INCIDENT ACTION PLAN MOSQUITO FIRE

CA-TNF-001371 P5P1W8220517

OPERATIONAL PERIOD

9/12/2022 0700

to

9/13/2022 0700

INCIDENT OBJECTIVES (ICS 202)

Nosquito Fire Time From: 0700 Time To: 0700 Time To: 0700 Eader's Intent	INCIDE	INI ODJECIN	169 (169 Z	.02)						
Control Objective(e): eaders Infant	1. Incident Name:	2. Operational Period:			Date To:					
An aggressive full suppression strategy will be implemented on the Mosquito Fire. Efforts will be made to minimize impacts to private property, critical infrastructure, commercial timber assets, and surrounding communities through the application of well-planned tactical responses. Management Objectives Ensure that strategies and tactics provide for firefighter and public safety through the application of sound risk management principles. Minimize the threat and impacts to private property, communities, natural and cultural resources, commercial timber assets, and critical infrastructure by employing tactics that have the highest probability of success while minimizing firefighter exposure. Establish and strengthen cooperator, partner, tribal, and stakeholder relationships through frequent, transparent, and open communication. Provide timely and accurate information regarding fire activity and potential smoke impacts to the communities, cooperators, and stakeholders through personal contacts, meetings, social media, and working closely with the local media outlets. Control Objectives Keep the fire South of Foresthill Road. Keep the fire South of Foresthill Road. Keep the fire East of Driver's Flat Road. Keep the fire West of Eleven Pines. S. Site Safety Plan Required? Approved Site Safety Plan(s) Located at: Cic 203			Time From:	0700	Time To:	0700

Mosquito Weather Forecast

FORECAST NO: 3

PREDICTION FOR: 0700-0700

SHIFT DATE: 9/12-9/13

FORECAST ISSUED: 2000 9/11

NAME OF FIRE: Mosquito

UNIT: CA-TNF

SIGNED: Ryan Walbrun-IMET Incident Meteorologist

WEATHER DISCUSSION: There will be a change in the large scale weather pattern today as an incoming weather system will push any remnant moisture well to our east. The main impact will be slightly stronger southwest winds on the ridges and above the canopy. This will help with better ventilation for the first time in several days as drier air aloft moves over the region. The weather system will keep temperatures running near or even slightly below normal. Winds will ease by nightfall with smoke settling over the drainages. Moderate to good humidity recovery with cooler overnight temperatures.

Monday Weather:

TEMPERATURES: 80-85 below 2000 feet and 75-80 2000-4000 feet. Coolest under thick smoke.

MINIMUM HUMIDITY: 25-30%...a trend of 2-5% wetter.

20 FT WINDS:

RIDGETOP - Light early then becoming Southwest 5-10 mph afternoon hours.

SLOPE/VALLEY - Light through midday then upcanyon 3-7 mph gusts 10-12 mph afternoon.

INVERSION: Moderate morning inversion slowly lifting by 1300 hours. MIXING HEIGHT: 5000 feet

Monday Night: Smoke settling over the area with easing winds and good humidity recovery.

TEMPERATURES: 58-64 a trend of 2-4 degrees cooler.

MAXIMUM HUMIDITY: 55-65% a trend of 5-10% wetter

20 FT WINDS:

RIDGETOP - Southwest 5-10 mph through sunset then turning Southeast 3-6 mph.

SLOPE/VALLEY - Evening upcanyons 4-8 mph thru sunset then downcanyon 2-5 mph

STABILITY/INVERSION: Strong inversion setting up overnight below 2500 feet.

OUTLOOK FOR TUESDAY: No big changes as a persistent trough sets up on the West Coast keeping Southwest winds in place. Temperatures trending near to below normal (74-84) with moderate humidity values of 28-38% afternoons and good recovery at night 60-80%.

EXTENDED FORECAST: A dry cold front on Wednesday will bring breezy Southwest ridgetop winds with gusts 20-25 mph possible. Temperatures will be seasonably cool in the 70s and lower 80s. A gradual rebound in temperatures Thursday and Friday but continued Southwest winds will be the dominant weather feature of note through the end of the week.

FIRE BEHAVIOR FORECAST

Jonathan Pangburn, FBAN

FORECAST NUMBER: 3 TYPE OF FIRE: Wildland

FIRE NAME: Mosquito OPERATIONAL PERIOD: 9/12-9/13, 0700-0700

DATE ISSUED: 9/11/2022 TIME ISSUED: 1900

UNIT: CA-TNF-001371 SIGNED: Jost M. Parkm

INPUTS

WEATHER SUMMARY:

INCREASED VENTILATION

Change in the weather, change in air mass. Increased ventilation. Cooler temps. Light wind.

Temp: 77-82 max; 60-65 min
RH: 25-30% min; 55-65% max
Wind: SW 5-10 ridges day; NE >5 night

OUTPUTS

FIRE BEHAVIOR

GENERAL:

Weather transition with better ventilation. Fuels remain critically dry with record-breaking ERC, BI, 100-hr, & 1,000-hr values.

In the absence of weather conditions outside the forecast or extreme fire behavior conditions expect:

	Max. Flame Length	Max. Rate of Spread	Spotting	Probability of Ignition
Grass	4-7' (1.2-2 m)	40-50 ft/min (0.7-0.9 km/hr)	< 0.2 mile (0.3 km)	65%
Grass-Shrub	5-10' (1.5-3 m)	25-35 ft/min (0.4-0.6 km/hr)	< 0.2 mile (0.3 km)	65%
Shrub	10-20° (3-6 m)	70-80 ft/min (1.3-1.5 km/hr)	< 0.4 mile (0.6 km)	65%
Timber Understory	5-10' (1.5-3 m)	10-15 ft/min (0.2-0.3 km/hr)	< 0.3 mile (0.5 km)	65%

^{**}minimum safety zone size is 0.8 acre (0.3 Ha) for a Strike Team of Engines in Brush.

SPECIFIC:

Branch III / V / XX / XXV: Areas of unburned fuels could present challenges to control lines. Watch for rollout. Potential exists for slope reversal and upslope runs, especially around Buckeye Point & Baltimore Mine Rd.

Branch X: Prominent ridgelines & large drainages in alignment with wind. Potential for larger growth in North Fork Middle Fork American River/Ralston Ridge/Mosquito Ridge & El Dorado Canyon/Deadwood Ridge/Chicken Hawk Ridge. American Fire area now 9-year-old Grass-Shrub.

Branch XV: Potential for fuels-driven fire. King Fire mix of 8-year-old Grass-Shrub and Timber Understory. If fire establishes in Rubicon River, watch for wind eddies driving fire in multiple directions & upslope run toward Big Grizzly Canyon. Long Canyon/Ralston Ridge in alignment with wind for possible upslope fire run.

AIR OPERATIONS:

Much better visibility as weather transitions. SW wind should ventilate fire.

Mixing height: 5,000 ft. AGL, Transport winds: SW 5-10 mph, Sunrise 0642, Sunset 1916.

SAFETY

Fire area with history of blowups, burnovers, and near misses: Ponderosa Fire (2001) and King Fire (2014). ERCs, 100-hr, & 1,000-hr fuels at record levels. Fuels can drive fire, especially as skies clear.

^{**}minimum safety zone size is 0.3 acre (0.1 Ha) for a Strike Team of Engines in Timber Understory, Grass, Grass-Shrub.

Fuels and Fire Behavior Advisory

Northern California

September 2nd, 2022

Subject: Potential for extreme fire behavior due to critically elevated fire danger indices, low live and dead fuel moistures, and very hot and dry conditions across much of northern California.

Discussion: An extended period of hot, dry weather with embedded periods of enhanced winds will impact Northern California. The elevated fire weather concerns with fuels reaching their yearly minimum moisture values will create conditions conducive to long range spotting, rapid fire growth, and high resistance to control.

Difference from normal conditions: The current values for Energy Release Component (ERC) are at or above the 90th percentile for the majority of Northern California, with live fuel moistures dropping to critical levels as herbaceous and woody fuels cure. These conditions will be exacerbated by a predicted heat wave, resulting in anomalous daytime highs with little relief in temperature or humidity recovery overnight. Some PSA's, may reach daily record ERC values, with all covered PSA's predicted to reach or exceed the 97th percentile for an extended period. The combination of extreme ERC's with high temperatures and poor overnight humidity recovery is highly correlated with extreme fire behavior in Northern California.

Concerns to Firefighters and the Public:

- The advisory coincides with the Labor Day holiday weekend that is likely to result in increased outdoor recreation and visitor use to public lands across Northern California. The increase in public use carries an increased risk of fire starts as well as potential for evacuations of visitors/ recreational users in the event of a fire starting.
- Energy Release Component (ERC) in areas covered by this advisory are at or above the 90th percentile and are expected to approach or exceed the 97th percentile. **Anticipate increased spread rates, long range spotting, and active nighttime burning.**
- The combination of persistent drought, a building heat wave, and a very dry atmosphere will continue to decrease already low fuel moisture values:
 - 1000-hour fuel moistures are below average and approaching the 90th percentile.
 - Live woody fuel moisture in brush is near or slightly below average, making them readily available and will likely reach critical levels because of the forecasted hot, dry weather.
 - The above average herbaceous fuel load at low and mid elevations (below 5,000 ft.) is fully cured, with high elevation herbaceous fuels rapidly curing during the hot, dry forecast.
 - o Higher than average surface fuel loading is present in areas that experienced winter snow and ice storms in the Coast Range and northern Sierra Nevada.

Expect fires to ignite easier and spread faster. Do not expect fires to exhibit reduced fire behavior when entering areas of live fuels; anticipate increased spread rates and spotting.

- Periods of enhanced winds are expected during the hot and dry period. Given the current and anticipated fuels conditions, increases in winds will make direct attack of any new starts difficult and may hamper use of aerial resources.
- Review the current North Ops Outlooks and national fuels and fire behavior advisories.

Mitigation Measures:

- Suppression actions need to be based on good anchor points, escape routes, and safety zones.
 Remember LCES. Experienced lookouts are essential under these conditions.
- Base all actions on current and expected behavior of the fire. Augment initial attack resources as incident activity dictates
- Fire managers should be aware of high use recreation and visitor sites in their area. The holiday weekend will bring increased visitor use, increasing risk of starts during critical fire weather.

Area of Concern: Northern California except for the following Predictive Service Areas: North Coast, Bay Marine, and west of Highway 101 in Mid-Coast to Mendocino.

Fuels and Fire Behavior Advisory

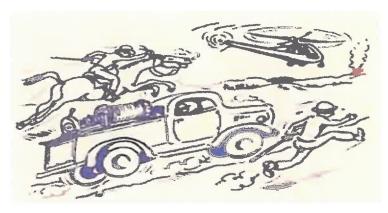

MOSQUITO INCIDENT – Safety Message

INCIDENT #CA-TNF-001371

DATE:9/12/22 to 9/13/22 TIME: 0700-0700

FIGHT FIRE AGGRESSIVELY, HAVING PROVIDE FOR SAFETY FIRST!

Suppression actions should be based on good anchor points, escape routes, and safety zones

PRIORITY SAFETY CONSIDERATIONS

- Know the plan, communicate the plan, follow the plan.
- Communications. Monitor channels adjacent to your work area, report discrepancies or problems.
- Open mine shafts prevalent throughout incident. If identified, flag and report latitude/longitude.
- Tree fall. Fire history in are provides large volume of previously fire weakened trees.
- Critically elevated fire indices, low live and dead fuel moistures; do not expect fires to exhibit reduced fire behavior when entering areas of live fuels

Planning for Medical Emergencies (see IRPG Page 2)

Prior to each operational period, Incident Commanders, supervisors, and all wildland firefighters need to ask and be able to answer the following three questions:

- 1. What are we going to do if someone gets hurt?
 - Are there personnel on your crew/division/fire that can provide medical support?
 - What type of equipment is available to treat and transport injured personnel?
- 2. How will we get them out of here?
 - Could you get an injured firefighter to a road or to a helispot?
 - How many personnel and what kind of equipment would you need to get an injured firefighter out?
- 3. How long will it take to get them to a hospital?
 - Where is the closest hospital?
 - Will you use air or ground transportation?
 - Could conditions change and affect the transportation timeline?
- Smoke/clouds/nightfall
- Fire behavior
- Mechanical failures

Risk Management Process: Implement the risk management process for all aspects of this ongoing event. The steps of the risk management process are:

- 1. Situation Awareness
- 2. Hazard Assessment
- 3. Hazard Control
- 4. Decision Point
- 5. Evaluate

(see page 1 of the 2022 IRPG)

Leadership:

Good operational leaders will:

- TAKE CHARGE of assigned resources.
- MOTIVATE firefighters with a "can-do safety attitude.
- DEMONSTRATE INITIATIVE by taking action in the absence of orders or direction.
- COMMUNICATE by giving specific instructions and taking feedback.
- ♦ SUPERVISE at the scene of action.

INCIDENT KISK ANALYSIS		ICS (215A) DAT/NIGHT SHIFT		
BR/DV	HAZARDOUS ACTIONS - CONDITIONS	MITIGATIONS – WARNINGS – REMEDIES Are you seeing what we have predicted? Conduct thorough assessments before starting work. Ensure LCES is in place. Plan & communicate your exit strategy with your crew and adjacent resources. Provide additional briefing for new resources and maintain communications. Outflow winds from thunderstorms could negatively affect fire behavior.		
ALL	FIRE BEHAVIOR			
ALL	TRAFFIC HAZARDS AND DRIVING	 Many roads are narrow and mid-slope, with soft shoulders. Allow heavy vehicles to pass on uphill side. Use spotters when backing or turning around. Practice "Defensive Driving" techniques. Assume other drivers are fatigued and complacent. Use warning lights when working on roads or traveling in smoke and heavy dust. Drive at or below posted speed limits. Use chock blocks, turn wheels into hill. Be alert for wildlife. Dusk to Dawn pose the greatest potential for accidents. UTV operators shall wear DOT approved helmets and have certification to drive. 		
ALL	HAZARD / DANGER TREES	 Follow Hazard Tree Safety Guidelines on page 20, IRPG. Limit number of personnel around snags and their exposure time. Fallers must be qualified for the trees being felled. Be alert around hazard trees during wind events, even green trees. The hazard zone extends a minimum of 2½ tree lengths. Avoid parking vehicles or taking breaks under or near hazard trees. 		
ALL	STEEP TERRAIN, MINE SHAFTS, ROLLING DEBRIS	 Maintain 8 ft 10 ft. spacing when working & walking. Do not work above any personnel. Flag mineshafts, advise Division and Safety Officer of the location. Evaluate necessity to send personnel in areas with limited access. 		
ALL	DIRECT / INDIRECT LINE CONSTRUCTION	 Establish and maintain LCES. Locate line in favorable location, lighter fuels, and gentler topography when possible. Utilize natural or existing barriers. Watch for and communicate spot fires. Stay in front of heavy equipment at least 100 feet or behind at least 50 feet. Do not approach heavy equipment until seen and acknowledged by the operator Watch for stump holes and ash pits. 		
ALL	HEAT RELATED ILLNESS	 Drink 2 bottles of water to 1 bottle of sports drink. Take frequent breaks, minimum of 10 minutes every hour. Recognize symptoms of HEAT RELATED ILLNESS which include low energy, cramping, headaches, dizziness, poor rest, poor eating habits, hot skin, and lack of sweating. 		
ALL	WILDLAND URBAN INTERFACE OPERATIONS	 Maintain continuous Situational Awareness based upon the fire environment, observed fire behavior, hazards and incident objectives. Refer to IRPG Page 11-15 for WUI preparation, preplanning, and hazards. Be active and engage in defense preparations & do not wait for the fire to arrive. Beware of unknown chemicals when working near structures or garden plots. Beware of downed powerlines. Be decisive in tactical engagement. Know when to engage or not. Establish management decision points, Safety Zones, TRA's, and Escape Routes. 		
ALL	AIR OPERATIONS	 Follow "Aviation Watch-Out Situations" on page 62, IRPG. Do not plan on air resources for tactical support or medical transportation. Refer to page 74, IRPG for directing bucket drops. Ensure positive communication with all air resources. Ensure crews are aware of water/retardant drop zones. 		
ALL	FIRING OPERATIONS	 Only personnel trained in the use of each devise will be authorized to use firing equipment. Ensure that all personnel are briefed and prepared for firing and holding operations. Ensure that all ground and aerial ignition plans are approved and signed by the IC prior to implementation 		
ALL	COMMUNICATIONS	Share your Situational Awareness (hazards, changes, etc.) to those who also have a need. Answer questions when asked by others. Ask for intel when you don't know the plan. Ensure all personnel are familiar with the incident and IA communications plans.		
	INCIDENT NAME:	OPERATIONAL PERIOD:		

Mosquito Fire

0700 - 0700

September 12-13, 2022

Date/Time Prepared: 09/11/2022 - 1400 hrs

REQUEST ACCESS TO ARCGIS FIELD MAPS

for interactive mobile maps and field data collection

STEP 1

Request a NIFC ArcGIS Account if you do not already have one

NIFC Account Request Form https://bit.ly/3OLBG1W

STEP 2

Request access to collect and/or view incident data

Email <u>Dawn_Hutchinson@firenet.gov</u>
Subject: Request McKinney Access Include your name, position, and NIFC login in your email.

STEP 3

Download ArcGIS Field Maps app

 Search "ArcGIS Field Maps" in the App Store for iPhone & on Google Play for Androids Sign into your NIFC ArcGIS account through the app once installed

For More Instructions on how to use Field Maps, scan code below:

MOSQUITO FIRE Finance Process CA-TNF-001371

All **FEDERAL Resources** for the MOSQUITO fire please use one of the following methods to turn in your Shift Ticket/CTR using the format showing under New Resources:

- 1) Email to: 2022.mosquito.finance@firenet.gov,
- 2) Drop off to Federal Finance in the 1st building on your left as you come into the Roseville Fairgrounds marked FINANCE.
- 3) Turn them into the Federal TIME person at briefing.

Submit Equipment Shift Tickets or Crew Time Reports (CTRs) daily.

FOR NEW RESOURCES CHECKING IN:

Please either email all document for your Federal Resource to 2022.mosquito.finance@firenet.gov or drop off all documents when checking in the building marked Finance after checking in.

Contract Equipment **MUST** have their INSPECTIONS prior to seeing Finance or submitting documents to the email.

Email Subject Line: TIME (or CTR, EQUIPMENT, SHIFT TICKET)/Resource Order No./ Resource Name/Position Code – in the subject line with your information

(Example: TIME/O-200/SBear/Safety)

Email or bring in all documents that pertain to your assignment:

Agency	Agency ADs /	VIPR Resources	Contract / Agency Crews	
Overhead	EFFs			Cooperators
Resource Order	Resource Order	Resource Order	Resource Order	Resource Order
Crew Time	Casual Hire Form	VIPR Agreement	Manifest	Agreement
Reports (CTRs)	CTRs	Schedule of Items	Agreement / Contract	Shift Tickets / CTRs
		Inspections	Schedule of Items	
		Shift Tickets	Inspections	
			CTRs	

Please include your email address and phone number in the body of the email when sending your documents.

Any questions, please call:

FEDERAL TIME: 510-507-5898 FEDERAL CONTRACT EQUIPMENT: 510-495-9780

COMP/CLAIMS

Elaine Downing COMP Unit Leader

928-486-5295

Elaine_Downing@firenet.gov

For federal employees associated with the Mosquito Fire, if you are injured, please contact the COMP UL for the Authorization for Treatment (CA-16). We can issue the form directly to the hospital or clinic, but we need full names and SSN for the required forms prior to being able to do that. The employee or supervisor should contact me as soon as possible or upon arrival at the hospital, whichever is convenient.

For claims there are different forms needed based on the circumstances of the property loss or damage. Please contact me first to find out which forms are appropriate for your situation, and what additional information might be needed. This will expedite the process. Unserviceable items must be turned into COMP/FINANCE if you are unable to replace at Supply. If items are lost or damaged on the fire line, the fire suppression module must provide a copy of the module's standard inventory with the documentation of broken or unserviceable items.

Motor Vehicle Accident	Property Loss or Damage of items that cannot be replaced in Supply
SF-91, Motor Vehicle Accident	TEAM 5 MODIFIED 289
SF-94 Witness Statement (if app)	

\$ FINANCE MESSAGE \$

Please No Off Site Feeding Unless Approved by a Finance Section Chief. Certain circumstances will need to apply for our approval.

CAL FIRE PERSONNEL

If anyone has any CalCard travel receipts and meal/lodging sign in sheets, please get a copy to Finance.

LOCAL GOVERNMENT RESOURCES

Make sure you check in with Finance for ABH or OES for F-42 Paperwork.

ALL HIRED EQUIPMENT

Make sure you get your shift ticket filled out by your **Division Group Supervisor or Supervisor each shift.**

ALL SUPERVISORS OF HIRED EQUIPMENT

Shift Tickets for hired equipment need to be signed and turned in to TIME daily. Ensure the shift ticket is filled out completely (including evaluation), accurately and legibly. **Example included in IAP**.

PROPERTY DAMAGE or INJURIES

Please report any property damage caused by suppression activities and/or injuries to the Comp/Claims Unit.

Cal Fire CISM Peer Support (916) 445-4337

Cal Fire Employee Support Services (530) 708 - 2702

STATE OF CALIFORNIA
DEPARTMENT OF FORESTRY AND FIRE PROTECTION
PROPERTY CERTIFICATION OF LOCATION OR DAMAGE
CERTIFICATE OF RESPONSIBILITY FOR INCIDENT OCCURRENCE
CAL FIRE 101(Rev. 1/07) page 2 of 2

NOTE: This form must not be used to certify lost, stolen or worn out property. A STD 152 Property Survey Report must be completed.

Instructions for Use of CDF 101 Property Certification of Location or Damage

Document Number: for use as a local number system or when attached to a FC-40 document.

Location / Incident Name: Enter the CDF facility property is assigned to. If submitting to an incident base, enter the incident Name.

Incident Number: Enter the appropriate incident number

Unit: Enter the Unit the property is assigned to. If submitting to an incident base, enter the request number of the person certifying damage example E-320, C-14 or O-355.

Region: Enter the CDF Region where the property was assigned. If submitting to an incident base, enter the CDF Region responsible for the incident.

Date: Enter the date the P.L.or D. was completed.

The following items were: Enter either 'Broken', 'Left on Line', 'Damaged' or other status of the property. Reminder, this form cannot be used in place of the STD-152 to certify Lost, Stolen, Worn Out or Damaged beyond repair property.

Date of Occurrence: Enter the date the property was broken, left on line or damaged.

Quantity: Enter the quantity for the line item.

Unit of Measure: Enter the unit of measure for the line item (example ea = each).

CDF Stock Number: Enter the PIN or stock number.

Description: Enter the description of the line item, indicate size, make, model and type. Clearly describe the item and provide adequate data to effectively identify equipment or property.

Property Number: Enter the CDF property number assigned to the line item, Capitalized or sensitive property must have their property number entered here.

Location of Items: Where is the property now (example, left on Division B night shift 8/1/04, Drop Point 2). A GPS coordinate, Station 22 or Unit Service Center may also be used to describe Location.

Remarks: Enter specific remarks here, how was the property damaged, what specifically is wrong with it.

Signature of Person Certifying Occurrence as Described:

Signature: The CDF Employee certifying the occurrence must sign.

Printed Name: Enter the printed name of the signature.

Title: Enter the title of the signature.

Date: Enter the date of the signature.

Unit Supervisors Approval:

If submitted on an incident this section must be completed by the supervisor of the property custodian. This may be the Strike Team Leader, Division Supervisor, Receiving and Distribution Manager, Supply Unit Leader, Logistics Section Chief, Agency Representative or Incident Commander.

If submitted at the home Unit this section must also be completed by the supervisor of the property custodian. This may be a Battalion or Division Chief.

Comments: Supervisors may enter comments of approval or disapproval.

Signature of Unit Administrator: Signature of Unit Supervisor reviewing the certification described.

Title: Title of the signature. Date: Date of the signature.

Notes:

This document is NOT required if exchanging property at an incident base with the exception of capitalized or sensitive property assigned a CDF property number.

This document is required as certification when submitting an MRT to your local Service Center for replacement of property.

An OF-315 (Incident Replacement Requisition) is required as authorization to purchase fire replacement items at your local Unit. This document is required when submitting an MRT to you local Service Center for fire replacement items. A CDF-101 and/or A STD-152 are required for the certification of the status of property being requisitioned for replacement.

STATE OF CALIFORNIA DEPARTMENT OF FORESTRY AND FIRE PROTECTION PROPERTY CERTIFICATION OF LOCATION OR DAMAGE CERTIFICATE OF RESPONSIBILITY FOR INCIDENT OCCURRENCE CAL FIRE-101 page 1 of 2 (1/07)

NOTE: This form must not be used to certify lost, stolen or worn out property. A STD 152 Property Survey Report must be completed.

PHOTOGRAPHS AND VIDEOS OF INCIDENT

Please use the QR code to upload fire-related photos and videos for public information. This really helps tell the fire story, shows the public your great work, and keeps the media and public informed.

*** Please refrain from posting incident-related videos to your personal social media. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera loses their situational awareness. When this happens it could reflect poorly on all that are attached to this incident. ***

MEDIA

The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property, and the news media may not interfere with incident operations. Please always treat the media with courtesy and respect and advise the PIO office if there are any issues.

FIRE INFORMATION

LOGISTICS MESSAGE

 We have included an updated Incident Base map and travel plan into the IAP.

**FOLLOW THE NEW TRAVEL PLAN

**<u>I-80</u> to <u>HWY-65</u> to <u>Pleasant Grove Exit</u> to <u>Washington Street</u> to <u>Junction</u>

- Please place all trash inside dumpsters or trash cans.
 Backhaul your trash off the line.
- Supply is now open. For all line orders, route through division and request through communications.
 Supply's hours are 0600-2200
- MKU: Breakfast 0500-1200 and Dinner 1700-2200
- Any requested to-go meals will need to be documented on an ICS-213 and MUST be to the FDUL 12 hours in advance.
- Ground Support is located at basecamp, contact the 24 hour repair line # (510) 507-1140 for repairs or issues.
- For Motels contact Nick at # 530-559-8313
- Fuel is set at Staging and at incident base

Trainee Success Starts Here

ARRIVAL AT INCIDENT

Check-In to incident
Check-In with Training (USE QR CODE IN IAP on TNSP page)
Check-In with Supervisor (Trainer)
Communicate goals with Trainer
Provide Trainer with your PTB
WHILE AT THE INCIDENT
Communicate daily with your trainer
Complete your 214's
Have tasks signed off in your PTB
AT THE END OF YOUR ASSIGNMENT
Collect PTB with signatures
Have trainer complete evaluation record in back of PTB
Have trainer complete trainee evaluation (225)
Complete exit interview (Use QR code in IAP on TNSP page)
THANK YOUR TRAINER!

Check-In

Emil (650)520-5102

- Contact Communications on Command and declare you have a RED IWI
- Following the 8-Line on the back of the IAP or page 118 of the 2022 IRPG
- Tell them Who you are, Where you are, What you have, and What you need.
- Update Communications once the patient has been transported.
- Close the loop with MEDL at the end of shift.

9. PREPARED BY MEDL - Robert Russell

- Contact Division / Communications and declare you have a "Non-Emergency Medical."
- Complete the 8-line if needed and turn it in to the medical unit at the end of the shift

ICP/Camp Emergencies

ICP- Dial 911

10. REVIEWED BY SOF1 - Dave Welch

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT: WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM COMMUNICATIONS

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree.

Requesting air ambulance to Forest Road 1 at (Lat./Long.)
"This will be the Trout Meadow Medical Incident, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency		□ RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.						
AND		☐YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary.						
Transport Priority		Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.						
(priority 1, 2, 3)		□GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport Ex: Sprains, strains, minor heat-related illness.						
	njury or Illness & sm of Injury	Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)						
	rt Request				Air Ambulance / Short Haul/Hoist Ground Ambulance / Other			
Patient	Location				Descriptive Location & Lat. / Long. (WGS84)			
Incide	nt Name				(Ex: Trout	Geographic Name + "Medical" (Ex: Trout Meadow Medical)		
On-Scene Inci	dent Commander				Incident (Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)		
Crew Pa	atient Care					Name of Care Provider (Ex: EMT Smith)		
3. INITIAL PAT	ENT ASSESSMENT	Complete this	s section for each patie	nt as applicable (start with the most	severe patient)			
Agency Affiliation	n: (NO PATIENT NA	MES) Federal Contractor		Local Govern	Local Government			
Patient Assessm	nent: Age:	Weight: Chief Complaint:						
(If pertinent to In	jury) Skin Signs:	(color/moist	ure/temp)	Level of Consciousness:	BP: HR:	Respirations:		
Treatment:								
4. TRANSPORT	PLAN:							
Evacuation Loca	ation (drop point, inte	rsection, he	lispot, Lat. / Long, I	hazards) Patient's ETA	to Location:			
5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:								
				rauma Bag - IV/Fluid(s) - Splint		tter - HAZMAT - Extrication		
6. COMMUNICA	TiONS: Identify St	ate Air/Grou	ınd EMS Frequenc	cies and Hospital Contacts	as applicable			
Function	Channel Name/Nu	mber	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *		
COMMAND								
AIR-TO-GRND								
7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.								
8. ADDITIONAL	INFORMATION: Up	dates/Change	es, etc.			- <u>-</u>		

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert - Keep Calm - Think Clearly - Act Decisively

*** Follow up with MEDL upon return to ICP ***
