SAFETY GRAM

Caution: A situation that shouts Watch-Out

REMINDER – Due to the steep, narrow, slick ICY, winding roads that occur within and traveling to the fire area and the numbers and kinds of vehicles and equipment using them, a high potential exists for accidents and injuries. Supervisors - YOU need to brief all individuals about the hazards that are involved and review the following: STANDARD OPERATING PROCEDURES.

Driving S.O.P.

Identify roads where a high probability of falling
or rolling debris exists.

Close roads where this hazard can't be mitigated

Drive defensively.

Drive with headlights on at all times.

Use flashers and or emergency lights when parked
Or working along the road.

Use chock block when parked on a slope; use spotter when backing.

Use escort or pilot vehicles when moving heavy equipment.

Move equipment during the middle of the shift, not at shift change

Drive at a safe speeds not necessarily the posted limit

Never exceed the speed limit. Stay on your side of the road.

Vehicles pulling trailers or slow vehicles should use pull-outs.

Drivers should avoid the urge to pass.
