Mosquito Fire Weather Forecast

FORECAST NO: 44

PREDICTION FOR: 0700-1900

SHIFT DATE: 10/23

FORECAST ISSUED: 1700 10/22

NAME OF FIRE: Mosquito

UNIT: CA-TNF

Incident Meteorologist: Eric Kurth

Signed: Eric.Kurth@noaa.gov, 605-484-1172

...Gusty Northeast Winds Today into Early Monday...

<u>WEATHER DISCUSSION:</u> Dry weather returns today, with breezy northeast winds. Humidity levels will trend down today, with moderate humidity recovery in the morning then dropping to 20-25% in the afternoon. Temperatures start the day very cool, in the mid-30s to lower 40s and then rise into the 50s. Monday trends warmer and drier, with humidity dropping into the upper teens. Temperatures cool Tuesday and Wednesday, with higher humidity and a slight chance of light rain.

Sunday Weather: Sunny. Lower humidity. Gusty northeast winds, especially in the afternoon.

TEMPERATURES: 58-64 below 3000 feet and 50-58 3000-5000 feet... up 4 degrees.

MINIMUM HUMIDITY: 20-25%...down 22%.

20 FT WINDS:

RIDGETOP - Northeast 6 to 12 mph with gusts to 22 mph.

SLOPE/VALLEY – Upslope 3 to 7 mph through 1200, becoming northeast/down canyon 5 to 8 mph in

the afternoon.

STABILITY/INVERSION: Inversion lifts around 1100. MIXING HEIGHT: 4500 feet LAL: 1

Sunday Night: Mostly clear and cool. Moderate RH recovery.

TEMPERATURES: 37-43...3 degrees warmer.

MAXIMUM HUMIDITY: 35-50%...down 25 percent.

20 FT WINDS:

RIDGET OP - Northeast 6 to 12 mph with gusts to 20 mph through 0500, then east-northeast 4 to 7

mph with gusts to 14 mph.

SLOPE/VALLEY - Northeast 5 to 8 mph early, then becoming down canyon 4 to 7 mph at 2200.

STABILITY/INVERSION: Weak inversion setting up in the early morning. LAL 1

<u>OUTLOOK FOR MONDAY</u>: Humidity recovery Monday morning is expected to trend lower, around 30-40%, dropping to 15-20% in the afternoon. Mostly sunny. Temperatures will warm up a few degrees in the afternoon. Northeast winds 6 to 12 mph with gusts to 15 mph in the early morning, then shifting to southwest 4 to 7 mph with gusts to 12 mph.

EXTENDED FORECAST: Temperatures trend down and humidity trends up Tuesday into Wednesday. There is a slight chance for light rain late Tuesday into Wednesday. Dry weather returns Thursday, with

3

another possibility of rain for the weekend.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 31 TYPE OF FIRE: Wildland

FIRE NAME: Mosquito CA-TNF-001371 | OPERATIONAL PERIOD: 10/21/2022 - 10/23/2022

DATE ISSUED: 10/20/2022 TIME ISSUED: 15:00 Hrs.

UNIT: Tahoe and El Dorado NF. SIGNED: Departure of the control of

INPUTS

WEATHER SUMMARY: Friday will see increasing SW to W winds ahead of an approaching system, though these winds will be accompanied by increasing RH values and lower temperatures. Precipitation chances highest Saturday. Northerly winds and lowering RH on Sunday may impact the area.

*See daily Weather Forecasts for details *

	Day	Night
Sky Weather	Increasing clouds Friday and Saturday, clearing Sunday	Generally cloudy through Saturday evening, then clearing
Temp (F)	Cooling, upper 70s Friday, then upper 50s	Much cooler, low 40s to upper 30s
RH %	Mid 20's on Friday, then increasing to near 50% Saturday and dropping to teens Sunday	Much better recovery over 50%, near 100% Saturday.
20 ft. Winds	Winds increasing Friday through the forecast period. SW to W winds Friday and Saturday become northerly Sunday. Gusts 20-25 mph.	Strongest winds expected Friday night into Saturday morning. Gusts reaching near 30 mph. General winds will overpower diurnal winds.
Stability	Increasing winds and instability will result in good ventilation.	Increasing winds and instability will result in good ventilation.

OUTPUTS

FIRE BEHAVIOR

GENERAL:

Fire activity and satellite heat detections have diminished in recent days because of consumption of most interior fuels. For Friday, potential for active fire spread remains in areas of isolated heat with unburned fuels or significant accumulations of needle fall. Increasing winds from the SW and W will be adverse to control lines on the eastern flanks of the fire, though limited residual heat, cooler temperatures, and increasing RH values reduce fire behavior concerns. Increasing overnight RH values will also reduce fine fuel availability and reduce fire behavior potential.

Saturday has the least potential for active fire behavior due to highest RH values, cloud cover and precipitation chances. There will be minimal fire spread and smoke production in these conditions, with low to non-existent flame lengths.

From Sunday onward, winds become more northerly with some periods of breeziness. Expect continued elevated overnight RH values but a drop in daytime humidity back to low 20's or upper teens. Residual moisture from Saturday precipitation should continue to limit fire behavior potential. However, if precipitation does not occur and winds impact areas of heat near control lines, moderate spread and low flame lengths are possible.

Consider reviewing pocket cards for local knowledge on fire environment triggers and thresholds:

El Dorado NF ERC Y Pocket Card: NOTE - wind *is NOT* part of ERC

Tahoe NF West Side BI Y Pocket Card: NOTE -wind **IS**_a part of BI

SPECIFIC:

Branch 10 (North): Increasing winds Friday and Saturday are across lines in Div. K&J, though no problematic fire behavior expected. Higher elevations have best chance for precipitation Saturday. **Branch 25 (South):** Increasing winds Friday and Saturday are adverse to lines in Div. M & R, though no significant movement expected due to elevated RH and reductions in overall remaining heat. Winds on subsequent days adverse to Div. Y & U, though no control issues anticipated. Best chances for precipitation at highest, eastern elevations on Saturday.

AIR OPERATIONS:

Air operations may be challenging as breezy winds develop and change direction over the coming days. Precipitation and clouds may also inhibit aerial operations. Fire behavior not expected to necessitate air resources.

SAFETY

The fire area has not had a significant wind test for multiple weeks. Though problematic fire behavior is not expected, winds can still have impacts on patrol and repair operations. Be aware of fire weakened trees, hangers, and widow-makes as winds increase and change direction.

6. Work Assignments:

Mop up unburned islands and secure control lines to keep fire within current containment lines.

Implement stage 1 suppression repair, while seeking opportunities to perform stage 2 suppression repair work.

7. Special Instructions:

- All DIV H/J resources will report to Sugar Pine Spike at the end of the shift. Meals and briefings with take place at Sugar Pine Spike.
- Utilize road guards and ensure good communication prior to entering traffic control areas.
- Do not cover primary control lines with combustable material.
- When cutting trees on private land, leave at tree length.
- Personnel must check in at Placerville then report to DP105/Mill Staging 5830 Sunset D. Forest Hill, CA

6. Work Assignments:

Mop up unburned islands and secure control lines to keep fire within current containment lines.

Implement stage 1 suppression repair, while seeking opportunities to perform stage 2 suppression repair work.

7. Special Instructions:

- DIV M/R personnel report to assigned locations at end of shift. Meals and briefings with take place at Stumpy Meadows Spike.
- Work with READs to limit impact to historical and cultural resources. When cutting trees on private land leave at tree length.
- Utilize road guards and ensure good communication prior to entering traffic control areas.
- Do not cover primary control lines with combustable material.
- Personnel must check in at Placerville then report to DP105/Mill Staging 5830 Sunset Dr. Forest Hill, CA
- ***NOT A FIRELINE QUALIFIED RESOURCE***

C Mark Assistance							

6. Work Assignments:

Implement road repair on NFS lands, identified in the suppression repair plan.

7. Special Instructions:

- Roads Group will report to Placerville Camp at the end of the shift. All meals and briefings will take place at Placerville Camp.
- Utilize road guards and ensure good communication prior to entering traffic control areas.
- If cutting trees on private land, leave at tree length.
- Personnel must check in at Placerville then report to DP105/Mill Staging 5830 Sunset Dr. Forest Hill, CA

INCIDENT RISK ANALYSIS (ICS 215a)

DIV	HAZARDOUS ACTIONS / CONDITI	ONS MITIGATIONS / WARNINGS / RE	MEDIES
ALL	DRIVING HAZARDS	Watch for rocks and w	ildlife, especially from dusk to dawn.
			your speeds or come to the "front of the line" DEMOB
			ving native surfaced roads within the fire area.
		Drive defensively! Exp.	ect the unexpected around every curve.
		 Observe posted speed 	limits. Always use headlights
All	WEATHER	Winds NE 10-15 gust t	o 2 5
		Winds will enhance wire	nd chill factor effecting resources at camps.
		Check for hazard trees	& "widow-makers" in sleeping areas prior to using
		Secure tents and other	loose items.
ALL	FATIGUE/COMPLACENCY	Be alert for signs of fat	igue and take breaks as necessary.
		Maintain 2:1 work/rest	ratio.
		 Repeated assignments 	in the same area can lead to complacency.
		A feeling of being satis	fied with your safety may be a sign of complacency.
ALL	HAZARD TREES	Follow Hazard Tree Saf	ety Guidelines (IRPG p. 22).
		Limit number of persor	nnel around snags and their exposure time; fallers must
		be qualified for trees b	eing fallen.
		 Use all required PPE. N 	Minimize exposure to personnel.
		Be especially alert arou	ind snags during wind events or changing wind
		direction.	
ALL	LONG MEDICAL TRANSPORT TIM		w are you going to move this patient to care".
		 Incorporate transporta 	tion times into your "tactical operational plan".
		 Don't rely on aircraft. 	
ALL	COMMUNICATIONS	Answer questions when	n asked by others. Ask for intel when you don't know
		the plan.	
		Ensure all personnel ar	e familiar with the incident communications plan.
ALL	EXTREMELY STEEP TERRAIN AND	ROLLING • Evaluate necessity to se	end personnel in areas with limited access.
	MATERIAL	Concentrate on your for	oting placement; take your time.
		Post lookouts to warn or	of rolling debris. SHOUT out to warn others.
		 Look Up, Down and Arc 	ound Frequently.
ALL	CHIPPING OPERATIONS	Ensure JHA is provided	and signed by operator.
		Only qualified personner	el will feed chipper. Wear proper PPE.
ALL	MOP UP	Conduct thorough brief	fing for all personnel (inside rear cover IRPG).
	· ·	Use all required PPE, in	cluding eye protection.
		When looking at interi	or smokes determine if it makes tactical sense to send
		firefighters in.	
ALL	HEAVY EQUIPMENT/DOZERS	Utilize appropriate PPE	and other equipment safety mechanisms.
		Take time to understar	nd new types of mechanical equipment and their
		capabilities and limitat	ions.
		Maintain safe working	distances. Utilize observer or spotter.
		Ensure the use of effect	tive communication (radio, hand signals).
ALL	NON-FIRE PERSONNEL IN AREA	Educate and advise put	plic of fire area closure
7122	TOO THE TENSOR THE INT AMERI		to request Law Enforcement if needed.
ALL	ENVIROMENTAL HAZARDS		camps to avoid attracting bears
ALL	LIVINOVIEW AL MAZARDS		rattlesnakes, insects, and plants. Watch footing and
		hand placement around	
All	ATV/UTV USE		trash from fire line. Don't allow storage of food in tents
ALL	AIV/UIV USE		spected and safe to use.
			ned and certified to operate.
Al!	INFECTIOUS DISEASE		oper PPE according to the Redbook/RMA.
ALL	INFECTIOUS DISEASE		ce whenever possible. Wear masks when appropriate.
		· · · · · · · · · · · · · · · · · · ·	ing/sanitizing and disinfecting common surfaces.
1015:-		Notify MEDL if any sym

Mosquito Fire

Operation Period: 10/23/2022 Day Shift

SAFETY MESSAGE

Kinds of Fatigue and Different Stages:

Objective- Mental (Cognitive)

Reduced cognitive functioning and mental capacity.

<u>Physical</u>

Reduced bodily functioning and physical exhaustion.

Subjective- Symptomatic (Boredom) Feeling of tiredness, sleepiness or drowsiness.

The first step toward becoming a good decision maker on the fire line is to recognize that fatigue hampers your ability to make appropriate decisions- fatigue affects everyone. Fatigue has an impact on risk taking.

Studies that focus on how lack of sleep affects work performance during long shifts agree for people to perform well they should average one hour of sleep for every two hours of work.

Breaks are a hedge against fatigue. Fatigue can rapidly overtake you. Breaks of 5 to 10 minutes or more can keep performance from declining. The number and length of breaks should increase after 8 hours, because fatigue builds through-out a shift.

Questions to ask?

- Are we in a routine situation?
- Are we fatigued to the point where we think everything is routine?
- Are we dismissive to a hazard later in the season that would give more attention to earlier in the year?
 - What can we control currently?

"Be purposeful and don't allow yourself and others around to simply fall into automatic responses without pausing long enough to really take a hard look at the situation. Stay Engaged!"

MAJOR HAZARDS AND RISKS

EXTRACTION TIMES	ROLLING MATERIAL	HEAVY EQUIPMENT
LONG DRIVE TIMES	STEEP TERRAIN	HAZARD TREES
WINDS	WEATHER	COMPLACENCY

Be sure all elements of your safety plan are in place prior to engagement

California Team 10 Safety Officer, Frank Pingiczer

WILDLAND FIRE COVID-19 SCREENING TOOL/ TESTING INFO

- Have you in the past 14 days, had contact with a person known to be infected with the Coronavirus (COVID-19)?
 - O Today or in the past 24 hours, have you had any of the following symptoms?
- + Cough more than expected?

+ Shortness of breath or difficulty breathing?

+ Fever? Chills?

+ Sore throat?

+ Nausea or vomiting?

+ Diarrhea?

+ New loss of taste or smell?

- + Fatigue, outside your normal for firefighting?
- + Headache, outside your normal for firefighting?
- + Congestion or runny nose, outside your normal for firefighting?
- + Muscle pain, outside your normal for firefighting?

<u>IF YOU ARE HAVING ANY SIGNS OR SYMPTOMS HAVE SUPERVISOR CALL MEDL</u> <u>@ (530)400-0880 IF IN CAMP, OTHERWISE CALL VIA RADIO FOR FUTHER</u> INSTRUCTIONS.

Preventative Measures:

Social Distancing and Protective Equipment

- Initiate, practice, and remind others of social distancing.
- Conduct briefings and conversations outdoors and at least 6 feet apart.
 - Utilize face coverings as a tool when practical.
 - Clean or replace dirty face coverings, equipment, and PPE.

Hygiene on the Fireline

- Properly wash or sanitize your hands often, especially before and after eating or entering a public place, and after coughing or sneezing.
 - Avoid handshakes and communal use items.
 - Maintain a supply of hand sanitizer and hand wipes.
 - Disinfectant high touch surfaces often:
 - Radios, phones, doors, pumps, fuel cans, etc.

Communications

• Face coverings and social distancing complicate communications. Ensure effective sender/receiver messaging.

COVID Advisor Contact Information Joe Beck (Placerville) 405-435-1267j8

TRAINING SPECIALIST MESSAGE

With predicted inclimate weather, all Incident Trainees are strongly encouraged to:

- Register their assignments (If you haven't already done so)
- Update your training data ith the TNSP: (Change of trainer, etc)

Stay Ahead of Curve!

Trainees needing to register or finalize Incident Training Documementation Packages can do so by visiting the *Incident Trainee Web Page*. The site contains resources for <u>both</u> trainees and trainers. Please vist and bookmark the page to manage your assignment throughout the incident. Please take a moment to check the Message Board on the Incident Trainee Website for any important information / updates regarding training assignments on this incident.

Access the Incident Training Site by scanning the QR Code on the IAP Cover Page and selecting the "Training Link".

Reminder: To receive incident credit for assignments, trainees must register and finalize Training Documentation Packages with the Training Specialist.

Brad Smith, TNSP 209.770.4809 <u>bradley smith@firenet.gov</u>

Bill Fullerton, TNSP(t) 209.768.8786 <u>bill.fullerton@murphysfire.gov</u>

CAL FIRE FINANCE

Forward your final documents (invoices/shift tickets) along with demob time, company name and request number(s) to the email attached to the QR code below.

Please include name, phone number, and email address of person responsible for signing pay documents.

The Time Unit will contact you with any questions or corrections.

Local Government Resources on CFAA If you are demobing and there is no OES AREP there:

- > Have the FSC or IC review and sign your 42s
 - > You give the incident the pink copy
 - You keep the gold copy
- > You mail the white and green (if it has a green) to OES Headquarters per the instructions on the 42

OES JOB AIDS, FORMS, F-42 SAMPLES AND CFAA AGREEMENT

Your OES Fire & Rescue Assistant Chief Kit Bailey 530-307-1307

Finance Remote Processing Procedures

Use the QR code to the right to access electronic Finance forms. When the form opens, click the <u>download button</u> to open on your device.

On each form are four buttons PRINT, RESET, SAVE and EMAIL. You can complete these forms on your cell phone, tablet or laptop.

They are Adobe PDF forms so you will need a PDF reader app on your device. The Forms were created in android/PC environment.

To work with Apple use the Sync function. You cannot complete in the browser on your device.

Once you have completed the appropriate form for your resource please email to your supervisor for approval.

Supervisors can use their app to apply a signature or just type /s/ their name on the approval line.

After approving, please email the approved form back to the resource for their record and to finance at **2022.mosquito.finance@firenet.gov**

Make sure you include in the subject line:

- Fire Name you are assigned to
- Your Resource Order Number
- Your Resource Name

Resources: Please send photos or electronic copies of Casual hire forms, contracts, Cooperative agreements, Vehicle inspection, Manifests and resource orders to 2022.mosquito.finance@firenet.gov

COMP/CLAIMS Contact Is Virtual

Debra McClure 605-441-1004 (text or call with any questions)

Send Copy of (*scanned documents preferred***): OF 289 GM 213**

Supporting Documents: Photos, Cost Estimates, Etc

Email: debra_mcclure@firenet.gov

Take pictures and get the subject matter expert to sign OF289

Drop damaged items off at Supply

Human Resource Message

October 23, 2022

STRESS RELIEVERS

- Relax break the stress cycle; stretch, take a walk, deep breathing
- Eat three nutritional meals a day (Q: do MRE's count?)
- Eat healthy snacks
- Get enough sleep, take a power nap.
- Laugh!
- Look for healthy opportunities to relieve stress!

MOSQUITO FIRE DEMOB MESSAGE DMOB unit phone # 1 510-951-1476

Currently, the ICP at Placerville will be the main location where resources will be released. A tentative release page will be in the IAP identifying resources that are timing out and/or excess to the incident.

The time identified for your release is the time to report to finance. You can pick up the 221-checkout sheet in the morning prior to that and gather the other required signatures.

If you have checked out any communication equipment, you will need to return it to the communication trailer located at the Placerville fairgrounds.

For incident replacement, fill out a general message and send it electronically to the ordering manager at CHMT10ordering@gmail.com. If you have any questions, please call Tracey at 1-916-201-4366 and she can help you with the process.

There is ground support at Placerville for post vehicle inspections and fuel. Currently, vehicle inspections can be done at Sugar Pine so equipment does not have to travel to the ICP.

If you are at Sugar Pine, you may utilize sending in your finance documents electronically. Please follow the guidelines in the finance message and have **patience** when receiving your draft or final documents.

Finish the process by coming back to DMOB with your completed 221 or calling the number above to set your travel home.

REQUEST ACCESS TO ARCGIS FIELD MAPS

for interactive mobile maps and field data collection

STEP 1

Request a NIFC ArcGIS Account if you do not already have one

NIFC Account Request Form https://bit.ly/3OLBG1W

STEP 2

Request access to collect and/or view incident data

Email <u>Dawn_Hutchinson@firenet.gov</u>
Subject: Request Mosquito Access Include your name, position, and NIFC login in your email.

STEP 3

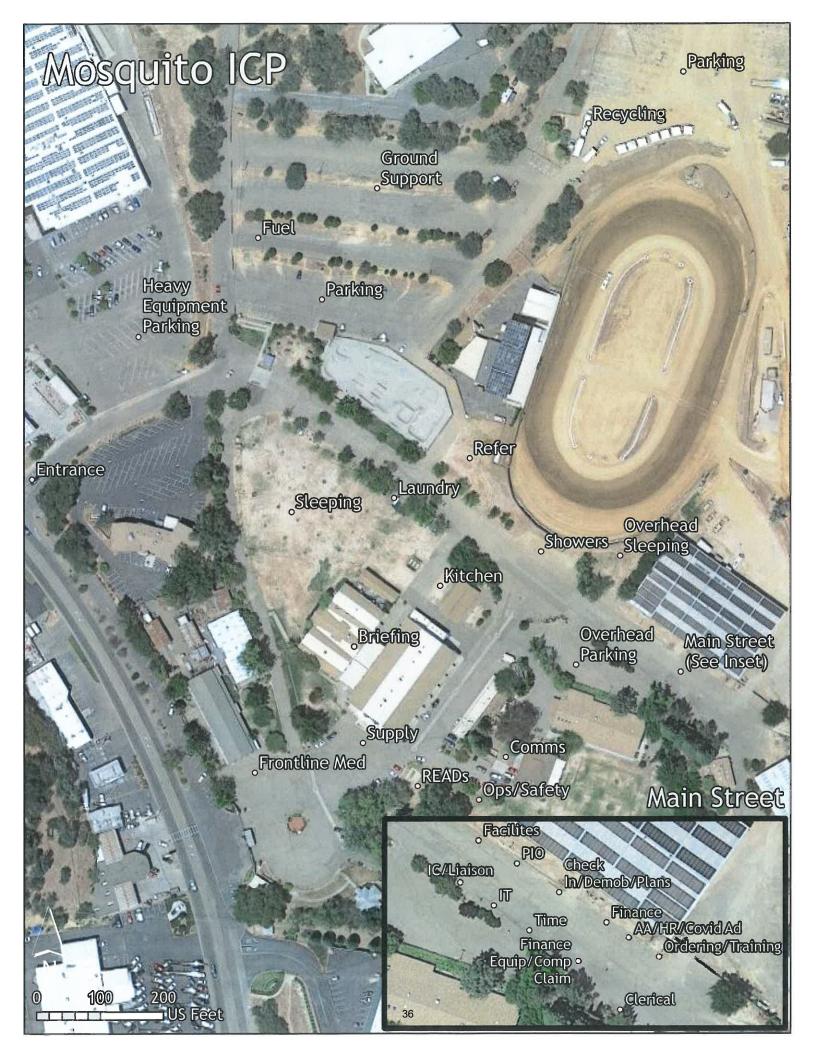

Download ArcGIS Field Maps app

 Search "ArcGIS Field Maps" in the App Store for iPhone & on Google Play for Androids Sign into your NIFC ArcGIS account through the app once installed

For More Instructions on how to use Field Maps, scan code below:
