#### INCIDENT WEATHER FORECAST

FORECAST NO: 40

PREDICTION FOR: 24 Hour Shift

SHIFT DATE: 09/27/21

FORECAST ISSUED: 09/26/21 1900

NAME OF FIRE: Caldor UNIT: USFS Eldorado NF

SIGNED: Patrick Gilchrist/Shawn Palmquist (T)

Incident Meteorologist

# ... Red Flag Warning in Effect through 0500 PDT Tuesday...

#### **WEATHER DISCUSSION:**

Southwest winds will continue to increase over the fire today as an upper trough moves onshore, breaking down the upper ridge. While temperatures will be a little cooler and RH a little higher, strong southwest winds are expected, leading to critical fire weather conditions. The strong southwest winds will continue tonight. A cold front will move through the fire area between 0400-0700 PDT Tuesday, bringing the possibility of a few rain showers along with cooler conditions. Expect winds to decrease quickly behind the front for Tuesday.

.TODAY...

Sky/weather......Partly cloudy. Increasing clouds in the afternoon.

Max temperature.....59 to 69 above 5000 feet and 69 to 76 below 5000 feet.

Min humidity.....20 to 30%.

Wind (20 ft).....

Slope/Valley.....Southwest 15-25 mph. Gusts to 30 mph.

Ridgetop.....Southwest 25-30 mph. Gusts to 45 mph.

Mixing height... increasing to 10000 ft MSL mid-afternoon.

.TONIGHT...

Sky/weather......Mostly cloudy. Chance of showers after midnight (30%). Cold front passage between 0400-0700

PDT.

Min temperature.....36 to 40 midslope to ridgetop. 40 to 47 valleys. (Middle 30s valleys east of the crest.)

Max humidity......70 to 90%.

Wind (20 ft)......

Slope/valley.....Southwest 20-30 mph. Gusts to 40 mph.

Ridgetop......Southwest 25-35 mph. Gusts 40-50 mph; up to 60 mph over the highest exposed peaks.

.TUESDAY...

Sky/weather......Decreasing clouds. Chance of showers in the morning (30%).

Max temperature.....48 to 58 above 5000 feet and 58 to 66 below 5000 feet.

Min humidity......30 to 40% midslope to ridgetop. 25 to 30% valleys.

Wind (20 ft).....

Slope/Valley.....West 10-20 mph in the morning decreasing to 8-15 mph in the afternoon.

Ridgetop......West 15-25 mph in the morning decreasing to 10-20 mph in the afternoon.

Mixing height... increasing to 10000 ft MSL mid-afternoon.

Branch 1

Branch III

FIRE BEHAVIOR FORECAST								
FORECAST NUMBER: 11 TYPE OF FIRE: Vegetation								
FIRE NAME: Caldor	OPERATIONAL PERIOD: Sept 27th 24 Hour							
DATE ISSUED: Sept 26 <sup>th</sup>	TIME ISSUED: 2000							
UNIT: CA Eldorado National Forest/Lake Tahoe Basin	SIGNED: Robert Scott 530-990-4048							
Management Unit	Fire Behavior Analyst (FBAN)							

ATHER SUMMARY: See detailed Fire Weather Forecast in IAP \*\* RED FLAG WARNING \*\*

#### **FUELS:**

Needles and leaves from dry and underburned trees is creating a fresh fuel bed. Fire will move easily through these fuels, often undetected, until reaching heavy fuels. The Eldorado National Forest is currently classified as 'Extreme to Exceptional' drought by the US Drought Monitor, with Energy Release Components exceeding the 90<sup>th</sup> percentile, not far off all time high levels. Heavy dead and down fuels will likely burn completely, holding heat and actively consuming through all hours of the day. Fine dead fuel moisture is calculated at 3% or less.

EXPECTED FIRE BEHAVIOR: Based on the Warmest, Driest, Windiest Conditions Forecasted

Maximum Spotting	Fuel Type/Model	Maximum	Maximum
Distance		Rate of Spread (chains/hour)	Flame Length (feet)
O. 6mile Probability of Ignition 64 %	Timber understory (TU5- Overstocked and/or dense reprod)	Head 20-25 ch/hr Flank 3-5 ch/hr	Head 11-13 ft Flank 4-6 ft
	Timber litter (TL6-closed canopy, ground fuels)	Head 15-20 ch/hr Flank 2-4 ch/hr	Head 3-5 ft Flank 2-4 ft

General: Increase spread potential with front passage, increased winds, and fresh fuel bed. Relief from very dry conditions will also accompany frontal passage but not before containment lines are wind tested. Drainage and wind alignment will amplify rates of spread.

#### **SPECIFIC**

**Branch 1** - Line locations along ridge top will see strong winds with unfavorable wind directions. Special care should be taken to verify continuous fuel beds have not been created across control lines with forecast stronger winds.

**Branch 3** – Higher elevation locations will see the highest winds speeds of this incident. Fire transitioning to crowns will produce moderate to long range spotting.

Divisions India and Mike could see increased surface fire activity as exposed areas will experience increase wind impacts. Pockets of heat well interior could produce fire movement to green inlands as fire finds fresh fuels to move through. Repopulation in the Highway 50 corridor may bring an increase in service calls; potential for reburn remains in the green islands.

Divisions Quebec and Romeo These areas will experience the strongest winds with the passing front. Broken fuels and rocky areas have left stringers of unburned fuel. Fire moving across ridges will see some shelter on the east aspects but will continue to move with the wind.

Divisions Oscar and Papa are favorably aligned with forecast winds. Containment lines are experienced lower severity impacts and reburning and flare ups could threaten to containment lines. High winds will likely have heavies and root wads burning again, producing smoke visible to residents.

**Night Operations:** Winds will increase into the evening hours before increasing relative humidity and reduced winds provided relief from red flag conditions.

#### AIR OPERATIONS:

Winds speeds will approach maximin levels aviation operations.

#### SAFETY:

Introduction of fresh fuel bed from needle cast will allow fire to move across the landscape in previously burned areas. Fire can rapidly transition from surface fire to group touching and crowning.

# Health & Safety Message

Incident: CALDOR Fire Date/Op Period: Day/Night Shift CA-ENF- 024030 Date/Op Period: 9/27 - 28/21

#### Hazards & Risks

Fuel Geysers: Cases of "Fuel Geysers" involving leakage of chainsaw fuel, vapor lock/ tank pressurization, and fuel spray have resulted in serious burns to firefighters. Firefighters should remember that fuel leakage, vapor lock/tank pressurization and potential fuel spray can occur at any time when using chainsaws. Fuel can become pressurized in any container that does not automatically vent and can spray out when pressure is released rapidly. For firefighters working near ignition sources, having fuel on your clothing or skin presents a significant hazard. Personal Protective Equipment, even flame resistant clothing does not provide protection when fuel-soaked PPE ignites.

**<u>Fire Camp Safety:</u>** We usually don't think of Fire Camp as a dangerous place but camp has a few hazards to look out for:

- Trip hazards such as stairs, tent stakes, cables and wires are abundant.
- Vehicle traffic in and around parking areas and driving through camp.
- Electrical shock from all the power cords and power strips plugged in our tents, kitchen area, hand wash stations and shower unit.
- Wildlife and insects.
- Walking and talking or texting on our cell phones.
- Sharp objects such as scissors, tacks, saws and nails.
- Adverse weather; to name just a few Fire Camp Watch Outs.
   So, pay attention to your surroundings and avoid distractions!

<u>Travel Home:</u> You've survived the fire, now survive the drive home. If you are demobing, get plenty of rest time prior to your departure, especially those of you with long drives. Take rest stops as needed and don't sacrifice your safety in a rush to get back. Use seat belts and ARRIVE ALIVE!

TASK: Secure existing line and provide for tactical patrol within the Hwy 50 corridor. Coordinate with REAFs and mop up to the extent necessary on the fires edge and within the perimeter where infrastructure and values at risk are present

PURPOSE: Minimize any fire progression and ensure the safety of those working on the west side of Mormon Emigrant Trail

END STATE: Fires edge in the division is controlled and escape is improbable

#### 7. Special Instructions:

Backhaul trash, excess supplies and provide a location for accountable property

Identify and coordinate the removal of hazard trees

TASK: Perform priority suppression repair work within Branch 1. Repair contingency line along Peavine Ridge and Granite Springs Rd while continuing Hazard Tree Removal along Mormon Emigrant Trail and Sierra at Tahoe

PURPOSE: Minimize any near-term environmental resource impacts as a result of fire suppression efforts

END STATE: Watershed and areas adjacent to values at risk are protected using the approved standard

#### 7. Special Instructions:

Backhaul trash, excess supplies and provide a location for accountable property

Identify and coordinate the removal of hazard trees

Resources denoted with \* is identified as I/A resources within the TFR. Resources denoted with \*\*\* are Lend Lease to the Rubicon Fire Resources need to report to El Dorado County Fairgrounds (100 Placerville Dr, Placerville, CA 95667) for briefing

#### 6. Work Assignments:

TASK: Secure containment lines south of Lyons Lake. Utilize natural barriers as containment lines and take suppression action on the Smith Fire. Mop up to the extent necessary on the fires edge and provide for tactical patrol, responding to community needs along Hwy 50

PURPOSE: Minimize any fire progression and ensure the safety of those working north of Hwy 50

END STATE: Fires edge in the division is controlled and escape is improbable

#### 7. Special Instructions:

Backhaul trash, excess supplies and provide a location for accountable property

identify and coordinate the removal of hazard trees

Resources denoted with \* is identified as I/A resources within the TFR. Resources denoted with \*\*\* are Lend Lease to the Rubicon Fire Resources need to report to Heavenly ICP (3860 Saddle Rd., South Lake Tahoe, CA 96150) for briefing and end of shift

6. Work Assignments:						<b>L</b>	

TASK: Support crews taking suppression action near Trimmer Peak. Provide for a tactical patrol and respond to any calls for service.

Coordinate with REAFs and mop up to the extent necessary on the fires edge and within the perimeter where

infrastructure and values at risk are present.

PUROSE: Minimize any fire progression, keeping the fire within its current footprint

END STATE: Fires edge in the division is controlled and escape is improbable

#### 7. Special Instructions:

Backhaul trash, excess supplies and provide a location for accountable property

Identify and coordinate the removal of hazard trees

Resources denoted with \* is identified as I/A resources within the TFR. Resources denoted with \*\*\* are Lend Lease to the Rubicon Fire Resources need to report to Heavenly ICP (3860 Saddle Rd., South Lake Tahoe, CA 96150) for briefing and end of shift

#### 6. Work Assignments:

TASK: Perform priority suppression repair work within Branch 3. Coordinate closely with CALFIRE AEU and USFS REAFs, focusing efforts of hazard tree removal along Scout Peak Rd and repair in Angora Mtn, Tahoe Mtn and High Meadows

PURPOSE: Minimize any near-term environmental resource impacts as a result of fire suppression efforts

END STATE: Watershed and areas adjacent to values at risk are protected using the approved standard

#### 7. Special Instructions:

Backhaul trash, excess supplies and provide a location for accountable property

Identify and coordinate the removal of hazard trees

Resources denoted with \* is identified as I/A resources within the TFR. Resources denoted with \*\*\* are Lend Lease to the Rubicon Fire Resources need to report to Heavenly ICP (3860 Saddle Rd., South Lake Tahoe, CA 96150) for briefing and end of shift

# Fire and COVID-19 Briefing Checklist

# Self-Awareness / Screening

- Notify supervisor if you or others experience:
  - o Cough, more than expected
  - o Difficulty breathing
  - o Loss of taste or smell
  - o Fever
  - o Chills
  - Sore throat
  - o Muscle pain
- <u>Immediately separate</u> yourself from others.
- Follow crew and division plans to isolate, triage, and transport symptomatic personnel.

# **Hygiene on the Fireline**

- Properly wash or sanitize your hands often
- Avoid handshakes and communal use items
- Inform supervisor of needed resupply.
- Disinfect high touch surfaces often

# Social distancing and protective equipment

- Practice social distancing
- Conduct briefings in conversations outdoors and at least <u>SIX</u> feet apart
- Utilize face coverings
- Clean or replace dirty face coverings, equipment, and PPE

# **Communications**

- Ensure effective sender/receiver messaging.
- Protect yourself, your crew, and your camp!

Any questions contact:

BARTON HEALTH COVID HOTLINE: 530-600-1999

MEDL Brandon Bennewate @ (805) 813-3858

MEDL Nick Stepanian @ (909) 908-4778

# You know about the fire triangle.

# Do you know there is also a disease triangle?

Treat Covid just like you would a fire. Remove one of the legs of the triangle and the pandemic is that much closer to being over.

# FEDERAL EMPLOYEES AND CONTRACTORS

EXTRACT FROM Secretary Vilsack and Deputy Secretary Bronaugh

Thank you to the tens of thousands of USDA employees who have already been fully vaccinated. For those of you who still need to be vaccinated, below are interim deadlines that will ensure you are two weeks from your last does and thus fully vaccinated by the Nov. 22nd deadline. You can visit <u>vaccines.gov</u> to find a COVID-19 vaccine near you and learn more about the benefits of vaccinations:

- Oct. 11: First dose deadline (Moderna COVID-19 vaccine)
- Oct. 18: First dose deadline (Pfizer COVID-19 vaccine)
- Nov. 8: Second dose deadline (Moderna and Pfizer vaccine)
- Nov. 8: First (only) dose deadline (Johnson and Johnson COVID-19 vaccine)
- Nov. 22: Federal employees must be fully vaccinated

Please be aware that USDA employees will be required to provide more information about vaccine status, including proof of vaccination. In the coming days, Pandemic Coordinators will be following up with their agency or staff office regarding how we will collect this information in a way that maintains privacy while also meeting new federal reporting requirements.

If interested, please reach out to COVID Advisors

**East Caldor** 

**Greg Flory 530-721-5975** 

**West Caldor** 

Kayla Nimmo 785-475-5748

# Fire Information

### **Public Information Office**

**California Team 12** - Fire Information is at your service. Not only do we provide service and information for our public during an incident but, we also provide a service to our Team, and all the personnel assigned. These services include and are not limited to the following:

**Lost and Found:** If you have lost it and someone has found stop by our trailer up front by security and claim it. Let us know that you lost something come by, fill out an S213 with your contact information and if it is found and brought to us we will contact you.

Mail: CAIIMTeam-12 can/will provide mail services for you during your deployment: If you need to send or receive mail, please see the mailing address below. Sending letters or cards to your loved ones or mailing bills. Please, stamp your mail and it will be taken to the Post Office for you, if you don't have a stamp, we will provide one.

#### The mailing address is:

Caldor Fire Camp
Attention: (Your Name & RO/Crew Name)
3680 Saddle Road
South Lake Tahoe, CA 96150

**Photos:** To help us tell the story of the CALDOR FIRE and we appreciate photos but, please do not lose your situational awareness just for that one photo.

You can bring the photos by our shop or email them to: 2021.Caldor@firenet.gov

THANK YOU FOR YOUR SUPPORT and BE SAFE OUT THERE... 10's & 18

## VIRTUAL DEMOBILIZATION

#### Please follow the steps below in order:

- Scan the QR code and select the "REMOTE DEMOB" item.
   PLEASE DO NOT complete this step more than 12-hours prior to your demobilization
- 2. Complete the questionnaire
- 3. Go to <u>Weed Wash</u> if your vehicle has driven on the Fire-line
- 4. Go to Ground Support for your post-inspection
- 5. Return items checked out from Supply
- 6. Return any items checked out in Communication
- 7. Go to <u>Finance</u> at the scheduled time to close out your CTR/Shift Tickets
- 8. Call <u>DEMOB</u> at 951-553-3415 to finalize your travel times.

PLEASE NOTE: If you have any problems contact Chris Adams (DEMOB UNIT LEADER) either by phone at 951-553-3415 or at DEMOB window.

O-20854	LIM, ROBERTA	0930		
O-20705	CHARLEY, SHELBY	0930		

### **Hotel Acquisition Process**

The Caldor incident has authorized the individual procurement of hotel accommodations. This is for lodging only. The process below discusses financial procedure and documentation:

If you are a **local agency dispatched through CFAA**, you will need to acquire an S# prior to demob. This number will also be entered on your F42 form.

**Federal resources with a travel card** will be processed through your agency's travel reimbursement process. Finance will provide a 213 with approval statement upon demob, if required by your agency.

All other non-federal resources, or federal resources that do not have purchasing capability, complete the following:

**AD's who are able to pay** and get reimbursed for travel will need to pay lodging and get reimbursed through your normal reimbursement process. You will be given a 213 with authorization statement from the finance section during demob.

For AD's and Seasonal Federal Employees who are unable to pay for lodging, the buying team may be able to assist with purchasing your accommodations. Inquire with the incident Finance Section. Federal resources who have the crew boss card option should use this as a first option.

In accordance with each individual contract, **contractors** shall pay for lodging and submit receipts for additions to your invoice (OF-286). Itemized receipts ARE required by the finance section during demob. Also, please note that double occupancy may be required on many contracts.

The finance section will provide S#'s during your demob or sooner.

If you're not in one of these categories or uncertain, finance can help you check. Please use the hotline number: 530-330-5450 or email <a href="mailto:2021.Caldor.finance@firenet.gov">2021.Caldor.finance@firenet.gov</a>. If emailing include your resource number, type of resource and contact phone number.

#### West side, Branch 1: Accommodations

Resources working the *west* side of the incident and briefing at the El Dorado Fairgrounds are expected to be self-sufficient for dinners and hotel accommodations. Breakfast, sack lunches, and hydration products will be provided at briefing. There is no need to return to the fairgrounds until the next briefing unless you need additional support services.

#### **East side, Branch 3:** All meals provided by the incident. To Acquire lodging:

Harvey's hotel is associated with Harrah's. They are across the street from each other and are joined by a tunnel under Hwy 50 on the Nevada side at the state line. They have opened the Harvey's hotel specifically for firefighters battling the Caldor fire. No public is staying at that property. Hotel support and check in for Harvey's Hotel, including front desk services is located at the Harrah's property. This includes check-in and any maintenance service. Large vehicle parking is at the large parking lot at Harrah's accessible off Lake Parkway. Small vehicles can access the parking structure at Harvey's. At both locations, collect the parking stub to go through the gate. There is no charge for parking. Exit gates will open from 0500 to 0700. You may still use your hotel card or ring for attendant to open the exit gate if needed.

**To reserve a room, scan this code to make your reservation.** Be sure to have your purchase card and crew manifest ready to enter the names of the personnel for each room configuration purchased with that card:

After reserving, go to the Harrah's front desk and complete registration. They are very understaffed, so please make every attempt to use the web link above to reserve, though you may also call the hotel desk at 775-691-0416 to reserve your room under "Caldor Fire".

Once you check in to the hotel on the Harrah's side, you will then proceed to Harvey's either through the underground tunnel or drive to the Harvey's parking structure. Note: the elevator bank closest to the (currently closed) Harvey's front desk is not in service for ascending (Descending works). You will need to use the Mountain Tower elevator bank by the arcade.

The hotel asks that if you would like trash pickup, please place your trash bags in the hallway and call the front desk to let them know where it is. They don't have enough staff to patrol the halls. They are also available to clean rooms and deliver towels and other items, but you will need to call the front desk for that as well.

## **ICP LOGISTICS NOTES**

Supply: 0600-2100

Ordering: 0600-2100

Communications: 24/7 Techs: 0600-2100

Food: Breakfast: 0600-0930
