Fire Weather Forecast

Spot Forecast for Monument...USFS National Weather Service Eureka CA 150 PM PDT Wed Aug 4, 2021

If conditions become unrepresentative...contact the National Weather Service.

Please contact our office at (707) 443-6484, if you have questions or concerns with this forecast.

DISCUSSION... Thursday morning winds will shift to the northwest. This will also cool temperatures and increase the RH. Winds will increase slightly in the afternoon. Thunderstorms are expected to remain north of the fire. RH recoveries will be fairly good Thursday night into Friday morning. Friday a warming and drying trend starts again and winds will mainly be diurnally driven. This pattern is expected to continue into next week. Looking at modeled Haines index, it was 5 on Wednesday and is expected to be around 5 again on Thursday, but only 3 on Friday.

THURSDAY...

THURSDAY NIGHT...

FIRE BEHAVIOR FORECAST FORECAST NUMBER: 002 FIRE NAME: Monument Fire OPERATIONAL PERIOD: 08/5/21 0700-0700 DATE ISSUED: August 4, 2021 UNIT: CA-SHF-001187 SIGNED: 944 Skettoe Typed/printed: Jeff Shelton (LTAN)

WEATHER SUMMARY:

*** Unstable Air.. and a New Wind Direction ***

Seasonably warm and dry conditions are expected to persist. As a weather system passes to our north today, unstable air will transition the fire area. Winds will shift to the Northwest in the morning and increase in strength into the afternoon. Some stronger gusts will be possible up the Trinity River Valley into the early evening. Expect fair to good relative humidity recovery moving into Friday.

INPUTS

Max. Temperatures-75-83 degrees Min. Humidity- 20 to 30% Winds- NW to 12 mph/Gusts to 20 mph later Min. Temperatures- 56-63 degrees Max. Humidity- 65 to 75% Winds- NW to 10 mph, then N to 6 mph late

OUTPUTS

FIRE BEHAVIOR

GENERAL:

- Today's unstable air will counter the effect of cooler temperatures and slightly higher humidity!
- All fuel sizes are currently receptive and carrying fire. Expect, and plan for, frequent spotting!
- With ERC's remaining above the 90th percentile, resistance to control will be very high!
- Expect today's new wind direction to challenge fireline along the eastern portions of the fire!
- Large, dead fuels are intermixed with the grass and brush components. Plan for rollout!
- Hour by hour....Fire impacted trees are being continually weakened by fire, and wind loading.

SPECIFIC:

All Divisions: Expect the morning inversion to rise to 10,000 feet by early by afternoon.

Flame Lengths- 4 to 8 ft. in Grass, Up to 20 ft. in Brush...Diminishing after midnight

Rate of Spread- 20 chains/hour in Grass, Up to 40 chains/hour in Brush... Diminishing overnight

Spotting Distances- Up to .25 miles from Grass/Brush, Up to 1 mile in Timber (From Torching)

Probability of Ignition- Over 80% at the peak of the burn period, Diminishing to <40% overnight

AIR OPERATIONS:

Expect poor smoke dispersion before the inversion breaks by late in the morning. Mixing heights start out at 100-500 feet; rise to 10,000 feet with daytime heating; then return to 100-400 feet after sunset. Anticipate terrain induced turbulence in areas with complex terrain; especially during peak hours of afternoon heating.

SAFETY

Fire Moves Fastest Where You Move Slowest!

Plan For Surprisingly Rapid Growth from Spot Fires and Slope Reversals!

Monument Incident – Safety Message

INCIDENT #CA-SHF-001187

DATE:8/5-8/6/2021 TIME:0700-0700 Day/Night Shift

RISK MANAGEMENT

Use the following process to quickly assess risk for the situations you face throughout the day.

<u>Step 1</u> - Identify the hazards. Make this an ongoing, continuous process in your daily decision-making routine. Gather as much information as possible.

<u>Step 2</u> - Assess the risk levels. The probability and severity of an undesirable outcome linked to identified hazards = **RISK**.

<u>Step 3</u> - Analyze and select control or mitigation measures. <u>Limiting exposure is almost always an option.</u>

Step 4 - Reassess risk level with controls in place (residual risk).

<u>Step 5</u> - Make your informed decision based on the residual risk. Ask the **risk vs. gain** question: is the benefit of the action I'm considering worth the risk?

Step 6 - Monitor the situation

RECOGNIZE THE SIGNS OF FATIGUE

The effects of fatigue can directly hinder our abilities to:

- Perform various tasks, maintain a positive and supportive attitude
- Maintain situational awareness and a high degree of alertness
- React appropriately in a timely manner and fashion
- Retain a sharp memory and recollection of information

Mitigate or Change Tactics When Faced With

- Indirect Fireline
- · Change of fuel characteristics
- Change in fire behavior
- Reburn Potential
- Lack of Communications With All Forces
- Downhill Line Construction
- Under slung Line
- Fatigued Crew

Leadership is All About Character

Fire leaders set the example by exhibiting strong character. Character is based on values. It is the combination of actions and words that others appraise to determine if the leader can be trusted to do the right thing

- Know our values, review them frequently, and look for areas of improvement.
- Admitting when we are wrong.
- Taking time to reflect on our actions.
- Finding role models and asking them to be a mentor.
- Studying leaders and leadership, learning from their successes and mistakes.

ICS (215A) DAY/NIGHT SHIFT

	ICS (215A) DAY/NIGHT SHIFT	
BR/DV	HAZARDOUS ACTIONS - CONDITIONS	MITIGATIONS – WARNINGS – REMEDIES
ALL	STEEP TERRAIN & ROLLING DEBRIS	 Maintain 8'-10' spacing when working & walking. Do not work above any personnel. Evaluate necessity to send personnel in areas with limited access.
ALL	TRAFFIC HAZARDS AND DRIVING	 Many roads are narrow and mid-slope, with soft shoulders. Allow heavyvehicles to pass on uphill side. Use spotters when backing or turning around. Practice "Defensive Driving" techniques. Assume other drivers are fatigued and complacent. 5mph speed limit in and around ICP, keep your speed down in all areas. Use warning lights when working on roads or traveling in smoke. Drive at or below posted speed limits. Use chock blocks, turn wheels into hill. Be alert for wildlife. Dusk to Dawn pose the greatest potential for accidents.
ALL	FIRE BEHAVIOR	 Are you seeing what we have predicted? Conduct thorough assessments before starting work. Ensure LCES is in place Plan & communicate your exit strategy with your crew and adjacent resources. Provide additional briefing for new resources and maintain communications.
ALL	HAZARD / DANGER TREES	 Follow Hazard Tree Safety Guidelines (IRPG p.22.) Limit number of personnel around snags and their exposure time Fallers mustbe qualified for the trees being felled. Be alert around hazard trees during wind events, even green trees. The hazard zone extends a minimum of 2½ tree lengths. Avoid parking vehicles or taking breaks under or near hazard trees.
ALL	AIR OPERATIONS	 Follow "Aviation Watch-Out Situations" on page 46, IRPG. Do not plan on air resources for tactical support or medical transportation. Refer to page 58, IRPG for directing bucket drops. Ensure positive communication with all air resources.
ALL	ACCOUNTABILITY	 Know where your troops are at all times. Know the plan, brief the plan, and implement the plan. Ensure you have communications with adjoining forces, and be sure they know the plan. Check in and out when traveling through Branches and Divisions. If you see someone that looks out of place, stop, and ask what they're doing As fire conditions escalate and your chasing spots, don't over commit. Back off, regroup, and re-engage.
ALL	COMMUNICATIONS	Share your Situational Awareness (hazards, changes, etc.) to those who also have a need. Answer questions when asked by others. Ask for intel when you do not know the plan. Ensure all personnel are familiar with the incident and IA communications plans.
ALL	HEAT RELATED ILLNESS	 Drink 2 to 1 water to sports drinks. Take frequent breaks, minimum of 10 minutes every hour. Recognize symptoms of HEAT RELATED ILLNESS which include low energy, cramping, headaches, dizziness, poor rest, poor eating habits, hot skin, and lack of sweating.
ALL	INDIRECT LINE CONSTRUCTION	 Establish and maintain LCES. Locate line in favorable location, lighter fuels, and gentler topography when possible. Utilize natural or existing barriers.
ALL	WILDLAND URBAN INTERFACE OPERATIONS	 Maintain continuous Situational Awareness based upon the fire environment, observed fire behavior, hazards and incident objectives. Key to success in the WUI is preparation and preplanning. Be active and engage in defense preparations & do not wait for the fire to arrive. Be decisive in tactical engagement. Know when to engage or not. Establish management decision points, Safety Zones, TRA's, and Escape Routes.
11.00	INCIDENT NAME:	OPERATIONAL PERIOD: 0700 – 0700
	Monument	August 5-6, 2021

Date/Time Prepared: 08/04/2021 - 1400 hrs

Wildland Fire COVID-19 Screening Tool

Interim Standard Operating Procedures - 4/15/2020

NOTE: This Screening Tool represents interim guidance. Additional clarification will be coming as soon as it is defined.

DO YOU HAVE ANY OF THESE SYMPTOMS?

Today or in the past 24 hours, have you had any of the following symptoms listed below, in addition to your normal work-related issues?

- Fever, felt feverish, or had chills? Repeated shaking with chills?
- Cough? Shortness of breath or difficulty breathing?
- Muscle pain? Headache? Sore throat?
- New loss of taste and/or smell?

If in doubt about any of these symptoms, consult a Physician.

In the past 14 days, have you had contact with a person known to be infected with the coronavirus (COVID-19)?

Take temperature with touchless thermometer if available

INSTRUCTIONS FOR SCREENING

- If resource is positive for any symptoms prior to mobilization DO NOT MOBILIZE.
- At Entries Consider the adequate number of personnel needed for screening. Although medical personnel are ideal, screeners do not have to be medically trained.
- o If resource is positive for any symptoms including fever (over 100.4) at entry **DO NOT ANNOUNCE** ask to step aside.
 - o Escort sick individual to isolation area.
 - o Isolation support personnel should begin documentation. Have sick individual contact Supervisor for further direction.
 - o Notify public health officials.
 - o Have individual transported as appropriate.
 - o Protect and secure any collected Personal Identifiable Information or Personal Health Information.

MONUMENT FIRE FINANCE PROCESS CA-SHF-001187

Send <u>all</u> documents to <u>2021.monument.finance@firenet.gov</u> for all resources.

Email Subject Line: TIME/Resource Order No/ResourceName/Position Code

(Example: TIME/O-200/Resource Name/OSC2) Make sure to include **TIME** in the subject line.

Email all documents that pertain to your assignment.

Resource Order
Casual Hire Form
Contract, Shift Tickets, Inspections
Crew Time Report
Receipts, etc.
Cost reports
Claims (Forms, pictures, statements)

Please include your email address and phone number in the body of the email when sending your message.

Any questions please call: (213) 431-4035.

Human Resource Message

Andrea Cabida I am the Human Resource Specialists assigned to the incident. As the Human Resource Specialists, I am available to incident personnel to provide work environment information and assist with conflict resolution, if needed. If I can be of assistance to you, please let us know. You can contact me by cell phone at 707-330-9939 or via e-mail at andrea.cabida@usda.gov. You can call, text, or email anytime.

As a reminder, we have a zero tolerance for illegal drugs, alcohol, sexual harassment, and any other type of inappropriate behavior. We expect all incident personnel to treat each other with dignity and respect, and to work as a team to support a positive work environment.

Be Safe! Keep your positive attitude and have a great day!

Hours are 0600 to 2200
Andrea Cabida- HRSP- 707-330-9939; andrea.cabida@usda.gov;
I am located at the ICP in Redding. I will be traveling between camps.

Junction City Camp PIO Contact

Jim Mackenson: 530-701-1437

Susanville ICP PIO Contact

Nathan Judy: 626-716-0846

IF you have photos or video from this fire please SCAN the QR code below and send your photos and videos directly to us.

REMEMBER:

- Make sure Firefighters are wearing all PPE
- Give us the time and date, location, crew or person shown, etc.
- Show your Agency in a positive light, be professional.
- Do not take photographs of accidents, injuries, near misses, etc.

INFORMATION SECTION CONITINUED

Media Access Law

Media – the California State Penal Code 409.5(D) allows for media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specific within the penal code. However, this does not include crime scenes, private property and the new media may not interfere with incident operations. Please always treat the media with courtesy and respect and advise the public information office if there are any issues.

Photographs and videos of the incident - Please refrain from posting incident related videos to your social media. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera may lose their situational awareness. When this happens, it could reflect poorly on all that are assigned to the incident.

Please email photo submissions to: shastatrinity.pao@gmail.com

"RED IWI" MEDICAL-EMERGENCY PLAN:

- Contact Communications on Command and declare you have a RED IWI
- Following the 8-Line on the back of the IAP or page 118 of the 2018 IRPG
- Tell them **Who** you are, **Where** you are at, **What** you have, and **What** you need.
- Update Communications once the patient has been transported.
- · Close the loop with MEDL at the end of shift.

<u>"Yellow or Green" NON-EMERGENCY</u> MEDICAL PLAN:

- Contact Division / Communications and declare you have a "Non-Emergency Medical."
- Complete the 8-line if needed and turn it in to the medical unit at the end of the shift.

MEDICAL PLAN (ICS 206 WF)

Controlled Unclassified Information//Basic

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE
"MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

	"MEDICAL E	MER	RGENCY" TO INITIA	TE RESPONSE I	FROM IMT COMM	IUNICATIONS/DISPATCH.				
U	se the follow	v i n g	items to comm	unicate situ	ation to com	munications/dispatch.				
Ex: "Commun Ex: "Communic	ications, Div. Alpha. Sta ATUS: Provide incider cations, I have a Red pr	and-by f at sumn iority pa	nary (including number of pa	tients) and command	structure.	Forest Road 1 at (Lat./Long.) This will be the Trout				
	Emergency / Transport Priority RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented. YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes. GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport Ex: Sprains, strains, minor heat-related illness.									
	jury or Illness & sm of Injury					Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)				
Transpo	rt Request					Air Ambulance / Short Haul/Hoist Ground Ambulance / Other				
Patient	Location					Descriptive Location & Lat. / Long. (WGS84)				
Incide	nt Name					Geographic Name + "Medical" (Ex: Trout Meadow Medical)				
On-Scene Incid	dent Commander					Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)				
Patie	nt Care					Name of Care Provider (Ex: EMT Smith)				
. INITIAL PATI	ENT ASSESSMENT:	Comple	ete this section for each patien	t as applicable (start wi	th the most severe patier	t)
