FIRE WEATHER FORECAST

FORECAST NO:

37

PREDICTION FOR: 0700 Fri - 0700 Sat

NAME OF FIRE: River Complex

SHIFT UNIT:

CA-KNF-006385

SHIFT DATE:

September 10-11, 2021

FORECAST ISSUED: 1930 Thursday, September 9

SIGNED: Jeff Lonkin

Incident Meteorologist - Jeff Tonkin/Jason Straub (T)

WEATHER DISCUSSION: Conditions today will be noticeably cooler than yesterday. Cloud cover remaining from overnight showers will help keep temperatures about 10 degrees lower than Thursday. Winds will be lighter from the west today, remaining below 10 mph. Cooler temperatures will also keep humidity levels elevated during the afternoon, staying above 25%. Light winds over the next several days will bring slowly increasing smoke across the fire.

WEATHER FORECAST FOR TODAY (FRIDAY):

SKY/WEATHER: Cloudy and cooler.

TEMPERATURES: Max Lower Elevations...76-80.

Ridges...61-65F.

24 HR Trend: Down 10!

HUMIDITY:

Min Lower Elevations...28-32%

Ridges...38-41%.

24 HR Trend: Up 10%

20-FOOT WIND:

SLOPE/VALLEY - Upslope winds 2 to 4 mph. **RIDGETOP** – West-northwest winds 5 to 7.

WEATHER FORECAST FOR TONIGHT (FRIDAY NIGHT):

SKY/WEATHER: Clearing skies.

TEMPERATURES: Min Lower slopes/valleys...45-50F;

Ridges...50-55F.

24 HR Trend: Down 5

HUMIDITY:

Max Lower slopes...80-90%;

Ridges...60-70%.

24 HR Trend: Up 5-10%

20-FOOT WIND:

SLOPE/VALLEY - Downcanyon/downslope or west to less than 5 mph after 2100.

RIDGETOP - East 1 to 3 mph.

<u>SATURDAY</u>...Decreasing clouds through the day. Winds will be light and variable through the day for all zones. Humidity will remain elevated during the day, falling only to around 25%. Light winds will allow some smoke to accumulate in lower drainages.

THREE DAY EXTENDED SUNDAY - TUESDAY (based on midslope 3000ft elevation)

	Max T	Min RH	Max RH	Mid-slope Afternoon Winds	Skv/WX
SUN	80 – 8 5	27%	55%	NW 4 to 8 Gusts 12	Light Smoke
MON	80 – 8 5	22%	65%	N 3-6 mph	Light Smoke
TUE	83 – 8 8	20%	50%	NW 4-7 mph	Smoke

Perimeter Wx Obs

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 36

FIRE NAME: River Complex

DATE ISSUED: 09/09/2021

UNIT: Klamath NF & Shasta-Trinity NF

SIGNED: Typed/printed: Oscar Vargas (FBAN)

INPUTS

WEATHER SUMMARY:

- Seasonable temps. Cloudy skies. Cooler and higher humidity than yesterday. Westerly Winds.

- For Tonight: Clear skies. Good humidity recovery. Light west winds/downslope slopes/valley, East on ridges.

See Fire Weather Forecast for today's weather details

FUELS SUMMARY: Dense mixed conifer, old-growth timber, heavy down/dead, mixed ground fuels Fuel models best represented by TL8, TU5, SH7, and GS2.

Scan to report observed fire behavior

OUTPUTS

FIRE BEHAVIOR

GENERAL: **Fuels and Fire Behavior Advisory Issued for northern California**

- Critically low Live & Dead fuel moistures.1000-hr. dead fuel moisture below 10% and live fuels way below 100%.
- Topography is very steep and rugged. Elevations from 3000' 7500' with slopes over 100% (450) in many places.
- Fire behavior will increase as smoke clears and will become much more active later in the day
- · Heavy dead fuels/timber-litter/light-flashy fuels are highly receptive to spotting and active growth in all directions

SPECIFIC:

Moderate to high intensity burning conditions. Moderate rates of spread, flare-ups/torching and short to mid-range spotting possible. Rapid growth & rates of spread will occur when fire aligns with wind and/or slope. Backing & flanking at low-moderate rates. Areas covered by smoke and/or clouds will have low-moderate fire behavior and areas with clear skies will burn much more actively. East and northeast flanks have the highest growth potential.

Night: Fire behavior will remain active at night, specially at higher elevations. Low-moderate fire behavior in areas covered by smoke/clouds. Some areas will be more active at night due to heat insulation or loss of wind influence. East and northeast flanks have the highest growth potential.

Roll-out & flare-ups will be a problem during the day & night.

--Probability of Ignition up to 70% in most areas during the day-- -- ERCs between 90th & 97th percentile--

Haypress Fire: Moderate rates of spread to the east & northeast. Uncontained spot fires will continue to actively grow at variable rates of spread depending on slope and winds. Many areas are positioned to slope-reverse and run uphill. Uncontained firelines will actively burn with occasional torching. Backing & flanking fires will burn with moderate intensity. The Parker spot will spread to the north in uncontained areas towards the main fire and smolder within control lines.

Summer Fire: Fire continues smoldering within control lines and flanking into the 2020-Red Salmon Fire. DIV-S/T have many areas of intense heat that will continue to spread to the south/southwest at moderate-rapid rates of spread and slope-reversal uphill runs will continue to occur.

Cronan Fires: Smoldering and smoke within containment lines will continue.

AIR OPERATIONS:

Clouds & smoke from these fires and other fires in the region will continue to limit the use of aircraft

SAFETY

Fire weakened trees/snags are a high-risk hazard! Identify-notify-mitigate. Avoid tree-strikes.

CIIMT 13 COVID-19 Best Practices / Mitigation

Minimize risk and limit exposure to COVID-19 by daily screening, minimizing large group settings, social distancing, wearing face coverings when appropriate, hand washing, cover your mouth and nose when coughing or sneezing and practicing good hygiene

At the beginning of the shift, supervisors should remind their personnel to self-screen for symptoms.

WILDLAND FIRE COVID-19 SCREENING TOOL

Today or in the past 24 hours, have you had any of the following symptoms 1?

Symptom	
Cough more than expected?	
Shortness of breath or difficulty breathing?	
Fever? Chills?	
Muscle pain, outside your normal for firefighting?	
Sore throat?	
New loss of taste or smell?	
Fatigue, outside your normal for firefighting?	
Headache, outside your normal for firefighting?	1947 - Charles Control of the Contro
Congestion or runny nose, outside your normal for fa	refighting?
Nausea or vomiting	
Diarrhea	###### СПП в «ческая Пероко Социалия по подрежение по денесное под
* Take temperature with no-touch thermometer, if av	ailable *

1 Symptoms of Coronavirus

https://www.ede.gov/coronavirus/2019-neov/symptoms-testing/symptoms.html

Do your part to minimize your risk of exposure and limit the spread COVID-19.

Public Considerations

- ⇒ Wear a face covering when in public.
- > Wash your hands often.
- ⇒ Use hand sanitizer after pumping gas.
- ⇒ Use hand sanitizer prior to getting into your vehicle after visiting the grocery store or a restaurant.
- Set the example while in the public eye.

*Keep in mind that fire camp is in a city with a populous and the potential for the COVID virus to be present is greater.

If you answered Yes to these symptoms, report it to your supervisor immediately, self-isolate away from other people until given direction and call **MEDICAL**.

Prevention and Management of COVID-19 During Wildland Fire Operations Keep yourself and your peers safe by practicing these measures whenever possible

Practice Social/Physical Distancing

- Do not gather in groups or shake hands.
- Hold necessary meetings outside and maintain a social distance of 6 feet.
- Use radios, remote units, and virtual technology for communications as much as possible.

 Wear cloth face coverings and practice hand hygiene when riding in vehicles or coming into contact with outside resources, personnel, or the general public.

Clean and Disinfect

- Clean and disinfect shared areas and high touch surfaces in workplaces, vehicles, and housing at regular intervals.
- Use appropriate PPE and follow product label instructions when cleaning and disinfecting.
- Do not share dishes, drinking glasses, cups, eating utensils, towels, or bedding without appropriately sanitizing them.
- Minimize equipment sharing, disinfect equipment, and wash/sanitize hands before and after use.

Maintain a Healthy Workforce

- Monitor your own health and maintain awareness of symptoms.
- Prioritize rest, proper hydration, and nutrition to reduce cumulative fatigue.
- Practice rigorous sanitation and personal hygiene, including covering coughs and sneezes and washing/ sanitizing hands.
- Conduct symptom screening, including temperature checks, at duty stations or on incidents.
- Mitigate smoke exposure whenever possible.
- Assign at-risk individuals to duties that reduce their potential for contracting the illness.

98.6°F

Prevent the Spread of COVID-19

00000

- Separate sick individuals; provide a separate bedroom, bathroom, and essential supplies.
- Sick individuals must wear a face mask or cloth covering over their nose and mouth and maintain a 6-foot distance.
- Seek immediate medical attention if someone develops emergency warning signs for COVID-19.
- Only discontinue isolation after meeting CDC criteria.

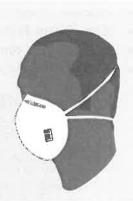

Understand Different Face Coverings

- Cloth face coverings over the mouth and nose are not PPE and should be washed with soap and water after each use.
- Disposable face and surgical masks covering the mouth and nose are not PPE and should be discarded after one use.
- N95 filtering facepiece respirators are PPE and have a close facial fit and efficient filtration of airborne particles.

- Centers for Disease Control and Prevention: https://www.cdc.gov/coronavirus/2019-ncov/.
- National Wildfire Coordinating Group: https://www.nwcg.gov/committees/ emergency-medical-committee/ infectious-disease-guidance.

HEALTH AND SAFETY MESSAGE

SAFETY starts with **YOU**

We are <u>ALL</u> accountable for <u>SAFE</u> behaviors September 10-11, 2021

INCIDENT: River Complex

Day/Night Shift

Major Hazard and Risk:

- **Hazard Trees:** Assess ALL Trees in Work Areas....*Madrone* have a shallow root ball and fire weakened trees are especially susceptible to fall in High Winds.
- Extended Extraction Times: Be familiar with the medical plan, and "game-out" how you would get an injured firefighter out timely. Factor in how smoke inversions will reduce the likelihood of utilizing helicopters for a medevac.
- ➤ Covid-19: Remember face coverings are mandatory in the common areas. The COVID-19 mitigations will not only prevent spread throughout fire camp but will reduce the likelihood of you bringing it home to your loved ones.

FIRE ORDER OF THE DAY:

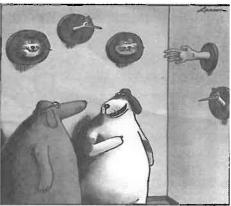

Know what your fire is doing at all times:

- Safety is of utmost importance.
- Constantly review and apply the Risk Management Process.
- Be particularly cautious around snags: IRPG 80 & 81.
- Burning or partially burned live and dead trees.

Human Factors Barriers to Situation Awareness and Decision Making

Hazardous Attitudes:

- Invulnerable This can't happen to us
- Anti-authority Disregard of the team effort
- Impulsive- Do something even if its wrong
- Macho- Trying to impress or prove something
- Complacent-Just another routine fire
- Resigned-We can't make a difference
- Group Think-Afraid to speak up or disagree

"And that's the hand that fed me."

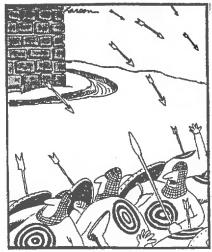

Thanks from your Safety Team!!

Terri Knauth, Ken Gordon, Larry Wright, Brian Phillips, Terrell Drew, Ray Franco, Mike Smith

LOOKOUTS

For more information look at your IRPG page 6.

- Experienced, competent and trusted
- Enough lookouts at good vantage points
- Knowledge of crew locations
- Knowledge of escape and safety locations
- Knowledge of trigger points

"What did I say, Boris? ... These new uniforms are a crock!"

DUTY.....Be proficient in your task
RESPECT..... Look out for the safety of
others
INTEGRITY.....Seek and accept

responsibility

INCIDENT SAFETY ANALYSIS 215a

River Complex / CA KNF 006385 - Friday, September 10, 2021

	Till Comptex	7 CA KW 000303 - Friday, September 10, 2021
8. Location	9. Hazard	6. Control or Abatement Action (Engineering, Administrative, PPE Avoidance, Education, etc)
All	Air Operations	~ Follow " Aviation Watch-Out Situations" on page 46, IRPG.
All	Extended Medical Extraction Times	 Identify helispots and Lat/Longs, ensure they're known. Know 8 Line and remain organized and calm. Stay current on weather conditions that could effect Helicopter operations. Preplan extractions on your division and update as you go. Call for adjoining resources for assistance.
All	Hazard Trees	 Follow "Hazard Tree Safety" guidelines, IRPG page 22,23. Post lookouts, or use a spotter in mop-up areas with personnel. Don't park vehicles or take breaks in high concentrations of hazard trees. Establish trigger points for disengagement during high wind events. Remember that the hazard zone extends a minimum of 2 1/2 tree heights. Aviation drops may bring down trees, burned or unburned
All	Steep Terrain & Rolling Debris	Maintain 8'-10' spacing when working & walking. ~ Don't work directly above or below any personnel. ~ Be on the lookout for rolling rocks, debris, or burning material. ~ Shout out loudly any rock or log rolling down the hill. ~ Evaluate necessity to send personnel in areas with limited access. ~ Post lookouts (IRPG pg 7).
All	Night Operations	 Stay alert for snags and other hazards not easily seen. Maintain high visibility in work area and wear vest while in roadway. Use glow sticks to mark escape routes and hazards. Factor in that travel on foot and in vehicles will be slower at night. Ensure personnel have a personal light (headlamp). Watch for signs of fatigue. Take breaks away from areas of known hazards.
All	Structure Protection & HAZMAT	 Review "Wildland Urban Interface" Watch outs, IRPG page 12. Have LCES in place. Use "Structure Assessment" checklist, IRPG pages 13-16. Follow "HAZMAT Incident Operations" on pages 36-38 in IRPG.
All	Driving & Traffic	~ Practice "Defensive Driving" techniques traveling on all roads and city streets. ~ Use spotters when backing. ~ Honk horn to alert personnel when backing. ~ Keep clutter off dash and inside cab. ~ Follow Driving LCES (Lights, Chock blocks, Emergency brake, Seat belts. ~ Always use headlights. ~ Yield to pedestrians and bicycles. ~ Observe posted speed limits. ~ Use the 3 second rule for following distance when driving. ~ Use chock blocks, turn wheels into hill. ~ Avoid distractions (eating, cell phones, radio). ~ Ensure that windshields are kept clean of dust and bugs.
All	Fatigue & Over Exertion	~ Drink 1 quart of water each hour during and after work. ~ Rotate crews out of smoky areas. ~ Set a reasonable work pace and allow adequate rest breaks while on the project. ~ Stagger work crews start time to limit fatigue. ~ Use buddy system to monitor personnel of heat related and fatigue issues. ~ Follow work / rest guidelines.

INCIDENT SAFETY ANALYSIS 215a

All	Firefighter & Public Smoke Exposure	 Identify homes and structures with private parties remaining behind the evacuation. Identify personnel responsible for contacting private parties. Use warning lights and provide traffic control on roadways during smoky and night operations. Rotate crews out of smoky areas during firing and mop-up operations. Contact Communications when firing operations are initiated and stopped.
All	Chainsaw Operations	 Follow "Hazard Tree Safety" guidelines, IRPG page 22,23 Look up, Look down, Look around for hazard tree indicators. Only fell and buck trees within your expertise, and training. Follow "Procedural Felling Operations" on page 85 in IRPG. Do not fall trees during high wind events. Ensure proper use of all required PPE. Ensure chaps are tight and fitted correctly.
All	Heat Related Illness (HRI)& Dehydration	 Drink Fluids throughout operational period (6-8 qts/shift). Maintain water/electrolyte ratio of 3 to 1. Carry extra water on line and cache water at drop points. Take Frequent breaks, minimum of 10 minutes every hour. Allow out of area resources time to acclimatize before expecting peak performance. Recognize symptoms of HEAT RELATED ILLNESS which include. Lack of energy Headaches, dizziness Lack of rest No hunger, poor eating habits Hot skin, and lack of sweating
All	Extreme Fire Behavior	 Share weather observations with all personnel assigned to division. Establish "Trigger Points" to withdraw. Ensure real safety zones and quality escape routes exist prior to engagement. Use "Risk Management" process prior to engaging in suppression actions, refer to page 1 IRPG. Ensure awareness of thunderstorms and their effects in the area.
All	Heavy Equipment Operations	 Ensure operators know the plan and have an out. Ensure communications are established with operators. Use hand signals if other communications are unavailable. Maintain a 50'-100' exclusion area around equipment and increase it to 1 1/2 times tree height when in timber. Use a spotter when backing. Avoid working below heavy equipment.
All	Firing Operations & Devices	 Only personnel trained in the use of each device will be authorized to use firing equipment. Ensure all personnel are aware of firing operation that may affect them. Wear appropriate PPE. Ensure aerial/ground ignition plans have been adequately developed and personnel are briefed.
All	Infectious Disease\COVID	∼ Wash hands frequently / maintain good hygene. ∼ Maintain 6' separation at all times in camp. ∼ Use module of one concept. ∼ Use technology as often as possible for meetings. ∼ Do not share phones\radios. ∼ If you feel sick isolate immediately and notify supervisor.

Task - Identify control lines and advance construction to support the strategy. Prepare lines to be defended as wildfire advances.

Purpose - To keep fire away from values at risk in Callahan and Hwy 3 corridor and protect private property and land to the North.

End State - Lines are constructed and prepared and ready to be defended from approaching wildfire.

7. Special Instructions:

Identify and collect equipment for backhaul.

Continue to collaborate with READs. All natural and cultural resource concerns are flagged with orange/white candy-stripe flagging.

CODE OF CONDUCT INCIDENT PERSONNEL

Each individual on this incident is responsible for:

- > Being *ready and able* to perform their assigned duties effectively
- Conducting themselves in a manner that treats people with dignity, equality, courtesy, and respect
- Abiding by agency ethics and conduct regulations
- > Reporting any harassment or other inappropriate behavior

Each individual on this incident has the right to:

- Work in an environment characterized by safe work practices
- > Work in a fair and harassment free environment
- > Say "No" to unwelcome advances or requests for favors
- File complaints or grievances through appropriate avenues

There is zero tolerance for inappropriate behavior while assigned to the incident, including

- Illegal drug use
- Alcohol use
- Unsafe work practices and activities
- Discrimination
- Sexual harassment
- > Fighting, threatening and abusive behaviors
- Using social media and electronic communication devices for personal business while engaged in fire assignment duties
- Other violations of USDA and Forest Service standards of conduct

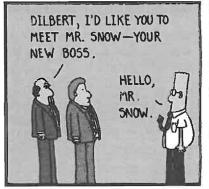

Failure to adhere to the Code of Conduct could result in dismissal from the incident, with notification to your home unit.

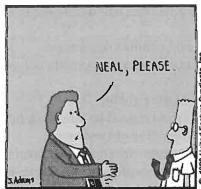

The public expects our best efforts; they see us as professionals in what we say and do. Let's continue to show them we are!

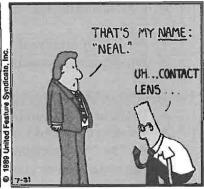

Human Resource Message

California Interagency Incident Management Team 13 would like to express their sincere appreciation for your dedication in helping to meet the incident's objectives and for the mutual respect displayed during the course of this fire. Please continue to be exemplary incident personnel for California Interagency Incident Management Team 2 by performing to the best of your abilities and continuing to be professional and treating everyone with respect.

Ryan Voelkl - HRSP: 530-457-7276

Interagency Incident Management

MEDIA - The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and the news media may not interfere with incident operations. Please always treat the media with courtesy and respect and advise the Information Office if there are any issues.

PHOTOGRAPHS AND VIDEOS OF INCIDENT - Please refrain from posting incident related videos to your personal social media. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera loses their situational awareness. When this happens it could reflect poorly on all that are attached to this incident.

Please email photo and video submissions to 2021.river@firenet.gov
