FIRE WEATHER

OUTLOOK FOR TUESDAY: Cool and wet with highs upper 50s to lower 60s. Rain begins in the morning, heaviest in the afternoon and overnight. Southwest winds 5 to 9 mph with gusts to 20 to 30 mph over ridges in the afternoon and evening. Afternoon humidity 70-95%. Snow begins Tuesday night above 5000 feet.

EXTENDED FORECAST: Cold temperatures are expected Wednesday as the storm moves through, with lows in the upper 20s and low 30s, and highs in the upper 30s and lower 40s. Wetting rainfall with amounts of an inch. Accumulating snow with up to 4" of wet snow above 5000 feet, and light snow down to 4000 feet. Heavier amounts are possible on the higher mountains to the east of the fire. Dry weather returns Thursday into early Saturday. Morning lows will be around freezing Friday, with gradual warming for the weekend. Rain is possible late Saturday into early next week, but uncertainty remains high for exact timing and amounts.

FIRE BEHAVIVOR

Predicted Fire Behavior

November 1, 2022 – November 7, 2022

Wet and cold weather is expected to begin on Tuesday, November 1 and persist for 2-3 days. Although models still vary, it appears this weather system could bring 1"+ of rain and 1-4" of snow above 5,500 ft elevation. The amount and duration of the predicted precipitation could likely to constitute a season ending event for Northern California. Expect danger indices to drop below levels where active fire spread is possible and remain at or below seasonal averages for the foreseeable future.

Season Slowing/Ending Events

Season-ending event consists of a fire-stopping—sometimes referred to as a fire-slowing event(s)—followed by a persistent combination of environmental factors that mark the end of the fire season. These factors can include subsequent pulses of rain or snow, lower temperatures, higher relative humidity, a lower sun angle, and/or a shorter photo period.

Lookouts Communications Escape Routes Safety Zones

Mosquito Fire

Operation Period: 11/1-5/22 Extended

SAFETY MESSAGE

Ask yourself "What Can Go Wrong"

- Identify the critical elements of your plan, and ask "what if" a loss of one of these elements occurs.
- Develop a plan to deal with the problem before it occurs.
- Communicate the plan to all of your personnel.
- Validate the new plan to ensure it matches the current situation.

MAJOR HAZARDS AND RISKS

DRIVING
FATIGUE
PUBLIC IN FIRE AREA

HAZARD TREES
COMMUNICATIONS
WEATHER

HEAVY EQUIPMENT
COMPLACENCY
LONG COMMUTE TIMES

Be sure all elements of your safety plan are in place prior to engagement

Situational Awareness

Help maintain your Situational Awareness by doing the following:

- Constantly observing your environment.
- Interpret and process information received.
- Sharing information by discussing the situation.

Planning for Medical Emergencies

Ask and be able to answer these 3 questions

- 1. What are we going to do if someone gets hurt?
- 2. How will we get them out of here?
- 3. How long will it take to get them to a hospital?

All operational activities should be based on answers to these questions. See page 2 of the IRPG for more information.

Safety Officers Jeff Barnhart, Dan Harker

INCIDENT RISK ANALYSIS (ICS 215a)

DIV	HAZARDOUS ACTIONS / CONDITION	MITIGATIONS / WARNINGS / REMEDIES
ALL	DRIVING HAZARDS	 Potential for wet muddy roads, scout before sending heavy equipment. SLOW DOWN! Watch your speeds or come to the "front of the line" DEMOB Watch for rocks and wildlife, especially from dusk to dawn. Narrow, steep, unforgiving native surfaced roads within the fire area. Drive defensively! Expect the unexpected around every curve. Observe posted speed limits. Always use headlights
All	WEATHER	Be prepared for weather changes coming. Move equipment to better locations with the expected weather.
ALL	FATIGUE/COMPLACENCY	Be alert for signs of fatigue and take breaks as necessary. Maintain 2:1 work/rest ratio. Repeated assignments in the same area can lead to complacency. A feeling of being satisfied with your safety may be a sign of complacency.
ALL	HAZARD TREES	 Follow Hazard Tree Safety Guidelines (IRPG p. 22). Limit number of personnel around snags and their exposure time; fallers must be qualified for trees being fallen. Use all required PPE. Minimize exposure to personnel. Be especially alert around snags during wind events or changing wind direction.
ALL	LONG MEDICAL TRANSPORT TIMES	 Always be thinking "How are you going to move this patient to care". Incorporate transportation times into your "tactical operational plan". Don't rely on aircraft.
ALL	COMMUNICATIONS	 Answer questions when asked by others. Ask for intel when you don't know the plan. Ensure all personnel are familiar with the incident communications plan.
ALL	EXTREMELY STEEP TERRAIN AND RO	
ALL	CHIPPING OPERATIONS	 Ensure JHA is provided and signed by operator. Only qualified personnel will feed chipper. Wear proper PPE.
ALL	MOP UP	 Conduct thorough briefing for all personnel (inside rear cover IRPG). Use all required PPE, including eye protection. When looking at interior smokes determine if it makes tactical sense to send firefighters in.
ALL	HEAVY EQUIPMENT/DOZERS	 Utilize appropriate PPE and other equipment safety mechanisms. Take time to understand new types of mechanical equipment and their capabilities and limitations. Maintain safe working distances. Utilize observer or spotter. Ensure the use of effective communication (radio, hand signals).
ALL	NON-FIRE PERSONNEL IN AREA	 Educate and advise public of fire area closure. Use chain of command to request Law Enforcement if needed.
ALL	ENVIROMENTAL HAZARDS	 Manage trash in camp to avoid attracting bears Keep alert for wildlife, rattlesnakes, insects, and plants. Watch footing and hand placement around rocks. Pick up and remove all trash from fire line. Don't allow storage of food in tents
ALL	ATV/UTV USE	 Ensure equipment is inspected and safe to use. Ensure operator is trained and certified to operate. Ensure operator has proper PPE according to the Redbook/RMA.
ALL	INFECTIOUS DISEASE	 Maintain 6' foot distance whenever possible. Wear masks when appropriate. Do frequent handwashing/sanitizing and disinfecting common surfaces. Notify your supervisor if any symptoms arise.

WILDLAND FIRE COVID-19 SCREENING TOOL/ TESTING INFO

- Have you in the past 14 days, had contact with a person known to be infected with the Coronavirus (COVID-19)?
 - Today or in the past 24 hours, have you had any of the following symptoms?
- + Cough more than expected?
- + Fever? Chills?
- + Nausea or vomiting?
- + New loss of taste or smell?

- + Shortness of breath or difficulty breathing?
- + Sore throat?
- + Diarrhea?
- + Fatigue, outside your normal for firefighting?
- + Headache, outside your normal for firefighting?
- + Congestion or runny nose, outside your normal for firefighting?
- + Muscle pain, outside your normal for firefighting?

Preventative Measures:

Social Distancing and Protective Equipment

- Initiate, practice, and remind others of social distancing.
- Conduct briefings and conversations outdoors and at least 6 feet apart.
 - Utilize face coverings as a tool when practical.
 - Clean or replace dirty face coverings, equipment, and PPE.

Hygiene on the Fireline

- Properly wash or sanitize your hands often, especially before and after eating or entering a
 public place, and after coughing or sneezing.
 - Avoid handshakes and communal use items.
 - Maintain a supply of hand sanitizer and hand wipes.
 - Disinfectant high touch surfaces often:
 - Radios, phones, doors, pumps, fuel cans, etc.

Communications

 Face coverings and social distancing complicate communications. Ensure effective sender/receiver messaging.

Protect yourself, your module, your camp!

Incident Behavior

Fireline Handbook, Chapter 6 – Common Responsibilities

Inappropriate Behavior:

It is extremely important that inappropriate behavior be recognized and dealt with promptly. Inappropriate behavior is all forms of harassment including sexual and racial harassment and shall not be tolerated. When you observe or hear of inappropriate behavior you should:

- Inform and educate subordinates of their rights and responsibilities
- Provide support to the victim.
- Develop appropriate corrective measures.
- Report the incident to your supervisor, if the behavior continues. Disciplinary action may be necessary.
- Document inappropriate behavior and report it to the employee's home agency.
- While working in and around private property, recognize and respect all private property.

Drugs and Alcohol:

- Non-prescription unlawful drugs and alcohol are not permitted at the incident. Possession or use of these substances will result in disciplinary action.
- During off-incident Rest & Recuperation periods, personnel are responsible for proper conduct and maintenance of fitness for duty. Drug or alcohol abuse resulting in unfitness for duty will normally result in disciplinary action.
- Be a positive role model. Do not be involved with drug or alcohol abuse.
- Report any observed drug or alcohol abuse to your supervisor.

Finance Remote Processing Procedures

Use the QR code to the right to access electronic Finance forms. When the form opens, click the <u>download button</u> to open on your device.

On each form are four buttons PRINT, RESET, SAVE and EMAIL. You can complete these forms on your cell phone, tablet or laptop.

They are Adobe PDF forms so you will need a PDF reader app on your device. The Forms were created in android/PC environment.

To work with Apple use the Sync function. You cannot complete in the browser on your device.

Once you have completed the appropriate form for your resource please email to your supervisor for approval.

Supervisors can use their app to apply a signature or just type /s/ their name on the approval line.

After approving, please email the approved form back to the resource for their record and to finance at 2022.mosquito.finance@firenet.gov

Make sure you include in the subject line:

- Fire Name you are assigned to
- Your Resource Order Number
- Your Resource Name

Finance will be **closing** at the Placerville ICP at **1100 hours today** and relocating to:

Holiday Inn in Auburn 120 Grass Valley Highway

If you plan to demob in person at Placerville, you must show up before 1100 hours.

Finance should be fully operational in Auburn by 1700 hours

Contact Numbers:
Equipment Time: 510-495-9780
Personnel Time: 540-507-5898
Email: 2022.mosquito.finance@firenet.gov

*Resources:

You are still able to submit your documents in person either after briefing after or to Finance at the Holiday Inn Conference Room in Auburn.

Please send photos or electronic copies of Casual hire forms, contracts, Cooperative agreements, Vehicle inspection, Manifests and resource orders to 2022.mosquito.finance@firenet.gov

Mosquito - Demob Unit

The following process will demobilize you properly from the incident:

- At end of shift on your LWD (Last Work Day) stop by Check-in/Demob for ICS-221
 Check out sheet
- Check with following units:
 - Supply Unit return gear and supplies
 - o Ground Support receive inspection
 - Comms Unit return radios, tablets, or other comms equipment
 - Finance/Time Ensure all CTRs / Shift Tickets have been submitted and you have received your final, signed OF-288 or OF-286
- YOU ARE NOT DONE YET!!
- AFTER completing all above steps drop ICS-221 at Demob tent and have a safe trip home

Questions ??

email: 2022.mosquito.demob@firenet.gov

Call / Text 603-396-0923

Need Air Travel to get Home?

CONTACT DMOB AT LEAST 48-HOURS BEFORE DEMOB DAY

Information needed: Name EXACTLY as it appears on your identification, gender, date of birth, departure & destination airports, city for rental car return, your email and phone number

Mosquito Fire Demob 11-1-2022

For Flights scheduling call 603-396-0923 (72 hours prior to flight)
