# Health & Safety Message

Incident: McKinney Fire Date/Op Period: Day Shift 8/28-9/1/22

# Hazards & Risks

Wildlife & Livestock Encounters: Watch for wildlife and livestock within the fire area and along roadways. Bears are in the area. Avoid leaving food and trash in sleeping areas, along the fireline or at drop points. Secure your vehicles with windows up when parked in the field. Animals tend to be most active during the dawn and dusk hours when visibility is reduced on the road. Drive at "deer speed".

**ATV/UTV Safety:** UTV & ATV's are great fireline tools to expedite equipment and personnel movement around more remote areas of the fire, HOWEVER there are regulations that govern the operation and safety of the vehicles. Operators (drivers) must have had the appropriate level of training by their agency. Also, per Forest Service regulations a DOT full faced helmet must be worn while driving, along with seatbelts.

**Heat Related Illness:** Extremely high temperatures are forecast for the fire. Know the signs and symptoms of heat related stress. Staying well hydrated throughout your entire shift is essential. Good nutrition, fitness level and drinking plenty of electrolyte-replacing fluids along with frequent rest breaks will help reduce the chances of becoming sick.

- Understand that heat stroke is a life threatening condition!
- Review the signs & symptoms and patient treatment guidelines found in the IRPG

Hazard Tree Removal: When working in a Hazard Tree area there are increased risk for you, or your vehicle being struck by a falling tree. Select a safe spot to park your vehicle. Some environmental conditions that increase risks of working in these areas are strong or gusty winds, steep slopes, and fire weakened timber. Minimize exposure by limiting the amount of time you are in the area or staying out of the area all together. Use heavy equipment when possible. Use lookouts and maintain communications with lookouts. Always have a medical plan in place for the worst-case scenario.

Fire Weather and Behavior: The weather is forecast to remain hot and dry for the next week. Afternoon winds will be gusty and could lead to rapid rates of spread in the event of a new fire start. Plan accordingly, establish your anchor point and LCES early on. Brief your IA plan at the beginning of each shift and ensure a comm plan is in place.

# Finance & Demob Message

Contractors please be aware that per your contracts, the McKinney fire will only be able to reimburse hotel costs at the government rate which is \$96. Any overage will be an out of pocket expense. We will need your hotel receipts in order to pay for your hotel. Your food per diem rate is \$59, we will not require your food receipts.

The new number to call to start demob is (530) 572-1784.

All demob should be done virtually if possible. Please call this number first before starting demob. Thank you.

# COVID-19 PREVENTION INFORMATION MAINTAINING A HEALTHY WORKFORCE

from the COVID Advisor Team

All fire personnel are susceptible to contracting COVID-19. The health and well-being of all personnel must be a priority throughout the fire season. **Mask use, social distancing, and good hygiene** will support the health of fire personnel and are important ways to **prevent the spread of COVID-19 and maintain the health of all fire personnel.** 

# Self-Awareness/ Daily Health Screening

Separate yourself from others and notify your supervisor if you experience COVID-19 related symptoms (fever or chills, cough - more than expected, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, diarrhea). Supervisors will use COVID precautions and facilitate COVID testing at the identified COVID testing locations.

# **COVID-19 Testing availability**

Fairchild Express Care Clinic - 475 Bruce Street, Yreka; open 10:00-18:00, 7 days a week It is necessary to call the clinic at 530-842-3507 to schedule an appointment.

Testing at the clinic is for **symptomatic individuals only**. Self-test kits are available from the COVID advisor for those that would like to test without symptoms. Priority will be given to those with a COVID exposure.

If you test positive, isolate yourself and contact your supervisor and Patrick Yamnik (COVID Advisor) at 505-427-3361.

### Sanitary and Personal Hygiene Practices

Rigorous sanitary practices are important for reducing the transmission of infectious diseases. All personnel should cover their coughs and sneezes. Perform proper hand hygiene including handwashing or hand sanitizer use after touching potentially contaminated surfaces, removing face coverings, after using the restroom, and before eating or putting anything in their mouth.

# **Mask Wearing**

Mask wearing will be required when the Siskiyou County community level is high. The Siskiyou County community level for the week of August 28, 2022 - September 3, 2022 is **Medium**.
