FIRE WEATHER FORECAST

FORECAST NO: 32 NAME OF FIRE: River Complex

PREDICTION FOR: 0700 Sun – 0700 Mon **SHIFT UNIT:** CA-KNF-006385

SHIFT DATE: September 5-6, 2021 SIGNED: Jeff Lonkin

FORECAST ISSUED: 1930 Saturday, September 4 Incident Meteorologist – Jeff Tonkin/Jason Straub (T)

WEATHER DISCUSSION: Light easterly winds overnight continue to hold smoke in place across the fire. Sunday will be similar to Saturday, with winds shifting southwest in the early afternoon, steering the smoke slowly to the north. Low humidity levels will continue, falling to 10 to 15% in the afternoon, especially in areas that have lesser amounts of smoke. Pattern change beginning early next week with much warmer and drier conditions along with less smoke Monday...followed by windier conditions on Tuesday.

WEATHER FORECAST FOR TODAY (SUNDAY):

SKY/WEATHER: Persistent smoke, drifting northeast.

TEMPERATURES: Max Lower Elevations...91-96. Ridges...78-83F. **24 HR Trend:** Up 4 **HUMIDITY:** Min Lower Elevations...11-16% Ridges...13-17%. **24 HR Trend:** Down 2

20-FOOT WIND:

SLOPE/VALLEY – East-Southeast 2 to 4 mph through late morning becoming WSW or Upslope 3 to 6 mph with gusts to 10 mph after 1200.

RIDGETOP — East wind 3 to 5 in the morning...becoming southwest winds 5 to 7 mph with a few gusts to 10 in the afternoon.

INVERSIONS/STABILITY: Light mixing possible in the early afternoon.

WEATHER FORECAST FOR TONIGHT (SUNDAY NIGHT):

SKY/WEATHER: Very Smoky...especially in drainages.

TEMPERATURES: Min Lower slopes/valleys...57-60F; Ridges...59-63F. **24 HR Trend:** Up 2-4

HUMIDITY: Max Lower slopes...30-35%; Ridges...18-24%. **24 HR Trend:** Down 5-8%

20-FOOT WIND:

SLOPE/VALLEY – Downcanyon/downslope or east to less than 5 mph after 2100.

RIDGETOP – ESE 2 to 5 mph.

INVERSIONS/STABILITY: Smoky... and heavy in drainages.

<u>MONDAY</u>... Decreasing smoke. Max temps...87-94F. Min RH 10-14%. Light east early becoming south-southwest 3 to 6 mph...local gusts to 10 mph. West and southwest winds along ridgetops reaching 6 to 8 mph with gusts to 12 in the afternoon.

EXTENDED (TUESDAY – THURSDAY)

	Max T	Min RH	Max RH	Midslope Afternoon Winds	Sky/WX
TUE	82 – 89	19%	40%	SW 9-12 Gust 20 mph	No Smoke
WED	77 – 84	24%	65%	WSW 2-5	Sunny
THU	74 – 81	30%	75%	Light and variable	High Clouds

Perimeter Wx Obs

FORECAST NUMBER: 31 FORECAST NUMBER: 31 TYPE OF FIRE: Wildfire OPERATIONAL PERIOD: 09/05/21, Day-Night Shifts DATE ISSUED: 09/04/2021 UNIT: Klamath NF & Shasta-Trinity NF SIGNED: Typed/printed: Oscar Vargas (FBAN)

INPUTS

WEATHER SUMMARY:

- It will be a Hot and Dry day. Persistent smoke, drifting to the northeast. Southwest winds.
- ---For Tonight: Smoky night. Humidity recovery as low as 18%. Light east or downslope winds--

See Fire Weather Forecast for today's weather details

FUELS SUMMARY: Dense mixed conifer, old-growth timber, heavy down/dead, mixed ground fuels Fuel models best represented by TL8, TU5, SH7, and GS2.

Scan to report observed fire behavior

OUTPUTS

FIRE BEHAVIOR

GENERAL: **Fuels and Fire Behavior Advisory Issued for northern California**

- Critically low Live & Dead fuel moistures.1000-hr. dead fuel moisture below 10% and live fuels way below 100%.
- Topography is very steep and rugged. Elevations from 3000' 7500' with slopes over 100% (450) in many places.
- Fire behavior will increase as smoke clears and will become much more active later in the day
- Heavy dead fuels/timber-litter/light-flashy fuels are highly receptive to spotting and active growth in all directions

SPECIFIC:

Increase in fire behavior due to hotter and drier weather. Heavy smoke just above the surface will limit fire behavior but areas with clearer skies will have much more active and intense fire behavior. Areas within smoke will have moderate fire behavior and areas without smoke will have high intensity burning condition. Rapid rates of spread when fire is aligned with slope, available fuels and/or wind. Backing and flanking at moderate rates of spread.

Single and group torching with short to mid-range spotting will continue.

Fire behavior will remain active at night in heavy dead fuels/timber litter, specially at higher elevations. Some areas will be more active at night due to heat insulation and loss of wind influence. Roll-out will be a problem during the day & night.

--Probability of Ignition up to 90+% in most areas during the day-- --ERCs around 97th percentile--

Haypress Fire: Fire will continue to spread towards Coffee Creek community and slow to moderate rates of spread. High intensity burning, uphill runs, torching, spotting active growth to the east at higher elevation. Backing and flanking at moderate rates of spread with upslope runs when slope-reversals occur. Fire continues backing the Cecilville rd in DIV-L at moderate rates of spread with some rollout and occasional torching. Recent firing operations will actively burn and smolder. Active fire growth to the east in DIV-M and to the south on DIV-S/T. The Parker spot will grow to the north.

Summer Fire: Fire continues backing to the Cecilville rd and flank the west on DIV-U at moderate rates of spread with some rollout, torching and occasional uphill runs. Recent firing operations will actively burn and smolder. Fire continues spreading west of Plummer creek up high. DIV-S/T have many areas of intense heat that will continue to spread to the south at moderate to rapid rates of spread. Slope-reversal uphill runs will occur.

Cronan Fires: Scattered smoldering and smoking within containment lines will continue.

AIR OPERATIONS:

Smoke from these fires and other fires in the region will continue to limit the use of aircraft until smoke clears

SAFETY

Heads up with spot fires! short, mid-range and long-range spotting is highly likely to occur in with active torching.

Up to ½ mile spotting has been observed in the previous 2 days.

CIIMT 13 COVID-19 Best Practices / Mitigation

Minimize risk and limit exposure to COVID-19 by daily screening, minimizing large group settings, social distancing, wearing face coverings when appropriate, hand washing, cover your mouth and nose when coughing or sneezing and practicing good hygiene

At the beginning of the shift, supervisors should remind their personnel to self-screen for symptoms.

WILDLAND FIRE COVID-19 SCREENING TOOL

Today or in the past 24 hours, have you had any of the following symptoms 1?

Symptom	
Cough more than expected?	
Shortness of breath or difficulty breathing?	
Fever? Chills?	
Muscle pain, outside your normal for firefighting?	
Sore throat?	
New loss of taste or smell?	
Fatigue, outside your normal for firefighting?	
Headache, outside your normal for firefighting?	
Congestion or runny nose, outside your normal for firefighti	ng?
Nausea or vomiting	
Diarrhea	
* Take temperature with no-touch thermometer, if available	*

Symptoms of Coronavirus

https://www.cdc.gov/coronavirus/2019-ncov/symptoms-testing/symptoms.html

Do your part to minimize your risk of exposure and limit the spread COVID-19.

Public Considerations

- ⇒ Wear a face covering when in public.
- Wash your hands often.
- ⇒ Use hand sanitizer after pumping gas.
- ⇒ Use hand sanitizer prior to getting into your vehicle after visiting the grocery store or a restaurant.
- ⇒ Set the example while in the public eye.

If you answered Yes to these symptoms, report it to your supervisor immediately, self-isolate away from other people until given direction and call **MEDICAL**.

^{*}Keep in mind that fire camp is in a city with a populous and the potential for the COVID virus to be present is greater.

Prevention and Management of COVID-19 During Wildland Fire Operations Keep yourself and your peers safe by practicing these measures whenever possible

Practice Social/Physical Distancing

- Do not gather in groups or shake hands.
- Hold necessary meetings outside and maintain a social distance of 6 feet.
- Use radios, remote units, and virtual technology for communications as much as possible.

- Establish smaller spike camps to insulate crews/modules from each other and outside personnel and resources (Module as One).
- Keep newly onboarded crewmembers separate for 2 weeks.
- Create separate spaces in offices and housing and stagger work hours.

 Wear cloth face coverings and practice hand hygiene when riding in vehicles or coming into contact with outside resources, personnel, or the general public.

- Clean and disinfect shared areas and high touch surfaces in workplaces, vehicles, and housing at regular intervals.
- Use appropriate PPE and follow product label instructions when cleaning and disinfecting.

Maintain a Healthy Workforce

- Monitor your own health and maintain awareness of symptoms.
- Prioritize rest, proper hydration, and nutrition to reduce cumulative fatigue.
- Practice rigorous sanitation and personal hygiene, including covering coughs and sneezes and washing/ sanitizing hands.
- Conduct symptom screening, including temperature checks, at duty stations or on incidents.
- Mitigate smoke exposure whenever possible.
- Assign at-risk individuals to duties that reduce their potential for contracting the illness.

98.6°F

Prevent the Spread of COVID-19

 Separate sick individuals; provide a separate bedroom, bathroom, and essential supplies.

- Sick individuals must wear a face mask or cloth covering over their nose and mouth and maintain a 6-foot distance.
- Seek immediate medical attention if someone develops emergency warning signs for COVID-19.
- · Only discontinue isolation after meeting CDC criteria.

Understand Different Face Coverings

- Cloth face coverings over the mouth and nose are not PPE and should be washed with soap and water after each use.
- Disposable face and surgical masks covering the mouth and nose are not PPE and should be discarded after one use.
- N95 filtering facepiece respirators are PPE and have a close facial fit and efficient filtration of airborne particles.

- Centers for Disease Control and Prevention: https://www.cdc.gov/coronavirus/2019-ncov/.
- National Wildfire Coordinating Group: https://www.nwcg.gov/committees/ emergency-medical-committee/ infectious-disease-guidance.

Incident:

RIVER COMPLEX

Operational Period:

Date From: 9/5/21 Date To: 9/6/21

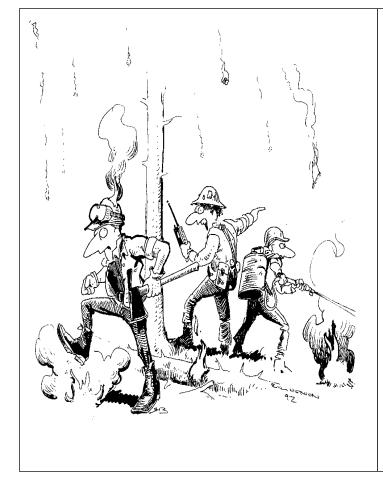

Time From: 0700 Time To: 0700

Communication Responsibilities

- Briefings All resources require briefings, use the briefing checklist in the IRPG
- Debrief Actions Conduct AAR's to identify lessons learned
- **Communicate Hazards to others**
- **Acknowledge Messages**
- Ask if you do not know Ask questions in unfamiliar situation

MAJOR HAZARDS AND RISKS

STEEP TERRAIN	ROLLING MATERIAL	HEAVY EQUIPMENT
FATIGUE	DEHYDRATION	SNAGS
SPOT FIRES	BUCKET DROPS	COMPLACENCY

Discuss establishing trigger points based on measurable factors such as:

- RH
- Winds
- Fire behavior
- Topographical boundaries
- Time/distance to safety zones
- Loss of support resources (airtankers, helicopters, etc.)
- Other operational considerations (e.g., firefighter fatigue, loss of lookouts or communication)

Incident Safety Officer: Terri Knauth, Ken Gordon, Larry Wright, Brian Phillips, Terrel Drew, Ray Franco

INCIDENT SAFETY ANALYSIS 215a

River Complex / CA KNF 006385 - Sunday, September 05, 2021

8. Location	9. Hazard	6. Control or Abatement Action (Engineering, Administrative, PPE, Avoidance, Education, etc)
All	Air Operations	~ Follow " Aviation Watch-Out Situations" on page 46, IRPG. ~ Don't plan on air resources for medical transport or resupply. ~ Refer to page 58, IRPG for directing bucket drops. ~ Ensure positive communication with all air resources. ~ Ensure all resources on Div are aware of air ops. ~ Use signal flash or flagging to help pilots. ~ Stay away from trees as drops can bring them down.
All	Extended Medical Extraction Times	 Identify helispots and Lat/Longs, ensure they're known. Know 8 Line and remain organized and calm. Stay current on weather conditions that could effect Helicopter operations. Preplan extractions on your division and update as you go. Call for adjoining resources for assistance.
All	Hazard Trees	~ Follow "Hazard Tree Safety" guidelines, IRPG page 22,23. ~ Post lookouts, or use a spotter in mop-up areas with personnel. ~ Don't park vehicles or take breaks in high concentrations of hazard trees. ~ Establish trigger points for disengagement during high wind events. ~ Remember that the hazard zone extends a minimum of 2 1/2 tree heights. ~ Aviation drops may bring down trees, burned or unburned
All	Steep Terrain & Rolling Debris	Maintain 8'-10' spacing when working & walking. ~ Don't work directly above or below any personnel. ~ Be on the lookout for rolling rocks, debris, or burning material. ~ Shout out loudly any rock or log rolling down the hill. ~ Evaluate necessity to send personnel in areas with limited access. ~ Post lookouts (IRPG pg 7).
All	Night Operations	 Stay alert for snags and other hazards not easily seen. Maintain high visibility in work area and wear vest while in roadway. Use glow sticks to mark escape routes and hazards. Factor in that travel on foot and in vehicles will be slower at night. Ensure personnel have a personal light (headlamp). Watch for signs of fatigue. Take breaks away from areas of known hazards.
All	Structure Protection & HAZMAT	 Review "Wildland Urban Interface" Watch outs, IRPG page 12. Have LCES in place. Use "Structure Assessment" checklist, IRPG pages 13-16. Follow "HAZMAT Incident Operations" on pages 36-38 in IRPG.
All	Driving & Traffic	~ Practice "Defensive Driving" techniques traveling on all roads and city streets. Use spotters when backing. Honk horn to alert personnel when backing. Keep clutter off dash and inside cab. Follow Driving LCES (Lights, Chock blocks, Emergency brake, Seat belts. Always use headlights. Yield to pedestrians and bicycles. Observe posted speed limits. Use the 3 second rule for following distance when driving. Use chock blocks, turn wheels into hill. Avoid distractions (eating, cell phones, radio). Ensure that windshields are kept clean of dust and bugs.
All	Fatigue & Over Exertion	 Drink 1 quart of water each hour during and after work. Rotate crews out of smoky areas. Set a reasonable work pace and allow adequate rest breaks while on the project. Stagger work crews start time to limit fatigue. Use buddy system to monitor personnel of heat related and fatigue issues. Follow work / rest guidelines.

INCIDENT SAFETY ANALYSIS 215a

All	Firefighter & Public Smoke Exposure	 Identify homes and structures with private parties remaining behind the evacuation. Identify personnel responsible for contacting private parties. Use warning lights and provide traffic control on roadways during smoky and night operations. Rotate crews out of smoky areas during firing and mop-up operations. Contact Communications when firing operations are initiated and stopped.
All	Chainsaw Operations	~ Follow "Hazard Tree Safety" guidelines, IRPG page 22,23 ~ Look up, Look down, Look around for hazard tree indicators. ~ Only fell and buck trees within your expertise, and training. ~ Follow "Procedural Felling Operations" on page 85 in IRPG. ~ Do not fall trees during high wind events. ~ Ensure proper use of all required PPE. ~ Ensure chaps are tight and fitted correctly.
All	Heat Related Illness (HRI)& Dehydration	 Drink Fluids throughout operational period (6-8 qts/shift). Maintain water/electrolyte ratio of 3 to 1. Carry extra water on line and cache water at drop points. Take Frequent breaks, minimum of 10 minutes every hour. Allow out of area resources time to acclimatize before expecting peak performance. Recognize symptoms of HEAT RELATED ILLNESS which include. Lack of energy Headaches, dizziness Lack of rest No hunger, poor eating habits Hot skin, and lack of sweating
All	Extreme Fire Behavior	 Share weather observations with all personnel assigned to division. Establish "Trigger Points" to withdraw. Ensure real safety zones and quality escape routes exist prior to engagement. Use "Risk Management" process prior to engaging in suppression actions, refer to page 1 IRPG. Ensure awareness of thunderstorms and their effects in the area.
All	Heavy Equipment Operations	 Ensure operators know the plan and have an out. Ensure communications are established with operators. Use hand signals if other communications are unavailable. Maintain a 50'-100' exclusion area around equipment and increase it to 1 1/2 times tree height when in timber. Use a spotter when backing. Avoid working below heavy equipment.
All	Firing Operations & Devices	 Only personnel trained in the use of each device will be authorized to use firing equipment. Ensure all personnel are aware of firing operation that may affect them. Wear appropriate PPE. Ensure aerial/ground ignition plans have been adequately developed and personnel are briefed.
All	Infectious Disease\COVID	 Wash hands frequently / maintain good hygene. Maintain 6' separation at all times in camp. Use module of one concept. Use technology as often as possible for meetings. Do not share phones\radios. If you feel sick isolate immediately and notify supervisor.

6 Work Assignments:							<u> </u>

6. Work Assignments:

Task - Identify control lines to the North of Coffee Creek Road and advance construction to support the strategy. Prepare lines to be defended as wildfire advances. Purpose - To keep fire away from values at risk in Coffee Creek and the Hwy 3 corridor. Protect private property and land to the North.

End State - Lines are constructed and prepared and ready to be defended from approaching wildfire.

7. Special Instructions:

Identify and collect equipment and trash for backhaul.

SOF2 Ken Gordon will be a rover on all divisions.

Continue to collaborate with READs. All natural and cultural resource concerns are flagged with orange/white candy-stripe flagging.

SOFR Phillips will cover Coffee Creek Spike

6. Work Assignments:			ı		1	!	!	1		

Task - Continue utilizing trail systems and direct suppression efforts to stop fire spread to the East and South.

Purpose - Defend the communities of Coffee and Trinity and keep them safe from wildfire.

End State - Lines are constructed and prepared and ready to be defended from approaching wildfire. Fire was suppressed as small as possible, and the communities were not affected by spot fire.

7. Special Instructions:

Identify and collect equipment and trash for backhaul.

REMS 1 will be covering DIV R. REMS 1 is dedicated to the Parker Spot Fire.

SOF2 Ken Gordon will be a rover on all divisions.

Continue to collaborate with READs. All natural and cultural resource concerns are flagged with orange/white candy-stripe flagging.

6. Work Assignments:	<u> </u>			1	I	l	!

Task - Defend and reinforce the structures by removing hazardous fuels and defend structures from wildfire. Mop up any threats to structures defending them

Purpose - To preserve and protect private property and communities form the wildfire.

End State - Structures in Coffee Creek were defended and kept safe from the advancing wildfire.

7. Special Instructions:

Identify and collect equipment and trash for backhaul.

All natural and cultural resource concerns are flagged with orange/white candy-stripe flagging.

CODE OF CONDUCT INCIDENT PERSONNEL

Each individual on this incident is responsible for:

- ➤ Being *ready and able* to perform their assigned duties effectively
- Conducting themselves in a manner that treats people with dignity, equality, courtesy, and respect
- ➤ Abiding by agency ethics and conduct regulations
- > Reporting any harassment or other inappropriate behavior

Each individual on this incident has the right to:

- ➤ Work in an environment characterized by safe work practices
- Work in a fair and harassment free environment
- ➤ Say "No" to unwelcome advances or requests for favors
- File complaints or grievances through appropriate avenues

There is zero tolerance for inappropriate behavior while assigned to the incident, including

- ➤ Illegal drug use
- ➤ Alcohol use
- > Unsafe work practices and activities
- Discrimination
- Sexual harassment
- Fighting, threatening and abusive behaviors
- Using social media and electronic communication devices for personal business while engaged in fire assignment duties
- > Other violations of USDA and Forest Service standards of conduct

Failure to adhere to the Code of Conduct could result in dismissal from the incident, with notification to your home unit.

The public expects our best efforts; they see us as professionals in what we say and do. Let's continue to show them we are!

Human Resource Message

How to Overcome Conflict Between Two People

- 1. Schedule a meeting to address the problem, preferably at a neutral place.
- 2. Set ground rules. Ask all parties to treat each other with respect and to try to listen and understand others' views.
- 3. Ask each participant to describe the conflict, including desired changes. Ask participants to use "I" statements, and "you" statements. They should focus on specific behaviors and problems rather than people.
- 4. Ask participants to restate what others have said.
- 5. Summarize the conflict based on what you have heard and obtain agreement from participants.
- 6. Brainstorm solutions. Discuss all the options in a positive manner.
- 7. Rule out any options that participants agree are unworkable.
- 8. Summarize all possible options for a solution.
- 9. Make sure all parties agree on the next steps.
- 10. Close the meeting by asking participants to COVID elbow bump and thank each other for working to resolve the conflict.

Ryan Voelkl – HRSP: 530-457-7276

Interagency Incident Management

MEDIA – The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and the news media may not interfere with incident operations. Please always treat the media with courtesy and respect and advise the Information Office if there are any issues.

PHOTOGRAPHS AND VIDEOS OF INCIDENT – Please refrain from posting incident related videos to your personal social media. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera loses their situational awareness. When this happens it could reflect poorly on all that are attached to this incident.

Please email photo and video submissions to 2021.river@firenet.gov
