## CALDOR INCIDENT

CA-ENF-024030  
P5N8GM21

Tuesday

### OPERATIONAL PERIOD

8/31/2021 0700  
to  
9/1/2021 0700

# INCIDENT OBJECTIVES (ICS 202)

<b>1. Incident Name:</b> <p style="text-align: center;"><b>Caldor Incident</b></p>	<b>2. Operational Period:</b>	Date From: 8/31/2021 Time From: 0700	Date To: 9/1/2021 Time To: 0700																				
<b>3. Objective(s):</b>																							
<u><b>Management Objectives</b></u> <ul style="list-style-type: none"> <li>- Provide for emergency personnel and public safety at all times.</li> <li>- Ensure COVID-19 precautions and best practices are met at all times.</li> <li>- Protect property, improvements, and infrastructure.</li> <li>- Ensure coordinated, timely and accurate release of public information.</li> <li>- Foster and maintain relationships with all cooperators and stakeholders.</li> <li>- Protect economic, natural, cultural and heritage resources.</li> <li>- Maintain fiscal accountability and keep costs commensurate with values at risk.</li> </ul>																							
<u><b>Control Objectives</b></u> <ul style="list-style-type: none"> <li>- Keep the fire North of HWY 4</li> <li>- Keep the fire South of Wentworth Springs Rd</li> <li>- Keep the fire East of E16 and Fiddletown Rd</li> <li>- Keep the fire West of HWY 89</li> </ul>																							
<b>General Situational Awareness:</b> <ul style="list-style-type: none"> <li>- Steep and rugged terrain, critically dry and receptive fuel beds, active area for fire history and drought stressed trees.</li> <li>- In the COVID-19 environment, high density populations or large groups are particularly at risk. To help protect yourself, your family and to ensure all employees return home safely, make sure to practice social distancing.</li> <li>- Enhanced hygiene (especially handwashing), PPE &amp; monitoring practices help limit the infection rate of first responders.</li> </ul>																							
<b>5. Site Safety Plan Required?</b> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>																							
<b>Approved Site Safety Plan(s) Located at:</b>																							
<b>6. Incident Action Plan</b> <table style="width: 100%; border: none;"> <tr> <td><input checked="" type="checkbox"/> ICS 203</td> <td><input checked="" type="checkbox"/> ICS 220</td> <td><input checked="" type="checkbox"/> Peer Support</td> <td><input checked="" type="checkbox"/> Water Tender Travel Map</td> </tr> <tr> <td><input checked="" type="checkbox"/> ICS 204</td> <td><input checked="" type="checkbox"/> PIO Message</td> <td><input checked="" type="checkbox"/> Facilities Map</td> <td><input checked="" type="checkbox"/> Travel Map</td> </tr> <tr> <td><input checked="" type="checkbox"/> ICS 205</td> <td><input checked="" type="checkbox"/> Weather Forecast</td> <td><input checked="" type="checkbox"/> eFC-33 Input Form</td> <td><input checked="" type="checkbox"/> Base Camp Maps</td> </tr> <tr> <td><input checked="" type="checkbox"/> ICS 206</td> <td><input checked="" type="checkbox"/> Fire Behavior</td> <td><input checked="" type="checkbox"/> Shift Ticket Example</td> <td><input checked="" type="checkbox"/> Resource Advisor Message</td> </tr> <tr> <td><input checked="" type="checkbox"/> ICS 208</td> <td><input checked="" type="checkbox"/> Training Message</td> <td><input checked="" type="checkbox"/> ICS 214</td> <td><input type="checkbox"/> Fire Suppression Repair Plan</td> </tr> </table>				<input checked="" type="checkbox"/> ICS 203	<input checked="" type="checkbox"/> ICS 220	<input checked="" type="checkbox"/> Peer Support	<input checked="" type="checkbox"/> Water Tender Travel Map	<input checked="" type="checkbox"/> ICS 204	<input checked="" type="checkbox"/> PIO Message	<input checked="" type="checkbox"/> Facilities Map	<input checked="" type="checkbox"/> Travel Map	<input checked="" type="checkbox"/> ICS 205	<input checked="" type="checkbox"/> Weather Forecast	<input checked="" type="checkbox"/> eFC-33 Input Form	<input checked="" type="checkbox"/> Base Camp Maps	<input checked="" type="checkbox"/> ICS 206	<input checked="" type="checkbox"/> Fire Behavior	<input checked="" type="checkbox"/> Shift Ticket Example	<input checked="" type="checkbox"/> Resource Advisor Message	<input checked="" type="checkbox"/> ICS 208	<input checked="" type="checkbox"/> Training Message	<input checked="" type="checkbox"/> ICS 214	<input type="checkbox"/> Fire Suppression Repair Plan

## FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 13	TYPE OF FIRE: WILDFIRE
FIRE NAME: CALDOR CAENF-024030	OPERATIONAL PERIOD: 8/31-9/1/21 0700-0700
DATE ISSUED: 8/30/2021	TIME ISSUED: 1900
UNIT: ELDORADO NATIONAL FOREST	SIGNED:  Typed/printed: Stephen Volmer FBAN

### INPUTS

#### WEATHER SUMMARY:

**\*\*\*RED FLAG WARNING ends Wednesday night at 11pm\*\*\***

Sunny and warm. Humidity remains extremely 10-15%. Morning south-southeast flow will shift by 9am to the southwest 12-17mph with gusts to 25. Ridgetop winds will from the southwest 25-30mph with gusts to 40mph. Nighttime temperatures will be 50-65 degrees with humidity 22-28% depending on the altitude and inversion layer. Strong ridgetop winds southwest 24-30mph with gusts to 40mph in the upper elevations. Expect erratic winds throughout the northeastern area due to the multiple drainages that come together.

**\*\*Review the weather forecast for more details and QR for RAWs unit information\*\***

### OUTPUTS

#### FIRE BEHAVIOR

FUEL MODEL	RATE OF SPREAD FT/MIN	FLAME LENGTH FT	SPOTTING DISTANCE	PROBABILITY OF IGNITION
TIMBER	20	7	.8 miles	89%
UNDERSTORY	39	15	.8 miles	89%
BRUSH	117	13	.6 miles	89%

#### GENERAL:

**\*\*\*Active Crown Fires rates of spread up to 200 ft/min with spotting distance over 1 mile\*\*\***

Single and group tree torching will continue to occur due to the abundant low ladder fuels and tight canopies. Active crown fire runs will be possible in areas where the drainages are in alignment with the strong wind patterns. Expect increased amounts of spotting throughout the fire area. Current ERC's and BI's are at the 97<sup>th</sup> percentile, 100 hr fuels are at the 3<sup>rd</sup> percentile, and the 1000hr fuels will be at the 3<sup>rd</sup> percentile in a few days. Local live fuel moistures are just above critical levels. Review the Fuels and Fire Behavior Advisory that has been issued.

#### SPECIFIC:

- Erratic winds and fire behavior will be possible in all the drainages, especially those along Hwy 50, DIV I, Div J, Div K, Div L and Div D.
- Fire activity will continue overnight due to the low humidity and strong winds.
- Ember cast from smoldering material will continue to be a large factor in spotting.

#### AIR OPERATIONS:

Clear air in the north and east early morning. Transport winds out of the southwest 25mph with a mixing height of 7,000' AGL. Expect erratic winds across the ridgetops. Air resources may be limited or ineffective due to reduced visibility and winds. Always have a back-up plan that does not involve aircraft.

Sunset 19:33      Sunrise 06:33

#### SAFETY:

- Wind increases and/or changes directions.
- Getting frequent spot fires across the line. Where there is one there will be more.
- Fire weakened timber will release easily with the forecasted gusty winds.

# Fuels and Fire Behavior Advisory

## Northern California

August 17, 2021 to August 31, 2021

**Subject:** Potential for extreme fire behavior due to critically low live and dead fuel moistures, very dry conditions resulting from persistent drought, minimal snowpack and spring precipitation, and elevated fire danger rating values across much of northern California.

**Discussion:** Fires burning in northern California are exhibiting extreme fire growth based on critical fuel conditions. Fire spread is fuel driven and does not depend on wind to spread. Surface fuels are very receptive to embers. Long range spotting, area ignition, and group torching is occurring on large fires frequently.

**Difference from normal conditions:** Northern California is in a drought; currently with 90% at Extreme to Exceptional levels. The drought is expected to persist or intensify thorough out the fire season. Deficient rainfall and snowpack with early melt off has resulted in fuels that are below average in dryness, with record setting conditions for most areas.

### Concerns to Firefighters and the Public:

- Energy Release Component (ERC) at numerous weather stations set record maximums already this year and are running at or above the 97<sup>th</sup> percentile in most cases. Expect increased fire intensity and spread rates in these areas. Early season extreme fire behavior has been observed in both light and heavy fuels. **Anticipate increased spread rates, spotting, and active nighttime burning.**
- The combination of persistent drought and record-low rainfall and snowpack amounts has led to very low live and dead fuel moistures. Low 1000-hour fuel moistures have been evidenced by complete consumption of dead fuels on recent fires. Live fuel moistures in grasses, shrubs and trees, have already reached critical levels in many areas of Northern California due to limited green-up this spring. **Expect fires to ignite easier and spread faster. Do not expect fires to exhibit reduced fire behavior when entering areas of live fuels; anticipate increased spread rates and spotting.**
- Direct attack is often not feasible under regular diurnal wind conditions with ground resources. And aviation utilization is often insufficient in moderating rate of spread without immediate heavy ground resource response. **Anticipate higher resistance to control in all fuel types.**
- Already this year, Northern California has experienced large fire activity and multiple team deployments. California will likely experience an extended fire season. It is important to be mindful of and manage fatigue for all resources. **Everyone, every day, returns home safely.**

### Mitigation Measures:

- Local and inbound fire personnel need to be aware that fire behavior across the state is exceeding normal expectations for this time of the year. **Local briefings need to be thorough and highlight specific fire environment conditions. These include but are not limited to local weather forecasts, Pocket Cards, ERC's, live and dead fuel moistures.**
- Suppression actions need to be based on good anchor points, escape routes, and safety zones. **Remember LCES. Experienced lookouts are essential under these conditions.**
- Base all actions on current and expected behavior of the fire. **Augment initial attack resources as incident activity dictates.**

**Area of Concern:** Northern California except for the following Predictive Service Areas: North Coast and Bay Marine, west of Highway 101 in Mid-Coast to Mendocino and Diablo-Santa Cruz, and the north eastern portion of Far Eastside.

# SAFETY MESSAGE

## CALDOR INCIDENT

1. Incident Name: CALDOR

2. Operational Period: Date From: 8/31/21  
Time From: 07:00

Date To: 9/01/21  
Time To: 07:00

### WATCH OUTS

Getting frequent spot fires across the line.  
Crown Fires Potential.

**Critical Fuel Conditions:** compounding with topography and wind alignment.

**Tree Hazards** – Look up, look around, identify and mark.

### Weather Continues to CHANGE - Red Flag Conditions.

**MONITOR** yourself and your assigned personnel for FATIGUE and DEHYDRATION.

**HYDRATE** - Use cooling stations/vehicles when available.

Avoid Complacency; Maintain Good **Work Rest Cycles**.

### DEFENSIVE DRIVING is the Only Option

When Moving Apparatus, Utilize backers and spotters.

When in Doubt Scout It Out.

**Extreme Caution** when Driving through **SMOKE**; Safe Speeds are a must!

### RECEPTIVE FUEL BEDS – LONG-RANGE SPOTTING

Fire Runs/**Critical Rates of Spread**: Long Range Spotting.

The Wind Goes Where the Water Flows, **Watch** for **Alignment**.

**Communicate** your **Temporary Refuge Areas & Safety Zones**; Execute Decision Points.

### ENSURE ALL PERSONNEL ARE IN PROPER PPE PRIOR to Engaging

For the **potential of the operation**, not just the work at hand.

There Won't Be Time to Adjust once it's too late.

### Don't Let Pressure Alter Your Decision-Making Process

PLANNING = Primary, Alternate, Contingency, Emergency.

If you can **predict it**, you can **prevent it** or history will repeat itself. **Speak Up**.

Adhere to COVID-19 Best Practices – Masks must be worn indoors and when social distancing can't be maintained (Masks Mandatory at Operational Briefing)

4. Site Safety Plan Required? Yes  No

5. Prepared by: Name: J. Buchmeier, SOF1 / T. Adams (T) / Jen Rabuck SOF1

*[Handwritten signatures]*

ICS 208

Date/Time August 30, 2021 / 1900

**CALDOR FIRE**  
RISK ANALYSIS (ICS 215-A)

DIV	HAZARDOUS ACTIONS/CONDITIONS	MITIGATIONS / WARNINGS / REMEDIES
ALL	<b>EXTREME FIRE BEHAVIOR</b>	<p>Know your LCES and maintain Situational Awareness.            Use experienced Lookouts and multiple vantage points.            Follow downhill line construction guidelines &amp; be diligent if fire spots below you.            Have a known contingency plan with established decision points, accountability plan, and reassembly location(s).            Acknowledge intricacies in tactics (firing and holding): critical resources, possible weaknesses in the line and methods planned to adjust.            Use spot forecasts and seek input from IMET and FBAN. Validate on site observations with expectations once tactics are being implemented.            Use PACE planning: <b>Primary, Alternate, Contingency, Emergency</b></p>
ALL	<b>COVID 19, ILLNESS, &amp; HYGIENE</b>	<p>Adhere to local, state, federal and CDC health guidelines.            Maintain social distancing. Wear a <b>mask</b> regardless of vaccination status when in clusters, briefings, chow lines, etc.            Report any illness symptoms immediately to a supervisor.            Hygiene, hand washing, and disinfecting of surfaces &amp; handles often.            Enact practices that protect all assigned resources despite personal opinions -err on the side of the potential best outcome to protect against all infectious diseases.</p>
ALL	<b>FATIGUE, HEAT &amp; DEHYDRATION</b>	<p>Don't underestimate the task at hand. Adhere to work/rest cycle for all tasks.  <b>Drink water</b> before, during and after shifts, up to 1.5 gal. per shift.            Review Heat Related Emergencies (IRPG Pg. 109). Seek shade when you can.            Watch for stack-effect of fatigue and exhaustion; REST &amp; Plan operations.</p>
ALL	<b>COMPLACENCY</b>	<p>Be alert for signs of fatigue and distractions; remain engaged.            Intentionally maintain situational awareness.            Have the right radio clone. Know your adjoining forces and FREQUENCIES.            Do not expect closures and checkpoints to limit access – residents will find ways into closed areas.</p>
ALL	<b>BEARS, REPTILES &amp; BEES</b>	<p>This incident area is home to RATTLESNAKES, bees and wasps.            Be bear aware: secure food, trash bins and sleeping locations to deter possible interactions.            Be cautious to other natural animals and hazards associated with each.</p>
ALL	<b>STEEP TERRAIN / ROLLING DEBRIS</b>	<p>Watch your footing while hiking in steep terrain.            Expect loose/rolling debris, particularly in areas that fire has burned away surface fuels.            Maintain <b>Situational Awareness</b>. Reassess Tree hazards frequently in the work area.            Dangerous Mountain Roads – SLOW Defensive Driving.            Watch for trees and rocks falling across roads and firelines.</p>
ALL	<b>GRAVITY HAZARDS: ROLLING DEBRIS AND SNAGS/ WEAKENED TREES</b>	<p>The ones that haven't fallen yet; look up, look around <b>Identify Hazard Trees</b>.            Drought-Stressed Trees are weakened – dry soils provide no support for root systems!            Communicate the hazard. Flag and make proper notifications.            Use equipment to mitigate hazard trees where feasible.            Do not fall trees out of your certification level. Evaluate wind and lean prior to cutting.</p>
ALL	<b>DRIVING HAZARDS</b>	<p><b>SLOW DOWN! That means ALL resources!</b>            Use headlights – avoid “auto headlight” settings that may not activate in smoke or do not trigger taillights to turn on.            Do 360s before moving vehicles. Utilize Chocks.            Drive defensively on steep winding roads.            Watch Speed through communities; public perception and safety are key.            Utilize spotters and backers; when in doubt, scout it out.            Expect smoke densities and locations to change multiple times during the shift.            Keep roadways clear for through traffic and park away from travel paths.</p>
ALL	<b>AIRCRAFT OPERATIONS</b>	<p>Monitor air-to-ground frequencies; they are your eyes in the sky.            Use air-to-ground frequency to communicate with aircraft.            Use clear, concise statements when directing aircraft; <b>CLEAR THE LINE!</b>            Do not rely on aircraft: visibility &amp; priorities can change quickly.</p>
Incident Name: <b>CALDOR FIRE</b>		Prepared by: <b>Jen Rabuck, SOF1 / Joe Buchmeier, SOF1</b> 
		OPERATIONAL PERIOD <b>0700 - 0700 8/31/21-9/1/21</b>

## SAFETY COMMUNICATION HAZARD TREE / TREE MORTALITY AWARENESS

Standing dead trees (snags) and green trees remain a constant threat to responder safety. Due to extended drought conditions, there are millions of dead and dying trees in California, and many more that are stressed due to unhealthy forests or fire damage. The combination of epidemic levels of bark beetle infestations and years of drought conditions has created an extreme hazard throughout California. Conifer and Oak trees that have recently died are identified as “Red Trees”. Once the needles or leaves have fallen, the dead tree enters the “Gray Phase” where continued decay and decomposition may be occurring internally with few visual indicators of its extent.

Aside from over 9 million acres of standing dead trees that pose an extreme life safety hazard for firefighters and civilians, the hazard trees are everywhere we operate carrying out our mission. Educating and training our personnel on “Hazard Tree” awareness as well as the appropriate actions for identification and mitigation of safety concerns while working, training, and responding to **ALL AREAS IS CRITICAL**. Operating in a known tree mortality area brings awareness to responders, we need to ensure we are taking precautions in ALL areas.

- Personnel should identify the “Hazard Tree” or “Tree Mortality” locations in their local response areas, fire line assignments and the locations of active fuel reduction projects that they could possibly encounter.
- Recognize when responding to identified “Tree Mortality” areas and provide safety briefings to all responding resources.
- Incidents should be focused on responder safety and hazard tree considerations.
- Be prepared for extreme fire behavior and dangerous rates of spread:
  - Delay or withdraw until the fire can be engaged.
  - Provide appropriate clearance for staged or parked vehicles.
- **Recognize the potential for:**
  - Green trees falling without warning.
  - Ground fire rapidly reaching the crowns of large dead stands of trees
  - Trees and limbs falling during air operations or windy conditions
  - With advancing decay of trees watch for bark slide, falling limbs or multiple trees falling together if they are in contact with each other
- Personnel performing work on fuel reduction projects in **ALL** areas, need to **ensure applicable IIPP documents reflect the work being performed** and are updated throughout the project’s life span.

**L**ookout – When working around fire weakened, stressed or decaying trees

**C**ommunicate – Brief personnel when working near fire weakened or hazard tree areas

**E**scape Routes – May be compromised by falling trees

**S**afety Zones – Are identified and large enough for a “Hazard Tree” or “Tree Mortality” area

For Tree Mortality Area Responder Briefing Packets, [click here](#)

### Employee Response Action Plan

#### COVID-19 Positive Test or COVID-19 Positive Clinical Symptoms Presentation

- COVID 19 Symptoms: Cough, SOB, Fever or afebrile, Chills, Muscle Pain, Sore throat, Loss of taste/smell
- Employee informs Company Officer and Strike Team Leader of presumed/confirmed COVID-19 symptoms.
- Employee advised to seek evaluation by Medical Unit and CAL MAT or base camp medical unit.
- Crew initiates cleaning measures. Mask, safety glasses, gloves worn. (If needed, LOGS will assist)
- Medical Unit to notified IC, Liaison, Safety and Logistics ASAP. Medical Unit will notify COVID-19 Public Health Officer and determine need for testing and locations.

### Incident Action Plan

- Company Officer / Strike Team Leader notified of personnel with COVID-19 positive test or symptom.
- Medical Unit evaluates individual(s) and need for care and evaluation.
- IC, Liaison, Safety and Logistics notification made to determine course of incident evaluation and response.
- Line Chief, Agency Administrator, and Region Office updated upon notification

### Facilities Response

- Medical and Safety notified
- Incident Notification
- Disinfection plan initiated.
- Resource Status Evaluated

### Medical Evaluation & Contact Tracing

- Personnel interviewed by Medical Unit . List of Positive contacts made in the last 5 days acquired. All Exposed are required to wear surgical mask, self monitor for Fever/Resp symptoms for up to 14 days (exposed personnel are subject to COVID-19 testing)
- Home Unit / Department utilized and retrospective tracking of Positive COVID-19 personnel inter-actions are identified within the last 5 days.
- Home Unit / Department updated by Company Officer / Strike Team Leader.
- Public Health Department is contacted and updated by IC or Designated Representative.
- Positive COVID-19 Employees w/symptoms will need to be evaluated by Health Department conducting testing, prior to returning to assignment.
- Positive COVID-19 Employees w/o symptoms may be required to be evaluated and resource status will be reviewed prior to returning to assignment.

## AIR OPERATIONS SUMMARY ICS-220

**Incident Name / Number**  
Caldor Incident / CA-ENF-024030

**Sunrise** 6:32    **Startup** 7:02    **Cutoff** 19:06    **Sunset** 19:36

**Time Prepared**  
1830

**Shutdown**  
20:06

**Date Prepared**  
Monday, August 30, 2021

**Operational Period - Date**  
Tuesday August 31, 2021

**Prepared By**  
Chance Inwood

**Operational Period - Time**  
0700-0700

**General Remarks, Safety Notes, Hazards, Air Operations Special Equipment, etc.**  
 TRACK ALL DIPSITE LOCATIONS / NUMBER OF DIPS / GALLONS TAKEN.  
 TRACK ALL DROP LOCATIONS / NUMBER OF DROPS / GALLONS DROPPED  
 ALL GPS DATA TO BE COLLECTED IN DEGREES, MINUTES, DECIMAL MINUTES, FORMAT.  
 AVOID Aerial Application of Retardant / Foam / Agent within 300' of Waterways, Bodies of Water, etc.  
 If Retardant / Foam / Agent is Dropped Within These Areas Immediately Notify the AOB/D and Provide the Following Information: Lat / Long, Estimated Number of Gallons and a Map Detailing The Area.

## DEMOBILIZATION PLAN - SUMMARY CALDOR FIRE INCIDENT CA-ENF-024030

### GENERAL INFORMATION

The Demobilization Plan is developed to facilitate the orderly removal and checkout of resources on the incident. By definition, surplus personnel are available for release if they have rested for a minimum of 8 hours, are cleaned up, outfitted and have a vehicle ready to depart to their next destination.

### GENERAL GUIDELINES

- **NO RESOURCES WILL LEAVE THE INCIDENT UNTIL AUTHORIZED TO DO SO BY THE DEMOB UNIT.**
- Efforts will be made to ensure that all released personnel arrive at their destination prior to 2200 hours.
- All Resources will arrive at the Demobilizations Unit at their scheduled time Only.
- All government and hired vehicles leaving the incident will have a safety inspection. If a vehicle is within 1,000 miles of a "B" service, it is the responsibility of the resource to contact Ground Support and have an oil change prior to their scheduled demobilization time.
- **All Rental Vehicles will receive a safety inspection prior to leaving the incident.**
- All trainees are to keep their time up to date and report to the Training Specialist with their task books and evaluations prior to completion of the demobilization process.
- All strike team leaders are responsible to call **North Ops at 1-530-224-2466** immediately upon being released from the incident

### RESPONSIBILITIES

**Unit Leaders** will declare resources excess to their **Section Chief**. **Section Chiefs** will declare excess resources to the Planning Section Chief through the **Resource Unit Leader**. This should be done 36 hours in advance of anticipated release. Use the **Declaration of Excess Resources sheet or General Message Form (ICS-213)** to list all excess resources. Include the resource name, request number, name of person, date and time of declared excess, and time in which the resource will be eligible to leave. Send to the **RESOURCE UNIT** where the resource will be determined to be surplus to the incident. Surplus resources will then be able to report to the **DEMOB UNIT**, receive a Demobilization Checkout Form (ICS 221), get the appropriate ICS 221 signatures, and then return the completed ICS 221 to the DEMOB UNIT prior to final release or reassignment. Resources are not to contact **South Ops** or the expanded dispatch center unless instructed to do so by the Demobilization Unit.

### RELEASE PRIORITIES

1. Organized fire departments
2. OES engines
3. Hired personnel and equipment
4. Other agencies (USFS, BLM, etc.)
5. Out of region CAL FIRE forces
6. Within Region CAL FIRE Forces
7. Unit CAL FIRE Forces

### TRAVEL INFORMATION

All resources will meet agency specific requirements on hours of travel per day. For CAL FIRE hand crews, a full 24 hour reset period shall be adhered to before departing from the incident. After a crew's last operational period they shall begin the demobilization release procedure during their 24 hour off shift. In addition, they must use the following complete 24 hour period as reset time before they depart from the incident.

## FINANCE MESSAGE

### FEDERAL RESOURCES

- Refer to Caldor Federal Finance Procedures

### CAL FIRE TIME UNIT (Personnel and Hired Equipment)

- CAL FIRE PERSONNEL – Ensure you have started your eFC-33's and update after each shift. Please make sure Epay schedules are up to date.
- HIRED EQUIPMENT SUPPLIERS – Check-in with the TIME Unit and drop off your agreements.

### DIVISION / GROUP - LINE SUPERVISORS

- Please turn in hired equipment shift tickets at the end of each shift.
- **\*\*Please include the request number on the shift ticket.\*\***
- SHIFT TICKET BOOKS – Available in the TIME Unit for agency line supervisors only.

### COMP / CLAIMS

- Damage Claims (suppression, property, vehicle)
  - ICS-213. We will need location, description of damages, and your contact information.

# CALDOR FEDERAL FINANCE PROCEDURES

Finance Email: [2021.caldor.finance@firenet.gov](mailto:2021.caldor.finance@firenet.gov)

Finance Hotline: 530-330-5450

## Directions for emailing Documents:

<p style="text-align: center;"><b>Federal Contract Resources</b></p> <p>Send To: <a href="mailto:2021.caldor.finance@firenet.gov">2021.caldor.finance@firenet.gov</a>  <b>SUBJECT: Include Key Word: <i>Equipment</i></b></p>	<p style="text-align: center;"><b>Federal Overhead and Crews</b></p> <p>Send To: <a href="mailto:2021.caldor.finance@firenet.gov">2021.caldor.finance@firenet.gov</a>  <b>SUBJECT: Include Key Word: <i>Time</i></b></p>
---	--

## DOCUMENTS TO EMAIL TO FINANCE

	<p><b>Federal Overhead and Crews</b></p>	<p>Regular Government Personnel &amp; ADs attachments:  <b>@Check-In:</b> Crew Manifests, MOUs, or Cooperative Agreement (if applies), AD Casual Hire Sheet/RO  <b>Daily:</b> Crew Time Report (CTR), Shift Ticket (<i>when applies</i>), receipts (fuel issues, travel receipts, etc.)  <b>@Demob:</b> Signed OF288, Final Equipment Use Invoice</p>
	<p><b>Federal Contract Resources</b></p>	<p>Private: Contractor Attachments:  <b>@Check-In:</b> Resource Order, Full Contract/Agreement, Certifications  <i>(if required)</i>, Pre-Inspection  <b>Daily:</b> SHIFT Tickets, receipts (fuel issues, claims, etc.)  <b>@Demob:</b> Contractor Evaluations, Final Shift Tickets and receipt for Addition/Deductions, Post-Inspection, Final Signed Invoices</p>

## FEDERAL FINANCE DEMOB PROCEDURES

**All Resources** will be sent their **DRAFT OF-288/OF-286's** via the Finance email. 12 hours will be provided to allow the resource to review their document and reply back to Finance with the statement "No Corrections Necessary" or a description of any issues. After Finance receives the email, any discrepancies will be resolved. Next, the resource is sent the **FINAL DOCUMENT** for signature. They will then email the signed document back to Finance, if able. Finance will then sign the **FINAL DOCUMENT** and email it back to the resource. This completes the process.

## INCIDENT PEER SUPPORT:

Team members are available on the incident for any peer support related needs. The best way to get a hold of them is to call them directly or stop by the ESS Trailer

In addition, there is an onsite clinician available to meet on an individual and/or group basis

**Jeremy Sanders 916-281-6472 (Peer Support)**

**John Kiszka 530-448-2402 (Team 6)**

or

**CAL FIRE 24 Hr. Peer Support/Helpline**

**916-445-4337**

**Below are other Team Members not on the incident who can also be contacted directly:**

**Tony Howard 916-224-1543**

**Mike Aiello 916-584-0548**

**Warren Parrish 916-823-6641**

**Nikole Schutz 916-709-0434**

**Amber Henderson 805-794-1690**

**Amy Head 916-956-3277**

**Chris Lomanto 916-247-6974**

**Connie Quarisa 916-213-8697**

**Noelle Bahnmler 916-661-0011**

**Krissy Shaefer 619-592-6337**

**Mike Deleo 916-661-0724**

**Sam Lazarich 530-796-1025**

**Renee Barton 916-201-0341**

Watch for the signs and symptoms of stress in yourself and the people around you. Try and stay positive and get much needed rest when you can. We can do this, together!

A message to our firefighters from **ASHLEY IVERSON**.

**Stay Healthy, Stay Alert and Stay Strong!**

#### Media Law

The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, and does not imply that the news media may interfere with incident operations while they are in the areas of concern. If entering such a location that is hazardous, they should be advised; media access cannot be prevented for safety reasons unless their presence would impede CAL FIRE's mitigation of the incident or the disturbing of evidence. When working around the media, remember:

- Media **is not permitted** on private property without the property owners permission.
- If approached and questioned by the media and or the public, talk about your assignment or task at hand. Remember to wear all the appropriate PPE.
- If needed call for an incident PIO through the chain of command.
- Never speculate, give opinions or speak for others.
- There is no such thing as an "off the record" comment.

#### CAL FIRE Social Media Policy (Social Media 0691)

Social Media is increasingly being used by public agencies, the media as well as the public. This form of communication continues to grow rapidly in order to supply the instant gratification needs of society. Therefore when on a CAL FIRE incident you will adhere to the CAL FIRE Social Media Policy, 0691. You can get further information about the CAL FIRE Social Media Policy from the incident Public Information Officer. While assigned to the incident, there will be no posting of:

- Inappropriate information or materials, no opinions, no endorsements, inappropriate pictures or videos

#### Lost and Found

The Information Section will manage Lost and Found items for the incident. If you have lost an item leave your contact information and what you have lost at the Information Section. If you have found an item on the incident bring the item to the Information Section with your contact information as well.
