# FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 11	TYPE OF FIRE: Wildfire
FIRE NAME: Walker	OPERATIONAL PERIOD: September 13, 2019, Night

## INPUTS

### WEATHER SUMMARY

\*\*See Fire Weather Forecast\*\*

**Weather:** Fair skies with smoke developing over the fire.  
**Night Temps:** Cool in the canyon bottoms. 38-50 at mid slope and ridgetops  
**Night RH:** Maximum recovery 50-60%, higher below 4500'  
**20 FOOT WINDS:** **Ridges:** SW 6-12mph gust to 15mph until 2000 becoming S-SW 5mph.  
**Slope/valley:** Upslope SW-NW 3-8mph gust to 14 until 2000 expect downslope up to 5 mph

## FIRE BEHAVIOR

### INPUTS:

- **Fuels:** Warm dry days and low overnight recoveries will continue to reduce FM in all fuels, live and dead.
- **Topography:** Potential for slope runs exist where wind and topography align.

**FIRE BEHAVIOR:** There is potential for active fire behavior this evening due to drying conditions coupled with low humidity recovery. 10hr FM continue to hover in the single digits. Divisions A/G/I/K have the greatest potential for isolated torching, small slope runs and slope reversal where open lines exist.

**DIV A/Q/V/X:** Expect moderate fire behavior with slope runs and slope reversal. Watch for alignment of wind and slope. Direct suppression tactics should be successful.

**DIV C/E:** Crews should be able to meet the objectives of direct line construction. The potential for slope runs and flanking does exist.

**DIV F/G:** Favorable winds and weather conditions will aid in proposed firing operations.

**DIV I/K/M:** Be aware of topography and wind alignment. Expect an increase in fire behavior and activity. The fire has proven to burn actively at night and in the early morning hours.

# Walker Fire – Safety Message

INCIDENT #CA-PNF-001324

DATE: 09-13/14/2019 TIME: 1800-0600 Nite

## Foot Travel in Steep Terrain

- When walking through steep and rocky terrain, watch footing and maintain proper spacing.
- Identify safe routes and local conditions.
- Test and use secure footing.
- Watch for over-head hazards, carry tools on downhill side, and wear gloves.
- Treat “hot spots” on feet before they become blisters.

## Fatigue/Smoke Effects

- Be alert for signs of fatigue and take breaks as necessary.
- Maintain 2:1 work/rest ratio.
- Monitor incoming resources for level of fatigue.
- Allow for extended rest periods if needed.
- Avoid working in heavy inversions for prolonged periods if possible. Take occasional breaks in clear air to mitigate build up of CO, and CO2.
- ***“Over hydrate” to assist in flushing smoke particulates from your system.***

## Other Concerns:

- Hazard Trees- Dead trees, snags, leaning trees, burned trees (especially with a burned root system), burned “cat faces”, trees with dead “spike tops”, and large green trees.
- Driving- Unexpected local traffic, deer and bears, cattle, speed on rough roads, narrow roads, steep drop offs, soft shoulders, dust, blind corners.
- Hydration- Hydrate frequently. Avoid energy drinks. Dilute sports drinks. Preplan for drinking water needs.
- Backing- Use a backer, and/or perform a “walk around”.
- Camp Crud- Drink lots of water and fruit drinks, eat a balanced diet, get adequate sleep, use hand sanitizers, and avoid common surfaces.
- Fire Behavior- Follow the 10, mitigate the 18, ensure LCES is in place, constant situational awareness. Maintain accountability at all times.

## Maintain Situational Awareness of the big picture!

4. UNFAMILIAR WITH WEATHER AND LOCAL FACTORS INFLUENCING FIRE BEHAVIOR

The Team 4 Safety Group

BR/ DIV	HAZARDOUS ACTIONS / CONDITIONS	MITIGATIONS / WARNINGS / REMEDIES
ALL	DRIVING	<ul style="list-style-type: none"> <li>• Use caution while driving on all incident roads. Non fire personnel speeds in the area are often faster than we normally drive</li> <li>• Dirt roads may be slippery when wet. Watch out for possible stream debris from the rain</li> <li>• Watch out for wildlife on all roads, especially during the dawn and dusk hours</li> <li>• Drive defensively! Expect the unexpected around every curve</li> <li>• Drive with headlights on; use chock blocks, keep windshields clean; use backers</li> <li>• Watch for other vehicles, debris, and wildlife on the roads</li> <li>• Use caution on area roads. The roads are very narrow with steep drop-offs</li> </ul>
ALL	COMMUNICATIONS	<ul style="list-style-type: none"> <li>• Share your Situational Awareness (hazards, changes, etc.) to those who also have a need</li> <li>• Radio Communications may be poor in some areas: use human repeaters as needed</li> <li>• Ensure all personnel are familiar with the incident and IA communications plans</li> <li>• Make sure all resources have radios cloned appropriately</li> <li>• Ensure that non-agency resources understand radio use and procedures</li> </ul>

## Incident Behavior

It is extremely important that inappropriate behavior be recognized and dealt with promptly. If inappropriate behavior is allowed to continue, not only would it adversely impact the affected individual, as a witness, you could be held accountable for your inaction.

Inappropriate behavior is considered any form of conduct that negatively impacts the work environment for the affected individual or those who witness the conduct or that violates any Forest Service rule or regulation. Any form of harassment and/or bullying or use of any language that could violate a Civil Rights policy, will not be tolerated and must be reported to your supervisor and the Human Resources Specialist (HRSP).

When you observe or hear of any inappropriate behavior, you should:

- Immediately direct the alleged offender to stop their behavior and counsel them.
- Provide support to anyone who was negatively impacted by the inappropriate behavior.
- If the behavior is minor in nature, such as being rude or discourteous, advise them if the behavior continues, you will need to report the misconduct to your supervisor or Human Resources.
- If the behavior could be interpreted as bullying and/or harassment, immediately contact your supervisor and the HRSP.
  - Document the inappropriate behavior with facts.

Ryan Voelkl – HRSP: 530-457-7276

## **CALIFORNIA INTERAGENCY INCIDENT MANAGEMENT TEAM 4 EXPECTATIONS**

### **CONDUCT AND BEHAVIOR**

This team is committed to “ZERO TOLERANCE” of careless, illegal, inappropriate and unsafe actions.

**Alcohol and/or illegal drugs** are **NOT allowed** within the incident environment or while actively assigned to the incident. Local Law Enforcement Officials will be called to deal with any suspected illegal activities. Each employee has the responsibility to be ready, willing, and able to perform the duties for which they are qualified.

#### **Sexual Harassment**

Inappropriate actions or comments will not be tolerated. Everyone is expected to act in a professional manner. It is your responsibility to stop inappropriate actions or comments immediately upon becoming aware of such. Sexual Harassment must be reported to the Human Resource Specialist or Incident Commander. When outside of your designated sleeping area, you are required to wear at least a shirt, appropriate shorts, and shoes or sandals. If you need clarification of these expectations contact the Human Resource Specialist or IC. What we PERMIT we PROMOTE!!!!

### **SAFETY**

The commitment to and accountability for safety is a joint responsibility of firefighters, managers and administrators. Individuals must personally be committed and responsible for their own performance and accountability. Everyone assigned to this incident can expect an assignment that follows all safety rules & regulations. Every person is expected to perform his or her duties in compliance with all known safety practices at all times. Anything less is unacceptable.

### **EMPHASIS AREAS**

#### **Training**

All trainees and trainers are expected to follow the procedures outlined in the California Interagency Incident Management Team 4 **Training Expectations** – See back page.

#### **Evaluations**

All supervisory personnel assigned will complete an ICS 225 Incident Personnel Performance Rating form for their assigned resources according to agency policy or contractual agreement.

#### **Injuries/Claims**

Ensure all injuries and potential claims are reported to the Comp/Claims Unit for completion of appropriate paperwork. Contract claims will be reported to the Procurement Unit Leader.

## **Work Rest Cycles**

The 2: 1 work/rest ratio is mandatory. For every two hours on shift you will be required to rest for one hour. Every effort shall be used to limit work hours to a maximum of 16. If circumstances require you to exceed 16 hours, this needs to be coordinated in advance with your supervisor and the Justification/Mitigation form completed to support the excessive hours prior to submitting for approval by the IC. It is your responsibility to comply with this direction and provide the appropriate documentation to your Supervisor and Finance.

## **Position Qualifications**

Personnel shall only be assigned to positions for which they are qualified. Proof of qualifications shall be approved prior to being assigned to any fire line position. Non-fireline positions may be filled based on the word of the employee pending home unit confirmation, which must be requested immediately. Contract dozer operators, tactical water tender operators and contract fallers must provide proof that they have received the annual fire refresher training.

## **Engagement/Disengagement**

The 10 Standard Orders & 18 Watchout Situations will be followed at all times and mitigated as needed. Staying aware of your situation is critical. This includes Geographic Area and incident briefings. Follow the Risk Management Process outlined in the Incident Response Pocket Guide.

## **Debriefing**

All Branch Directors/Division/Group Supervisors will report to their Supervisor and Situation Unit at the end of the operational period for debriefing with emphasis on the accomplishment of objectives. All unit logs (ICS 214) will be turned in after the debriefing to Documentation reflecting accomplishment and/or special incidents that occurred during the operational period.

## **Crew Time Reports/Shift Tickets**

It is your responsibility to ensure all time is properly accounted for and recorded each shift. The records are to be reviewed and signed by the next level supervisor. A finance "Rules of Engagement" document will be provided in the IAP explaining further requirements.

## **Social Media**

It is your responsibility to know and understand guidelines for firefighter photography, video and social media use. California Interagency Incident Management Team 4 goal is simple: to participate online in a respectful, relevant way that protects our incident's professional reputation, does not confuse the public about the incident and follows the letter and spirit of the law. Be mindful that social media postings can be viewed as unprofessional, damage careers and lead to disciplinary actions. For further information, contact the Public Information Officer.
