INCIDENT WEATHER FORECAST

FORECAST NO: 35

PREDICTION FOR: 24 Hour Shift

SHIFT DATE: 09/22/21

FORECAST ISSUED: 09/21/21 1900

NAME OF FIRE: Caldor UNIT: USFS El Dorado NF

SIGNED: Patrick Gilchrist/Shawn Palmquist (T)

Incident Meteorologist

WEATHER DISCUSSION:

Hot, dry and breezy conditions will make for a heads up day today as a weak disturbance passes through Oregon pushing down on the upper ridge. Southwest winds will gust up into the 30s mph along the ridges by the afternoon. Poor to moderate recoveries can be expected tonight, with winds turning easterly by Thursday. Winds will be generally light Thursday, with the hot and dry conditions continuing.

...Hot, Dry, and Breezy Today...

.TODAY...

Sky/weather......Haze in the morning clearing by afternoon. Partly sunny.

Max temperature.....64 to 76 above 5000 feet and 76 to 84 below 5000 feet.

Min humidity......20 to 25% above 5000 feet and 15 to 20% below 5000 feet.

Wind (20 ft)....

Slope/Valley.....Southwest 10-18 mph, with gusts to 25 mph in the afternoon.

Ridgetop.....Southwest 16-24 mph, with gusts to 30 mph in the afternoon.

Mixing height... increasing to 10000 ft MSL mid-afternoon.

.TONIGHT...

Sky/weather......Mostly clear.

Min temperature.....44 to 52 midslope to ridgetop. 40 to 45 valleys. (Upper 30s valleys east of the crest.)

Max humidity......35 to 45% midslope to ridgetop. 55 to 65% valleys.

Wind (20 ft).....

Sheltered valleys...Becoming downslope/downvalley 2-5 mph.

Slope/valley......Southwest 10-15 with gusts to 20 mph early in the evening becoming east-northeast 5 to

10 mph overnight.

Ridgetop.....Southwest 10-18 mph with gusts to 25 mph in the evening becoming east-northeast 5 to 15

mph overnight.

.THURSDAY...

Sky/weather.....Partly cloudy.

Max temperature.....67 to 79 above 5000 feet and 79 to 88 below 5000 feet.

Min humidity.........18 to 25% above 5000 feet and 10 to 18% below 5000 feet.

Wind (20 ft).....

Slope/Valley.....East-northeast 8 to 15 mph.

Ridgetop.....East-northeast 10 to 18 mph.

Mixing height... increasing to 10000 ft MSL mid-afternoon.

| FIRE BEHAV | /IOR FORECAST |
|---|---|
| FORECAST NUMBER: 6 | TYPE OF FIRE: Vegetation |
| FIRE NAME: Caldor | OPERATIONAL PERIOD: Sept 22 nd 24 Hour |
| DATE ISSUED: Sept 21st | TIME ISSUED: 2000 |
| UNIT: CA El Dorado National Forest/Lake Tahoe Basin | SIGNED: Dan O'Connor |
| Management Unit | Fire Behavior Analyst (FBAN) |

WEATHER SUMMARY: See detailed Fire Weather Forecast in IAP

FUELS:

Fire areas include a range of conifer systems with Ponderosa, Jeffrey Pine, Incense Cedar, and manzanita in the lower elevations towards the west, transitioning up into an Upper Montane forest of Ponderosa, Lodgepole Pine and Red Fir closer to Lake Tahoe. Anticipate heavy fuel loading, drought stress, overstocked timber stands, and a lack of fire history to both the north and south of the current fire footprint. The El Dorado National Forest is currently classified as 'Extreme to Exceptional' drought by the US Drought Monitor, with Energy Release Components exceeding the 90th percentile, not far off all time high levels. Heavy dead and down fuels will likely burn completely, holding heat and actively consuming through all hours of the day. Fine dead fuel moisture is calculated at 4% or less.

EXPECTED FIRE BEHAVIOR: Based on the Warmest, Driest, Windiest Conditions Forecasted

| Maximum Spotting Distance | Fuel Type/Model | Maximum Rate of Spread (chains/hour) | Maximum Flame Length (feet) |
|------------------------------------|---|---------------------------------------|--------------------------------|
| % mile Probability of Ignition 75% | Timber understory (TU5- Overstocked and/or dense reprod) | Head 25-35 ch/hr Flank 18-22 ch/hr | Head 12-15 ft Flank 8-10 ft |
| | Timber litter (TL6-closed canopy, ground fuels) | Head 12-15 ch/hr Flank 8-10 ch/hr | Head 4-6 ft Flank 2-4 ft |

General: Hot, dry and windy today will keep the momentum going with growth in Division Quebec, anticipate torching, spotting, and active flanking to the north and east.

SPECIFIC

Branch 1 SW flow will be mostly favorable for the western side of the fire. Potential for increased smoke production from needle cast burning interior, but should not pose threats to containment lines.

Branch 3

Divisions India and Mike have scattered heat that will produce smoke across the interiors, with more persistence in working through rocked out areas adjacent to the Desolation Wilderness. Repopulation in the Highway 50 corridor may bring an increase in service calls; potential for reburn remains in the green islands.

Divisions Quebec and Romeo fire has made its escape up and out of Caples Creek and will continue upslope runs, torching, and spotting within the Strawberry Creek drainage and North and East towards Little Round Mountain. As the fire moves up slope it will be more exposed to strong SW winds, so anticipate long range spotting out ahead of runs.

Divisions Oscar and Papa do have high severity fire areas in the interior, but the edges are more mosaic severity so reburning and flare ups with threats to containment lines and adjacent communities are still possible. Low relative humidity will likely have heavies and root wads burning again, producing smoke visible to residents.

Night Operations: Anticipate continuation of service calls with residents back in their homes down Highway 50. Stay vigilant with the potential for reburn in the dirty burn areas due to drought conditions.

AIR OPERATIONS:

Smoke may impact aircraft access and visibility in Division Quebec all day

SAFETY:

Can't rule out green pockets coming back to life in quiet areas of the fire with low RH and gusty SW winds.

Operation Period:

Day /Night Shift 9/22-9/23/2021

SAFETY MESSAGE

Mop Up is Hazardous Work!

- Injury and accidents are common during the mop up phase.
- Gather situational awareness in your work area and communicate it.
- Reduce risk by identifying and mitigating hazards.
- Stay focused on task, don't let the routine nature of the assignment allow your mind to wander resulting in a loss of situational awareness.
- Take frequent breaks, stay hydrated, and manage fatigue.

MAJOR HAZARDS AND RISKS

| STEEP TERRAIN |
|---------------|
| CHIPPING OPS |
| FATIGUE |
| ASH PITS |

ROLLING MATERIAL HAZMAT DEHYDRATION BUCKET DROPS

HEAVY EQUIPMENT
SNAGS
COMPLACENCY
TRAFFIC

Be sure all elements of your safety plan are in place prior to engagement

Look Up, Look Down, Look Around During Mop Up

- *Look Up: Check the sky for any weather changes such as building or approaching thunderstorms, wind shifts or increasing in speed. Watch for air operations and water drops. Look for snags and the potential for rolling material.
- *Look Down: Watch your footing. Keep an eye out for snakes, bee's nests, Stump holes, and ash pits.
- * Look Around Check for flagging identifying hazards in the area, and general terrain features. Keep an eye on fellow firefighters for signs of heat stress and fatigue.

Watch for Over Confidence During Mop Up

- *Driving: As you become more familiar with the road systems, we tend to increase speeds. Please be aware of this and keep speeds down, watch for people and vehicles along the roads, and drive defensively.
- *PPE: Please recognize that in low stress situations like mop up, it is easy to over-look the importance of wearing the appropriate PPE include eye protection.
- *Work Area: Familiarity with your work area can result in a lowering of awareness, especially as conditions change.

Safety Officers: Trenton Prins SOF2 (T)

| 6. Work Assignments: | | | | | | | |

TASK: Secure existing line and provide for tactical patrol within the Hwy 50 corridor. Coordinate with REAFs and mop up to the extent necessary on the fires edge and within the perimeter where infrastructure and values at risk are present

PURPOSE: Minimize any fire progression and ensure the safety of those working on the west side of Mormon Emigrant Trail

END STATE: Fires edge in the division is controlled and escape is improbable

7. Special Instructions:

Backhaul trash, excess supplies and provide a location for accountable property

Identify and coordinate the removal of hazard trees

Resources denoted with * is identified as I/A resources within the TFR

Resources need to report to 8 Mile Camp (4260 8 Mile Rd, Camino, CA 95709) for briefing and end of shift

| 6. Work Assignments: | 1 | | | <u> </u> | | | | | |

TASK: Actively suppress any fire south of Lyons Lake. Utilize natural barriers as containment lines and provide for perimeter control near the communities of Wrights Lake and Echo Lakes. Mop up to the extent necessary on the fires edge and provide for tactical patrol, responding to community needs along Hwy 50

PURPOSE: Minimize any fire progression and ensure the safety of those working north of Hwy 50

END STATE: Fires edge in the division is controlled and escape is improbable

7. Special Instructions:

Backhaul trash, excess supplies and provide a location for accountable property

Identify and coordinate the removal of hazard trees

Resources denoted with * is identified as I/A resources within the TFR

Medic 60, ALS Ambulance for Highway 50 patrol

Resources need to report to Heavenly ICP (3860 Saddle Rd., South Lake Tahoe, CA 96150) for briefing and end of shift

| . Work Assignments: | | | | | | | THE TALL IN |

6. Work Assignments:

TASK: Actively suppress any fire near Buck Pasture. Prep dozer line for potential firing operation along Schneider Camp 4x4 Rd.

Mop up to the extent necessary, utilizing natural barriers and secure any heat sources between DP-65 and Scout Peak

PURPOSE: Minimize any fire progression and ensure the safety of those working within the division

END STATE: Fires edge in the division is controlled and escape is improbable

7. Special Instructions:

Backhaul trash, excess supplies and provide a location for accountable property

Identify and coordinate the removal of hazard trees

Resources denoted with * is identified as I/A resources within the TFR

Resources need to report to Heavenly ICP (3860 Saddle Rd., South Lake Tahoe, CA 96150) for briefing and end of shift

Fire and COVID-19 Briefing Checklist

Self-Awareness / Screening

- Notify supervisor if you or others experience:
 - o Cough, more than expected
 - Difficulty breathing
 - Loss of taste or smell
 - Fever
 - Chills
 - Sore throat
 - Muscle pain
- Immediately separate yourself from others.
- Follow crew and division plans to isolate, triage, and transport symptomatic personnel.

Hygiene on the Fireline

- Properly wash or sanitize your hands often
- Avoid handshakes and communal use items
- Inform supervisor of needed resupply.
- Disinfect high touch surfaces often

Social distancing and protective equipment

- Practice social distancing
- Conduct briefings in conversations outdoors and at least <u>SIX</u> feet apart
- Utilize face coverings
- · Clean or replace dirty face coverings, equipment, and PPE

Communications

- Ensure effective sender/receiver messaging.
- Protect yourself, your crew, and your camp!

Any questions contact:

BARTON HEALTH COVID HOTLINE: 530-600-1999

MEDL Nick Stepanian @ (909) 908-4778

FEDERAL EMPLOYEES AND CONTRACTORS

EXTRACT FROM Secretary Vilsack and Deputy Secretary Bronaugh

Thank you to the tens of thousands of USDA employees who have already been fully vaccinated. For those of you who still need to be vaccinated, below are interim deadlines that will ensure you are two weeks from your last does and thus fully vaccinated by the Nov. 22nd deadline. You can visit vaccines.gov to find a COVID-19 vaccine near you and learn more about the benefits of vaccinations.

- Oct. 11: First dose deadline (Moderna COVID-19 vaccine)
- Oct. 18: First dose deadline (Pfizer COVID-19 vaccine)
- Nov. 8: Second dose deadline (Moderna and Pfizer vaccine)
- Nov. 8: First (only) dose deadline (Johnson and Johnson COVID-19 vaccine)
- Nov. 22: Federal employees must be fully vaccinated

Please be aware that USDA employees will be required to provide more information about vaccine status, including proof of vaccination. In the coming days, Pandemic Coordinators will be following up with their agency or staff office regarding how we will collect this information in a way that maintains privacy while also meeting new federal reporting requirements.

If interested, please reach out to COVID Advisors

Caldor Fire

September 22nd 2021

To receive training credit for the Caldor Fire

- Email me your Completed 225 Eval's
 - ♦ Fill out the online exit interview (QR code attached)
 - Trainee's home unit mailing address
 - Evaluator's home unit job title and name
 - ♦ Position Task Book Tasks sign-off

One day prior to demob, please start the close out procedures with us. We are working remotely and will do our best to answer any questions you may have. Please call or email me with your questions.

Thanks for your cooperation.

Morgan Madruga
TRAINING SPECIALIST TRAINEE
Merced Fire Department
99 E 16th st Merced, Ca 95340

MorganMadruga@yahoo.com

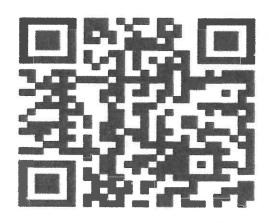

VIRTUAL DEMOBILIZATION

Please follow the steps below in order:

- Scan the QR code and select the "REMOTE DEMOB" item. PLEASE DO NOT complete this step more than 12 hours prior to your demobilization
- 2. Complete the questionnaire
- 3. Go to <u>Weed Wash</u> if your vehicle has been on the fireline
- 4. Go to Ground Support for your post-inspection
- 5. Return items checked out from Supply
- 6. Return any items checked out in **Comms**
- 7. Go to <u>Finance</u> at the scheduled time to close out your CTR/Shift Tickets
- 8. Call <u>Demob</u> at 435-840-5432 to finalize your travel times.

PLEASE NOTE:

If you have any problems, contact Jan either by phone 435-840-5432 or at DMOB

Acquiring lodging at the Harvey's hotel

Harvey's hotel is associated with Harrah's. They are across the street from each other and are joined by a tunnel under Hwy 50 on the Nevada side, just at the state line. They have opened the Harvey's hotel specifically for firefighters battling the Caldor fire. No public is staying at that property. Hotel support and check in for Harvey's Hotel, including front desk services is located at the Harrah's property. This includes check-in and any maintenance service. Large vehicle parking is at the large parking lot at Harrah's accessible off Lake Parkway. Small vehicles can access the parking structure at Harvey's. At both locations, collect the parking stub to go through the gate. There is no charge for parking. Exit gates will open from 0500 to 0700. You may still use your hotel card or ring for attendant to open the exit gate if needed.

To reserve a room, scan this code (or click here) to make your reservation. Be sure to have your purchase card and crew manifest ready to enter the names of the personnel for each room configuration purchased with that card:

After reserving, go to the Harrah's front desk and complete registration.

They are very understaffed, so please make every attempt to use the web link above to reserve, though you may also call the hotel desk at 775-691-0416 to reserve your room under "Caldor Fire".

Once you check in to the hotel on the Harrah's side, you will then proceed to Harvey's either through the underground tunnel or drive to the Harvey's parking structure. Note: the elevator bank closest to the (currently closed) Harvey's front desk is not in service. You will need to use the Mountain Tower elevator bank by the arcade.

The hotel asks that if you would like trash pickup, please place your trash bags in the hallway and call the front desk to let them know where it is. They don't have enough staff to patrol the halls. They are also available to clean rooms and deliver towels and other items, but you will need to call the front desk for that as well.

Hotel Acquisition Process

The Caldor incident has authorized the individual procurement of hotel accommodations. This is for lodging only. The process below discusses financial procedure and documentation:

If you are a **local agency dispatched through CFAA**, you will need to acquire an S# prior to demob. This number will also be entered on your F42 form.

Federal resources with a travel card will be processed through your agency's travel reimbursement process. Finance will provide a 213 with approval statement upon demob, if required by your agency.

All other non-federal resources, or federal resources that do not have purchasing capability, complete the following:

AD's who are able to pay and get reimbursed for travel will need to pay lodging and get reimbursed through your normal reimbursement process. You will be given a 213 with authorization statement from the finance section during demob.

For AD's and Seasonal Federal Employees who are unable to pay for lodging, the buying team may be able to assist with purchasing your accommodations. Inquire with the incident Finance Section. Federal resources who have the crew boss card option should use this as a first option.

In accordance with each individual contract, **contractors** shall pay for lodging and submit receipts for additions to your invoice (OF-286). Itemized receipts ARE required by the finance section during demob. Also, please note that double occupancy may be required on many contracts.

The finance section will provide S#'s during your demob or sooner.

If you're not in one of these categories or uncertain, finance can help you check. Please use the hotline number: 530-330-5450 or email 2021.Caldor.finance@firenet.gov. If emailing include your resource number, type of resource and contact phone number.
