**3. Objective(s):**

**Management Objectives:**

- Analyze incident risk at all times to identify and mitigate hazardous conditions and to provide for responder and public safety.
- Ensure timely and accurate information is coordinated and disseminated to cooperators, stakeholders, and the public.
- Reduce the potential for impacts to natural and cultural resources by limiting the effects of fire and fire suppression.
- Provide a safe environment to isolate and prevent the pandemic spread by social distancing and mask wearing of all personnel on the incident.
- Maintain fiscal accountability on the incident and keep costs commensurate with values at risk.

**Control Objectives:**

- Keep the fire within its currently identified perimeter and North of Highway 4 to Highway 88.
- Keep the fire within its currently identified perimeter and South of Wentworth Springs Rd, to Mosquito Pass, and road systems N16A, N20A, N08, and N21.
- Keep the fire within its currently identified perimeter and East of County Highway E16 and Fiddletown.
- Keep the fire within its currently identified perimeter and West of the El Dorado County, Alpine County, and the state line boundary.

**5. Site Safety Plan Required?** No

# INCIDENT WEATHER FORECAST

FORECAST NO: 45  
PREDICTION FOR: 24 Hour Shift  
SHIFT DATE: 10/02/21  
FORECAST ISSUED: 10/01/21 1900

NAME OF FIRE: Caldor  
UNIT: USFS Eldorado NF  
SIGNED: Patrick Gilchrist/Shawn Palmquist  
Incident Meteorologist

## WEATHER DISCUSSION:

High pressure will prevail for the next several days. Diurnal winds, warming temperatures and low RH can be expected. Overnight humidity recoveries will continue to be poor to moderate with thermal belts in place. Smoke from fires to our south will drift north into the area today. Valleys east of the crest will be cold once again tonight, with temperatures in the upper 20s to near 30.

## .TODAY...

Sky/weather.....Haze. Mostly sunny.  
Max temperature.....64 to 74 above 5000 feet and 74 to 84 below 5000 feet.  
Min humidity.....13 to 20% above 5000 feet and 8 to 13% below 5000 feet.  
Wind (20 ft).....  
Slope/Valley..... Upslope/upvalley 4-8 mph, gusts to 15 mph through tighter canyons.  
Ridgetop.....Southwest 8-15 mph.  
Mixing height... increasing to 15000 ft MSL mid-afternoon.

## .TONIGHT...

Sky/weather.....Mostly clear.  
Min temperature.....46 to 58 midslopes and ridges. 40 to 45 valleys. (Upper 20s to around 30 valleys east of the crest.)  
Max humidity.....25 to 35% midslope to ridgetop. 55 to 65% valleys.  
Wind (20 ft).....  
Slope/valley.....Becoming downslope/downvalley 2-5 mph after 1900. Gusts to 10 mph in tighter canyons.  
Ridgetop.....East-northeast 8-15 mph.

## .SUNDAY...

Sky/weather.....Mostly sunny.  
Max temperature.....65 to 75 above 5000 feet and 75 to 85 below 5000 feet.  
Min humidity.....13 to 20% above 5000 feet and 8 to 13% below 5000 feet.  
Wind (20 ft).....  
Slope/Valley..... Upslope/upvalley 4-8 mph, gusts to 15 mph through tighter canyons.  
Ridgetop.....Southwest 8-15 mph.  
Mixing height... increasing to 15000 ft MSL mid-afternoon.

### INPUTS

**WEATHER SUMMARY:** See detailed Fire Weather Forecast in IAP

### FUELS:

Dry conditions continue to influence the fire area. Fine fuels can carry fire into heavy fuels and unburned areas. Fire will move easily through fine fuels, often undetected, until reaching heavy fuels. ERC's remain above seasonal averages and at levels associated to large fire growth.

### OUTPUT

#### GENERAL:

- Smoke production from burn down of heavy fuels. Increase in service calls is probable with increase public presence near the fire area.
- Surface spread in fine fuels during warmest parts of the day.
- Moderate fire behavior is possible outside of containment lines with wind a slope alignment.
- Expect easterly wind influence during the late evening hours.

Fuels and Wx inputs: Temp:74 deg., RH: 13% Winds 4-8G14 1Hr-4, 10hr-6, 100hr-9

#### SPECIFIC:

**Branch 1-** Continued smoke production from high elevations locations. Evening east wind influences during Green islands could produce isolated group torching during the afternoon hours.

**Branch 3** Wind and slope alignment could create short uphill runs with short range spotting.

*Divisions India and Mike:* Pockets of heat interior could produce fire movement to green islands as fire finds fresh fuels to move through.

*Division Quebec and Romeo:* Stringers of fuels in mostly rocky terrain will continue to consume. Watch for spotting from isolated tree torching.

*Divisions Oscar and Papa:* Burn down of heavy fuels will continue to produce high visibility smokes across the division.

**Nightshift:** Cool temperatures and poor humidity recoveries which will allow fuels to continue to burn out especially within thermal belts

**AIR OPERATIONS:** Conditions will be favorable for aviation operations.

### SAFETY

**Fire responds to topographic conditions and runs uphill.**

## Fire and COVID-19 Briefing Checklist

1. Incident Name:

CALDOR

2. Operational Period: Date From: 10/2/2021

Date To: 10/3/2021

Time From: 0700

Time To: 0700

### FIRE and COVID-19 Briefing Checklist

#### Self-Awareness / Screening

- Immediately separate yourself from others.
  - o Cough more than expected
  - o Shortness of breath or difficulty breathing
  - o New loss of taste or smell
  - o Fever                      o Sore throat
  - o Chills                      o Muscle pain
- Review and follow crew and division plans to isolate, triage, and transport symptomatic personnel.

#### Hygiene on the Fireline

- Properly wash or sanitize your hands often, especially before and after eating or entering a public place, and after coughing or sneezing.
- Avoid handshakes and communal use items.
- Maintain a supply of hand sanitizer and hand wipes. Inform supervisor of needed resupply.
- Disinfect high touch surfaces often:
  - o Radios, phones, doors, pumps, fuel cans, etc.

#### Social Distancing and Protective Equipment

- Initiate, practice, and remind others of social distancing.
- Conduct briefings and conversations outdoors and at least 6 feet apart.
- Utilize face coverings as a tool when practical.
- Clean or replace dirty face coverings, equipment, and PPE.

#### Communications

- Face coverings and social distancing complicate communications.
  - o Ensure effectiveness sender/receiver messaging.

#### Protect yourself, your crew, and your camp!

NFES 002646 (06/2020)

# **Covid Testing Notice**

**All federal employees and federal contractors on type 1 and 2 wildfire incidents in California, are now required to be tested for Covid-19 regardless of vaccination status. For the Caldor Fire:**

- **Incoming federal resources and contractors:**  
Testing must occur both at check-in and demobilization
- **Resources currently assigned to the fire:**  
It is recommended to be tested within 72 hours of this notice as well as during demobilization
- Testing will be provided for partners and cooperators that volunteer or request testing
- **Testing is available at the mobile medical trailers** at both South Lake Tahoe and Placerville camps

In addition to this testing mandate, federal employees and contractors are required to be fully vaccinated prior to November 22, 2021. To schedule a vaccine, please contact:  
Greg Flory (East Caldor) at 530-721-5975, or  
Kayla Nimmo (West Caldor) at 786-475-5748

Refusal of COVID testing on incidents will be handled on a case-by-case basis by the employee's agency or the hiring agency of the federal contractor with participation on the incident not occurring until a resolution is identified.

## California Wildland Fire Coordinating Group

### Framework for Mandatory COVID Testing on Federal Fire Incidents in California

Due to the risk of spread of COVID-19 to individual fire personnel and modules, as well as the overall impact on firefighting capacity, the federal leadership of the California Wildland Fire Coordinating Group (CWCG) have decided to move forward with the intent of mandatory testing on all federal fire incidents in California, specifically type 1 and 2 wildfire incidents when logistically possible (e.g. personnel to support, testing available). This intention applies to all federal employees and federal contractors regardless of vaccination status and will be voluntary for partners and cooperators involved in a federal fire incident.

To date, the Department of Agriculture, Forest Service, Pacific Southwest Region, COVID-19 Emergency Response Team (CERT) implemented two mandatory pilot testing programs in California. The first pilot program was during the McFarland Fire on the Shasta-Trinity National Forest. The testing service was provided through a contract. The second pilot program was on the French Fire during unified command between the Bureau of Land Management and the Sequoia National Forest. Cal OES provided the testing service. These pilot programs provided many lessons to assist with more effective implementation on other fire incidents.

To implement this intent the CERT and a Point of Contact (POC) from each of the following Department of the Interior (DOI) agencies: Bureau of Indian Affairs, Bureau of Land Management, Fish and Wildlife Service and the National Park Service will coordinate and collaborate.

It is recognized that testing in and of itself is not a silver bullet, but it is an important tool in the suite of COVID mitigations to protect fire personnel, modules, and their families and friends when personnel return home from fire incidents. With increasing COVID cases over the past few months, and continued fire activity expected in the weeks and months ahead, we have decided this is a necessary tool until vaccine requirements for the federal workforce are fully implemented.

#### **Mandatory Testing Intent & Framework**

- Applies to all federal employees and federal contractors on type 1 and 2 wildfire incidents in California, regardless of vaccination status.
- Testing will be provided for partners and cooperators that volunteer or request testing, if testing capacity is available.
- The requirement for testing will be included in the resource order for those resources identified as available to fill orders.
- Refusal of COVID testing on incidents will be handled on a case-by-case basis by the employee's agency or the hiring agency of the federal contractor with participation on the incident not occurring until a resolution is identified.
- If there are logistical challenges (e.g. personnel support, testing availability) the CERT and DOI POCs will attempt to implement this intent in the following priority order: (1) test individuals upon arrival to an incident, (2) test individuals upon demobilization from an incident, (3) test individuals that are already assigned to an ongoing incident at frequencies recommended by the Centers for Disease Control and Prevention (CDC).

## HEALTH AND SAFETY MESSAGE

INCIDENT: CALDOR FIRE

DATE: 10/2-3/2021

TIME: 0700-

0700

*Major Hazards and Risks: Weekend Traffic, Drying Conditions, Hazard Trees, Bears, Communications, Complacency, and Driving.*

Fire Order of the Day—*Keep informed on Fire Weather Conditions and Forecasts*

### **Watch Out Situation**

WEATHER BECOMING HOTTER AND DRIER

BE AWARE !!!

LOTS OF LOOKEY LOU'S &  
WEEKEND VACATIONERS WITHIN  
THE FIRE BOUNDARIES

### **PLANNING FOR LINE EMERGENCIES**

Develop your Extraction Plan

- WHAT DO YOU DO IF SOMEONE GETS HURT?
- HOW WILL YOU GET THEM OUT?
- HOW LONG WILL IT GET THEM TO THE HOSPITAL?

Refer to IAP 206 Medical Plan and Medical Incident Report (IRPG Page 118-119)

Incident Safety Officers: Jack Wise SOF 2, Kevin Southerland SOF 2

## INCIDENT SAFETY ANALYSIS 215a

Caldor Fire / CA-ENF-024030 - Saturday, October 2, 2021

| 8. Location | 9. Hazard             | 6. Control or Abatement Action (Engineering, Administrative, PPE, Avoidance, Education, etc)   |
|-------------|-----------------------|--|
| All         | Hazard Trees          | <ul style="list-style-type: none"> <li>~ Follow "Hazard Tree Safety" guidelines, IRPG page 22.</li> <li>~ Post lookouts, or use a spotter in mop-up areas with personnel.</li> <li>~ Don't park vehicles or take breaks in high concentrations of hazard trees.</li> <li>~ Establish trigger points for disengagement during high wind events.</li> <li>~ Remember that the hazard zone extends a minimum of 2 1/2 tree heights.</li> </ul>  |
| All         | Driving & Traffic     | <ul style="list-style-type: none"> <li>~ Practice "Defensive Driving" techniques traveling on all roads and city streets.</li> <li>~ Use spotters &amp; Honk horn to alert personnel when backing.</li> <li>~ Follow Driving LCES (Lights, Chock blocks, Emergency brake, Seat belts).</li> <li>~ Always use headlights.</li> <li>~ Yield to pedestrians and bicycles.</li> <li>~ Observe posted speed limits.</li> <li>~ Use the 3 second rule for following distance when driving.</li> <li>~ Use chock blocks, turn wheels into hill.</li> <li>~ Avoid distractions (eating, cell phones, radio).</li> <li>~ Ensure that windshields are kept clean of dust and bugs.</li> <li>~ Refer to "Smoke and Transportation Safety" IRPG Pg 31</li> <li>~ Refer to "Roadside Response Safety" IRPG Pg 26</li> </ul> |
| All         | Chain Saw Operations  | <ul style="list-style-type: none"> <li>~ Follow "Hazard Tree Safety" guidelines, IRPG Pg 22</li> <li>~ Follow "Procedural Felling Operations" IRPG Pg 85.</li> <li>~ Look up, Look down, Look around for hazard tree indicators.</li> <li>~ Only fell and buck trees within your expertise, and training.</li> <li>~ Do not fall trees during high wind events.</li> <li>~ Ensure proper use of all required PPE.</li> </ul>   |
| All         | Communications        | <ul style="list-style-type: none"> <li>~ Maintain communication with aviation resources, and suppression organization.</li> <li>~ Ensure all know frequency and protocol for contacting resources.</li> <li>~ Utilize the ICS 205.</li> <li>~ Utilize human repeaters when working in dead spots.</li> </ul>   |
| All         | Fireline Hazards      | <ul style="list-style-type: none"> <li>~ Refer to "Fireline Location" considerations, IRPG Pg 84</li> <li>~ Do not work directly above or below personnel during firing and mop-up operations.</li> <li>~ Watch for falling and rolling debris on steep slopes.</li> <li>~ Alert crew personnel of rolling debris by yelling to affected individuals.</li> <li>~ Position debris that could roll vertically on slope.</li> <li>~ Avoid stepping over debris that could roll by walking around object.</li> <li>~ Avoid radiant heat by wearing appropriate PPE correctly.</li> <li>~ Use correct tool for task assigned.</li> <li>~ Flag and isolate all HAZMAT and alert all personnel working in Division.</li> <li>~ Follow WUI recommendations, IRPG Pg 12.</li> </ul>                                     |
| All         | Mop-up & Rehab        | <ul style="list-style-type: none"> <li>~ Do not work above or below personnel during rehab/mop-up operations.</li> <li>~ Alert crew personnel of rolling debris by yelling to affected individuals.</li> <li>~ Position debris that could roll vertically on slope.</li> <li>~ Wear eye protection.</li> </ul>   |
| All         | Helicopter Operations | <ul style="list-style-type: none"> <li>~ Ensure positive communication with all air resources.</li> <li>~ Don't plan on air resources for medical transport or resupply.</li> <li>~ Follow "Aviation Watch-Out Situations" IRPG Pg 46.</li> <li>~ Refer to "Directing Bucket or Retardant Drops" IRPG Pg 58 .</li> <li>~ Refer to "Aircraft Mishap Response Procedure" IRPG Pg 62.</li> <li>~ Stay clear of all bucket drops when suppression actions are in place and allow 1 minute prior to re-entry.</li> <li>~ Monitor A-G communications.</li> </ul>   |

## INCIDENT SAFETY ANALYSIS 215a

|         |   |  |
|---------|---|--|
| All     | Heat Related Illness (HRI)& Dehydration | <ul style="list-style-type: none"> <li>~ Refer to Heat Related Illness information, IRPG Pg 109</li> <li>~ Drink Fluids throughout operational period (6-8 qts/shift).</li> <li>~ Maintain water/electrolyte ratio of 3 to 1.</li> <li>~ Carry extra water on line and cache water at drop points.</li> <li>~ Take Frequent breaks, minimum of 10 minutes every hour.</li> <li>~ Allow out of area resources time to acclimatize before expecting peak performance.</li> <li>~ Recognize symptoms of HEAT RELATED ILLNESS which include.               <ul style="list-style-type: none"> <li>o Lack of energy</li> <li>o Headaches, dizziness</li> <li>o Lack of rest</li> <li>o No hunger, poor eating habits</li> <li>o Hot skin, and lack of sweating</li> </ul> </li> </ul> |
| All     | Heavy Equipment Operations              | <ul style="list-style-type: none"> <li>~ Refer to "Working with Heavy Equipment" IRPG Pg 86</li> <li>~ Ensure communications are established with operators.</li> <li>~ Use hand signals if other communications are unavailable.</li> <li>~ Maintain a 50'-100' exclusion area around equipment and increase it to 1 1/2 times tree height when in timber.</li> <li>~ Use a spotter when backing.</li> <li>~ Avoid working below heavy equipment.</li> </ul>  |
| All     | Personal Hygiene                        | <ul style="list-style-type: none"> <li>~ COVID-19 is on the rise.</li> <li>~ Don't share personal items such as water bottles communication devices and utensils.</li> <li>~ Wash hands before meals, and after use of rest room facilities.</li> </ul>  |
| All     | Injury & Medical Emergency              | <ul style="list-style-type: none"> <li>~ COVID-19 is on the rise.</li> <li>~ Conduct daily COVID screening, report any symptoms to Medical immediately, and isolate those that have been exposed.</li> <li>~ Assist injured employee appropriate medical care.</li> <li>~ Use EMT's on Division for initial care.</li> <li>~ Follow "Emergency Medical Care" IRPG Pgs 105-118</li> <li>~ Follow procedures in Medical Plan, ICS 206</li> <li>~ Refer to "Planning for Medical Emergencies" IRPG Pg 2</li> </ul>  |
| All     | Unburned Area/Reburn Potential          | <ul style="list-style-type: none"> <li>~ Monitor weather.</li> <li>~ Base actions upon observed and predicted fire behavior.</li> <li>~ LCES Checklist IRPG Pg 7.</li> <li>~ Refer to "Look Up, Down and Around" IRPG Pg 3</li> </ul>  |
| Div I/M | Boat/Ferry Operations                   | <ul style="list-style-type: none"> <li>~ Provide a detailed briefing to all passengers which includes:               <ul style="list-style-type: none"> <li>- Personal Flotation Device (PFD) locations and proper donning/fit</li> <li>- Drowning hazards associated with wearing heavy boots, clothing, packs, etc.</li> <li>- Visual Distress Signals (VDS) options</li> <li>- Fire Extinguisher location(s)</li> </ul> </li> <li>~ Follow the operators instructions for loading and unloading</li> </ul>  |
| All     | Indirect Fireline                       | <ul style="list-style-type: none"> <li>~ Post lookouts, identify escape routes and safety zones IRPG Pg. 7</li> <li>~ Review "Strategy Direct/Indirect Attack" IRPG Pg. 82-83</li> <li>~ Refer to "Line Location" IRPG Pg 84</li> </ul>  |
| All     | Downhill Line Construction              | <ul style="list-style-type: none"> <li>~ Post lookouts and ensure LCES is in place IRPG Pg 7.</li> <li>~ Follow "Downhill Line Construction" guidelines IRPG Pg 9.</li> </ul>  |
| All     | Cold Weather                            | <ul style="list-style-type: none"> <li>~ Carry extra clothing to prevent hypothermia following shift.</li> <li>~ Dry out gear each night for next day.</li> <li>~ Watch footing on frozen ground.</li> <li>~ Maintain personal hydration.</li> <li>~ Monitor wind-chill and establish trigger points for disengagement.</li> </ul>   |
| All     | ATV/UTV use                             | <ul style="list-style-type: none"> <li>~ Ensure equipment is inspected and safe to use.</li> <li>~ Restrict UTV's to max width of 50" on ATV trails due to width and severe out sloped conditions.</li> <li>~ Ensure operator is trained and certified to operate.</li> <li>~ Ensure operator has proper PPE according to the Redbook and/or operator's agency requirements.</li> <li>~ Question if it is mission critical.</li> </ul>   |
| All     | Night Operations                        | <ul style="list-style-type: none"> <li>~ Maintain high visibility in work area and wear vest while in roadway.</li> <li>~ Use glow sticks to mark hazards.</li> <li>~ Ensure personnel have a personal light (headlamp).</li> <li>~ Watch for signs of fatigue.</li> <li>~ Take breaks away from areas of known hazard.</li> </ul>   |

**6. Work Assignments:**  
 TASK: Secure existing line and provide for tactical patrol within the Hwy 50 corridor. Coordinate with REAFs and mop up to the extent necessary on the fires edge and within the perimeter where infrastructure and values at risk are present  
 PURPOSE: Minimize any fire progression and ensure the safety of those working on the west side of Mormon Emigrant Trail  
 END STATE: Fires edge in the division is controlled and escape is improbable

**7. Special Instructions:**  
 Backhaul trash, excess supplies and provide a location for accountable property  
 Identify and coordinate the removal of hazard trees  
 Resources need to report to El Dorado County Fairgrounds (100 Placerville Dr, Placerville, CA 95667) for briefing

**6. Work Assignments:**

TASK: Support crews taking suppression action near Trimmer Peak. Provide for a tactical patrol and respond to any calls for service. Coordinate with REAFs and mop up to the extent necessary on the fires edge and within the perimeter where infrastructure and values at risk are present.

PURPOSE: Minimize any fire progression, keeping the fire within its current footprint

END STATE: Fires edge in the division is controlled and escape is improbable

**7. Special Instructions:**

Backhaul trash, excess supplies and provide a location for accountable property

Identify and coordinate the removal of hazard trees

\* Indicates IA Resource

Resources need to report to Heavenly ICP (3860 Saddle Rd., South Lake Tahoe, CA 96150) for briefing and end of shift

**6. Work Assignments:**  
 TASK: Secure existing line and utilize natural barriers as control lines. Mop up to the extent necessary near Silver Lake and secure any heat sources south of Hwy 88  
 PURPOSE: Minimize any fire progression and ensure the safety of those working near Hwy 88  
 END STATE: Fires edge in the division in controlled and escape is improbable

**7. Special Instructions:**  
 Backhaul trash, excess supplies and provide a location for accountable property  
 Identify and coordinate the removal of hazard trees  
 \* Indicates IA Resource  
 Resources need to report to Heavenly ICP (3860 Saddle Rd., South Lake Tahoe, CA 96150) for briefing and end of shift

**6. Work Assignments:**  
 TASK: Perform priority suppression repair work within Branch 3. Coordinate closely with CALFIRE AEU and USFS REAFs, focusing repair efforts in Angora Mtn, High Meadows, Apache Log Jam and Cheyenne Wetland Meadow  
 PURPOSE: Minimize any near-term environmental resource impacts as a result of fire suppression efforts  
 END STATE: Watershed and areas adjacent to values at risk are protected using the approved standard

**7. Special Instructions:**  
 Backhaul trash, excess supplies and provide a location for accountable property  
 Identify and coordinate the removal of hazard trees  
  
 Resources need to report to Heavenly ICP (3860 Saddle Rd., South Lake Tahoe, CA 96150) for briefing and end of shift

**6. Work Assignments:**  
 TASK: Perform priority suppression repair work within Branch 3. Coordinate closely with CALFIRE AEU and USFS REAFs, focusing repair efforts in Angora Mtn, High Meadows, Apache Log Jam and Cheyenne Wetland Meadow  
 PURPOSE: Minimize any near-term environmental resource impacts as a result of fire suppression efforts  
 END STATE: Watershed and areas adjacent to values at risk are protected using the approved standard

**7. Special Instructions:**  
 Backhaul trash, excess supplies and provide a location for accountable property  
 Identify and coordinate the removal of hazard trees  
  
 Resources need to report to Heavenly ICP (3860 Saddle Rd., South Lake Tahoe, CA 96150) for briefing and end of shift

Controlled Unclassified Information//Basic

## Medical Incident Report

**FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.**

**FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.**

Use the following items to communicate situation to communications/dispatch.

**1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)**

*Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."*

**2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.**

*Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."*

## Caldor Suppression Repair Guidelines

Frequently coordinate repair efforts with REAFs on repair priorities and specific guidelines. The following standards are to be met during suppression repair operations:

### Handlines, Dozer Lines, and Safety Zones

- Construct waterbars, rolling dips, or chunk/waffle all fire lines on slopes >10%.
- **Pull outside berms back** into the control line and distribute topsoil evening. Recontour the surface to allow for drainage. If line follows ridge, divert water equally to both sides of the ridge. Pull slash back over line.
- **Chunking** involves using an excavator to decompact and roughen surfaces of control lines by creating up to 1ft x ft divets in a continuous egg carton pattern. Coordinate with REAFs for guidelines.
- **Water-bars** will be constructed at a 35 – 40° angle across slope. Downslope end must be open and should discharge into vegetated or protected surface.
  - Water bar depths for **dozer lines** should be at least 6 inches; total height from bottom of ditch to the top of the waterbar should average at least 18 inches and not exceed 24 inches.
  - Water bar depths for **hand lines** should be at least 4 inches; total height from bottom of ditch to top of water bar should average at least 8 inches and not exceed 12 inches. Higher water bars do not necessarily mean better water bars.

| Fire Line % Slope) | Maximum distance apart (feet) |
|--------------------|-------------------------------|
| 1 - 10             | Every 100                     |
| 10 - 30            | Every 75 - 100                |
| 30 - 50            | Every 50 – 75                 |
| >50                | Every 50                      |

- **Conceal or hide points of access** using the landscape and available materials. In high OHV use areas, block the first 50 – 100ft of the dozer line with boulders or chunk if not covered by logs, brush, or other veg. Downed trees should be dirty to prevent cutting/collection.
- **Remove deposited or perched soil and suppression debris from streams, watercourses, swales, or draws.** Do not remove more than necessary to prevent damaging watercourse. Restore impacted channel shape to adjacent channel shape. Spread removed soil across fire line. **Contact REAF before starting stream, drainage, wetland, or meadow repair.**
  - Do not remove woody debris that was in the channel prior to the fire.

### Roads

- Install waterbars where waterbars previously existed.
- Install or maintain rolling dips where a rolling dip previously existed.
- Clean culverts plugged with soil and rock resulting from fire suppression actions.
- **Remove all slash and debris from culvert inlets/outlets** resulting from suppression actions.
- Clean and grade ditch lines and lead off ditches as necessary.
- Water roads for dust abatement.
- Remove sediment from watercourse crossing locations and stabilize watercourse crossing approaches as appropriate for pre-existing road use.

# **Caldor Suppression Repair Guidelines**

## **Vegetative Debris (activity fuels) Treatment**

- Concentrations of slash created by fire suppression activities along roadways and among structures should be treated to reduce fire hazard. Treatments include mastication, lopping and scattering, and chipping. Where feasible, vegetation treated by mastication or lopping and scattering should not exceed 18 inches in height. Chipped material should be spread across the cleared area. Chip piles should not exceed 6” in depth on the ENF or 3” in depth on the TMU.
- Concentrations of slash within 100 feet of habitable structures should be removed or chipped.

## **Fences**

- Repair fences damaged during fire suppression operations. Intent of fence repair is to prevent livestock or other animals from escaping.

## **Compensation Claims**

- For all other property damage beyond the scope of the Suppression Repair Plan, please document the damage on an ICS 213 and submit it to the Incident Management Team Compensation Claims Unit.

## **Housekeeping**

- **Remove and dispose of trash or litter** from all fire lines, camps, parking and staging areas.
- Remove flagging from line and trail.
- Close gates that were opened and repair any fences and gates cut or damaged by fire suppression resources.

**Thank you for your safe and diligent work repairing your National Forest lands!**

*Interagency Incident  
Management*

## CODE OF CONDUCT INCIDENT PERSONNEL

Each individual on this incident is responsible for:

- Being *ready and able* to perform their assigned duties effectively
- Conducting themselves in a manner that treats people with dignity, equality, courtesy, and respect
- Abiding by agency ethics and conduct regulations
- Reporting any harassment or other inappropriate behavior

Each individual on this incident has the right to:

- Work in an environment characterized by safe work practices
- Work in a fair and harassment free environment
- Say “No” to unwelcome advances or requests for favors
- File complaints or grievances through appropriate avenues

There is zero tolerance for inappropriate behavior while assigned to the incident, including

- Illegal drug use
- Alcohol use
- Unsafe work practices and activities
- Discrimination
- Sexual harassment
- Fighting, threatening and abusive behaviors
- Using social media and electronic communication devices for personal business while engaged in fire assignment duties
- Other violations of USDA and Forest Service standards of conduct

Failure to adhere to the Code of Conduct could result in dismissal from the incident, with notification to your home unit.

The public expects our best efforts; they see us as professionals in what we say and do. Let's continue to show them we are!

# **Caldor Fire Human Resource Message October 2, 2021**

## **ATTITUDE**

Attitude is more important than facts.

It is more important than the past, than education, than money, than circumstances, than failures, than successes, than what other people think or say or do.

It is more important than appearance, giftedness or skill.

It will make or break a company...a church...a home.

The remarkable thing is we have choice every day regarding the attitude we will embrace for that day.

We cannot change the inevitable.

The only thing we can do is play on the one string we have, and that is our attitude.

**When you know who you are;  
when your mission is clear and you  
burn with the inner fire of unbreakable will;  
no cold can touch your heart;  
no deluge can dampen your purpose.  
You know that you are alive.**

**-Chief Seattle-**

### *Interagency Incident Management*

**MEDIA** – The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and the news media may not interfere with incident operations. Please always treat the media with courtesy and respect and advise the Information Office if there are any issues.

**PHOTOGRAPHS AND VIDEOS OF INCIDENT** – Please refrain from posting incident related videos to your personal social media. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera loses their situational awareness. When this happens it could reflect poorly on all that are attached to this incident.

Please email photo and video submissions to [2021.Caldor@firenet.gov](mailto:2021.Caldor@firenet.gov)

**MAIL** – If you need to send or receive mail, please see the mailing address below. Sending letters, cards to your loved ones, or mailing bills. Please stamp your mail and it will be taken to the post office for you. If you don't have a stamp, we will provide one.

**Mailing address for the Caldor Fire:**

## Hotel Acquisition Process

The incident has authorized the individual procurement of hotel accommodations. This is for lodging only. The process below discusses financial procedure and documentation:

If you are a **local agency dispatched through CFAA**, you will need to acquire an S# prior to demob. This number will also be entered on your F-42 form.

**Federal resources with a travel card** will be processed through your agency's travel reimbursement process. Finance will provide a 213 with approval statement upon demob, if required by your agency.

All other non-federal resources, or federal resources that do not have purchasing capability, complete the following:

**ADs who are able to pay** and get reimbursed for travel will need to pay for lodging and get reimbursed through your normal reimbursement process. You will be given a 213 with authorization statement from the finance section during demob.

**Ads and Seasonal Federal Employees who are unable to pay** for lodging, the buying team may be able to assist with purchasing your accommodations. Inquire with the incident finance section. Federal resources who have the crew boss card option should use this as a first option.

In accordance with each individual contract, contractors shall pay for lodging and submit receipts for additions to your invoice (OF-286). Itemized receipts are required by the finance section during demob. Copies may also be submitted electronically or hard copy during assignment to save time at demob. Please be sure to write your resource order number on the document. Also, please note that double occupancy may be required on many contracts.

If you're not in one of these categories or uncertain, finance can help you check. Please use the hotline number: 530-330-5450 or email: [2021.Caldor.finance@firenet.gov](mailto:2021.Caldor.finance@firenet.gov) If emailing include your resource number, type of resource and contact phone number.

## **West Side, Branch 1: *Hotel and Dinners***

Resources working the West side of the incident and briefing at the El Dorado fairgrounds are expected to be self sufficient for dinners and hotel accommodations. You will be expected to procure your own hotel and remain within the per diem rates of \$135 a night before tax and \$28 for dinner after tax and tip. Breakfast, sack lunches, and hydration products will be provided at briefing. Branch one will advise if you need to return to the fairgrounds in the evening.

### ***East side Branch 3 Hotels***

All meals are provided by the incident. You will be responsible to acquire your own lodging. You must assure all nights are within the \$135 per diem rate. Camping in or around the heavenly ski lodge is highly discouraged due to the recent encounters with large bears. The following hotel options are available within per diem rates.

#### **Hard Rock Hotel. Promo code "USFOREST"**

#### **Lake Tahoe Resort Hotel (Large Vehicle parking is limited)**
