FUELS SUMMARY: Dense mixed conifer, old-growth timber, heavy down/dead, mixed ground fuels
Fuel models best represented by TL8, TU5, SH7, and GS2.

OUTPUTS

FIRE BEHAVIOR

GENERAL: **Fuels and Fire Behavior Advisory Issued for northern California**

- Critically low Live & Dead fuel moistures. 1000-hr. dead fuel moisture below 10% and live fuels way below 100%.
- Topography is very steep and rugged. Elevations from 3000' - 7500' with slopes over 100% (45°) in many places.
- Fire behavior will increase as smoke clears and will become much more active later in the day
- Heavy dead fuels/timber-litter/light flashy fuels are highly receptive to spotting and active growth in all directions

SPECIFIC:

Heavy smoke above the surface will limit fire behavior but areas with clearer skies will have much more active and intense fire behavior. Areas within smoke will have low-moderate fire behavior and areas without smoke will have moderate to high fire behavior. Southwest winds will increase fire behavior on southwest facing slopes exposed to the winds. Moderate backing and flanking rates of spread with high intensity burning. Rapid rates of spread when fire is aligned with slope, available fuels and/or wind. Single and group torching with short to mid-range spotting is likely. Fire activity will remain active at night in heavy dead fuels and timber litter. Some areas will be more active at night due to heat insulation and loss of wind influence. Roll-out will be a problem during the day and night.

--Probability of Ignition up to 90% in most areas during the day-- --ERCs around 97th percentile--

Haypress Fire: Fire is established in Sugar Pine Creek and will continue to spread to the East and up-creek at slow to moderate rates of spread with occasional torching and uphill runs. Backing and flanking at moderate rates of spread with upslope runs when slope-reversals occur. Fire continues to back to the Cecilville rd in DIV-L at moderate rates of spread with some rollout and occasional torching. Recent firing operations will actively burn and smolder within containment lines. Active fire growth to the east in DIV-M and to the south on DIV-S/T. The Parker spot will remain active and grow to the north in uncontained firelines.

Summer Fire: Fire continues to back to the Cecilville rd in DIV-U at moderate rates of spread with some rollout and occasional torching. Recent firing operations will actively burn and smolder within containment lines. Fire is established in Plummer creek and spreading towards to the west. DIV-S/T have many areas of intense heat that will continue to spread to the south at moderate to rapid rates of spread. Slope-reversal uphill runs will occur.

Cronan Fires: Scattered smoldering and smoking within containment lines will continue.

AIR OPERATIONS:

Smoke from these fires and other fires in the region will continue to limit the use of aircraft until smoke clears

SAFETY

There are many deceptively quiet areas on this large fire. Quiet areas can quickly change to rapid and intense fire behavior when skies clear and winds surface. Maintain positive Situational Awareness.

CIIMT 13 COVID-19 Best Practices / Mitigation

Minimize risk and limit exposure to COVID-19 by daily screening, minimizing large group settings, social distancing, wearing face coverings when appropriate, hand washing, cover your mouth and nose when coughing or sneezing and practicing good hygiene

At the beginning of the shift, supervisors should remind their personnel to self-screen for symptoms.

WILDLAND FIRE COVID-19 SCREENING TOOL

Today or in the past 24 hours, have you had any of the following symptoms¹?

Symptom
Cough more than expected?
Shortness of breath or difficulty breathing?
Fever? Chills?
Muscle pain, outside your normal for firefighting?
Sore throat?
New loss of taste or smell?
Fatigue, outside your normal for firefighting?
Headache, outside your normal for firefighting?
Congestion or runny nose, outside your normal for firefighting?
Nausea or vomiting
Diarrhea
<i>* Take temperature with no-touch thermometer, if available *</i>

¹ Symptoms of Coronavirus

<https://www.cdc.gov/coronavirus/2019-ncov/symptoms-testing/symptoms.html>

Do your part to minimize your risk of exposure and limit the spread COVID-19.

Public Considerations

- ⇒ Wear a face covering when in public.
- ⇒ Wash your hands often.
- ⇒ Use hand sanitizer after pumping gas.
- ⇒ Use hand sanitizer prior to getting into your vehicle after visiting the grocery store or a restaurant.
- ⇒ Set the example while in the public eye.

*Keep in mind that fire camp is in a city with a populous and the potential for the COVID virus to be present is greater.

If you answered Yes to these symptoms, report it to your supervisor immediately, self-isolate away from other people until given direction and call **MEDICAL**.

Prevention and Management of COVID-19 During Wildland Fire Operations

Keep yourself and your peers safe by practicing these measures whenever possible

Practice Social/Physical Distancing

- Do not gather in groups or shake hands.
- Hold necessary meetings outside and maintain a social distance of 6 feet.
- Use radios, remote units, and virtual technology for communications as much as possible.
- Establish smaller spike camps to insulate crews/modules from each other and outside personnel and resources (Module as One).
- Keep newly onboarded crewmembers separate for 2 weeks.
- Create separate spaces in offices and housing and stagger work hours.
- Wear cloth face coverings and practice hand hygiene when riding in vehicles or coming into contact with outside resources, personnel, or the general public.

Clean and Disinfect

- Clean and disinfect shared areas and high touch surfaces in workplaces, vehicles, and housing at regular intervals.
- Use appropriate PPE and follow product label instructions when cleaning and disinfecting.
- Do not share dishes, drinking glasses, cups, eating utensils, towels, or bedding without appropriately sanitizing them.
- Minimize equipment sharing, disinfect equipment, and wash/sanitize hands before and after use.

Maintain a Healthy Workforce

- Monitor your own health and maintain awareness of symptoms.
- Prioritize rest, proper hydration, and nutrition to reduce cumulative fatigue.
- Practice rigorous sanitation and personal hygiene, including covering coughs and sneezes and washing/sanitizing hands.
- Conduct symptom screening, including temperature checks, at duty stations or on incidents.
- Mitigate smoke exposure whenever possible.
- Assign at-risk individuals to duties that reduce their potential for contracting the illness.

98.6 °F

Prevent the Spread of COVID-19

- Separate sick individuals; provide a separate bedroom, bathroom, and essential supplies.
- Sick individuals must wear a face mask or cloth covering over their nose and mouth and maintain a 6-foot distance.
- Seek immediate medical attention if someone develops emergency warning signs for COVID-19.
- Only discontinue isolation after meeting CDC criteria.

Understand Different Face Coverings

- Cloth face coverings over the mouth and nose are not PPE and should be washed with soap and water after each use.
- Disposable face and surgical masks covering the mouth and nose are not PPE and should be discarded after one use.
- N95 filtering facepiece respirators are PPE and have a close facial fit and efficient filtration of airborne particles.

SAFETY MESSAGE

SAFETY IS OUR FIRST PRIORITY

Fire fighter safety comes first on every fire, every time

Make sure LCES is in place

Each firefighter must know the interconnection of LCES - lookouts, communications, escape routes, and safety zones. LCES should be established before fighting the fire: Select lookouts, set up a communications plan, choose escape routes, and select safety zones.

SAFETY THOUGHT

When trees are present, snags are a threat

Been there, done that? **Don't take the dangers of driving for granted.** Keep alert to hazards—no matter how experienced you are at driving.

- “Watch Outs” include narrow, windy one-lane roads; heavy highway traffic; ATVs; wildlife; limited sight distance; adverse weather; foliage; dust, smoke, and ambient light; driver distractions; extended fatigue.
- **Obey posted speed limits.** Watch out for deer other wildlife. **SLOW DOWN**, do not over-drive roads, turn on headlights, maintain spacing, check brakes, clean windshields, watch backing and use a spotter when available. Use caution on narrow, limited sight distance access roads.
- Ensure that all passengers have seatbelts fastened before the vehicle is put into motion.
- Drive defensively. Be alert for non-incident traffic. Yield to local pedestrian and be courteous to other drivers.
- Smaller vehicles yield to buses, tenders, dozers, and engines.
- Personnel and loose tools are not transported together. Make daily mechanical checks of vehicle before driving.
- Reduce speed during night driving.
- Pay attention to the temperature inside your vehicle. If it feels too warm, you may tend to fall asleep. Don't drive into an area that is hazardous. Get out and walk.

“WATCH OUT” FOR COMPLACENCY

- Take care of personal health conditions. See the medics for blisters, allergies, and colds.
- Clearly understand assignment and be accountable for meeting determined objectives.

Got Blisters?

The majority of us have had blisters and know, the longer the blister is allowed to fester, the worse it gets. However, with preventative measures – such as popping the blister and covering it with duct tape – we can mitigate the pain. Problems/Issues are like blisters – though we don't pop them or apply duct tape to our problems – if we are not proactive with taking steps to mitigate the problem and we let them fester, our problems turn into something we'd rather them not turn into.

Please be proactive and come visit your HRSP when a work-related problem/issue first arises, and I will gladly help you mitigate it so it won't become an painful blister!

Interagency Incident Management

MEDIA – The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and the news media may not interfere with incident operations. Please always treat the media with courtesy and respect and advise the Information Office if there are any issues.

PHOTOGRAPHS AND VIDEOS OF INCIDENT – Please refrain from posting incident related videos to your personal social media. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera loses their situational awareness.
