Happy Camp Lightning 2014

Incident Action Plan

August 12, 2014

**Operational Period
0700-2000**

"Know your Escape Routes"

Klamath National Forest

INCIDENT OBJECTIVES	1. Incident Name	2. Date	3. Time
	Happy Camp Lightning 2014	8/12/2014	0300
4. Operational Period 08/12/14 – 0700-2000			
5. General Control Objectives for the Incident (include alternatives)			
<u>Management Objectives</u>			
<ul style="list-style-type: none"> • Fight fire with emphasis on firefighter and public safety. • Minimize suppression caused damage to natural and cultural resources. • Keep costs commensurate with values at risk. • Provide training opportunities for area personnel in order to strengthen organizational capabilities. • Manage all incidents in accordance with the Klamath National Forest Fire Management Plan. 			
<u>Control Objectives</u>			
<ul style="list-style-type: none"> • Protect private property. • Strive to keep fires small.

Happy Camp Fire Weather Forecast

FORECAST NO: 1

PREDICTION FOR: Dayshift

SHIFT DATE: Tuesday, 8/12/14

TIME AND DATE ISSUED: 8/11/14, 2000 PDT

INCIDENT: Happy Camp Fires

UNIT: Oak Knoll RD Klamath NF

SIGNED:

Dan Borsum, Incident Meteorologist (IMET)

Discussion: **Red Flag Warning Continues for Isolated Thunderstorms. Winds will be stronger today!** Expect no inversion in the morning after a poor humidity recovery. The weather pattern is shifting but the airmass is staying unstable and the thunderstorm threat remains. **Expect ridgetop winds to be sustained at 15 mph with gusts to 25 mph from the west.** These winds are much stronger than have been seen across the region in a week. **Watch out for funneling of winds up canyons.** Scattered showers and an isolated thunderstorm is possible Tuesday night but a wetting rain is not expected. Humidity recovery will be better Tuesday night.

Red Flag Warning Until 11 pm Due to Lightning Threat and Dry Fuels

WEATHER FORECAST for Tuesday, 8/12/2014:

SKY/WEATHER: Partly cloudy with isolated thunderstorms.

MAX TEMP : 75-80F.

MIN RH: 19-23%.

WINDS: * GUSTY & ERRATIC OUTFLOW WINDS IN AND NEAR THUNDERSTORMS *****

20 foot winds: Upslope/upvalley 9 to 14 mph. Gusts to 20 mph in the afternoon.

Ridgetop winds: West 15 mph gusting to 25 mph by afternoon.

HAINES INDEX: 4 (Low).

MIXING HEIGHT: No inversion in the morning increasing to 10,000ft AGL in the afternoon.

LAL: 2

CWR: 10%.

WEATHER FORECAST for Tuesday Night, 8/12/2014:

SKY/WEATHER: Partly cloudy with scattered showers and isolated evening thunderstorms.

MIN TEMP : 50-55F.

MAX RH: 60-65%.

WINDS: * GUSTY & ERRATIC OUTFLOW WINDS IN AND NEAR THUNDERSTORMS *****

20 foot winds: West 8-12 mph in the evening becoming light..

Ridgetop winds: West 15 mph.

HAINES INDEX: 3 (Very Low).

MIXING HEIGHT: Decreasing to 2,000ft AGL by midnight.

LAL: 2 in the evening, 1 after midnight.

CWR: 10%.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 1	TYPE OF FIRE: Wildland Fire IA
FIRE NAME: Happy Camp	OPERATIONAL PERIOD: 8/12/14
DATE ISSUED: 8/10/14	TIME ISSUED: 2200
UNIT: Klamath NF	SIGNED: _____ Typed/printed: _____

WEATHER:

*****Red Flag Warning for Abundant Lightning and Dry Fuels***
Wind Gusts Up 25mph Expected Today**

Thresholds for large fire growth:

Temps greater than 80°, RH's less than 25%, Eye level winds greater than 8mph

FUELS:

Conifers with grass and brush in the understory are the dominate fuels in this area. Fuels are very dry, having seen a persistent drought for the last three years and minimal snowpack this past winter. Current ERC-G values are above the 90th percentile. 1000-hour and 100-hours fuel moistures are at 6% and 7% respectively. Composites live fuel moistures across the district are running near historic lows. Fire behavior usually increases around 1000 and lasts until 2100.

****Do Not Underestimate the Fire Potential!****

Energy Release Component and Burning Index		
	ERC-G	Burning Index
West Zone	78 (NC)	81 (up 3)
East Zone	72 (NC)	76 (Up 13)

FIRE BEHAVIOR:

With the predicted weather, Today should be an active fire day. Expect rates of spread (Head fire, 0% - 40% slope) to be 10 – 13 chains per hour with 8 – 9 foot flame lengths in the timber shrub fuel types and 6 – 9 chains per hour with 3 – 4 foot flame lengths in the timber litter fuel types. Remember, predicted wind gusts to 25 mph will increase rates of spread and flame lengths substantially. Where there is a ladder fuel component, expect fires to exhibit single tree and or group tree torching. Fires on slope have the potential for rapid uphill crown fire runs. Try to utilize areas for suppression where fuels are light and/or patchy. This is where fire intensity will be at its lowest. Predicted flame lengths may make it difficult for direct attack on the flanks for hand crews in the timber brush fuel type. Spotting may be a problem today as the spot fire potential is up to ½ mile with a probability of ignition of 75%.

AIR OPERATIONS:

Gusty winds up to 25 mph may hamper air operations.

SAFETY:

*****Fire order # 2 – Know what your fire is doing at all times***
Use scouts, Have good lookouts, Stay in communication
This is the basic order on which all fire orders fall back to.**

HEALTH AND SAFETY MESSAGE

INCIDENT: Happy Camp Lightning

DATE: August 12, 2014

Hazardous Conditions

- ***Mop UP**- Look up, look around and maintain your situational awareness.
- * **DRIVING** - **SLOW DOWN** especially when traveling through town. Maintain daily vehicle inspections.
- * **COMPLACENCY**-Don't let your guard down
- * **FIRE BEHAVIOR**- Unburned pockets of fuel still exist, **Keep one foot in the black while going direct! Watch for spots**
- * **WEATHER**- **Be on the lookout for thunderstorms and lightning activity. See page 21 IRPG!**
- * **COMMUNICATION** - Confirm positive communication with local dispatch
- * **RISK MANAGEMENT** - maintain situational awareness, Remember LCES it works every time!

Mop Up

Always wear your PPE while doing mop up. Make sure of your footing before stepping forward (stump holes). When checking for hot spots use the back of your hand never use the front of your hand. Watch for hazard trees and flag them and pass the info to others working in the immediate area.

***DRIVING**

- Seat Belts are not optional, drive with lights ON
- Expect the unexpected, especially on the switchbacks, watch for other vehicles and animals, etc.
- Watch out for the public: they are **NOT** watching out for you! Be aware when turning on to HWY 96
- **UTILIZE BACKERS AT ALL TIMES**

***COMPLACENCY**

- **We have a bit of a lull in fire activity, stay alert!**
- **Maintain a positive attitude**
- **MAINTAIN LCES AT ALL TIMES**

***FIRE BEHAVIOR/WEATHER**

- **Monitor Fire Behavior and wind shifts throughout shift**
- **Know your safety area during thunderstorms. Winds will affect fire weakened trees!**

***COMMUNICATION**

- **Maintain Positive Communications at all times, Ensure frequencies and repeaters are correct and working.**

***RISK MANAGEMENT**

- **Have you evaluated the hazards that are around? Have you thought about the consequences if something goes wrong? Is the risk you and your personnel are taking - worth the benefit? Have you briefed and discussed personnel on Risk Management? Have you reviewed the Medical Plan in case of a what if?**

Watch Out and Take Care of Each Other

/s/ Safety Officer: Chuck Frank

Happy Camp KNF Lightning Incident Risk Analysis (215a)

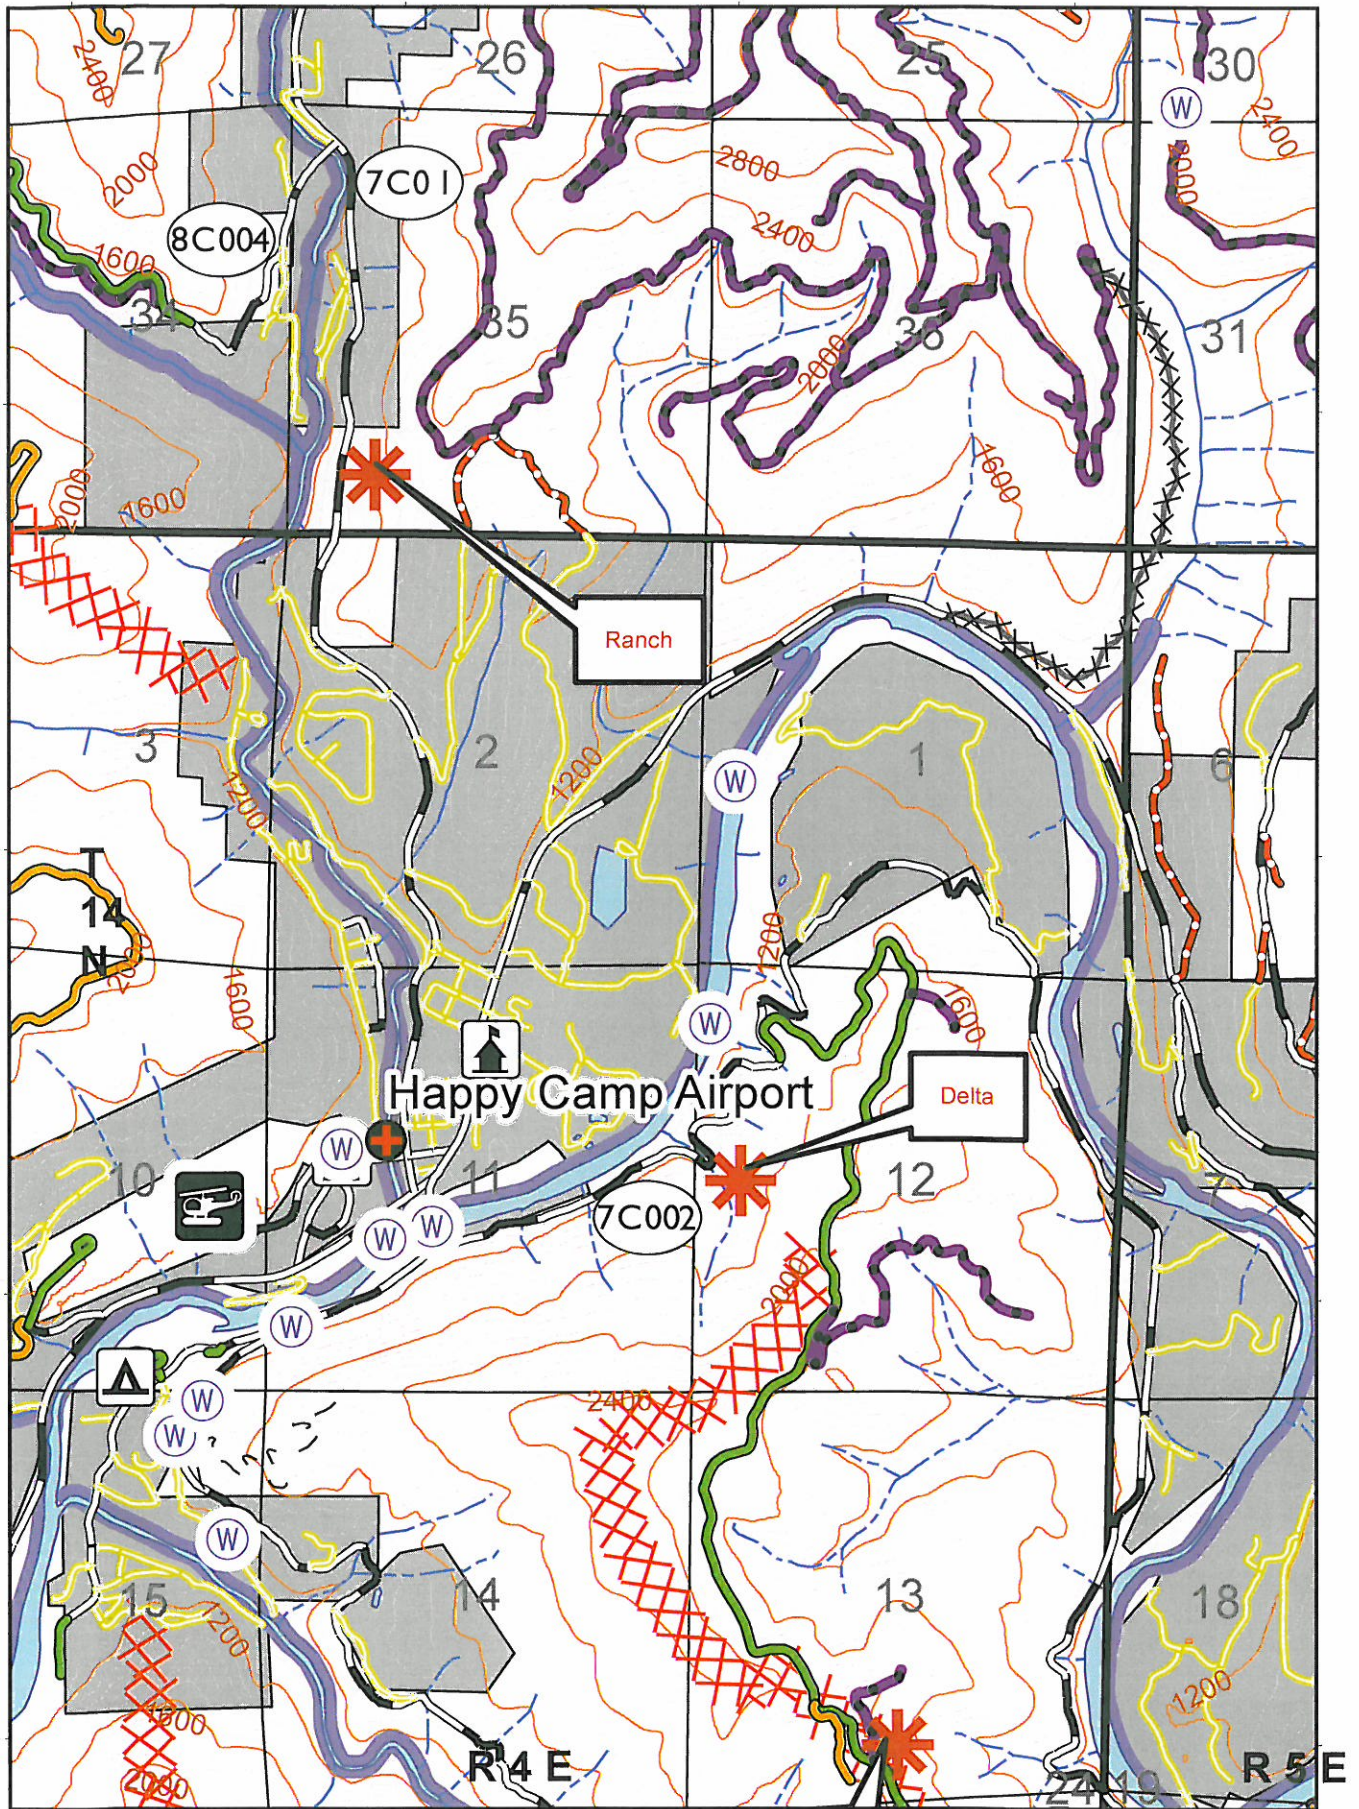

Div/IC's	LCES Analysis of Tactical Applications (Hazardous Actions or Conditions)	LCES Mitigations/Warnings/Remedies
All	Communications	Adhere to Communication Plan. Use human repeaters where appropriate.
All	Escape Routes to Safety Zones	Identify Trigger Points with your Crews and Operations/Division Sups and make them known!
All	Steep terrain and Rolling material	Debris Rollout onto Roads/Highways. Look Up, Look Down, Look Around. Watch for rollouts igniting fuels below. Keep eyes in the green. Post lookouts. Have escape routes <u>and make them known.</u>
All	Hazard trees	Mitigate using qualified fallers. Limit Exposure
All	Off Highway Driving	Use Caution. Headlights ON.....Seatbelts ON..... Drive slow & Maintain good sight distance. Roads have soft shoulders and are very dusty.
All	Cliffs	Use extreme caution. Give yourself room for recovery. Ensure your footing. Stay away if possible. Choose alternate routes.
All	Difficult terrain and conditions for providing for emergency medical needs.	Review Med Plan before the need arises. Limit high risk activities.
All	Insect Bites and Stings/Poison Oak	Be aware of your surrounding's.
All	Klamath River	Swift, cold, and dangerous. This river has claimed lives in the past. Swimming will not be tolerated.
ALL	WEATHER	Hotter and Drier
ALL	2:1 Work Rest	Manage Fatigue for yourself and your crew.
ALL	AIRCRAFT	Know your surroundings and good communication.
