INCIDENT ACTION PLAN WALKER FIRE

CA-PNF-001324 P5MQ4F (0511)

OPERATIONAL PERIOD

SEPTEMBER 12, 2019 DAY 0600-1800 HOURS

INC		11VES (ICS 202)	
1. Incident Name:	2. Operational Perio		
WALKER	Date/Time From	n:	Date/Time To:
	09/12/2019 060	00 THU	09/12/2019 1800 THU
3. Objective(s):			
Management Objectives 1. Ensure firefighter and public safety by using strategies ar	d tactics that mitigate	known and anticipated haz	ards while providing for the highest probability o
success. 2. Provide accurate and timely fire information through interest. 3. Maintain and enhance relationships with the represented. 4. Protect and understand the cultural values and natural rest. 5. Provide Initial Attack Support within the TFR. 6. Identify, assess and implement suppression repair needs.	agencies, stakeholder sources in the fire area	s, local land owners and the at risk to create risk-based	f decisions.
Control Objectives In order to minimize the threat to private inholdings, the com 395, hydropower facilities and community watershed keep th		and communities along Hig	hway 395 between Milford and Janesville, High
East of Hosselkus Creek			
North of Davis Lake			
West of Highway 177			
South of Antelope Lake			
4. Operational Period Command Emphasis:			
Due Diligence			
General Situational Awareness:			
 Know your people and look out for their well being. 			
5. Site Safety Plan Required? Yes No X Approved Site Safety Plan(s) Located at:	•		
6. Incident Action Plan (the items checked below are in	cluded in this Incident	Action Plan):

INCIDENT Weather Forecast

FORECAST NO:

10

NAME OF FIRE: Walker Fire

PREDICTION FOR:

Thursday Day SHIFT

UNIT: Plumas NF

SHIFT DATE: Sept 12, 2019

SIGNED:

Mike Smith Mike Smith

TIME AND DATE

FORECAST ISSUED:

2100 Sept 11, 2019

Incident Meteorologist

...Fire Weather Watch Sunday Afternoon through Monday morning for strong wind and Low RH...

<u>WEATHER DISCUSSION:</u> Continued warming and drying today as high pressure moves over the state. The drier conditions should keep morning fog to a minimum and bring a significant drop in overnight humidity recovery. RH values are likely to drop back into the teens this afternoon. Winds will start out southeast today then shift to southwest after about noon as the high pressure ridge shifts inland. Winds should not be too strong today and mostly terrain dominated down on the slopes. Friday and Saturday will see more drying with daytime humidity dropping into the lower to mid teens some areas. Winds should remain relatively light however before a significant increase in wind develops on Sunday. Dry windy conditions will make Sunday a critical fire weather day with precipitation expected on Monday as a cold front moves through.

WEATHER FORECAST:

WEATHER: Mostly sunny with areas of smoke in the valleys.

TEMPERATURES: Highs 75 to 81.

HUMIDITY: Minimum RH 17 to 22%.

20 FT WINDS:

RIDGETOP - Southeast to south 3-8 mph in the morning becoming southwest in the afternoon with occasional late afternoon gusts to 15-20 mph.

SLOPE/VALLEY - Downslope 1-5 mph in the morning becoming upslope mainly southwest to northwest 4-8 mph gusts to 12 mph in the afternoon.

HAINES INDEX: 3

STABILITY/INVERSION: Inversions breaking around noon to moderately stable conditions.

Ourlook for Thursday night: Fair Skies. Minimum temperatures upper 30s to upper 40s. Maximum RH recovery 50 to 60%. Winds dropping off after about 2000 to light and variable on the ridges and light downslope to 4 mph on the slopes.

Extended forecast for Friday: Fair Skies. Highs 78 to 84. Min RH 14-20%. Ridge winds becoming southwest 6-12 gusts to 20-25 mph. Slope winds mainly southwest to northwest 4-8 gust to 14 mph.

Extended forecast for Saturday; Fair Skies. Highs 78 to 84. Min RH 12-18%. Ridge winds becoming southwest 7-13 mph with afternoon gusts 20-25 mph. Slope winds mainly southwest to northwest 4-8 gusts to 15 mph.

Sunrise Thursday: 6:40

Sunset Thursday: 7:18

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 08 TYPE OF FIRE: Wildfire FIRE NAME: Walker OPERATIONAL PERIOD: September 12, 2019, Day

DATE ISSUED: September 11, 2019 TIME ISSUED: 2000

SIGNED: Diondray Wiley FBAN (T) Rep Seott FBAN UNIT: Plumas NF

INPUTS

WEATHER SUMMARY

See Fire Weather Forecast for Discussion

Weather:

Mostly sunny with areas of smoke in the valleys.

Day Temps:

75-81 degrees

Day RH:

60-70%.

20 FOOT WINDS: Ridges: Southeast 3-8 mph in morning becoming Southwest in the afternoon with late afternoon gust

to 15-20 mph

Slope/valley: Downslope 1-5mph in the morning becoming upslope mainly southwest to northwest 4-8

mph guest to 12mph in the afternoon.

FIRE BEHAVIOR

INPUTS:

Fuels: Will continue the dry with light winds and increased solar radiation.

Topography: Inversion in valley locations may hamper firing operations before noon.

FIRE BEHAVIOR: Expect an increase in surface spread. Drier conditions will affect 10 hour fuels increasing their ability to carry fire. Exposed locations on the east flank will see the greatest intensities with isolated torching and small slope runs possible with burn operations. When the inversion lifts, fire behavior may increase in receptive fuel beds.

Day:

DIV A/C/E: Be aware of the forecasted SE-S winds in the late morning hours. Potential for small slope runs and moderate fire behavior in receptive fuel beds. Snag fall remains a hazard in previously burned area. Interior pockets in timber fuels could support surface runs late into the morning when aligned with forecast winds. Expect fire behavior in the Antelope Dip area to increase once the inversions lifts. Direct suppression tactics should be successful.

DIV F/G: Small scale firing operations should be effective in the late morning and afternoon as the light forecasted winds will be in your favor.

DIV I/K: Light winds and fuel moistures should support small scale firing operations. Moderate fire activity will continue to increase throughout the shift in the Clover Dip, Railroad Dip and Beaver Dip area.

DIV M/Q/V/X: Fuel type change to Pinyon-juniper could create control issues as conditions trend toward drier and windier. Winds will become less favorable in the afternoon as they transition to SW with gust to 15-20 mph.

AIR OPERATIONS

The inversion is predicted to lift by noon, plan accordingly.

SAFETY

^{***}Build safety into your plan by reviewing the rules of engagement i.e. Standard Firefighting Orders, Watch Outs, Briefing Checklist***

Walker – Safety Message

INCIDENT: # CA-PNF-001324

DATE: 09-12-2019

TIME: 0600 – 1800 Day

Accountability

- Know where your crewmembers are at all times.
- Have crewmembers work in pears.
- Do you have the buddy system set in place on the fireline.
- Inform Division or your Supervisor of changing locations.
- Do you know how to use your radio and is it cloned?
- Check IN with the Division Supervisor on site if not assigned there
- Check OUT with your supervisor (Or Division) at the end of shift.

Firing Operations

Have a firing operations plan in place. Brief all resources in firing operations, have firing teams and holding resources identified.

- Post adequate Lookouts.
- · Have a good starting and ending point for firing.
- Hazards: Drip Torch Fuel, Firing Devices and Projectiles.
- Wear and use all PPE.
- Know what your fire is doing at all times.

Driving

- When driving keep speed at or below the posted speed limit and your headlights on.
- Stay as far to the right of the road as is safely possible.
- During shift change keep your speed at or below the posted speed limit.
- Schools back in session, watch for school busses and children at bus stops.
- Always fasten your seat belt before the vehicle is set into motion.
- Don't tail gate.
- Slow down, slow down, slow down.

There are three main types of distracted driving: Visual-taking your eyes off the road; Manual-taking your hands off the wheel; Cognitive-taking your mind away from the task at hand. Don't drive distracted!

Team #4 Safety Group

Hazard Trees

Situational Awareness: Survey your work area for hazard trees (green or black) early in the shift. The longer an area has been burned, increases probability for undermined trees.

Flag, Avoid and Notify: Flag any identified hazard trees and notify your supervisor and any potentially impacted fire personnel.

Be alert for changing conditions: High winds associated with thunderstorms increases the hazard. Avoid working under burned trees if winds increase appreciably.

Make a plan: Make your plan to reposition to a more secure area if wind conditions dictate PRIOR to the need arising. Don't wait until the last minute to execute the plan.

INCIDENT RISK ANALYSIS (ICS 215a) **Day Shift HAZARDOUS ACTIONS / CONDITIONS** BR/ DIV **MITIGATIONS / WARNINGS / REMEDIES** Use caution while driving on all incident roads. Non fire personnel speeds in the area are often faster than we normally drive Dirt roads may be slippery when wet. Watch out for possible stream debris from the rain ALL DRIVING Watch out for wildlife on all roads, especially during the dawn and dusk hours Drive defensively! Expect the unexpected around every curve Drive with headlights on; use chock blocks, keep windshields clean; use backers Watch for other vehicles, debris, and wildlife on the roads Use caution on area roads. The roads are very narrow with steep drop-offs Share your Situational Awareness (hazards, changes, etc.) to those who also have a need Radio Communications may be poor in some areas: use human repeaters as needed **ALL** COMMUNICATIONS Ensure all personnel are familiar with the incident and IA communications plans Make sure all resources have radios cloned appropriately Ensure that non-agency resources understand radio use and procedures Refer to Hazard Tree Safety Guidelines (IRPG p.22-23) Limit number of personnel around snags and their exposure time; fallers must be **ALL** HAZARD / DANGER TREES qualified for the trees being felled Be especially alert around snags during wind events. Large green trees can also be dangerous Conduct thorough briefing for all personnel involved (inside rear cover IRPG). Ensure LCES in place prior to engagement (IRPG p. 6) Establish adequate safety zones (IRPG p.7) and escape routes ALL LINE CONSTRUCTION Use Downhill Line Checklist (IRPG p. 8) Use "Look Up, Look Down, Look Around" procedures (IRPG p. 2-3) Utilize Risk Management Process (IRPG p.1) NEVER work below heavy equipment Ensure communications are established with operators **HEAVY EQUIPMENT ALL** Ensure ground personnel have safety illumination, with light-sticks being the minimum **OPERATIONS** Maintain a 50'-100' exclusion area around equipment In timber increase safety distance to 2 1/2 times canopy height Avoid working below crews and equipment STEEP TERRAIN Concentrate on your footing placement; take your time Ensure adequate spacing between crewmembers so they can react to dislodged debris ALL Post lookouts to warn of rolling debris. SHOUT out to warn others ROLLING MATERIAL Look Up, Down and Around Are you seeing what we have predicted? Conduct thorough assessments before starting work ALL FIRE BEHAVIOR Ensure LCES is in place Plan & Communicate your exit strategy with your crew and adjacent resources provide additional briefing for new resources and maintain communications Only personnel trained in the use of each device will be authorized to use firing equipment Ensure all personnel are aware of firing operation that may affect them. Wear appropriate PPE FIRING OPERATIONS ALL Ensure aerial/ground ignition plans have been adequately developed and personnel are briefed Use risk analysis to determine if any given flight is necessary Keep personnel out of drop zones Use air-to-ground freq. to communicate with aircraft ALL AIRCRAFT OPERATIONS Use concise statements & clock directions when directing aircraft Maintain good separation between ground forces & aerial ignition Avoid "heli-mopping". Eliminate unnecessary pilot exposure See the Medical Unit at the onset of signs/symptoms Take vitamins, drink lots of water and juice **ALL CAMP CRUD** Eat balanced meals Get as much rest as possible Use hand sanitizers, and take precautions when using "common use" areas Maintain situational awareness Watch for open areas and signs for improvements or irrigation systems Be aware of evidence that cultivation has occurred in the area **ALL** MARIJUANA GROW SITES If you stumble upon an area of probable cultivation, be cautious and exit the same way you came in and notify your supervisor Don't touch anything that looks out of the ordinary Be aware of any number and quantity of insecticides, rodentacides, and pesticides INCIDENT NAME: Operational Period: 0600-1800 Walker Fire **September 12, 2019**

Medical Incident Report

FOR A **NON-EMERGENCY INCIDENT**: WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A <u>MEDICAL EMERGENCY</u>: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM COMMUNICATIONS

Use the following items to communicate situation to communications/dispatch.

1. CONTACT CO開始UNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree.

Requesting air ambulance to Forest Road 1 at (Lat./Long.)

"This will be the Trout Meadow Medical Incident, IC is TFLD Jones. EMT Smith is providing medical care."

	IMMEDIATE	Life or limb threatening ity breathing, bleeding severely, 2°

TOPY WEST OF THE STATE OF THE S

All assigned trainees

Register with the Training Specialist in order to receive proper credit for your assignment.

When released from the incident, check out with the Training Specialist; bring your completed taskbook and performance rating sheet.

Trainers / Mentors:

If you are leaving the incident before your assigned trainee or your trainee is reassigned:

You <u>must</u> complete a Performance Evaluation, ICS-Form 225 for the period the trainee was assigned to you.

We have 225's available in our office on Trailer Row.

Walker Fire Training Specialist

Human Resource Message Walker Fire Thursday, September 12, 2019

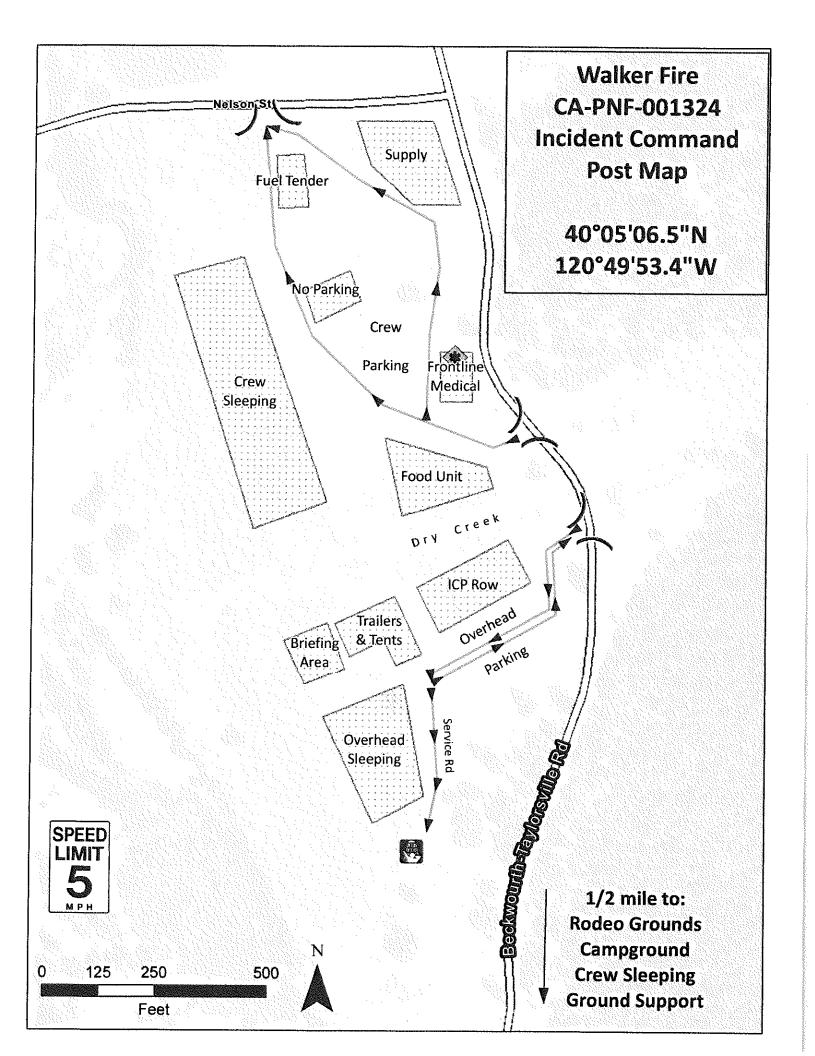

HUMAN RESOURCE MESSAGE

My name is Ryan Voelkl. I am the Human Resource Specialist assigned to the incident. As the Human Resource Specialist, I am available to incident personnel to provide work environment information and assist with conflict resolution if needed. If I can be of assistance to you, please let me know. I'm in the trailer next to Fire Information.

As a reminder, we have a zero tolerance for illegal (including marijuana) drugs, alcohol, sexual harassment, and any other type of behavior that negatively impacts the work environment. We expect all incident personnel to treat each other with dignity and respect, and to work as a team to support a positive work environment.

Hours are 0530 to 2230 Ryan Voelki - (HRSP) - (530) 457-7276
