# INCIDENT ACTION PLAN MONUMENT FIRE SOUTH ZONE INCIDENT

CA-SHF-001187

## **OPERATIONAL PERIOD**

Sunday

North Zone

8/29/2021 0700

to

8/30/2021 0700

South Zone

**INCIDENT OBJECTIVES (ICS 202)** 

1. Incident Name:	2. Operational Period:	Date From:	8/29/2021	Date To:	8/30/2021
Monument Fire South Zone		Time From:	0700	Time To:	0700
3. Objective(s):					
Management Objectives					
- Ensure that the strategies and tactics provide for	firefighter and public safety	through the applic	ation of sound	risk manag	ement
- Minimize the threat to private property, communit	ties , businesses, and critica	al infrastructure			
- Establish and strengthen cooperator, partner, and	d stakeholder relationships.				
- Follow identified standard procedures to minimize	e the spread of Covid-19.				
- Communicate effectively and often with the publi	c and surrounding commun	ities.			
Minimize the cost of the incident by employing ta exposure.	ctics that have the highest p	probability of succes	ss while minim	izing fireifig	hter
Control Objectives					
- Keep the fire North of Highway 3 and Highway 36	3				
- Keep the fire South of Siskiyou and Trinity Count	y line, while preserving wild	erness characterist	ics.		V
- Keep the fire East of South Fork of the Trinity Riv	er and the New River.				
- Keep the fire West of Highway 3.					
General Situational Awareness:					
- See attached Safety Message					
					1

## Monument South Zone Fire Weather Forecast

FORECAST NO: 11

PREDICTION FOR: Sun 0700 to Mon 0700

SHIFT DATE: August 29, 2021

FORECAST ISSUED: 2000 PDT August 28, 2021

NAME OF FIRE: Monument Fire

UNIT: SHF

SIGNED: Royce Fontenot

Incident Meteorologist

WEATHER DISCUSSION: Temperatures will start a gradual cooling trend today with highs in the lower 90s and humidity values falling into the low teens. Temperatures and low humidity values will be moderated somewhat in areas of dense smoke. Winds will start the day generally from the east and will shift to a westerly flow with gusty winds expected late in the afternoon through 0300. Terrain driven winds may be locally enhanced in areas with partial clearing and during the afternoon westerly wind shift. Humidity values will begin a slow recovery shortly after sunset in lower elevations and after midnight along ridgetops.

#### SUNDAY:

WEATHER:

MAX TEMPERATURES:

MIN HUMIDITY: 20 FT WINDS:

Ridges:

ESE-ENE 2-4 mph becoming WNW 5-7 mph with gusts 10 mph by 1100. Winds increasing 12-15 mph gusts 20-25 mph by 1500. Strongest winds after 1700.

Drainages:

LAL: CWR: HAINES INDEX:

MIXING HEIGHT:

TRANSPORT WIND:

Light winds in the morning. Branch 20: Becoming W/Up canyon 5-8 mph gusts 12 mph by 1500. Strongest winds in the Trinity River valley. Branch 30: Becoming W/Up canyon 4-6 mph gusts 10 mph by 1300. Winds

Smoke with areas of partial clearing in the afternoon.

11-26%, highest values where heavy smoke lingers.

86-94°F full sunshine, 80-84°F elsewhere under smoke.

increasing 7-10 mph gusts 13 mph by 1600. Strongest winds in gaps.

1,000 ft AGL increasing to 9,500 ft AGL in the afternoon.

WSW 5-10 mph.

0%

## **SUNDAY NIGHT:**

WEATHER:

LAL:

MIN TEMPERATURES:

MAX HUMIDITY: 20 FT WINDS:

Ridges: Drainages: Smoke, dense at times with low visibility. 52-61°F warmest in thermal belts above 1000 feet.

Valley 60-70%. Ridges 30-40%

W-NW 10-13 mph with gusts 20 mph becoming 7-9 mph gusts 15 mph by 0300. W/Up Canyon winds 7-10 mph with gusts 12 mph through 2100. Becoming 3-5

mph by 0300

1

0%

CWR: HAINES INDEX:

MIXING HEIGHT: TRANSPORT WIND: 9,000 ft AGL decreasing to 1,000 ft AGL overnight.

WSW 10-15 mph.

Monday/Tuesday Outlook: Winds will begin to shift more southwesterly aloft, allowing for a slow clearing trend. Temperatures are expected to continue to cool Monday into Tuesday, Humidity values will fall into the mid-teens with moderate recoveries through Tuesday.

## **FIRE BEHAVIOR FORECAST**

FORECAST NUMBER: 12 TYPE OF FIRE: Wildland Fire
FIRE NAME: Monument OPERATIONAL PERIOD: 24hr 08-29-2021

DATE ISSUED: 08-28-2021 TIME ISSUED: 2100

UNIT: SHU SIGNED: Troy Velin - FBAN

#### **INPUTS**

**WEATHER SUMMARY** 

Continued Hot and Dry See Incident Weather Forecast in IAP

#### FIRE BEHAVIOR:

GENERAL:

\*Fuels and Fire Behavior Advisory issued 07-17-2021\*

Topography is steep and rugged ranging from 2000' in the valleys and 6000' on higher peaks. Slope in many instances is 100%. This terrain promotes fire growth through roll out and slope reversal. Many of the drainages align with predominant wind patterns for the region. The Trinity River corridor is a major drainage that funnels wind primarily East and West. There are major bends in the river that will create eddy's and swirling winds.

Fuels in the fire area range from timber and timber understory in higher elevations, heavy brush in mid elevations and grass oak woodland in valley bottoms. Extreme Drought this year has stressed fuels to critical fuel moistures. 1000 hr fuels recorded July 15 were 7%, LFM in brush was 93%. The dryness of the fuels in the area are a major contributor to the Monument Fire's growth.

Fires in this area commonly have large growth periods of 1 to 2 days usually aided by windy conditions. Following the large growth periods there are usually several days of slowed growth due to heavy smoke inversions. This has been the scenario for the Monument Fire. August is generally hot and dry with long burn periods that extend well into the night.

#### SPECIFIC:

#### Branch 20

Smoldering fire interior of the line. Monitor for roll out.

#### Branch 30

**DIV NN** – Minimal fire behavior under smoke inversion. Monitor Little Barker Creek for fire in the bottom to move up through the drainage with normal upslope winds. Fuels are light within the drainage, but movement is still possible.

**DIV RR** – Fire in the Littler Creek Drainage is low intensity understory burning. Rollout and slope reversal will be the primary mechanism of growth. Backing fire flame lengths in this fuel is between 2'-4'. Winds will remain calm but consistently out of the Northwest during the day. PIG will range from 60-80% depending on smoke shading.

#### South Zone Contingency

Be cautious operating equipment in critically dry fuels.

#### AIR OPERATION:

Smoke is expected to be over the fire area all day today.

#### SAFETY

Fire is king of the mountain. When not driven by strong winds it will return to doing what it does best – making it to the top of ridges and other higher terrain. Post lookouts and monitor for changing weather conditions.

## **Fuels and Fire Behavior Advisory**

Northern California

July 17, 2021

**Subject:** Potential for extreme fire behavior due to critically low live and dead fuel moistures, very dry conditions resulting from persistent drought, minimal snowpack and spring precipitation, and elevated fire danger rating values across much of northern California.

**Discussion:** Fires burning in northern California are exhibiting extreme fire growth based on critical fuel conditions. Fire spread is fuel driven and does not depend on wind to spread. Surface fuels are very receptive to embers. Long range spotting, area ignition, and group torching is occurring on large fires frequently.

**Difference from normal conditions:** Northern California is in a drought; currently with 90% at Extreme to Exceptional levels. The drought is expected to persist or intensify throughout the fire season. Deficient rainfall and snowpack with early melt off has resulted in fuels that are 4-6 weeks ahead of normal drying/curing rates.

### Concerns to Firefighters and the Public:

- Energy Release Component (ERC) at numerous weather stations set record maximums already this
  year and are running at or above the 97<sup>th</sup> percentile in most cases. Expect increased fire intensity and
  spread rates in these areas. Early season extreme fire behavior has been observed in both light and
  heavy fuels. Anticipate increased spread rates, spotting, and active nighttime burning.
- The combination of persistent drought and record-low rainfall and snowpack amounts has led to very low live and dead fuel moistures. Low 1000-hour fuel moistures have been evidenced by complete consumption of dead fuels on recent fires. Live fuel moistures in grasses, shrubs and trees, have already reached critical levels in many areas of Northern California due to limited green-up this spring. Expect fires to ignite easier and spread faster. Do not expect fires to exhibit reduced fire behavior when entering areas of live fuels; anticipate increased spread rates and spotting.
- Direct attack is often not feasible under regular diurnal wind conditions with ground resources. And aviation utilization is often insufficient in moderating rate of spread without immediate heavy ground resource response. Anticipate higher resistance to control in all fuel types.
- Already this year, Northern California has experienced large fire activity and multiple team deployments. California will likely experience an extended fire season. It is important to be mindful of and manage fatigue for all resources. Everyone, every day, returns home safely.

## **Mitigation Measures:**

- Local and inbound fire personnel need to be aware that fire behavior across the state is exceeding
  normal expectations for this time of the year. Local briefings need to be thorough and highlight
  specific fire environment conditions. These include but are not limited to local weather
  forecasts, Pocket Cards, ERC's, live and dead fuel moistures.
- Suppression actions need to be based on good anchor points, escape routes, and safety zones.
   Remember LCES. Experienced lookouts are essential under these conditions.
- Base all actions on current and expected behavior of the fire. Augment initial attack resources as incident activity dictates.

**Area of Concern:** Northern California except for the following Predictive Service Areas: North Coast and Bay Marine, west of Highway 101 in Mid-Coast to Mendocino and Diablo-Santa Cruz, and the north eastern portion of Far Eastside.

## Monument Fire South Zone HEALTH AND SAFETY MESSAGE

# 24 HOUR SAFETY EMPHASIS WEATHER – DRIVING - COMMUNICATIONS

## Weather/Environmental Conditions

#### **Watch Out**

- · Wind Increases and changing of direction causing erratic fire behavior
- Cap Lifting, bringing hotter weather to ground levels of all divisions
- With some reduced fire activity on divisions, wildlife is repopulating the area.

#### Mitigation

- · Post lookouts in areas of concern drainages, creek beds, open fire line
- Proper hydration throughout the day will help eliminate heat related injuries
- Be aware of wild animals within your area, communicate to your crews and divisions any hazardous wildlife – Bears, Mountain Lions etc.

## **Driving and Transportation**

### Watch Out

- Road networks within the divisions may be single lane making passing difficult
- Distracted and Impaired driving could result in a vehicle accident
- Unsafe vehicle operation can lead to accidents

#### Mitigation

- Stay with established traffic plans, use traffic controllers if possible, mark hazards
- Pull over if fatigued, utilize relief drivers, drive responsibly and defensibly
- Slow down, maintain a safe distance, turn on lights, allow for extra travel time

## Communications

## **Watch Out**

- Crews being uninformed on strategies, tactics and hazards
- Surge forces not being on proper tactical channel leads to confusion and missed directions
- Radio communications on some branches may not be ideal, causing for dropped transmissions

#### **Mitigation**

- Ensure all incoming crews (day and night) receive a tailgate briefing
- Be familiar with the incident radio plan, make appropriate changes to your radios with movement
- Utilize human repeaters and relays if necessary.

Each Safety Message is designed for a daily Tailgate Safety discussion

**REMAIN FIRE FOCUSED AND COVID-19 AWARE** 

Dave Esteves

**IMT 5 SAFETY OFFICER** 

## Monument South Zone RISK ANALYSIS (ICS 215a)

DIV	HAZARDOUS ACTIONS/CONDITIONS	MITIGATIONS / WARNINGS	/ REMEDIES					
ALL	FATIGUE/DEHYDRATION	Be alert for signs of fatigue and take breaks as necess Monitor incoming resources for level of fatigue.  Drink water before, during and after shifts, up to 1.5 Be alert for signs of heat stress in yourself and others Eat small meals often and when possible. #### 6. Control Operations/Work Assignments:

TASK: Keep fire west of the North Fork of the Trinity River. Continue prep on Hobo Gulch Road, Backbone Ridge Trail, and contingency line between East Fork Road and Canyon Creek Rd. Maintain a presence on Hwy 299 and Dutch Creek Road and support CAL FIRE Division DD with any needs.

PURPOSE: Minimize fire spread east of East Fork Rd. and Hobo Gulch Rd.

END STATE: Reduce threat of fire to structures and critical infrastructures.

#### 7. Special Instructions:

- Resources with (DS) after name work 24 hours, double shifts
- · Store equipment at Drop Points. Secure all equipment to prevent theft.

#### MEDICAL RESPONSE:

REMS 1 staged at Bar 717 Ambulance 4 (Day) at Willow Creek Ambulance 3 at Big Bar

On this incident CALCORD is to be used as a local medical tactical channel if needed to communicate with non-incident resources. The command channel is the primary channel for all medical emergencies. CALCORD also may be used for A/G communications with non-incident aircraft. Resources assisting in South Zone division should continue to use regularly assigned tactical channels.

6. Control Operations/Work Assig	gnments:	<u></u>		

TASK: Hold existing containment lines from the A/Z break to Pattison Ridge. Hold fire South of Pattison Ridge; utilize checklines when needed to slow fire advancement to the west. Coordinate with the North Contingency Group.

PURPOSE: Minimize fire spread to the South and West while reducing impact to the infrastructure and other values at risk.

END STATE: Hyampom and Hayfork communities are protected.

#### 7. Special Instructions:

- Resources with (DS) after name work 24 hours, double shifts
- · Contact Kent Collard Bar 717 for information concerning previous dozer lines north of his property.
- · Store equipment at Drop Points. Secure all equipment to prevent theft.
- · GPS all pump locations and turn into Division.
- · Backhaul all trash to appropriate disposal site.
- Document any area that may have hazmat of unknown chemicals.

#### **MEDICAL RESPONSE:**

Ambulance 3 (Day) at Big Bar Ambulance 4 (Day) at Willow Creek

On this incident CALCORD is to be used as a local medical tactical channel if needed to communicate with non-incident resources. The command channel is the primary channel for all medical emergencies. CALCORD also may be used for A/G communications with non-incident aircraft. Resources assisting in South Zone division should continue to use regularly assigned tactical channels.

# \$ FINANCE MESSAGE \$

# \*Please No Off Site Feeding Unless Approved by a Finance Section Chief. Certain circumstances will need to apply for our approval.\*

#### **CAL FIRE PERSONNEL**

Make sure to create a paper FC-33 so we can update. If anyone has any CalCard travel receipts and meal/lodging sign in sheets, please get a copy to Finance.

### **LOCAL GOVERNMENT RESOURCES**

Make sure you check in with TIME Unit for ABH or F-42 Paperwork.

# **ALL HIRED EQUIPMENT**

Make sure you get your shift ticket filled out by your **Division Group Supervisor or Supervisor.** 

# ALL SUPERVISORS OF HIRED EQUIPMENT

Shift Tickets for hired equipment need to be signed and turned in to TIME daily. Ensure the shift ticket is filled out completely (including evaluation), accurately and legibly. **Example included in IAP.** 

## PROPERTY DAMAGE or INJURIES

Please report any property damage caused by suppression activities and/or injuries to the Comp/Claims Unit.

### MONUMENT NORTH FIRE Finance Process CA-SHF-001187

For resources hired out of state and have VIPR agreement scan QR code

IMPORTANT INFORMATION: If you are a Monument North Resource, i.e., you have a RO # four digits or less (E-489), and you are 'loaned' to the South Zone, please note SOUTH ZONE or Monument South Zone on your Shift Ticket / CTR.

Please send all documents to <u>2021.monument.finance@firenet.gov</u> for all resources.

Email Subject Line: TIME/Resource Order No./ Resource Name/Position Code - Put

TIME, CTR, SHIFT TICKET in the subject line with your information

(Example: TIME/O-200/SBear/Safety)

Email all documents that pertain to your assignment:

Agency Overhead	Agency ADs / EFFs	VIPR Resources	Contract / Agency Crews	Cooperators
Resource Order Shift Tickets	Resource Order Casual Hire Form Shift Tickets	Resource Order VIPR Agreement Schedule of Items Inspections Shift Tickets	Resource Order Manifest Agreement / Contract Schedule of Items Inspections Crew Time Reports	Resource Order Agreement Shift Tickets / CTRs

Submit Equipment Shift Tickets or Crew Time Reports (CTRs) daily to 2021.monument.finance@firenet.gov

Please include your email address and phone number in the body of the email when sending your documents.

Any questions, please call: FINANCE – (213) 431-4035 – Weaverville

(425) 500-9464 – Weaverville (425) 500-9475 – Willow Creek

This document is intended to track, record and validate the amount of water used on a incident. It's not intended to review the performance of equipment using the water on an incident.

# **PUBLIC INFORMATION SECTION**

#### Incident Information Line: South Zone (949)433-2638 North Zone (530)628-0039

	Status			
Incident Start Date: 7/30/2021	Incident Start Time: 6:00 p.m.			
Total acres:	Containment:			
Cause: Lightning	Total Personnel:			

MEDIA – The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and does not imply that the news media may interfere with incident operations while they are in the areas of concern. More information can be found here.

PHOTOGRAPHS AND VIDEOS OF INCIDENT – We are in a new era of media. Media no longer means news/broadcast industry, but now refers to anyone that has the capability to shoot video, photographs and post them onto social media sites in a matter of minutes. Unfortunately, we have seen some instances of photographs or videos that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens, it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could expose oneself to unwanted ramifications. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera loses their situational awareness.

The Public Information Office would like copies of the video and pictures that you safely took while not in an emergency situation, fire suppression activity or in an overhead assignment. Bring your video and pictures to the Public Information trailer; they will be reviewed and possibly uploaded to our many CAL FIRE social media sites. Remember, we don't want photographs or videos that depict unsafe, unprofessional or embarrassing circumstances, which are a serious breach of ethics.

LOST AND FOUND - The Information Section will manage lost and found items for the incident.

MAIL SERVICE - The Information Section can assist you with sending and receiving mail.

Anderson Fairgrounds

ATTN: South Zone Monument Fire Information (Your Name) 1890 Briggs Street Anderson, CA 96007

# **TRAINING MESSAGE**

If you have just arrived at The Monument Fire as a Trainee, please don't forget to check in with the Training Specialist.

# Do you want credit for this assignment?

Please make sure to check out with Training before you demob

Training is located behind the Briefing Hall It only takes a few minutes to check in.

# MONUMENT FIRE ANDERSON FAIRGROUNDS FACILITIES MAP

# DEMOBILIZATION PLAN MONUMENT INCIDENT CA-SHF-001187

#### **DEMOB PROCEDURES**

- Check the demob list daily. You can find the demob list posted around camp or by utilizing the QR code on your IAP.
- Please report to demob only at your scheduled time.
- Only one person per resource is to report to demob.
- Every effort will be made to provide a remote demob.
- The Demob Unit will provide you with an ICS-221 check-out form.
- For the following units, demob personnel will make radio contact to ensure you are clear for demobilization:
  - o Supply Unit
  - Communications Unit
  - Accommodations Unit (If applicable)
- For the following units, you will report in person to complete your check-out:
  - o Time Unit
  - Documentation Unit
  - Training Specialist (If applicable)
  - Ground Support Unit
- Return your completed ICS 221 to the Demob Unit and you will be advised of your status (released home, reassigned, etc.)

Greg Barnhart
Demobilization Unit Leader
CAL FIRE Incident Management Team 5
