OUTPUTS

FIRE BEHAVIOR

GENERAL: **Fuels and Fire Behavior Advisory Issued for northern California**

- Critically low Live & Dead fuel moistures.1000-hr. dead fuel moisture below 10% and live fuels way below 100%.
- Topography is very steep and rugged. Elevations from 3000' 7500' with slopes over 100% (45°) in many places.
- Fire behavior will increase as smoke clears and will become much more active later in the day
- Heavy dead fuels/timber-litter/light-flashy fuels are highly receptive to spotting and active growth in all directions

SPECIFIC:

Moderate to high intensity burning conditions. Moderate rates of spread, flare-ups/torching and short to mid-range spotting possible. Rapid growth & rates of spread will occur when fire aligns with wind and/or slope. Backing & flanking at low-moderate rates. Areas covered by smoke and/or clouds will have low-moderate fire behavior and areas with clear skies will burn much more actively. East and northeast flanks have the highest growth potential.

Night: Fire behavior will remain active at night, specially at higher elevations. Low-moderate fire behavior in areas covered by smoke/clouds. Some areas will be more active at night due to heat insulation or loss of wind influence. East and northeast flanks have the highest growth potential.

Roll-out & flare-ups will be a problem during the day & night.

--Probability of Ignition up to 70% in most areas during the day-- -- ERCs between 90th & 97th percentile--

Haypress Fire: Moderate rates of spread to the east & northeast. Uncontained spot fires will continue to actively grow at variable rates of spread depending on slope and winds. Many areas are positioned to slope-reverse and run uphill. Uncontained firelines will actively burn with occasional torching. Backing & flanking fires will burn with moderate intensity. The Parker spot will spread to the north in uncontained areas towards the main fire and smolder within control lines.

Summer Fire: Fire continues smoldering within control lines and flanking into the 2020-Red Salmon Fire. DIV-S/T have many areas of intense heat that will continue to spread to the south/southwest at moderate-rapid rates of spread and slope-reversal uphill runs will continue to occur.

Cronan Fires: Smoldering and smoke within containment lines will continue.

AIR OPERATIONS:

Clouds & smoke from these fires and other fires in the region will continue to limit the use of aircraft

SAFETY

Fire weakened trees/snags are a high-risk hazard! Identify-notify-mitigate. Avoid tree-strikes.

CIIMT 13 COVID-19 Best Practices / Mitigation

Minimize risk and limit exposure to COVID-19 by daily screening, minimizing large group settings, social distancing, wearing face coverings when appropriate, hand washing, cover your mouth and nose when coughing or sneezing and practicing good hygiene

At the beginning of the shift, supervisors should remind their personnel to self-screen for symptoms.

WILDLAND FIRE COVID-19 SCREENING TOOL

Today or in the past 24 hours, have you had any of the following symptoms 1?

Symptom	
Cough more than expected?	
Shortness of breath or difficulty breathing?	
Fever? Chills?	
Muscle pain, outside your normal for firefighting?	
Sore throat?	
New loss of taste or smell?	
Fatigue, outside your normal for firefighting?	
Headache, outside your normal for firefighting?	
Congestion or runny nose, outside your normal for firefighti	ing?
Nausea or vomiting	
Diarrhea	
* Take temperature with no-touch thermometer, if available	*

Symptoms of Coronavirus

https://www.cdc.gov/coronavirus/2019-ncov/symptoms-testing/symptoms.html

Do your part to minimize your risk of exposure and limit the spread COVID-19.

Public Considerations

- ⇒ Wear a face covering when in public.
- Wash your hands often.
- ⇒ Use hand sanitizer after pumping gas.
- ⇒ Use hand sanitizer prior to getting into your vehicle after visiting the grocery store or a restaurant.
- ⇒ Set the example while in the public eye.

If you answered Yes to these symptoms, report it to your supervisor immediately, self-isolate away from other people until given direction and call **MEDICAL**.

^{*}Keep in mind that fire camp is in a city with a populous and the potential for the COVID virus to be present is greater.

Prevention and Management of COVID-19 During Wildland Fire Operations Keep yourself and your peers safe by practicing these measures whenever possible

Practice Social/Physical Distancing

- · Do not gather in groups or shake hands.
- Hold necessary meetings outside and maintain a social distance of 6 feet.
- Use radios, remote units, and virtual technology for communications as much as possible.

- Establish smaller spike camps to insulate crews/modules from each other and outside personnel and resources (Module as One).
- Keep newly onboarded crewmembers separate for 2 weeks.
- Create separate spaces in offices and housing and stagger work hours.

 Wear cloth face coverings and practice hand hygiene when riding in vehicles or coming into contact with outside resources, personnel, or the general public.

- Clean and disinfect shared areas and high touch surfaces in workplaces, vehicles, and housing at regular intervals.
- Use appropriate PPE and follow product label instructions when cleaning and disinfecting.

Maintain a Healthy Workforce

- Monitor your own health and maintain awareness of symptoms.
- Prioritize rest, proper hydration, and nutrition to reduce cumulative fatigue.
- Practice rigorous sanitation and personal hygiene, including covering coughs and sneezes and washing/ sanitizing hands.
- Conduct symptom screening, including temperature checks, at duty stations or on incidents.
- Mitigate smoke exposure whenever possible.
- Assign at-risk individuals to duties that reduce their potential for contracting the illness.

98.6 °F

Prevent the Spread of COVID-19

- Separate sick individuals; provide a separate bedroom, bathroom, and essential supplies.
- Sick individuals must wear a face mask or cloth covering over their nose and mouth and maintain a 6-foot distance.

· Only discontinue isolation after meeting CDC criteria.

Understand Different Face Coverings

- Cloth face coverings over the mouth and nose are not PPE and should be washed with soap and water after each use.
- Disposable face and surgical masks covering the mouth and nose are not PPE and should be discarded after one use.
- N95 filtering facepiece respirators are PPE and have a close facial fit and efficient filtration of airborne particles.

HEALTH AND SAFETY MESSAGE

SAFETY starts with **YOU**

We are <u>ALL</u> accountable for <u>SAFE</u> behaviors September 10-11, 2021

INCIDENT: River Complex Day/Night Shift

Major Hazard and Risk:

- ➤ **Hazard Trees:** Assess ALL Trees in Work Areas....*Madrone* have a shallow root ball and fire weakened trees are especially susceptible to fall in High Winds.
- Extended Extraction Times: Be familiar with the medical plan, and "game-out" how you would get an injured firefighter out timely. Factor in how smoke inversions will reduce the likelihood of utilizing helicopters for a medevac.
- ➤ Covid-19: Remember face coverings are mandatory in the common areas. The COVID-19 mitigations will not only prevent spread throughout fire camp but will reduce the likelihood of you bringing it home to your loved ones.

FIRE ORDER OF THE DAY:

Know what your fire is doing at all times:

- Safety is of utmost importance.
- Constantly review and apply the Risk Management Process.
- Be particularly cautious around snags: IRPG 80 & 81.
- Burning or partially burned live and dead trees.

Human Factors Barriers to Situation Awareness and Decision Making

Hazardous Attitudes:

- Invulnerable This can't happen to us
- Anti-authority Disregard of the team effort
- Impulsive- Do something even if its wrong
- Macho- Trying to impress or prove something
- Complacent-Just another routine fire
- Resigned-We can't make a difference
- Group Think-Afraid to speak up or disagree

"And that's the hand that fed me."

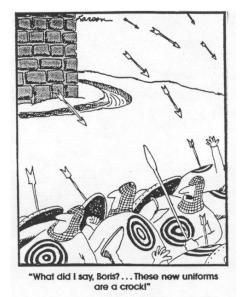

Thanks from your Safety Team!!

Terri Knauth, Ken Gordon, Larry Wright, Brian Phillips, Terrell Drew, Ray Franco, Mike Smith

MEDIA – The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and the news media may not interfere with incident operations. Please always treat the media with courtesy and respect and advise the Information Office if there are any issues.
