Happy Camp Complex Weather Forecast

FORECAST NO: 6N

PREDICTION FOR:

SHIFT DATE:

Tuesday Night Shift August 19/20, 2014

FORECAST ISSUED: 1400 August 19, 2014

NAME OF FIRE: Happy Camp Complex

UNIT: KNF / SoCal 3

Incident Meteorologist: Jeff Tonkin

WEATHER DISCUSSION: Weather pattern shifting to a more dry and stable regime with no shower or thunderstorm activity expected for the next several days. Mainly north and northwest flow will promote drier relative humidity along mid slopes and ridges while wind remains mainly terrain driven. With the more stable airmass smoke will continue to plague the area with only light mixing and clearing expected during the late afternoon period.

WEATHER FORECAST TONIGHT (TUESDAY NIGHT/ EARLY WED MORNING SHIFT):

WEATHER: Mostly clear in the evening... with smoke settling through the early morning hours.

MIN TEMPERATURES: Valleys (1,200 ft) 54 – 57 F, Ridges (4,000 ft) 58 – 63 F MAX HUMIDITY: Valleys (1,200 ft) 80 – 90%, Ridges (4,000 ft) 70 – 80% WINDS (EYE LEVEL): Valleys – down slope / down valley 0 – 3 mph

Ridges - NE 2 - 4 mph

LAL: 1 CWR: 0% HAINES: 3

STABILITY / INVERSION: Stable. Inversions over-night lasting through late afternoon.

SMOKE TRANSPORT: NW 8 mph

WEATHER FORECAST FOR WEDNESDAY:

WEATHER: Mostly clear, smoky.

MAX TEMPERATURES: Valleys (1,200 ft) 88 – 92 F, Ridges (4,000 ft) 80 – 85 F **MIN HUMIDITY:** Valleys (1,200 ft) 26 – 30%F, Ridges (4,000 ft) 33 – 36% **WINDS (EYE LEVEL):** Valleys – up slope / up valley 3 – 6 mph gusts 8 – 10 mph

Ridges - NW 3 - 6 mph...Gusts 8 - 12 mph during the afternoon.

LAL: 1 CWR: 0% HAINES: 2

STABILITY / INVERSION: Inversion may break around 1600.

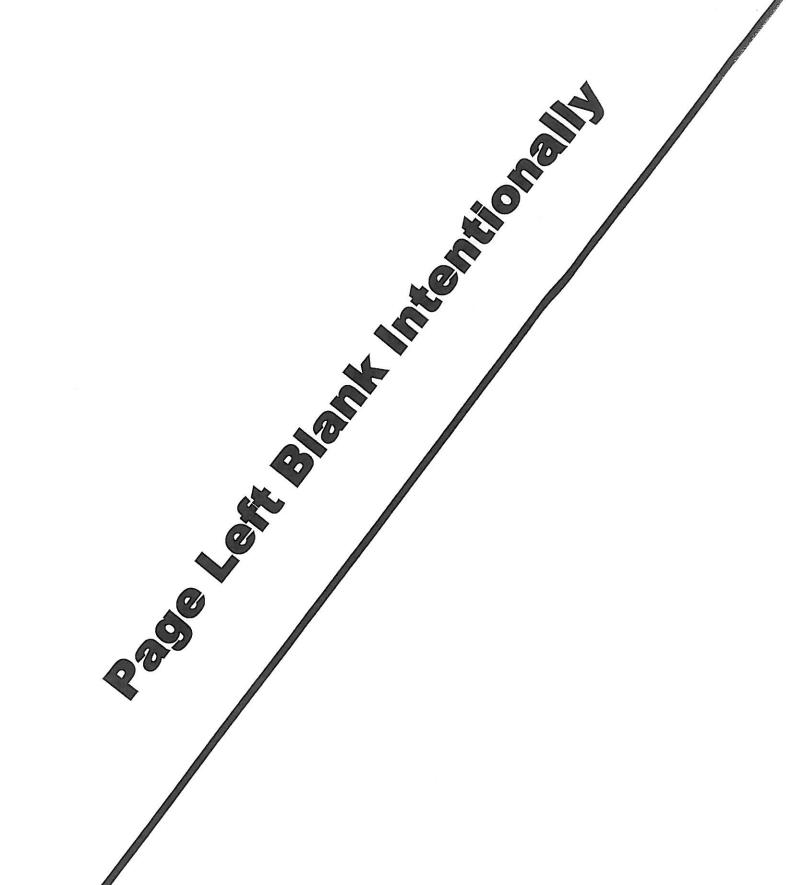

SMOKE TRANSPORT: NW 10 mph

OUTLOOK FOR WEDNESDAY NIGHT: Partly cloudy. Min Temps: 50 to 55. Max RH: 80 - 90%. Ridge Wind: NE or Downslope 3 - 5 mph gusts 6 - 7 mph. LAL 1. CWR 0%. Haines 2.

THREE DAY EXTENDED (THURSDAY - SATURDAY 3000 FT MIDSLOPE)

	Max T	Min RH	Max RH	Ridge Winds, Afternoon	LAL	<u>WX</u>
THU	86 – 90	30%	85%	NW 8 G 14 mph	1	SMK
FRI	89 – 93	25%	75%	N 9 G 16 mph	1	SMK
SAT	89 – 93	24%	70%	NW 6 – 10 mph	1	SMK

Observations from Mo	nday Mornin	g:		The state of the s
	Min Temp	Max RH	Wind Dir	Wind Spd
KNF92 (1,161 ft)	57	93%	VRB	0-1 mph
Dutch - Indy (2,281 ft)	59	80%	NE	2 - 3 mph
Slater Butte (4,621 ft)	66	56%	NE ·	5 mph

TYPE OF FIRE: Wildfire OPERATIONAL PERIOD: 8/19-20/14 1800-0600 hrs

FIRE NAME: Happy Camp Complex OPERATIONAL PERIOD:
DATE ISSUED: 8/19/14 TIME ISSUED: 1000 hrs

UNIT: Klamath National Forest SIGNED: Richard Gonzales, FBAN

INPUTS

WEATHER SUMMARY:

FORECAST NUMBER: 010

See Weather Forecast for specific information

Sky: Smoky ... Temps near 56° ...RH around 80%.... Winds (eye level)...Valley: down-slope/down-valley up to

4mph...Ridge: NE 3-5 mph ...LAL 1 ... Haines 3

OUTPUTS

FIRE BEHAVIOR

GENERAL:

The Fires main influence has been fuel and topography dominated. They are primary being driven by dead and down fuels. Fuels burning consist of Grass, Shrubs and Heavy Down (FM 1, 4, 10). Large dense stands of mixed Conifer are dominant throughout. Live Fuel Moisture is estimated at 90%. 1000 hr fuels are @ 8%. Headfire has displayed ROS @ 7-12 chains/hr with flame lengths of 4-8 feet. Single/group tree torching has occurred on all fires and sustained crown runs were observed on the Falkstein fire. Heavy fuels are holding heat under canopy. ERC is predicted @ 70 todayLocal threshold for large growth: 20' winds over 4 mph, RH less than 40%, Temps over 75*, 1000 hr FM less than 13% (refer to Pocket Card in IAP). Scattered Tree Mortality-5%. Probability of Ignition (shaded) will be 50% into receptive fuels for the better part of the operational period.

SPECIFIC

All Divisions:

The Fires will continue to display low/moderate surface fire ROS and intensity. They will continue to back towards drainages and retain heat. Fires will make uphill runs as it establishes itself and slope/wind become into alignment. The potential for single/group tree torching will remain a threat due to ladder fuels being pre-heated by surface fire. Roll-out of burning material remains a high concern and has led to the growth of the Fires. Heavy fuels will continue to hold heat until extinguished or consumed. The forecasted weather will thread to a period of cooler temperatures and higher humidity...still, lighter fuels (1hr and 10hr) will continue to lose moisture and burn more readily. Increased fire activity will increase as solar heating and lifting of inversion becomes a factor. Direct attack along flanks with hose lines and hand crews are favorable. Spotting distances up to ½ mile.

Night: Inversion will begin to settle in around 2300 and should moderate fire behavior...but active burning will over-power the inversion until early morning hours.

Frying Pan Fire: will slowly back towards elk creek/china grade roads and move to the east along frying pan ridge...heads up for increase spotting as fire makes up hill runs that align with northerly winds. Watch-out for fire establishing into horse/upper elk creeks and aligning with slope/wind.

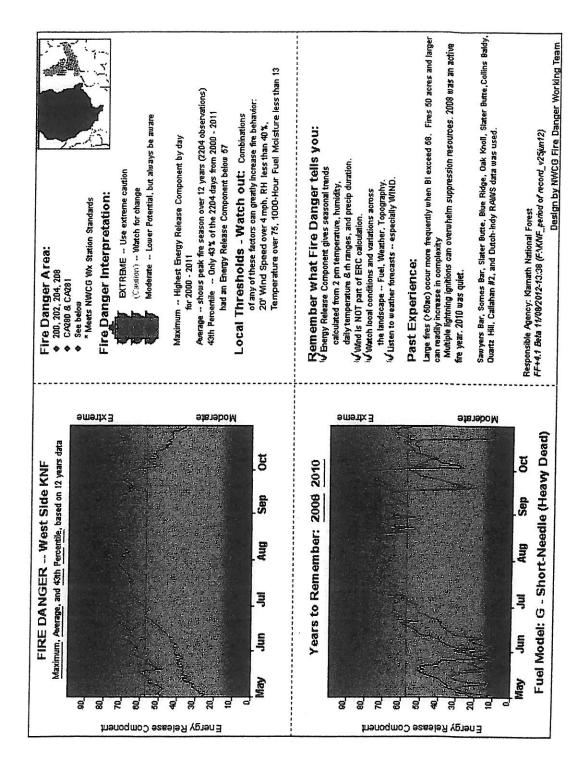

Falkstein Fire: will continue to back and flank into grider creek towards the northeast...heads up on fire stacking and moving towards the ridgeline west/south...fire will continue to work its way north along grinder creek and south into stones valley.

AIR OPERATIONS:

Air support may be limited due to Inversion or diversion to new initial attack fire.

SAFETY

- Identify your vulnerability on an advancing fire front when working hotspots
- Consider the potential for re-burning of available fuels
- Look for an increase in fire activity when winds shift in your division
- Evaluate the Fire's potential for upslope runs
- STOP...Stop Think Observe and Predict

In the event of a medical emergency provide the following information to your Division or Happy Camp

Sacramento, CA

N. 38 33.3 x W. 121 27.3

Communications on Command.

Level 1 Trauma

Burn Center

- 1. Declare the nature of the emergency.
 - a. Medical injury/illness?
 - b. Is injury/illness life threatening?
- 2. If life threatening, then request that the designated frequency be cleared for emergency traffic.
- 3. Identify the on-scene Point of Contact (POC) by resource and last name (i.e POC is TFLD Smith).
- 4. Identify nature of incident, number injured, patient assessment(s) and location (geographic and GPS coordinates).
- 5. Identify on-scene medical personnel by position and name (i.e EMT Jones).
- 6. Identify preferred method of patient transport.
- 7. Request any additional resources and/or equipment needed
- 8. Document all information received and transmitted on the radio or phone.
- Identify any changes in the on-scene Point of Contact or medical personnel as they occur.

ICS 206 8-78

Thunderstorm Safety Message and Procedures for a LIGHTNING SAFETY ALERT

Approaching thunderstorms may be noted by a sudden reverse in wind direction, a noticeable rise in wind speed, and a sharp drop in temperature. Rain, hail and lightning occur only in the mature stage of a thunderstorm.

Cloud to ground based lightning strikes increase sharply within fire areas according to IMETs. There is always a potential under the right conditions for Pyro cumulous lightning events as well.

Exercise situational awareness by observing the 30/30 rule. Refer to the IRPG page related to Thunderstorm Safety (Page 21 in the 2014 version/Green cover).

IMET will be monitoring the current weather and based on preplanned Decision Points will have the authority to issue a *Lightning Safety Alert*. An announcement will be made by communications to all personnel and divisions about any anticipated watches, warnings or events.

For in camp personnel, a siren from on hand vehicles will be sounded for a minimum of 15 seconds a total of 3 times with a break in between. Should you hear this siren warning, seek shelter within a structure is possible.

If a permanent structure is not available, utilize the closest vehicle available. Remain as centered in the vehicle as possible remaining clear from windows.

Stay clear of tall trees, wire fences and utility lines.

Seeking shelter in a Tent is **NOT AN ACCEPTABLE** level of cover!!!

Once the event has been cleared by the IMET, an all clear shall be issued to commence normal operations via communications.

SAFETY MESSAGE

INCIDENT NAME: Happy Camp Complex

DATE PREPARED 08/19/14

TIME PREPARED

OPERATIONAL PERIOD: 08/19-20/14 1800-0600hrs

THINK SAFETY - STAY ALERT

DON'T LET YOUR GUARD DOWN, WATCH FOR SUDDEN AND ERRATIC WIND SHIFTS !!!!!!

WEAR APPROPRIATE P.P.E.

- Full P.P.E during all operations, including mop-up.
- > Stumpholes and roots systems are compromised resulting in a greater chance for a fall or burn injury.
- > Correct footwear and lighting are mandatory prior to an engagement.

CREW BRIEFING

- > Insure a proper crew briefing utilizing the IRPG.
- > Identify safety zones and escape routes prior to overcommitting.
- > Assure proper cloning of radios for adequate communications.

HAZARDS

- > Review Downhill Checklist.
- > Utilize Lookouts and be aware of rolling materials and debris.
- > Steep terrain and with loose footing requires increased safe work distances.
- > Underslung line.
- > Be aware of other potential holdovers from previous lightning event.
- > Use special caution around trees involved with fire.
- > Snags are abundant and trees are falling with little to no warning.

ENVIRONMENTAL

- > Heat: Emphasis needs to be placed on hydration.
- > Be aware of signs and symptoms of heat related illness.
- > Monitor yourself and your fellow crewmembers.
- > RECORD Low fuel moistures and RECORD drought conditions persist.

OPERATIONS

- > Be aware of civilian traffic that may be in the area.
- > Be constantly aware of changing road conditions due to downhill rollout.
- > No FIRING unless specifically approved through Operations.

Human Resource Message

As the Human Resource Specialist assigned to this incident, my role is to facilitate a positive work environment, which for me begins with "Hello"! A simple "hello" establishes our human connection and lays the foundation for how we relate to others. When we remain silent among strangers, we unwittingly reinforce the feeling of differences, which in turn builds walls that make it harder to recognize our similarities. This often leads to adverse consequences in a work environment.

My role is also to be a focal point for informal resolution of issues and concerns. You may come to me with any question or concern about any aspect of your work environment while assigned to the incident. I am particularly committed to help assure resolution of issues as they arise. High priority is given to resolving issues informally. If you are aware of inappropriate conduct, you have the right and the obligation to do something about it.

Come see me any time you have questions, concerns, or just want to chat.

A sense of humor is part of the art of leadership, of getting along with people, of getting things done. - Dwight D. Eisenhower

CODE OF CONDUCT INCIDENT PERSONNEL

Each individual on this incident is responsible for:

- > Being ready and able to perform their assigned duties effectively
- Conducting themselves in a manner that treats people with dignity, equity, courtesy, and respect
- > Abiding by agency ethics and conduct regulations
- > Reporting any harassment or other inappropriate behavior

Each individual on this incident has the right to:

- > Work in an environment characterized by safe work practices
- > Work in a fair and harassment free environment
- > Say "No" to unwelcome advances or requests for favors
- > File complaints or grievances through appropriate avenues

There is zero tolerance for inappropriate behavior while assigned to the incident, including

- > Illegal drug use
- > Alcohol use
- > Unsafe work practices and activities
- > Discrimination
- > Sexual harassment
- > Fighting, threatening and abusive behaviors
- Using social media and electronic communication devices for personal business while engaged in fire assignment duties
- > Other violations of USDA and Forest Service standards of conduct

Failure to adhere to the Code of Conduct could result in dismissal from the incident, with notification to your home unit.

The public expects our best efforts; they see us as professionals in what we say and do. Let's continue to show them we are!

DEMOB MESSAGE

 PLEASE COME TO DEMOB AT THE END OF YOUR LAST WORK DAY TO PICK-UP YOUR ICS 221
