FIRE BEHAVIOR

GENERAL:

Isolated to mainly burning stumps and heavy ground fuel well interior with limited threat to the control lines. RH recoveries will delay drying of the fine fuels to mid-day then higher afternoon/evening winds than the past few days produce very active fire behavior with any new fire.

Several years of persistent drought and a water year which has received less than 50% of normal rainfall, has the fire footprint within an area identified as "Extreme Drought."

Energy Release Component (Oak Knoll): is **above the 90th** percentile at 62 (Fuel Model Y 90th percentile is 61)

Predicted fuel conditions:

1HR fuel moisture: 5-7% **10HR moisture:** 10%(+1) **100 HR moisture** 10%(+1) **1000 HR:** 10% (same)
Energy Release Component: 62 **Burning Index:** 40 **Probability of Ignition (PIG)** <81%

Expected Surface Fire Behavior: (assumes 4 mph eye level wind and 50% slope)

Timber Understory (TU5) Timber with branches, shrubs:

Flame length 9-11' and ROS 19-21 ch/hr head

Grass, Brush (2,SH7)

Flame length 8-20' and ROS 60-89 ch/hr (GS2/SH7)

SPECIFIC:

McKinney Fire: The fire has not experienced perimeter growth for several weeks with the control lines being tested by hot, dry, and windy conditions during that timeframe. Infrared showing the amount of interior heat is diminishing but still present.

Initial Attack: Temperatures have warmed back-up to where any new starts have will likely pose suppression difficulty. Local knowledge is critical to navigate the network of roads to make access to any new fires and links to local pocket cards are provided below. Fuels and weather are aligning to support rapid large fire growth on any new starts.

Expected flame lengths and rates of spread could mean direct attack with ground resources will not be effective, don't hesitate to order the resources that can be effective. Look for indirect options early.

AIR OPERATIONS:

Weak mid-slope inversion mixing out by 1100.

Sunrise: 0630 Sunset: 1952

SAFETY

Risks to fire-line personnel increase significantly during transfer of command periods regardless of the size or complexity of the incident. Share your knowledge of fire behavior, safety risks and hazards to incoming personnel.

COVID-19 PREVENTION INFORMATION **MAINTAINING A HEALTHY WORKFORCE**

from the COVID Advisor Team

All fire personnel are susceptible to contracting COVID-19. The health and well-being of all personnel must be a priority throughout the fire season. **Mask use, social distancing, and good hygiene** will support the health of fire personnel and are important ways to **prevent the spread of COVID-19 and maintain the health of all fire personnel.**

Self-Awareness/ Daily Health Screening

Separate yourself from others and notify your supervisor if you experience COVID-19 related symptoms (fever or chills, cough – more than expected, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, diarrhea). Supervisors will use COVID precautions and facilitate COVID testing at the identified COVID testing locations.

COVID-19 Testing availability – (2) locations

McKinney Base Camp (430 E. Prather St.) - Adventure Medics

Klamath River Spike Camp (28017 Hwy 96) - Mountain Medics

Priorities for testing will be for those with COVID-related symptoms and those with COVID exposure.

Sanitary and Personal Hygiene Practices

Rigorous sanitary practices are important for reducing the transmission of infectious diseases. All personnel should cover their coughs and sneezes. Perform proper hand hygiene including handwashing or hand sanitizer use after touching potentially contaminated surfaces, removing face coverings, after using the restroom, and before eating or putting anything in their mouth.

Mask Wearing

Mask wearing will be required when Siskiyou County community level is high. The Siskiyou County community level for the week of August 22, 2022 – August 28, 2022 is **Medium.**

Human Resources Message

When is a Joke – Not a Joke?

1. When it embarrasses someone,
2. When it is negative humor,
3. When it is a put-down because of sex, race, color, national origin, age, religion, mental or physical handicap or sexual orientation.

Humor and fun need to be part of our teamwork picture, but not when it is at the expense of others.
