## Safety Message

All of Happy Camp and surrounding communities have wildfires; thus the **Air Quality is POOR throughout the County**. If you are seeing or smelling smoke in the air, please be cautious and please use common sense to protect you and your family's health.

Everyone, especially people with heart or lung disease (including Asthma) and older adults, children, should all limit their time spent outdoors and avoid outdoor exercise; when smoke is in the area.

Exposure to smoke along with air particles, including repeated coughing, shortness of breath or difficulty breathing, wheezing, tightness in your chest or pain, palpitations, nausea, unusual fatigue or feeling lightheaded, **contact your Health Care Provider**.

**Dr, Stephen Perlman**, Siskiyou County Health Officer, **URGES** all Siskiyou County residents to take the following precautions to avoid breathing problems or other symptoms due to exposure to smoke:

- Be aware of the Smoke concentrations in your home area.
- Avoid SMOKE by staying indoors, closing all windows and doors using a filter in heating/cooling system that removes very fine particulate matter.
- IF at all possible; Avoid Smoky Areas.
- Avoid strenuous outdoor activity including Sports Practice, Work and Recreation.

Remember ; local smoke levels can rise and fall rapidly, depending on weather factors including wind direction. People can conduct a visual assessment of smoke levels to quickly get a sense of air quality levels and take precautions.

Visit the California Smoke Blog ([www.californiasmokeinfo.blogspot.com](http://www.californiasmokeinfo.blogspot.com)) for more information regarding smoke and air quality.
