RIVER COMPLEX

CA-KNF-006385 P5N7CM

INCIDENT ACTION PLAN

Operational Period

09/13/2021 to 09/14/2021 0700-1900 hrs and 1900-0700 hrs

Monday

INCIDENT OBJECTIVES (ICS 202)

RIVER COMPLEX

9/12/2021

3. TIME: 1800

4. OPERATIONAL PERIOD (DATE/TIME): 9/13/2021 to 9/14/2021, Day 0700-1900 / Night 1900-0700

5. OBJECTIVES:

Strategic Framework

Implement a full suppression strategy on the fires within the River Complex. Values at risk include human safety, communities, private timberlands, critical infrastructure, associated improvements, and wilderness values. Apply tactics that offer the highest probability of success commensurate with resource availability.

Leaders Intent

Provide the highest level of customer service to all involved with or impacted by the River Complex. Ensure transparent, timely and accurate communication at all levels of the incident and strengthen relationships with cooperators. All incident assigned personnel should be prepared to take appropriate actions regarding:

- Professional behavior, conduct, and timely/effective communication.
- Personal safety and the safety of others, including driving slowly and defensively.
- Manage fatigue by taking breaks and maintaining work/rest cycles.
- Minimize risk and limit exposure to infectious disease by minimizing large group settings, social distancing, wearing face coverings, and handwashing.

Management Objectives

- Provide for firefighter and public safety through hazard recognition and application of the risk management process.
- Coordinate public information with Monument fire and other local fires to provide timely and continuous information to affected agency partners, cooperators, and to the public.
- Coordinate suppression activities with assigned incident Resource Advisors to minimize impacts to wilderness, natural and cultural resources.

Control Objectives

Keep the Cronan fire within existing control lines.

To prevent the Haypress fire from spreading to private property, surrounding communities, and impacting values at risk, keep the fire:

- South of Cecilville Road.
- West of the Hwy 3.
- North of Long Valley Road.

Site Safety Plan Required Yes		Site Safety Plan Located at: N/A	<u> </u>

River Complex Weather Forecast

UNIT:

FORECAST NO: PREDICTION FOR:

40

NAME OF FIRE:

River Complex

SHIFT DATE:

Mon 0700 to Fri 0700 September 13, 2021

Incident Meteorologist:

Klamath National Forest

FORECAST ISSUED:

1900 September 12, 2021

Terry Lebo, Noah Myers(T)

WEATHER DISCUSSION

A weak thermal trough will develop just south of the area Monday and linger in the region through the middle of the week. The thermal trough will weaken on Wednesday as a weak front passes northeast of the area later Wednesday into Thursday.

MONDAY:

WEATHER:

Sunny with areas of smoke in the morning, decreasing early afternoon.

MAX TEMPERATURES:

Above 5500 ft: 72-80°F Below 5500 ft: 80-90°F

MIN HUMIDITY:

15-35%

CLOUD COVER @ 1500 CHANCE WETTING RAIN 0% 0%

20 FOOT WINDS:

Ridge Lines: From the north-northwest 7 to 10 mph with gusts around

15 mph in the afternoon.

Valleys: Light downslope through 1000 then upslope 3 to 6 mph except 5 to 8 mph with gusts around 10 mph in drainages open to the north and

northwest.

LAL:

1

MONDAY NIGHT:

WEATHER:

Clear with areas of smoke in the evening, settling into the valleys after

midnight.

MIN TEMPERATURES: MAX HUMIDITY:

48-56°F 40-60%

CHANCE WETTING RAIN

0%

20 FOOT WINDS:

Ridge Lines: From the north to northeast 7 to 10 mph with gusts around

15 mph.

Valleys: Downslope 3 to 6 mph.

<u>OUTLOOK</u>

TUESDAY:

Clear. Highs 76 to 93°F, lows 50 to 58°F. Min RH 10-30%. Max RH 40-60%. Winds

from the north 5 to 8 mph.

WEDNESDAY:

Clear. Highs 75 to 91°F, lows 48 to 56°F. Min RH 15-35%. Max RH 45-65%. Winds

from the north-northwest 5 to 8 mph with gusts 10 to 15 mph.

THURSDAY:

Clear. Highs 72 to 89°F, lows 46 to 54°F. Min RH 15-30%. Max RH 60-80%. Winds

from the west-southwest 5 to 10 mph with gusts around 15 mph.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 40	TYPE OF FIRE: Wildfire
FIRE NAME: River Complex	OPERATIONAL PERIOD: September 13, 2021 24hr
DATE ISSUED: 9/12/21	TIME ISSUED: 2000
UNIT: CA-KNF, CA-SHF	SIGNED: TO TO
	Typed/printed: Dennis Burns/s/ Dave Duran (T)/s/

INPUTS

WEATHER SUMMARY: ***Weak Thermal Trough will increase speed and amount of drying***

- Warmer temps 80-90. Warming and Drying increasing, low RH 15-30%. North Westerly/Northerly flow, 7-10 gusts to 15 on ridge tops. Upslopes in the afternoon 3-6 mph.
- For Tonight: Clear skies. Humidity recovery 40-60%, trending lower. West Winds becoming downslope/down valley after 2100 at 3-6 mph. North East flow 7-10 gusts 15 on the ridgetops.

FUELS SUMMARY: Dense mixed conifer, old-growth timber, heavy dead/down, mixed ground fuels. Fuel models best represented by TL8, TU3, TU5, SH7, and GS2.

OUTPUTS

FIRE BEHAVIOR

GENERAL:

Fuels advisory active for Northern California

- Critically low Live & Dead fuel moistures. All fuels are available and receptive to burn.
- Fire behavior will increase as smoke clears and will become more active later in the day.
- Heavy dead fuels/timber-litter/light-flashy fuels are highly receptive to spotting and active growth in all directions.

ERC's values for the fire area are near or exceeding the 97th percentile. Probability of ignition 80% in the afternoon.

SPECIFIC:

Branch X: Fire will continue to progress to the North and East. Spread rates will be moderate, heavy fuels will produce intense heat. Single and group tree torching is probable as we dry out in the afternoon. Expect rapid rates of spread when fire aligns with slope. Pockets of heavy dead and down will hold heat for long periods and produce intense heat. Structure threat exists in the Callahan area.

Branch V: Fire is mostly in a backing and flanking alignment and will continue to spread to the South and East. Spread rates will be slow to moderate. Single and group tree torching is probable as we dry out in the afternoon. Expect rapid rates of spread when fire aligns with slope. Structure threat to the Coffee Creek area still exists. Many natural barriers to fire spread exist throughout the branch, however, do not let your guard down as all fuels will encourage continued fire growth. ***DIV N, fire will continue to back into Minnehaha Creek***

Cronan Fire: Existing containment lines are expected to hold. Patrol and mop-up is necessary to mitigate spotting outside the line.

All Areas: Spotting from rollout and torching will continue to be problematic. Slope-reversals are probable from any fire burning in drainage bottoms. Mop-up is extensive. Smoke will continue to limit aircraft operations. Fire activity will moderate when it reaches the Red Salmon burn scar.

AIR OPERATIONS: Smoke will impact visibility and effect aircraft availability.

SAFETY

- Make sure Lookouts are posted in places where they can see potential spotting.
- Fire weakened timber poses a threat to personnel working in timber areas.
- Unburned fuel between you and the fire.

^{**}See Fire Weather Forecast for today's weather details**

Fuels and Fire Behavior Advisory

Northern California
September 1, 2021 to September 15, 2021

Subject: Potential for extreme fire behavior due to critically low live and dead fuel moistures, very dry conditions resulting from persistent drought, minimal snowpack and spring precipitation, and elevated fire danger rating values across much of northern California.

Discussion: Fires burning in northern California are exhibiting extreme fire growth based on critical fuel conditions. Fire spread is fuel driven and does not depend on wind to spread. Events with wind have led to extreme rates of spread. Surface fuels are very receptive to embers. Long range spotting, area ignition, and group torching is occurring on large fires frequently.

Difference from normal conditions: Northern California is in a drought; currently with 90% at Extreme to Exceptional levels. The drought is expected to persist or intensify thorough out the fire season. Deficient rainfall and snowpack with early melt off has resulted in fuels that are below average in dryness, with record setting conditions for most areas.

Concerns to Firefighters and the Public:

- Energy Release Component (ERC) at numerous weather stations set record maximums already this year and are running at or above the 97th percentile in most cases. Expect increased fire intensity and spread rates in these areas. Early season extreme fire behavior has been observed in both light and heavy fuels. **Anticipate increased spread rates**, **spotting**, **and active nighttime burning**.
- The combination of persistent drought and record-low rainfall and snowpack amounts has led to very low live and dead fuel moistures. Low 1000-hour fuel moistures have been evidenced by complete consumption of dead fuels on recent fires. Live fuel moistures in grasses, shrubs and trees, have already reached critical levels in many areas of Northern California due to limited green-up this spring. Expect fires to ignite easier and spread faster. Do not expect fires to exhibit reduced fire behavior when entering areas of live fuels; anticipate increased spread rates and spotting.
- Direct attack is often not feasible under regular diurnal wind conditions with ground resources. And aviation utilization is often insufficient in moderating rate of spread without immediate heavy ground resource response. Anticipate higher resistance to control in all fuel types.
- Already this year, Northern California has experienced large fire activity and multiple team
 deployments. California will likely experience an extended fire season. It is important to be mindful of
 and manage fatigue for all resources. Everyone, every day, returns home safely.

Mitigation Measures:

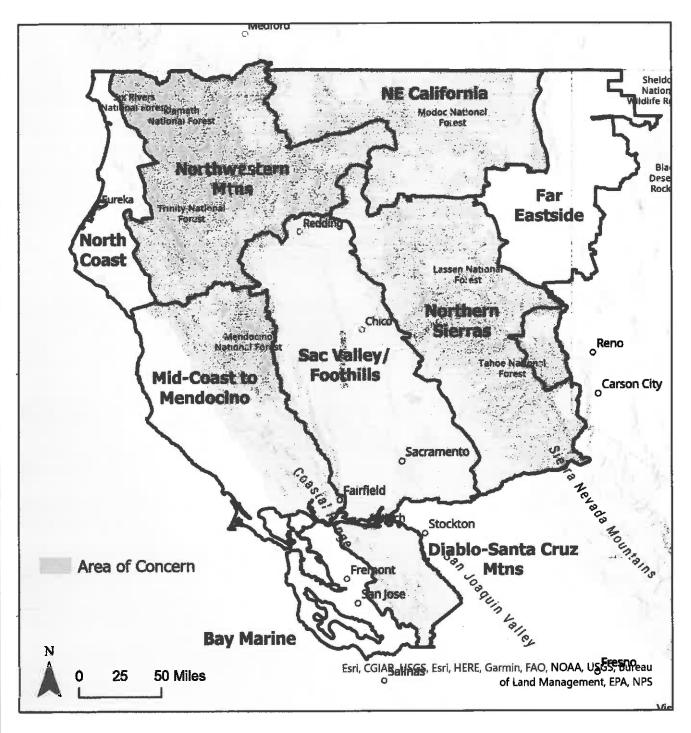

- Local and inbound fire personnel need to be aware that fire behavior across the state is exceeding
 normal expectations for this time of the year. Local briefings need to be thorough and highlight
 specific fire environment conditions. These include but are not limited to local weather
 forecasts, Pocket Cards, ERC's, live and dead fuel moistures.
- Suppression actions need to be based on good anchor points, escape routes, and safety zones. Remember LCES. Experienced lookouts are essential under these conditions.
- Base all actions on current and expected behavior of the fire. Augment initial attack resources as incident activity dictates.

Area of Concern: Northern California except for the following Predictive Service Areas: North Coast and Bay Marine, west of Highway 101 in Mid-Coast to Mendocino and Diablo-Santa Cruz, and the north eastern portion of Far Eastside.

Fuels and Fire Behavior Advisory

Northern California
September 1, 2021 to September 15, 2021

Safety Message

River Complex

OPERATIONAL PERIOD: 9/13-14 0700-0700

MAJOR HAZARDS:

- Snags/Hazard Trees
- Air Operations
- Driving

- Steep terrain/rolling rocks & debris
- Mop-up
- Heavy Equipment Operations

NARRATIVE:

Complacency

Doing the same job/task day after day it is easy to drop your guard. It is easy to become <u>complacent</u> under these circumstances. That is when accidents are more likely to occur. Consider these items to help avoid this trap:

- ✓ Accidents occur when we start taking things for granted. This is the time in the fire season when accidents resulting from complacency are most likely to occur.
- ✓ One of the standard fire orders stresses the importance of staying alert. Complacency and staying alert are not compatible.
- ✓ The hazards haven't gone away so we need to stay focused on them.
- ✓ It only takes a second of complacency for an accident to occur.
- ✓ Watch for fatigue and stay focused on the task at hand.
- ✓ The drive back to ICP and Spike can be time when we drop our guard. Don't become a complacent driver and drop yours. The vehicle around the next corner could ruin your day.
- ✓ Exhibit fireline leadership if you notice your crew or coworkers are developing a complacent attitude. Challenge them to re-focus and stay engaged. Be accountable for your own complacent attitude and change it if it occurs.
- ✓ Many tragedies have occurred in the mop-up stage.

STAY ALERT AND STAY ALIVE!!

SAFETY OFFICERS: | Paul Leusch SOF1; Ron Bertsch SOF1

COVID-19 Safety Message

COVID-19 Best Practices/ Mitigation

Minimize risk and limit exposure to COVID-19 by daily screening, minimizing large group settings, social distancing, wearing face coverings, hand washing, and practicing module of one concepts.

At the beginning of the shift, supervisors should remind their personnel to self-screen for symptoms:

- Cough
- Fever
- Shortness of breath
- Chills
- Headache
- Nausea/ Vomiting

- Diarrhea
- Body ache/ Fatigue
- Outside of normal firefighting
- Sore throat
- Loss of taste or smell

If you answered Yes to any of the above, report it to your supervisor immediately, self-isolate away from other people until given direction. Call the COVID Hotline at (562) 252-2168.

Do your part to minimize your risk of exposure and limit the spread of COVID-19.

- Respect other's personal space of at least 6-feet of distance to limit the spread of pathogens
- Wash your hands routinely
- Do not shake hands or hug other people
- Cough or sneeze into your elbow rather than your hands
- Avoid touching your face as much as possible
- Wear a face covering when in public/vehicle "set the example"

^{**} Document on your 214 all close contacts with anyone outside of your module for potential contact tracing (Daily Activity Log).**

Mop up and patrol direct line to the north of Coffee Creek. Continue to improve in-direct line as it progresses to the north around Eagle Creek subdivision. Provide structure protection to property along the Hwy 3 corridor. Scout for direct line opportunities to minimize the fire footprint on private lands.

7. Special Instructions:

Avoid travel over the small bridge in Eagle Creek subdivision, Identify and collect equipment for backhaul.

READS will check in and cut and with DIVS. Continue to collaborate with READs. All natural and cultural resource concerns are flagged with orange/white candy-stripe flagging.

6. Work Assignments:

Task - Identify control lines to the South of Coffee Creek Road and advance construction to support the strategy. Prepare lines to be defended as wildfire advances

Purpose - Defend the communities of Coffee Creek and Trinity Center and keep them safe from wildfire.

End State - Lines are constructed and prepared and ready to be defended from approaching wildfire. Fire was suppressed as small as possible, and the communities were not affected by spot fire.

7. Special Instructions:

identify and collect equipment for backhaul.

READS will check in and out and with DIVS. Continue to collaborate with READs. All natural and cultural resource concerns are fiagged with orange/white candy-stripe flagging.

LINE "MEDICAL-EMERGENCY" PLAN:

- Crew Supervisor to contact Division Supervisor/Operations with:
 - Patient Complaint, Condition and Location via Tactical or Command frequency. Priority 1/Red & 2/Yellow Patients trigger Incident within Incident (IWI).
- Division Supervisor/Operation contacts Communications/Dispatch:
 - Division Supervisor or POC* will run "Medical –Emergency" on the Command frequency.
 - Division Supervisor or POC* to use "Medical Incident Report" worksheet on back of this page or back of IRPG.
 - Communication contacts Medical Unit Leader on the Command frequency or cell phone (562) 252-2168 (Medical Emergencies Only).

POC* (Point of Contact) and/or Operations

LINE "NON-EMERGENCY INCIDENT" PLAN:

- Crew Supervisor to contact Division Supervisor with:
 - Patient Complaint, Condition and Location via Tactical or Command frequency. Priority 3/Green, (Minor) Patients do not trigger Incident within Incident (IWI).
- **Division Supervisor** to contact Communications/dispatch:
 - Division Supervisor or POC* will run "Non-Emergency Incident" on the Command frequency.
 - Division Supervisor or POC* will use "Medical Incident Report" worksheet on the back of this page or back of IRPG.
 - Communications contacts Medical Unit Leader on the Command frequency or cell phone (562) 252-2168 (For medical related incidents only).

IN-CAMP – 24 HOUR MEDICAL

- Contact 911 and Medical Unit (562) 252-2168 with:
 - Patient Complaint, Condition and Location

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT: WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM COMMUNICATIONS

Use the following items to communicate situation to communications/dispatch.

 CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report 	1.	CONTACT	COMMUNICATIONS	/ DISPATCH (Verify con	rect frequency prior to starting report)
--	----	---------	----------------	------------------------	--

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree.

Requesting air embulance to Forest Road 1 at (Lat./Long.)

"This will be the Trout Meadow Medical Incident, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Em	ergency		or limb threatening injury or i breathing, bleeding severely, 2° – 3			
AND			Serious Injury or illness. Eva) if necessary.	
Transport Pr	iority	Ex: Significant trauma, una	able to walk, 2° – 3° burns not more t	han 1-3 palm sizes.	_	
(priority 1, 2		Ex: Sprains, strains, minor	linor Injury or Illness. Non-Em	ergency transport

Human Resource Message September 13, 2021

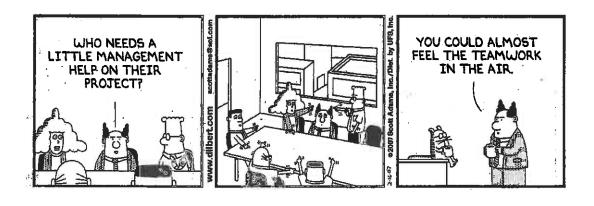

The Importance of Teamwork

Teamwork is cooperation between those working on a task, and is commonly understood to be the cooperation and willingness of a group of individuals to work together to achieve a set goal with best practices.

Teamwork is important because you and your fellow coworkers are there for one purpose - to carry out the goal(s) of the organization, which cannot be completed alone.

To be a good team member you should:

- Believe in each other.
- Trust your teammates.
- Be responsible...make your team proud!
- Share knowledge; two people know more than one person.
- Recognize each person has different qualities that can complete and complement other people.
- Understand working in a team can motivate people to do more.

Julie Nelson, HRSP 720-512-7591

Test early Test often!!

USDA Forest Service

Free COVID-19 tests are available for wildland fire personnel!!!

Not just for Forest Service personnel! Anyone associated with wildland fire work is welcome.

To get tested for free, go to the

Klamath National Forest Headquarters (aka "Klamath Supervisor's Office")

1711 South Main St, Yreka, CA 96097 - 7 AM to 6 PM every day!

Please use the QR code to the right to register (either before or on-site) for the test administered by Emergency Response Logistics, Inc. That QR code will take you to a form.

In the interest of protecting each other and our families, we encourage testing early and often! Please contact testing.klamath1@gmail.com if you have questions or comments.

All USFS employees and non-USFS personnel assigned to fires in the Klamath NF area or passing through Yreka en route to or from fire assignments are encouraged to stop to be tested prior to reporting to the assignment or traveling to another site or home.

FINANCE MESSAGE PG. 1

1. Incident Name:	2. Operational Period: Date From:	9/12/2021	Date To:	9/13/2021
RIVER COMPLEX	Time From:	0700	Time To:	0700

Can Stock Photo

Please email finance related documents if you are not able to turn in hard copies to:

2021.river.finance@firenet.gov

Please make sure your shift tickets include:

Resource Order Number

Correct dates and times

Employee should total hours worked and circle the total

Signed by your Incident Supervisor

Justifications are required for all

--- Hazard Pay--

-- Excessive Shifts--

--No meal breaks shown--

River Complex Zone Message Board

Training Specialist Message

To assure proper documentation for your assignment:

- 1. Scan the Incident QR Code, located on the front cover of the IAP
 - 2. Click on Trainee Check-In
 - 3. Complete the Trainee Registration Form & submit

At the end of your assignment:

- 1. Trainee: Scan the incident QR code. Click on the Trainee Exit Interview, complete the form and submit.
- 2. Trainer: Fill in the Position Task Book as completely as possible for this incident.
- 3. Trainer: Complete the ICS 225 performance evaluation and discuss with your Trainee. Make sure it's <u>signed</u> by both the Trainer and Trainee. Take a picture/copy of the ICS 225 and send it to <u>imt2training@qmail.com</u>

The Training Specialist will send the training documents to the email address you provided.

For training related questions, call/text Dominic Panno (TNSP) at 530-913-8251 or email-

imt2training@gmail.com

Local Government Resources on CFAA If you are demobing and there is no OES AREP there:

- > Have the FSC or IC review and sign your 42s
 - You give the incident the pink copy
 - You keep the gold copy
- > You mail the white and green (if it has a green) to OES Headquarters per the instructions on the 42

OES JOB AIDS, FORMS, F-42 SAMPLES AND CFAA AGREEMENT

Your OES Fire & Rescue Assistant Chief Patrick Titus 916-634-9225
