## **INCIDENT OBJECTIVES (ICS 202)**

RIVER COMPLEX

9/18/2021

3. TIME: 1800

4. OPERATIONAL PERIOD (DATE/TIME): 9/19/2021 to 9/20/2021, Day 0700-1900 / Night 1900-0700

5. OBJECTIVES:

### Strategic Framework

Implement a full suppression strategy on the fires within the River Complex. Values at risk include human safety, communities, private timberlands, critical infrastructure, associated improvements, and wilderness values. Apply tactics that offer the highest probability of success commensurate with resource availability.

### **Leaders Intent**

Provide the highest level of customer service to all involved with or impacted by the River Complex. Ensure transparent, timely and accurate communication at all levels of the incident and strengthen relationships with cooperators. All incident assigned personnel should be prepared to take appropriate actions regarding:

- Professional behavior, conduct, and timely/effective communication.
- Personal safety and the safety of others, including driving slowly and defensively.
- Manage fatigue by taking breaks and maintaining work/rest cycles.
- Minimize risk and limit exposure to infectious disease by minimizing large group settings, social distancing, wearing face coverings, and handwashing.

### Management Objectives

- Provide for firefighter and public safety through hazard recognition and application of the risk management process.
- Coordinate public information with Monument fire and other local fires to provide timely and continuous information to affected agency partners, cooperators, and to the public.
- Coordinate suppression activities with assigned incident Resource Advisors to minimize impacts to wilderness, natural and cultural resources.

## **Control Objectives**

Keep the Cronan fire within existing control lines.

To prevent the Haypress fire from spreading to private property, surrounding communities, and impacting values at risk, keep the fire:

- South of Cecilville Road.
- West of the Hwy 3.
- North of Long Valley Road.
- East of the 2020 Red Salmon fire footprint.

## -River Complex Weather Forecast

**FORECAST NO:** 

PREDICTION FOR:

SHIFT DATE: **FORECAST ISSUED:**  47

Sun 0700 to Thu 0700

September 19, 2021

1900 September 18, 2021

NAME OF FIRE:

UNIT:

**Incident Meteorologist:** 

Klamath National Forest

River Complex

Terry Lebo, Noah Myers (T)

## WEATHER DISCUSSION

Isolated light rain showers are possible this morning, with little additional accumulation. Clouds will decrease by early afternoon with mostly clear skies by the end of the day. Expect breezy north winds through the evening, especially along ridgetops where gusts could occasionally reach 20 mph. Looking ahead, a warming and drying trend will set in through the week.

<u>SUNDAY:</u>

WEATHER:

Occasional rain showers in the morning. Decreasing clouds in the

afternoon.

**MAX TEMPERATURES:** 

Above 5500 ft: 45-54°F Below 5500 ft: 54-65°F

MIN HUMIDITY:

30-45% CLOUD COVER @ 1500 20%

CHANCE WETTING RAIN

20%

**20 FOOT WINDS:** 

Ridge Lines: From the northwest 10 to 12 mph with gusts 15 to 20 mph.

Valleys: From the northwest 5 to 8 mph.

LAL:

**SUNDAY NIGHT:** 

WEATHER:

Dry, partly cloudy.

**MIN TEMPERATURES:** 

35-45°F 55-80%

MAX HUMIDITY:

0%

**CHANCE WETTING RAIN** 20 FOOT WINDS:

Ridge Lines: From the northeast 8 to 12 mph with gusts to 18 mph.

Valleys: Northeast 5 to 8 mph.

<u>OUTLOOK</u>

MONDAY:

Clear. Highs 60 to 78°F, lows 45 to 55°F. Min RH 20-40%. Max RH 35-45%. Winds

from the northeast 10 to 15 mph with gusts around 20 mph.

TUESDAY:

Clear. Highs 65 to 85°F, lows 48 to 58°F. Min RH 15-25%. Max RH 30-40%. Winds

from the south 5 to 10 mph with gusts to 12 mph.

WEDNESDAY:

Partly cloudy. Highs 63 to 83°F, lows 45 to 55°F. Min RH 20-30%. Max RH 40-50%.

Winds from the west 5 to 10 mph with gusts to 14 mph.

# FIRE BEHAVIOR FORECAST FORECAST NUMBER: 45 FIRE NAME: River Complex DATE ISSUED: 9/18/21 UNIT: CA-KNF, CA-SHF TYPE OF FIRE: Wildfire OPERATIONAL PERIOD: September 19, 2021 24hr TIME ISSUED: 2000 SIGNED: Typed/printed: Dennis Burns/s/ Dave Duran (T)/s/

#### **INPUTS**

#### WEATHER SUMMARY: Isolated rain showers early, then clear skies in the afternoon

- Today Temps 54-65 RH 30-45%. Wind, NW 10-12 gusts to 15-20 on the ridges, 5-8 below the ridges.
- Tonight Temps 35-45 RH 55-80% Wind NE 8-12 gusts to 18 on the ridges, 5-8 below the ridge.

**FUELS SUMMARY:** Dense mixed conifer, old-growth timber, heavy dead/down, mixed ground fuels. Fuel models best represented by 10, TL8, TU5, SH7, and GS2.

#### **OUTPUTS**

#### FIRE BEHAVIOR

#### GENERAL:

#### \*\*\*Fuels advisory active for Northern California\*\*\*

- Critically low Live & Dead fuel moistures. 100 and 1,000hr and Live Fuels remain dry.
- Fire behavior will be significantly moderated due to yesterdays' rain.
- Heavy dead fuels/timber-litter/light-flashy fuels are highly receptive and will continue to burn out.

ERC's values will rebound back to high values later in the week. Probability of ignition 60% in the afternoon.

#### SPECIFIC:

**Branch X:** Fire will continue to progress to the North and East. Expect slow rates of spread. Heavy fuels will produce intense heat. Pockets of heavy dead and down will hold heat for long periods and produce intense heat. Any spotting will be short range from rollout. Structure threat exists in the Callahan area. Tonight, expect less active fire behavior throughout the shift.

**Branch V:** The fire remains in a backing and flanking alignment. Expect slow rates of spread. Any spotting will be short range from rollout. Structure threat to the Coffee Creek area still exists. Structure threat exists in the Eagle Creek Loop area. Many natural barriers to fire spread exist throughout the Branch. Tonight, expect less active fire behavior throughout the shift.

Cronan Fire: No fire progression expected.

**All Areas:** Spotting from rollout will continue to be problematic. Slope-reversals are probable from any fire burning in drainage bottoms. Mop-up is extensive. Smoke will continue to limit aircraft operations. Fire activity will moderate when it reaches the Red Salmon burn scar.

AIR OPERATIONS: Smoke will impact visibility and effect aircraft availability.

#### SAFETY

- Make sure Lookouts are posted in places where they can see potential spotting.
- Fire weakened timber poses a threat to personnel working in timber areas.
- Unburned fuel between you and the fire.

## Fuels and Fire Behavior Advisory

### Northern California

September 16, 2021, to September 30, 2021

**Subject:** Potential for extreme fire behavior due to continued critically low live and dead fuel moistures. Very dry conditions resulting from persistent drought, minimal snowpack and spring precipitation, periods of excessive heat have caused elevated to record fire danger rating values across much of northern California. Anticipated moisture could temporarily reduce some threat across the far north PSAs.

**Discussion:** Fires burning in northern California continue to exhibit extreme fire growth due to critical fuel conditions. Rapid fire spread can be fuels driven. Wind events have led to extreme rates of spread. Surface fuels are very receptive to embers. Long range spotting, area ignition, and group torching is occurring on large fires frequently.

**Difference from normal conditions:** Extreme to Exceptional levels of drought conditions continue to exist across much of Northern California. The drought is expected to persist or intensify through the rest of fire season. Deficient rainfall and snowpack with early melt off, coupled with periods of extreme heat has resulted in fuels that are critically dry, with record setting conditions for most areas.

## Concerns to Firefighters and the Public:

- Energy Release Component (ERC) at numerous weather stations set record maximums already this
  year. Recent scattered rain has reduced some ERC values, but fuels are rebounding quickly. Extreme
  fire behavior has been observed in all fuel types and both live and dead fuels. Continue to anticipate
  increased spread rates, spotting, and active nighttime burning.
- The combination of extreme levels of persistent drought and record-low rainfall and snowpack amounts has led to very low live and dead fuel moistures. 1000-hour fuel moistures continue to trend at record low levels in many areas. Live fuel moistures in grasses, shrubs, and trees, remain at critical levels in many areas of Northern California due to limited green-up this spring. Expect fires to ignite easier, spread faster and burn hotter. Reports of blistered paint on vehicles have been surprisingly frequent so far this year. Do not expect fires to exhibit reduced fire behavior when entering areas of live fuels; anticipate increased spread rates and spotting.
- Direct attack is often not feasible under regular diurnal wind conditions with ground resources. Aviation utilization is often insufficient in moderating rate of spread without immediate heavy ground resource response. Anticipate higher resistance to control in all fuel types.
- Northern California continues to experience large fire activity and multiple team deployments and will likely experience an extended fire season. It is important to be mindful of and manage fatigue for all resources. Everyone, every day, returns home safely.
- The frequency of North to Northeast offshore wind events increases from mid-September into the fall.
   These strong winds are often accompanied by very low RHs and will pose an increased hazard when combined with this year's critically dry fuels conditions. Watch for change.

## Mitigation Measures:

- Local and inbound fire personnel need to be aware that fire behavior across the state is exceeding
  normal expectations for this time of the year. Local briefings need to be thorough and highlight
  specific fire environment conditions. These include but are not limited to local weather
  forecasts, PocketCards, ERC's, live and dead fuel moistures.
- Suppression actions need to be based on good anchor points, escape routes, and safety zones.
   Remember LCES. Experienced lookouts are essential under these conditions.
- Base all actions on current and expected behavior of the fire. Augment initial attack resources as incident activity dictates.

**Area of Concern:** Northern California except for the following Predictive Service Areas: North Coast and Bay Marine, west of Highway 101 in Mid-Coast to Mendocino and Diablo-Santa Cruz, and the northeastern portion of Far Eastside.

## Fuels and Fire Behavior Advisory

Northern California
September 16, 2021, to September 30, 2021

# River Complex Safety Message

Operational Period: 09/19-20/21 0700-0700

## Fight Complacency

- Stay mentally engaged on the task at hand
- Give clear briefings.
- · Clearly identify the day's mission and purpose.
- Use the "Buddy System" and watch out for each other. If you see something, say something.
- Ask yourself: "Are you doing the job safely, the way you were trained?"
- Look for a "new" or "fresh" approach to repetitive assignments.
- Address complacency in your daily AAR.

## **Learn From Today**

- Give, and demand, a quality briefing...Every shift!
- Speak up, ask questions, listen and communicate!
- Pian ahead!
- Evaluate the day's activity at the end of shift (AAR).
- Adjust the plan, based on what you learn.

## To Improve for Tomorrow!

## **Driving**

- When driving keep speed at or below the posted speed limit and your headlights on.
- Stay as far to the right of the road as is safely possible.
- Drive defensively! Expect the unexpected around every curve.
- Watch for and anticipate civilian traffic.
- Watch out for debris and wildlife on the roads.
- Do not tail gate.
- Always fasten your seat belt before the vehicle is set into motion.

Slow down, slow down, and slow down!

## **Operational Leadership**

- Take Charge of assigned resources.
- Anticipate changing conditions and potential emergencies.
- Motivate firefighters with a "can do safely" attitude.
- **Demonstrate Initiative** by taking action in the absence of orders.
- Communicate by giving specific instructions and asking for feedback!
- Supervise at the scene of the action.
- Follow-Up with feedback and suggestions for improvement.

Mop up and patrol direct line to the north of Coffee Creek. Continue to improve in-direct line as it progresses to the north around Eagle Creek subdivision. Provide structure protection to property along the Hwy 3 corridor. Scout for direct line opportunities to minimize the fire footprint on private lands.

#### 7. Special Instructions:

NIMS LAP

Avoid travel over the small bridge in Eagle Creek subdivision. Identify and collect equipment for backhaul.

READS will check in and out and with DIVS. Continue to collaborate with READs. All natural and cultural resource concerns are flagged with orange/white candy-stripe flagging.

Mountain Medics AMBU #1 is available to Branch V DIVS.

#### 6. Work Assignments:

Mop up and patrol along Cecilville Road and from the southern 17 Road and Cecilville Road junction to the L/M DIV break, at Fox Creek, along the 7 Road to keep fire within current containment lines. Identify opportunities for rehab in areas of full containment.

#### 7. Special Instructions:

Backhaul all accountable property not critical to meet control objectives.

READS will check in and out and with DIVS. Continue to collaborate with READs. All natural and cultural resource concerns are flagged with orange/white candy-stripe flagging.

24 hour resources are assigned to Div L during the day and Div Night K/L/M/U during the night.

Etna Ambulance is available to all Divisions in Branch X.

## LINE "MEDICAL-EMERGENCY" PLAN:

- Crew Supervisor to contact Division Supervisor/Operations with:
  - Patient Complaint, Condition and Location via Tactical or Command frequency. Priority 1/Red & 2/Yellow Patients trigger incident within Incident (IWI).
- Division Supervisor/Operation contacts Communications/Dispatch:
  - Division Supervisor or POC\* will run "Medical -Emergency" on the Command frequency.
  - Division Supervisor or POC\* to use "Medical Incident Report" worksheet on back of this page or back of IRPG.
  - Communication contacts Medical Unit Leader on the Command frequency or cell phone (562) 252-2168 (Medical Emergencies Only).

POC\* (Point of Contact) and/or Operations

## **LINE "NON-EMERGENCY INCIDENT" PLAN:**

- Crew Supervisor to contact Division Supervisor with:
  - Patient Complaint, Condition and Location via Tactical or Command frequency. Priority 3/Green, (Minor) Patients do not trigger incident within incident (IWI).
- Division Supervisor to contact Communications/dispatch:
  - Division Supervisor or POC\* will run "Non-Emergency Incident" on the Command frequency.
  - Division Supervisor or POC\* will use "Medical Incident Report" worksheet on the back of this page or back of IRPG.
  - Communications contacts Medical Unit Leader on the Command frequency or cell phone (562) 252-2168 (For medical related incidents only).

## IN-CAMP - 24 HOUR MEDICAL

- Contact 911 and Medical Unit (562) 252-2168 with:
  - Patient Complaint, Condition and Location

#### **Medical Incident Report**

FOR A NON-EMERGENCY INCIDENT: WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM COMMUNICATIONS

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree.

Requesting air ambulance to Forest Road 1 at (Lat/Long.)

This will be the Trout Meedow Medical Incident, IC is TFLD, longs, FMT Smith is pro-

	"This will b	e the Trout Meadow Medical Inciden	t, IC is TFLD Jones. EMT Smi	th is providing medical care."	
Severity	of Emergency			or illness. Evacuation need in a 3° burns more than 4 paim sizes	
	AND	☐YELLOW / PRIORITY 2 S	erious injury or liiness. I	Evacuation may be DELAYED	if necessary.
Trans	port Priority	Ex: Significant trauma, unab	ole to walk, 2° – 3° burns not m	ore than 1-3 palm sizes.	
(prio	rity 1, 2, 3)	☐GREEN / PRIORITY 3 Min Ex: Sprains, strains, minor h		-Emergency transport

## Human Resources Message September 19, 2021

## **Monitor Your Stress**

Stress is a normal and necessary part of life. It helps you make choices, develop plans, change your behavior and begin new activities. It can be a positive force, giving you energy and the drive to be your very best.

Severe and prolonged stress, however, can be harmful, and certain signs and symptoms are indicators that your stress reaction is persistent and serious.

If you are experiencing "typical" stress symptoms such as anxiety, worry, irritability, apathy, negativity or trouble sleeping, but you find you return to normal when the stress is over, you are most likely experiencing normal stress reactions.

However, if your stress symptoms continue even after the stress is over, and/or you experience any of the symptoms below, you may be experiencing severe stress that can be harmful and should be addressed with your medical professional:

- Loss of control of body functions, emotions or thinking
- Can't fall or stay asleep
- Recurrent vivid nightmares
- Intense guilt or shame
- Panic attacks or rage
- Inability to enjoy activities
- Thoughts of suicide or homicide
- Stress symptoms that get worse instead of better
- Stress symptoms that get better for a while then return worse

Please look out for yourself and one another, and seek whatever help is needed to stay healthy and manage your stress!

Julie Nelson, HRSP 720-512-7591

## **COVID-19 Vaccinations are Available While on the Incident**

Free vaccines are available at the following locations in the area surrounding the River Complex:

Walmart Inc #10-1630 – (530) 842-7330 1906 Fort Jones Rd, Yreka, CA 96097 Check appointment availability (vaccines in stock) 21.13 miles

Fairchild Medical Center – (530) 841-6291 444 Bruce St, Yreka, CA 96097 Check appointment availability (vaccines in stock) 22.22 miles

Rite Aid #RA106104 – (530) 842-5596 807 S Main St, Yreka, CA 96097 COVID-19 appointments available 22.78 miles

Rite Aid #RA106103 – (530) 926-3826 310 W Lake St, Mt Shasta, CA 96067 COVID-19 appointments available 31.95 miles

Use this QR Code to access vaccination locations nearest your assignment on the River Complex

If you choose to get vaccinated while on the incident, compensatory time while be provided.

## Test early Test often!!

## **USDA** Forest Service

# Free COVID-19 tests are available for wildland fire personnel!!!

Not just for Forest Service personnel! Anyone associated with wildland fire work is welcome.

To get tested for free, go to the

Klamath National Forest Headquarters (aka "Klamath Supervisor's Office")

1711 South Main St, Yreka, CA 96097 - 7 AM to 6 PM every day!

Please use the QR code to the right to register (either before or on-site) for the test administered by Emergency Response Logistics, Inc. That QR code will take you to a form.

In the interest of protecting each other and our families, we encourage testing early and often! Please contact testing.klamath1@gmail.com if you have questions or comments.

All USFS employees and non-USFS personnel assigned to fires in the Klamath NF area or passing through Yreka en route to or from fire assignments are encouraged to stop to be tested prior to reporting to the assignment or traveling to another site or home.

A core value of the Forest Service is safety. This testing availability is an additional step in safeguarding human life and protecting our most valuable resources. Our Code and Commitments include being trusted to "do right" by each other and the communities we serve.

## River Complex Message Board

## To receive mail please address:

Your Name O or E#

River Complex (ICP or spike camp)

C/O General Delivery

Etna, CA 96027

# Have Photos? Let us share them to the world for you!

Send photos of firefighters working on in/direct line, laying hose, structure protection, and crews actively fighting fire to **2021.river@firenet.gov** 

Please note the location(s) especially if you are near a community, the photographers name, and be sure they have on proper PPE.

Thank you in advance!

#### A reminder from the Finance Section:

Please email finance related documents if you are not able to turn in hard copies to:

## 2021.river.finance@firenet.gov

Please make sure your shift tickets include:

\*\*Resource Order Number\*\*

\*\*Correct dates and times\*\*

\*\*Employee should total hours worked and circle the total\*\*

\*\*Signed by your Incident Supervisor\*\*

\*\*Justifications are required for all\*\*

---Hazard Pay-

-- Excessive Shifts--

--No meal breaks shown--

### Training Specialist Message

#### To assure proper documentation for your assignment:

- 1. Scan the Incident QR Code, located on the front cover of the IAP
  - 2. Click on Trainee Check-In
  - 3. Complete the Trainee Registration Form & submit

#### At the end of your assignment:

- 1. Trainee: Scan the incident QR code. Click on the Trainee Exit Interview, complete the form and submit.
- 2. Trainer: Fill in the Position Task Book as completely as possible for this incident.
- 3. Trainer: Complete the ICS 225 performance evaluation and discuss with your Trainee. Make sure it's <u>signed</u> by both the Trainer and Trainee. Take a picture/copy of the ICS 225 and send it to <u>imt2training@gmail.com</u>

The Training Specialist will send the training documents to the email address you provided.

For training related questions, call/text Dominic Panno (TNSP) at 530-913-8251 or emailimt2training@qmail.com

## Local Government Resources on CFAA If you are demobing and there is no OES AREP there:

- > Have the FSC or IC review and sign your 42s
  - You give the incident the pink copy
    - You keep the gold copy
- > You mail the white and green (if it has a green) to OES Headquarters per the instructions on the 42

OES JOB AIDS, FORMS, F-42 SAMPLES AND CFAA AGREEMENT

Your OES Fire & Rescue Assistant Chief Patrick Titus 916-634-9225
