### **INCIDENT OBJECTIVES (ICS 202)**

	INT OBSECT										
1. Incident Name:	2. Operational Period	l: Date From:	7/20/2021	Date To:	7/21/2021						
Beckwourth Complex		Time From:	0600	Time To:	0600						
3. Objective(s):											
<u>Leaders Intent</u>											
An aggressive full suppression strategy will be impleresidences, critical infrastructure and surrounding constage 1 fire suppression repair will be completed at	ommunities through the										
Management Objectives											
Ensure that strategies and tactics provide for fire principles.	fighter and public safet	through the applica	tion of sound ris	k managem	ent						
- Minimize the threat to private property, communit	ies, businesses, and ci	itical infrastructure.									
- Establish and strengthen cooperator, partner, and stakeholder relationships.											
- Follow identified standard procedures to minimize	- Follow identified standard procedures to minimize the spread of COVID-19.										
<ul> <li>Minimize the cost of the incident by employing tactics that have the highest probability of success while minimizing firefighter exposure.</li> </ul>											
Control Objectives											
- Keep the fire north of Highway 70 to minimize the impacts on commerce and travel along the Highway 70 corridor.											
- Keep the fire south and west of 395 with an emphasis on protecting residences, ranchland, and critical infrastructure.											
- Keep the fire east of Beckwourth Milford Road to protect the community of Portola, grazing allotments, and recreational values.											
General Situational Awareness:											
Steep and rugged terrain, critically dry and recep	tive fuel beds, active a	rea for fire history and	d drought stress	ed trees.							
In the COVID-19 environment, high density popu	lations or large groups	are particulary at risl	k. To help protec	t yourself, yo	our family						
and to ensure all employees return home safely,	make sure to practice s	social distancing.									
Enhanced hygiene (especially handwashing), PF	E & monitoring practic	es help limit the infec	tion rate of first i	esponders.

### INCIDENT Weather Forecast

FORECAST NO: 14

PREDICTION FOR: Tue 0600 - Tue 0600

SHIFT DATE: July 20-21, 2021

FORECAST ISSUED: 1900, July 19, 2021

NAME OF FIRE: Beckwourth Complex

**UNIT:** Plumas National Forest

Incident Meteorologist: Lamont Bain

**WEATHER DISCUSSION:** Patchy to areas of smoke/haze will continue with no threat for showers or storms today and tonight. Afternoon humidity is expected to be lower than the past 1-2 days with afternoon readings below 15%. Seasonal southwest winds are forecast across the incident site with speeds ranging between 15 and 20 mph with gusts up to 25 mph at the higher/exposed elevations.

### **WEATHER FORECAST for TUESDAY:**

Weather obs around fire area

WEATHER: A few clouds, but possible shading due to smoke and haze. LAL: 1 Mid-Slopes/Ridges: 76-86°

TEMPERATURES: Valleys/Lower Slopes: 84-94° **HUMIDITY: 12-22%** 

HAINES INDEX: 4

### 20 FT WINDS:

RIDGETOP - Southwest 10-15 mph increasing to 15-20 mph by afternoon. Gusts to around 25 mph. SLOPE/VALLEY - Upslope/upvalley 3-8 mph in the morning, becoming southwest to west 8-15 mph with gusts near 20 mph in the afternoon.

STABILITY/INVERSION: Shallow inversion, lifting by 10 AM. Mixing heights around 8,000 feet.

### **WEATHER FORECAST for TUESDAY NIGHT:**

WEATHER: A few clouds, patchy smoke/haze. LAL: 1.

TEMPERATURES: Valleys/Lower Slopes: 55-60° Mid-Slopes/Ridges: 60-65°

(Warmest along mid-slopes in thermal belt)

**HUMIDITY:** Valleys/Lower Slopes: 45-65% Mid-Slopes/Ridges: 30-35%

(Lowest along mid-slopes in thermal belt)

### 20 FT WINDS:

**RIDGETOP** - Southwest 15-20 mph with gusts to around 25 mph in the early evening, gradually decreasing after sunset to southwest 10-15 mph.

**SLOPE/VALLEY -** West southwest 7-14 mph with gusts to 25 mph in the evening becoming downslope/downvalley 1-6 mph.

STABILITY/INVERSION: Becoming more stable overnight with inversion developing just before midnight.

**OUTLOOK for Wednesday through Friday:** Rain/storm-free conditions anticipated through the remainder of the work week. Afternoon humidity in the single digits in tandem with breezy southwest to west-southwest winds of 15 to 25 mph with gusts to 30 mph are forecast. Only a few clouds are possible, with fair weather cumulus likely bubbling along the edge of the escarpment. Patchy smoke/haze possible depending on fire behavior/activity of Dixie fire.

### FIRE BEHAVIOR FORECAST FORECAST NUMBER: 015 **TYPE OF FIRE:** Wildfire Full Suppression FIRE NAME: **Beckwourth Fire** OPERATIONAL PERIOD: 07/20-07/21, 2021 24hr DATE ISSUED: 07-19-21 TIME ISSUED: 2100 UNIT: CA-PNF-001064 SIGNED: \_\_Matt Brown\_ Typed/printed: Matt Brown FBAN

### **INPUTS**

### **WEATHER SUMMARY:**

\*\*\*Stronger winds along with warm and dry conditions for today\*\*\*

Temperature: 76-94 daytime, 55-65 overnight, RH: 12-22% daytime, 30-65% overnight

Ridge-top Winds: SW 5-10 increasing to 15-20, gusts to 25 mph by afternoon

Valley/Slope Winds: Terrain Driven 2-4 mph, SW 8-15 by afternoon. Overnight WNW 7-14 mph decreasing to 1-6

mph in the night.

### **OUTPUTS**

### **FIRE BEHAVIOR**

### GENERAL:

1000 hr fuel moisture is 7%. The ERCs backed off the record levels due to cloud cover, but still maintain the 97th percentile. Live fuels remain critical for most species and are available to burn. The fire has the potential to burn up to 3-4 miles in the direction of spread when aligned with wind. If it becomes plume dominated, it will then spread through aggressive flanking from pyrocumulus development and associated outflow winds. Fuels remain exceptionally receptive to spotting. The burn period will begin after 1000 hours.

Probability of ignition will run about 80-100% depending on aspect and shading. As the weather clears the PIG will approach 100% with receptive fuels in full sun.

### SPECIFIC:

Divisions I/N: These divisions will experience potentially the most adverse winds. Where the line makes a dog-leg to the east, just above Ramelli Creek, will be a focal point of the SW wind pressure and spot potential. Incomplete burning, burned-through retardant, and on-going mop-up operations continue to have vulnerabilities at this location. Escape in this area will result in high flame lengths and substantial rates of spread with spotting up to ½ mile. The heavy fuel loading and lack of fire history will make direct attack efforts difficult.

All other Divisions: These divisions will experience mostly favorable winds. Complete burns with good consumption in most divisions have reduced threats to the line. Securing and moping up the rest of the perimeter has eliminated significant threats to the remainder of the fire area.

### **AIR OPERATIONS:**

Air operations will have somewhat cloudy skies with no expected operational limits on timing of missions unless smoke from the Dixie Fire obscures visibility.

### SAFETY

Watch for stump holes, smoldering ground fuels and other hazards during mop-up operations. Plan to be a part of IA and understand potential fire behavior if starts occur outside the current perimeter, especially in different fuel types.

### **Fuels Advisory**

### **PNF Pocket Card East**

### **Beckwourth Complex- Safety Message**

INCIDENT #CA-PNF-001064

DATE: 07-20/21-21 TIME: 0600-0600 Day/Night Shift

### Act Deliberately, Not Urgently

- When committing personnel to a fire, have a plan. Ensure that your plans are clearly communicated and that everyone clearly understands your intent and the hazards that are associated with your plan.
- Do not be afraid to say no. Refer to page 19 in the I.R.P.G. for guidelines on properly refusing risk. Do not act beyond the limits of your training or ability.
- Ensure that escape routes and safety zones are clearly defined and made known to all fire fighters. Post lookouts
  and ensure that you know what radio frequency you will be using for tactics and command. Make sure LCES is in
  place prior to taking action.
- Review the "8-Line," Incident within and Incident plan in your IAP. Spend time during breakout briefings discussing possible scenarios involving an incident within an incident. Know who that on-scene IC will be.

**Fire Fighter Fatigue:** Please continue to get enough rest. Take plenty of breaks and please continue to stay hydrated by drinking plenty of water. Ensure that all fire fighters meet the 2:1 work to rest ratio. Watch out for signs of fatigue in other fire fighters around you.

**Snags/Hazard Trees:** Maintain situational awareness and point out snags to others. Snags continue to fall in the burned area and near the fire line. Ensure that everyone is aware of the presence of snags and widow makers. Do not park vehicles under them. Use flagging tape to keep others out of the area.

### Covid-19

- Be Smart! Stay Apart! Maintain CDC social distancing guidelines when feasible
- Practice good hygiene. Wash hands often and avoid touching your face
- Cover your nose and mouth with a facial covering and cough into your elbow if needed
- Monitor your health. If you have fever, shortness of breath, coughing, sneezing or any other Covid-19 related symptom, tell a supervisor and maintain physical distancing

### **Texting While Driving is Prohibited!**

- Texting while driving is against California State Law and is enforced by local and state law enforcement agencies.
- 2. 23% of all auto accidents in 2011 were attributed to cellular phone use while driving. Taking your eyes off the road for 5 seconds while traveling 55 MPH, is equivalent to driving the length of 1 football field without looking at the road!

### **INCIDENT RISK ANALYSIS**

	INCIDENT KISK ANALTSIS	ics (213A) DAT SHIFT
BR/DV	HAZARDOUS ACTIONS – CONDITIONS	MITIGATIONS – WARNINGS – REMEDIES
ALL	HAZARD / DANGER TREES	<ul> <li>Follow Hazard Tree Safety Guidelines (IRPG p.22.)</li> <li>Limit number of personnel around snags and their exposure time.</li> <li>Fallers mustbe qualified for the trees being felled.</li> <li>Be alert around hazard trees during wind events, even green trees.</li> <li>The hazard zone extends a minimum of 2½ tree lengths.</li> <li>Avoid parking vehicles or taking breaks under or near hazard trees.</li> </ul>
ALL	TRAFFIC HAZARDS AND DRIVING	<ul> <li>Travelers on Highway 395 often exceed the posted speed limit. Take extra precaution when entering or exiting the Highway.</li> <li>During high fire activity, expect drivers to pull over or drive through the area slower. Practice "Defensive Driving" techniques.</li> <li>Maintain high visibility when in the operational area, use warning lights when working on roads or traveling in smoke. Best practice is to follow California DOT standard with high vis vest where appropriate</li> <li>Many roads are narrow and mid-slope, with soft shoulders. Allow heavy vehicles to pass on uphill side. Use spotters when backing or turning around.</li> <li>5mph speed limit in and around ICP, keep your speed down in all areas. Drive at or below posted speed limits</li> <li>Use warning lights when working on roads or traveling in smoke.</li> <li>Use chock blocks, turn wheels into hill.</li> <li>Be alert for wildlife. Dusk to Dawn pose the greatest potential for accidents.</li> </ul>
ALL	STEEP TERRAIN & ROLLING DEBRIS	<ul> <li>Maintain 8'-10' spacing when working &amp; walking.</li> <li>Do not work above any personnel.</li> <li>Evaluate necessity to send personnel in areas with limited access.</li> </ul>
ALL	INDIRECT LINE CONSTRUCTION	<ul> <li>Establish and maintain LCES.</li> <li>Utilize favorable locations when constructing control features; IE lighter fuels natural or existing barriers and ridgelines</li> </ul>
ALL	AIR OPERATIONS	<ul> <li>Follow "Aviation Watch-Out Situations" on page 46, IRPG.</li> <li>Do not plan on air resources for tactical support or medical transportation.</li> <li>Refer to page 58, IRPG for directing bucket drops.</li> <li>Ensure positive communication with all air resources.</li> </ul>
ALL	FIRE BEHAVIOR	<ul> <li>Are you seeing what we have predicted?</li> <li>Conduct thorough assessments before starting work.</li> <li>Ensure LCES is in place.</li> <li>Plan &amp; communicate your exit strategy with your crew and adjacent resources.</li> <li>Provide additional briefing for new resources and maintain communications.</li> </ul>
ALL	NIGHT OPERATIONS	<ul> <li>Have a purpose for where you drive and what you do. Don't rush into assignments.</li> <li>Use caution where you park or stage, especially in steep timbered areas.</li> <li>Use available time for briefings on roads, terrain, and potential rolling material, especially if the resources are new to the area.</li> <li>Increase SA by trying to see the work area during daylight hours.</li> <li>Use glow sticks to mark hazards, and ensure personnel have headlamps.</li> </ul>
ALL	COMMUNICATIONS	<ul> <li>Share your Situational Awareness (hazards, changes, etc.) to those who also have a need.</li> <li>Answer questions when asked by others. Ask for intel when you do not know the plan.</li> <li>Ensure all personnel are familiar with the incident and IA communications plans.</li> </ul>
ALL	HEAT RELATED ILLNESS	<ul> <li>Drink 2 to 1 water to sports drinks.</li> <li>Take frequent breaks, minimum of 10 minutes every hour.</li> <li>Recognize symptoms of HEAT RELATED ILLNESS which include low energy, cramping, headaches, dizziness, poor rest, poor eating habits, hot skin, and lack ofsweating.</li> </ul>
ALL	WILDLAND URBAN INTERFACE OPERATIONS	<ul> <li>Maintain continuous Situational Awareness based upon the fire environment observed fire behavior, hazards and incident objectives.</li> <li>Key to success in the WUI is preparation and preplanning.</li> <li>Be active and engage in defense preparations &amp; do not wait for the fire to arrive.</li> <li>Be decisive in tactical engagement. Know when to engage or not.</li> <li>Establish management decision points, Safety Zones, TRA's, and Escape Routes.</li> </ul>
	INCIDENT NAME:	OPERATIONAL PERIOD: 0600 – 0600

**BECKWOURTH COMPLEX** 

JULY 20/21, 2021

Date/Time Prepared: 07/19/2021 - 1300

Leaders.

We have had a significant uptick in COVID cases in Region 5 in the last week, specifically related to fire incidents. On Saturday alone, we had cases from 5 forests which directly affect our firefighting capacity. Safety is one of our core values, and right now our ability to keep our employees safe is being threatened by this virus, especially in light of the Delta variant.

We know the most effective tool for preventing the virus from spreading—while still meeting our firefighting mission—is to increase vaccination rates among our workforce. We have been vaccinating employees in camp, at our offices, and encouraging modules of employees to get vaccinated together. We are looking at additional ways to incentivize vaccinations. It is not progressing fast enough.

The second-best measure to limit spread is through social distancing and wearing masks. To date, only a few personnel have been wearing masks, there are more in-person meetings, and there is an increase in the use of indoor spaces compared to last year. Frankly, it has felt like many of our mitigations from last year have simply faded away.

Based on the rise in cases and number of people impacted, we need to take decisive action. <u>Effective today</u>, the following expectations need to be carried out by all leaders in Region 5:

- 1. Masks are required for any employee working on a fire, regardless of vaccination status.
  - a. This includes firefighters, support personnel, BAER Teams, aviation assets, and dispatch centers. Everyone.
  - b. Anyone working directly or indirectly to support a fire must follow this guidance.
  - c. Exceptions remain for the following activities: eating/drinking, arduous duty, critical communication, and alone in a vehicle or enclosed room. Masks must be worn in interim periods where these exceptions do not apply (e.g., when not speaking during critical communications).
- 2. Camp protocols need to mitigate for COVID:
  - a. Briefings should be outdoors, if practical, and limited to as few personnel as possible.
  - b. Modules need to be kept apart, as much as possible (including during meals, one module per sleeper trailer, etc.).
  - Food service and other camp needs must have COVID mitigations, including masking.
- 3. Forests with fire incidents should consider mask requirements for anyone entering our facilities, given the intermixing with fire personnel. Needs vary by forest, but we encourage you to err on the side of caution in the protection of all employees.

We do not have the luxury of halting all travel and completely eliminating the intermixing of employees from different units, therefore we must continue to utilize our world class employees to fight these fires wherever they occur. I wish these measures were not needed, but I feel waiting any longer to implement them would put the safety of our employees and the communities we serve at an unacceptable level of risk.

Thank you for your leadership on this important matter. Reach out if you have questions or concerns.

Randy Moore Regional Forester Forest Service Pacific Southwest Region

### COVID-19 Plan

To reduce the spread of COVID 19 within the Diamond Base Camp the following mitigations have been implemented:

- Masks must be worn in all areas where 6 ft or more social distancing cannot be maintained, such as briefing time and when waiting in line for meals and showers.
- To reduce the number of potential exposures within the camp, when possible crews will send a few individuals to pick up meals for the entire crew.
- All fire personnel will use the following screening tool daily to assess for symptoms of COVID-19.

### Wildland Fire COVID-19 Screening Tool

Today or in the past 24 hours, have you had any of the following symptom\*?

Symptom
Cough more than expected?
Shortness of breath or difficulty breathing?
Fever? Chills?
Muscle pain, outside your normal for firefighting?
Sore throat?
New loss of taste or smell?
Fatigue, outside your normal for firefighting?
Headache, outside your normal for firefighting?
Congestion or runny nose, outside your normal for firefighting?
Nausea or vomiting
Diarrhea
* Take temperature with no-touch thermometer, if available *

If you have answered "YES" to any of the questions above, see Frontline Medical Unit for evaluation and notify the Medical Unit as soon as possible.

### **Vaccinations**

If you are interested in getting a vaccination while in camp contact one of the three COVID Advisor. For rapid testing during demob see Frontline Medical.

COVID Advisor Info: Francisco Rico (530) 913 6931; Allison Sanger (530) 218-7794; and Chris Low (530) 927-8029

### Human Resource Message

### HARASSMENT FREE WORKPLACE POLICY

The Forest Service strives for a harassment-free work environment where people treat on another with respect. Managers, supervisors, and all employees, as well as our contractors, cooperators and volunteers have the primary responsibility for creating and sustaining this harassment-free environment.

All employees, contractor personnel, and visitors must take personal responsibility for maintaining conduct that is professional and supportive. There is a zero tolerance for harassment based on race, national origin, religion, age, mental or physical disability, color, sex, or any other nonmerit factors.

Managers and supervisors must take immediate action to stop harassment (or any other inappropriate behavior), to protect the people targeted and to take all reasonable steps to ensure that no further harassment or retaliation occurs. Employees who witness harassment should report it to the proper authority.

WHAT HARASSMENT IS: Harassment is coercive or repeated, unsolicited, and unwelcome verbal comments, gestures or physical contacts and includes retaliation for confronting or reporting harassment. Some examples include but are not limited to the following: unwelcome touching, inappropriate references to body parts, derogatory or demeaning comments, jokes, or personal question, sexual innuendoes, inappropriate comments, or other verbal abuse.

Individuals who believe they are being harassed or retaliated against should exercise any one or more of the following options as soon as possible: Tell the harasser to stop the offensive conduct; and/or Tell a manager or supervisor about the conduct; and/or any other individual you trust who would act. In addition, you may seek help from the Human Resource Specialist on the incident.

Please let us know if we can be of assistance. We are located at the Lassen High School, however will be traveling to Diamond Camp often. Our contact info is Andrea Cabida -HRSP 707-330-9939 or by email at: andrea.cabida@usda.gov.

Ben Wexler – HRSP(t) 707-980-2780 or by email at: Benjamin.wexler@usda.gov.

Although practicing social distancing, we will arrange an in-person meeting to discuss any concerns.

Andrea Cabida- HRSP Ben Wexler- HRSP(t)

MAIL DROPOFF (with postage)

PACKAGE PICK-UP (MUST HAVE YOUR E/O NUMBER ON LABEL)

Beckworth Fire Camp

2634 Beckworth-Calpine Road

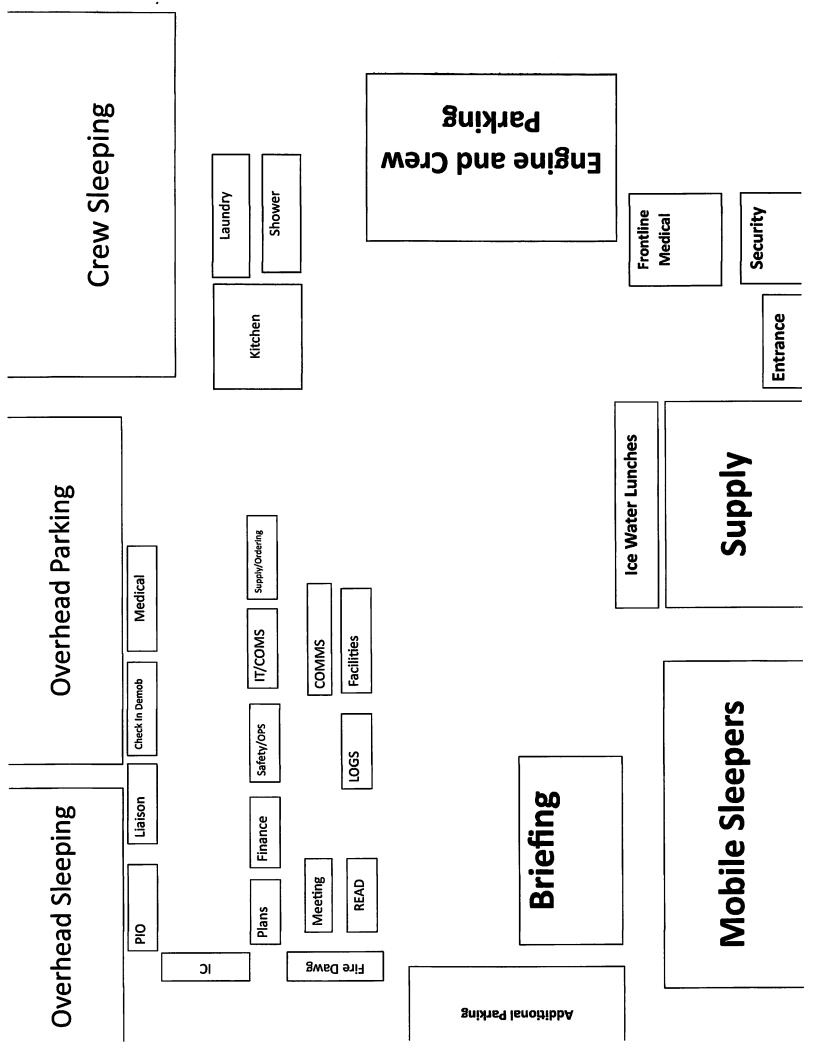

Beckworth, CA. 96129

### Media Access Law

Media – the California State Penal Code 409.5(D) allows for media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specific within the penal code. However, this does not include crime scenes, private property and the new media may not interfere with incident operations. Please always treat the media with courtesy and respect and advise the public information office if there are any issues.

Photographs and videos of the incident — Please refrain from posting incident related videos to your social media. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera may lose their situational awareness. When this happens, it could reflect poorly on all that are assigned to the incident.

Please email photo submissions to: 2021.beckwourthcomplex@firenet.gov

### **Training Specialist Message**

An Incident Training Specialist is assigned to this incident and will be performing the duties "Remotely".

### To assure proper documentation for your assignment:

- 1. Scan the QR Code
- 2. Complete the Trainee Registration Form

This is the link to sign up.

### At the end of your assignment:

1. Trainee: Complete the exit interview form. Use the exit interview QR code to access the document.

This is the link to the exit interview form.

- 2. **Trainer:** Fill in the Position Task Book as completely as possible for this incident.
- 3. **Trainer:** Complete the ICS 225 performance evaluation and discuss with your Trainee. Make sure it's signed by both the Trainer and Trainee. Take a picture/ copy of the ICS 225 and send it to <a href="mailto:TNSPEP@gmail.com">TNSPEP@gmail.com</a>

The Training Specialist will send the training documents to the email address you provided.

For training related questions, call/text Emil Picchi (TNSP) at 650-520-5102 or email -TNSPEP@gmail.com

8. MEDICAL EMERGENCY PROCEDURES

### "RED IWI" MEDICAL-EMERGENCY PLAN:

- Contact Communications on Command and declare you have a RED IWI
- Following the 8-Line on the back of the IAP or page 118 of the 2018 IRPG
- Tell them Who you are, Where you are at, What you have, and What you need.
- Update Communications once the patient has been transported.
- Close the loop with MEDL at the end of shift.

### <u>"Yellow or Green" NON-EMERGENCY</u> MEDICAL PLAN:

- Contact Division / Communications and declare you have a "Non-Emergency Medical."
- Complete the 8-line if needed and turn it in to the medical unit at the end of the shift.

9. PREPARED BY MEDL – Jeff Carlon

10. REVIEWED BY SOF1- Dave Welch

### Medical Incident Report

FOR A NON-EMERGENCY INCIDENT: WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM COMMUNICATIONS

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree.

Requesting air ambulance to Forest Road 1 at (Lat./Long.) "This will be the Trout Meadow Medical Incident, IC is TFLD Jones. EMT Smith is providing medical care."									
Severity of Emergency  AND  Transport Priority (priority 1, 2, 3)  ARED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE  Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.  Lex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.  Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.  GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport  Ex: Sprains, strains, minor heat-related illness.									
Nature of Injury or Illness & Mechanism of Injury				ary of Injury or Illness us, Struck by Falling Tree)
