INCIDENT ACTION PLAN BECKWOURTH COMPLEX

CA-PNF-1064
P5N4MK (0511)

Monday

OPERATIONAL PERIOD

7/19/2021 0600
to
7/20/2021 0600

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: <p style="text-align: center;">Beckwourth Complex</p>	2. Operational Period:	Date From: 7/19/2021 Time From: 0600	Date To: 7/20/2021 Time To: 0600
3. Objective(s): <u>Leaders Intent</u> <p>An aggressive full suppression strategy will be implemented for the Beckwourth Complex. Efforts will be made to minimize impacts to residences, critical infrastructure and surrounding communities through the application of well-planned tactical responses. Only critical Stage 1 fire suppression repair will be completed at this time.</p>			
<u>Management Objectives</u> <ul style="list-style-type: none"> - Ensure that strategies and tactics provide for firefighter and public safety through the application of sound risk management principles. - Minimize the threat to private property, communities, businesses, and critical infrastructure. - Establish and strengthen cooperator, partner, and stakeholder relationships. - Follow identified standard procedures to minimize the spread of COVID-19. - Minimize the cost of the incident by employing tactics that have the highest probability of success while minimizing firefighter exposure. 			
<u>Control Objectives</u> <ul style="list-style-type: none"> - Keep the fire north of Highway 70 to minimize the impacts on commerce and travel along the Highway 70 corridor. - Keep the fire south and west of 395 with an emphasis on protecting residences, ranchland, and critical infrastructure. - Keep the fire east of Beckwourth Milford Road to protect the community of Portola, grazing allotments, and recreational values. 			
General Situational Awareness: <p>Steep and rugged terrain, critically dry and receptive fuel beds, active area for fire history and drought stressed trees.</p> <p>In the COVID-19 environment, high density populations or large groups are particularly at risk. To help protect yourself, your family and to ensure all employees return home safely, make sure to practice social distancing.</p> <p>Enhanced hygiene (especially handwashing), PPE & monitoring practices help limit the infection rate of first responders.</p>			
5. Site Safety Plan Required? Yes <input type="checkbox"/> No <input type="checkbox"/>

INCIDENT Weather Forecast

FORECAST NO: 13
PREDICTION FOR: Mon 0600 – Tue 0600
SHIFT DATE: July 19-20, 2021
FORECAST ISSUED: 1900, July 18, 2021

NAME OF FIRE: Beckwourth Complex
UNIT: Plumas National Forest
Incident Meteorologist: Dan Harty

Dan Harty

...Red Flag Warning for Dry Lightning & Outflow Winds in Effect Until 11 AM Monday...

WEATHER DISCUSSION: Monsoon moisture will increase today bringing a chance of thunderstorms to the fire complex today through this evening, then clearing skies overnight. Some storms may produce frequent lightning as well as strong downdrafts and outflow winds. Any thunderstorms in the morning may be dry then more likely becoming wet in the afternoon and evening. There is potential for rain across the complex, but a more likely threat is from lightning and outflow winds. Temperatures will be a little lower today while humidity will be higher. The general wind will continue to be southwesterly with afternoon gusts to around 25 mph, but remember that strong and erratic winds are possible from thunderstorms many miles away.

WEATHER FORECAST for MONDAY:

Weather obs around fire area

WEATHER: Red Flag Warning for dry lightning and outflow winds until 11am. LAL: 3
Partly cloudy. A 30% chance of thunderstorms, mainly afternoon and evening.
Areas of smoke and haze.

TEMPERATURES: Valleys/Lower Slopes: 84-94° Mid-Slopes/Ridges: 78-88°

HUMIDITY: 17-27% **HAINES INDEX:** 3

20 FT WINDS:

RIDGETOP - Southwest 5-10 mph increasing to 10-15 mph by afternoon. Gusts to around 25 mph.

SLOPE/VALLEY - Upslope/upvalley 2-8 mph in the morning, becoming west southwest 7-14 mph with gusts near 25 mph in the afternoon. **Strong, erratic outflow winds possible.**

STABILITY/INVERSION: Weak stability in the morning, inversion around 5800', lifting late morning.

WEATHER FORECAST for MONDAY NIGHT:

WEATHER: Partly cloudy. A 30% chance of thunderstorms in the evening. LAL: 3
Areas of smoke and haze.

TEMPERATURES: Valleys/Lower Slopes: 50-65° Mid-Slopes/Ridges: 60-70°
(Warmest along mid-slopes in thermal belt)

HUMIDITY: Valleys/Lower Slopes: 45-65% Mid-Slopes/Ridges: 40-50%
(Lowest along mid-slopes in thermal belt)

20 FT WINDS:

RIDGETOP - Southwest 10-15 mph with gusts to around 25 mph in the early evening, gradually decreasing after sunset to southwest 5-10 mph.

SLOPE/VALLEY - West southwest 7-14 mph with gusts to 25 mph in the evening becoming downslope/downvalley 1-6 mph. **Strong, erratic outflow winds possible.**

STABILITY/INVERSION: Becoming more stable overnight with inversion developing after midnight.

OUTLOOK for Tuesday through Thursday: A small (<10%) chance of isolated thunderstorms each day. Little change in temperatures while humidity trends lower. Gusty winds developing each afternoon / evening.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 013	TYPE OF FIRE: Wildfire Full Suppression
FIRE NAME: Beckwourth Fire	OPERATIONAL PERIOD: 07/18-07/19, 2021 24hr
DATE ISSUED: 07-17-20	TIME ISSUED: 2100
UNIT: CA-PNF-001064	SIGNED: <u>Matt Brown</u>
	Typed/printed: Matt Brown FBAN

INPUTS

WEATHER SUMMARY: ...Red Flag Warning for Lightning & Outflow Winds...

Temperature: 84-98 daytime, 45-65 overnight with 60-70 in the Thermal Belts RH: 9-19% daytime, 30-55% overnight
Ridge-top Winds: SW 6-12 increasing to 10-15 gusts to 25 mph by afternoon
Valley/Slope Winds: Terrain Driven 4-8 mph, SW 7-14 by afternoon. Overnight WNW 7-14 mph decreasing to 1-6 mph in the night with possible thunderstorm outflow winds.

Outflow winds can be erratic and very strong. With mop-up incomplete, these winds pose the greatest threat to the line; watch for developing cumulus clouds as an early indicator of escape potential. Outflow winds at night can cause undetected spotting, as thermal belts will remain receptive.

OUTPUTS

FIRE BEHAVIOR

GENERAL:

1000 hr fuel moisture is 7%. This is driving significant ERCs with frequent historic records. Live fuels are critical for most species and are available to burn. The fire has the potential to burn up to 3-4 miles in the direction of spread when aligned with wind. If it becomes plume dominated it will then spread through aggressive flanking from pyrocumulus outflow winds. Forecasted thunderstorms carry the same risks as outflow winds from pyrocumulus. Thunderstorms are expected to impact the fire area after midnight.

Probability of ignition will run about 80-100% depending on aspect and shading. As the weather develops and cloud cover forms, PIG will drop to 50% on shaded aspects late in the day.

SPECIFIC:

Divisions I: This division will experience potentially the most adverse winds. Where the line makes a dog-leg to the east just above Ramelli Creek will be a focal point of the SW wind pressure and spot potential. Incomplete burning, burned-through retardant, and on-going mop-up operations continue to have vulnerabilities at this location. Any outflow winds from thunderstorms will further challenge containment. Escape in this area will result in high flame lengths and substantial rates of spread with spotting up to ½ mile.

All other Divisions: These divisions will experience mostly favorable winds. Complete burns in most division have reduced threats to the line. Securing and moping up the rest of the perimeter has eliminated significant threats to the remainder of the fire area.

AIR OPERATIONS:

Air operations will have clear skies and no operational limits on timing of missions. Turbulence may affect operations late in the shift as weather develops with cumulus buildup.

SAFETY

Watch for fire-weakened trees and the effect of gusty winds. Outflow winds may threaten lines and challenge containment. Plan and for watch for stump holes and other hazards during mop-up operations. Initiate lightning safety protocols if hazards develop.

Beckwourth Complex– Safety Message

INCIDENT #CA-PNF-001064

DATE: 07-19/20-21 TIME: 0600-0600 Day/Night Shift

Careful attention to these five “Rights” will limit unnecessary exposure to hazards!

1. Have the **Right Plan**: Develop a plan based on reasonable objectives least amount of fire fighter exposure possible.
2. The **Right Place**: Engage the fire in a location that has the highest probability for success.
3. The **Right Time**: Attack the fire at times of favorable weather conditions that allow efficient and effective suppression efforts.
4. The **Right Assets**: Only use those suppression assets that are needed to safely implement tactics in support of reasonable objectives.
5. The **Right Duration**: Release assets as soon as they are no longer needed to accomplish the goals of the plan to reduce exposure duration.

Fire Fighter Fatigue: Please continue to get enough rest. Take plenty of breaks and please continue to stay hydrated by drinking plenty of water. Ensure that all fire fighters meet the 2:1 work to rest ratio. Watch out for signs of fatigue in other fire fighters around you.

Remember... Be alert. Keep calm. Think clearly. Act decisively.

Demobilizing Resources: Remain focused on what you are doing. Drive defensively and burn your headlights while traveling to increase your visibility to other drivers. Be on the offensive and look be on the lookout for aggressive travelers. Pull over to a safe location to make phone calls or send text messages.

Covid-19

- Be Smart! Stay Apart! Maintain CDC social distancing guidelines when feasible
- Practice good hygiene. Wash hands often and avoid touching your face
- Cover your nose and mouth with a facial covering and cough into your elbow if needed
- Monitor your health. If you have fever, shortness of breath, coughing, sneezing or any other Covid-19 related symptom, tell a supervisor and maintain physical distancing

Snags

- Numerous snags along the perimeter as well as the interior of the fire continue to be a threat to firefighter & public safety, especially with gusty winds predicted throughout the day.
- Refer to page 22 of the I.R.P.G.

INCIDENT RISK ANALYSIS

ICS (215A) DAY SHIFT

BR/DV	HAZARDOUS ACTIONS – CONDITIONS	MITIGATIONS – WARNINGS – REMEDIES	
ALL	TRAFFIC HAZARDS AND DRIVING	<ul style="list-style-type: none"> Travelers on Highway 395 often exceed the posted speed limit. Take extra precaution when entering or exiting the Highway. During high fire activity, expect drivers to pull over or drive through the area slower. Practice "Defensive Driving" techniques. Maintain high visibility when in the operational area, use warning lights when working on roads or traveling in smoke. Best practice is to follow California DOT standard with high vis vest where appropriate Many roads are narrow and mid-slope, with soft shoulders. Allow heavy vehicles to pass on uphill side. Use spotters when backing or turning around. 5mph speed limit in and around ICP, keep your speed down in all areas. Drive at or below posted speed limits Use warning lights when working on roads or traveling in smoke. Use chock blocks, turn wheels into hill. Be alert for wildlife. Dusk to Dawn pose the greatest potential for accidents. 	
ALL	STEEP TERRAIN & ROLLING DEBRIS	<ul style="list-style-type: none"> Maintain 8'-10' spacing when working & walking. Do not work above any personnel. Evaluate necessity to send personnel in areas with limited access. 	
ALL	INDIRECT LINE CONSTRUCTION	<ul style="list-style-type: none"> Establish and maintain LCES. Utilize favorable locations when constructing control features; IE lighter fuels, natural or existing barriers and ridgelines 	
ALL	AIR OPERATIONS	<ul style="list-style-type: none"> Follow "Aviation Watch-Out Situations" on page 46, IRPG. Do not plan on air resources for tactical support or medical transportation. Refer to page 58, IRPG for directing bucket drops. Ensure positive communication with all air resources. 	
ALL	FIRE BEHAVIOR	<ul style="list-style-type: none"> Are you seeing what we have predicted? Conduct thorough assessments before starting work. Ensure LCES is in place. Plan & communicate your exit strategy with your crew and adjacent resources. Provide additional briefing for new resources and maintain communications. 	
ALL	NIGHT OPERATIONS	<ul style="list-style-type: none"> Have a purpose for where you drive and what you do. Don't rush into assignments. Use caution where you park or stage, especially in steep timbered areas. Use available time for briefings on roads, terrain, and potential rolling material, especially if the resources are new to the area. Increase SA by trying to see the work area during daylight hours. Use glow sticks to mark hazards, and ensure personnel have headlamps. 	
ALL	COMMUNICATIONS	<ul style="list-style-type: none"> Share your Situational Awareness (hazards, changes, etc.) to those who also have a need. Answer questions when asked by others. Ask for intel when you do not know the plan. Ensure all personnel are familiar with the incident and IA communications plans. 	
ALL	HEAT RELATED ILLNESS	<ul style="list-style-type: none"> Drink 2 to 1 water to sports drinks. Take frequent breaks, minimum of 10 minutes every hour. Recognize symptoms of HEAT RELATED ILLNESS which include low energy, cramping, headaches, dizziness, poor rest, poor eating habits, hot skin, and lack of sweating. 	
ALL	HAZARD / DANGER TREES	<ul style="list-style-type: none"> Follow Hazard Tree Safety Guidelines (IRPG p.22.) Limit number of personnel around snags and their exposure time. Fallers must be qualified for the trees being felled. Be alert around hazard trees during wind events, even green trees. The hazard zone extends a minimum of 2½ tree lengths. Avoid parking vehicles or taking breaks under or near hazard trees. 	
ALL	WILDLAND URBAN INTERFACE OPERATIONS	<ul style="list-style-type: none"> Maintain continuous Situational Awareness based upon the fire environment, observed fire behavior, hazards and incident objectives. Key to success in the WUI is preparation and preplanning. Be active and engage in defense preparations & do not wait for the fire to arrive. Be decisive in tactical engagement. Know when to engage or not. Establish management decision points, Safety Zones, TRA's, and Escape Routes. 	
<p>INCIDENT NAME:</p> <p>BECKWOURTH COMPLEX</p>		<p>OPERATIONAL PERIOD: 0600 – 0600</p> <p>JULY 19/20, 2021</p> <p>Date/Time Prepared: 07/18/2021 – 1300</p>	

COVID-19 Plan

To reduce the spread of COVID 19 within the Diamond Base Camp the following mitigations have been implemented:

- ***Masks must be worn in all areas where 6 ft or more social distancing cannot be maintained, such as briefing time and when waiting in line for meals and showers.***
- ***To reduce the amount of potential exposures within the camp, when possible crews will send a few individuals to pick up meals for the entire crew.***
- ***All fire personnel will use the following screening tool daily to assess for symptoms of COVID-19.***

Wildlife Fire COVID-19 Screening Tool

Today or in the past 24 hours, have you had any of the following symptom*?

Symptom
Cough more than expected?
Shortness of breath or difficulty breathing?
Fever? Chills?
Muscle pain, outside your normal for firefighting?
Sore throat?
New loss of taste or smell?
Fatigue, outside your normal for firefighting?
Headache, outside your normal for firefighting?
Congestion or runny nose, outside your normal for firefighting?
Nausea or vomiting
Diarrhea
<i>* Take temperature with no-touch thermometer, if available *</i>

If you have answered "YES" to any of the questions above, see Frontline Medical Unit for evaluation and notify the Medical Unit as soon as possible.

Vaccinations

If you are interested in getting a vaccination while in camp contact one of the three COVID Advisor. For rapid testing during demob see Frontline Medical.

COVID Advisor Info: Francisco Rico (530) 913 6931; Allison Sanger (530) 218-7794; and Chris Low (530) 927-8029

IF you have photos or video from this fire please SCAN the QR code below and send your photos and videos directly to us.

REMEMBER:

- Make sure Firefighters are wearing all PPE
- Give us the time and date, location, crew or person shown, etc.
- Show your Agency in a positive light, be professional.
- Do not take photographs of accidents, injuries, near misses, etc.

Other items the Information Section can assist you with

LOST & FOUND

MAIL DROPOFF (with postage)

PACKAGE PICK-UP (MUST HAVE YOUR E/O NUMBER ON LABEL)

Beckworth Fire Camp

2634 Beckworth-Calpine Road

Beckworth, CA. 96129

Media Access Law

Media – the California State Penal Code 409.5(D) allows for media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specific within the penal code. However, this does not include crime scenes, private property and the new media may not interfere with incident operations. Please always treat the media with courtesy and respect and advise the public information office if there are any issues.

Photographs and videos of the incident – Please refrain from posting incident related videos to your social media. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera may lose their situational awareness. When this happens, it could reflect poorly on all that are assigned to the incident.

Please email photo submissions to: 2021.beckwourthcomplex@firenet.gov

Training Specialist Message

An Incident Training Specialist is assigned to this incident and will be performing the duties "Remotely".

To assure proper documentation for your assignment:

1. Scan the QR Code
2. Complete the Trainee Registration Form

This is the link to sign up.

At the end of your assignment:

1. Trainee: Complete the exit interview form. Use the exit interview QR code to access the document.

This is the link to the exit interview form.

2. **Trainer:** Fill in the Position Task Book as completely as possible for this incident.
3. **Trainer:** Complete the ICS 225 performance evaluation and discuss with your Trainee. Make sure it's signed by both the Trainer and Trainee. Take a picture/ copy of the ICS 225 and send it to TNSPEP@gmail.com

The Training Specialist will send the training documents to the email address you provided.

For training related questions, call/text Emil Picchi (TNSP) at 650-520-5102 or email -TNSPEP@gmail.com

8. MEDICAL EMERGENCY PROCEDURES

- "RED IWI" MEDICAL-EMERGENCY PLAN:**
- Contact Communications on Command and declare you have a RED IWI
 - Following the 8-Line on the back of the IAP or page 118 of the 2018 IRPG
 - Tell them **Who** you are, **Where** you are at, **What** you have, and **What** you need.
 - Update Communications once the patient has been transported.
 - Close the loop with MEDL at the end of shift.

- "Yellow or Green" NON-EMERGENCY MEDICAL PLAN:**
- Contact Division / Communications and declare you have a "Non-Emergency Medical."
 - Complete the 8-line if needed and turn it in to the medical unit at the end of the shift.

9. PREPARED BY MEDL – Jeff Carlton	10. REVIEWED BY SOF1- Dave Welch
---------------------------------------	-------------------------------------

Medical Incident Report

FOR A **NON-EMERGENCY INCIDENT**: WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A **MEDICAL EMERGENCY**: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM COMMUNICATIONS

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)
 Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.
 Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical Incident, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency
 AND
 Transport Priority
 (priority 1, 2, 3)

- RED / PRIORITY 1** Life or limb threatening injury or illness. Evacuation need is IMMEDIATE
 Ex: Unconscious, difficulty breathing, bleeding severely, 2° - 3° burns more than 4 palm sizes, heat stroke, disoriented.
- YELLOW / PRIORITY 2** Serious injury or illness. Evacuation may be DELAYED if necessary.
 Ex: Significant trauma, unable to walk, 2° - 3° burns not more than 1-3 palm sizes.
- GREEN / PRIORITY 3** Minor injury or illness. Non-Emergency transport
 Ex: Sprains, strains, minor heat-related illness.

Nature of Injury or Illness
 &
 Mechanism of Injury

Brief Summary of Injury or Illness
 (Ex: Unconscious, Struck by Falling Tree)

Transport Request

Air Ambulance / Short Haul/Hoist
 Ground Ambulance / Other

Patient Location

Descriptive Location & Lat. / Long. (WGS84)

Incident Name

Geographic Name + "Medical"
 (Ex: Trout Meadow Medical)

On-Scene Incident Commander

Name of on-scene IC of Incident within an
 Incident (Ex: TFLD Jones)

Crew Patient Care

Name of Care Provider
 (Ex: EMT Smith)

3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)

Agency Affiliation: (NO PATIENT NAMES) Federal Contractor Local Government

Patient Assessment: Age: Weight: Chief Complaint:

(If pertinent to Injury) Skin Signs: (color/moisture/temp) Level of Consciousness: BP: HR: Respirations:

Treatment:

4. TRANSPORT PLAN:

Evacuation Location (drop point, intersection, hellspot, Lat. / Long, hazards) Patient's ETA to Location:

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

Paramedic / EMT - Crews - Immobilization Devices - AED - Oxygen - Trauma Bag - IV/Fluid(s) - Splints - Rope rescue - Wheeled litter - HAZMAT - Extraction

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					

7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method?
 Be thinking ahead.

8. ADDITIONAL INFORMATION: Updates/Changes, etc.

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert - Keep Calm - Think Clearly - Act Decisively

*** Follow up with MEDL upon return to ICP ***
