OUTPUTS

FIRE BEHAVIOR

GENERAL:

- **Expect today's late NW wind to once again challenge lines towards the east of the fire!**
- **With ERC's remaining above the 97th percentile..., Resistance to Control will be Very High!**
- **With a "PIG" of 100%.. All lightning is an ignition source....Any New Start will Grow Quickly!**
- **Respect any tree torching... Tight Crown Spacing Will Support Crown Fire Runs!**
- **Battling, Erratic winds expected....Complex, Dissecting Terrain will Enhance this Effect!**
- **Heavy fuels burning above, below or around you in steep terrain?...Make a Plan for Rollout!!**
- **Larger fuels are relatively unaffected by short duration rain... Stay Vigilant!!**
- **Fire movement is 24/7...Identify, and Plan For, "The Next Big Change" in the Fire's Path!**

SPECIFIC:

All Divisions: *Monitor Your Command Frequency for Thunderstorm Updates*****

Flame Lengths- 4 to 8 ft. in Grass, Up to 20 ft. in Brush...Diminishing after midnight

Rate of Spread- 20 chains/hour in Grass, Up to 40 chains/hour in Brush... Diminishing overnight

Spotting Distances- Up to .25 miles from Grass/Brush, Up to 1 mile in Timber (From Torching)

Probability of Ignition- Up to 100% at the peak of the burn period, Diminishing to <40% overnight

AIR OPERATIONS:

Sunrise: 06:18

Sunset: 20:12

Expect poor smoke dispersion before the inversion breaks by late in the morning. Mixing heights start out at less than 400 feet; rise to 8,000 feet with daytime heating; then return to less than 400 feet after sunset. Anticipate terrain induced turbulence in the Trinity River corridor, especially during peak hours of afternoon heating, and in the vicinity of any building, mature, or dissipating thunderstorm .

SAFETY

To Engage Safely.... Look Ahead...Seconds...Minutes...Hours!

Look Up....Look Down....Look Around

The Current Fire Environment is Unforgiving of Any Underestimation of Fire Potential!

Monument Incident – Safety Message

INCIDENT #CA-SHF-001187

DATE:08/13-08/14/21 TIME: 0700-0700 Day/Night Shift

Accountability

- Know where your crewmembers are at all times.
- Have crewmembers work in pairs.
- Do you have the buddy system set in place on the fireline?
- Inform Division or your Supervisor of changing locations.
- Do you know how to use your radio and is it cloned?
- Check **IN** with the Division Supervisor on site if not assigned there
- Check **OUT** with your supervisor (Or Division) at the end of shift.

Watch Out Situation #4

Unfamiliar with weather and local factors influencing fire behavior

- Recognize and communicate any change in fire behavior
- Monitor weather conditions throughout the shift and broadcast them to all resources on the division

Look Up, Look Down, Look Around

- **Look Up:** Check the sky for any weather changes such as building or approaching thunderstorms, wind shifts or increases in speed. Watch for air operations and water drops. Look for snags.
- **Look Down:** Watch your footing. Keep an eye out for snakes, poison oak, bee's nests and observe fine fuels on the ground.
- **Look Around** Check fuel loading in the area, general terrain, current fire behavior and ladder fuels. Keep an eye on fellow firefighters for signs of heat stress and smoke inhalation.

Human Resource Message

Mutual Respect

- Mutual Respect is your responsibility to treat people with dignity and respect, it is also your right to receive the same treatment.

Some things to remember while on this incident:

- Be kind and considerate to everyone on camp. Interact with all your colleagues with courtesy, politeness, and kindness. Even co-workers who don't particularly like each other can be civil and respectful, even a simple "Good morning" goes a long way.
- Let's remember that not everyone on this incident has the same sleep schedule. At night when you are in the tent sleeping area outside of camp, keep the noise to a minimum.
- Lastly, let's ensure that we are treating our base camp support teams, i.e., CCC's, food service, etc., with the courteous and respect that they deserve. They, as well as everyone else are working tirelessly to ensure that you have the adequate support that you need so we all can accomplish our mission objectives.

If you have any issues feel free to call/text or come by anytime between 0530 and 2200.

Media Access Law

Media – the California State Penal Code 409.5(D) allows for media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specific within the penal code. However, this does not include crime scenes, private property and the new media may not interfere with incident operations. Please always treat the media with courtesy and respect and advise the public information office if there are any issues.

Photographs and videos of the incident – Please refrain from posting incident related videos to your social media. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera may lose their situational awareness. When this happens, it could reflect poorly on all that are assigned to the incident.

Please email photo submissions to: 2021.monument@firenet.gov
