WELCOME CIIMT 12

FIRE INFORMATION: 530-289-8920

2022.mckinney@firenet.gov

MEDIA REQUESTS: 530-918-8729

1. INCIDENT NAME 2. DATE 3. TIME INCIDENT OBJECTIVES 8/13/22 McKinney 2200 4. OPERATIONAL PERIOD (DATE/TIME) 8/14-15/2022, 0700-0700 5. GENERAL CONTROL OBJECTIVES Strategic Framework Implement a full suppression strategy on the McKinney Fire. Values at risk include human safety, private timberlands, communities, critical infrastructure and associated improvements. Apply tactics that offer the highest probability of success. Leaders Intent Provide the highest level of customer service to all involved with or impacted by the McKinney Fire. Ensure transparent, timely and accurate communication at all levels of the incident and strengthen relationships with cooperators. All incident assigned personnel should be prepared to take appropriate actions regarding: Personal safety and the safety of others, including driving slowly and defensively. Manage fatigue by taking breaks and maintaining work/rest cycles. Minimize risk and limit exposure to infectious disease by implementing Center of Disease Control, California Department of Public Health, and agency guidelines. Professional behavior, conduct, and timely/effective communication. Management Objectives Provide for firefighter and public safety through hazard recognition and application of the risk management process. Coordinate all public information with CAL FIRE and the Klamath National Forest to provide timely and continuous information to affected agency partners, cooperators, and to the public. Coordinate suppression activities with assigned incident resource advisors to minimize impacts on natural and cultural resources. Implement fire suppression activities in accordance with the suppression repair plan and Incident Resource Advisors. Provide initial attack capability for the Klamath National Forest on the Oak Knoll and Scott River Ranger Districts. Control Objectives Keep the McKinney Fire: Keep the McKinney Fire contained to the current fire perimeter to prevent the fire from spreading to private property, surrounding communities and values at risk. 9. Fire Weather Forecast

Sunday AUG 14, 2022

FORECAST NO: PREDICTION FOR: ISSUED:

13 Sunday/Aug 14, 2022 2000, Aug 13, 2022

NAME OF FIRE: UNIT:

McKinney Klamath N.F. Incident Meteorologist: Sam Roberts

*** WARM, DRY, LOW RH, WEST TO NORTHWEST AFTERNOON WINDS GUSTING TO 20 MPH ***

DISCUSSION: Conditions will be similar to yesterday but a degree or two warmer. Otherwise, mostly sunny, dry, low RH, and unstable in the afternoon.

SUNDAY: WARMER, DRY, LOW RH, WEST TO NORTHWEST AFTERNOON WINDS GUSTING TO 20 MPH

- WEATHER: Mostly sunny, warmer and dry. Afternoon max temperatures slightly warmer than Saturday. We remain unstable.
- WIND (EYE LEVEL): Sheltered and smoked in areas: Downslope/down valley 1-3 mph through 1400 then upslope 3-6 mph. Most ridges, unsheltered areas, wind-aligned drainages: east 3-6 mph through 1200, then west 4 to 8 mph gusts to 15 mph through 1600, then northwest 5 to 10 mph gusts to 20 mph through 2000. Highest ridgetops (Collins Baldy): west-northwest 10 to 15 mph gusts to 25 mph from 1600 through 2000.
- CHANCE OF WETTING RAIN: 0%.
- RAIN AMOUNTS: none.
- MAX TEMPERATURES: 94-98 bottom and clear areas, 80-85 highest ridgetops and smoked in areas.
- MIN RH: 10-20% bottom and clear areas, 17-25% top and smoked in areas.
- INVERSION: Weak mid-slope inversion and secondary inversion at 5,000 feet mixes out by 1200. Smoke inversion unlikely to mix out across smoked in areas

SUNDAY NIGHT: GUSTY WEST-NORTHWEST WINDS 20 TO 25 MPH

- WEATHER: Dry and mostly clear, gusty west-northwest winds early, then becoming light and easterly after midnight. Poor to moderate RH recovery above 5000 feet.
- WIND (20 FT): Sheltered areas: Downslope/down valley 2-4 mph. Most ridges, unsheltered areas, wind-aligned drainages: west-northwest 5 to 10 mph gusts to 20 mph through 2200, then becoming easterly 3 to 6 mph after midnight. Highest ridgetops (Collins Baldy): west-northwest 10 to 15 mph gusts to 25 mph through 2400, then west-northwest 5 to 10 mph through 0300, then becoming easterly 3 to 6 mph rest of the night.
- CHANCE OF WETTING RAIN: 0%.
- RAIN AMOUNTS: none.
- MIN TEMPERATURES: 52-57 bottom, 57-62 top.
- MAX RH: 48-58% bottom, 28-38% top.
- INVERSION: Weak developing near mid-slope and secondary inversion at 5,000 feet.

MONDAY: HOT, DRY, VERY UNSTABLE, LOW RH. WEST TO NORTHWEST AFTERNOON WINDS GUSTING TO 20 MPH

- WEATHER: Mostly sunny, hot, dry and very unstable. Afternoon max temperatures a few degrees warmer than Sunday.
- WIND (EYE LEVEL): Sheltered and smoked in areas: Downslope/down valley 1-3 mph through 1400 then upslope 3-6 mph. Most ridges, unsheltered areas, wind-aligned drainages: east 3-6 mph through 1200, then west 4 to 8 mph gusts to 15 mph through 1600, then west-northwest 5 to 10 mph gusts to 20 mph through 2000. Highest ridgetops (Collins Baldy): westnorthwest 10 to 15 mph gusts to 25 mph from 1600 through 2000.
- CHANCE OF WETTING RAIN: 0%.
- RAIN AMOUNTS: none.
- MAX TEMPERATURES: 97-101 bottom and clear areas, 82-87 highest ridgetops and smoked in areas.
- MIN RH: 14-20% bottom and clear areas, 20-25% top and smoked in areas.
- INVERSION: Weak mid-slope inversion and secondary inversion at 5,000 feet mixes out by 1200. Smoke inversion unlikely to mix out across smoked in areas.

Extended outlook: Tuesday: Mostly sunny early, few clouds late, hot, low RH. Highs 87-104. Minimum humidity: 14-24%. Winds westnorthwest 5-10 mph with gusts to 18 mph. Wednesday through Friday: Temperatures continue to warm with highs from 87-104. Minimum humidity: 14-24%. Winds west-northwest 5-10 mph with gusts to 18 mph. Partly cloudy. Chance of showers and storms on Wednesday, slight chance Thursday, drying out Friday afternoon.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 14 TYPE OF FIRE: Wildfire

FIRE NAME: McKinney Fire OPERATIONAL PERIOD: August 14, 2022 24hr

DATE ISSUED: 8/13/22 TIME ISSUED: 2000

UNIT: CA-KNF SIGNED: Dennis Burns and John Kern

INPUTS

WEATHER SUMMARY: Still Warm and Dry with NW Winds with Gusts to 20 mph

Temps: Day Valley 94-98; Day Ridges 80-85 **RH:** Day Valley 13-20% Day Ridges 20-25%

Night Valley 52-57; Night Ridges 57-62 Night Valley 48-58%; Night Ridges 28-38%

Winds: Day Ridges W to NW 5-10 G 20-25 mph

Night Ridges Still strong WNW 10-15 G25 until 2400.

OUTPUTS

FIRE BEHAVIOR

GENERAL:

Winds similar to yesterday, NW with gusts to 25 on ridges. Fuels are still very dry (ERC 90th percentile), and the terrain is very steep. Winds will be out of the west to northwest. Interior islands may still burn but should not threaten most control lines. Some interior areas have had needles and leaves scorched and are starting to fall creating a risk of reburn. Make sure lookouts have a good view of the fire.

Should an interior green island or dirty burn area challenge the line, or a new start get started, with these dry fuels, spotting will be problematic and should be short range (100-300 ft) for the most part and from rollout. There were numerous spot fires occurring during the IA of the George Fire the day before yesterday.

Expect single and group tree torching and sustained short duration crown runs where slope and winds align especially outside our current perimeter or new starts.

At night: Expect winds to continue to be strong until midnight. The fire may remain active most of the period as Relative Humidity will not recover that well on upper slopes.

SPECIFIC:

Branch V: No forward fire progression is expected. Portions of Div. Y and Z have small areas of heat near the line several days ago but could still hold heat. Expect interior islands to burn out and there is a potential for reburn; either of which will challenge existing lines.

Branch X: No forward fire progression is expected. Rollout will continue to be problematic and challenge any established lines. The George Fire still has some heat on it and could pose a threat from smoldering snags or rollout.

Branch XX: No forward fire progression is expected. Winds will push fires downslope to the SE.

IA: With the state of the fuels, expect any new start to be resistant to control. For fire aligned with slope and wind, expect rapid rates of spread with the potential for <u>crown runs</u> where dense canopies are present.

Rate of Spread Flame Length
Timber with shrubs TU5 (165) 7-12 Ch/hr. 3-7 feet

Long-needle litter TL8 (188) 5-11 Ch/hr. 3-6 feet

3-7 feet

Grass/Shrub GS2 (122) 18-26 Ch/hr.

12-16 feet

Probability of Ignition 91%

Shrub SH7 (147)

Spotting distance from torching trees on ridgetop 0.3 miles

AIR OPERATIONS: Smoke may limit air operations in the early morning but will clear out by 1500.

30-47 ch/hr

SAFETY

Crown fires can exhibit rapid rates of spread, great flame lengths and long-range spotting.

SAFETY THOUGHT

Time is critical with a life threatening IWI, have a plan!

.....REMEMBER.....

Give good briefings to your folks, plan for the worst case scenario for the task you are assigned, and go over the 8 line so you and your folks are ready.

	MAJOR RISKS AND HEALTH ISSUES	
 Beginning transitioning into mop up and repair phase on many Divisions. Folks being halfway or longer through assignment. Working on the same piece of line for multiple shifts. 	 SAFETY IS EVERYONE'S JOB Tree Felling & Chipping If you don't feel well get to the Med Unit Wash your hands and do it often 	 DEHYDRATION Drink water and Gatorade on and off the line Take breaks when needed Get adequate rest Limit Energy drinks

NELTOD DICKE AND HELL DIC

YOU ARE RESPONSIBLE FOR YOUR OWN SAFETY

-If you practice safety, your co-workers will appreciate it and your personal welfare can be protected-

Remember that it is your life that is on the line. You have the right to voice your opinion and concerns about personal safety. Don't hesitate to speak up if you feel uncomfortable with the situation you are in. Firefighting is inherently hazardous. Discuss your concerns with your immediate supervisor or with a Safety Officer. Take care of yourself and take care of your employees. We are in this together!

FIRE SAFETY

8. MEDICAL EMERGENCY PROCEDURES

LINE "MEDICAL-EMERGENCY" PLAN:

- Crew Supervisor to contact Division Supervisor/Operations with:
 - Patient Complaint, Condition and Location via Tactical or Command frequency. Priority 1/Red & 2/Yellow Patients trigger Incident within Incident (IWI).
- Division Supervisor/Operation contacts Communications/Dispatch:
 - Division Supervisor or POC* will run "Medical –Emergency" on the Command frequency.
 - Division Supervisor or POC* to use "Medical Incident Report" worksheet on back of this page or back of IRPG.
 - Communication contacts Medical Unit Leader on the Command frequency or cell phone (747) 444-8149 (Medical Emergencies Only).

POC* (Point of Contact) and/or Operations

LINE "NON-EMERGENCY INCIDENT" PLAN:

- Crew Supervisor to contact Division Supervisor with:
 - Patient Complaint, Condition and Location via Tactical or Command frequency.
 Priority 3/Green, (Minor) Patients do not trigger Incident within Incident (IWI).
- Division Supervisor to contact Communications/dispatch:
 - Division Supervisor or POC* will run "Non-Emergency Incident" on the Command frequency.
 - Division Supervisor or POC* will use "Medical Incident Report" worksheet on the back of this page or back of IRPG.
 - Communications contacts Medical Unit Leader on the Command frequency or cell phone (747) 444-8149 (For medical related incidents only).

IN-CAMP - 24 HOUR MEDICAL

Yreka High School ICP and Montague Elementary Base Camp

Contact 911 and Medical Unit (747) 444-8149 with:

Patient Complaint, Condition and Location

Klamath River Spike Camp

Contact 911 and Klamath River Medical Unit (909) 921-8490 with:

Patient Complaint, Condition and Location

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT: WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM COMMUNICATIONS

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree.
Requesting air ambulance to Forest Road 1 at (Lat./Long.)
"This will be the Trout Meadow Medical Incident, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emerger				r illness. Evacuation need is - 3° burns more than 4 palm sizes,				
AND	□YE	□YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary.						
Transport Priority	, E	Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.						
(priority 1, 2, 3)	□GR	☐GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport Ex: Sprains, strains, minor heat-related illness.						
Nature of Injury or Illn	ess			Brief Summan	of Injury or Illness			
& Mechanism of Injury	,				Struck by Falling Tree)

8. ADDITIONAL INFORMATION: Updates/Changes, etc.								
REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training Be Alert - Keep Calm - Think Clearly - Act Decisively *** Follow up with MEDL upon return to ICP ***								

ICS 206

COVID-19 PREVENTION INFORMATION MAINTAINING A HEALTHY WORKFORCE

from the COVID Advisor Team

All fire personnel are susceptible to contracting COVID-19. The health and well-being of all personnel must be a priority throughout the fire season. Mask use, social distancing, and good hygiene will support the health of fire personnel and are important ways to prevent the spread of COVID-19 and maintain the health of all fire personnel.

Self-Awareness/ Daily Health Screening

Separate yourself from others and notify your supervisor if you experience COVID-19 related symptoms (fever or chills, cough – more than expected, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, diarrhea). Supervisors will use COVID precautions and facilitate COVID testing at the identified COVID testing locations.

COVID-19 Testing availability - (2) locations

McKinney Base Camp (430 E. Prather St.) - Adventure Medics

Klamath River Spike Camp (28017 Hwy 96) - Mountain Medics.

Priorities for testing will be for those with COVID-related symptoms and potential exposures to COVID-positive individuals.

Federal employees enrolled in the Screening Testing Program can also access the identified testing location to meet their testing requirements. Screening Testing is required weekly for federal employees in the program when the Community Levels are Medium or High.

Sanitary and Personal Hygiene Practices

Rigorous sanitary practices are important for reducing the transmission of infectious diseases. All personnel should cover their coughs and sneezes. Perform proper hand hygiene including handwashing or hand sanitizer use after touching potentially contaminated surfaces, removing face coverings, after using the restroom, and before eating or putting anything in their mouth.

Social Distancing and Mask Wearing

Individuals should practice and remind others of social distancing of at least six feet apart. When social distancing is not possible, masks use is recommended. **Modules should limit close contact with other resources to insulate their module from potential exposures**.

Current Community Level for Siskiyou County is Medium so mask wearing is optional unless social distancing cannot be maintained. Community Levels are updated weekly by CDC.

McKinney Incident COVID Advisor – Robin Wall, (530) 410-1721
Prepared by COVID Advisor:
Bill Sanders, (530) 721-3865

The Five-D System for Effective Fireline Waterbars

To make effective waterbars, use the 5-D System: Distance, Diagonal, Divert, Discharge, and Dissipate.

Distance: Waterbars must be placed the proper distance apart, based on slope. This keeps the area that accumulates runoff small enough to prevent damage. The table below gives the maximum distance between waterbars, or between a waterbar and the next upslope drainage break.

Diagonal: Don't bully the flow, lead it. Waterbars built directly across a fireline tend to fail. Waterbars built diagonal to the fireline lead the water off and work better. A simple rule is to build them at 30 degrees off perpendicular (see the illustration below).

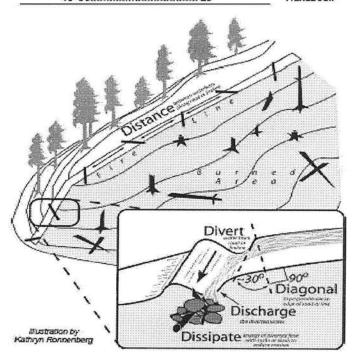

Divert: A good waterbar will divert the water off the fireline. To do this the waterbar must be deep enough to handle all the flow for as long as it's needed. Excavation is much better than fill in making a durable and effective waterbar (a ditch or a dip beats a dike).

Discharge: Another feature of a good waterbar is that it will discharge the flow. A good waterbar is not a dam, it must have an open outlet.

Dissipate: Finally, a good waterbar should dissipate the flow just below the outlet to exhaust its eroding power and cause it to filter into the soil. This may require placing slash, rock, or debris below the outlet.

Fireline slope	Maximum Distance Apart (feet)
1-6	300
7-9	200
10-14	150
15-20	90
21-40	
47 60	25

Recommended spacing for waterbars on firelines. Waterbars should be no further apart than this, but they may be closer. When in doubt, put in more. From: UDSA-Forest Service, "Sale Administrator's Handbook"

Reference: Hauge, C.J., M.J. Furniss and F.D. Euphrat. 1979. Soil erosion in California's Coast Forest District. California Geology. June, 1979

Specifications for Piling Slash

Hand Pile Construction:

- All activity generated and pre-existing fuels with a diameter between 1" and 8" shall be bucked to 4' or less and included in the hand piles. Exceptions include single logs that exhibit at least 50% decomposition.
- Hand piles shall be symmetrical, constructed neatly and **compactly**.
- Hand pile base shall **not** be constructed with material over 4", 4"< material will be stacked in the upper half of the pile.
- Slash that causes large air spaces in piles shall be cut to a minimum of 8"x 8" air spaces greater than 8"x8" are unacceptable.
- Material in piles shall be cut <4' per individual piece.
- Maximum piles size 6' in diameter and 6' in height and minimum pile size shall be 4' in diameter and 4' in height.
- Piles shall be distinct and separate from each other allowing at least 6' between each pile
- Piles shall be placed to limit scorch potential to leave trees, not in contact with leave trees and built up slope from leave trees when possible
- At least 50% of material in the lower third of the piles shall be composed of small diameter material and attached fines to create a kindling core.
- All piles shall be covered with Kraft type wax paper (wax side up).
- Pile covering sheet shall be placed to cover the bottom 2/3 of the pile and cover 50% of the surface area of the pile at this level. The remaining 1/3 of the pile shall be placed over the cover sheeting anchoring all four corners and the middle of the cover sheeting securely.
- No piles shall be built on, or in contact with any tree stumps >10" diameter.
- Piles created on downed logs, the log in contact with any pile shall be bucked to create a 4' separation in the log (to break the continuity and limit fire spread if the log should be ignited).
- logs over 8" diameter generated from thinning shall be limbed with limb wood added to piles, cut to 4' lengths and dispersed a minimum of 6' separation from downed logs, leave trees and stumps.
- In some units specific pile placement will be required to avoid damage to sensitive plant colonies, maps with exclusion areas will be included, the exclusion areas will be clearly marked and defined by the COR before work takes place.
 Any piles constructed in exlusion areas will be moved by the contractor.

DEMOB MESSAGE

FLIGHT REQUEST FORM

DEMOB PHONE: 916-798-5238

Request/ Order #	Last Work Date	
Name as shown on ID	Flight Date	
Date of Birth	Departure Airport Code	179
Cell Phone	Arrival Airport Code	j
Gender	Rental Location	
Email Address	Need ride to airport?	

If you have a suggested flight, provide detailed information. Email form to:

2022.Mckinney.demob@firenet.gov

Training Specialist Message

The Incident Training Specialist from Team 2 will be staying on to assist the incoming team. If you are departing the McKinney Fire, please complete your training record by following the instructions below.

If you are staying, its business as usual.

At the end of your assignment:

1. Trainee: Complete the exit interview form. Use the exit interview QR code to access the document.

This is the link to the exit interview form -

- 2. Trainer: Fill in the Position Task Book as completely as possible for this incident.
- 3. Trainer: Complete the ICS 225 performance evaluation and discuss with your Trainee. Make sure it's <u>signed</u> by both the Trainer and Trainee. Take a picture/copy of the ICS 225 and send it to imt2training@gmail.com

The Training Specialist will send the training documents to the email address you provided. For training related questions, call/text Dominic Panno (TNSP) at 530-913-8251 or email- imt2training@gmail.com

Fire Friendly Finance Message

Yreka High School Rm 16

TEAM 2 FINANCE IS ONLY AVAILABLE UNTIL SUNDAY AUGUST 14TH AT 1600

AFTER THAT PLEASE FOLLOW FINANCE MESSAGE FOR TEAM 12

Team 2 Finance will accept electronic submission of documents, or paper copies. Please do not do both. Physical copies may be dropped off in the labeled boxes outside of classroom 16 at Yreka High School. Electronic copies may be emailed to 2022.mckinney.finance@firenet.gov.

DEMOB- Is in person only- No virtual demobs- Please bring your shift ticket books or CTR's in case we are missing something. Only 1 person per demob (CRWB or Strike Team Leaders). To expedite the demob process, put a remark in your CTR or S/T with your demob date so we can prepare your draft OF-288 or OF-286 before you come.

Please come see finance!!!!!

Resources report to McKinney ICP at the time noted.

DEMOB PHONE: 916-798-5238

20000 Block and ALL State Resources

Briefing, Feeding, Finance, Check-In, Demob, etc. are located at: YREKA FAIRGROUNDS
1712 Fairlane Rd, Yreka

DEMOB MESSAGE

Check the DEMOB list each morning. Only report to DEMOB at your scheduled time. Early admittance will not be allowed, this includes "starting the walk."

 Vehicle Inspection: The DEMOB Unit will inform you if the vehicle needs to be inspected. A Vehicle Inspection time will be provided when you initially arrive to the Demobilization Unit.

FINANCE MESSAGE

TIME UNIT (Personnel and Hired Equipment)

- CAL FIRE PERSONNEL- Make sure you have started your eFC-33's and update after each shift. Please
 make sure ePay schedules are up to date.
- HIRED EQUIPMENT SUPPLIERS- Check in with the Time Unit and drop off your agreements.
- SHIFT TICKETS- Available for agency line supervisors only and are in the Time Unit.
 - o Reminder VIN numbers must match contracts exactly.

COMP / CLAIMS

- DAMAGE CLAIMS- For all damages during fire suppression activities to property or vehicle, complete an ICS-213. We will need location, description of damages, and your contact information.
- WORKERS COMPENSATION- Supervisors should complete IIPP-15's and come to the COMP/CLAIMS
 Unit to enter into IAPS.

DIVISION / GROUP - LINE SUPERVISORS

Please turn in hired equipment shift tickets at the end of each shift.

FIRE SUPPRESSION REPAIR MESSAGE

Berms and push-piles should be spread to the extent feasible by back-blading with a tractor or with an excavator. Debris piled against standing timber should be pulled back while taking care not to damage growing stock with the tractor blade or an excavator bucket and thumb. At helispots, staging areas, and safety zones remove and/or breach berms so that runoff can be dissipated. Cross-drain these areas to effectively dissipate water as necessary.

Waterbreaks should be constructed at an approximately 45° angle at a minimum depth of 10" from the bottom of the cut to the top of the berm. Where possible, the discharge from the waterbreaks should be directed into vegetated areas to minimize erosive forces. Where dozerline or handline has crossed a watercourse, the channel should be cleared of soil and debris to re-establish the channel. Waterbreaks on handlines should be installed every 50' or closer as needed.

Waterbreak maximum spacing:	Grade	0-10%	11-25%	26-50%	>50%
	Spacing	0-200'	150'	100'	75'

Roads used in fire suppression activities should be left in at least as good a condition as they were found. Gravel and soil surface roads should be watered to prevent excessive dust formation. Where suppression activities have damaged or rendered road drainage facilities non-functional, waterbreaks or drivable drainage dips should be installed for drainage. Inside ditches damaged from suppression activities should be cleaned and left unobstructed.

If any archaeological resources are located during suppression repair activities, work will stop in that location and the Suppression Repair Lead will be notified.

MCKINNEY CA-KNF-006177

Report to the Yreka Fairgrounds DEMOB Trailer at your scheduled time.

Local Government Resources on CFAA

If you are demobing and there is no OES AREP there:

- ➤ Have the FSC or IC review and sign your 42s
 - You give the incident the pink copy
 - You keep the gold copy
- > You mail the white and green (if it has a green) to OES Headquarters per the instructions on the 42

OES JOB AIDS, FORMS, F-42 SAMPLES AND CFAA AGREEMENT

Your OES Fire & Rescue Assistant Chief Patrick Titus 916-634-9225

Human Resource Message

California Interagency Incident Management Team 2 would like to express their sincere appreciation for your dedication in helping to meet the incident's objectives and for the mutual respect displayed during the course of this fire. Please continue to be exemplary for California Interagency Incident Management Team 12 by performing to the best of your abilities and to continue to treat everyone with dignity, respect, and camaraderie.

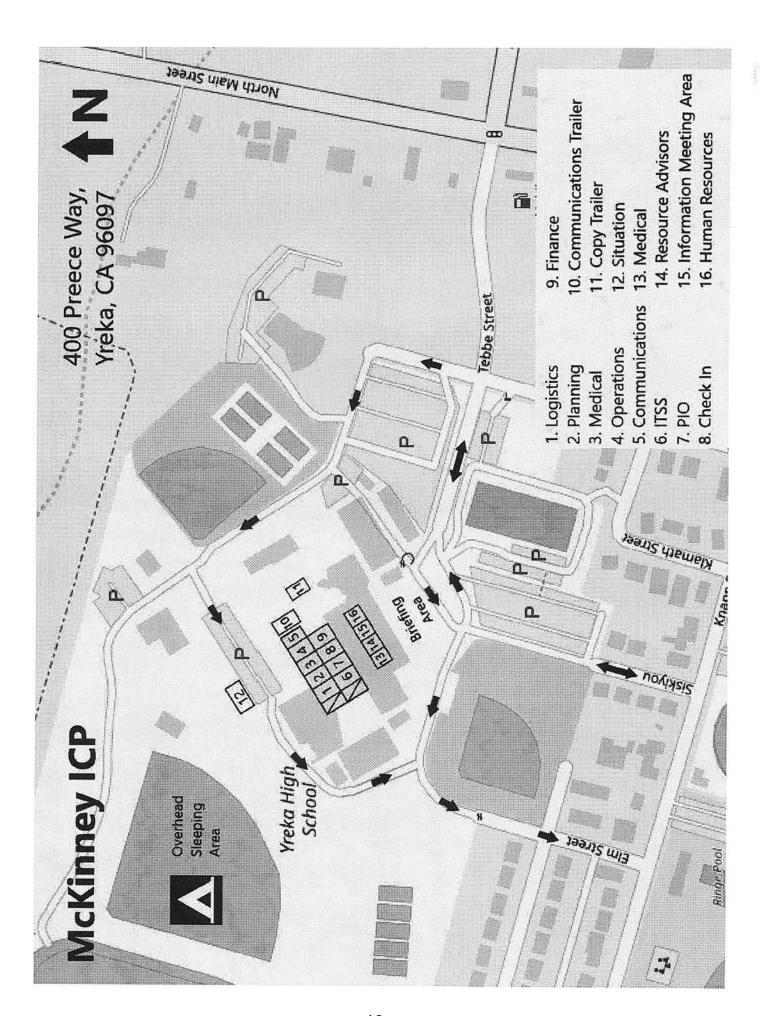

Outgoing HRSP

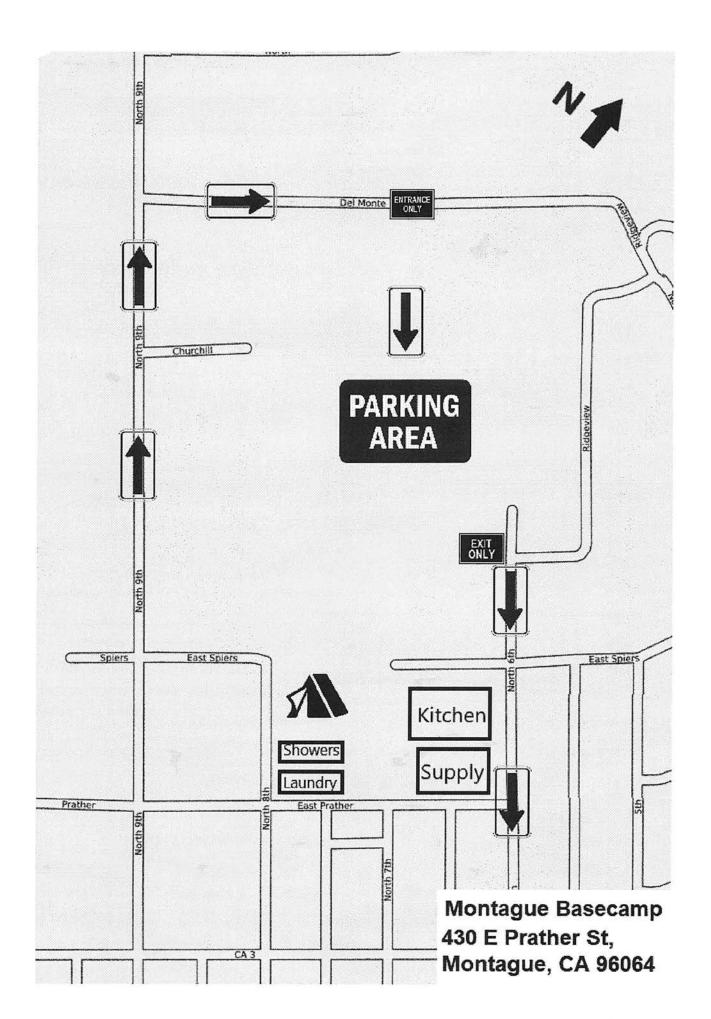

HRSP: Ryan Voelkl, 530-457-7276, ryan.voelkl@usda.gov

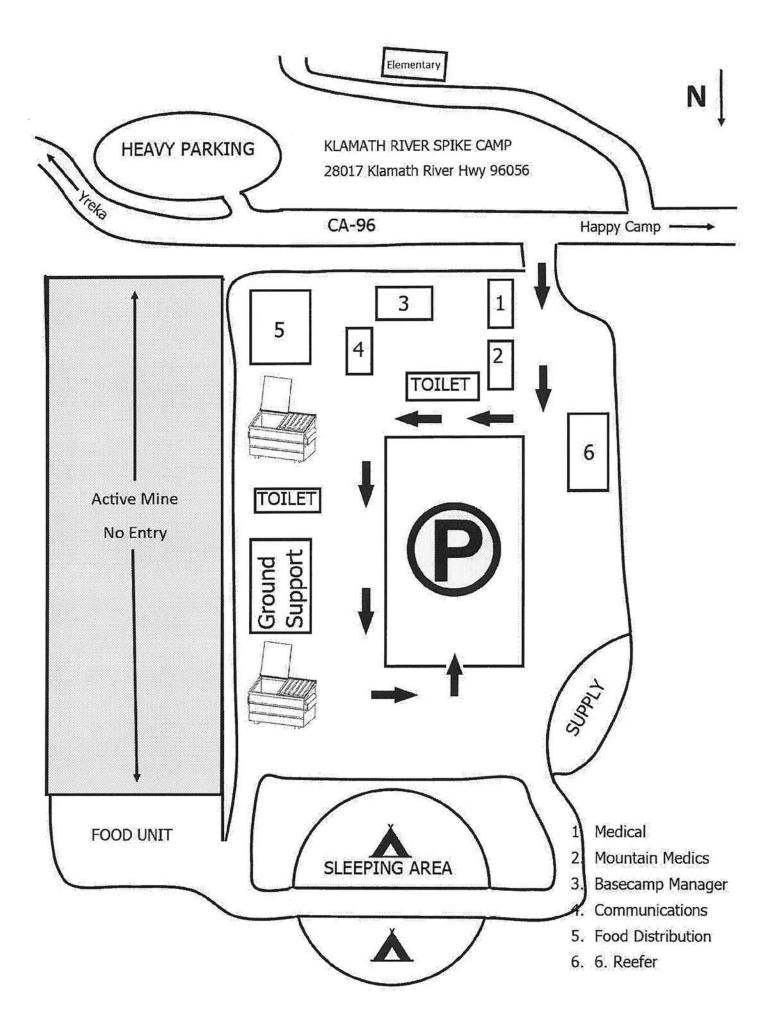

HRSP(t): Armando Vargas, 707-980-2864, armando.vargas@usda.gov.

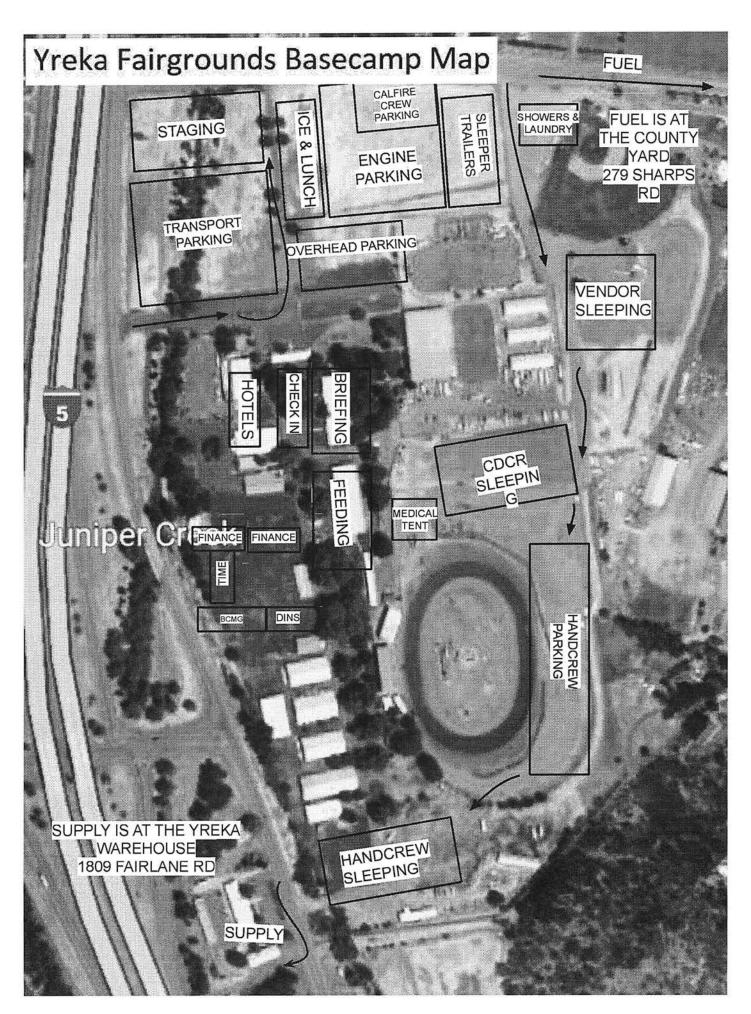

Incoming HRSP (arriving at 13:00 on 08/14/2022)

HRSP: Adrian Escobedo, 530-543-2758, Adrian.escobedo@usda.gov.
