INCIDENT ACTION PLAN

DAY SHIFT

AUGUST 24, 2014 0600 – 1800

Page Left Blank Intentionally

Incident Objectives	1. Incident Name HAPPY CAMP COMPLEX	2. Date Prepared 08/23/14	3. Time Prepared 2234															
4. Operational Period 08/24/14 Sunday Day Shift 0600 - 1800																		
5. General Control Objectives for the incident (include alternatives) Firefighter and public safety is our core value. All identified hazards will be mitigated or avoided. MANAGEMENT OBJECTIVES: 1. Manage costs commensurate with values at risk. 2. Minimize damage to natural and cultural resources caused by fire suppression actions. CONTROL OBJECTIVES: 1. Provide Structure Defense within the Division 2 boundary of the Happy Camp Oak Knoll Ranger District and along Scott River. 2. Manage and coordinate all new fires within the Division 2 boundary of the Happy Camp Oak Knoll Ranger District. 3. Manage all fires under a full suppression strategy.																		
6. Weather Forecast for Period SEE ATTACHED FORECAST																		
7. General Safety Message SEE ATTACHED SAFETY MESSAGE

Happy Camp Complex Weather Forecast

FORECAST NO: 11 D
 PREDICTION FOR: Sunday Day Shift
 SHIFT DATE: August 24, 2014
 FORECAST ISSUED: 1900 August 23, 2014

NAME OF FIRE: Happy Camp Complex
 UNIT: KNF / SoCal 3
 Incident Meteorologist: Jeff Tonkin

WEATHER DISCUSSION: A ridge of high pressure will build off the north coast of CA and gradually shifting east over the fire area on Tuesday. This will bring a warming and drying trend over the next several days...along with light east and northeast winds. Expect subtle changes each day in RH with the hottest and driest days being Tuesday and Wednesday of next week. A thermal trough may migrate westward over the west coast which could enhance the easterly wind speeds during the middle of next week.

WEATHER FORECAST TODAY (SUNDAY DAY SHIFT):

WEATHER: Smokey....inversions breaking around 1400 PDT on East Perimeter... 1600 West side.
MAX TEMPERATURES: Valleys (1,200 ft) 92 – 97 F, Ridges (4,000 ft) 82 – 86 F
MIN HUMIDITY: Valleys (1,200 ft) 15 – 20%, Ridges (4,000 ft) 18 – 23%
WINDS (EYE LEVEL):

Valleys – up slope / up valley 3 – 6 mph.
 Ridges – East and northeast 4 – 7 mph early...becoming west 3 to 5 in the afternoon.

LAL: 1 **CWR:** 0% **HAINES:** 3-4

STABILITY / INVERSION: Multiple Inversions lifting between 1400 and 1600 PDT.

SMOKE TRANSPORT: Northwest 10-15 mph.

WEATHER FORECAST SUNDAY NIGHT:

WEATHER: Mostly clear, smoky.
MIN TEMPERATURES: 52 – 57 F
MAX HUMIDITY: Valleys (1,200 ft) 70 – 75%F, Ridges (4,000 ft) 65 – 70%
WINDS (EYE LEVEL): Valleys – NE or down slope / down valley 0 – 3 mph
 Ridges – NE 3 – 6 mph gusts 10 mph

OUTLOOK FOR MONDAY (4500 FT): Clear but smokey. Max Temps: 85 to 89. Min RH: 17 - 21%.
 Ridge Wind: East and Northeast 3 – 4 mph gusts 6 – 8 mph. LAL 1. CWR 0%. Haines 3.

THREE DAY EXTENDED DAYTIME (TUESDAY – THURSDAY 4500 FT)

	<u>Max T</u>	<u>Min RH</u>	<u>Max RH</u>	<u>Ridge Winds</u>	<u>LAL</u>	<u>WX</u>
MON	88 – 92	17%	55%	NE 4 - 7 mph	1	SMK
TUE	89 – 94	12%	45%	NE 4 – 7 mph	1	SMK
WED	90 – 95	12%	45%	W 3 – 6 mph	1	SMK

Observations from Saturday Afternoon:					
	<u>Max Temp</u>	<u>Min RH</u>	<u>Wind Dir</u>	<u>Wind Spd</u>	<u>WX</u>
KNF92 (1,161 ft)	83	12%	WNW	3 mph gust 10	
Dutch – Indy (2,281 ft)	93	15%	NW	5 mph gust 10	
Grider Ridge (4,621 ft)	80	17%	NW	3 mph gust 8	SMOKE

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 019	TYPE OF FIRE: Wildfire
FIRE NAME: Happy Camp Complex	OPERATIONAL PERIOD: 8/24/14 0600-1800 hrs
DATE ISSUED: 8/23/14	TIME ISSUED: 2000 hrs
UNIT: Klamath National Forest	SIGNED: FBAN, 

INPUTS

WEATHER SUMMARY:

See Weather Forecast for specific information

Sky: Mostly Sunny...Smoke clearing around 1600 ... Temps near 90°(no change) ...RH 15-20%(no change)
Winds (eye level)...Valley: up slope/up valley 3-6mph...Ridge: NE 4-7mph
LAL 1... Haines 3...Inversion lifting between 1400-1600

OUTPUTS

FIRE BEHAVIOR

GENERAL:

The fire environment will be under the influence of a strengthening high pressure system. Fire will remain active under the inversion due to the prolonged drying of fuels and continued hot and dry weather. Expect to see a noticeable difference in fire behavior when the inversion lifts. General winds will have a NE component to them, so alignment and spread direction may be different from what has been seen previously. Inversions and shading from smoke will moderate fire behavior.

Local threshold for large growth: 20' winds over 4 mph, RH less than 40%, Temps over 75*, 1000 hr FM less than 13% (refer to Pocket Card in IAP).

Scattered Tree Mortality is under 5%.

Probability of Ignition (unshaded) will be high(89%)

SPECIFIC

All Divisions:

The Fires will continue to display ability for moderate surface fire ROS and intensity. Fire will move uphill between 10-15ch/hr. if aligned with slope and wind. The potential for single/group tree torching will remain a threat due to ladder fuels. Roll-out of burning material remains a high concern and is a main factor in fire growth. Heavy fuels will continue to hold heat until extinguished or consumed. Fire activity will increase with solar heating and the lifting of the inversion. Direct attack along flanks with hose lines and hand crews are favorable.

Frying Pan Fire: The fire spread will continue to push out to the east, burning up to Grider Ridge. Easterly winds should limit spread over the ridgeline. Heavy fuels and the influence of a NE wind will allow for persistent movement to the west into Copper Creek and down to Elk Creek in the next few days. Watch out for fire establishing into drainage bottoms and aligning with slope/wind.

Falkstein Fire: Expect fire behavior to increase from the limited growth exhibited during the past week. Fire spread should be uphill towards Huckleberry Mnt. And into Stone and Clift Valleys to the SSW.

AIR OPERATIONS:

Light winds will allow for good flying conditions once the inversion breaks. Expect the southern portion of the fire to remain hampered by smoke throughout the day, especially in deep drainages.

SAFETY

Do not be lulled into complacency. Heavy inversion will mask fire behavior. Be mindful of working in areas with unburned fuel between you and the fire.

Post lookouts as necessary and identify escape routes.

Fire Danger Area:

- 200, 202, 204, 208
- C4280 & C4281
- See Below
- * Meets NWCG Wux Station Standards

Fire Danger Interpretation:

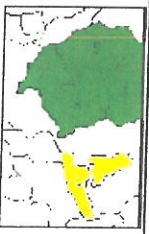

EXTRM BALE -- Use extreme caution
Yellow -- Watch for change
Moderate -- Lower Potential, but always be aware

Maximum -- Highest Energy Release Component by day for 2000 - 2011

Average -- shows peak fire season over 12 years (2204 observations)

43rd Percentile -- Only 43% of the 2204 days from 2000 - 2011 had an Energy Release Component below 57

Local Thresholds - Watch out: Combinations of any of these factors can greatly increase fire behavior:
 20' Wind Speed over 4 mph, RH less than 40%,
 Temperature over 75, 1000-Hour Fuel Moisture less than 13

Remember what Fire Danger tells you:

- Energy Release Component gives seasonal trends calculated from 2 pm temperature, humidity, daily temperature & rh ranges, and precip duration.
- Wind is NOT part of ERC calculation.
- Watch local conditions and variations across the landscape -- Fuel, Weather, Topography.
- Listen to weather forecasts -- especially WIND.

Past Experience:

Large fires (>50ac) occur more frequently when BI exceed 58. Fires 50 acres and larger can readily increase in complexity

Multiple lightning ignitions can overwhelm suppression resources. 2008 was an active fire year. 2010 was quiet.

Sawyers Bar, Somes Bar, Stater Butte, Blue Ridge, Oak Knoll, Stater Butte, Collins Baldy, Quartz Hill, Callahan #2, and Dutch-Indy RAVIN'S data was used.

Responsible Agency: Mammoth National Forest
 FF+4.1 Beta 1/10/2012-1338 (F:\KNF_prend of record_v25km12)

7. Control Operations

Prepare line for holding along the D/F to F/H break. When firing, head firing should be considered only when life or property are threatened.

8. Special Instructions

Do not use non metered hydrant
Ensure all crews have been briefed prior to traveling to their work assignment about the naturally occurring asbestos job hazard analysis

SOFR will notify DIVS when entering DIVISION and exiting
FOBS and READ will notify DIVS when entering DIVISION and exiting

7. Control Operations
 When firing, head firing should be considered only when life or property are threatened.
 Improve Kelsey Creek trail system. Plumb and prep.

8. Special Instructions
 Do not use non metered hydrants.

Ensure all crews have been briefed prior to traveling to their work assignment about the naturally occurring asbestos job hazard analysis
SOFR will notify DIVS when entering DIVISION and exiting
FOBS and READ will notify DIVS when entering DIVISION and exiting

HAPPY CAMP COMPLEX
SAFETY MESSAGE FOR DAY SHIFT
8/24/2014 0600 – 08/24/14 1800

Theme for the day: The fire is moving as predicted. Stay informed on your current strategy, tactics and considerations for escape route and safety zones. As the incident increases in complexity, situational awareness needs to increase.

PPE's: Continue to remain 100% compliant with the use of your PPE's. We have had several instances on this fire of serious injury being averted through their use. Poison Oak is becoming more of a problem. Make sure you take care of exposed PPE's to prevent additional contamination.

Stumpholes and root systems remain compromised resulting in a greater chance for a fall or burn injury.

Briefings: We need to remain on point with our crew briefings. Many crews are being shifted between divisions as the workflow allows. This is extremely important if you are moving to a piece of line or area you have not worked or are not familiar with.

Hazards: Steep Terrain is the prevalent feature for the area. Heavy fuel continuity and horrible footing provides extra hazards to you.

Danger Trees are everywhere. Be aware and of them, flag them and post a standby if necessary. Make sure to close the loop by reporting them to get them handled.

Environmental: There have been several incidents involving wildlife, including a vehicle striking a bear cub. Please slow driving to what is necessary and be alert. In addition, Marijuana groves are possible in the area. If you see something that doesn't fit the area, back out and contact law enforcement through your chain of command.

Be aware of heat related illness. Keep an eye on each other and get help early if necessary.

All Divisions	Poisonous Plants	<ul style="list-style-type: none"> ~ Identify and Avoid hazard areas ~ Launder clothing ~ Shower frequently

Be Safe in the National Forests

What to do if you encounter a marijuana cultivation site

Marijuana growers are active in the nation's national forests and it's important for your safety to be aware of your surroundings.

If you encounter a drug operation, back out immediately! Never engage the growers as these are extremely dangerous people. If you can identify a landmark or record a GPS coordinate, that's very helpful. The growers may be present and may or may not know that you have found their operation. Get to a safe place and report the encounter to any uniformed member of the Forest Service or to your local law enforcement agency.

Here are some clues that you may have come across a marijuana cultivation site:

- The smell of marijuana, especially on hot days, is like a skunk.
- Hoses or drip lines located in unusual or unexpected places.
- A well-used trail where there shouldn't be one.
- Voices coming from an unusual place.
- People standing along roads without vehicles present, or in areas where loitering appears unusual.
- Grow sites are usually found in isolated locations, in rough steep terrain (typically between 500 to 5,500 feet elevation.)
- Camps containing cooking and sleeping areas with food, fertilizer, weapons, garbage, rat poison, and/or dead animals.
- Small propane bottles (so that the grower avoids detection of wood smoke.)
- Individuals armed with rifles out of hunting season.

As soon as you become aware that you have come upon a cultivation site, or have encountered any of the above situations, back out immediately! Leave the way you came in, and make as little noise as possible.

Get to a safe place and, as soon as possible, report the encounter to any uniformed member of the Forest Service or to your local law enforcement agency. Report as much detail about the location and incident as you can recall.

Our Unique and Unifying Stories

There are about 1600 personnel assigned to this incident. We come from all over the United States. The environment we come from may be quite different from the environment where this fire is located. Maybe there are no mountains where you live, or maybe there is no open space, or the trees are different. Maybe you live in or close to a large urban area. Or maybe this is your home and your environment. Maybe you have a regional accent. This could be your first fire assignment.

We each have our own story that we carry with us. And guess what, most people want to know your story. So take some time to tell your story when you have the opportunity. Come by the HRSP office and tell me where you're from. I'll try to map it so we can all see how far and wide we've come to do what we all have in common – fighting the fire and supporting those who work on the line.

Differences in ideas and attitudes are a delight, part of life's exciting variety, not something to fear.

Gene Roddenberry

Jan Cawthon, Human Resources Specialist, 909-553-2829

CODE OF CONDUCT INCIDENT PERSONNEL

Each individual on this incident is responsible for:

- Being *ready and able* to perform their assigned duties effectively
- Conducting themselves in a manner that treats people with dignity, equity, courtesy, and respect
- Abiding by agency ethics and conduct regulations
- Reporting any harassment or other inappropriate behavior

Each individual on this incident has the right to:

- Work in an environment characterized by safe work practices
- Work in a fair and harassment free environment
- Say "No" to unwelcome advances or requests for favors
- File complaints or grievances through appropriate avenues

There is zero tolerance for inappropriate behavior while assigned to the incident, including

- Illegal drug use
- Alcohol use
- Unsafe work practices and activities
- Discrimination
- Sexual harassment
- Fighting, threatening and abusive behaviors
- Using social media and electronic communication devices for personal business while engaged in fire assignment duties
- Other violations of USDA and Forest Service standards of conduct

Failure to adhere to the Code of Conduct could result in dismissal from the incident, with notification to your home unit.

The public expects our best efforts; they see us as professionals in what we say and do. Let's continue to show them we are!

To expedite processing, please avoid waiting until the day of demob to process a claim.

CACHE ITEM CLAIMS

Individuals responsible for or assigned government property are responsible to document loss or damage on the Property Loss or Damage Report, OF-289. The individual, supervisor and a witness must document facts and circumstances on the form in order to gain approval to repair or replace damaged property.

The Supply Unit Leader (SPUL) or Incident Agency Representative approves replacement requests for expendable cache items. If this equipment or supply is not available at the incident AND the requesting resource is being demobilized, an OF-315 Incident Replacement Requisition is completed and signed by the SPUL. An "S" number will be assigned by the incident to be used by the home unit.

NON CACHE ITEM CLAIMS

All non-cache items available through the cache (e.g. sleeping bags, tents, tools, sleeping pads) will be replaced with cache equivalent items. Replacement for normal wear and tear is through home unit project funds. Specialized equipment (non-cache and non-expendable) shall be documented on a resource order and must be appropriate to the incident position. For replacement with incident funds, the item must have been clearly damaged or destroyed on the incident.

The OF-289 will be used to request consideration for replacement or repair of these items. Once approved, the OF-289 will be used by the incident to issue an "S" number to be used by the home unit.

CLAIMS PROCESSING

The incident agency will review all potential claims for accuracy and completeness and forward to the appropriate adjudicating official. This includes forwarding employee claims to the employee's home unit, if different than the incident agency.

ATTENTION FEDERAL TRAINEE'S

Are you going to be recommended for certification on this incident?

Or

Have you already been recommended for certification but still have your taskbook with you at this incident?

Your FQRC needs your taskbook with all the proper documentation so they can review it and submit it to the certifying official.

September 5 is the deadline for submitting applications to the R5 Fall Fire Hire

If you have worked hard all summer for an incident qualification that will get you to that next level, don't wait and miss your opportunity.

Come by and see me and I will get your completed taskbook back to your FQRC.

Incident Trainee / Trainer Data Worksheet

PLEASE PRINT LEGIBLY!

A: Trainee Data

Trainee Name: _____ Check One: Male Female
Trainee Position: _____ Order Number (E, O, C, A) ____--_____
State Abr. ____ + 3 Letter Designator _____ Agency Type: Federal State Local
 USFS BLM BIA FWS DOD NWS NPS Date Assigned: ____--____--_____
Ordered as a trainee for the incident? Yes No Trainee Cell Number: _____
