P5N8GM21

OPERATIONAL PERIOD

10/8/2021 0700
to
10/9/2021 0700

*Interagency Incident
Management*

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: <p style="text-align: center;">CALDOR</p>	2. Operational Period: <table style="width: 100%; border: none;"> <tr> <td style="border: none;">Date From:</td> <td style="border: none;">10/8/2021</td> <td style="border: none;">Date To:</td> <td style="border: none;">10/9/2021</td> </tr> <tr> <td style="border: none;">Time From:</td> <td style="border: none;">0700</td> <td style="border: none;">Time To:</td> <td style="border: none;">0700</td> </tr> </table>	Date From:	10/8/2021	Date To:	10/9/2021	Time From:	0700	Time To:	0700
Date From:	10/8/2021	Date To:	10/9/2021						
Time From:	0700	Time To:	0700						

3. Objective(s):

Management Objectives:

- Analyze incident risk at all times to identify and mitigate hazardous conditions and to provide for responder and public safety.
- Ensure timely and accurate information is coordinated and disseminated to cooperators, stakeholders, and the public.
- Reduce the potential for impacts to natural and cultural resources by limiting the effects of fire and fire suppression.
- Provide a safe environment to isolate and prevent the pandemic spread by social distancing and mask wearing of all personnel on the incident.
- Maintain fiscal accountability on the incident and keep costs commensurate with values at risk.

Control Objectives:

- Keep the fire within its currently identified perimeter and North of Highway 4 to Highway 88.
- Keep the fire within its currently identified perimeter and South of Wentworth Springs Rd, to Mosquito Pass, and road systems N16A, N20A, N08, and N21.
- Keep the fire within its currently identified perimeter and East of County Highway E16 and Fiddletown.
- Keep the fire within its currently identified perimeter and West of the El Dorado County, Alpine County, and the state line boundary.

Fire Weather Forecast

FORECAST NO: 51
PREDICTION FOR: Friday-Friday Night
DATE: October 8th, 2021
FORECAST ISSUED: 1900 October 7th, 2021

Fire: Caldor
UNIT: USFS Eldorado NF
Incident Meteorologist: Derek Williams
Signed: 

WEATHER DISCUSSION: Cool to cold temperatures, high humidity under mainly overcast skies and wetting rains are expected today, especially across the eastern portions of the fire footprint. Most rain will fall in the morning hours, gradually diminishing through the afternoon hours. Total rain accumulation through tonight is expected to be around 0.50" closer to the Tahoe Basin, with lesser amounts towards Placerville. Snow levels will drop to around 7000 feet by the late afternoon with up to 2 inches of snow accumulation on higher peaks by tonight. A steady west-southwest wind along ridgetops will continue today, diminishing tonight. Colder temperatures will settle into the area tonight as cloud cover diminishes by Saturday morning with lows in the 20s in some eastern valleys.

TODAY:

SKY/WEATHER: Mostly cloudy to overcast. Rain in the morning, diminishing afternoon. Snow above 7500 feet.

MAX TEMP: Below 5000 feet: 45-55° **MIN RH:** Below 5000 feet: 65-70%
Above 5000 feet: 35-45° **Above 5000 feet:** 80-90%

CHC WTG RAIN: 85% near Sierra crest. 55% farther west. **LAL:** 1

WINDS: **Slope/Valley:** West-southwest 3-6 mph in the morning. West-southwest 5-10 mph in the afternoon in aligned valleys.

(20 feet) Ridgetop: West-southwest 10-15 mph with gusts 25 mph.

HAINES: 2 (Low).

MIXING HEIGHT: Rising to 8000 feet by 1500.

INVERSION: No significant inversion expected.

TONIGHT:

WEATHER: Mostly cloudy with decreasing shower coverage. Snow above 7000 feet.

MIN TEMP: East Valleys: Lower 20s **MAX RH:** Below 5000 feet: 70-80%
Below 5000 feet: 33-43° **Above 5000 feet:** 95-100%
Above 5000 feet: 25-30°

CHC WTG RAIN: 0% **LAL:** 1

WINDS: **Slope/Valley:** Downslope/downvalley 3-5 mph developing in the evening, becoming east-northeast around 5 mph after midnight.

(20 FEET) Ridgetops: West-southwest winds diminishing through the evening, east northeast wind 5-10 mph developing after midnight.

INVERSION: Shallow inversion developing.

EXTENDED OUTLOOK: Saturday through Wednesday: Warming temperatures, lighter winds and drier conditions are expected through the weekend. An even colder weather system is expected early next week bringing snow levels to around 6500 and potentially several inches of snow along the Sierra with minimal precipitation closer to Grizzly Flats. In addition, northeast winds behind this frontal system are expected Monday and Tuesday. A warming and drying trend begins Tuesday into midweek with a return of southwest winds during the day.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 22	TYPE OF FIRE: Wildland
FIRE NAME: Caldor	OPERATIONAL PERIOD: October 8 th – 10 th 72 hour
DATE ISSUED: October 07, 2021	TIME ISSUED: 1700 Hours
UNIT: CA Eldorado National Forest/Lake Tahoe Basin Management Unit	SIGNED: /s/ <i>Robert Scott</i> Robert Scott FBAN 530-990-4048

INPUTS

WEATHER SUMMARY: *See detailed Fire Weather Forecast in IAP*

FUELS:

Forecast rain and snow will significantly increase fuel moisture. Sheltered areas on the west side may remain at or slightly below moisture of extinction. Heavy fuels will remain near historic lows for the remainder of the incident.

OUTPUT

GENERAL:

- Rain and snow will greatly reduce chance of fire spread.
- Fine fuels on the west side of fire could carry low intensity fire through sheltered locations.
- Pockets of fire in large concentrations of heavy fuel is possible but little spread can be expected.
- Spotting chances will remain extremely low with very low probability of ignition.

SPECIFIC:

Branch 1- Surface fire spread should be confined to sheltered locations on the west side of branch. Burn down heavy fuels is possible. As more moisture falls on the western side of branch, threat of movement will decrease.

Branch 3 – Mixed severity locations along Hwy 88 could still see low intensity fire confined to sheltered locations. This will be more pronounced on the western side of the branch. High elevation locations will experience the greatest reduction on spread and potential.

Divisions India and Mike: Forecast moisture should confine fire to its current footprint. Isolated smoke will remain in heavy fuels. Recently created concentrations of heavy fuel could become active.

Division Quebec and Romeo: Significant moisture should impact the division. Interior smokes could still be present. Surface spread is unlikely.

Divisions Oscar and Papa: Isolated smokes from ground fire could show after moisture impacts fire area.

Nightshift: Nighttime conditions should not support surface fire. Isolated smoldering and some fire in heavy fuels is possible.

AIR OPERATIONS: Adverse weather may impact aviation operations.

SAFETY

Fuels, weather, and topography all play a role in fire behavior.
Consider the risk of a given tactic weighed against possible fire behavior.

Fire and COVID-19 Briefing Checklist

1. Incident Name:

CALDOR

2. Operational Period: Date From: 10/8/2021

Date To:

10/9/2021

Time From: 0700

Time To:

0700

FIRE and COVID-19 Briefing Checklist

Self-Awareness / Screening

- Immediately separate yourself from others.
 - o Cough more than expected
 - o Shortness of breath or difficulty breathing
 - o New loss of taste or smell
 - o Fever o Sore throat
 - o Chills o Muscle pain
- Review and follow crew and division plans to isolate, triage, and transport symptomatic personnel.

Hygiene on the Fireline

- Properly wash or sanitize your hands often, especially before and after eating or entering a public place, and after coughing or sneezing.
- Avoid handshakes and communal use items.
- Maintain a supply of hand sanitizer and hand wipes. Inform supervisor of needed resupply.
- Disinfect high touch surfaces often:
 - o Radios, phones, doors, pumps, fuel cans, etc.

Social Distancing and Protective Equipment

- Initiate, practice, and remind others of social distancing.
- Conduct briefings and conversations outdoors and at least 6 feet apart.
- Utilize face coverings as a tool when practical.
- Clean or replace dirty face coverings, equipment, and PPE.

Communications

- Face coverings and social distancing complicate communications.
 - o Ensure effectiveness sender/receiver messaging.

Protect yourself, your crew, and your camp!

Find more information: <https://www.nwccg.gov/coronavirus>.

NFES 002646 (06/2020)

KEY COVID-19 MESSAGES

- We had a close call in camp. It appears the Covid outbreak was limited, but we cannot let our guard drop.
- Masks are required in all workspaces and common areas. This includes buildings, trailers, chow line (even for line lunches), laundry, showers, supply cache, and any other areas “behind the tape.”
- Masks should also be worn in outdoor shared spaces when physical distancing cannot be maintained. This includes during face-to-face conversations.

HOW COVID-19 SPREADS

- Covid-19 is transmitted primarily by respiratory droplets or mucous. When not wearing a mask, coughs, sneezes, speaking, and laughing create considerable unseen droplets in the air that can harbor the virus. It is by inhaling or having the droplets settle in the mucous membranes of the nose or eyes that are the primary means of spread.
- The chances of spread via air droplets can be reduced in the outdoors depending on wind and humidity. However, smoke poses an i
- Increased risk of infection. Exposure to smoke irritates the airway and lungs, changing the body’s immune response, and can result in more severe illness in persons infected by COVID-19.
- Virus particles on surfaces are far less likely to cause infection unless a person is in a confined space and in immediate contact with an infected person for an extended time. Outdoors, the virus cannot survive long on surfaces due to sun exposure, air currents and changing humidity levels.

HOW TO STOP COVID-19

- Wear a mask
- Social distance
- Wash your hands often
- Clean surfaces shared by others (tables, computers, etc.)
- Get vaccinated. *Vaccines are safe, effective and prevent infection and/or severe disease.*

California Wildland Fire Coordinating Group

Framework for Mandatory COVID Testing on Federal Fire Incidents in California

Due to the risk of spread of COVID-19 to individual fire personnel and modules, as well as the overall impact on firefighting capacity, the federal leadership of the California Wildland Fire Coordinating Group (CWCG) have decided to move forward with the intent of mandatory testing on all federal fire incidents in California, specifically type 1 and 2 wildfire incidents when logistically possible (e.g. personnel to support, testing available). This intention applies to all federal employees and federal contractors regardless of vaccination status and will be voluntary for partners and cooperators involved in a federal fire incident.

To date, the Department of Agriculture, Forest Service, Pacific Southwest Region, COVID-19 Emergency Response Team (CERT) implemented two mandatory pilot testing programs in California. The first pilot program was during the McFarland Fire on the Shasta-Trinity National Forest. The testing service was provided through a contract. The second pilot program was on the French Fire during unified command between the Bureau of Land Management and the Sequoia National Forest. Cal OES provided the testing service. These pilot programs provided many lessons to assist with more effective implementation on other fire incidents.

To implement this intent the CERT and a Point of Contact (POC) from each of the following Department of the Interior (DOI) agencies: Bureau of Indian Affairs, Bureau of Land Management, Fish and Wildlife Service and the National Park Service will coordinate and collaborate.

It is recognized that testing in and of itself is not a silver bullet, but it is an important tool in the suite of COVID mitigations to protect fire personnel, modules, and their families and friends when personnel return home from fire incidents. With increasing COVID cases over the past few months, and continued fire activity expected in the weeks and months ahead, we have decided this is a necessary tool until vaccine requirements for the federal workforce are fully implemented.

Mandatory Testing Intent & Framework

- Applies to all federal employees and federal contractors on type 1 and 2 wildfire incidents in California, regardless of vaccination status.
- Testing will be provided for partners and cooperators that volunteer or request testing, if testing capacity is available.
- The requirement for testing will be included in the resource order for those resources identified as available to fill orders.
- Refusal of COVID testing on incidents will be handled on a case-by-case basis by the employee's agency or the hiring agency of the federal contractor with participation on the incident not occurring until a resolution is identified.
- If there are logistical challenges (e.g. personnel support, testing availability) the CERT and DOI POCs will attempt to implement this intent in the following priority order: (1) test individuals upon arrival to an incident, (2) test individuals upon demobilization from an incident, (3) test individuals that are already assigned to an ongoing incident at frequencies recommended by the Centers for Disease Control and Prevention (CDC).

HEALTH AND SAFETY MESSAGE

SAFETY IS NO ACCIDENT!

INCIDENT: CALDOR FIRE

DATE: 10/8-9/2021

TIME: 0700-0700

Major Hazards and Risks: Driving & Vehicle Traffic, Inclement Weather, Slick Roads, Reduced Visibility, Hypothermia, Hazard Trees, Personal Hygiene, Bears, and Complacency!

Fire Order of the Day– **MAINTAIN CONTROL OF YOUR FORCES AT ALL TIMES**

You can avoid hypothermia with the following precautions:

- Stay hydrated.
- Avoid fatigue.
- Avoid cold winds.
- Change out of wet clothes.
- Be aware of the symptoms and act immediately upon their onset.

If you recognize hypothermia in someone, take the following steps:

- Move the patient to shelter.
- Remove wet clothes and replace them with warm, dry garments.
- If the victim is alert, give them food and warm liquids to drink.

Go to <https://www.nwcg.gov/committee/6mfs/hypothermia> for more info.

DRIVING IN INCLEMENT WEATHER

- **SLOW DOWN!**
- **CLEAN YOUR WINDSHIELD**
- **DON'T DRIVE UNLESS NECESSARY**
- **GIVE LOTS OF SPACE**
- **PRETEND NOBODY KNOWS HOW TO DRIVE IN INCLEMENT CONDITIONS.**
- **KEEP INFORMED OF CURRENT AND EXPECTED WEATHER.**

Watch Out Situation of the Day: No Communication Link with Crewmembers or Supervisor

Incident Safety Officers: Jack Wise SOF2, Kevin Southerland SOF2

INCIDENT SAFETY ANALYSIS 215a

Caldor Fire / CA-ENF-024030 - Friday, October 08, 2021

8. Location	9. Hazard	6. Control or Abatement Action (Engineering, Administrative, PPE, Avoidance, Education, etc)
All	Hazard Trees	<ul style="list-style-type: none"> ~ Follow "Hazard Tree Safety" guidelines, IRPG page 22. ~ Post lookouts, or use a spotter in mop-up areas with personnel. ~ Don't park vehicles or take breaks in high concentrations of hazard trees. ~ Establish trigger points for disengagement during high wind events. ~ Remember that the hazard zone extends a minimum of 2 1/2 tree heights.
All	Helicopter Operations	<ul style="list-style-type: none"> ~ Ensure positive communication with all air resources. ~ Don't plan on air resources for medical transport or resupply. ~ Follow "Aviation Watch-Out Situations" IRPG Pg 46. ~ Refer to "Directing Bucket or Retardant Drops" IRPG Pg 58 . ~ Refer to "Aircraft Mishap Response Procedure" IRPG Pg 62. ~ Stay clear of all bucket drops when suppression actions are in place and allow 1 minute prior to re-entry. ~ Monitor A-G communications.
All	Heat Related Illness (HRI)& Dehydration	<ul style="list-style-type: none"> ~ Refer to Heat Related Illness information, IRPG Pg 109 ~ Drink Fluids throughout operational period (6-8 qts/shift). ~ Maintain water/electrolyte ratio of 3 to 1. ~ Carry extra water on line and cache water at drop points. ~ Take Frequent breaks, minimum of 10 minutes every hour. ~ Allow out of area resources time to acclimatize before expecting peak performance. ~ Recognize symptoms of HEAT RELATED ILLNESS which include. <ul style="list-style-type: none"> o Lack of energy o Headaches, dizziness o Lack of rest o No hunger, poor eating habits o Hot skin, and lack of sweating
All	Heavy Equipment Operations	<ul style="list-style-type: none"> ~ Refer to "Working with Heavy Equipment" IRPG Pg 86 ~ Ensure communications are established with operators. ~ Use hand signals if other communications are unavailable. ~ Maintain a 50'-100' exclusion area around equipment and increase it to 1 1/2 times tree height when in timber. ~ Use a spotter when backing. ~ Avoid working below heavy equipment.
All	Personal Hygiene	<ul style="list-style-type: none"> ~ COVID-19 is on the rise. ~ Don't share personal items such as water bottles communication devices and utensils. ~ Wash hands before meals, and after use of rest room facilities.
All	Injury & Medical Emergency	<ul style="list-style-type: none"> ~ COVID-19 is on the rise. ~ Conduct daily COVID screening, report any symptoms to Medical immediately, and isolate those that have been exposed. ~ Assist injured employee appropriate medical care. ~ Use EMT's on Division for initial care. ~ Follow "Emergency Medical Care" IRPG Pgs 105-118 ~ Follow procedures in Medical Plan, ICS 206 ~ Refer to "Planning for Medical Emergencies" IRPG Pg 2
All	Vehicle Operations in Inclement Weather	<p>COLD FRONT EXPECTED!</p> <ul style="list-style-type: none"> ~ Be alert for potential icy and muddy road surfaces. ~ Stay off secondary roads in icy/snowy/wet conditions. ~ Postpone nonemergent operations when roads are covered with snow or ice. ~ Send a scout to evaluate roads and work area prior to personnel engagement. ~ Avoid parking on soft shoulders along roads. ~ Increase following distance on slick road surfaces.

INCIDENT SAFETY ANALYSIS 215a

All	Driving & Traffic	<ul style="list-style-type: none"> ~ Practice "Defensive Driving" techniques traveling on all roads and city streets. ~ Use spotters & Honk horn to alert personnel when backing. ~ Follow Driving LCES (Lights, Chock blocks, Emergency brake, Seat belts). ~ Always use headlights. ~ Yield to pedestrians and bicycles. ~ Observe posted speed limits. ~ Use the 3 second rule for following distance when driving. ~ Use chock blocks, turn wheels into hill. ~ Avoid distractions (eating, cell phones, radio). ~ Ensure that windshields are kept clean of dust and bugs. ~ Refer to "Smoke and Transportation Safety" IRPG Pg 31 ~ Refer to "Roadside Response Safety" IRPG Pg 26
All	Chain Saw Operations	<ul style="list-style-type: none"> ~ Follow "Hazard Tree Safety" guidelines, IRPG Pg 22 ~ Follow "Procedural Felling Operations" IRPG Pg 85. ~ Look up, Look down, Look around for hazard tree indicators. ~ Only fell and buck trees within your expertise, and training. ~ Do not fall trees during high wind events. ~ Ensure proper use of all required PPE.
All	Communications	<ul style="list-style-type: none"> ~ Maintain communication with aviation resources, and suppression organization. ~ Ensure all know frequency and protocol for contacting resources. ~ Utilize the ICS 205. ~ Utilize human repeaters when working in dead spots.
All	Fireline Hazards	<ul style="list-style-type: none"> ~ Refer to "Fireline Location" considerations, IRPG Pg 84 ~ Do not work directly above or below personnel during firing and mop-up operations. ~ Watch for falling and rolling debris on steep slopes. ~ Alert crew personnel of rolling debris by yelling to affected individuals. ~ Position debris that could roll vertically on slope. ~ Avoid stepping over debris that could roll by walking around object. ~ Avoid radiant heat by wearing appropriate PPE correctly. ~ Use correct tool for task assigned. ~ Flag and isolate all HAZMAT and alert all personnel working in Division. ~ Follow WUI recommendations, IRPG Pg 12.
All	Mop-up & Rehab	<ul style="list-style-type: none"> ~ Do not work above or below personnel during rehab/mop-up operations. ~ Alert crew personnel of rolling debris by yelling to affected individuals. ~ Position debris that could roll vertically on slope. ~ Wear eye protection.
All	Unburned Area/Reburn Potential	<ul style="list-style-type: none"> ~ Monitor weather. ~ Base actions upon observed and predicted fire behavior. ~ LCES Checklist IRPG Pg 7. ~ Refer to "Look Up, Down and Around" IRPG Pg 3
All	Cold Weather	<ul style="list-style-type: none"> ~ Carry extra clothing to prevent hypothermia following shift. ~ Dry out gear each night for next day. ~ Watch footing on frozen ground. ~ Maintain personal hydration. ~ Monitor wind-chill and establish trigger points for disengagement. ~ Monitor personnel for indications of hypothermia. (refer to www.nwcf.gov/committee/6mfs/hypothermia)
All	ATV/UTV use	<ul style="list-style-type: none"> ~ Ensure equipment is inspected and safe to use. ~ Restrict UTV's to max width of 50" on ATV trails due to width and severe out sloped conditions. ~ Ensure operator is trained and certified to operate. ~ Ensure operator has proper PPE according to the Redbook and/or operator's agency requirements. ~ Question if it is mission critical.
All	Night Operations	<ul style="list-style-type: none"> ~ Maintain high visibility in work area and wear vest while in roadway. ~ Use glow sticks to mark hazards. ~ Ensure personnel have a personal light (headlamp). ~ Watch for signs of fatigue. ~ Take breaks away from areas of known hazard.

INCIDENT SAFETY ANALYSIS 215a

All	Power Utilities	<ul style="list-style-type: none"> ~ Refer to the IRPG page 24 for Power Line Safety. ~ Notify all personnel of down electrical lines. ~ Always treat downed wires as energized. ~ Identify and avoid high tension transmission lines. ~ Identify and avoid high pressure natural gas lines. ~ Identify and avoid damaged gas service near structures. ~ Be aware of utility restoration in your work area.
All	Steep Terrain & Rolling Debris	<ul style="list-style-type: none"> ~ Maintain 8'-10' spacing when working & walking. ~ Don't work above any personnel. ~ Be on the lookout for rolling rocks, debris, or burning material. ~ Evaluate necessity to send personnel in areas with limited access. ~ Post lookouts IRPG Pg 7
All	Unplanned Public Interaction	<ul style="list-style-type: none"> ~ Be alert to non-fire personnel in areas with suppression personnel. ~ All non-fire personnel will be escorted while on fireline. ~ Post lookouts to in areas with public to avoid conflicts with mission tasks. ~ Ensure sufficient security to restrict access to exclusion area.
All	Wildlife & Livestock	<ul style="list-style-type: none"> ~ Bear Habitat - on the line, in camp, and in town. ~ Refer to: USFS "Be Bear Aware". ~ Never approach bears or cubs - KEEP A SAFE DISTANCE - do not impose for sightseeing or photo taking purposes. ~ Bears are wild animals and can be unpredictable -- even dangerous. ~ While bears are attracted to any edible food, they also might try to feast on items we might not consider edible. ~ Prevent vehicle break-ins - ALWAYS REMOVE SCENTED ITEMS FROM YOUR VEHICLE - including items such as food wrappers, sunscreen, lip balm, hand lotion and air fresheners. ~ Be sure to always lock your vehicle and close the windows. ~ Keep in mind eating in the car leaves lingering food odors that attract bears. ~ Watch out for wildlife inside fire area and along roadways. ~ Clean up all food debris and BACKHAUL trash during each operational period.
All	Mid-slope Fireline	<ul style="list-style-type: none"> ~ Refer to "Fireline Location" IRPG Pg 84 ~ Ensure good anchor point. ~ Base actions upon current and predicted fire behavior and weather. ~ Post lookouts, identify escape routes and safety zones IRPG Pg 7
All	Structure Protection & HAZMAT	<ul style="list-style-type: none"> ~ Review "Wildland Urban Interface Firefighting" considerations, IRPG Pg 12-16 ~ Use "Structure Assessment" checklist, IRPG Pg 13 ~ Refer to "Structure Hazard Marking System" IRPG Pg 41 ~ Follow "HAZMAT Incident Operations" IRPG Pg 36

6. Work Assignments:									
TASK: Secure existing line and provide for tactical patrol within the Hwy 50 corridor. Coordinate with REAFs and mop up to the extent necessary on the fires edge and within the perimeter where infrastructure and values at risk are present									
PURPOSE: Minimize any fire progression and ensure the safety of those working on the west side of Mormon Emigrant Trail									
END STATE: Fires edge in the division is controlled and escape is improbable									
7. Special Instructions:									
Backhaul trash, excess supplies and provide a location for accountable property									
Identify and coordinate the removal of hazard trees									
Resources need to report to El Dorado County Fairgrounds (100 Placerville Dr, Placerville, CA 95667) for briefing

6. Work Assignments:
 TASK: Secure perimeter utilizing existing natural barriers and take suppression action around Echo Lake and upper Forni Meadows.
 PURPOSE: Minimize any fire progression and ensure the safety of those working north of Hwy 50; coordinate with Suppression Repair for accountability and safety of those working along Wright Lake Road
 END STATE: Fires edge in the division is controlled and escape is improbable

7. Special Instructions:
 Backhaul trash, excess supplies and provide a location for accountable property
 Identify and coordinate the removal of hazard trees
 * Indicates IA Resource
 Resources need to report to Heavenly ICP (3860 Saddle Rd., South Lake Tahoe, CA 96150) for briefing and end of shift

6. Work Assignments:
 TASK: Perform priority suppression repair work within Branch 1. Repair contingency line along Peavine Ridge and Granite Springs Rd while continuing Hazard Tree Removal along Mormon Emigrant Trail and Sierra at Tahoe
 PURPOSE: Minimize any near-term environmental resource impacts as a result of fire suppression efforts
 END STATE: Watershed and areas adjacent to values at risk are protected using the approved standard

7. Special Instructions:
 Backhaul trash, excess supplies, and provide a location for accountable property.
 Identify and coordinate the removal of hazard trees

 Resources need to report to El Dorado County Fairgrounds (100 Placerville Dr, Placerville, CA 95667) for briefing

MEDICAL PLAN (ICS 206 WF)

Controlled Unclassified Information//Basic

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency / Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>	
Nature of Injury or Illness & Mechanism of Injury		Brief Summary of Injury or Illness <i>(Ex: Unconscious, Struck by Falling Tree)</i>
Transport Request		Air Ambulance / Short Haul/Hoist Ground Ambulance / Other
Patient Location		Descriptive Location & Lat. / Long. (WGS84)
Incident Name		Geographic Name + "Medical" <i>(Ex: Trout Meadow Medical)</i>
On-Scene Incident Commander		Name of on-scene IC of Incident within an Incident <i>(Ex: TFLD Jones)</i>
Patient Care		Name of Care Provider <i>(Ex: EMT Smith)</i>

3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)

Patient Assessment: See IRPG page 106

Treatment:

4. TRANSPORT PLAN:

Evacuation Location (if different): *(Descriptive Location (drop point, intersection, etc.) or Lat. / Long.)* Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards:

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.

8. ADDITIONAL INFORMATION: Updates/Changes, etc.

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.

Resource Advisor Update

Avoidance areas for cultural and sensitive resources are being flagged within Divisions. If work needs to occur in areas identified by the following flagging/placard, please contact a REAF assigned to your Branch.

Lake Tahoe Basin Lead READ – Emma Williams

Caldor Suppression Repair Guidelines

Frequently coordinate repair efforts with REAFs on repair priorities and specific guidelines. The following standards are to be met during suppression repair operations:

Handlines, Dozer Lines, and Safety Zones

- Construct waterbars, rolling dips, or chunk/waffle all fire lines on slopes >10%.
- **Pull outside berms back** into the control line and distribute topsoil evening. Recontour the surface to allow for drainage. If line follows ridge, divert water equally to both sides of the ridge. Pull slash back over line.
- **Chunking** involves using an excavator to decompact and roughen surfaces of control lines by creating up to 1ft x ft divets in a continuous egg carton pattern. Coordinate with REAFs for guidelines.
- **Water-bars** will be constructed at a 35 – 40° angle across slope. Downslope end must be open and should discharge into vegetated or protected surface.
 - Water bar depths for **dozer lines** should be at least 6 inches; total height from bottom of ditch to the top of the waterbar should average at least 18 inches and not exceed 24 inches.
 - Water bar depths for **hand lines** should be at least 4 inches; total height from bottom of ditch to top of water bar should average at least 8 inches and not exceed 12 inches. Higher water bars do not necessarily mean better water bars.

Fire Line % Slope)	Maximum distance apart (feet)
1 - 10	Every 100
10 - 30	Every 75 - 100
30 - 50	Every 50 – 75
>50	Every 50

- **Conceal or hide points of access** using the landscape and available materials. In high OHV use areas, block the first 50 – 100ft of the dozer line with boulders or chunk if not covered by logs, brush, or other veg. Downed trees should be dirty to prevent cutting/collection.
- **Remove deposited or perched soil and suppression debris from streams, watercourses, swales, or draws.** Do not remove more than necessary to prevent damaging watercourse. Restore impacted channel shape to adjacent channel shape. Spread removed soil across fire line. **Contact REAF before starting stream, drainage, wetland, or meadow repair.**
 - Do not remove woody debris that was in the channel prior to the fire.

Roads

- Install waterbars where waterbars previously existed.
- Install or maintain rolling dips where a rolling dip previously existed.
- Clean culverts plugged with soil and rock resulting from fire suppression actions.
- **Remove all slash and debris from culvert** inlets/outlets resulting from suppression actions.
- Clean and grade ditch lines and lead off ditches as necessary.
- Water roads for dust abatement.
- Remove sediment from watercourse crossing locations and stabilize watercourse crossing approaches as appropriate for pre-existing road use.

Caldor Suppression Repair Guidelines

Vegetative Debris (activity fuels) Treatment

- Concentrations of slash created by fire suppression activities along roadways and among structures should be treated to reduce fire hazard. Treatments include mastication, lopping and scattering, and chipping. Where feasible, vegetation treated by mastication or lopping and scattering should not exceed 18 inches in height. Chipped material should be spread across the cleared area. Chip piles should not exceed 6” in depth on the ENF or 3” in depth on the TMU.
- Concentrations of slash within 100 feet of habitable structures should be removed or chipped.

Fences

- Repair fences damaged during fire suppression operations. Intent of fence repair is to prevent livestock or other animals from escaping.

Compensation Claims

- For all other property damage beyond the scope of the Suppression Repair Plan, please document the damage on an ICS 213 and submit it to the Incident Management Team Compensation Claims Unit.

Housekeeping

- **Remove and dispose of trash or litter** from all fire lines, camps, parking and staging areas.
- Remove flagging from line and trail.
- Close gates that were opened and repair any fences and gates cut or damaged by fire suppression resources.

Thank you for your safe and diligent work repairing your National Forest lands!

*Interagency Incident
Management*

CODE OF CONDUCT INCIDENT PERSONNEL

Each individual on this incident is responsible for:

- Being *ready and able* to perform their assigned duties effectively
- Conducting themselves in a manner that treats people with dignity, equality, courtesy, and respect
- Abiding by agency ethics and conduct regulations
- Reporting any harassment or other inappropriate behavior

Each individual on this incident has the right to:

- Work in an environment characterized by safe work practices
- Work in a fair and harassment free environment
- Say “No” to unwelcome advances or requests for favors
- File complaints or grievances through appropriate avenues

There is zero tolerance for inappropriate behavior while assigned to the incident, including

- Illegal drug use
- Alcohol use
- Unsafe work practices and activities
- Discrimination
- Sexual harassment
- Fighting, threatening and abusive behaviors
- Using social media and electronic communication devices for personal business while engaged in fire assignment duties
- Other violations of USDA and Forest Service standards of conduct

Failure to adhere to the Code of Conduct could result in dismissal from the incident, with notification to your home unit.

The public expects our best efforts; they see us as professionals in what we say and do. Let's continue to show them we are!

HUMAN RESOURCES MESSAGE

October 8, 2021

Our time is getting shorter...

How about our Tempers???

We can see the end in sight, although this has been an uncertainty for a while. Some are ready to leave; some are wishing it was longer.

With the hard work and especially the changes taking place, it is easy to get on edge and "on the edge" with each other. Let's guard against that, and try to help each other out.

Take care and be safe.

A quick temper will make a fool of you soon enough.

~Bruce Lee

HR staff is here to assist in creating a positive work environment for all. If issues arise please don't hesitate to contact me via the information below or in HR Office trailer.

Human Resources Specialist– Jon Tipton
971.347.7314 (call/text) or email @ jonathan.tipton@usda.gov

MEDIA – The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and the news media may not interfere with incident operations. Please always treat the media with courtesy and respect and advise the Information Office if there are any issues.

PHOTOGRAPHS AND VIDEOS OF INCIDENT – Please refrain from posting incident related videos to your personal social media. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera loses their situational awareness. When this happens it could reflect poorly on all that are attached to this incident.

Please email photo and video submissions to 2021.Caldor@firenet.gov

MAIL – If you need to send or receive mail, please see the mailing address below. Sending letters, cards to your loved ones, or mailing bills. Please stamp your mail and it will be taken to the post office for you. If you don't have a stamp, we will provide one.

Mailing address for the Caldor Fire:

FINANCE MESSAGE

Fire Name: Caldor Fire
Fire Number: CA-ENF-024030
Accounting Code: P5N8GM21
Email: 2021.caldor.finance@firenet.gov
Hotline: 530-330-5450

If you were originally ordered on a CALFIRE contract and have not submitted a VIPR contract and RO or received an EERA (Fed contract) – CONTACT FINANCE TODAY you might not get paid.

Finance Documents Needed upon “Check In” (If Not Already Submitted):

Please email these documents or scan the QR Code below, attach & submit.			
Agency Equipment/ Crews: <ul style="list-style-type: none"> • Manifest - showing employment type (GS or WG) or AD rates if applicable 	Overhead: <ul style="list-style-type: none"> • AD/Casual Hire Form • If regular Agency please ensure “GS” or “WG” is written on your first CTR 	Contract Equipment/ Contract Crews: <ul style="list-style-type: none"> • Agreement • Manifest • Resource Order • Inspections 	Cooperator: <ul style="list-style-type: none"> • Cooperative Agreement • Resource Order

Please submit your CTR/Shift Tickets using the QR code or email address below:

Don't Forget to put your RO # on your CTR/Shift Ticket – final travel CTR's must be signed by supervisor on incident - Thank You

Please Include the Word “Equipment” for Federal Contract Equipment or “Time” for Federal Overhead & Crews in the Subject Line of the Email

Local Government Resources on CFAA

If you are demobing and there is no OES AREP there:

- Have the FSC or IC review and sign your 42s
 - You give the incident the pink copy
 - You keep the gold copy
- You mail the white and green (if it has a green) to OES Headquarters per the instructions on the

42

OES JOB AIDS, FORMS, F-42 SAMPLES AND CFAA AGREEMENT

**Your OES Fire & Rescue Assistant Chief
Kit Bailey
530-307-1307**

Hotel Acquisition Process

Due to continuing bear issues at the ICP as well as predicted inclement weather, the incident is **requiring** individual procurement of hotel accommodations. This is for lodging only. The process below discusses financial procedure and documentation:

If you are a **local agency dispatched through CFAA**, you will need to acquire an S# prior to demob. This number will also be entered on your F-42 form.

Federal resources with a travel card will be processed through your agency's travel reimbursement process. Finance will provide a 213 with approval statement upon demob, if required by your agency.

All other non-federal resources, or federal resources that do not have purchasing capability, complete the following:

ADs who are able to pay and get reimbursed for travel will need to pay for lodging and get reimbursed through your normal reimbursement process. You will be given a 213 with authorization statement from the finance section during demob.

ADs and Seasonal Federal Employees who are unable to pay for lodging, the buying team may be able to assist with purchasing your accommodations. Inquire with the incident finance section. Federal resources who have the crew boss card option should use this as a first option.

In accordance with each individual contract, contractors shall pay for lodging and submit receipts for additions to your invoice (OF-286). Itemized receipts are required by the finance section during demob. Copies may also be submitted electronically or hard copy during assignment to save time at demob. Please be sure to write your resource order number on the document. Also, please note that double occupancy may be required on many contracts.

If you're not in one of these categories or uncertain, finance can help you check. Please use the hotline number: 530-330-5450 or email: 2021.Caldor.finance@firenet.gov If emailing include your resource number, type of resource and contact phone number.

West Side, Branch 1: *Hotel and Dinners*

Resources working the West side of the incident and briefing at the El Dorado fairgrounds are expected to be self-sufficient for dinners and hotel accommodations. You will be expected to procure your own hotel and remain within the per diem rates of \$135 a night before tax and \$28 for dinner after tax and tip. Breakfast, sack lunches, and hydration products will be provided at briefing. Branch 1 will advise if you need to return to the fairgrounds in the evening.

East side Branch 3 Hotels

All meals are provided by the incident. You will be responsible to acquire your own lodging. You must assure all nights are within the \$135 per diem rate. The following hotel options are available within per diem rates. To avoid rate changes, book your rooms for the anticipated duration of your assignment. If you demob early cancel any remaining nights.

Hard Rock Hotel. Promo code "USFOREST"

Lake Tahoe Resort Hotel (Large Vehicle parking is limited)

Harveys Lake Tahoe (large vehicle parking lot is at large parking lot at Harrahs)
