Leader's Intent Work effectively with cooperative partners towards a common goal of protecting values in a safe and efficient manner. All incident assigned personnel should be prepared to take appropriate actions regarding: <ul style="list-style-type: none"> - Personal safety and safety of others, including driving slowly, safely, and defensively while implementing tactics that offer a high probability of success. - Professional conduct and timely/effective communications. - Manage fatigue by taking breaks and maintaining work rest guidelines . - All line supervision personnel, including crew leaders and strike team leaders, must attend the Operational Briefing. 																					
3. Objective(s): Management Objectives <ul style="list-style-type: none"> - Provide for emergency personnel and public safety at all times. - Ensure COVID-19 precautions and best practices are met at all times. - Protect property, improvements, and infrastructure. - Ensure coordinated, timely and accurate release of public information. - Foster and maintain relationships with all cooperators and stakeholders. - Protect economic, natural, cultural and heritage resources. - Maintain fiscal accountability and keep costs commensurate with values at risk. 																					
Control Objectives: West Zone <ul style="list-style-type: none"> - Keep the fire North of HWY 4 - Keep the fire South of Wentworth Springs Rd - Keep the fire East of E16 and Fiddletown Rd 																					
Control Objectives: East Zone <ul style="list-style-type: none"> - Keep the fire South of Mosquito Pass and road systems to N16A, 2N20A, 2N08, and 2N21 - Keep the fire North of HWY 88 - Keep the fire West of El Dorado and Alpine County and State line boundary 																					
General Situational Awareness: <ul style="list-style-type: none"> - Steep and rugged terrain, critically dry and receptive fuel beds, active area for fire history and drought stressed trees. - In the COVID-19 environment, high density populations or large groups are particularly at risk. To help protect yourself, your family and to ensure all employees return home safely, make sure to practice social distancing. - Enhanced hygiene (especially handwashing), PPE & monitoring practices help limit the infection rate of first responders.

INCIDENT WEATHER FORECAST

FORECAST NO: 22
PREDICTION FOR: 24 Hour Shift
SHIFT DATE: 09/09/21
FORECAST ISSUED: 09/08/21 1800

NAME OF FIRE: Caldor West Zone
UNIT: USFS El Dorado NF
SIGNED: Mark Stubblefield *MS*
Incident Meteorologist

WEATHER DISCUSSION: The ridge of high pressure will move over Colorado and New Mexico today as a trough of low pressure moves into the Pacific Northwest. This will bring increasing mid-level moisture, increasing southwest winds, and chances for showers and thunderstorms this afternoon. A Fire Weather Watch has been issued for this storm system. The upper level winds and chances of precipitation will increase tonight as a cold front approaches. Lower elevations will likely see diurnal evening winds while higher elevations will continue to see southwest winds overnight. Most areas will see increasing southwest winds by daylight. The chance of showers and thunderstorms will also increase between 0300 and 1000...and then decrease behind the front. Windy conditions will continue through Friday afternoon with winds diminishing after dark.

...FIRE WEATHER WATCH THIS EVENING THROUGH FRIDAY EVENING...

.TODAY...

Sky/weather.....Sunny early...becoming partly cloudy with a slight (10%) chance of afternoon showers and thunderstorms.
Max temperature...82-91 Branches 10 and 20 and 92-99 Branches 1 and 30.
Min humidity.....17-21 percent.
Wind (20 ft).....
Slope/valley.....Downslope/down canyon 4-8 MPH with gusts to 13 MPH through 0900
then becoming southwest 10 to 15 MPH with gusts to 25 MPH.
Ridgetop.....Southwest 15-20 MPHgusts to 30 MPH.
Mixing height.....Increasing to around 12,000 ft AGL.
LAL: 1 then 2 afternoon.

.TONIGHT...

Sky/weather.....Partly cloudy with a slight (10%) chance of showers and thunderstorms...increasing to 20% after midnight.
Min temperature.....59-67 Branches 10 and 20 and 70-80 Branches 1 and 30.
Max humidity.....35 - 45 percent.
Wind (20 ft).....
Slope/valley.....Downslope/down canyon 4-9 MPH with gusts to 13 MPH lower drainages... southwest 10 to 15 MPH with
gusts to 20 MPH in Branches 10 and 20. All areas will see increasing southwest winds after 0300.
Ridgetop.....Southwest 20-25 MPH.
LAL:2

.FRIDAY...

Sky/weather.....Partly cloudy and windy. A 30% chance of showers and thunderstorms before noon then decreasing to 10%
chance after 1400.
Max temperature.....78-85 Branches 10 and 20 and 87-93 Branches 1 and 30
Min humidity.....18-22 percent.
Wind (20 ft).....
Slope/valley.....Southwest 15 to 20 MPH with gusts to 30 MPH.
Ridgetop.....Southwest 23 -28 MPHgusts to 43 MPH
Mixing height.....Around 8000 ft AGL...then decreasing afternoon.
LAL:3 becoming 2.

GENERAL: Fuels and Fire Behavior Advisory in effect for Northern California

Live and dead fuels throughout the fire area are critically dry and very receptive to ignition. Complete consumption of stumps and heavy down fuels will continue to occur, increasing the chances of rolling materials and deep ash pits. Torching trees can loft embers into green islands or over the control line causing spot fires to occur in the receptive fuels. Erratic winds will be possible in all the drainages, especially those along Hwy 50, Div I and, Div N. Be alert for building cumulous clouds to the southwest and moving over the fire area indicating a potential thunderstorm. Thunderstorm downdrafts could bring down fire-weakened trees, snags and, spread the fire in multiple directions with erratic winds.

SPECIFIC:

BRANCH 1...Smoldering material will continue to be found. Expect calls for service to continue.
 BRANCH 10...Heavy fuels will continue to burn out and smolder. Continued active burning in Div I. Fire behavior will allow for direct tactics. Interior islands and green stringers will continue to burn out.
 BRANCH 20...The fire will continue to be active in Div N. Interior islands, heavy fuels, and green stringers will continue to burn out and could threaten the control lines.
 BRANCH 30... Smoldering material will continue to be found. Expect calls for service to continue.

AIR OPERATIONS: Sunset 19:20 Sunrise 06:40

Limited visibility until the inversion layer burns off early in the morning. Air resources may be limited or ineffective due to thunderstorms or reduced visibility from smoke.

SAFETY:

- Thunderstorm downdrafts will cause erratic winds, especially in complex terrain.
- Watch for fire-weakened trees/branches falling after extended burn-out times of heavy fuels.
- Smoldering ash pits and material will continue to be a source of heat, smoke, and service calls.
- Review Thunderstorm Safety in the IRPG

Fuels and Fire Behavior Advisory

Northern California

September 1, 2021 to September 15, 2021

Subject: Potential for extreme fire behavior due to critically low live and dead fuel moistures, very dry conditions resulting from persistent drought, minimal snowpack and spring precipitation, and elevated fire danger rating values across much of northern California.

Discussion: Fires burning in northern California are exhibiting extreme fire growth based on critical fuel conditions. Fire spread is fuel driven and does not depend on wind to spread. Events with wind have led to extreme rates of spread. Surface fuels are very receptive to embers. Long range spotting, area ignition, and group torching is occurring on large fires frequently.

Difference from normal conditions: Northern California is in a drought; currently with 90% at Extreme to Exceptional levels. The drought is expected to persist or intensify throughout the fire season. Deficient rainfall and snowpack with early melt off has resulted in fuels that are below average in dryness, with record setting conditions for most areas.

Concerns to Firefighters and the Public:

- Energy Release Component (ERC) at numerous weather stations set record maximums already this year and are running at or above the 97th percentile in most cases. Expect increased fire intensity and spread rates in these areas. Early season extreme fire behavior has been observed in both light and heavy fuels. **Anticipate increased spread rates, spotting, and active nighttime burning.**
- The combination of persistent drought and record-low rainfall and snowpack amounts has led to very low live and dead fuel moistures. Low 1000-hour fuel moistures have been evidenced by complete consumption of dead fuels on recent fires. Live fuel moistures in grasses, shrubs and trees, have already reached critical levels in many areas of Northern California due to limited green-up this spring. **Expect fires to ignite easier and spread faster. Do not expect fires to exhibit reduced fire behavior when entering areas of live fuels; anticipate increased spread rates and spotting.**
- Direct attack is often not feasible under regular diurnal wind conditions with ground resources. And aviation utilization is often insufficient in moderating rate of spread without immediate heavy ground resource response. **Anticipate higher resistance to control in all fuel types.**
- Already this year, Northern California has experienced large fire activity and multiple team deployments. California will likely experience an extended fire season. It is important to be mindful of and manage fatigue for all resources. **Everyone, every day, returns home safely.**

Mitigation Measures:

- Local and inbound fire personnel need to be aware that fire behavior across the state is exceeding normal expectations for this time of the year. **Local briefings need to be thorough and highlight specific fire environment conditions. These include but are not limited to local weather forecasts, Pocket Cards, ERC's, live and dead fuel moistures.**
- Suppression actions need to be based on good anchor points, escape routes, and safety zones. **Remember LCES. Experienced lookouts are essential under these conditions.**
- Base all actions on current and expected behavior of the fire. **Augment initial attack resources as incident activity dictates.**

Area of Concern: Northern California except for the following Predictive Service Areas: North Coast and Bay Marine, west of Highway 101 in Mid-Coast to Mendocino and Diablo-Santa Cruz, and the north eastern portion of Far Eastside.

SAFETY MESSAGE

*Safety is a State of Mind. Accidents are an
Absence of Mind.*

P.A.C.E YOURSELF

P – Primary Plan (Offensive)

-focused on firefighting safety and mission objectives

A – Alternate Plan (Offensive)

-a fall back plan that closely supports the primary plan

C – Contingency Plan (Defensive)

-focused on the firefighter's safety, move to a safety zone or temporary refuge area

E – Emergency Plan (Defensive)

-firefighter survival, deployment zones, fire shelters

Ash Pit Awareness

- Observe the remnants of the vegetation model.
- Look for depressions in the ground.
- Use your hand tool to sound your way into the burn.
- White ash may be an indicator of an ash pit.
- Ensure that PPE is worn and properly fitted.

Employee Response Action Plan

COVID-19 Positive Test or COVID-19 Positive Clinical Symptoms Presentation

- *COVID 19 Symptoms: Cough, SOB, Fever or afebrile, Chills, Muscle Pain, Sore throat, Loss of taste/smell*
- Employee informs Company Officer and Strike Team Leader of presumed/confirmed COVID-19 symptoms.
- Employee advised to seek evaluation by Medical Unit and CAL MAT or base camp medical unit.
- Crew initiates cleaning measures. Mask, safety glasses, gloves worn. (If needed, LOGS will assist)
- Medical Unit to notified IC, Liaison, Safety and Logistics ASAP. Medical Unit will notify COVID-19 Public Health Officer and determine need for testing and locations.

Incident Action Plan

- Company Officer / Strike Team Leader notified of personnel with COVID-19 positive test or symptom.
- Medical Unit evaluates individual(s) and need for care and evaluation.
- IC, Liaison, Safety and Logistics notification made to determine course of incident evaluation and response.
- Line Chief, Agency Administrator, and Region Office updated upon notification

Facilities Response

- Medical and Safety notified
- Incident Notification
- Disinfection plan initiated.
- Resource Status Evaluated

Medical Evaluation & Contact Tracing

- Personnel interviewed by Medical Unit . List of Positive contacts made in the last 5 days acquired. All Exposed are required to wear surgical mask, self monitor for Fever/Resp symptoms for up to 14 days (exposed personnel are subject to COVID-19 testing)
- Home Unit / Department utilized and retrospective tracking of Positive COVID-19 personnel inter-actions are identified within the last 5 days.
- Home Unit / Department updated by Company Officer / Strike Team Leader.
- Public Health Department is contacted and updated by IC or Designated Representative.
- Positive COVID-19 Employees w/symptoms will need to be evaluated by Health Department conducting testing, prior to returning to assignment.
- Positive COVID-19 Employees w/o symptoms may be required to be evaluated and resource status will be reviewed prior to returning to assignment.

CAL FIRE INCIDENT MANAGEMENT TEAM 2

Charlie Blankenheim– INCIDENT COMMANDER

DEMOBILIZATION PLAN - SUMMARY CALDOR FIRE INCIDENT CA-ENF-024030

GENERAL INFORMATION

The Demobilization Plan is developed to facilitate the orderly removal and checkout of resources on the incident. By definition, surplus personnel are available for release if they have rested for a minimum of 8 hours, are cleaned up, outfitted and have a vehicle ready to depart to their next destination.

GENERAL GUIDELINES

- **NO RESOURCES WILL LEAVE THE INCIDENT UNTIL AUTHORIZED TO DO SO BY THE DEMOB UNIT.**
- Efforts will be made to ensure that all released personnel arrive at their destination prior to 2200 hours.
- All Resources will arrive at the Demobilizations Unit at their scheduled time Only.
- All government and hired vehicles leaving the incident will have a safety inspection. If a vehicle is within 1,000 miles of a "B" service, it is the responsibility of the resource to contact Ground Support and have an oil change prior to their scheduled demobilization time.
- **All Rental Vehicles will receive a safety inspection prior to leaving the incident.**
- All trainees are to keep their time up to date and report to the Training Specialist with their task books and evaluations prior to completion of the demobilization process.
- All strike team leaders are responsible to call **North Ops at 1-530-224-2466** immediately upon being released from the incident

RESPONSIBILITIES

Unit Leaders will declare resources excess to their **Section Chief**. **Section Chiefs** will declare excess resources to the Planning Section Chief through the **Resource Unit Leader**. This should be done 36 hours in advance of anticipated release. Use the **Declaration of Excess Resources sheet or General Message Form (ICS-213)** to list all excess resources. Include the resource name, request number, name of person, date and time of declared excess, and time in which the resource will be eligible to leave. Send to the **RESOURCE UNIT** where the resource will be determined to be surplus to the incident. Surplus resources will then be able to report to the **DEMOB UNIT**, receive a Demobilization Checkout Form (ICS 221), get the appropriate ICS 221 signatures, and then return the completed ICS 221 to the DEMOB UNIT prior to final release or reassignment. Resources are not to contact **South Ops** or the expanded dispatch center unless instructed to do so by the Demobilization Unit.

RELEASE PRIORITIES

1. **Organized fire departments**
2. **OES engines**
3. **Hired personnel and equipment**
4. **Other agencies (USFS, BLM, etc.)**
5. **Out of region CAL FIRE forces**
6. **Within Region CAL FIRE Forces**
7. **Unit CAL FIRE Forces**

TRAVEL INFORMATION

All resources will meet agency specific requirements on hours of travel per day. For CAL FIRE hand crews, a full 24 hour reset period shall be adhered to before departing from the incident. After a crew's last operational period they shall begin the demobilization release procedure during their 24 hour off shift. In addition, they must use the following complete 24 hour period as reset time before they depart from the incident.

FINANCE MESSAGE

Media Law

The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, and does not imply that the news media may interfere with incident operations while they are in the areas of concern. If entering such a location that is hazardous, they should be advised; media access cannot be prevented for safety reasons unless their presence would impede CAL FIRE's mitigation of the incident or the disturbing of evidence. When working around the media, remember:

- Media is **not permitted** on private property without the property owners permission.
- If approached and questioned by the media and or the public, talk about your assignment or task at hand. Remember to wear all the appropriate PPE.
- If needed call for an incident PIO through the chain of command.
- Never speculate, give opinions or speak for others.
- There is no such thing as an "off the record" comment.

CAL FIRE Social Media Policy (Social Media 0691)

Social Media is increasingly being used by public agencies, the media as well as the public. This form of communication continues to grow rapidly in order to supply the instant gratification needs of society. Therefore when on a CAL FIRE incident you will adhere to the CAL FIRE Social Media Policy, 0691. You can get further information about the CAL FIRE Social Media Policy from the incident Public Information Officer. While assigned to the incident, there will be no posting of:

- Inappropriate information or materials
- No opinions
- No endorsements
- Inappropriate pictures or videos

Lost and Found

The Information Section will manage Lost and Found items for the incident. If you have lost an item leave your contact information and what you have lost at the Information Section. If you have found an item on the incident bring the item to the Information Section with your contact information as well.

Reporting Harassment

Harassment, or other forms of inappropriate misconduct, such as bullying, intimidation, etc., can sometimes go unreported. Employees may not know what to report, how to report, or who to report to. If this is case, please come talk to us, and we'll help you out.

But there are other reasons inappropriate behavior may go unreported, including employees being fearful of:

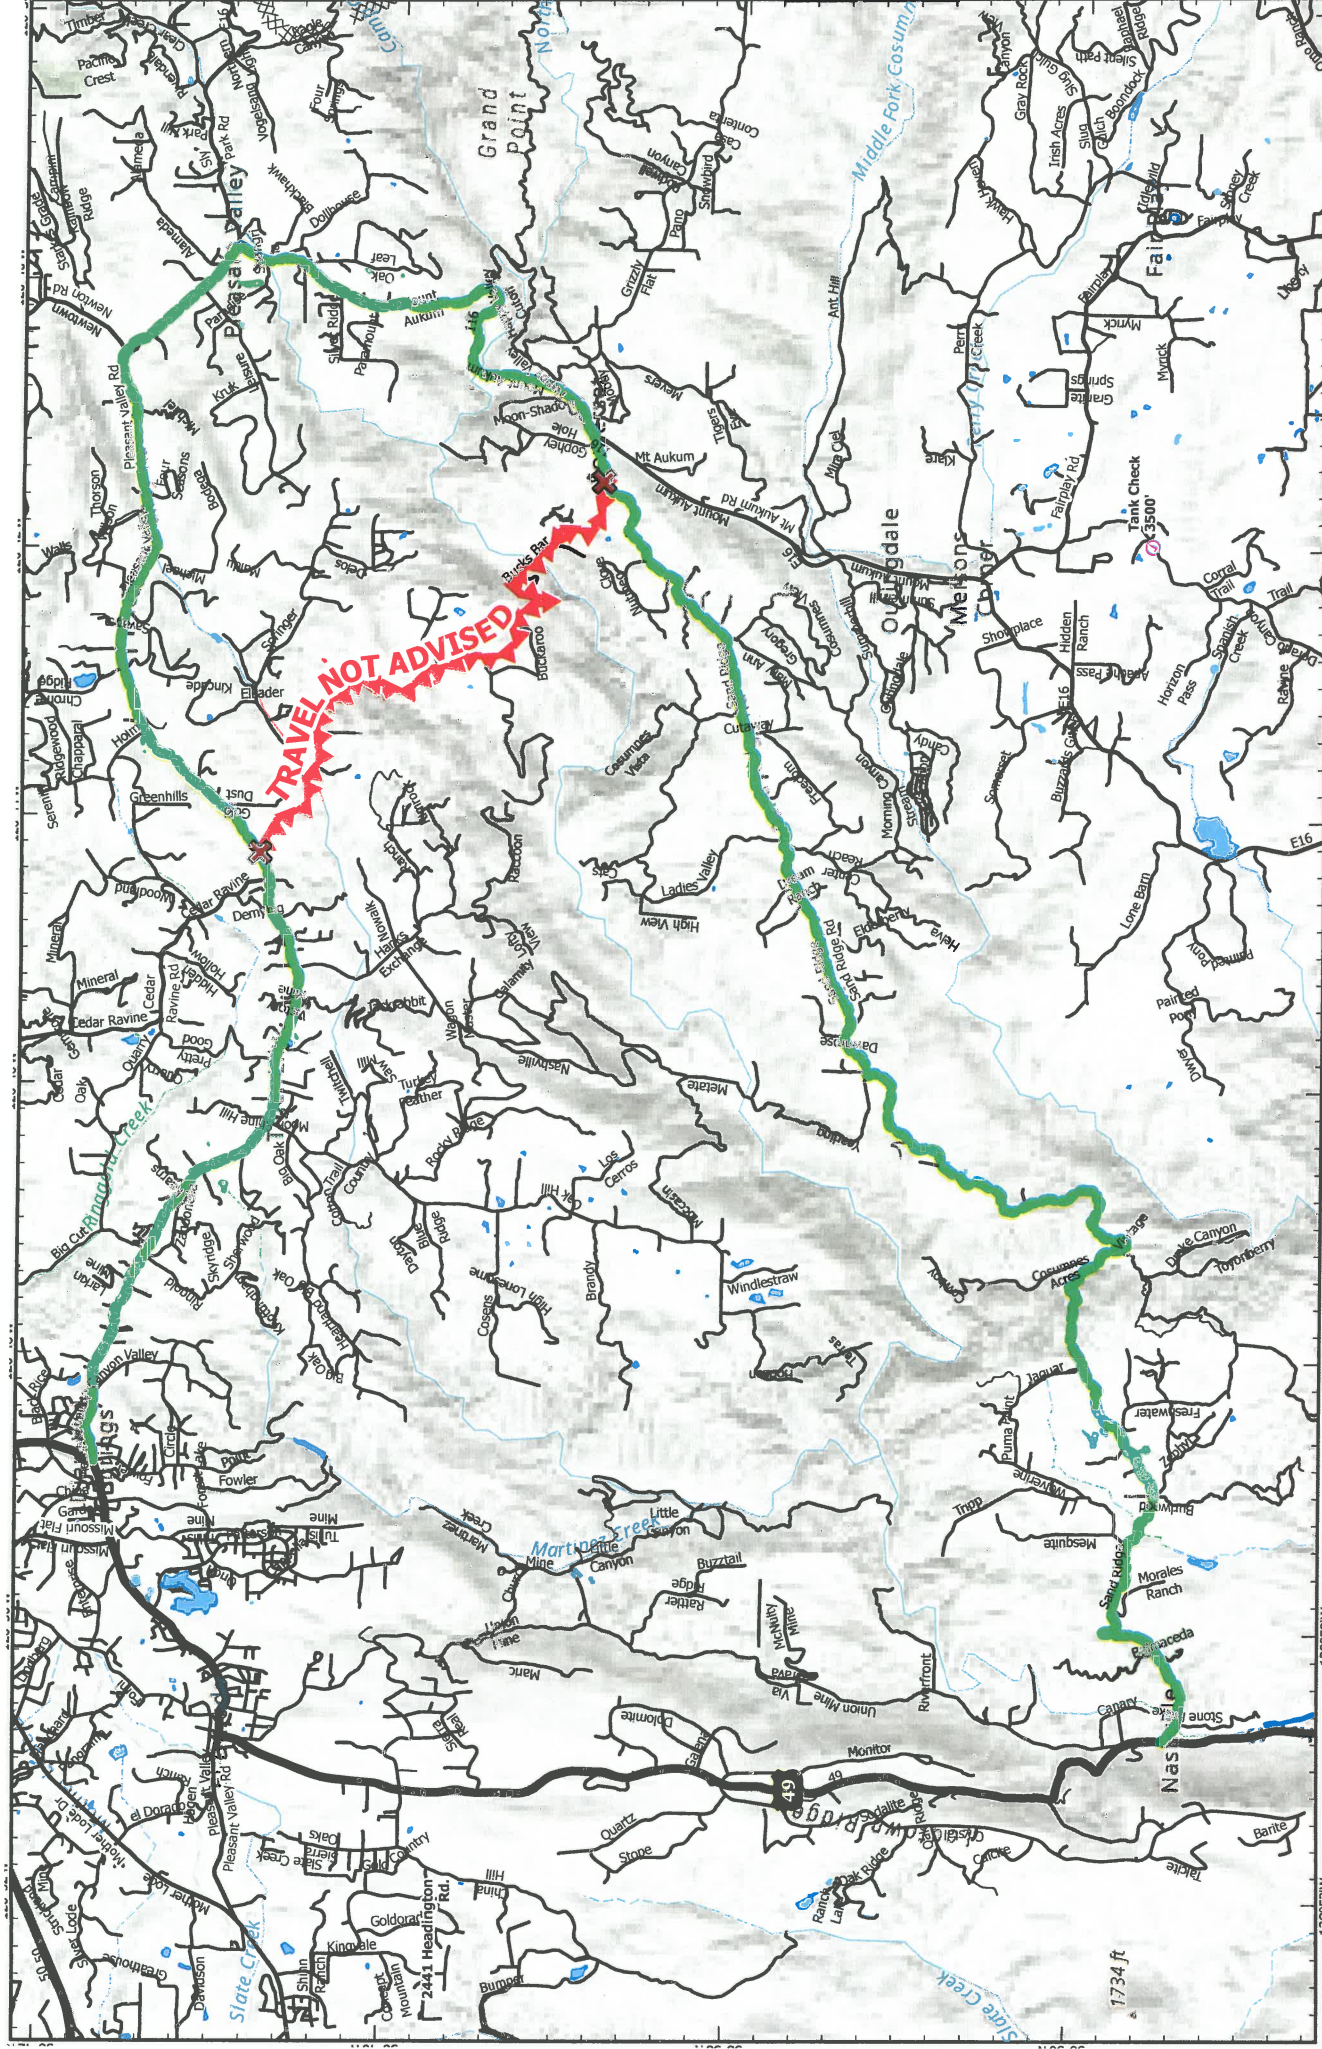

- losing their job
- being demoted
- being denied a raise or promotion
- being treated differently
- not being believed

While the above is understandable, we are fully committed to maintaining a policy of zero tolerance for these types of behaviors that are toxic to the work environment.

We can address issues here on the incident, and we can also follow up with your home units to ensure the behaviors are addressed once you demob, but we can't do anything about issues we aren't aware of. So please, if you see something, say something.
