**INCIDENT OBJECTIVES (ICS 202)** 

3. Objective(s):  Strategic Framework Implement a full suppression strategy on the McKinney Fire. Values at risk include human safety, private timberlands, communities, critical infrastructure and associated improvements. Apply tactics that offer the highest probability of success.  Management Objectives  - Provide for firefighter and public safety through hazard recognition and application of the risk management process.  - Coordinate all public information with CALFIRE to provide timely and continuous information to affected agency partners, cooperators, and the public.  - Work with Resource Advisors to implement the fire suppression repair plan.  - Ensure timely, efficient mobilization and demobilization of critical resources.  Leaders Intent  Provide the highest level of customer service to all involved with or impacted by the McKinney Fire. Ensure transparent, timely and accurate communication at all levels of the incident and strengthen relationships with cooperators. All incident assigned personnel should be prepared to take appropriate actions regarding:  - Personal safety and the safety of others, including driving slowly and defensively.  - Fatigue management by taking breaks and maintaining work/rest cycles.  - Limiting exposure to infectious disease by implementing Center of Disease Control, California Department of Public Health, and agency guidelines.  - Professional behavior, and timely/effective communication.  - Keep supervisor informed on personnel changes to ensure LWD and personnel names assigned to the incident are accurate.  Control Objectives  - Keep the McKinney Fire contained to the current fire perimeter to prevent the fire from spreading to private property, surrounding communities, and other values at risk.  5. Site Safety Plan Required?  - Yes  No  - No	1. Incident Name:	2. Operational Period:	Date From:	9/20/2022	Date To:	9/21/2022

Spot Forecast for McKinney...USFS

#### .DISCUSSION...

Low pressure stalled west of the Northern California coast will continue to spin showers into the area from the south today. While rainfall in showers will generally be light, thunderstorms may bring brief periods of moderate to heavy rainfall. Peak thunderstorm coverage is expected to be on Tuesday in Siskiyou County. This could cause some minor ash flows to occur over steep terrain. For more serious debris flows to occur, the fire would need thunderstorms to move over the fire in quick succession; but there is about a 5% chance of that occurring. From Tuesday evening onward, expect generally higher humidities and cool temperatures with relatively lighter winds through the middle of the week. In regards to the wind, the general flow may be eastward at night, becoming northwesterly in the afternoon after Tuesday. Areas sheltered from east winds will experience light terrain driven winds. Areas where thunderstorms do develop are likely to experience gusty and erratic winds of 30+ mph. A warming and drying trend is then expected for the weekend.

#### .TUESDAY...

Sky/weather.....Partly sunny (65-75 percent). 65% chance of rain showers and a 25% chance for scattered Thunderstorms during the afternoon.

Max temperature....Ridges: 57-62 degrees.

Valleys: 67-72 degrees.

Min humidity......Ridges: 47-57 percent.

Valleys: 30-37 percent.

Eye level winds....South at 1-2 mph in the morning becoming southwest at 4-6 mph in the afternoon. Calmer in valleys until the southwest winds increase.

Wind (20 ft).....South at 1-4 mph in the morning becoming southwest at 5-8 mph in the afternoon, with gusts to 13 mph.

CWR......44 percent.

LAL....3.

#### .TUESDAY NIGHT...

Sky/weather......Mostly cloudy (75-85 percent). 55% chance for rain showers and slight chance of thunderstorms in the evening.

Min temperature.....Ridges: 44-48 degrees.

Valleys: 45-50 degrees.

Max humidity......Ridges: 70-85 percent.

Valleys: 85-100 percent.

Eye level winds.....Southeast at 1-3 mph.

Wind (20 ft).....Southeast at 2-5 mph.

CWR......45 percent.

LAL....2.

#### .WEDNESDAY...

Sky/weather......Cloudy (85-95 percent). Chance of rain showers in the morning, then rain showers likely and slight chance of thunderstorms in the afternoon.

Max temperature....Ridges: 50-55 degrees.

Valleys: 61-66 degrees.

Min humidity......Ridges: 62-67 degrees.

Valleys: 40-45 percent.

Eye level winds....West at 1-2 mph becoming northwest at 2-5 mph in the afternoon with gusts to 10 mph.

Wind (20 ft)......West at 1-3 mph becoming northwest at 3-7 mph in the afternoon with gusts to 14 mph.

CWR.....60 percent.

LAL....2.

#### 6. Work Assignments:

- Hold and improve existing containment lines.
- Continue repair work inside the interior geographic area of the fire footprint.
- Perform backhaul and remove all trash and applicable supplies.
- Continue the Danger Tree Abatement project.

#### 7. Special Instructions:

- Staging area for any unused equipment will remain at the gravel pit off Highway 96.
- READs will be checking in and out with DIVS when when entering/exiting the division.

## Danger Tree Abatement Plan McKinney Fire

#### Klamath National Forest

#### Happy Camp/Oak Knoll Ranger District & Salmon-Scott River Ranger District

Fell danger trees in areas where suppression activities created hazard trees that would hit designated travel routes. Danger trees can be abated (felled) near designated features to provide for immediate firefighter and/or public safety. If after felling, downed trees pose a threat to firefighter and/or public safety, then remove and deck these trees in a location that does not pose a threat to firefighter and/or public safety. All work will be done only on National Forest System lands. Distances from the target feature are based on the following priorities:

#### **Priority 1 Features**

Size Class	<u>Size Class</u> <u>Definition</u>	Baseline Slope Distance (feet above/flat/below road)*	Maximum Slope Distance (feet above/flat/below road)*	Minimum Slope Distance (feet above/flat/below road)*
Small	Less than 14.0 inches stump diameter	100/100/75	200/200/150	75/75/50
Large	Greater than or equal to 14.0 inches stump diameter	200/150/150	250/250/200	125/125/75

<sup>\*</sup>Distances shown above are approximately 1 ½ times the tree height from the target feature that is at risk above the road and on flat ground and one times the tree height below the road.

#### **Priority 2 Features**

Size Class	Size Class Definition	Baseline Slope Distance (feet above/flat/below road)**	Maximum Slope Distance (feet above/flat/below road)**	Minimum Slope Distance (feet above/flat/below road)**
Small	Less than 14.0 inches stump diameter	75/100/75	200/200/150	75/75/50
Large	Greater than or equal to 14.0 inches stump diameter	150/100/100	200/200/150	100/100/75

<sup>\*\*</sup>Distances shown above are approximately one times the tree height above and below the Feature and in flat areas.

In addition, material meeting the following utilization and processing specifications will be skidded to, processed, and decked at pre-approved decking locations.

#### **Utilization and Processing Specifications**

	Merchan	table Tree	Minimum Piece Requirements		
Product and Species	Minimum DBH (inches)	DBH Minimum Pieces Per		Diameter Inside Bark Small End (inches)	
ALL	10.0	1	10	8.0	

#### Slash:

- a.) Slash will be (in order of preference): chipped, lopped and scattered, or piled in a manner that will not impact man-made structures including but not limited to water tanks, water lines, irrigation ditches, roads, road borrow ditches, and water diversion structures.
- b.) Material extending three (3) feet or more outside the edge of a pile will be trimmed.
- c.) An eight (8) foot slash bay will be cleared of all but fine material around each machine pile and
- d.) When needed, an appropriate fire line will be cleared to mineral soil around the outer ring of the slash bay.
- e.) When lopped and scattered, all branches must be cut from main stem when main stem exceeds three (3) inches in diameter
- f.) Slash or chips must be spread to a height of not more than one (1) foot. Tree stems will be bucked, as necessary, to meet this height requirement and to avoid "jack-strawing" trees on top of one another.
- g.) All piles will be reasonably compact and free of soil to facilitate burning and will be constructed of such size and at such distance from trees so that burning will not result in unnecessary damage to residual timber.

#### Stump Height:

Stumps will be cut to a height of not more than <u>12 inches</u> from the high side of the stump, unless approved in writing by the Agency Administrator Representative or their designee.

## Flagging Guide McKinney Fire

Bounda	ary Lines
These three flags will be	e right next to each other
Flagging color	Meaning
	Red: Private property side. No cutting!
	White: Property line
	Green: Forest Service property

Tree Cut	ting Areas
	colors could mean the same thing
Flagging Color	Meaning
	Orange: Leave tree, wildlife tree
	Yellow: Cut & Leave in riparian / streamcourse
	Red around individual tree: No cut tree -Ex: Live tree within a majority dead stand
	Green around individual tree: cut tree -Ex: Dead tree within a majority live stand
	White and orange candy stripe: Avoidance Area! No cut, no landings, or parking!
	White and blue candy stripe: riparian area & colverts
	Pink and blue: Possible landing
	Pink: Possible landing

# Check-In and DEMOB MESSAGE

These are the check-in and demob phone numbers. Please call these numbers when checking-in or demobbing.

Check-in #: (530) 230-3364

DEMOB #: (480) 420-7735

When doing personnel substitutions scan the QR code on the front cover and fill out the personnel substitution form and tell your division.

- · Overhead/FED: subject line: TIME, Resource #, Resource Name
- Equipment/Cooperator: subject line: EQTR, Resource #, Resource Name

Per the IC's letter dated 8/28, lodging and per diem have been authorized since the fire is currently not providing a camp, food, water. Therefore, federal and cooperators are to follow their agency's travel guidelines. Contractors are to comply with their contract.

Please note, in Yreka, California, US General Service Administrations (GSA) locality rate is \$96 for lodging and per diem (includes food and water) is \$59.

For contractors, please note, the Government will pay actual lodging expenses or the per diem locality rate published by the GSA, whichever is less. Double occupancy of hotel rooms is required. Any associated lodging taxes are reimbursable as documented. Lodging receipts, as well as documentation by incident personnel that a campsite was not provided, shall be submitted as supporting documentation with payment documents.

Prior to your demob date, please contact Finance via email to expedite the demob process. Upon submittal of your final CTR/Shift Tickets, Finance will email you copies of your pay documents for review and signature.

#### **HEALTH AND SAFETY MESSAGE**

Lookouts, Communications, Escape routes, and Safety zones for all hazards

INCIDENT: McKinney Fire DATE: 09/20-21/2022 TIME: 0700-2000

Major Hazards and Risks: Driving Hazards; Washed-out Roads, Slick Roads, Logging Trucks on the Roadways. Complacency. Debris Flow, Hazard Tree Abatement on Steep Terrain. Changing Weather Conditions.

**DRIVING HAZARDS:** LOGGING TRUCKS ON ROADWAYS, use the radio to communicate their approach to others. FOREST ROADS MAY BECOME WASHED OUT, inspect mid-slope roads before traveling over them. Drive defensively! Maintain speed limits and drive with your headlights on. Don't drive through swollen streams.

#### **SITUATIONAL AWARENESS**

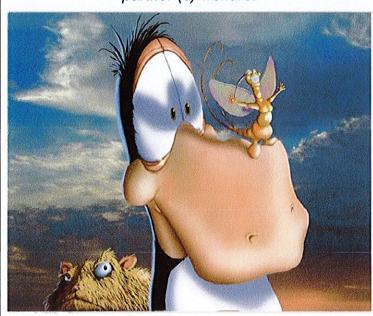

- Knowing what is going on around you at all times.
- Knowing what your crew and adjoining crews are doing.
- Knowing what the weather is doing.
- Always have a workable contingency plan to implement if necessary.
- With a good situational awareness, you should never be surprised by changing conditions.

## COMPLACENCY

If you find yourself drifting off mentally then you are beginning to become complacent.

Avoid this by remaining attentive to your assigned task.

Maintain situational awareness and work in pairs or small groups where you can watch for your partner (s) welfare.

## COVID-19 PREVENTION INFORMATION MAINTAINING A HEALTHY WORKFORCE

from the COVID Advisor Team

All fire personnel are susceptible to contracting COVID-19. The health and well-being of all personnel must be a priority throughout the fire season. **Mask use, social distancing, and good hygiene** will support the health of fire personnel and are important ways to **prevent the spread of COVID-19 and maintain the health of all fire personnel.** 

#### Self-Awareness & Daily Health Screening

Separate yourself from others and notify your supervisor if you experience COVID-19 related symptoms (fever or chills, cough - more than expected, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, diarrhea). Supervisors will use COVID precautions and facilitate COVID testing at the identified COVID testing locations.

#### **COVID-19 Testing availability**

Siskiyou County Public Health - 1275 South Main St., Unit A, Yreka, CA; (530) 841-2134

Monday-Friday (excluding holidays), 12:30pm-4:30pm; No appointment needed, but can pre-register at <a href="https://www.simplereport.gov">www.simplereport.gov</a>.

Self-test kits are also available from the COVID advisor. Priority will be given to those with symptoms or a COVID exposure.

If you test positive, isolate yourself and contact your supervisor and Jennifer laccarino (KNF Forest Safety Officer) 530-780-6422.

#### Sanitary and Personal Hygiene Practices

Rigorous sanitary practices are important for reducing the transmission of infectious diseases. All personnel should cover their coughs and sneezes. Perform proper hand hygiene including handwashing or hand sanitizer use after touching potentially contaminated surfaces, removing face coverings, after using the restroom, and before eating or putting anything in their mouth.

#### Mask Wearing

Mask wearing will be required when the Siskiyou County community level is high. The Siskiyou County community level for the week of September 16 - September 23, 2022, is **Low**.

McKinney Incident COVID Contact – Jennifer Iaccarino (KNF Forest Safety Officer) 530-780-6422.

## MCKINNEY FIRE

#### FIRELINE EMERGENCY 0800-1900 HRS (DURING OPERATIONAL HOURS)

- First person on scene is incident commander of the incident within an incident (IWI) until relieved by a more highly qualified person (HEQB, TFLD, DIVS, etc)
- IWI IC contacts Division Supervisor with nature of incident and location.
- IWI IC contacts:
  - 1. Dispatch ("Yreka") on Command (Black tone 1, 2 or 10)
  - 2. Closest incident medical resource (Line EMT/Medic/AMBU) on Command
- Dispatch notifies McKinney IC, who will notify:
  - 1. Medical Response
  - 2. Operations
  - 3. Safety
  - 4. Comps/Claims
  - 5. Agency Administrator
- Division Supervisor will support needs of the IWI.
- IWI IC will complete the Medical Incident Report (8 Line):
  - 1. Identify emergency: life threatening (red) or non-life threatening (yellow or green)
  - 2. Identify nature of emergency, # of patients, patient assessment
  - 3. Identify location, transport/evac possibilities
- Dispatch will mobilize ground and/or air ambulance as needed
  - 1. Contact incoming ground ambulance on CDF SKU Local tone 1 Channel 9
  - 2. Contact incoming air ambulance on CALCORD tone 6 Channel 15

#### AFTER-HOURS EMERGENCY 1900-0800 HRS

- Utilize 911 system to initiate medical response, **Identify yourself as a member** of the McKinney Fire.
- Contact your supervisor via phone with patient complaint/ condition and location.
- The 911 dispatch will contact Cal-Fire Dispatch who will in turn contact McKinney IC.
- McKinney IC contacts:
  - 1. Operations
  - 2. Safety
  - 3. Comps/Claims
  - 4. Agency Administrator

#### MEDICAL PLAN (ICS 206 WF)

Controlled Unclassified Information//Basic

#### Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the follo	wing items to communicate situation to communications/dispatch.
Ex: "Communications, Div. Alpha. S 2. INCIDENT STATUS: Provide incid	ent summary (including number of patients) and command structure. priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout
Severity of Emergency / Transport Priority	<ul> <li>□ RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE         Ex: Unconscious, difficulty breathing, bleeding severely, 2° - 3° burns more than 4 palm sizes, heat stroke, disoriented.     </li> <li>□ YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary.         Ex: Significant trauma, unable to walk, 2° - 3° burns not more than 1-3 palm sizes.     </li> </ul>

	☐ GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport  Ex: Sprains, strains, minor heat-related illness.					
Nature of Injury or Illness & Mechanism of Injury		Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)				
Transport Request	v 15 7 Bas I	Air Ambulance / Short Haul/Hoist Ground Ambulance / Other				
Patient Location	Maril 1 (12)	Descriptive Location & Lat. / Long. (WGS84)				
Incident Name		Geographic Name + "Medical" (Ex: Trout Meadow Medical)				
On-Scene Incident Commander		Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)				
Patient Care		Name of Care Provider (Ex: EMT Smith)				

On-Scene Incident Commander	Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)
Patient Care	Name of Care Provider (Ex: EMT Smith)
3. INITIAL PATIENT ASSESSMENT: Complete this section for each patie	nt as applicable (start with the most severe patient)
Patient Assessment: See IRPG page 106	

Treatment:

#### 4. TRANSPORT PLAN:

ICS 206 WF (03/18)

Evacuation Location (if different): (Descriptive Location (drop point, intersection, etc.) or Lat. / Long.) Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards:

#### 5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication

. COMMUNICA	TIONS: Identify State Air/G	Ground EMS Frequen	cies and Hospital Co	ontacts as applicable	
Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND		THE THE			
AIR-TO-GRND		***************************************			
TACTICAL					

7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking

8. ADDITIONAL INFORMATION: Updates/Changes, etc.

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.
