<b>DATE ISSUED:</b> 9/2/2014	<b>TIME ISSUED:</b> 2000

### INPUTS

**WEATHER SUMMARY:** (Please see attached fire weather forecast)

**Red Flag Warning for Gusty Northeast Winds, Low Relative Humidity's, and Unstable Conditions Through 11:00 PM Tonight.**

**High Temperature:** 70-92°

**Minimum RH:** 10-22%

**Winds (eye level):** Valleys becoming upslope/upcanyon 2-5 mph. Northeast to southwest oriented drainages 4-8 with gusts to 12

Ridgetop winds 5-10 mph with gusts to 15 mph

**Tonight:**

**Minimum temperature:** 55-65°

**Maximum RH:** 30-55%

**Winds (eye level):** Valleys becoming downslope/ downvalley 3-6 mph, Strongest winds in east-west oriented drainages.

Ridgetop east 4-8 mph with gusts with gusts to 12 mph

### GENERAL:

**POI:** 60-80% on afternoon southerly aspects **ERC:** 90<sup>th</sup> percentile **Live Fuel Moisture Brush:** 80%

As inversion lifts out today dry unstable fire weather conditions could lead to plume dominated fire today with long range spotting (up to 2 miles). Westerly slopes and fuels aligned with the wind have potential for passive and active crown runs. The remainder of the fire will be fuels and topography driven. At present primary fire spread is from spot fires caused by rolling material and torching.

**Night Shift Personnel:** Fire behavior could be active on the slopes as the shift begins. Fire on ridgetops aligned with the east winds could be active throughout the evening and early morning hours. Fire behavior on the slopes backing into the drainages should decrease by early morning as the RH rises.

### SPECIFIC:

**Division O, Q, T, Z, D, F and I:** These Divisions are still indicating scattered and isolated heat on the IR, however minimal fire activity is anticipated.

**Division G and H:** Isolated heat sources are still present; however minimal fire activity is anticipated.

**Division J:** Ridgetops Near Tom Martin Pk. And Browns Knob. Fire may become established in Kuntz Ck, Mill Ck, Mitchell Ck, and Macks Ck Drainages.

### AIR OPERATIONS

Smoke cover in the morning could limit air operations.

### SAFETY

Due to the dynamic nature of fire behavior, intensity estimates are often times difficult to make with absolute certainty. It is imperative firefighters consider the worst case fire potential and build their actions into their plan to compensate for the unexpected.

# SAFETY MESSAGE

---

Happy Camp Complex - Zone 1

September 3, 2014

...**RED FLAG WARNING** IN EFFECT FROM 10 PM THIS EVENING (Tuesday) TO 11 PM PDT WEDNESDAY FOR THE COMBINATION OF STRONG WINDS AND LOW RELATIVE HUMIDITIES..

## Concerns to Firefighters:

Expect fires to ignite easier and spread faster due to low live and dead fuel moistures. Recent fires have shown almost complete consumption of large dead fuels. Expect higher probability of ignition and increased spotting due to increased amount of receptive and available surface and aerial fuels.

## Mitigation Measures

Firefighters should acknowledge and prepare for fire growth and fire behavior that may exceed anything they have experienced before due to the extreme drought. Normal strategies and tactics may need to be adjusted to account for the drought factor. Suppression actions need to be based on good anchor points, lookouts, communications, escape routes, and safety zones

- ✓ Mountain Driving -- HWY 96 & Elk Creek-Driving involves the one of the greatest risk we face in an average day on this incident – it requires your full attention. Watch for deer on the roadway at early morning and night, especially down along Hwy 96; lots of deer versus vehicle accidents. Watch Out for firefighters working along roads.

Human Resource Message  
September 3, 2014

Leading others effectively encourages those we lead to do great things. Let's remember the value of our leadership while we continue to do the important work we are doing here.

**Leaders Who Motivate People:**

- Know their job.
- Know the jobs of those they supervise.
- Set the direction.
- Give people the chance to succeed or fail.
- Provide support for the doers.
- Seeks to know "what encourages" each doer; (all people are different and have individual needs to be fulfilled).
- Work with reality and current conditions.
- Enjoy their work and provide a positive work environment.

**"Leaders are made, they are not born. They are made by hard effort, which is the price which all of us must pay to achieve any goal that is worthwhile."**
