1. Incident Name:	2. Operational F	Period:	Date From:	9/2/2021	Date To:	9/3/2021
Caldor Incident			Time From:	0700	Time To:	0700
Leader's Intent Work effectively with cooperative partners towa assigned personnel should be prepared to take			alues in a safe	and efficient m	anner. All ind	cident
- Personal safety and safety of others, including probability of success.	ng driving slowly, safel	y, and defen	sively while imp	olementing tact	ics that offer	a high
- Professional conduct and timely/effective co	mmunications.					
- Manage fatigue by taking breaks and mainta						
- All line supervision personnel, including crev	v leaders and strike te	am leaders,	must attend the	e Operational B	riefing.	
3. Objective(s):						
Management Objectives						
- Provide for emergency personnel and public	safety at all times.					
- Ensure COVID-19 precautions and best prac	ctices are met at all tin	nes.				
- Protect property, improvements, and infrastr	ucture.					
- Ensure coordinated, timely and accurate rele	ease of public informat	ion.				
- Foster and maintain relationships with all co	operators and stakeho	lders.				
- Protect economic, natural, cultural and herita	age resources.					
- Maintain fiscal accountability and keep costs	commensurate with v	alues at risk				
Control Objectives: West Zone						
- Keep the fire North of HWY 4						
- Keep the fire South of Wentworth Springs R	d					
- Keep the fire East of E16 and Fiddletown Ro	i					
Control Objectives: East Zone						
Keep the fire South of Mosquito Pass and ro	and systems to N16A	2N20A 2N0	8 and 2N21			
<ul> <li>Keep the fire North of HWY 88</li> </ul>	ad byblome to 1410, t,	L112071, L110	o, and Enter			
- Keep the fire West of El Dorado and Alpine	County and State line	ooundary				
General Situational Awareness:			<b>6</b>			
- Steep and rugged terrain, critically dry and r	eceptive fuel beds, act	ive area for	fire history and	arougnt stress	ea trees.	
In the COVID-19 environment, high density and to ensure all employees return home sa	oopulations or large gr	oups are par	rticularly at risk	. To help proted	ct yourself, y	our family
- Enhanced hygiene (especially handwashing	•		ŭ	on rate of first i	responders.

#### **INCIDENT Weather Forecast**

FORECAST NO: 15

PREDICTION FOR: 24 Hour Shift

**SHIFT DATE:** 09/02/21

**FORECAST ISSUED:** 09/01/21 1700

NAME OF FIRE: Caldor UNIT: USFS Eldorado NF **SIGNED: James Dudley** 

**Incident Meteorologist** 

WEATHER DISCUSSION: High pressure will begin to build over the fire area over the next few days with much lighter winds aloft and terrain driven slope and valley winds prevailing. Temperatures will trend upward and relative humidity will remain rather low with only moderate recoveries.

. THURSDAY . . .

Sky/weather.....Sunny.

Max temperature....65-73 Branches 10 and 20 and 78-88 Branches 1 and 30.

Min humidity.....16-22 percent.

Wind (20 ft).....

Slope/valley......Downslope/downcanyon 4-8 mph with gusts to 13 mph through 0900

then becoming upslope 4-9 mph with gusts to 15 mph except gusts

to 20 mph along the Highway 50 corridor.

Ridgetop.....South-southwest 9-12 mph with gusts to 22 mph.

Mixing height......Increasing to around 6200 ft AGL.

Transport winds.....South around 10 mph.

.THURSDAY NIGHT...

Sky/weather.....Clear.

Min temperature.....45-55 Branches 10 and 20 and 55-63 Branches 1 and 30.

Max humidity......28-38 percent.

Wind (20 ft).....

Slope/valley.....South to southwest 3-8 mph with gusts to 13 mph through 2000

then downslope/downcanyon 4-9 mph with gusts to 13 mph lower

drainages.

Ridgetop.....Southeast 7-10 mph.

Mixing height.....Lowering to near surface. Transport winds.....Southeast around 5 mph.

.FRIDAY . . .

Sky/weather.....Sunny.

Max temperature....69-77 Branches 10 and 20 and 77-87 Branches 1 and 30.

Min humidity......14-19 percent.

Wind (20 ft).....

Slope/valley.....Downslope/downcanyon 4-8 mph with gusts to 13 mph through 0900

then becoming upslope 4-9 mph with gusts to 15 mph except gusts

to 20 mph along the Highway 50 corridor.

Ridgetop......North-northwest 3-7 mph.

Mixing height......Increasing to around 6000 ft AGL.

Transport winds.....Northeast around 5 mph.

Branch 30: Barney Ridge (TT022), So So Road (PG415)

FIRE BEH	IAVIOR FORECAST
FORECAST NUMBER: 15	TYPE OF FIRE: WILDFIRE
FIRE NAME: CALDOR CAENF-024030	OPERATIONAL PERIOD: 9/2-9/3/21 0700-0700
DATE ISSUED: 9/1/2021	TIME ISSUED: 1900
UNIT: ELDORADO NATIONAL FOREST	SIGNED:
	Typed/printed: Stephen Volmer FBAN

#### **INPUTS**

#### **WEATHER SUMMARY:**

Sunny and warm. Daytime humidity remains low 16-22%. Winds upslope/upcanyon after 9am 4-9mph with gusts to 15mph. Hwy 50 corridor could experience gusts to 20mph. Ridgetop winds south-southwest 9-12mph with gusts to 22mph. Nighttime temperatures will be 45-63 degrees with humidity 28-38%, with ridgetop winds southeast 7-10mph. Expect a thin inversion in the lower elevations and drainages to form overnight.

#### \*\*Review the weather forecast for more details and QR for RAWS unit information\*\*

#### **OUTPUTS**

#### FIRE BEHAVIOR

FUEL MODEL	RATE OF SPREAD FT/MIN			PROBABILITY OF IGNITION	
TIMBER LITTER	9	6	.5 miles	88%	
UNDERSTORY	20	11	.5 miles	88%	
BRUSH	58	13	.3 miles	89%	

#### **GENERAL:**

BRANCH I... Continued hot material along the control lines will be a source for ember cast. Be alert for shifting upcanyon/downcanyon winds in the early morning and late evening to flow through the deep drainages.

BRANCH 10... Backing fire will continue to slowly work its way down to Hwy 50. Light flashy fuels exist in the area of the KING FIRE scar. The fire will continue to be more active in Div I, with group tree torching possible.

BRANCH 20...The fire will continue to be active in Div N and Div P. Expect spot fires to continue to be found and initiate new fires. Interior islands, heavy fuels, and timber will continue to burn out.

BRANCH 30... Hot material will continue to be found and threaten the control lines. Interior islands will have the potential to burn out causing ember-cast that could create new spot fires.

#### SPECIFIC:

- Erratic winds and fire behavior will be possible in all the drainages, especially those along Hwy 50, Div I Div D
- Fuels remain extremely dry. Review the Fuels and Fire Behavior Advisory.
- Spotting from group torching will continue to be the major source of fire spread.

#### **AIR OPERATIONS:**

Clear air in the early morning. Transport winds out of the southwest 10mph with a mixing height of 6,200' AGL. Expect erratic winds across the ridgetops. Air resources may be limited or ineffective due to reduced visibility and winds. Always have a back-up plan that does not involve aircraft.

Sunset 19:30

Sunrise 06:35

#### SAFETY:

- Wind increases and/or changes directions. Diurnal flow has returned to the incident.
- Getting frequent spot fires across the line. Where there is one there will be more.
- Fire weakened timber will continue to release. Watch your work areas.

## **Fuels and Fire Behavior Advisory**

#### Northern California

**Subject:** Potential for extreme fire behavior due to critically low live and dead fuel moistures, very dry conditions resulting from persistent drought, minimal snowpack and spring precipitation, and elevated fire danger rating values across much of northern California.

**Discussion:** Fires burning in northern California are exhibiting extreme fire growth based on critical fuel conditions. Fire spread is fuel driven and does not depend on wind to spread. Events with wind have led to extreme rates of spread. Surface fuels are very receptive to embers. Long range spotting, area ignition, and group torching is occurring on large fires frequently.

**Difference from normal conditions:** Northern California is in a drought; currently with 90% at Extreme to Exceptional levels. The drought is expected to persist or intensify thorough out the fire season. Deficient rainfall and snowpack with early melt off has resulted in fuels that are below average in dryness, with record setting conditions for most areas.

#### Concerns to Firefighters and the Public:

- Energy Release Component (ERC) at numerous weather stations set record maximums already this year and are running at or above the 97<sup>th</sup> percentile in most cases. Expect increased fire intensity and spread rates in these areas. Early season extreme fire behavior has been observed in both light and heavy fuels. **Anticipate increased spread rates**, **spotting**, **and active nighttime burning**.
- The combination of persistent drought and record-low rainfall and snowpack amounts has led to very low live and dead fuel moistures. Low 1000-hour fuel moistures have been evidenced by complete consumption of dead fuels on recent fires. Live fuel moistures in grasses, shrubs and trees, have already reached critical levels in many areas of Northern California due to limited green-up this spring. Expect fires to ignite easier and spread faster. Do not expect fires to exhibit reduced fire behavior when entering areas of live fuels; anticipate increased spread rates and spotting.
- Direct attack is often not feasible under regular diurnal wind conditions with ground resources. And aviation utilization is often insufficient in moderating rate of spread without immediate heavy ground resource response. Anticipate higher resistance to control in all fuel types.
- Already this year, Northern California has experienced large fire activity and multiple team deployments. California will likely experience an extended fire season. It is important to be mindful of and manage fatigue for all resources. **Everyone**, **every day**, **returns home safely**.

#### **Mitigation Measures:**

- Local and inbound fire personnel need to be aware that fire behavior across the state is exceeding
  normal expectations for this time of the year. Local briefings need to be thorough and highlight
  specific fire environment conditions. These include but are not limited to local weather
  forecasts, Pocket Cards, ERC's, live and dead fuel moistures.
- Suppression actions need to be based on good anchor points, escape routes, and safety zones. Remember LCES. Experienced lookouts are essential under these conditions.
- Base all actions on current and expected behavior of the fire. Augment initial attack resources as incident activity dictates.

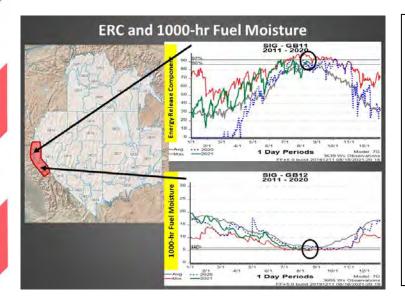

**Area of Concern:** Northern California except for the following Predictive Service Areas: North Coast and Bay Marine, west of Highway 101 in Mid-Coast to Mendocino and Diablo-Santa Cruz, and the north eastern portion of Far Eastside.

## **Fuels and Fire Behavior Advisory**

## Sierra Front - Above 5,500 Feet

Valid August 20th - September 3rd, 2021

Subject: NEAR RECORD LOW 1000-hr fuel moisture and Sagebrush fuel moisture, and ABOVE NORMAL ERCs continue along the Sierra Front above 5,500 feet due to continued dry weather. Fuel conditions will remain exceptionally dry through August with upcoming warm, dry and breezy weather and will increase fire behavior, especially with increases in wind.

**Discussion:** Extreme fire behavior was observed on the Tamarack Fire in late July. Higher relative humidity recovery at night and light precipitation did not alter exceptional fire behavior. It took longer term wetting rains over several days to eventually lower fire behavior. The fire remained active throughout the day and overnight and experienced group tree torching, crowning, running, and spotting. Manzanita burned quickly like a fine fuel grass.

Difference from normal conditions: Fuel moisture remains exceptionally low due to hot and dry conditions over the last few months, and the lack of precipitation during the 2020/2021 winter. 1000-hr fuel moisture along the Sierra Front remains near RECORD LOWS, while ERCs remain above normal. Near RECORD LOW Sagebrush fuel moisture continues to be a significant contributor to fire spread in addition to the heavy dead fuels and dry Pinyon-Juniper. Prolonged periods of warm and dry weather with periods of breezy winds through the rest of August will keep fuel moisture exceptionally low.

#### **Concerns to Firefighters and the Public:**

- Anticipate fire behavior activity picking up earlier in the day and extending well into the evening and overnight.
- Short and mid-range spotting should be expected with long-range spotting greater than ½ mile or more in all fuel types and a probability of ignition generally over 80% based on current conditions.
- Under the right atmospheric conditions or favorable alignment of fuels and slope, expect potential development of large plume dominated fires.
- Fires more likely exceeding initial attack, unless significant allocation of aerial and ground resources is used.
- Anticipate all fuel types to ignite easily and exhibit advanced to extreme fire behavior.
- Commonly used terrain features or natural barriers (such as meadows, sparse fuels, etc.) used as a fire line may not be as successful in containment.

#### **Mitigation Measures:**

- Additional resources will be required for successful initial attack.
- Ensure you are planning well ahead of the fire.
- Retardant and/or bucket drops are NOT effective unless immediately followed up with firefighters.
- Establish trigger points in anticipation of expected fire behavior and adhere to them.
- Consult the latest weather and fire danger information at <a href="http://gacc.nifc.gov/gbcc/">http://gacc.nifc.gov/gbcc/</a>.

Area of Concern: The Sierra Front above 5,500 feet.

**Issued By:** Great Basin Coordination Center Predictive Services.

# SAFETY MESSAGE CALDOR INCIDENT

1. Incident Name: CALDOR

2. Operational Period: Date From: 09/02/21 Date To: 9/03/21 Time From: 07:00 Time To: 07:00

#### "SLOW DOWN"

Use Extreme Caution when Driving through SMOKE; Safe Speeds are a must!

Watch for congestion and blind corners; watch for civilian traffic.

Evaluate your driving routes; monitor speed, gear selection, & brakes.

When Moving Apparatus, Utilize backers and spotters, When in Doubt Scout It Out.

#### **GRAVITY ISSUES**

Tree Hazards – Look up, look around, identify and mark.

Trees don't just Threaten the line, they threaten your LIFE!

Watch Out for Roll Out and Falling Rocks.

#### **FATIGUE & COMPLACENCY**

MONITOR yourself and your as personnel for FATIGUE and DEHYDRATION.

Maintain Good Work Rest Cycles, Seek Shade when possible.

Time to Think – Time to Drink! Stay Hydrated.

**ENGAGEMENT: Know Your Plan and Communications** 

PPE for the **potential of the operation**, not just the work at hand.

Communicate your **T**emporary **R**efuge **A**reas & **Safety Zones**; Execute Decision Points. **Critical Rates of Spread**: Long Range Spotting & Receptive Fuel Beds.

### Don't Let Pressure Alter Your Decision-Making Process

PLANNING = Primary, Alternate, Contingency, Emergency.

If you can **predict it**, you can **prevent it** or history will repeat itself. **Speak Up**.

Urgency cannot allow short-cuts, monitor communicated plans.

#### **HEALTH & WELLNESS: Take Care of Ourselves & Others**

Be cognizant of COVID-19 Best Practices – Wipe Surfaces & Door Handles. Social Distancing encouraged, Masks Mandatory at Operational Briefing Areas.

4. Site Safety Plan	Required? Yes No x	
5. Prepared by: Name: J.	Buchmeier SOF1	Jen Rabuck SOF1 Kabuch
ICS 208	Date/Time September 1, 2021 / 1900	

# **CALDOR FIRE**RISK ANALYSIS (ICS 215-A)

		RISK ANALYSIS (ICS 215-A)
DIV	HAZARDOUS ACTIONS/CONDITIONS	MITIGATIONS / WARNINGS / REMEDIES
ALL	EXTREME FIRE BEHAVIOR	Know your LCES and maintain Situational Awareness. Use experienced Lookouts and multiple vantage points. Follow downhill line construction guidelines & be diligent if fire spots below you. Have a known contingency plan with established decision points, accountability plan, and reassembly location(s). Acknowledge intricacies in tactics (firing and holding): critical resources, possible weaknesses in the line and methods planned to adjust. Use spot forecasts and seek input from IMET and FBAN. Validate on site observations with expectations once tactics are being implemented.
ALL	COVID 19, ILLNESS, & HYGIENE	Use PACE planning: Primary, Alternate, Contingency, Emergency  Adhere to local, state, federal and CDC health guidelines.  Maintain social distancing. Wear a mask regardless of vaccination status when in clusters, briefings, chow lines, etc.  Report any illness symptoms immediately to a supervisor.  Hygiene, hand washing, and disinfecting of surfaces & handles often.  Enact practices that protect all assigned resources despite personal opinions -err on the side of the potential best outcome to protect against all infectious diseases.
ALL	FATIGUE, HEAT & DEHYDRATION	Don't underestimate the task at hand. Adhere to work/rest cycle for all tasks.  Drink water before, during and after shifts, up to 1.5 gal. per shift.  Review Heat Related Emergencies (IRPG Pg. 109). Seek shade when you can.  Watch for stack-effect of fatigue and exhaustion; REST & Plan operations.
ALL	COMPLACENCY	Be alert for signs of fatigue and distractions; remain engaged. Intentionally maintain situational awareness. Have the right radio clone. Know your adjoining forces and FREQUENCIES. Do not expect closures and checkpoints to limit access – residents will find ways into closed areas.
ALL	BEARS, REPTILES & BEES	This incident area is home to RATTLESNAKES, bees and wasps.  Be bear aware: secure food, trash bins and sleeping locations to deter possible interactions.  Be cautious to other natural animals and hazards associated with each.
ALL	STEEP TERRAIN / ROLLING DEBRIS	Watch your footing while hiking in steep terrain.  Expect loose/rolling debris, particularly in areas that fire has burned away surface fuels.  Maintain Situational Awareness. Reassess Tree hazards frequently in the work area.  Dangerous Mountain Roads – SLOW Defensive Driving.  Watch for trees and rocks falling across roads and fire lines.
ALL	GRAVITY HAZARDS: ROLLING DEBRIS AND SNAGS/ WEAKENED TREES	The ones that haven't fallen yet; look up, look around <u>Identify Hazard Trees</u> .  Drought-Stressed Trees are weakened – dry soils provide no support for root systems!  Communicate the hazard. Flag and make proper notifications.  Use equipment to mitigate hazard trees where feasible.  Do not fall trees out of your certification level. Evaluate wind and lean prior to cutting.
ALL	DRIVING HAZARDS	SLOW DOWN! That means ALL resources!  Use headlights – avoid "auto headlight" settings that may not activate in smoke or do not trigger taillights to turn on.  Do 360s before moving vehicles. Utilize Chocks.  Drive defensively on steep winding roads.  Watch Speed through communities; public perception and safety are key.  Utilize spotters and backers; when in doubt, scout it out.  Expect smoke densities and locations to change multiple times during the shift.  Keep roadways clear for through traffic and park away from travel paths.
ALL	AIRCRAFT OPERATIONS	Monitor air-to-ground frequencies; they are your eyes in the sky. Use air-to-ground frequency to communicate with aircraft. Use clear, concise statements when directing aircraft; CLEAR THE LINE! Do not rely on aircraft: visibility & priorities can change quickly.
Incident	Name: CALDOR FIRE	Prepared by: Jen Rabuck, SOF1 OPERATIONAL PERIOD 0700 - 0700

## **CAL FIRE / Incident Management Team 6**

**COVID-19 Response Algorithm** 

#### **Employee Response Action Plan**

#### COVID-19 Positive Test or COVID-19 Positive Clinical Symptoms Presentation

- COVID 19 Symptoms: Cough, SOB, Fever or afebrile, Chills, Muscle Pain, Sore throat, Loss of taste/smell
- Employee informs Company Officer and Strike Team Leader of presumed/confirmed COVID-19 symptoms.
- Employee advised to seek evaluation by Medical Unit and CAL MAT or base camp medical unit.
- Crew initiates cleaning measures. Mask, safety glasses, gloves worn. (If needed, LOGS will assist)
- Medical Unit to notified IC, Liaison, Safety and Logistics ASAP. Medical Unit will notify COVID-19 Public Health Officer and determine need for testing and locations.

#### **Incident Action Plan**

- Company Officer / Strike Team Leader notified of personnel with COVID-19 positive test or symptom.
- Medical Unit evaluates individual(s) and need for care and evaluation.
- IC, Liaison, Safety and Logistics notification made to determine course of incident evaluation and response.
- Line Chief, Agency Administrator, and Region Office updated upon notification

#### **Facilities Response**

- Medical and Safety notified
- Incident Notification
- Disinfection plan initiated.
- Resource Status Evaluated

#### **Medical Evaluation & Contact Tracing**

- Personnel interviewed by Medical Unit. List of Positive contacts made in the last 5 days acquired. All Exposed are required to wear surgical mask, self monitor for Fever/Resp symptoms for up to 14 days (exposed personnel are subject to COVID-19 testing)
- Home Unit / Department utilized and retrospective tracking of Positive COVID-19 personnel inter-actions are identified within the last 5 days.
- Home Unit / Department updated by Company Officer / Strike Team Leader.
- Public Health Department is contacted and updated by IC or Designated Representative.
- Positive COVID-19 Employees w/symptoms will need to be evaluated by Health Department conducting testing, prior to returning to assignment.
- Positive COVID-19 Employees w/o symptoms may be required to be evaluated and resource status will be reviewed prior to returning to assignment.

# TRAINING MESSAGE

## **TRAINERS**

- ▶ Sign off PTB tasks as their completed
- **▶** Complete the PTB Evaluation Record prior to Demob
- ► Complete an ICS 225 (Personal Performance Record) prior to Demob
- ► Complete the Final Evaluator's Verification page in the PTB if you are recommending them for qualification

## **TRAINEES**

- **▶** Secure your PTB
- ► Ensure you have the above-mentioned documents completed and signed by your Trainer prior to Demob
- ➤ You do not have to wait for your assigned Demob time to close out with the Training Specialist

Don't train until you get it right, train until you cannot get it wrong!

Any questions please contact the Training Specialist: Shane Vargas (530) 410-4225

# DEMOBILIZATION PLAN - SUMMARY CALDOR FIRE INCIDENT CA-ENF-024030

#### **GENERAL INFORMATION**

The Demobilization Plan is developed to facilitate the orderly removal and checkout of resources on the incident. By definition, surplus personnel are available for release if they have rested for a minimum of 8 hours, are cleaned up, outfitted and have a vehicle ready to depart to their next destination.

#### **GENERAL GUIDELINES**

- NO RESOURCES WILL LEAVE THE INCIDENT UNTIL AUTHORIZED TO DO SO BY THE DEMOB UNIT.
- o Efforts will be made to ensure that all released personnel arrive at their destination prior to 2200 hours.
- All Resources will arrive at the Demobilizations Unit at their scheduled time Only.
- All government and hired vehicles leaving the incident will have a safety inspection. If a vehicle is within 1,000
  miles of a "B" service, it is the responsibility of the resource to contact Ground Support and have an oil change prior
  to their scheduled demobilization time.
- o All Rental Vehicles will receive a safety inspection prior to leaving the incident.
- All trainees are to keep their time up to date and report to the Training Specialist with their task books and evaluations prior to completion of the demobilization process.
- All strike team leaders are responsible to call North Ops at 1-530-224-2466 immediately upon being released from the incident

#### **RESPONSIBILITIES**

Unit Leaders will declare resources excess to their Section Chief. Section Chiefs will declare excess resources to the Planning Section Chief through the Resource Unit Leader. This should be done 36 hours in advance of anticipated release. Use the Declaration of Excess Resources sheet or General Message Form (ICS-213) to list all excess resources. Include the resource name, request number, name of person, date and time of declared excess, and time in which the resource will be eligible to leave. Send to the RESOURCE UNIT where the resource will be determined to be surplus to the incident. Surplus resources will then be able to report to the DEMOB UNIT, receive a Demobilization Checkout Form (ICS 221), get the appropriate ICS 221 signatures, and then return the completed ICS 221 to the DEMOB UNIT prior to final release or reassignment. Resources are not to contact South Ops or the expanded dispatch center unless instructed to do so by the Demobilization Unit.

#### **RELEASE PRIORITIES**

- 1. Organized fire departments
- 2. OES engines
- 3. Hired personnel and equipment
- 4. Other agencies (USFS, BLM, etc.)
- 5. Out of region CAL FIRE forces
- 6. Within Region CAL FIRE Forces
- 7. Unit CAL FIRE Forces

#### TRAVEL INFORMATION

All resources will meet agency specific requirements on hours of travel per day. For CAL FIRE hand crews, a full 24 hour reset period shall be adhered to before departing from the incident. After a crew's last operational period they shall begin the demobilization release procedure during their 24 hour off shift. In addition, they must use the following complete 24 hour period as reset time before they depart from the incident.

#### FINANCE MESSAGE

#### FEDERAL RESOURCES

Refer to Caldor Federal Finance Procedures

#### **CAL FIRE TIME UNIT (Personnel and Hired Equipment)**

- CAL FIRE PERSONNEL Ensure you have started your eFC-33's and update after each shift. Please make sure Epay schedules are up to date.
- HIRED EQUIPMENT SUPPLIERS Check-in with the TIME Unit and drop off your agreements.

#### **DIVISION / GROUP - LINE SUPERVISORS**

- Please turn in hired equipment shift tickets at the end of each shift.
- SHIFT TICKET BOOKS Available in the TIME Unit for agency line supervisors only.

#### **COMP / CLAIMS**

- Damage Claims (suppression, property, vehicle)
  - ICS-213. We will need location, description of damages, and your contact information.

# **Federal Finance Message**

### TIME COLLECTION:

While submission of CTR's and Shift tickets is preferred, Federal Incident Finance will also accept hard-copy documents. Please see the Federal Finance Box located at the Finance Section Chief trailer at Placerville Camp, or near Ticket Windows at Heavenly Camp.

- ◆PLEASE INCLUDE RO IN SUBJECT LINE OF EMAIL, PLEASE DOCUMENT H-PAY FOR DUTY BEING PERFORMED
- ◆ PLEASE MARK YOUR LAST DAY AS **FINAL** WHEN YOU ARE DEMOBING
- ◆PLEASE MAKE EVERY EFFORT TO TURN IN ALL CTR's AND SHIFT TICKETS DAILY.
- ◆PLEASE INCLUDE DOCUMENTATION ON CTR OR SHIFT TICKET OF SUPERVISOR APPROVAL OF LODGING AND/OR MEAL REINBURSMENT, IN ADDTION TO RECEIPTS
- ◆PLEASE INCLUDE YOUR RESOURCE ORDER # ON ALL DOCUMENTATION SUBMITTED, INCLUDING RECEIPTS.
- ◆IF EQUIPMENT HAS BEEN ASSIGNED MORE THAN 14 DAYS, FEEL FREE TO CONTACT US TO REQUEST AN INTERIM/PROGRESS INVOICE PAYMENT.
- ◆PLEASE ENSURE YOU INCLUDE LOCATION OF WHERE YOU ARE WORKING (BRANCH OR DIVISION) ON CTR OR SHIFT TICKET

#### **FINANCE CHECK IN:**

◆PLEASE ENSURE THE BELOW DOCUMENTS ARE EMAILED TO FINANCE WITH RO NOTED:

Agency	Overhead:	Contract Equipment/Contract	Cooperator:
Equipment/Crews:	<ul> <li>Resource</li> </ul>	Crews:	<ul> <li>Cooperative</li> </ul>
<ul> <li>Manifest</li> </ul>	Order	Agreement/Manifest	Agreement
Resource Order	AD Hire Form	Resource Order	Resource Order

	• CTR's	Inspection Forms	Inspection Forms

#### CALDOR FEDERAL FINANCE PROCEDURES

Finance Email: 2021.caldor.finance@firenet.gov

**Finance Hotline: 530-330-5450** 

#### **Directions for emailing Documents:**

Federal Contract Resources	Federal Overhead and Crews

Send To: 2021.caldor.finance@firenet.gov SUBJECT: Include Key Word: Equipment

Send To: 2021.caldor.finance@firenet.gov

SUBJECT: Include Key Word: Time

#### **DOCUMENTS TO EMAIL TO FINANCE**

# Federal Overhead and Crews

Regular Government Personnel & ADs attachments:

**@Check-In**: Crew Manifests, MOUs, or Cooperative Agreement (if applies), AD Casual Hire Sheet/RO

Daily: Crew Time Report (CTR), Shift Ticket (when applies),

receipts (fuel issues, travel receipts, etc.)

@Demob: Signed OF288, Final Equipment Use Invoice

#### Federal Contract Resources

Private: Contractor Attachments:

@Check-In: Resource Order, Full Contract/Agreement,

Certifications

(if required), Pre-Inspection

**Daily:** SHIFT Tickets, receipts (fuel issues, claims, etc.) **@Demob:** Contractor Evaluations, Final Shift Tickets and receipt forAddition/Deductions, Post-Inspection, Final

Signed Invoices

#### FEDERAL FINANCE DEMOB PROCEDURES

All Resources will be sent their DRAFT OF-288/OF-286's via the Finance email. 12 hours will be provided to allow the resource to review their document and reply back to Finance with the statement "No Corrections Necessary" or a description of any issues. After Finance receives the email, any discrepancies will be resolved. Next, the resource is sent the FINAL DOCUMENT for signature. They will then email the signed document back to Finance, if able. Finance will then sign the FINAL DOCUMENT and email it back to the resource. This completes the process.

#### **CALDOR INCIDENT PEER SUPPORT:**

The Caldor Peer Support Team is available on the incident for any peer support needs.

Examples of peer support needs are, but not limited to, understanding stress reactions, dealing with traumatic experiences, professional or personal crisis, other behavioral health impacts and/or obtain vetted resiliency resources.

The best way to get a hold of a Peer Team member is to call the number below or stop by the ESS Trailer.

Peer Support Handout

In addition, there is an on-site clinician available to meet on an individual and/or group basis.

# Caldor Incident Peer Support Help Line 916-206-9957

Watch for the signs and symptoms of stress in yourself and the people around you. Try and stay positive and get much needed rest when you can. We can do this, together!

A message to our firefighters from ASHLEY IVERSON.

Stay Healthy, Stay Alert and Stay Strong!

#### **WATER USAGE LOG**

ST #	Strike Team		- Water I	chacis	
WATER SOURCE LOCATION	Hydrant	Open source i.e. pond	Tank	Gallons Used	Property Owne

# **Turn in to Comp/Claims Daily**

The intent of this document is intended to track, record and validate the amount of water used on a incident. It's not intended to review the performance of equipment using the water on an incident.

#### Media Law

The <u>California State Penal Code Section 409.5(d)</u> allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, and does not imply that the news media may interfere with incident operations while they are in the areas of concern. If entering such a location that is hazardous, they should be advised; media access cannot be prevented for safety reasons unless their presence would impede CAL FIRE's mitigation of the incident or the disturbing of evidence. When working around the media, remember:

- Media is not permitted on private property without the property owners permission.
- If approached and questioned by the media and or the public, talk about your assignment or task at hand. Remember to wear all the appropriate PPE.
- If needed call for an incident PIO through the chain of command.
- Never speculate, give opinions or speak for others.
- There is no such thing as an "off the record" comment.

#### **CAL FIRE Social Media Policy (Social Media 0691)**

Social Media is increasingly being used by public agencies, the media as well as the public. This form of communication continues to grow rapidly in order to supply the instant gratification needs of society. Therefore when on a CAL FIRE incident you will adhere to the CAL FIRE Social Media Policy, 0691. You can get further information about the CAL FIRE Social Media Policy from the incident Public Information Officer. While assigned to the incident, there will be **no** posting of:

• Inappropriate information or materials, no opinions, no endorsements, inappropriate pictures or videos

#### **Lost and Found**

The Information Section will manage Lost and Found items for the incident. If you have lost an item leave your contact information and what you have lost at the Information Section. If you have found an item on the incident bring the item to the Information Section with your contact information as well.
