SAFETY MESSAGE

We Will Never Forget

Today is the 20th anniversary of the South Canyon Fire where 14 of our fellow firefighters lost their lives on Storm King Mountain.

On July 2, 1994, seven miles west of Glenwood Springs, Colo., lightning ignites a fire on a ridge at the base of Storm King Mountain. The entire general area is in a one-year drought, is experiencing low humidity's and record-high temperatures. Over the next two days, the South Canyon Fire increases in size and four days later, on July 6, a dry cold front moves into the fire area. As winds increase the fire makes a rapid up-hill run, 35 firefighters escape to safety while the remaining 14 perish in the flames.

MAJOR HAZARDS AND RISKS

--	---	--

Be sure all elements of your safety plan are in place prior to engagement

Be responsible for your own safety

- If you see something, say something
- Question decisions if they have the potential to adversely affect your safety
- Know your fire orders, the fire situation, and LCES (lookouts, communications, escape routes, and safety zones)
- Maintain your situational awareness
- Trust your instincts and be aware of your surroundings at all times

7 Barriers to Situational Awareness

1. Inexperience
2. Getting too Comfortable
3. (Complacency, Inattention, Autopilot)
4. Distraction from Primary Duty
5. Priorities Out of Order
6. Social Influences (Groupthink, Peer Pressure)
7. Stress Reaction (Tunnel Vision, Mission Fixation)
8. Physical Impairment (Fatigue, Carbon Monoxide, Heat Stress, Medications)
