critical infrastructure and private timberlands through the application of well-planned tactical responses.			
Management Objectives			
<ul style="list-style-type: none"> • Ensure that strategies and tactics provide for firefighter and public safety through the application of sound risk management principles. • Minimize the threat to private property, critical infrastructure, and commercial timberlands while working with the READs to reduce impacts to cultural and sensitive sites. • Establish and strengthen cooperator, partner, and stakeholder relationships. • All suppression repair work will be conducted in close coordination with assigned READs. 			
Control Objectives			
DELTA FIRE			
KEEP FIRE:			
<ul style="list-style-type: none"> • North of Dog Creek Road / Forest Road 21 (west side of I-5) to minimize impacts to I-5 and protect the communities of Pollock, Lakehead, and Lakeshore. • South of Middle Ridge (west side of I-5) to protect private timberlands. • South of Hazel Creek Road (east side of I-5) to minimize threat to communities and residences along I-5 corridor. • East of the Trinity River to minimize impacts to Highway 3 and protect recreational sites. • West of Crane Mountain to halt eastern spread. 			
HIRZ FIRE			
<ul style="list-style-type: none"> • Continue to mop-up and patrol as needed to ensure the fire stays within existing containment lines. • Continue suppression repair per the approved Suppression Repair Plan. 			
4. Operational Period Command Emphasis:			
ATTENTION TO DETAIL			
<u>Priorities:</u>			
<ul style="list-style-type: none"> - Divisions TT, WW, Shotgun Ridge - Division YY, Hazel Creek - Divisions ZZ, AA, Fender's Ferry Road - Divisions GG, Fool's Gulch 			
General Situational Awareness:			
-We're all part of one quality family, working together as a family. No component is more important than any other component.			
5. Site Safety Plan Required? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>			
Approved Site Safety Plan(s) Located at:			
6. Incident Action Plan (the items checked below are included in this Incident Action Plan):

FIRE WEATHER FORECAST

FORECAST NO. 38

NAME OF FIRE: Hirz & Delta Fires

PREDICTION FOR: September 12th-13th, 2018

UNIT: Shasta Trinity National Forest

TIME AND DATE

SIGNED: Jeremy Michael

FORECAST ISSUED: 1100 Wednesday 09/12/18

Jeremy Michael / Incident Meteorologist

WEATHER DISCUSSION...The weather system, which caused breezy conditions has now passed to the east this evening. Another weak system will pass through the area overnight through Thursday morning with the chance for a couple of light showers. With any shower, only light precipitation is possible and a wetting rain is not expected. However, this system will usher in cooler weather, especially for the ridge tops as temperatures could fall into the 30s through Friday morning. Additionally, the cooler temperatures will bring up relative humidity for better overnight recovery across the fire. By Thursday afternoon and into the weekend, a drying and slight warming trend will begin. Afternoon highs will rise a couple degrees each day, with drying overnight and afternoon humidity.

TONIGHT...

Sky/weather.....Mostly cloudy. A 20 percent chance of showers. A rumble of thunder also possible. Inversion develops after 2100.
Min temperature.....37-42 ridgetops, 43-47 lower drainages.
Max humidity.....75-80 percent ridges and 78-83 percent lower drainages.
Wind (20 ft).....
Slope/valley.....Upslope 3-7 mph becoming downslope 3-6 mph after 2100.
Ridgetop.....South-Southwest 3 to 8 mph with gusts to 15 mph until 2100, then North-Northwest 4 to 9 mph with gusts to 15 mph.
Mixing height.....Weak inversion lowering to around 1500 ft AGL.
Transport winds.....Southwest 8 mph until 2100, then North 6 mph.
CWR.....0 percent. LAL 1.

THURSDAY...

Sky/weather.....Partly cloudy. A 10 percent chance of showers in the morning. Patchy smoke. Inversion breaks around 1000.
Max temperature.....63-68 ridgetops and 73-78 lower drainages.
Min humidity.....24-29 percent ridges and 22-27 percent lower drainages.
Wind (20 ft).....
Slope/valley.....Downslope/Downvalley 3-6 mph until 1000, then Upslope/Upvalley 3-7 mph.
Ridgetop.....North 4 to 9 mph with gusts to 15 mph until 1000, then South-Southwest 5 to 10 mph with gusts to 17 mph.
Mixing height.....6,000 to 8,000 ft AGL.
Transport winds.....North 6 mph until 1000, then South-Southwest 8 mph.
CWR.....0 percent. LAL 1.

THURSDAY NIGHT...

Sky/weather.....Partly cloudy. Patchy smoke. Inversion develops after 2100.
Min temperature.....40-45 ridgetops, 41-46 lower drainages.
Max humidity.....70-75 percent ridges and 65-70 percent lower drainages.
Wind (20 ft).....
Slope/valley.....Upslope 3-7 mph becoming downslope 3-6 mph after 2100.
Ridgetop.....South-Southwest 4 to 9 mph with gusts to 17 mph until 2100, then North 4 to 9 mph with gusts to 15 mph.
Mixing height.....Lowering to around 2000 ft AGL.
Transport winds.....South-Southwest 8 mph until 2100, then North 6 mph.
CWR.....0 percent. LAL 1.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 51	TYPE OF FIRE: Wildfire
FIRE NAME: Hirz/Delta	OPERATIONAL PERIOD: September 12, 2018, Night
DATE ISSUED: September 12, 2018	TIME ISSUED: 1030
UNIT: Shasta-Trinity NF, McCloud RD	SIGNED:  Robert Scott, FBAN 530.990.4048 Kelly Allen, FBAN

INPUTS

WEATHER SUMMARY

See Fire Weather Forecast

Weather: Mostly cloudy. A 20 percent chance of showers. A rumble of thunder also possible Inversion develops after midnight

Min Temps: 37-42 ridges, 43-47 lower drainages

Max RH: 65-75% ridges. 43-47% lower drainages.

20 FOOT WINDS: **Ridges:** SW 3-8 mph with gusts to 15 mph until 2100, then North-Northwest to North 4-9 mph with gusts to 15 mph.

Slope/valley: Upslope 3-7 mph becoming downslope 3-6 mph after 2100

FIRE BEHAVIOR

INPUTS:

- **Fuels:** Increased humidity and a weak inversion will minimize fire behavior keeping it to the heavy concentrations of fuel under the canopies.
- **Topography:** Complex and steep. Slope and rollout will be the primary elements of fire spread. Unburned islands will continue to burn.

FIRE BEHAVIOR: With higher night time humidity's in conjunction with mostly cloudy sky fire behavior will be kept to the heavy concentrations of fuel under the canopies. Some fuel and terrain driven fire spread will be seen early in the shift. Expect FL 4ft and ROS 15ch/hr. in brush and FL 3-6ft and ROS 5ch/hr. in timber. Behavior will moderate as humidity increases and the inversion builds.

Probability of Ignition: 20%

BRANCH 9 - DIV YY: Higher humidity's will aide in holding and mopping up. Best opportunity to burn is early in the shift before humidity reaches 50% around 2100.

DIV ZZ: Primary threat will be from rollout along the Fenders Ferry Rd. Holding operations will be good.

DIV AA: Fire will hold on Dog Creek Rd. Slight potential for rollout from remaining unconsumed heavy fuels.

DIV CC: Fire in the North Fork of Dog Creek will move upslope in the stringers of timber until higher humidity stop spread in the sparse fuels.

BRANCH 4 - DIV DD:-Fire movement in Blodgett Cr will continue early in the shift but will moderate as humidity increases and the inversion builds back in.

DIV GG: Fire will hold in place. Some threat from rollout will exist.

BRANCH 7 - DIV JJ/MM: Fire has held in place for the past 2 days. Little threat of spread in the sparse fuels

BRANCH 8 - DIV PP/TT: Firing operations will be most effective early in the shift until 2100. Holding operations will be favorable aided by increased humidity and inversion.

DIV WW: Any firing operations should happen before 2100. Holding operations will be good.

Hirz Fire: Little threat of spread.

AIR OPERATIONS

Air operations may be impacted by smoke until sunset at 1921

SAFETY

** **Spotting will mainly occur from rollout on steep slopes.

Delta - Hirz - Safety Message

INCIDENT # CA-SHF-001444

DATE: 09-12-2018 TIME: 1800 - 0600 Night Shift

Communications

- Share your Situational Awareness (hazards, changes, etc.) to those who also have a need.
- Radio Communications may be poor in some areas: use human repeaters as needed.
- Ensure all personnel are familiar with the ICS 205 incident communications plan and the ICS 206 medical plan.
- Make sure all resources have radios cloned appropriately.
- Ensure that non-agency resources understand radio use and procedures.

Fight Complacency

- Stay mentally engaged on the task at hand
- Give clear briefings.
- Address complacency in your daily AAR.
- Clearly identify the day's mission and purpose.
- Use the "Buddy System" and watch out for each other. If you see something, say something.
- Ask yourself: "Are you doing the job safely, the way you were trained?"
- Look for a "new" or "fresh" approach to repetitive assignments.

Driving & Fatigue

- Make sure you are getting your rest when you can! Stick to work/rest guidelines.
- Fatigue can cause us to mentally stray from the driving task.
- It only takes a second of distraction to lose control of our vehicle. The faster you are traveling, the faster you get in trouble.
- Make sure you recognize when you are too tired to drive!
- Don't tough it out and put yourself and your passengers at risk!
- Slow down, take breaks, and talk to your passengers. If possible, keep an alert passenger in the front seat next to you. Know your limits.

Individual Accountability

- Know where your crewmembers are at all times.
- Have crewmembers work in pairs.
- Inform Division or your Supervisor of changing locations.
- Review radio procedures, and ensure your radio is properly cloned.
- Check **IN** with the Division Supervisor on site if not assigned there
- Check **OUT** with your supervisor (or Division) at the end of shift.

Team 4 Safety

IR/ DIV	HAZARDOUS ACTIONS / CONDITIONS	MITIGATIONS / WARNINGS / REMEDIES
ALL	FIRE BEHAVIOR	<ul style="list-style-type: none"> • Are you seeing what we have predicted? • Conduct thorough assessments before starting work. • Ensure LCES is in place. • Plan & Communicate your exit strategy, with your crew and adjacent resources. • Provide additional briefing for new resources and maintain communications.
ALL	TRAFFIC HAZARDS AND DRIVING	<ul style="list-style-type: none"> • Practice "Defensive Driving" techniques. Traffic volume is high. I-5 is open • Use spotters when backing. • Always use headlights. • Use warning lights when working on roads or traveling in smoke. • Observe posted speed limits. • Use chock blocks, turn wheels into hill. • Many roads are narrow and mid slope, use caution.
ALL	FIRING OPERATIONS	<ul style="list-style-type: none"> • Only personnel trained in the use of each device will be authorized to use firing equipment. • Ensure all personnel are aware of firing operation that may affect them. • Wear appropriate PPE. • Ensure aerial/ground ignition plans have been adequately developed and personnel are briefed.
ALL	AVIATION OPERATIONS	<ul style="list-style-type: none"> • Conduct thorough mission assessments before starting work. Follow the guidelines in the IHOG and other aviation guidelines and reference materials. • Ensure coordination and communication are in place and understood by all involved resources in a mission. • Ensure close coordination between Air Attack, air tankers, helicopters, and ground resources.
ALL	HAZARD / DANGER TREES	<ul style="list-style-type: none"> • Follow Hazard Tree Safety Guidelines (IRPG p.22-23). • Limit number of personnel around snags and their exposure time; fallers must be qualified for the trees being felled. • Be especially alert around snags during wind events. Large green trees can also be dangerous.
ALL	FATIGUE / COMPLACENCY	<ul style="list-style-type: none"> • Be alert for signs of fatigue and take breaks as necessary. • Maintain 2:1 work/rest ratio. • Monitor ALL resources for level of fatigue. • Recognize the symptoms of fatigue and take action as necessary to provide rest and recovery. • Repeated assignments in the same area can lead to complacency making personnel more vulnerable to accidents. • Take steps (switching of assignments, training opportunities during slow periods, etc.) to maintain situational awareness for the duration of the incident
LL	HEAVY EQUIPMENT OPERATIONS	<ul style="list-style-type: none"> • Ensure communications are established with operators. • Ensure ground personnel have safety illumination, with light-sticks being the minimum. • Maintain a 50'-100' exclusion area around equipment. • In timber increase safety distance to 2 ½ times canopy height.
L	STEEP TERRAIN & ROLLING MATERIAL	<ul style="list-style-type: none"> • Avoid working below crews and equipment. • Concentrate on your footing placement; take your time. • Ensure adequate spacing between crewmembers so they can react to dislodged debris. • Post lookouts to warn of rolling debris. SHOUT out to warn others. • Look Up, Down and Around Frequently.
L	COMMUNICATIONS	<ul style="list-style-type: none"> • Share your Situational Awareness (hazards, changes, etc.) to those who also have a need. • Radio Communications may be poor in some areas: use human repeaters as needed. • Ensure all personnel are familiar with the incident and IA communications plans. • Make sure all resources have radios cloned appropriately. • Ensure that non-agency resources understand radio use and procedures.
L	POWERLINES / UTILITIES	<ul style="list-style-type: none"> • Notify all personnel of down electrical lines. • IRPG Page 24 – Take time to do a Tailgate Safety Briefing • Always treat downed wires as energized. • Avoid parking under any type of overhead lines. • Identify all gas lines in and around structures. • Report damaged service lines.
L	SMOKE	<ul style="list-style-type: none"> • Periodically rotate crews out of smoky conditions on line when possible. • Locate spike camps above inversion if possible. • Monitor crew's health. Get medical care for early signs of respiratory illness. • Provide rest breaks; have crews get as much sleep as possible; hydrate!
L	ATV / UTV	<p>From the Red Book: FS-UTV Helmet (for fire use) Helmets must have Snell SA certification. Wearing hardhats while driving or riding on a UTV is not allowed. Forest Service Policy provides no exception to the helmet requirement for low speeds, smooth travel surfaces, or administration use (FSH 6709.11. Chapter 10).</p>

INCIDENT NAME:

Hirz / Delta Fire

Operational Period: 1800 - 0600

September 12, 2018

Medical Incident Report

FOR A **NON-EMERGENCY INCIDENT**: WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A **MEDICAL EMERGENCY**: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM COMMUNICATIONS

Use the following items to communicate situation to communications/dispatch.

- 1. CONTACT COMMUNICATIONS / DISPATCH** (Verify correct frequency prior to starting report)
Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."
- 2. INCIDENT STATUS:** Provide incident summary (including number of patients) and command structure.
Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.)
"This will be the Trout Meadow Medical Incident, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency AND Transport Priority (priority 1, 2, 3)	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE Ex: Unconscious, difficulty breathing, bleeding severely, 2° - 3° burns more than 4 palm sizes, heat stroke, disoriented. <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. Ex: Significant trauma, unable to walk, 2° - 3° burns not more than 1-3 palm sizes. <input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport Ex: Sprains, strains, minor heat-related illness.
--	---

Nature of Injury or Illness & Mechanism of Injury		Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)
Transport Request		Air Ambulance / Short Haul/Hoist Ground Ambulance / Other
Patient Location		Descriptive Location & Lat. / Long. (WGS84)
Incident Name		Geographic Name + "Medical" (Ex: Trout Meadow Medical)
On-Scene Incident Commander		Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)
Crew Patient Care		Name of Care Provider (Ex: EMT Smith)

3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)

Agency Affiliation: (NO PATIENT NAMES)	Federal	Contractor	Local Government	
Patient Assessment:	Age:	Weight:	Chief Complaint:	
Skin Signs: (color/moisture/temp)	Level of Consciousness:	BP:	HR:	Respirations:
Treatment:				

4. TRANSPORT PLAN:

Evacuation Location (drop point, intersection, helispot, Lat. / Long, hazards)	Patient's ETA to Location:
--	----------------------------

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:
Paramedic / EMT - Crews - Immobilization Devices - AED - Oxygen - Trauma Bag - IV/Fluid(s) - Splints - Rope rescue - Wheeled litter - HAZMAT - Extraction

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

7. CONTINGENCY: Considerations: If primary options fall, what actions can be implemented in conjunction with primary evacuation method?
Be thinking ahead.

8. ADDITIONAL INFORMATION: Updates/Changes, etc.

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training
Be Alert - Keep Calm - Think Clearly - Act Decisively

*** Follow up with MEDL upon return to ICP ***

STANDARD OPERATING PROCEDURES—FINANCE SECTION
“How to Earn an Honest Day’s Pay for an Honest Day’s Work”
YOU ARE ENTITLED TO ACTUAL HOURS WORKED!!

WORK REST CYCLE

IT IS NATIONAL DIRECTION TO MEET A 2 TO 1 WORK/REST RATIO (1 hour of sleep/rest for every 2 hours of work.. Every effort shall be made to manage work hours so you don’t exceed the maximum of 16 hrs. Work hours exceeding 16 hrs shall be approved by your supervisor in advance, and a justification/mitigation form completed for review by Section Chief & approved by IC. It is each person’s responsibility to comply with this direction to manage for fatigue and safety.

OPERATIONAL SHIFTS

Pay status for assigned overhead and crews on the fireline will not start prior to the posted briefing time and will terminate on arrival back in camp (except for debriefing—additional hours may be accrued by those required to attend debriefing). Supervisors will be allowed ½ hour prior to briefing and after return to camp to ready crew and equipment.

DUTY STATUS

Division/Group supervisors and Unit Leaders are responsible for establishing on and off duty status. The objective is a 2 to 1 work/rest ratio. Personnel will normally work, travel, and/or be placed on ORDERED standby 8 to 16 hours per day and be off duty 8 hours or more (breaks count towards 8 hrs). Off duty time will be in a non-pay status. Each federal employee is guaranteed **at least 8 hours** of pay status each 24-hour period (midnight to midnight) unless it is the first or last day of an assignment or stated otherwise in a contract or agreement.

PERSONNEL/EQUIPMENT TIME REPORTING

Personnel time will be reported to the Time Unit and daily once they are signed by the next level supervisor. OES resources will be monitored by OES Agency Rep (if assigned) for 2/1 Work Rest compliance. Situations entitling you to HAZARD PAY are to be noted in remarks (i.e HP=Uncontrolled Fireline, hovering hookups, low level flights, etc.)

Private Contracted Equipment time must be tracked on a Shift Ticket daily and hours on shift noted even if it is a daily rate. When swapping out operators you need to notify Finance as well as changing from single to double shift and vice versa.

Supervisor’s - If you are responsible for daily tracking of equipment or personnel, please ensure you understand the agreement, and follow the rules provided in this document. Do not sign documents for resources you did not manage unless you have knowledge of their assignment hours.

MEAL AND OTHER WORK BREAKS

Compensable meal periods are the exception, not the rule (5 CFR 551.411 © and 29 CFR 785.19(a)). **Until the fire is controlled**, personnel on the fireline **MAY BE** compensated for meal periods if all of the following conditions are met: 1) The fire is not controlled and 2) The Operations Section Chief makes a decision that it is critical to the effort of controlling the fire that personnel remain at their post of duty and continue to work as they eat, and 3) The compensable meal break is approved by the supervisor at the next level and documented on CTR. For **personnel in support positions**, and fireline personnel **after control** of a fire, a meal period of at least 30 minutes must be ordered and taken for each work shift of eight hours or more. This statement does not mean you don’t show all meal breaks if taken. In those situations where personnel cannot be relieved from work and must remain at a post of duty, a meal period may be counted as time worked, which will be compensable. **If meal breaks are NOT able to be taken, CTR should have a §_24- ment in remarks explaining the situation.**

CALIFORNIA INTERAGENCY INCIDENT MANAGEMENT TEAM 4

EXPECTATIONS

Welcome to this Incident.
Thank You for your Cooperation & Support!

2018

CONDUCT AND BEHAVIOR

This team is committed to “ZERO TOLERANCE” of careless, illegal, inappropriate and unsafe actions.

Alcohol and/or illegal drugs are **NOT allowed** within the incident environment or while actively assigned to the incident. Local Law Enforcement Officials will be called to deal with any suspected illegal activities. Each employee has the responsibility to be ready, willing, and able to perform the duties for which they are qualified.

Sexual Harassment

Inappropriate actions or comments will not be tolerated. Everyone is expected to act in a professional manner. It is your responsibility to stop inappropriate actions or comments immediately upon becoming aware of such. Sexual Harassment must be reported to the Human Resource Specialist or Incident Commander. When outside of your designated sleeping area, you are required to wear at least a shirt, appropriate shorts, and shoes or sandals. If you need clarification of these expectations contact the Human Resource Specialist or IC. What we PERMIT we PROMOTE!!!!

SAFETY

The commitment to and accountability for safety is a joint responsibility of firefighters, managers and administrators. Individuals must personally be committed and responsible for their own performance and accountability. Everyone assigned to this incident can expect an assignment that follows all safety rules & regulations. Every person is expected to perform his or her duties in compliance with all known safety practices at all times. Anything less is unacceptable.

EMPHASIS AREAS

Training

All trainees and trainers are expected to follow the procedures outlined in the California Interagency Incident Management Team 4 **Training Expectations – See back page.**

Evaluations

All supervisory personnel assigned will complete an ICS 225 Incident Personnel Performance Rating form for their assigned resources according to agency policy or contractual agreement.

Injuries/Claims

Ensure all injuries and potential claims are reported to the Comp/Claims Unit for completion of appropriate paperwork. Contract claims will be reported to the Procurement Unit Leader.

Work Rest Cycles

The 2: 1 work/rest ratio is mandatory. For every two hours on shift you will be required to rest for one hour. Every effort shall be used to limit work hours to a maximum of 16. If circumstances require you to exceed 16 hours, this needs to be coordinated in advance with your supervisor and the Justification/Mitigation form completed to support the excessive hours prior to submitting for approval by the IC. It is your responsibility to comply with this direction and provide the appropriate documentation to your Supervisor and Finance.

Position Qualifications

Personnel shall only be assigned to positions for which they are qualified. Proof of qualifications shall be approved prior to being assigned to any fire line position. Non-fireline positions may be filled based on the word of the employee pending home unit confirmation, which must be requested immediately. Contract dozer operators, tactical water tender operators and contract fallers must provide proof that they have received the annual fire refresher training.

Engagement/Disengagement

The 10 Standard Orders & 18 Watchout Situations will be followed at all times and mitigated as needed. Staying aware of your situation is critical. This includes Geographic Area and incident briefings. Follow the Risk Management Process outlined in the Incident Response Pocket Guide.

Debriefing

All Branch Directors/Division/Group Supervisors will report to their Supervisor and Situation Unit at the end of the operational period for debriefing with emphasis on the accomplishment of objectives. All unit logs (ICS 214) will be turned in after the debriefing to Documentation reflecting accomplishment and/or special incidents that occurred during the operational period.

Crew Time Reports/Shift Tickets

It is your responsibility to ensure all time is properly accounted for and recorded each shift. The records are to be reviewed and signed by the next level supervisor. A finance "Rules of Engagement" document will be provided in the IAP explaining further requirements.

Social Media

It is your responsibility to know and understand guidelines for firefighter photography, video and social media use. California Interagency Incident Management Team 4 goal is simple: to participate online in a respectful, relevant way that protects our incident's professional reputation, does not confuse the public about the incident and follows the letter and spirit of the law. Be mindful that social media postings can be viewed as unprofessional, damage careers and lead to disciplinary actions. For further information, contact the Public Information Officer.

We look forward to working with you as a valuable member of this effort. If you have any questions or feedback, please feel free to contact any Command and General Staff Member.

ALY KURTH
Incident Commander

ROCKY W. OPLIGER
Deputy Incident Commander

THANK YOU FOR YOUR COOPERATION AND GOOD WORK!!

CALIFORNIA INTERAGENCY INCIDENT MANAGEMENT TEAM 4 TRAINING EXPECTATIONS

1. Upon arrival at the incident and after check-in, the trainee will bring the following documents to the initial meeting with the training specialist:
 - a. A properly initiated Position Task Book.
 - b. Your Request Number and your Agency (3) letter identifier.
 - c. Your agencies Fire Chief or Training Officers name, address, and phone number to insure that a copy of the training documents will be mailed back to your home unit.
 - d. Your current Incident Qualification Card (red card) that identifies you as a Trainee in the position you are seeking to be trained.
2. Have you identified or has a Trainer been assigned to you and if so, have the Trainer present when you meet with the training specialist.
3. At closeout and prior to entering the demobilization process, you should complete, sign, and review with the trainer the Final exit interview form. Once the form is complete, bring the following documents to the Training Specialist for closeout;
 - a. Position Task Book (Evaluation Record dated and signed by the Trainer).
 - b. Completed ICS 225 (Personal Evaluation Record) dated and signed by both the trainee and trainer.
 - c. Completed Final Exit Interview Form – dated and signed by both the trainee and the trainer.

Trainer Expectations

1. Arrive with the Trainee at the initial meeting with the Training Specialist.
2. Be ready to provide your Contact information and your Incident Request number.
3. Have a Current Incident Qualifications Card (Red Card) in a position of equal or greater qualifications that the Trainee is trying to achieve.
4. Be willing to educate, support, and provide professional and consistent feed back to the trainee during the assignment.
5. Throughout the incident the trainer shall continue to monitor and review with the trainee their tasks and goals within the task book.
6. The trainer, where appropriate is expected to sign off task's that are achieved by the trainee and to complete and sign the following documents.
 - a. ICS 225 (Personal Evaluation Form)
 - b. Evaluation Record at the back of the task book.
7. The trainer shall portray a positive and professional attitude that lets the trainee know that it is desirable to ask for direction and feedback.
8. When accepting the role as a trainer, you are expected to act in a professional manner that represents the California Interagency Incident Management Team 4 and your home agency.
