#### INCIDENT Weather Forecast

FORECAST NO: 05

PREDICTION FOR: Sun 0700 to Mon 0700

SHIFT DATE: August 8, 2021

FORECAST ISSUED: 1800 PDT, August 7, 2021

NAME OF FIRE: Monument Fire

UNIT: SHF

SIGNED: Zach Tolby

Incident Meteorologist

#### WEATHER DISCUSSION

Generally persistent pattern continues on Sunday with only a slight dip in temperatures. Daytime highs will rise to around 90° with daytime humidity dropping into the high teens. Moderate westerly flow should allow for some clearing of the smoke again during the very late afternoon. Surface winds will be slope driven with gusts up to 15 mph in the Trinity River Canyon during the late afternoon. Overnight humidity recovery will remain moderate. Very hot and dry conditions expected next week.

#### SUNDAY:

WEATHER:

Sunny, smoky.

**MAX TEMPERATURES:** MIN HUMIDITY:

84-92°F 15-22%

20 FT WINDS:

Ridges:

Northwest 6 to 10 mph with gusts up to 20 mph in the afternoon.

Drainages:

2 to 5 mph in the morning becoming 7 to 10 mph with gusts up to 15 mph

in Trinity River Canyon in the late afternoon.

LAL:

CWR: HAINES INDEX: 0%

3

MIXING HEIGHT:

100-400 ft AGL increasing to 5000 ft AGL in the early afternoon.

TRANSPORT WIND:

West around 15 mph.

#### **SUNDAY NIGHT:**

WEATHER:

Clear, smoky.

**MIN TEMPERATURES:** 

58-62°F

MAX HUMIDITY:

50-60%.

20 FT WINDS:

East around 4 mph. Ridges:

Drainages:

Downslope winds 2 to 5 mph overnight with gusts up 12 mph in the Trinity

River Canyon.

LAL: CWR:

0%

HAINES INDEX:

MIXING HEIGHT:

5000 ft AGL decreasing to 100-400 ft AGL early in the evening.

TRANSPORT WIND:

Negligible.

#### OUTLOOK

MONDAY:

Sunny, smoky. Highs 90-96°F, lows 60-65°F. Min RH 8-14%. Max RH 50-60%. 1 to 3 mph in the morning becoming 4 to 7 mph with gusts up to 12 mph in the afternoon.

Haines Index: 4.

TUESDAY:

Sunny, smoky. Highs 95-100°F, lows 60-65°F. Min RH 6-12%. Max RH 45-55%. 1 to 3

mph in the morning becoming 4 to 8 mph with gusts up to 14 mph in the afternoon.

Haines Index: 5.

# FIRE BEHAVIOR FORECAST FORECAST NUMBER: 005 TYPE OF FIRE: Wildfire OPERATIONAL PERIOD: 08/8/21 0700-0700 DATE ISSUED: August 7, 2021 UNIT: CA-SHF-001187 SIGNED: August Skettom Typed/printed: Jeff Shelton (LTAN)

#### **INPUTS**

**WEATHER SUMMARY:** 

\*\*\* Very Smokey, Warm and Dry \*\*\*

Generally persistent pattern with a dip in temperatures and daytime humidity dropping into the teens. Westerly flow should allow for "clearer" air on the west side during the late day. Expect slope driven winds in the Trinity River Canyon during the late afternoon. Overnight humidity recovery will remain moderate, especially on the drier east side of the fire. Very hot and dry conditions expected next week.

#### Day

Max. Temperatures- 84-92 degrees Min. Humidity- 15 to 22% Winds- NW to 10 mph/Gusts to 20 mph later Night

Min. Temperatures- 58-62 degrees Max. Humidity- 55 to 70% Winds- Downslope to 5 mph, Gusts 12 mph

#### **OUTPUTS**

#### FIRE BEHAVIOR

#### **GENERAL:**

- This fire remains fuels driven...But Ventilation Dependent...Read Your Smoke Often!
- Fine Dead Fuel Moisture 3-6%! PIG up to 90%! REVIEW ATTACHED FUELS ADVISORY!
- Intense heat remains along the entire perimeter. Respect all alignments of slope and wind!
- Unshaded PIG remains at 90%...Smoke Shaded 60%...Expect a Back-and-Forth Dance!
- If you can breathe better, so can the fire... Improved Visibility=Inversion Breach=Fresh O2!
- Expect drift smoke from regional fires to affect your visibility.... AND situational awareness!

#### SPECIFIC:

All Divisions: \*\*\* Fuels and Fire Behavior Advisory - Posted for Northern California \*\*\*

Flame Lengths- 4 to 8 ft. in Grass, Up to 20 ft. in Brush...Diminishing after midnight

Rate of Spread- 20 chains/hour in Grass, Up to 40 chains/hour in Brush... Diminishing overnight

Spotting Distances- Up to .25 miles from Grass/Brush, Up to 1 mile in Timber (From Torching)

Probability of Ignition- Over 90% at the peak of the burn period, Diminishing to <40% overnight

#### **AIR OPERATIONS:**

**Sunrise: 06:13** 

Sunset: 20:18

Expect poor smoke dispersion before the inversion breaks by late in the morning. Mixing heights start out at less than 400 feet; rise to 5,000 feet with daytime heating; then return to less than 400 feet after sunset. Anticipate terrain induced turbulence in the Trinity River corridor, especially during peak hours of afternoon heating.

#### SAFETY

Don't Live in the Now....

Base ALL Actions on Current AND Expected Fire Behavior!

To Engage Safely You MUST Plan for the Future!

# **Fuels and Fire Behavior Advisory**

#### Northern California

August 2, 2021 to August 16, 2021

Subject: Potential for extreme fire behavior due to critically low live and dead fuel moistures, very dry conditions resulting from persistent drought, minimal snowpack and spring precipitation, and elevated fire danger rating values across much of northern California.

**Discussion:** Fires burning in northern California are exhibiting extreme fire growth based on critical fuel conditions. Fire spread is fuel driven and does not depend on wind to spread. Surface fuels are very receptive to embers. Long range spotting, area ignition, and group torching is occurring on large fires frequently.

Difference from normal conditions: Northern California is in a drought; currently with 90% at Extreme to Exceptional levels. The drought is expected to persist or intensify thorough out the fire season. Deficient rainfall and snowpack with early melt off has resulted in fuels that are below average in dryness, with record setting conditions for most areas.

#### Concerns to Firefighters and the Public:

- Energy Release Component (ERC) at numerous weather stations set record maximums already this year and are running at or above the 97<sup>th</sup> percentile in most cases. Expect increased fire intensity and spread rates in these areas. Early season extreme fire behavior has been observed in both light and heavy fuels. Anticipate increased spread rates, spotting, and active nighttime burning.
- The combination of persistent drought and record-low rainfall and snowpack amounts has led to very low live and dead fuel moistures. Low 1000-hour fuel moistures have been evidenced by complete consumption of dead fuels on recent fires. Live fuel moistures in grasses, shrubs and trees, have already reached critical levels in many areas of Northern California due to limited green-up this spring. Expect fires to ignite easier and spread faster. Do not expect fires to exhibit reduced fire behavior when entering areas of live fuels; anticipate increased spread rates and spotting.
- Direct attack is often not feasible under regular diurnal wind conditions with ground resources. And aviation utilization is often insufficient in moderating rate of spread without immediate heavy ground resource response. Anticipate higher resistance to control in all fuel types.
- Already this year, Northern California has experienced large fire activity and multiple team
  deployments. California will likely experience an extended fire season. It is important to be mindful of
  and manage fatigue for all resources. Everyone, every day, returns home safely.

#### Mitigation Measures:

- Local and inbound fire personnel need to be aware that fire behavior across the state is exceeding
  normal expectations for this time of the year. Local briefings need to be thorough and highlight
  specific fire environment conditions. These include but are not limited to local weather
  forecasts, Pocket Cards, ERC's, live and dead fuel moistures.
- Suppression actions need to be based on good anchor points, escape routes, and safety zones.
   Remember LCES. Experienced lookouts are essential under these conditions.
- Base all actions on current and expected behavior of the fire. Augment initial attack resources as incident activity dictates.

**Area of Concern:** Northern California except for the following Predictive Service Areas: North Coast and Bay Marine, west of Highway 101 in Mid-Coast to Mendocino and Diablo-Santa Cruz, and the north eastern portion of Far Eastside.

# Monument Incident-Safety Message

#### INCIDENT #CA-SHF-001187

DATE:8/8-8/9/2021 TIME:0700-0700 Day/Night

#### **General Safety Concerns:**

- Driving: Thick smoke and narrow/dusty roads, others driving faster than we do. HEADS UP!!!
- Risk versus benefit: Don't get caught up in the moment! Always weigh the risks of tactical
  operations against the potential benefit. Especially on steep slopes at night!
- Drought conditions: Use all of the assessment tools; Heads up for fire behavior; Ensure LCES
  is in place; Take extra time to ensure it is safe to engage! Use extra caution all the time.
- All trees can be dangerous. They don't have to be leaning, dead, burned, or gnarly. Perform
  adequate assessments, minimize exposure and risk around all trees.
- Line Construction: Use all of the safety protocols concerning line construction. Watch the spacing, footing, and other firefighters below.

#### "SEE SOMETHING......SAY SOMETHING!"

If you see a hazard or a dangerous situation developing, tell your supervisor and those around you.

#### Leaders set the Example

All leaders of firefighters have the responsibility to provide a model their subordinates will emulate and follow. You should:

- Share the hazards and hardships with subordinates
- A positive attitude is infectious
- Don't show discouragement when facing setbacks
- Choose the difficult right over the easy wrong
- Provide Leader's Intent:
  - o Task
  - Purpose
  - End State

# Night Shift: Patrol with a Purpose!

- Obtain a clear briefing to understand the purpose and intent of the patrol.
- Coordinate all patrol activities with adjoining patrol resources.
- Maintain strict accountability of all resources.
- Always keep the purpose of the patrol in mind before engaging.
- Always assess risk versus gain when considering taking action during patrol activities.

6 Work Assignments	•							

#### 6. Work Assignments:

- Provide structure defense for the communities of Big Bar, Big Flat, Streamwood, Rose Ranch, Barney Gulch, Canyon Creek, Coopers Bar and Helena.
- Continue constructing indirect dozer line along ridges around Helena, Canyon Creek and North Fork of Trinity River.
- Scout locations to construct direct line with a high probability of stopping fire spread to the east.

#### 7. Special Instructions:

- Store equipment at Drop Points to secure from theft.
- GPS all pump locations and turn in to Division.
- Backhaul all trash to appropriate disposal site.
- Document any area that may have hazmat or unknown chemicals.

ICS (215A) DAY/NIGHT SHIFT

	INCIDENT KISK ANALTSIS	ics (215A) DAT/NIGHT SHIFT			
BR/DV	HAZARDOUS ACTIONS – CONDITIONS	MITIGATIONS – WARNINGS – REMEDIES			
ALL	STEEP TERRAIN & ROLLING DEBRIS	<ul> <li>Maintain 8'-10' spacing when working &amp; walking.</li> <li>Do not work above any personnel.</li> <li>Evaluate necessity to send personnel in areas with limited access.</li> </ul>			
ALL	TRAFFIC HAZARDS AND DRIVING	<ul> <li>Many roads are narrow and mid-slope, with soft shoulders. Allow heavy vehicles to pass on uphill side. Use spotters when backing or turning around.</li> <li>Practice "Defensive Driving" techniques. Assume other drivers are fatigued and complacent.</li> <li>5mph speed limit in and around ICP, keep your speed down in all areas.</li> <li>Use warning lights when working on roads or traveling insmoke.</li> <li>Drive at or below posted speed limits.</li> <li>Use chock blocks, turn wheels into hill.</li> <li>Be alert for wildlife. Dusk to Dawn pose the greatest potential for accidents.</li> </ul>			
ALL	FIRE BEHAVIOR	<ul> <li>Are you seeing what we have predicted?</li> <li>Conduct thorough assessments before starting work.</li> <li>Ensure LCES is in place</li> <li>Plan &amp; communicate your exit strategy with your crew and adjacent resources.</li> <li>Provide additional briefing for new resources and maintain communications.</li> </ul>			
ALL	HAZARD / DANGER TREES	<ul> <li>Follow Hazard Tree Safety Guidelines (IRPG p.22.)</li> <li>Limit number of personnel around snags and their exposure time</li> <li>Fallers mustbe qualified for the trees being felled.</li> <li>Be alert around hazard trees during wind events, even green trees.</li> <li>The hazard zone extends a minimum of 2½ tree lengths.</li> <li>Avoid parking vehicles or taking breaks under or near hazard trees.</li> </ul>			
ALL	WILDLAND URBAN INTERFACE OPERATIONS	<ul> <li>Avoid parking venicles or taking breaks under or near hazard frees.</li> <li>Maintain continuous Situational Awareness based upon the fire environment, observed fire behavior, hazards and incident objectives.</li> <li>Refer to IRPG Page 12 for WUI preparation and preplanning.</li> <li>Be active and engage in defense preparations &amp; do not wait for the fire to arrive.</li> <li>Be decisive in tactical engagement. Know when to engage or not.</li> <li>Establish management decision points, Safety Zones, TRA's, and Escape Routes.</li> </ul>			
ALL	ACCOUNTABILITY	<ul> <li>Know where your troops are at all times.</li> <li>Know the plan, brief the plan, and implement the plan.</li> <li>Ensure you have communications with adjoining forces, and be sure they know the plan.</li> <li>Check in and out when traveling through Branches and Divisions.</li> <li>If you see someone that looks out of place, stop, and ask what they're doing</li> <li>As fire conditions escalate and your chasing spots, don't over commit.</li> <li>Back off, regroup, and re-engage.</li> </ul>			
ALL	COMMUNICATIONS	<ul> <li>Share your Situational Awareness (hazards, changes, etc.) to those who also have a need.</li> <li>Answer questions when asked by others. Ask for intel when you do not know the plan.</li> <li>Ensure all personnel are familiar with the incident and IA communications plans.</li> </ul>			
ALL	HEAT RELATED ILLNESS	<ul> <li>Drink 2 to 1 water to sports drinks.</li> <li>Take frequent breaks, minimum of 10 minutes every hour.</li> <li>Recognize symptoms of HEAT RELATED ILLNESS which include low energy, cramping, headaches, dizziness, poor rest, poor eating habits, hot skin, and lack of sweating.</li> </ul>			
ALL	INDIRECT LINE CONSTRUCTION	Establish and maintain LCES.     Locate line in favorable location, lighter fuels, and gentler topography when possible.     Utilize natural or existing barriers.			
ALL	AIR OPERATIONS	<ul> <li>Follow "Aviation Watch-Out Situations" on page 46, IRPG.</li> <li>Do not plan on air resources for tactical support or medical transportation.</li> <li>Refer to page 58, IRPG for directing bucket drops.</li> <li>Ensure positive communication with all air resources.</li> </ul>			
	INCIDENT NAME:	OPERATIONAL PERIOD: 0700 – 0700

Date/Time Prepared: 08/07/2021 - 1400 hrs

# Wildland Fire COVID-19 Screening Tool

#### Interim Standard Operating Procedures - 4/15/2020

NOTE: This Screening Tool represents interim guidance. Additional clarification will be coming as soon as it is defined.

#### DO YOU HAVE ANY OF THESE SYMPTOMS?

Today or in the past 24 hours, have you had any of the following symptoms listed below, in addition to your normal work-related issues?

- Fever, felt feverish, or had chills? Repeated shaking with chills?
- Cough? Shortness of breath or difficulty breathing?
- Muscle pain? Headache? Sore throat?
- New loss of taste and/or smell?

If in doubt about any of these symptoms, consult a Physician.

In the past 14 days, have you had contact with a person known to be infected with the coronavirus (COVID-19)?

#### \*Take temperature with touchless thermometer if available\*

#### INSTRUCTIONS FOR SCREENING

- If resource is positive for any symptoms prior to mobilization DO NOT MOBILIZE.
- At Entries Consider the adequate number of personnel needed for screening. Although medical personnel are ideal, screeners do not have to be medically trained.
- o If resource is positive for any symptoms including fever (over 100.4) at entry **DO NOT ANNOUNCE** ask to step aside.
  - o Escort sick individual to isolation area.
  - o Isolation support personnel should begin documentation. Have sick individual contact Supervisor for further direction.
  - o Notify public health officials.
  - o Have individual transported as appropriate.
  - o Protect and secure any collected Personal Identifiable Information or Personal Health Information.

# MONUMENT FIRE FINANCE PROCESS CA-SHF-001187

Send <u>all</u> documents to <u>2021.monument.finance@firenet.gov</u> for all resources.

Email Subject Line: TIME/Resource Order No/Resource Name/Position Code

(Example: TIME/O-200/John Q Public/OSC2)

Make sure to include the word "TIME" in the subject line.

Email all documents that pertain to your assignment (e.g. CTR's, Shift Tickets,

Vehicle Inspections, Contracts).

If you have any question please call:

Finance: (213) 431-4035 or (360) 605-6225

## **COMP/CLAIMS:**

For those of you who have had lost or damaged items, do not wait to contact the COMP/CLAIMS unit leader to begin the process!! Contact Elaine Downing as soon as possible but <u>at least</u> 48 hours prior to your demob. It takes several days to get an S#, if approved. This process involves no less than 6 individuals in different locations. Comp/Claims: (360) 605-6225 You can utilize the email address above for questions or to submit claim paperwork. Or email to: Elaine\_Downing@firenet.gov

Please Call Finance (See Below): (213) 431-4035 or (360) 605-6225

--Zig Ziglar

I have Heartstrings to Home post cards available for anyone to come pick up. This is a program that was initiated by the Wildland Firefighter Foundation. Pick it up, fill it out, bring it back. I will apply the postage and get it mailed out for you. Want to know more about it, just come talk to me.

Andrea Cabida- HRSP- 707-330-9939; <u>andrea.cabida@usda.gov</u>; You can call, text or email. Or just come see me at camp. I am in the end trailer at the top of the hill.

# **HEARTSTRINGS TO HOME CAMPAIGN** brought to you by:

Wildland Firefighter Foundation

The 2020 fire season was brutal - by late summer it seemed that the entire western United States was on fire. I work as a Human Resource Specialist on the Southwest Type 1 Team 2 and when we arrived in Oregon for the Beachie Creek Fire, it was clear that crews were battered. I see my role in camp as multi-faceted; I help to ensure that crews are treated with respect and are free from harassment and discrimination on their worksite. However, I feel my more important role is that of guardian of their emotional health. Long hard seasons are difficult on crews, but sometimes even more difficult on families waiting at home for them to return. As I talk with crews, a common theme of feeling disconnected from their families kept coming to the surface. We talked about how important it is to stay connected, and most talked of texting and video chats with their families. But cell service is spotty, especially in the remote areas. Texts are written and gone on the depths of their phones. When I asked how many wrote letters home, I was surprised that none did, primarily due to the inconvenience of not having something to write on and of getting a letter mailed out.

So, in order to help crews stay connected, and to give families something tangible to hold in their hands from their loved ones, the idea of creating a program where crews could be provided the tools to write home was born. With the full support of the Wildland Firefighter Foundation, we are now able to provide postcards to crews in the field. All they have to do is write that card to their family, and the Human Resource Specialist at each assignment will collect them daily, post them and take them to mail. My hope is that we can ease the burden of crews being gone through fire season, and to give families a written record of their loved one's time in service to others. What a wonderful keepsake for our loved ones to have.

- Patty Brookins - HR - SWIMT2 Central Arizona Fire and Medical Authority

We are proud to be a part of of the "Heartstrings to Home" campaign and to support the wildland community in their emotional health and family life! If you have designs for other postcards, please let us know. You can email us at postcards@wffoundation.org. We want to have postcards on every fire and an assortment of designs so you are encouraged to write home as often as you would like!

"Compassion Spreads Like Wildfire"

			8. MEDICA	AL EMER	RGENCY P	ROCEDI	JRES						

#### "RED IWI" MEDICAL-EMERGENCY PLAN:

- Contact Communications on Command and declare you have a RED IWI
- Following the 8-Line on the back of the IAP or page 118 of the 2018 IRPG
- Tell them Who you are, Where you are at, What you have, and What you need.
- Update Communications once the patient has been transported.
- Close the loop with MEDL at the end of shift.

# "Yellow or Green" NON-EMERGENCY MEDICAL PLAN:

- Contact Division / Communications and declare you have a "Non-Emergency Medical."
- Complete the 8-line if needed and turn it in to the medical unit at the end of the shift.

9. PREPARED BY MEDL - Jeff Carlon 10. REVIEWED BY SOF1- Dave Welch

March

#### Medical Incident Report

FOR A NON-EMERGENCY INCIDENT: WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM COMMUNICATIONS

Use the following items to communicate situation to communications/dispatch.

9	CONTACT COMMUNICATIONS	DISPATCH	(Verify corr	rect frequency	prior to starting repo	ort)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree.

"This will be the Trout Meadow Medical Incident, IC is TFLD Jones. EMT Smith is providing medical care."										
Severity of Emergency    RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE   Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.										
,	AND	□YELL	☐YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary.							
Transn	ort Priority	Ex: S	Significant trauma, una	ble to walk, 2° – 3° burns not mor	re than 1-3 palm sizes.					
	ity 1, 2, 3)			inor Injury or illness. Non-E	mergency transport					
Nature of I	njury or Illness	Ex: S	Sprains, strains, minor	heat-related illness.	2:10
