Thursday– 24 Hour

INCIDENT OBJECTIVES (ICS 202)

RIVER COMPLEX

10/6/2021

3. TIME: 1700

4. OPERATIONAL PERIOD (DATE/TIME): 0700 10/7/2021 to 0700 10/8/2021

5. OBJECTIVES:

Leader's Intent

Implement a full suppression strategy on the fires within the River Complex. Values at risk include human safety, communities, private timberlands, critical infrastructure, associated improvements, and wilderness resources. Apply tactics that offer the highest probability of success commensurate with resource availability.

Management Objectives

- Provide for firefighter and public safety through hazard recognition and application of the risk management process.
- Coordinate public information with the Monument fire and other local fires to provide timely and continuous information to all affected agency partners, cooperators, and to the public.
- Coordinate suppression and repair activities with incident Resource Advisors to minimize impacts to wilderness, natural and cultural resources.
- Reduce risk and limit exposure to infectious diseases by minimizing large group settings, reenforcing social distancing, wearing face coverings, and handwashing.

Control Objectives

- Keep the Cronan fire within existing control lines.
- Keep the Haypress fire within existing control lines.

Site Safety Plan Required ☐ Yes	⋈ No Approved Site Safety Plant	an Located at: N/A

River Complex Weather Forecast

FORECAST NO:

PREDICTION FOR:

SHIFT DATE: FORECAST ISSUED: 65

Day Shift

October 7, 2021

1900 October 6, 2021

NAME OF FIRE:

UNIT:

Incident Meteorologist:

River Complex

Klamath National Forest

Julie Malingowski IMET

...Cool Autumn Pattern Continuing...

WEATHER DISCUSSION: Sky cover will decrease from overcast in the morning to partly cloudy in the afternoon. Areas of fog are possible throughout the day, limiting visibility in some areas.

THURSDAY:

WEATHER:

Overcast in the morning, decreasing clouds in the afternoon. Areas of fog in

the mountains throughout much of the day.

MAX TEMPERATURES:

Above 5500 ft: 53 to 58°F

Below 5500 ft: 64 to 69°F

MIN HUMIDITY:

28 to 35%

CLOUD COVER @ 1500

50%

CHANCE WETTING RAIN

0%

20 FOOT WINDS:

Ridge Lines: North in the morning 3 to 5 mph, becoming South 5 to 10

mph around 1030.

Valleys: Upslope/Upvalley 2 to 4 mph. South 4 to 8 mph along Hwy 3.

THURSDAY NIGHT:

WEATHER:

Mostly clear

MIN TEMPERATURES:

42 to 47°F on the midslopes, 30 to 35°F above 5500' and below 3500'.

MAX HUMIDITY:

60 to 80%, highest in the valleys.

CHANCE WETTING RAIN

0%

20 FOOT WINDS:

Ridge Lines: West 4 to 8 mph

Valleys: Downslope/downvalley 2 to 4 mph

FRIDAY through MONDAY:

Slightly below normal temperatures and moderate relative humidity is expected through the weekend. High temps in the mid 50s to upper 60s with min RHs of 25 to 40% are expected each day, with good overnight recoveries.

FIRE BEHAVIOR FORECAST FORECAST NUMBER: 63 TYPE OF FIRE: Wildfire OPERATIONAL PERIOD: October 07, 2021 - 24hr DATE ISSUED: 10/06/21 UNIT: CA-KNF, CA-SHF SIGNED: Typed/printed: Nic Elmquist (FBAN)

INPUTS

WEATHER SUMMARY:

** See Weather Forecast**

- Today: Temps 640 690, Min. RH 28-35%, Cloud Cover @ 1500: 50%, Chance of wetting rain: 0%
- Tonight: Temps 30° 35°, RH 60-80%, Chance of wetting rain: 0%

FUELS SUMMARY:

Dense mixed conifer, old-growth timber, heavy dead/down, mixed ground fuels Fuel models best represented by 10, SH2, TL8, TU5, SH7, and GS2

OUTPUTS

FIRE BEHAVIOR

GENERAL:

- Three separate rain events since Sept. 9th have brought significant relief to the dry fuel conditions
- There is an increase of the live component of the fuel bed from the recent precipitation
- Most of the heat left around the fire will be the smoldering of dead surface fuels
- Areas of unburned vegetation near heat sources exist near Sugar Pine Butte, Minnehaha Crk, and Stoddard Lake

Fire Danger Indices - IRPG Page 67

Energy Release Component (ERC): Yesterday - 75, Today - 72
Burning Index (BI): Yesterday - 63, Today - 64
Maximum Probability of ignition (PIG) 40%

SPECIFIC:

A very slow warming and drying trend will occur through the weekend. The cooler temperatures, shortening days, and excellent overnight humidity recovery will limit overall fire behavior. The heat remaining around the complex will be isolated to smoldering of dead surface fuel and burning out stump holes. We will continue to have the overnight fixed wing and daytime helicopter infrared flights fly over the complex to identify any hot areas. You can find this information online, under the River Complex at the NIFC FTP Server page (www.ftp.wildfire.gov) under "IR" and/or ask your DIVS.

Branch V/X: The main threat to the control lines will continue to be roll-out or a tree holding heat falling across the line. Continue to keep an eye on the upper portions of Minnehaha Creek in Div. O. Send patrols to check on known sections of mid-slope lines which were recently holding heat.

AIR OPERATIONS:

Sunrise 0714, Last Light 1911 (2 min. shorter day length)

There will be clouds and patchy fog in the morning with some potential clearing in the afternoon. Clouds will surround the upper elevation most of the day impacting air operations trying to access the higher portions of the fire.

SAFETY

The focus on the fire has shifted from suppression to repair and rehabilitation. Be methodical in your actions. Take your time while traveling and completing your work assignments.

RIVER COMPLEX - SAFETY MESSAGE

We are **ALL** accountable and responsible for **SAFE** behaviors

INCIDENT: River Complex CA-KNF Date: October 07, 2021

<u>Narrative:</u> The "<u>Transition</u>" word is happening today and tomorrow. California IMT 15 will be handing off command to the Great Basin Type 3 Team Friday. If you are staying with the Type 3 Team, be sure you know where you are going for briefing on Friday. During every transition you will most likely have a new supervisor. Make sure you know who they are and get your instructions for the day. In a transition there are many moving parts. ICP will remain here at Etna. Listen up during today's briefing.

Thanks, from the California IMT 15 Safety Section...Great safety record!

Fire Order of the Day - Give clear instructions and be sure they are understood

- ❖ Personal Responsibility: Your safety is your responsibility, take it seriously. Look out for the welfare of yourself and others. You are the line safety officers!
- ❖ Complacency: The strongest weapon against complacency is good leadership. Clearly communicate leader's intent, stay engaged and empower your subordinates. Critical hours for injuries and accidents is between 14:00 and 18:00 hours; be especially alert during this period of time, don't let your guard down.
- Fatigue: Monitor Personnel for Fatigue Consider decreasing intervals for breaks and increasing time – This is a marathon; NOT a sprint! Hydrate appropriately and monitor personnel for excessive fatigue.
- Driving: Keep your speeds down on all roads; watch out for loose, dusty roads, unstable shoulders, Wildlife and always wear your seatbelts. Be alert to high speeds, park off the roadway and use warning devices.
- Communications: Understand and follow the ICS 205 Incident Communications plan and the ICS 206 Medical Emergency Procedures.
- Briefings: Tailgate safety briefings are REQUIRED to be given each shift and documented on your ICS 214, Unit Log.

Incident Safety Officers: Tom Zeulner, Brent Kaiser, Rick Bertram

INCIDENT SAFETY ANALYSIS 215a

River Complex / CA KNF 006385 - Thursday, October 07, 2021

8. Location	9. Hazard	6. Control or Abatement Action (Engineering, Administrative, PPE, Avoidance, Education, etc)
Ali	Extended Medical Extraction Times	 Identify helispots and Lat/Longs, ensure they're known. Know 8 Line and remain organized and calm. Stay current on weather conditions that could effect Helicopter operations. Preplan extractions on your division and update as you go. Call for adjoining resources for assistance.
All	Hazard Trees	~ Follow "Hazard Tree Safety" guidelines, IRPG page 22,23. ~ Post lookouts, or use a spotter in mop-up areas with personnel. ~ Don't park vehicles or take breaks in high concentrations of hazard trees. ~ Establish trigger points for disengagement during high wind events. ~ Remember that the hazard zone extends a minimum of 2 1/2 tree heights. ~ Aviation drops may bring down trees, burned or unburned
All	Steep Terrain & Rolling Debris	Maintain 8'-10' spacing when working & walking. ~ Don't work directly above or below any personnel. ~ Be on the lookout for rolling rocks, debris, or burning material. ~ Shout out loudly any rock or log rolling down the hill. ~ Evaluate necessity to send personnel in areas with limited access. ~ Post lookouts (IRPG pg 7).
All	Driving & Traffic	 Practice "Defensive Driving" techniques traveling on all roads and city streets. Use spotters when backing. Honk horn to alert personnel when backing. Keep clutter off dash and inside cab. Follow Driving LCES (Lights, Chock blocks, Emergency brake, Seat belts. Always use headlights. Yield to pedestrians and bicycles. Observe posted speed limits. Use the 3 second rule for following distance when driving. Use chock blocks, turn wheels into hill. Avoid distractions (eating, cell phones, radio). Ensure that windshields are kept clean of dust and bugs.
All	Fatigue & Over Exertion	Tink 1 quart of water each hour during and after work. Rotate crews out of smoky areas. Set a reasonable work pace and allow adequate rest breaks while on the project. Stagger work crews start time to limit fatigue. Use buddy system to monitor personnel of heat related and fatigue issues. Follow work / rest guidelines.
All	Heavy Equipment Operations	~ Ensure operators know the plan and have an out. ~ Ensure communications are established with operators. ~ Use hand signals if other communications are unavailable. ~ Maintain a 50'-100' exclusion area around equipment and increase it to 1 1/2 times tree height when in timber. ~ Use a spotter when backing. ~ Avoid working below heavy equipment.
All	Helicopter Operations	 Stay clear of all bucket drops during suppression actions are in and allow a few minutes prior to re-entry. If working with helicopter designate a contact person for the pilot Monitor A to G frequency when ships are working in your division Use signal mirror to show pilot your location during operations Follow aviation safety guidelines in IRPG and IHOG.
Ali	Infectious Disease\COVID	∼ Wash hands frequently / maintain good hygene. ∼ Maintain 6' separation at all times in camp. ∼ Use module of one concept. ∼ Use technology as often as possible for meetings. ∼ Do not share phones\radios. ∼ If you feel sick isolate immediately and notify supervisor.
All	Wet Weather	 Reduce speeds on all roads Dirt surfaces become slick Watch for rock roll out off of hillsides Watch for weather weakened snags falling Stay out of heavy snag areas, storm winds and rain will bring some down Watch footing while operating machinery, tools and crew spacing Protect against hypothermia and dehydration is still possible

Human Resource Message

River Complex

October 7, 2021

There will no longer be an HRSP located at this incident but below are contact information should you have questions or concerns.

This is a drug free, alcohol free and respectful work place.

Treat one another with Mutual Respect and dignity.

Harassment and discrimination will not be tolerated, and it is up to all of us to assure that we have a positive and respectful work environment.

If you have HR Issues or concerns please contact:

Linda Overton, HRSP 707-373-7631 Linda.overton@usda.gov

All Allegations of Harassment, bullying, or hostile work environment must be reported to the USFS Harassment Reporting Center.

CALL THE HARASSMENT REPORTING CENTER AT (844) 815-8943 Open 7 days a week from 7:00 a.m. to 11:00 p.m. (Eastern Time)

If you would like to contact the local Union (Forest Service), please contact:

Alonzo Jackson

Cell: 530-598-4157 Phone: 530-493-1768 alonzo.jackson@usda.gov

River Complex Public Information

Fire Information Line: 707-596-6075

Fire E-mail: 2021.River@firenet.gov

• We need photos!

Email to

2021.River@firenet.gov
Please submit photos to PIO shop,
and before posting to personal
social media accounts, take a
moment to review social media
guidelines found here:
https://www.usda.gov/digitalstrategy/social-media

- We now have Public Information Officers at both Etna base camp and Trinity camp.
 Come see us!
 - Lost & Found can be located in the PIO tent

Mailing Address:
General Delivery, River
Complex
C/O Your Name
119 Diggles St., Etna, CA
96027

Inciweb

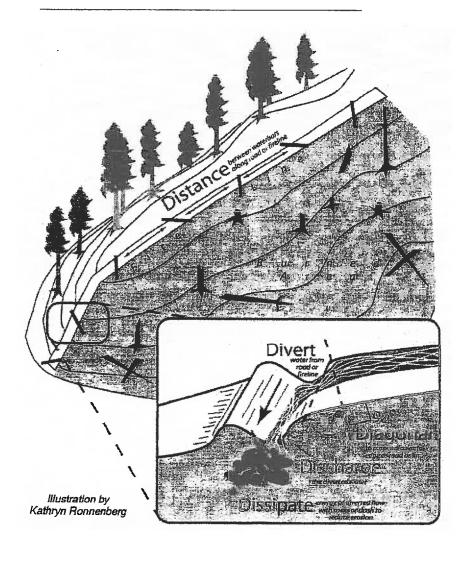

Effective Waterbars

When locating and building water bars, place them the right **distance** apart, at a **diagonal** to the fire line, so that they **divert**, then **discharge**, then **dissipate** the energy of the flowing water. Be sure to make them deep enough so they'll be durable, and that soil does **not block** the water bar outlet.

Recommended spacing for waterbars on fire lines.

Fire line slope %	Degrees	Maximum Distance Apart (feet)
1-5	flat-3°	200
6 - 20	4-11°	125
21 - 40	11-22°	60
41 - 60	23-31°	40
>60		25

Waterbars should be at least two pulaskis (4-6 inches) wide and 12-24 inches high for handlines. For dozer lines, waterbars may be 2-3' high and the 5-6' across. They should survive the heaviest rain storm...think 6" rain in 36 hours.

Training Message

TRAINERS:

If you leave the incident before your trainee or you are transitioning out, or if your trainee is no longer assigned to you, you will need to complete a performance evaluation for the time the trainee <u>was</u> assigned to you.

TRAINEES:

In order to receive documented credit for your training assignment you must close out with the Training Specialist before you Demob. When as much work (as possible) has been completed in your PTB for this incident conduct the "close-out" process with the TNSP to save you time at DMOB

(THIS INCLUDES ASSIGNMENTS ENDING WITH TRANSITION)

Submit/Upload the following during the "exit interview"

- A completed and signed ICS 225 or 226 Performance Evaluation
 - A completed Exit Interview Form
 - A completed Task Book Evaluation

Chad Englert - TNSP

Englertc@cityofmerced.org

Test early Test often!!

USDA Forest Service

Free COVID-19 tests are available for wildland fire personnel!!!

Not just for Forest Service personnel! Anyone associated with wildland fire work is welcome.

To get tested for free, go to the

Klamath National Forest Headquarters (aka "Klamath Supervisor's Office")

1711 South Main St, Yreka, CA 96097 - 6:30 AM to 8:30 PM every day!

Please use the QR code to the right to register (either before or on-site) for the test administered by Emergency Response Logistics, Inc. That QR code will take you to a form.

In the interest of protecting each other and our families, we encourage testing early and often! Please contact testing.klamath1@gmail.com if you have questions or comments.

All USFS employees and non-USFS personnel assigned to fires in the Klamath NF area or passing through Yreka en route to or from fire assignments are encouraged to stop to be tested prior to reporting to the assignment or traveling to another site or home.

COVID mitigation efforts are imperative in order for us to complete our mission!

PREVENTION AND MANAGMENT

Monitor yourself and your crew
Wear face coverings
Physical distance
Clean and Disinfect
Isolate when ill

REPORTING GUIDELINES

In the event of a symptomatic person or persons, Isolate those that are symptomatic, then contact the Incident Medical Unit Leader immediately.

Incident Medical Unit Leader

Primary Contact: (510) 507-5893 Secondary Contact: (530) 467-1508

COVID SYMPTOMS

- Cough more than expected?
- Shortness of breath or difficulty breathing?
- Fever? Chills?
- Muscle pain, outside of normal for firefighting?
- Sore throat?
- Loss of taste or smell?
- Headache, Fatigue, Nausea or Diarrhea?
- Congestion or runny nose?

Keep yourself healthy

Keep others Healthy

Safeguard our biggest asset....
YOU!

MEDICAL PLAN (ICS 206 WF)

Controlled Unclassified Information//Basic

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.

- 1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)
 - Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."
- 2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

		iority patient, unconscious, struck Smith is providing medical care."	by a falling tree. Requ	esting air ambulance to Fo	prest Road 1 at (Lat./Long.) This will be the Trout		
	ergency / Transport riority	RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE					
Nature of Ir	njury or Illness						
Mechani	& sm of Injury				Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)		
Transpo	ort Request	Air Ambulance / Short Ha Ground Ambulance /					
Patient Location					Descriptive Location & Lat. / Long. (WGS84)		
Incide	nt Name				Geographic Name + "Medical" (Ex: Trout Meadow Medical)		
On-Scene Incident Commander					Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)		
Patie	ent Care				Name of Care Provider (Ex: EMT Smith)		
3. INITIAL PATI	ENT ASSESSMENT:	Complete this section for each patie	ent as annlicable (start wi	th the most severe patient)			
Patient Assessm	ent: See IRPG page	106					
Treatment:							
4. TRANSPORT							
Evacuation Loca	tion (if different): (Des	scriptive Location (drop point,	intersection, etc.) or	Lat. / Long.) Patient's	ETA to Evacuation Location:		
Helispot / Extrac	tion Site Size and Haz	zards:					
5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:							
Example: Paramed	dic/EMT, Crews, Immobil	ization Devices, AED, Oxygen, Tra	auma Bag, IV/Fluid(s), S	Splints, Rope rescue, Whe	eled litter, HAZMAT, Extrication
