## Monument South Zone Fire Weather Forecast

FORECAST NO: 13

PREDICTION FOR: Tue 0700 to Wed 0700

SHIFT DATE: August 31, 2021

FORECAST ISSUED: 2000 PDT August 30, 2021

NAME OF FIRE: Monument Fire

UNIT: SHF

SIGNED:

Royce Fontenot

Incident Meteorologist

WEATHER DISCUSSION: A return to more seasonal temperatures is expected today with humidity values falling into the mid-teens. Temperatures and low humidity values will be moderated somewhat in areas of dense smoke. Winds are expected to increase from the west this afternoon with the usual afternoon up canyon push before diminishing and becoming easterly/down canyon overnight. Terrain driven winds may be locally enhanced in areas with partial clearing. Humidity values will begin a slow recovery shortly after sunset in lower elevations and after midnight along ridgetops.

## TUESDAY:

WEATHER:

**MAX TEMPERATURES:** 

MIN HUMIDITY: 20 FT WINDS:

Ridges:

Smoke with areas of partial clearing in the afternoon. 86-90°F full sunshine, 79-84°F elsewhere under smoke.

15-26%, highest values where heavy smoke lingers.

W-WNW 4-6 mph increasing to 9-13 mph with occasional gusts to 20 mph by

1500. Higher winds along interior high terrain in Branch 20.

Drainages:

Branch 20: W/Up canyon 2-4 mph increasing to 4-8 mph gusts 12 mph by 1500. Branch 30: W/Up canyon 2-4 mph gusts 6 mph by 1000. Winds increasing 5-9

mph gusts 13 mph by 1200 in Div RR and by 1500 in Div NN.

LAL: CWR:

HAINES INDEX:

MIXING HEIGHT:

TRANSPORT WIND:

0%

1

500 ft AGL increasing to 5,500 ft AGL in the afternoon.

W 10-15 mph.

## **TUESDAY NIGHT:**

WEATHER:

Smoke, dense at times with low visibility.

MIN TEMPERATURES:

48-58°F, warmest in thermal belts above 1000 feet.

MAX HUMIDITY:

Valley 60-70%. Ridges 35-45%

20 FT WINDS:

Ridges:

W-WNW 8-12 mph with gusts 20 mph becoming 4-8 mph gusts 13 mph by 2200.

Winds becoming easterly 2-4 mph by 0300

Drainages:

W/Up Canyon winds 4-8 mph with gusts 12 mph becoming 3-5 mph by 2200.

Winds becoming E/Down canyon 1-3 mph by 0100

LAL: CWR:

1 0%

**HAINES INDEX:** 

MIXING HEIGHT: TRANSPORT WIND: 5,500 ft AGL decreasing to 500 ft AGL overnight.

WSW 10-15 mph.

Wednesday/Thursday Outlook: Temperatures will cool to more seasonal values through Thursday. Afternoon humidity values will remain in the midteens with moderate recoveries. Winds are expected to return to a typical diurnal wind pattern.

## RAWS Observations

## FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 14

FIRE NAME: Monument

DATE ISSUED: 08-30-2021

UNIT: SHU

TYPE OF FIRE: Wildland Fire

OPERATIONAL PERIOD: 24hr 08-31-2021

TIME ISSUED: 2100

SIGNED: 74

Troy Velin - FBAN

**INPUTS** 

**WEATHER SUMMARY** 

Continued Hot and Dry
See Incident Weather Forecast in IAP

FIRE BEHAVIOR:

**GENERAL:** 

\*Fuels and Fire Behavior Advisory issued 07-17-2021\*

Topography is steep and rugged ranging from 2000' in the valleys and 6000' on higher peaks. Slope in many instances is 100%. This terrain promotes fire growth through roll out and slope reversal. Many of the drainages align with predominant wind patterns for the region. The Trinity River corridor is a major drainage that funnels wind primarily East and West. There are major bends in the river that will create eddy's and swirling winds.

Fuels in the fire area range from timber and timber understory in higher elevations, heavy brush in mid elevations and grass oak woodland in valley bottoms. Extreme Drought this year has stressed fuels to critical fuel moistures. 1000 hr fuels recorded July 15 were 7%, LFM in brush is now at 80%. The dryness of the fuels in the area are a major contributor to the Monument Fire's growth.

Fires in this area commonly have large growth periods of 1 to 2 days usually aided by windy conditions. Following the large growth periods there are usually several days of slowed growth due to heavy smoke inversions. This has been the scenario for the Monument Fire. September is generally hot and dry during the day and we begin to see more temperate overnight conditions.

## SPECIFIC:

## Branch 20

Smoldering fire interior of the line. Monitor for roll out.

## Branch 30

**DIV NN** – Minimal fire behavior under smoke inversion. Monitor Little Barker Creek for fire in the bottom to move up through the drainage with normal upslope winds. Fuels are light within the drainage, but movement is still possible.

**DIV RR** – In the Little Creek drainage fire along the Sims Gap Ridge in Sections 20, 21 and 29 will back into the drainage from the west. Monitor for rollout and eventual runs back up slope to the ridge. Short high intensity runs will be possible when this happens. As firing continues down the 50 rd ridge towards Hyampom rd expect the mouth of the drainage to pickup some of the Westerly influence and you will see parallel winds with that ridge. Winds aloft will continue to be an avenue for ember to land in the green on the lee side of that ridge system.

## **South Zone Contingency**

Be cautious operating equipment in critically dry fuels.

## AIR OPERATION:

Smoke is expected to be over most of the fire area today. Best chance for clearing is DIV RR

## SAFETY

The smoke inversion cleared considerably yesterday. As it did, fire behavior increased dramatically in a short space of time. Expect this to happen again today. Clearing beginning by lunch.

## **Fuels and Fire Behavior Advisory**

Northern California

July 17, 2021

**Subject:** Potential for extreme fire behavior due to critically low live and dead fuel moistures, very dry conditions resulting from persistent drought, minimal snowpack and spring precipitation, and elevated fire danger rating values across much of northern California.

**Discussion:** Fires burning in northern California are exhibiting extreme fire growth based on critical fuel conditions. Fire spread is fuel driven and does not depend on wind to spread. Surface fuels are very receptive to embers. Long range spotting, area ignition, and group torching is occurring on large fires frequently.

**Difference from normal conditions:** Northern California is in a drought; currently with 90% at Extreme to Exceptional levels. The drought is expected to persist or intensify throughout the fire season. Deficient rainfall and snowpack with early melt off has resulted in fuels that are 4-6 weeks ahead of normal drying/curing rates.

## Concerns to Firefighters and the Public:

- Energy Release Component (ERC) at numerous weather stations set record maximums already this
  year and are running at or above the 97<sup>th</sup> percentile in most cases. Expect increased fire intensity and
  spread rates in these areas. Early season extreme fire behavior has been observed in both light and
  heavy fuels. Anticipate increased spread rates, spotting, and active nighttime burning.
- The combination of persistent drought and record-low rainfall and snowpack amounts has led to very low live and dead fuel moistures. Low 1000-hour fuel moistures have been evidenced by complete consumption of dead fuels on recent fires. Live fuel moistures in grasses, shrubs and trees, have already reached critical levels in many areas of Northern California due to limited green-up this spring. Expect fires to ignite easier and spread faster. Do not expect fires to exhibit reduced fire behavior when entering areas of live fuels; anticipate increased spread rates and spotting.
- Direct attack is often not feasible under regular diurnal wind conditions with ground resources. And aviation utilization is often insufficient in moderating rate of spread without immediate heavy ground resource response. Anticipate higher resistance to control in all fuel types.
- Already this year, Northern California has experienced large fire activity and multiple team deployments. California will likely experience an extended fire season. It is important to be mindful of and manage fatigue for all resources. Everyone, every day, returns home safely.

## Mitigation Measures:

- Local and inbound fire personnel need to be aware that fire behavior across the state is exceeding
  normal expectations for this time of the year. Local briefings need to be thorough and highlight
  specific fire environment conditions. These include but are not limited to local weather
  forecasts, Pocket Cards, ERC's, live and dead fuel moistures.
- Suppression actions need to be based on good anchor points, escape routes, and safety zones. Remember LCES. Experienced lookouts are essential under these conditions.
- Base all actions on current and expected behavior of the fire. Augment initial attack resources as incident activity dictates.

**Area of Concern:** Northern California except for the following Predictive Service Areas: North Coast and Bay Marine, west of Highway 101 in Mid-Coast to Mendocino and Diablo-Santa Cruz, and the north eastern portion of Far Eastside.

# Monument Fire South Zone HEALTH AND SAFETY MESSAGE

INCIDENT: Monument - CA SHF-001187

**DATE**: August 31, 2021

TIME: 0700-0700

## 24 HOUR SAFETY EMPHASIS FIRING OPERATIONS – FATIGUE – COMPLACENCY

## **Firing Operations**

## Watch Out

- · Firing plan not communicated down the line
- Go-No-Go check list not followed or communicated
- Poor communications with division resources

## Mitigation

- Ensure firing plan is understood by all before implementation
- Ensure Go-No-Go check list is adhered to and communicated up the line
- · Confirm correct tactical frequency for firing operation with all personnel involved

## **Fatigue**

## Watch Out

- Impaired decision process or driving skills
- Poor physical output and motivation of assigned personnel
- · Emotional stressors surfacing in anger or depression

## Mitigation

- Spot check and monitor all personnel, ensure proper shade and rest is taking place
- · Hydration and Nutrition are keys to energy stores in the body
- Monitor all personnel, ensure mental and physical health with adequate work/rest cycles

## Complacency

## Watch Out

- Improper or no PPE being used on the fire line
- · Lack of awareness to safety or conditions on the fire
- Repeated assignments can lead to complacency making personnel more vulnerable to accidents

## Mitigation

- Ensure all necessary PPE is always being utilized when appropriate
- Spot check personnel and reaffirm operational tactics and safety for the assignment
- Reassess usefulness of the personnel and ensure situational awareness is maintained

Each Safety Message is designed for a daily Tailgate Safety discussion

**REMAIN FIRE FOCUSED AND COVID-19 AWARE** 

David Esteves

**IMT 5 SAFETY OFFICER** 

## Monument South Zone RISK ANALYSIS (ICS 215a)

DIV	HAZARDOUS ACTIONS/CONDITIONS	MITIGATIONS / WARNINGS / REMEDIES					
ALL	FATIGUE/DEHYDRATION	Be alert for signs of fatigue and take breaks as necessary.  Monitor incoming resources for level of fatigue.  Drink water before, during and after shifts, up to 1.5 gal. per shift.  Be alert for signs of heat stress in yourself and others; use the buddy system.  Eat small meals often and when possible. Find shade when you can.  Drink electrolyte drinks at a 2 water to 1 sport drink ratio.					
ALL	HAZARD TREES/TREE FELLING SAFETY	Look up, look down, look around when entering timber.  Identify and isolate the area to provide for the safety of others.  Flag and make proper notifications. Do not leave incomplete falling operations.  Monitor when mopping up. Watch where you park.  Size up and mitigate concerns, work within your qualifications.					
RR	FIRING OPERATIONS	Have Firing Plan known to all and ensure it is understood before implementation. Ensure Go-No-Go checklist is adhered to and communicated to operations. Confirm correct tactical frequency for firing operation. Communicate start and finish firing times to all personnel.					
ALL	COMPLACENCY	Don't underestimate the task at hand. Wear full PPE while on the line.  Everyone should be briefed on the conditions and circumstances regarding the fire and their assignments per the IRPG. Today is different than last shift, even if in the same area.					
NN/RR	INCREASING FIRE BEHAVIOR	Know your LCES and maintain Situational Awareness. Use experienced Lookouts. Monitor weather for changes in the wind, temp, and RH during the shift. Have a contingency plan with established decision points and safety zones.					
ICP Ground Support	GENERAL TRAFFIC	Watch out for pedestrian and vehicle congestion. Provide spotters when backing or driving in tight places. Adhere to the 5-mph speed limit while in base camp.					
NN/RR	AIRCRAFT OPERATIONS	Monitor air-to-ground frequency, they are your eyes in the sky. Use air-to-ground frequency to communicate with aircraft. Use clear, concise statements when directing aircraft. Clear the area for incoming water and retardant drops.					
NN/RR	HEAVY EQUIPMENT	Watch for rolling material avoid working below heavy equipment.  Monitor safe working distances provide adequate working space.  Utilize communication with the operators, stop if poor visibility (via radio)					
ALL	WEATHER CHANGES	Monitor for increased temperatures on the fireline.  Expect erratic winds. Communicate weather changes on the fireline as winds shifts are expected over the next few days					
ALL	DRIVING HAZARDS	Complete appropriate DOT daily vehicle inspection.  Slow Down! Long travel times to the line, stay alert. Stop if fatigued.  Drive defensively and responsibly, not distracted or impaired.  Drive with headlights and seatbelts on. Narrow roads with limited passing room.  Expect roads to deteriorate over the shift.					
ALL	COMMUNICATIONS	Confirm correct tactical and command channel. No unassigned radio channels.  Check your Air to Ground to make sure it is correct for your branch.  Check your command and tactical frequencies if you have moved branches or divisions.  Ensure correct communication with neighboring federal zones.					
ALL	COVID 19	Wear a mask when applicable. Utilize hand sanitizer and wash hands frequently.  Maintain social distancing. Disinfect apparatus and coolers frequently. Adhere to local, state and federal Covid-19 guidelines. Advise supervisor if you feel sick.					
ALL	ENVIRONMENTAL HAZARDS	Maintain situational awareness for illegal activity and hunters.  Wash poison oak off hands and clothes.  Harvest time in certain areas of the fire. Increase your situational awareness.

## \$ FINANCE MESSAGE \$

## \*Please No Off Site Feeding Unless Approved by the Finance Section Chief.\*

## CAL FIRE PERSONNEL

Make sure to create a paper FC-33 so we can update. If anyone has any CalCard travel receipts and meal/lodging sign in sheets, please get a copy to Finance.

## **LOCAL GOVERNMENT RESOURCES**

Make sure you check in with TIME Unit for ABH or F-42 Paperwork.

## **ALL HIRED EQUIPMENT**

Make sure you get your shift ticket filled out by your **Division Group Supervisor or Supervisor.** 

## **ALL SUPERVISORS OF HIRED EQUIPMENT**

Shift Tickets for hired equipment need to be signed and turned in to TIME daily. Ensure the shift ticket is filled out completely (including evaluation), accurately and legibly. **Example included in IAP.** 

## PROPERTY DAMAGE or INJURIES

Please report any property damage caused by suppression activities and/or injuries to the Comp/Claims Unit.

# MONUMENT NORTH FIRE Finance Process CA-SHF-001187

For resources hired out of state and have VIPR agreement scan QR code

IMPORTANT INFORMATION: If you are a Monument North Resource, i.e., you have a RO # four digits or less (E-489), and you are 'loaned' to the South Zone, please note SOUTH ZONE or Monument South Zone on your Shift Ticket / CTR.

Please send all documents to 2021.monument.finance@firenet.gov for all resources.

Email Subject Line: TIME/Resource Order No./ Resource Name/Position Code - Put

TIME, CTR, SHIFT TICKET in the subject line with your information

(Example: TIME/O-200/SBear/Safety)

Email all documents that pertain to your assignment:

Agency	Agency ADs /	VIPR Resources	Contract / Agency Crews	
Overhead	EFFs			Cooperators
Resource Order Shift Tickets	Resource Order Casual Hire Form Shift Tickets	Resource Order VIPR Agreement Schedule of Items Inspections Shift Tickets	Resource Order Manifest Agreement / Contract Schedule of Items Inspections Crew Time Reports	Resource Order Agreement Shift Tickets / CTRs

Submit Equipment Shift Tickets or Crew Time Reports (CTRs) daily to 2021.monument.finance@firenet.gov

Please include your email address and phone number in the body of the email when sending your documents.

Any questions, please call: FINANCE – (213) 431-4035 – Weaverville

(425) 500-9464 – Weaverville (425) 500-9475 – Willow Creek

MEDIA – The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and does not imply that the news media may interfere with incident operations while they are in the areas of concern. More information can be found <a href="https://example.com/here-news-media-news-

PHOTOGRAPHS AND VIDEOS OF INCIDENT – We are in a new era of media. Media no longer means news/broadcast industry, but now refers to anyone that has the capability to shoot video, photographs and post them onto social media sites in a matter of minutes. Unfortunately, we have seen some instances of photographs or videos that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens, it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could expose oneself to unwanted ramifications. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera loses their situational awareness.

The Public Information Office would like copies of the video and pictures that you safely took while not in an emergency situation, fire suppression activity or in an overhead assignment. Bring your video and pictures to the Public Information trailer; they will be reviewed and possibly uploaded to our many CAL FIRE social media sites. Remember, we don't want photographs or videos that depict unsafe, unprofessional or embarrassing circumstances, which are a serious breach of ethics.

LOST AND FOUND - The Information Section will manage lost and found items for the incident.

MAIL SERVICE - The Information Section can assist you with sending and receiving mail.

### **Anderson Fairgrounds**

ATTN: South Zone Monument Fire Information (Your Name) 1890 Briggs Street Anderson, CA 96007

### **TRAINING MESSAGE**

If you have just arrived at The Monument Fire as a Trainee, please don't forget to check in with the Training Specialist.

# Do you want credit for this assignment?

### DEMOBILIZATION PLAN MONUMENT INCIDENT CA-SHF-001187

# 5 GALEIRE HAZLYO

### **DEMOB PROCEDURES**

- Check the demob list daily. You can find the demob list posted around camp or by utilizing the QR code on your IAP.
- Please report to demob only at your scheduled time.
- Only one person per resource is to report to demob.
- Every effort will be made to provide a remote demob.
- The Demob Unit will provide you with an ICS-221 check-out form.
- For the following units, demob personnel will make radio contact to ensure you are clear for demobilization:
  - Supply Unit
  - o Communications Unit
  - o Accommodations Unit (If applicable)
- For the following units, you will report in person to complete your check-out:
  - o Time Unit
  - Documentation Unit
  - o Training Specialist (If applicable)
  - o Ground Support Unit
- Return your completed ICS 221 to the Demob Unit and you will be advised of your status (released home, reassigned, etc.)

Greg Barnhart Demobilization Unit Leader CAL FIRE Incident Management Team 5
