INCIDENT ACTION PLAN

WALKER FIRE

CA-PNF-001324 P5MQ4F (0511)

OPERATIONAL PERIOD

SEPTEMBER 9, 2019
DAY 0600-1800 HOURS

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name:	2. Operational Period: DAY	
WALKER	Date/Time From: 09/09/2019 0600 MON	Date/Time To: 09/09/2019 1800 MON
3. Objective(s):		
<p>Management Objectives</p> <ol style="list-style-type: none"> 1. Ensure firefighter and public safety by using strategies and tactics that mitigate known and anticipated hazards while providing for the highest probability of success. 2. Provide accurate and timely fire information through interagency and public coordination. 3. Maintain and enhance relationships with the represented agencies, stakeholders, local land owners and the general public. 4. Protect and understand the cultural values and natural resources in the fire area at risk to create risk-based decisions. 5. Provide Initial Attack Support within the TFR. <p>Control Objectives</p> <p>In order to minimize the threat to private inholdings, the community of Taylorsville and communities along Highway 395 between Milford and Janesville, Highway 395, hydropower facilities and community watershed keep the Walker Fire:</p> <ul style="list-style-type: none"> -East of Hosselkus Creek -North of Davis Lake -West of Highway 177 -South of Antelope Lake 		
4. Operational Period Command Emphasis:		
Situational awareness in transition.		
General Situational Awareness:		
Maintain focus on the task at hand. Give clear briefings and conduct daily after action reviews to continually improve your situational awareness.		
5. Site Safety Plan Required? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>		
Approved Site Safety Plan(s) Located at:		
6. Incident Action Plan (the items checked below are included in this Incident Action Plan):		
<input checked="" type="checkbox"/> ICS 202 <input checked="" type="checkbox"/> ICS 203 <input checked="" type="checkbox"/> ICS 204 <input checked="" type="checkbox"/> ICS 205 <input type="checkbox"/> ICS 205A <input checked="" type="checkbox"/> ICS 206	<input type="checkbox"/> ICS 207 <input type="checkbox"/> ICS 208 <input type="checkbox"/> ICS 220 <input checked="" type="checkbox"/> Map/Chart <input checked="" type="checkbox"/> Weather Forecast/Tides/Currents	Other Attachments: <input checked="" type="checkbox"/> TRAINING MESSAGE <input checked="" type="checkbox"/> SAFETY MESSAGE <input type="checkbox"/> _____ <input type="checkbox"/> _____

INCIDENT Weather Forecast

FORECAST NO: 4

NAME OF FIRE: Walker Fire

PREDICTION FOR: Monday Day SHIFT

UNIT: Plumas NF

SHIFT DATE: Sept 9, 2019

SIGNED: Mike Smith *Mike Smith*

TIME AND DATE

FORECAST ISSUED: 2100 Sept 8, 2019

Incident Meteorologist

WEATHER DISCUSSION: A large low pressure system over the Pacific Northwest coast will move inland over the next couple of days pivoting small weather disturbances across northern California along the way. One of these small scale systems will pass through Norcal on Monday, continuing the slow cooling and higher RH trend and bringing continued breezy afternoon winds. Another slightly stronger system will pass through Norcal on Tuesday bringing even cooler temperatures and higher humidity as well as a chance of light showers or an afternoon thunderstorm. The main upper low will move to the east by mid week bringing a warming and drying trend for the second half of the week.

WEATHER FORECAST:

WEATHER: Scattered clouds with smoke in the valleys through about noon.

TEMPERATURES: Maximum temperatures 67 to 73 highest to lowest elevations.

HUMIDITY: Minimum humidity 27 to 32 percent.

20 FT WINDS:

RIDGETOP - Winds generally light and variable early morning hours, picking up after about noon to southwest to west 10 to 15 mph with occasional gusts 20-25 mph.

SLOPE/VALLEY - Light downslope in the morning becoming mainly southwest to northwest 6-10 mph after about noon with gusts up to about 15-20 mph in aligned drainages late afternoon.

HAINES INDEX: 3

STABILITY/INVERSION: Inversions breaking around noon. Slightly less stable than Sunday.

OUTLOOK FOR Monday Night: Partly to mostly cloudy. Minimum temperatures mainly in the 40s. Good humidity recovery at 75-85%. Ridge winds dropping off after sunset becoming west to northwest 4-8 mph after midnight. Slope winds becoming light downslope after midnight.

OUTLOOK FOR Tuesday: Mostly Cloudy with a chance of showers and a slight chance of afternoon thunderstorms. Max temperatures 63-69. Min RH 33-40%. Ridge winds mainly northwest 5-10 mph gusts to 15 mph. Slope winds upslope to upcanyon mainly southwest to northwest 5-10 mph.

Extended forecast for Wednesday: Skies clearing. Temperatures warming to the lower 70s to near 80. Ridge winds northwest to northeast 5-10 mph gusts to 15 mph. Slope winds upslope 4-8 gusts to 12 mph.

Sunrise Monday: 6:38

Sunset: 7:21

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 02	TYPE OF FIRE: Wildfire
FIRE NAME: Walker	OPERATIONAL PERIOD: September 9, 2019, Day
DATE ISSUED: September 8, 2019	TIME ISSUED: 1800
UNIT: Plumas NF	SIGNED: /s/ Robert Scott, Robert Scott, FBAN 530.990.4048 w/ edits by: Dan Felix FBAN

INPUTS

WEATHER SUMMARY ****See Fire Weather Forecast****

Weather: Scattered clouds.
Day Temps: 67 – 73 degrees
Day RH: 27 – 32%
20 FOOT WINDS: **Ridges:** Southwest 10-15 mph gust to 25.
Slope/valley: Southwest to northwest 6-10 mph gust to 20.

FIRE BEHAVIOR

INPUTS:

- ! **Fuels:** Increased humidity and cloudiness will reduce fine fuel availability and fuel temperature.
- ! **Topography:** Slopes with higher fuel loading will continue to support fire movement.

**** Areas along Hwy 395 ** - If fire crests the ridge above the escarpment:** Evening and night environmental conditions are not typical along the escarpment. Fire positioned above (West) Hwy 395 will push downhill with little or no notice, especially at and after sundown. Anticipate downslope winds with a magnitude of 15 mph. Eagle Fire 1989, Doyle Fire 1994, and Cemetery Fire 1999 all exhibited this phenomena.

FIRE BEHAVIOR: Expect a decrease on fire behavior today. Slope runs remain possible with moderate range spotting as fire tops ridges. Timbered locations will see the greatest fire behavior

DIV X: Lighter fuels South of Antelope Lake will be less receptive to fire movement and spotting. However, spots established in the Boulder Creek drainage near Hallett Meadow will have ample fuel to make significant runs toward Lowe Flat (North) and Thompson Peak (East).

DIV V: Fire in the Dry Flat area should close the gap with erratic fire behavior as the two fronts converge. Fire moving up Clarks Creek will encounter heavier timber fuels that will enhance fire behavior.

DIV Q&M: Lighter fuels West of Lone Spring Mtn. will inhibit fire spread until the beginning of the burn period. Some moderate pockets of fuel in drainage bottoms could produce short runs with spotting.

DIV I&K: Drainages in the Rodgers Creek system contain large amounts of fuel. Forecast winds will be in alignment with these drainages. Expect touching, slope runs and spotting during the burn period. Long range spotting has been observed and remains probable.

DIV E&G: Expect fire to move through the heavy fuels of Mt. Ingalls. 267638 Creek and the Big Pine Springs area would be in wind/slope alignment. Torching and crown runs are possible along with long range spotting.

DIV K: Fire will back off the ridge above Ward Creek to the West. Rollout with short upslope runs are possible along ridges and road 25N42.

DIV A&C: Fire will continue to flank and run through the heavier fuel on the slopes of Wheeler Peak. Slope runs will be possible during the height of the burn period. Fire behavior could be enhanced by the Indian Creek drainage (Road 29N43).

AIR OPERATIONS

Inversion should lift around 1200 with reduced visibility on the East side due to smoke.

SAFETY

**** Escarpment winds can change direction quickly and with little warning.
Monitor smoke column for early signs of shifting winds and have alternate escape routes identified.****

Corrected

Walker Fire – Safety Message

INCIDENT: WALKER FIRE CA-PNF-001324

DATE:09-09-2019 TIME: 0600-1800 -Day

Incident Management Team Transition

- Sometimes called the 19th Watch Out Situation.
- Take the time to understand the plan. Ensure all resources completely understand the assignment, the Communications Plan, and the Medical Plan.
- Briefings: Required every shift, for all personnel, for new assignments, and for changing conditions.

Watch Out Situation #4

Unfamiliar with weather and local factors influencing fire behavior

- Recognize and communicate any change in fire behavior
- Monitor weather conditions throughout the shift and broadcast them to all resources on the division

Driving

- When driving keep the speed at or below the posted speed limit and turn your headlights on. Is the posted speed limit a safe speed under the current conditions and traffic?
- Use caution on unimproved roads as some have soft shoulders. Some roads are also only one lane with pullouts!
- Road surfaces are variable with washboard conditions and thick dust that can compromise turning and braking.
- Watch for and anticipate stock and wildlife especially from dusk to dawn.
- Always fasten your seat belt before the vehicle is set into motion. Use backseat.
- Don't tail gate, especially in dusty conditions.
- Slow down, slow down, and slow down!

Personal Safety

- Make yourself visible to vehicle traffic while working on, or near roads. Use your headlamp or glow sticks.

Understand your mission, ask questions!

6. INSTRUCTIONS AND ASSIGNMENTS NOT CLEAR

CIIMT 4 Safety Group

INCIDENT RISK ANALYSIS

(ICS 215a) Day Shift

BR/ DIV	HAZARDOUS ACTIONS / CONDITIONS	MITIGATIONS / WARNINGS / REMEDIES	
ALL	TRAFFIC HAZARDS AND DRIVING	<ul style="list-style-type: none"> Practice "Defensive Driving" techniques. Traffic volume is high. Use spotters when backing. Always use headlights. Use warning lights when working on roads or traveling in smoke. Observe posted speed limits. Use chock blocks, turn wheels into hill. Many roads are narrow and mid slope, use caution. 	
ALL	HAZARD / DANGER TREES	<ul style="list-style-type: none"> Follow Hazard Tree Safety Guidelines (IRPG p.22-23). Limit number of personnel around snags and their exposure time; fallers must be qualified for the trees being felled. Be especially alert around snags during wind events. Large green trees can also be dangerous. 	
ALL	LINE CONSTRUCTION	<ul style="list-style-type: none"> Follow the line construction protocols and safety precautions for direct and indirect line construction. Watch footing and spacing between firefighters, especially those working below. Make sure LCES is in place. Follow the "Downhill Line Construction Checklist" on IRPG page 9. Do not work above any personnel. Evaluate necessity to send personnel in areas with limited access. 	
ALL	COMMUNICATIONS	<ul style="list-style-type: none"> Share your Situational Awareness (hazards, changes, etc.) to those who also have a need. Radio Communications may be poor in some areas: use human repeaters as needed. Ensure all personnel are familiar with the incident and IA communications plans. Make sure all resources have radios cloned appropriately. Ensure that non-agency resources understand radio use and procedures. 	
ALL	HEAVY EQUIPMENT OPERATIONS	<ul style="list-style-type: none"> Ensure communications are established with operators. Ensure ground personnel have safety illumination, with light-sticks being the minimum. Maintain a 50'-100' exclusion area around equipment. In timber increase safety distance to 2 ½ times canopy height. 	
ALL	FATIGUE / COMPLACENCY	<ul style="list-style-type: none"> Be alert for signs of fatigue and take breaks as necessary. Maintain 2:1 work/rest ratio. Monitor ALL resources for level of fatigue. Recognize the symptoms of fatigue and take action as necessary to provide rest and recovery. Repeated assignments in the same area can lead to complacency making personnel more vulnerable to accidents. Take steps (switching of assignments, training opportunities during slow periods, etc.) to maintain situational awareness for the duration of the incident 	
ALL	FIRE BEHAVIOR	<ul style="list-style-type: none"> Conduct thorough assessments before starting work. Ensure LCES is in place. Provide additional briefing on drought related fire behavior and areas of high concentration of hazard trees. Increase the level of SA. Provide additional briefing for new resources and maintain communications. 	
ALL	WEATHER	<ul style="list-style-type: none"> Be aware of changing weather conditions. Watch out for increasing winds and instability. Anticipate increased fire behavior conditions. Communicate any observed changes in weather and fire behavior. "Base all actions on current and expected behavior of the fire." 	
ALL	AIR OPERATIONS	<ul style="list-style-type: none"> Do not plan on air resources for tactical support or medical transportation. Refer to page 58, IRPG for directing bucket drops. Ensure positive communication with all air resources. 	
ALL	FIRING OPERATIONS	<ul style="list-style-type: none"> Only personnel trained in the use of each device will be authorized to use firing equipment. Ensure all personnel are aware of firing operation that may affect them. Wear appropriate PPE. Ensure aerial/ground ignition plans have been adequately developed and personnel are briefed. 	
ALL	ENVIRONMENTAL HAZARDS	<ul style="list-style-type: none"> Keep alert for wildlife, deer, rattlesnakes, bees, and plants. Watch footing and hand placement around rocks. Use caution around gas and power lines. Personal hygiene is #1 when it comes to Poison Oak Prevention.

Medical Incident Report

FOR A **NON-EMERGENCY INCIDENT**: WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A **MEDICAL EMERGENCY**: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM COMMUNICATIONS

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree.

Requesting air ambulance to Forest Road 1 at (Lat./Long.)

"This will be the Trout Meadow Medical Incident, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency / Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° - 3° burns more than 4 palm sizes, heat stroke, disoriented.</i>	
	<input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2° - 3° burns not more than 1-3 palm sizes.</i>	
	<input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>	
Nature of Injury or Illness & Mechanism of Injury		Brief Summary of Injury or Illness <i>(Ex: Unconscious, Struck by Falling Tree)</i>
Transport Request		Air Ambulance / Short Haul/Hoist Ground Ambulance / Other
Patient Location		Descriptive Location & Lat. / Long. (WGS84)
Incident Name		Geographic Name + "Medical" <i>(Ex: Trout Meadow Medical)</i>
On-Scene Incident Commander		Name of on-scene IC of Incident within an Incident <i>(Ex: TFLD Jones)</i>
Crew Patient Care		Name of Care Provider <i>(Ex: EMT Smith)</i>

3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)

Agency Affiliation: (NO PATIENT NAMES)	Federal	Contractor	Local Government
Patient Assessment:	Age:	Weight:	Chief Complaint:
(If pertinent to Injury)	Skin Signs: (color/moisture/temp)	Level of Consciousness:	BP: HR: Respirations:
Treatment:			

4. TRANSPORT PLAN:

Evacuation Location (if different): (Descriptive Location (drop point, intersection, etc.) or Lat. / Long.) Patient's ETA to Evacuation Location:

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

Paramedic / EMT - Crews - Immobilization Devices - AED - Oxygen - Trauma Bag - IV/Fluid(s) - Splints - Rope rescue - Wheeled litter - HAZMAT - Extrication

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.

8. ADDITIONAL INFORMATION: Updates/Changes, etc.

**REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training
Be Alert - Keep Calm - Think Clearly - Act Decisively**

*** Follow up with MEDL upon return to ICP ***

CALIFORNIA INTERAGENCY INCIDENT MANAGEMENT TEAM 4 EXPECTATIONS

CONDUCT AND BEHAVIOR

This team is committed to “**ZERO TOLERANCE**” of careless, illegal, inappropriate and unsafe actions.

Alcohol and/or illegal drugs are **NOT allowed** within the incident environment or while actively assigned to the incident. Local Law Enforcement Officials will be called to deal with any suspected illegal activities. Each employee has the responsibility to be ready, willing, and able to perform the duties for which they are qualified.

Sexual Harassment

Inappropriate actions or comments will not be tolerated. Everyone is expected to act in a professional manner. It is your responsibility to stop inappropriate actions or comments immediately upon becoming aware of such. Sexual Harassment must be reported to the Human Resource Specialist or Incident Commander. When outside of your designated sleeping area, you are required to wear at least a shirt, appropriate shorts, and shoes or sandals. If you need clarification of these expectations contact the Human Resource Specialist or IC. What we **PERMIT** we **PROMOTE!!!!**

SAFETY

The commitment to and accountability for safety is a joint responsibility of firefighters, managers and administrators. Individuals must personally be committed and responsible for their own performance and accountability. Everyone assigned to this incident can expect an assignment that follows all safety rules & regulations. Every person is expected to perform his or her duties in compliance with all known safety practices at all times. Anything less is unacceptable.

EMPHASIS AREAS

Training

All trainees and trainers are expected to follow the procedures outlined in the California Interagency Incident Management Team 4 **Training Expectations – See back page.**

Evaluations

All supervisory personnel assigned will complete an ICS 225 Incident Personnel Performance Rating form for their assigned resources according to agency policy or contractual agreement.

Injuries/Claims

Ensure all injuries and potential claims are reported to the Comp/Claims Unit for completion of appropriate paperwork. Contract claims will be reported to the Procurement Unit Leader.

Work Rest Cycles

The 2: 1 work/rest ratio is mandatory. For every two hours on shift you will be required to rest for one hour. Every effort shall be used to limit work hours to a maximum of 16. If circumstances require you to exceed 16 hours, this needs to be coordinated in advance with your supervisor and the Justification/Mitigation form completed to support the excessive hours prior to submitting for approval by the IC. It is your responsibility to comply with this direction and provide the appropriate documentation to your Supervisor and Finance.

Position Qualifications

Personnel shall only be assigned to positions for which they are qualified. Proof of qualifications shall be approved prior to being assigned to any fire line position. Non-fireline positions may be filled based on the word of the employee pending home unit confirmation, which must be requested immediately. Contract dozer operators, tactical water tender operators and contract fallers must provide proof that they have received the annual fire refresher training.

Engagement/Disengagement

The 10 Standard Orders & 18 Watchout Situations will be followed at all times and mitigated as needed. Staying aware of your situation is critical. This includes Geographic Area and incident briefings. Follow the Risk Management Process outlined in the Incident Response Pocket Guide.

Debriefing

All Branch Directors/Division/Group Supervisors will report to their Supervisor and Situation Unit at the end of the operational period for debriefing with emphasis on the accomplishment of objectives. All unit logs (ICS 214) will be turned in after the debriefing to Documentation reflecting accomplishment and/or special incidents that occurred during the operational period.

Crew Time Reports/Shift Tickets

It is your responsibility to ensure all time is properly accounted for and recorded each shift. The records are to be reviewed and signed by the next level supervisor. A finance "Rules of Engagement" document will be provided in the IAP explaining further requirements.

Social Media

It is your responsibility to know and understand guidelines for firefighter photography, video and social media use. California Interagency Incident Management Team 4 goal is simple: to participate online in a respectful, relevant way that protects our incident's professional reputation, does not confuse the public about the incident and follows the letter and spirit of the law. Be mindful that social media postings can be viewed as unprofessional, damage careers and lead to disciplinary actions. For further information, contact the Public Information Officer.

We look forward to working with you as a valuable member of this effort. If you have any questions or feedback, please feel free to contact any Command and General Staff Member.

JAY KURTH
Incident Commander

ROCKY W. OPLIGER
Deputy Incident Commander

THANK YOU FOR YOUR COOPERATION AND GOOD WORK!!

A MESSAGE FROM YOUR FRIENDLY TNSP

ALL ASSIGNED TRAINEES

UPON ARRIVAL: Please register with the QR code provided below. No service? Hard copies provided in the Training Trailer.

WHEN RELEASED: Come visit the Training Trailer and bring your completed task book and performance rating sheet.

TRAINERS/MENTORS:

If you are leaving the incident before your assigned trainee or your trainee is reassigned, you must:

1. Initial and date all tasks performed by your trainee during the assignment in their task book.
2. Complete a Performance Evaluation, ICS-Form 225, for the period of time the trainee was assigned to you. There are copies provided in the Training Trailer.

SCAN THIS QR CODE TO REGISTER WITH THE TRAINING SHOP.

Got questions? Come visit the Training Trailer or contact us below:

SUSTAINABILITY MESSAGE

Recycling services are here, and **YOU** can make all the difference.

Please place your bottles, cans, paper, maps, and cardboard at a recycle station.

Look for these signs to recycle right!

Together we are going to achieve a **40% minimum** diversion rate.

RECYCLE RIGHT TIPS

1. Empty all liquids from bottles then recycle

2. Empty paper bags, paper cups and sleeves can go in recycle
